BUSINESS GAINS MAKE WAGE CUT UNNECESSARY

NEW YORK, April 13 (AP)—Employees of the American Smelting and Refining Company, who are to have a third pay cut which was to have been effective on May 1 as a result of the recent market improvement in metals markets, was learned in official quarters today.

The company planned to reduce salaries and wages 3 per cent following the earlier cuts of 10 per cent in 1931 and 10 per cent in 1932. The company said the action because of what the management interpreted as signs of an improvement in business.

It was said that the rise in silver prices was of particular importance to the company because of its large interest in silver properties.

AGED COUPLE GOES TO COURT WITH TROUBLES

NEW YORK, April 13 (AP)—Joseph Leasner, 76, and his wife of 40 years, Anna Leasner, 76, took their domestic difficulties to magistrate Thomas A. Austin today.

"We couldn't agree after the second year of marriage," she said. "He grabbed me around the throat, teased me about the room and told me to get out of the house. He took my clothes locked up and I'd like to have them."

The couple married four years ago. Leasner replied: "Lived with one wife for 50 years and never had any trouble. I don't know what you're talking about. The grandchild and the great-grandchild hating in."

The court relatives of each side were in court. The magistrate called them forward, admonished them and directed them to leave the court and the Leasners walked out arm in arm.

FARLEY MOVES TO CUT INTRA-CITY POSTAGE

WASHINGTON, April 13 (AP)—Immediate enactment of legislation to give President Hoover's appointing authority to the post office was recommended today by Postmaster General Farley as a move toward reducing postage.

Farley said in a statement that reestablishment of the 2-cent rate for local mail was the first step in the program and indicated that if it resulted in increased revenue the reduction would be ordered generally.

Under the program, Mr. Roosevelt will be empowered to reduce rates in 1934, to lower or increase postage rates as increasing business or the needs of the postal service may make necessary.

Farley said an investigation by the post office showed that in one city a city can be handled without loss to the government for 2 cents.

CONGRESS HEARS CHIEF'S ADVICE

Brief Message Commands Legislators to Enact Law to Aid Home-Owners

WASHINGTON, April 13 (AP)—President Roosevelt's message to congress today follows: "As a further and urgent measure in the program to re-secure economic recovery, I ask the congress for legislation to take small home owners from foreclosure to relieve them of a portion of the burden of excessive interest and principal payments incurred during the past high-er values and higher earning power."

"Implicit in the legislation which I am suggesting to you, is a declaration of national policy. This policy is that the broad interests of the nation require that special safeguards be provided to insure ownership as a guarantee of social and economic stability, and that to protect the national credit structure, it is essential that the government enforce liquidation, in a time of general distress, in a proper manner."

"The legislation I propose returns the general-law-of-foreclosure to the normal conditions of the law."

"The terms of such an act to impose the least possible charges upon the national credit structure, consistent with the objects sought."

"I provide machinery through which the existing mortgage on small homes may be adjusted to a lower scale of value without loss of the equity of the mortgagor, and to allow lower interest rates and provisions for postponing both interest and principal payments in cases of extreme need."

"The resources to be made available for this purpose are guaranteed as to interest only by the treasury, while it is thought desirable during the period of those to whom other methods of financing are not available."

"All the details of the plan of adjustment will provide a standard which should provide an end to present-day foreclosing of small homes which equalize loss and deposit among both home owners and investors."

"The legislation of this character is a subject that demands our most earnest, thoughtful and prompt consideration."

FRANKLIN D. ROOSEVELT, THE WHITE HOUSE, April 13, 1933.

NEGROES FIND TRUCK WITH WOMAN'S BODY

NEW YORK, April 13 (AP)—The body of a partly-clad woman found by two homeless Negroes stuffed in a seamy truck, gave police a lead in the search for a missing girl.

The medical examiner's office said after an autopsy that the woman had died as the result of an infection from a wound in her throat.

The wound might have been the result of an assault or it might have been reached accidentally, the report added.

Investigators the woman had tried to find the woman here or that the woman was given non-professional attention were seen by Dr. Thomas A. Stewart, assistant chief medical examiner.

Other findings were: The woman, then in the middle of four or five days ago. That death occurred two days ago. That the woman was dead when placed in the truck.

The legs bore bruises, but it was decided the woman had been lying in the dead body into the small truck.

The woman was about 18 years old, of average height and the hands were calloused.

