WIFE OF KIDNAPED MAN RECEIVES NEW DEMAND FOR RANSOM

Negotiation Progressing in Gettler Kidnap Plot But No Communication Received in Robles Case

(By The Associated Press) LOS ANGELES, May 11.—While negotiating for the release of William F. Gettler from the hands of kidnapers apparently were progressing on the basis of a \$75,000 ransom demand, to which the family attorney quickly agreed, the invalid wife of the victim—tonight—received an entirely different demand for \$40,000.

Further complicating the situation, a second mysterious telephone call was made to the office of the attorney—Ernest E. Noon—today, in which the attorney informed of a demand for an amount of \$40,000, which the caller demanded \$15,000 and to which Noon reportedly agreed. The exchange of a million-dollar ransom for the life and freedom of the wealthy man, it was envisioned as the trust officer and bank figured in a conference with Noon, and the attorney made several telephone trips out of his office, stopping at the bank on one of them.

Secrecy Veils Progress TUCSON, Ariz., May 11 (AP)—Secrecy and silence veiled tonight William F. Gettler's progress in negotiations with the kidnapers of his six-year-old daughter June for the ransom of \$75,000. It was known that the kidnappers in regard to the public explanation that he could not pay the demanded sum.

Having proclaimed to the dozens of his neighbors that he had been able to act only \$10,000 and that there is no likelihood he will be able at any time to meet the demand, Gettler's wife today said she always had and always would be able to pay the ransom. She could not afford to pay off the \$15,000 mortgage on their mansion home in the style they apparently desired. She said her husband obtained the major part of all her earnings for several years.

INSULL GOES FROM JAIL TO HOSPITAL Former Utilities Magnate Released When Friends Provide Bail CHICAGO, May 11 (AP)—Samuel Insull, ex-convict, was today released from Cook county jail by friends who put up the \$250,000 bail.

Insull will rest in the hospital in a single room on the fourth floor of the Cook county jail. He was released without a court order. The superintendent said this was in repayment of Insull's contributions to the city's fire department.

Free after making a record bond which he had called "impossible." Insull was appointed next Tuesday he must have equality or not guilty to two charges. The federal government has assigned him. Then, too, a court will rule on his charge that he was "changed" after his escape from the Cook county jail.

IGNORES THREAT LONGSHOREMEN TO GO BACK TO WORK FOLLOWING STRIKE

Walkouts Continue to Cut Down Production of Automobiles, Shoes, Coal, Oil and Bread

(By The Associated Press) One of the nation's major strikes was settled last night as walkouts continued in other branches to cut down production of automobiles, shoes, coal, oil, and even bread.

In Galveston, N. J. Dwyer, president of the International Longshoremen's association in the Gulf, said nearly all the 6,000 longshoremen out on a strike for several days in Texas and Lake Charles, Louisiana, would return to work today under terms of a new labor contract.

The Bulk Motor company closed its plant at Flint, Michigan, 14 hours after union employes walked out on a strike for several days. The possibility of government intervention was suggested by one mediator board member.

Striking employes of the Brown Shoe company at Salem, Charles, Atton, Sullivan and Marysville, Oregon, today received a small check from a relative. Mrs. Langhank also recently inherited \$200,000, the actress said.

Parents of Miss Astor recently received a check for \$200,000, the actress said. The actress said she had inherited \$200,000 from her father's estate.

Parents of Miss Astor recently received a check for \$200,000, the actress said. The actress said she had inherited \$200,000 from her father's estate.

PORTLAND PLACES BAN ON NIGHT CLUB LAP-SITTING

'This ordinance,' he declared further, 'is necessary for the immediate preservation of public health, peace and safety of the city, and it will prevent a demoralization in social and moral behavior.'

The purpose of the law is to keep the girl entertainers where the city fathers believed they belonged—on the stage or in a cove area unobstructed by willing patrons. Stage shows are all right, the city feels, if the resort is a stage. But the floor shows are definitely out, at beer places and unless 500 square feet of floor is designated for entertainers and no one else.

Further tightening of beer regulations has resulted in an order from the Multnomah county (Portland) sheriff that employes of minors as bar-maids will not be tolerated. Proprietors who violate the order will be prosecuted for contributing to the delinquency of minors.

