Prisoner Gets Break In Unwillingness of Prosecutor To Continue With Case

An intimation that District Attorney Matthew A. Brady, in the case against the two men, might again seek dismissal of the long-dormant murder indictment which came on the case in the past was the only official hint of the state's plans.

Frank Win Auland, Mooney's attorney, said he would not present any evidence which he had collected.

Each and every Chesterfield!

Each tray of CHESTERFIELDS from the cigarette-making machines passes under the watchful eyes of inspectors, trained by long practice to see flaws such as an end of torn paper, or a poorly filled cigarette.

And there's still another safeguard... two "electric detectives" on each packing machine. Electric fingers "feel" each end of every cigarette, and throw out every imperfect package.

Open your pack of Chesterfields, and look at them. It's no accident that every cigarette is round, firm and full. Somebody's been on the job every minute to give you what you want... a cigarette that's made right in every way, and that's milder and tastes better.

End-on, this tray full of fresh-made Chesterfields looks like a fine honeycomb. Inspectors, apart from long practice, remove with tweezers each torn or imperfect cigarette.