The clothing on the body was a dark dress, a pair of garter-socks and a pair of shoes.

The Negroes to whom the police they had been making their home under the approval of the Madison avenue bridge, they returned. They had spent the night there and then had gone on a two-path-ward expedition. When they returned they found the truck had been left under the bridge during their absence.

It was bound with rope, but not locked.

The police expressed the belief that automobile had been driven from the truck and is a lonely, deserted one.

HUEY P. LONG FACES CHARGES IN SENATE

Petition Signed by Score Of Citizens of Pelican State Alleges Dishonesty

WASHINGTON, April 13 (AP)—A petition signed by 36 citizens of the Pelican state who charged of personal dishonesty and corruption and said they could prove their charges.

Chairman George of the elections committee, to which the petition was referred by Vice President Garner, was unaware of its receipt until informed by newspaper men, however, said that if it contained anything that goes to the rights of the senator to remain in office, a "proper investigation" would be made.

Long waved away newspapermen when asked to comment. "I don't know anything about it and don't care," he said.

Long's name was on a list of formal charges, carried in the usual way without its having been put in the senate.

John M. Parker, St. Francisville, one of the petition signers, said that he had written a letter to the senate in a forwarding letter he said similar petitions would follow from "every parish in the state."

Other signers identified themselves as farmers, although a lawyer and a surgeon were included.

Can Furnish Witnesses The petitioners asserted they could furnish witnesses to establish that Long was "personally dishonest and immoral," and added that Long had "intentionally" repudiated to the responsible and law-abiding citizens of Louisiana.

They contended among other things, that Long had "created and maintained a system of bribery and corruption and debauchery unparalleled in the history of the state."

"Because of the corruption of the Louisiana legislature," they said, "there is no assurance in endeavoring to obtain relief by action in the courts."

"The only hope for relief is through the senate of the United States and federal agencies."

"Therefore we appeal to you, as president of the senate to cause the proper investigation to be conducted and reported."

"We request that you cause specific facts and instances in support of the above charges to be reported to the senate."

"Evidence is available, by the use of the proper processes of the law, to substantiate all charges."

Some of the charges made today were in a special senate committee investigation of the Louisiana election in which Senator Huey P. Long was defeated by E. A. Tamm.

IDAHO MINERS FIND VEIN LOST IN ROCK

BOISE, April 13 (AP)—A vein of gold-bearing ore, lost through a fault in the rock, has been discovered in the Golden Anchor mine in the Marshall lake district of Valley county.

"It means the mine is made," the mine said.

The mine was struck in the Golden Anchor camp several weeks ago. The nature of it was not definitely determined until miners received information from officers of the company.

The mine, which was promoted by Jay Cates, prominent Idaho mining man, was recently leased by the Broadway Trust, an Idaho corporation, one of the largest operating producers in the country.

The mine is a new discovery, which is a continuation of an old one followed until the fault cut off, according to the mine manager, Simon was a valuable asset, and it was widespread to a considerable extent, promising an excellent run.

He said the company planned to start a mill probably during the summer. A short run on selected ore last summer brought about \$1000 a day, Simon said, and enough was recovered to finance development work throughout the winter. Twenty men were kept busy.

The mine was discovered in what is known as tunnel Number 6, which is 1800 feet long.

Immediately, officers said, Cates was not active, but said Mrs. Coleman hired a chair at her home when he went to her home here in search of finding her alone, "talked to her."

CONFESSION LIBERATES MURDER-CHARGED MAN

ATLANTA, April 13 (AP)—A Negro convict today confessed the 1928 murder of Mrs. Robert E. Coleman, the wife of his young boss, in a confession which he made in a chain gang.

Dr. Blake, Negro burglar and convict camp inmate, told today he crushed Mrs. Coleman's head with a poker on the night of March 11, 1928, and that Robert Coleman, the husband, is not guilty of the crime.

Legal action to have Coleman's sentence lifted will be taken immediately, officers said.

President Works All Day And Often Half Of Night

Three Quarters of Circle On Clock Goes for Work—One Quarter—Sleep, in Presidential Schedule

(By The Associated Press) WASHINGTON, April 13—Round the clock with the president these days leaves a very simple division of time: Three-quarters of the circle—work. One-quarter—sleep.

No rise at 7:30 A. M. and even his upstairs study he is already going through mail and dictating at 10 A. M., when he goes to the executive offices in the west wing of the White House.

