Baruch Urges Elimination Of All Profits From War

International Financier, Addressing Army Industrial College, Pictures World Conflict as Horrible Lesson

WASHINGTON, June 23 (AP)—"Elimination of the nation's entire industrial man power and industries in wartime and the elimination of all profits from war through stringent federal control were advocated today by Bernard M. Baruch, international financier and chairman of the War Relocation Authority, at a dinner at the Army Industrial College, West Point, N. Y., today.

Baruch said virtual conscription of the nation's resources as well as its citizenship was vital to the nation's survival. He urged that a repetition of the "prostrating economic and social aftermath of the war" be prevented by a national conference on the economic and moral aftermath of the war.

PARAGUAYAN ARMY'S THIRD ATTEMPT TO STORM FORT FAILS

Bolivian Dispatches Tell Of Wholesale Slaughter In Sweeping Attack And Gallant Defense

(By The Associated Press) BUENOS AIRES, June 23.—Bolivian dispatches from the Chaco war front tonight claimed 2,000 Paraguayans had been killed or wounded in an "unsuccessful" attack on Fort Ballivan, backbone of the Bolivian defenses.

Wholesale slaughter of men under a withering artillery barrage on a front only half a mile long was described in the dispatches from La Paz, which asserted Bolivian casualties totaled only 91 dead and 170 wounded.

Several government denials have had it under study approval of the bill was pushed through congress just before the season closed. Sentiment against it has been concentrated to the chief executive.

Administration Promises Curb On Sugar Price

WASHINGTON, June 23 (AP)—American consumers were told yesterday by Dr. Fred Howe, consumer counsel of the farm administration, that sugar prices should not rise above the level of last February as a result of the administration's sugar program. The plan, which seeks to limit the supply of sugar coming on the American market to about the level of consumption, began taking effect today when imports of sugar from the Philippines filled the quota of 1,015,185 tons set for the islands. In order to avoid an increase in the cost of sugar because of the one-half cent a pound processing tax established under the plan, President Roosevelt lowered the tariff on sugar by the same amount. Some increase may occur over prices paid in recent months, Howe said, "because, in anticipation of a tariff reduction, the price shaded off from February 8, when President Roosevelt announced the sugar plan. On June 8," he added, "the actual tariff reduction went into effect. A half cent a pound comes off the tariff and a half cent goes on...

State Court Rules Upon Sterilization

ST. PAUL, June 23 (AP)—The state supreme court today declared it not against public policy to perform an operation to sterilize a man whose wife may not have a child without grave hazard to her life. The court upheld the Clay county district court which held Clarence H. Christensen of Moorhead did not have a cause of action against Dr. H. J. Thornby of Moorhead, a licensed physician and surgeon. Christensen claimed that on August 1, 1931, Dr. Thornby performed a vasectomy of sterilization operation upon him after his wife had experienced great difficulty with birth of her first child and had been advised it would be dangerous to her life to have another. Christensen charged that despite the operation his wife bore another child. He asked recovery of \$5000 from the defendant. Dr. Thornby, a member of the St. Ansgar hospital medical staff and prominent in Clay county medical circles, died last Sunday at home.

FERA Contracts For Meat Packing Cotton Purchase

WASHINGTON, June 23 (AP)—Ralph W. Hopkins, federal emergency relief administrator, said today his organization had contracts for handling 70,000 head of cattle a week in plants inspected by the bureau of animal industry. Various states have contracted for about 30,000 more to be packed in state inspected plants. This, he added, is the full capacity that all of the plants could allow for packing relief cattle because their buying power is limited. The relief administration this fall will push its plan for making bedding for the needy. The administration will purchase at least 250,000 bales of cotton to be made into quilts and mattresses in relief work-rooms. Hopkins said it had found cattle and calves had been purchased in the drought areas of Minnesota, Wisconsin and the Dakotas. In connection with general grants of relief funds Hopkins also announced 75,000 men and women students in universities and colleges throughout the country were helped to complete their courses during the semester just ended. A total of \$4,500,000 of federal funds went for this purpose.

Collapsed Building Condensed, Sending Seven To Hospital

CHICAGO, June 23 (AP)—An ancient frame house, hacked into kindling by children of the neighborhood, tumbled down, on their heads yesterday and sent six boys and a girl to a hospital, three of them critically injured. Building inspectors had condemned it, police had promised to keep people out, and the owner had been warned only yesterday to board up the place or tear it down. Nonetheless, a swarm of youngsters were prowling around the second floor of the 45-year-old empty building, prying at loose boards and picking away at the brick chimney when the weakened girder sagged, swayed and then crumbled, letting the roof collapse on the children. Several screaming, cleared the wreckage, but seven were trapped in the tons of timber and bricks.