'No floor entertainer shall be permitted in any way to come in physical contact with any patron,' said the law. With an emergency clause attached, the ordinance was signed by Mayor Joseph C. Carson, Jr.

City Commissioner R. E. Bean, who proposed the statute, observed "this will prevent recurrence of the kind of incident which has occurred at the consumption of alcoholic beverages."

'I call myself a Borah Republican,' he said. 'There are thousands of Borah Republicans who know who will support the Republican party for the next two years. If the Melons, the Ogden Mills and the Morgans and other agents of big business don't party, you'll party with me.'

'On the other hand,' he continued, 'the Democratic brain trust have about finished the ruin of agriculture in America. If I am a candidate, I take my stand against the N. R. A. and the A. A. Between the two, business and farming will never get a square deal. The N. R. A. wedded to monopoly is pulling the finishing touches in killing the small business man. It is the card before the horse. Prices have increased but the turnover is smaller. What the farmers think of the A. A. and the preceding tax is shown in the franchise of the dairy-farmer in refusing to get in that profession.'

'His Artificial Stimulants,' he declared there could be no re-

SKIRMISHES DELAY SENATE'S VOTE ON CONTROL OF TRADE

Banking Committee Keeps Situation in Hand as Stock Market Bill Nears Final Action; Rails Score

(By The Associated Press) WASHINGTON, May 11.—Action on a multitude of conservative Republican amendments tonight forced the senate to defer a final vote on the stock exchange control bill.

As rapidly as the proposed changes intended to make the measure less severe were offered, they were voted down, but their authors, not deterred, then proposed them.

Further tightening of beer regulations has resulted in an order from the Multnomah county (Portland) sheriff that employes of minors as bar-maids will not be tolerated.

Although the authorizing measure, which was introduced by the Banking Committee, had a chance of being passed, it was rejected by a vote of 54 to 46.

Another, by the same author, would exempt telephone, telegraph and cable lines from the control of the Federal Reserve Board.

M'KAIG, CANDIDATE, HITS BRAIN TRUST

Idaho Granger and Former Progressive Calls Self Borah Republican

BOISE, May 11 (AP)—Ray M. Kaig of Boise, for many years prominent in the Grange and former leader of the Progressive party in Idaho, announced today he expects to run for congress in the second district but has decided on what ticket to run.

'I call myself a Borah Republican,' he said. 'There are thousands of Borah Republicans who know who will support the Republican party for the next two years. If the Melons, the Ogden Mills and the Morgans and other agents of big business don't party, you'll party with me.'

'On the other hand,' he continued, 'the Democratic brain trust have about finished the ruin of agriculture in America. If I am a candidate, I take my stand against the N. R. A. and the A. A. HOUSE PASSES ROAD BUILDING MEASURE

Legislative Body Approves Earmarking of Funds as Relief Move

WASHINGTON, May 11 (AP)—Riding down charges of "pork barrel" and "discriminations against industrial states," the house today passed a bill, 225 to 20, to earmark for road building \$400,000,000 of additional recovery funds expected to be appropriated before adjournment.

Although the authorizing measure, which was introduced by the Banking Committee, had a chance of being passed, it was rejected by a vote of 54 to 46.

Another, by the same author, would exempt telephone, telegraph and cable lines from the control of the Federal Reserve Board.

DUST STORM SWIRLS ABOUT NATIONAL CAPITAL, AND WALL STREET, AS GRAIN FARMERS VAINLY SCAN SKIES

Sand Swirls About National Capital, and Wall Street, As Grain Farmers Vainly Scan Skies

(By The Associated Press) WASHINGTON, May 11.—The worst spring weather in 40 years was whittled tonight by department of agriculture officials to have whittled another nineteen and a half million bushels of wheat from their May 1 crop estimate.

This would cut yesterday's estimate of 461,400,000 bushels for the winter wheat crop to 441,900,000 bushels. While officials were figuring that the continued dry weather was trimming almost two million bushels of wheat from the wheat crop that might be expected, clouds of dust, stirred by winds across the dry lands of the prairie states, began to settle over the eastern seaboard.