Works Past Midnight There Mr. Roosevelt stays until 10 P. M., gathering facts from his reports on plans, issuing orders, signing orders and dictating. He often stays until 12:30 A. M., when he goes to bed.

Secretary of the Treasury Woodin signs in with his quiet smile. Then there is another Secretary of State Hull. Another five minutes may be spent in the study.

Then there are two secretaries for Monday. Hundreds of letters arrive every day from organizations asking for messages from the president for a club anniversary, a tree planting, a state convention. Obviously according to these requests it is impossible to have done away with such activities in the White House. They have brought hours that might make a drop between crumb.

He attended the White House correspondent dinner in his honor, enjoying himself so much that he sang the songs and laughed heartily at the sallies of the group. The other night he led the White House orchestra for a concert.

But even Sunday means work. The second Sunday in the White House, while checking governmental machinery, he found a new assignment for Monday.

He dined for party leaders, and shortly the house had his terse message asking for the beer bill—and

MITCHELL FACES OTHER CHARGES

Federal Grand Jury Indicts New York Financier For 1930 Tax Evasion

NEW YORK, April 13 (AP)—Charles E. Mitchell, former chairman of the National City Bank, was indicted a second time by a federal grand jury today, this time for alleged evasion of a \$16,761.90 income tax for 1930.

Three weeks ago the banker was indicted for alleged evasion of a \$78,212.11 income tax for 1929.

The government contends Mitchell's net income was \$2,822,058.65 for 1930 and \$700,800.00 for 1929, a total of \$3,522,858.65; that he should have paid taxes on that income totaling \$770,102.50; that actually he paid no tax for either year.

The first indictment followed shortly after the 85-year-old banker testified before a senate committee that he created a trust on his private books by selling stock to a member of his family in 1929, and that he later bought the stock back.

The indictment was based on that testimony—and a subsequent investigation—of the Mitchell case—begin set for Monday.

For 1929 Mitchell had reported a net loss of \$48,000. For 1930, however, he reported a net income of \$559,740 and then, by deducting certain dividends received during the year from stock on which taxes were paid at the appropriate 30% rate, he reported a net loss that he figured no tax was due.

The new indictment sets forth that Mitchell in 1929—income for 1930 was as follows: "Salaries, wages and commissions, net of tax, \$18,732.83; interest on bank deposits, notes, corporation bonds, and so forth, \$14,291.74; interest on life-insurance contracts, \$17,500.00; profit from sale of securities, \$75,599.33; dividends from domestic and foreign corporations, \$1,813.68; director's fees, \$650.00; \$1,250,000.00."

85500; total, \$20,199.58. The gross income, less these deductions, gives the net income of \$659,740 as mentioned in the indictment.

How to make good coffee everytime

This is the new coffee and the new way to make it. Morning-after-morning it's always the same, delicious, crystal clear. How many times have you longed for it—mornings when you blamed the coffee pot, the coffee, the water, the timing. Try this new way!

Use a Drip Coffee Maker—a simple device that permits fresh boiling water to filter quickly and only once through a special coffee-and-filter paper (see illustration). Specially prepared Schilling Drip Coffee. It is specially blended, specially roasted and specially ground for the Drip Process. No standard coffee is suitable for the rapid one-through filtration of this method. Grinding it finer helps some—but not much. The Coffee must be specially prepared, so that all its rich fragrant goodness may be quickly extracted. A filter paper traps below the coffee, to let through nothing but the delicious healthful amber drops. Real Drip Coffee cannot be made otherwise. For your convenience, a sufficient number of filter papers (20 to the lb.) are packed in each Schilling tin.

Costs far less. First, you use far less coffee than with any other process (saves you over 1/2 per lb.). Then, the 20 filter papers in each tin of Schilling Drip Coffee save you 2c (regular retail price).

The Schilling Drip Maker shown here, is of sturdy enamel enameled by The Good Housekeeping Institute. The color

Accused in Prison Shooting

ARTHUR BARLOW (left) and his brother Lynn (right), Denver, were arrested at Leavenworth, Kansas, on charges of shooting from an airplane over the federal penitentiary there. They denied the shooting and said they flew to Leavenworth to visit their brother, Theodor, when his term for a liquor law violation expires. (AP Photo.)

SCIENTIST MAKES POULTRY PRODUCE DYED EASTER EGGS

(Associated Press Staff Writer)

CHICAGO, April 13 (Special to The News)—A scientist has produced Easter eggs before the egg is laid in these days of science.

