A TWO EGGED MEASURE: House Bill Number 111, introduced by Representative Harry Buhl, is a two-edged measure which on the face of it appears to bestow considerable benefit upon the landowner who is himself facing suit for foreclosure.

Specifically, the bill gives to courts authority to set aside a mortgage foreclosure for a period of two years, without bond for judgment or interest. It shall be sufficient for the creditor to show that the mortgage was not made in good faith or for the purpose of defrauding the creditor.

It is but natural that he should look for the law to be applied in the case of out of state money which a law would have but little effect in that Federal courts are open to such an invader for foreclosure purposes and to attention whether the mortgage is given in Idaho or in another state.

The proposed law would be operative in the case of all private loans made by Idaho residents, or by building and loan associations or other entities which are organized in Idaho.

# MURTAUGH WOULD GIVE UP HOSPITAL

### Taxpayers' League Presents Recommendations for Cutting County Costs

Murtaugh Taxpayers' League is in favor of selling or leasing Twin Falls county general hospital. The resolution was adopted at a meeting held under the League's auspices and attended by about 90 persons at Murtaugh last Monday evening. These resolutions which were presented by a committee to Twin Falls county commissioners yesterday, also recommend consolidation of the offices of assistant director and county agent, eliminating the weed director; consolidation of the offices of assistant county agent and county stenographer; and a 35 percent salary reduction for county officers and employees with a minimum wage of \$75 per month.

Members of the committee told commissioners a series of resolutions, although adopted by unanimous vote, represented a compromise with more radical views of the Murtaugh meeting. Commissioners told the committee members a series of resolutions the past 18 months had brought salaries of county court-house employees down approximately 50 percent under the scale of two years ago. County officials' salaries have been reduced this year 10 percent under the scale of two years ago.

A committee composed of R. W. Day, president of the Murtaugh Taxpayers' League; M. L. Perkins and J. R. Boyington, also present at the current year, and Mr. Day also gave out an explanatory statement in which he said that "after studying the county budget" "we decided" "the only effective plan a cut in the largest item was made by reducing salary."

The text of resolutions was as follows: 1. Resolved, that we go on record as favoring cut in salaries of all county officials and their deputies of at least 25 percent of their present monthly wages with a minimum wage of \$75 per month.

2. Resolved, that we go on record as favoring the consolidation of the offices of assistant director and county agent, eliminating the weed director and the employing of one person qualified to perform the duties of both at a salary not to exceed \$1100 per year.

3. Resolved, that we go on record as favoring the reduction of salaries of all county officers to 75 percent of their present salaries.

4. Resolved, that we go on record as favoring the elimination of the office of weed director and the consolidation of the duties of this office with the office of the county agent for salary and wages for this office to be not more than \$1100 per year.

5. Resolved, that we go on record as favoring the selling or leasing of the county general hospital.

# ROSS CONTINUES SALES TAX STUDY

### Governor Replies to Twin Falls Protest, Asserting Real Property's Plight

Governor C. Ben Ross has not yet decided whether Idaho is to have a state sales tax. In acknowledging receipt of a resolution of protest, submitted by Twin Falls citizens yesterday, Governor Ross said in a letter to the Twin Falls Chamber of Commerce yesterday.

"Received your protest against the proposed sales tax, and while we are making a serious study of the situation, we have not yet determined what action will be taken. We do not have a desire, or a need in Idaho, for additional taxes, but at the same time some means must be found to relieve real property from the load it is carrying."

The resolution of protest adopted by Twin Falls citizens at a public meeting at the Park hotel last evening, a group of 16 citizens of proposed development of the new Rock Creek canyon park submitted by students of Miss Eva Martins high school and delivered in a contest for which the state of Idaho offered three prizes. It was an old bridge which was awarded first prize. Evelyn DeWitt took second prize with a view of the canyon in the vicinity of the Shoshone street bridge, and judges were unable to agree upon the third prize winner so that prize was divided equally between Eva Mae Sharp for her drawing of the canyon peak, the Southern Idaho Fish and Game department, and Orma Turner for another general view of the canyon. A striking black and white airplane view of the canyon park submitted by Marie Inness attracted much favorable attention.

The program of entertainment arranged by John E. Hayes, included a talk by H. G. Hargis, Twin Falls engineer, on his study of tree "rings" in relation to ecology and climate of the Snake river valley, and introduced to an appreciative audience a talented young woman entertainer, Miss Olive Brannen, Edmonston, Alberta, Canada, who is a guest at the home of her aunt and aunt, Mr. and Mrs. Alms Brannen. Miss Brannen played several violin numbers and gave a highly amusing French Canadian dialect reading, sang a group canon, and closed the program with an imitation of Scotch bagpipes rendered on the violin. Mrs. Nellie Coon sang two numbers, and played the piano, accompanied for the violin numbers, and as an introduction to Mr. Hargis's lecture she sang Joyce Kilmer's "Trees."

3. It would be difficult and therefore expensive to collect and there-fore a source of innumerable evasions if not rigorously applied.

4. It would constitute a burden upon the citizenry. It would not only add to the cost of the tax itself but in many instances would require extra bookkeeping and the expense of this for labor which they cannot afford to pay.

5. The actual revenue that would be derived from such a source after the cost of the manufacture of the tax is a highly debatable subject.

6. The prospect of a national sales tax would be a source of pride and satisfaction for the people of Idaho who would positively be pleased.

# I don't spend very much on Myself

BUT, believe ME, when it comes to what I smoke, I want it right!

You know how it is when a fellow is accustomed to smoking a good cigarette and he gets hold of one that isn't right. He's likely to get in a bad humor.

I am a great believer in the old saying that "quality will tell," and I have noticed that the things which come to stay are good things.

You can buy a package of good cigarettes for 15c. Six cents of this goes to the Government. So that outside of the 6c paid to the Government, you get a little over two cigarettes for one cent.

The right kind of tobacco, the right sort of paper—a cigarette that's pure and good-tasting and mild—that's the kind I want.

I have been smoking CHESTERFIELDS for a long time. They are mild and yet they satisfy.

**Chesterfield**—the cigarette that's milder the cigarette that tastes better