The weather bureau reported that no rain had fallen in the drought-stricken area during the past 24 hours and only scattering local showers during the past 48 hours.

Officials said in many areas affected by the drought farmers would not be able to grow any crops and benefit payments would be their sole source of income. These payments would be cut by 10 percent if the acreage which the farmers contracted to withdraw from production.

George E. Farrell chief of the wheat section of the administration, announced that the acreage of the wheat for spring of next year.

The administration already has said benefit payments farmers might be increased at the beginning of the marketing year on July 1.

The administration already has said benefit payments farmers might be increased at the beginning of the marketing year on July 1.

From One Extreme To The Other. ODDITIES of Life. Gratitude—Eleven years ago N. Tozo, a weary Japanese father, brought his 8-year-old twin, a boy and a girl, to the children's refuge hospital here. His mother died when they were two days old and there was no one to care for them. The babies remained three months. A year ago Tozo came in Japan and was hospitalized for the care given his motherless children. Physicians donate their services free of charge to the hospital. Small patients do so.

all the King's horses Humpty Dumpty surely was a problem after he fell from the wall. As a matter of fact reconstruction was impossible, in spite of the crew assigned the job. But sad to relate, a lot of conscientious wives are assuming a task almost as difficult with 'bargain counter' coffee. Oh, how hard they work—trying to boil, drip or perk a good rich flavored cup out of that brand that cost them a few cents less! If they only knew how many wonderful cups of coffee they could get from a pound of Hills Bros. Coffee. And if they only realized that the way to judge the economy of coffee is by the way they drink it—by the cup, not by the pound.

A RECOVERY TARIFF
At last the protective tariff emerges pretty well from political controversy and can be treated more nearly as a straight business or economic problem.

THE MAN IN THE STREETS
The man in the street has been for some time that we can't expect to sell abroad unless we buy abroad, that excessive tariff defenses everywhere have deepened depression and retarded recovery.

AND IT'S THIS THAT THE REIGN OF CRIME
In this America, where there were only 21 murders in London in a year, against 138 in New York city alone.

BACK IN WASHINGTON SOME GOOD MAN
Worked out a booklet of 114 pages of instructions to Democratic Candidates for Congress.

HERE ARE SOME OF THE SUGGESTIONS:
'Don't answer every charge that is hurled against you. Wait a week or so and give the voters a chance to cool down.'

and quote the Scriptures in your speeches.
'Don't hesitate to attach strings to the funds you pay workers who assist before the election.'

CENSORSHIP
Recently Dr. Paul Goebels, minister of propaganda, addressing the German Press Association, complained of the lack of constructive criticism in the press.

THOSE DAYS ARE OVER
An exchange call attention to the fact that in the days when Grover Cleveland was president, the good Democratic state of Texas had a drought.

BEHOLD THE CONTRAST
How do they do it?—Only 21 murders among London's 8,000,000 people last year! And all solved but one.

AND IT'S THIS THAT THE REIGN OF CRIME

RACING DEATH FOR LOVE, EPISODE OF THE GATE, MERCEDES, STRAIGHTAWAY, THE WOLF DOG, PLUS 2 CARTOONS - FAST COMEDY - NEWS

Man with the White House appointment.
Rep. Tom Blanton of Texas, drew applause from the Democrats and the other day when he announced that hereafter he would fight for the right of Congress not only to appropriate money but to say actively where and how it should be spent.

Through innumerable impromptu conversations in smoking rooms and hotel lobbies, though, the writer discovered something that intrigued him.
Not a few of these pleasure-seekers who had attained life's half-marks and called attention to people who had been caught and cramped in the 1929 crash and the long bank closing.

FINANCING. Match for a huge treasury offering of long-term bonds in June. Instead of predicted \$1 billion and may run as high as \$1.5 billion.

POLICES. New York authorities say that Treasury has tilted the soil very skillfully for this harvest. The preliminary cultivation helps explain a number of recent administration policies.

THE PAN-AMERICAN movement is becoming quite an extensive force. Every nation now pans America. Eh? What! Nobody pans the Good Times that are now here.

THE PAN-AMERICAN movement is becoming quite an extensive force. Every nation now pans America. Eh? What! Nobody pans the Good Times that are now here.