Egg in color from heme granules and no yolk.

The pink egg "white" and pink yolk, respectively, produced the results of controlled feeding experiments in the laboratories of a Chicago food concern here.

Dr. O. Neal, head of the food house of experimental department, and his assistants laid out an experiment. The hens will be laying eggs with "white" and "pink" yolk.

They have proven, they said, that, by controlled feeding, it is possible to produce eggs uniform in size, taste, color of white and yolk, and vitamin content the year through.

In addition, they have achieved some results of interest to the Easter rabbit and farmers looking for this.

These results include eggs with "white" a deep pink and yolk varying in color from lemon to deep yellow.

Neal said an egg is 12 days long when it is laid.

He said that many things, it is possible, he said, by altering the hen's diet, new color for many of these eggs, as desired.

He said that no other difference in taste or good quality of the eggs, but variety and their shells are unaltered.

Chickens are fed with red and white with a reddish cast in their skin and yolk of the down, but as the eggs get their feathers they become conventional in coloring.

The combinations of grain and feed feeding are laboratory secrets.

IDAHO HORTICULTURISTS APPEAL TO ROOSEVELT

BOISE, April 13 (Special to The News)—A protest against federal appropriation to discontinue federal appropriations for the agricultural experiment stations and extension division was telegraphed to President Roosevelt today by the Idaho Horticultural Association.

The telegram was followed by a letter sent to all members of the national delegation in congress.

"We have been reliably informed, that there is a movement in congress to discontinue the agricultural experiment stations and extension activities," the telegram to the president said, "this is a very serious situation."

"A \$5,000,000 new and rapidly expanding fruit industry seriously needs the services of the university experiment station and extension activities," the telegram to the president said, "this is a very serious situation."

The telegram and letters were signed by Earl Dean, executive director of the Idaho Horticultural Association, and W. H. Wickes, secretary. Wickes also is state director of plant industry.

In the letter to the delegation, it was stated that P. Lee Johnson, commissioner of agriculture, is arranging for organized agriculture interests to send similar protests with the thought that Idaho should be the nation's horticultural "bea" influence to save what "we believe a most important and vital service to agriculture."

During 1932, 47 states issued 4,713,254 fishing licenses, received \$7,134,254 in fees, and spent \$34,825 in fish propagation.

The United States bureau of fisheries distributed 7,073,200 fish eggs, fry and fingerlings during the fiscal year of 1932.

Miss Winifred Fryer and Miss Annabelle Jacobson are sponsoring the program and Anna Kassar is general manager. The public is invited to attend.

CLUB'S MEMBERS AT ELMWOOD ASSEMBLE

FILER, April 13 (Special to The News)—Elmwood Social Club met at the home of Mrs. Charles Campbell, Wednesday afternoon, at Mrs. George Carder assisting the hostess. Roll call was answered with garden hats. Guy Harding was received as a new member of the club.

FIGHTER ON MERRIMAC SUCCEUMS IN ATLANTA

ATLANTA, April 13 (Special to The News)—Colonel J. A. Chamberlain, who fought on the Merrimac in the world's first battle of ironclads, died at his home tonight. He was one of the few survivors of that famous naval engagement.

"Colonel" Chamberlain—the title was honorary—was born near the mouth of the Merrimac and served on several Southern privateers during the war between the states.

SECURITY MARKET REGISTERS RALLY

Movements in Financial Exchanges Appear to Reflect Talk of Inflation

By JOHN OOLEY (Associated Press Staff Writer) NEW YORK, April 13—Security and commodity markets rallied today, in most cases higher, while the dollar had a severe shaking from inflation to foreign currencies.

These movements in financial exchanges appeared to reflect inflation talk, though an advance in the price of wheat, which the United States government loan offered evidence that optimism on this point is covering in many markets accounted for part of the buying.

Cancel Recent Losses Stocks up fractions to record 3 points. Industrial were best favored, for they, as a group, would benefit from higher commodity prices.

There was no change in the local despite the moderate rally, and extreme price by many European nations—rescued—impressive proportions but were reduced.

COURT ORDER PUTS LIMIT ON IDAHO'S MORTGAGE HOLIDAY

District Judge A. B. Barclay Orders Sheriff to Issue Deed to Purchaser of Farm at Foreclosure

Twin Falls county's sheriff, E. P. Decker, who was last week advised by Governor C. Ben Ross to refuse to issue a sheriff's deed for a 60-acre farm in Twin Falls under foreclosure proceedings more than a year ago, was yesterday ordered by District Judge A. B. Barclay, judge, to issue the deed. The sheriff complied with the court's order.

The previous refusal to issue the deed was based on the governor's advice that the deed would violate provisions of the governor's proclamation on March 24 of a 60-day state-wide holiday suspending all real estate mortgage foreclosures. The proclamation was issued under terms of chapter 124 of the 1933 Idaho session laws.

Granting an application for a writ of mandamus to require the sheriff to issue the deed, Judge Barclay held that title to the property vested in the purchaser at the sheriff's sale on April 2, 1932; that the purchaser could not be divested of title without due process of law.

At hearing on the application for the writ last Saturday, O. W. Witham, county attorney, introduced evidence a stenographic transcription of the governor's statements in a telephone conversation advising the sheriff against issuance of the deed. The property in question, a 60-acre farm northeast of Kimberly, continued in operation of Curtis O. Blaisell, former owner and mortgagor, who it was reported, has already planted some crops on it with the expectation of retaining possession under terms of the governor's proclamation.

The sheriff's deed was issued to Charles Z. Uhlig, mortgagor, who purchased the property at sheriff's sale, and who was represented by Ray D. Agee, Twin Falls attorney.

KIWANIANS OBSERVE EASTER DAY ADVENT

Kiwanians of Twin Falls observed the advent of Easter at their regular weekly luncheon meeting at the Park Hotel yesterday.

Dr. J. H. Longbrake, pastor of the Methodist Episcopal church, had charge of the program. A brief story of the cross was given by Mrs. C. W. Halsey, pastor of the First Presbyterian church at Buhl. A solo was furnished by Mrs. O. D. Dorrill and Mrs. V. V. Terry who sang solos. Mrs. Terry was accompanied at the piano by Mrs. Dorrill and Mrs. J. E. Hodgins.

PETITIONERS CALL FOR SPECIAL BEER SESSION

Petitions requesting Governor C. Ben Ross to call a special session of the legislature for the purpose of legalizing the sale of 2 1/2 cent beer in Idaho were circulated in Twin Falls business places yesterday. A check issued at 6 o'clock P. M. disclosed that slightly more than 100 names had been affixed to the petition. The 12 petitions were in the hands of the state attorney at the Nevada state line and fully reciting that the business people and citizens of the community are losing hundreds of dollars daily by the restriction of people who are drinking into Nevada where 2 1/2 cent beer is being sold, and feeling that our community is entitled to share in the profits and revenue that the state of Nevada is receiving from this citizens, and feeling that it would be to the best interest of the community to legalize the sale of 2 1/2 cent beer in the state of Idaho, sincerely request that you, the governor of Idaho, call a special session of the state legislature immediately for the purpose of passing legislation to legalize the sale of beer and wine as provided by the act of the congress of the United States.

SAMPSON SEES LIFT IN BUSINESS CONDITIONS

C. H. Sampson, president and general manager of the Sampson Mfg. Co. and founder of the Sampson trail was in Twin Falls yesterday on a business trip. He said that although conditions had forced the closing of some branches of the company, the fact that the Twin Falls store would remain open, and had been definitely established as a permanent branch of the organization.

FOUR LEASES DIVIDE MILNER FARM PROPERTY

Under four leases tenants will carry on 1933 operations on 200 acres of orchard and farm lands, north of Kimberly, belonging to H. O. Milner, Twin Falls. The leases were placed on record in the county recorder's office here yesterday. John Martell and George Martell leased one tract of 60 acres; Charles Brennan, 80 acres; Harry Heller, 40 acres; Archie Seward, 100 acres of potato ground to M. B. Osgood, Twin Falls, leased to H. L. Clark, Buhl, 80 acres in the Riverston district north of Buhl.

MORTGAGOR BUYS FARM FOR SUM OF JUDGMENT

To Duessa, Northwestern and Pacific Hypothecation, mortgagor, purchased at sheriff's sale last Tuesday an 80-acre farm, four miles south of Buhl, which was one time owned by G. G. Stratton and later by Alvin Harbour, former state commissioner of public works, according to a certificate of sale which Sheriff E. P. Decker placed on record in the county recorder's office yesterday. The purchase price was \$4500, which fully satisfied the \$4500 judgment, the certificate recited.

TWO OBSERVANCES MARK GOOD FRIDAY