RFIC Begins Direct Lending To Industry

WASHINGTON, June 23 (AP)—The Reconstruction Finance Corporation yesterday began direct lending to industry. Chairman Jesse H. Jones said the corporation board approved approximately \$500,000 worth of industrial loans. He would not disclose names of borrowers. The corporation plans to spread its pool of \$300,000,000 for this purpose as widely as possible through participation in such loans by the federal reserve banks and ordinary banks. Jones said industrial advisory boards would be formed in each place where the corporation had a loan office and that these committees would assist in examining loans. It is planned to end the lending program in January. The loans were authorized under legislation recently passed by congress. The loans made today were to concerns which have had applications with the corporation sometime under the community mortgage company plan. Startling price reductions, just announced, place Chevrolet further ahead of its field than ever—in price, quality and value. In the face of the biggest demand in years, right when the trend toward Chevrolet is at its peak, Chevrolet reduces prices! No wonder America was startled when this news flashed across the country just a few days ago. And now that the public has had a chance to figure out what this price reduction means in terms of greater value, the news becomes even more important than before. Because it means that Chevrolet now offers you a big, substantial, quality car with the famous valve-in-head engine for as little as \$465, f. o. b. Flint, Mich.—making it by far the lowest-priced Six in the world. It means that you can get enclosed Kneec-Action, Blue-Flame performance, cable-controlled brakes, and all the other big advancements of the day, for as much as \$35.00 less than before—and Chevrolet's former prices were already among the lowest of the low. It means, in short, that Chevrolet now presents America with the finest but the low-price field has ever seen. CHEVROLET MOTOR COMPANY, DETROIT, MICHIGAN GLEN G. JENKINS Chevrolet Twin Falls

Justice is supposed to be free, yet on Friday last a convicted man was executed at Canyon City, Colorado, without appeal to the Supreme court because he had no money with which to make the appeal.

There is no chance of any miscarriage of justice. In all human probability justice will be served in the punishment meted out, but it does seem that in any case involving the rights of even the most vicious of murderers, equality of treatment and procedure should prevail.

CHURCHES WAR ON IMMORAL SHOWS

Leaders of Three Religious Faiths Unite in Movie 'Clean-Up' Campaign

CINCINNATI, June 22 (AP)—Leaders of three great religious faiths moved tonight to wipe the "filth" from the nation's wire screens.

Bishops of the Roman Catholic arch pressed forward to expand their "legion of decency" and to enforce through the box-office their demands for "wholesome" movies.

A leader of the central conference of American rabbis voted approval of the Catholic campaign and repledged his own faith to act.

Ohio Protestants criticized the state board of censors for letting too much "get by" and urged complete rejection of pictures portraying "virtue as vice, or vice as virtue."

What were the demands the Roman Catholic committee of bishops served the industry will not make known. But in general terms, the clerics declared for "wholesome" movies as well as the more sure announced plans to expand the "legion of decency" to "every town and city in the United States."

ASSAILING CRIME'S REFUGES

Editor Twin Falls News.

Dear Sir:

There comes a time when tolerance ceases to be a virtue. And since free speech has thus far escaped the jaws of the NEA I will take advantage of the remaining privilege and, in mild form as the gravity of the subject will allow, register a protest against one of society's public citizens.

Every peace loving, law abiding citizen is to some degree concerned about the wide spread epidemic of lawlessness and crime that is sweeping over the country. All manner of theories have been exploited and exploited on the subject of crime and the proper methods of dealing with it. At least a group of hostile politicians converged on the absurd idea of curtailing the free press operation of drowning the book-aboo (prohibition-then-vice-would-just-rear-up) out. But after talking and breathing-plumes-on-the-splendid-day and remaining submerged till now, crime lifts its head from its pool-to-assert-that-it-christies-bast-in-wet places.

In the beginning the first words were framed in a complete sentence and spoken to man contained the command: Thou shalt not. Immediately following was uttered an explicit warning that disobedience would be punished. There seems to be a far reaching tendency today to disregard the first declaration, and a common practice is to defeat the consummation of the second. And it is concerning this warning promise that the balance of this article deals.

It has been my misfortune to be occasioned, I have witnessed the prosecution of examining prospective jurors in a good many instances with certain degree of interest, and as many times with a greater degree of disgust. And after this varied experience I have come to the conclusion that if the intent and purpose of the law is to safeguard the best interests of the community and state, then the present method of handling picking jurors to try criminal cases is nothing more than a farce in disguise. In this suit the process is more tolerable, only because it is less dangerous.

The Constitution provides that a person charged with a crime shall have the right to a fair trial. Such right nobody denies. But the people who support the institutions of the community where such crime is committed should have equal rights at least. But here comes the joker. After the prospective juror has been bombarded with all sorts of confusing, impertinent, "irrelevant and immaterial" questions, many of which are more heinous than the crime or unfit to act as a fair and impartial juror than whether or not his grandfater were whacka or what his mother-in-law's maiden name was; if fair means or foul he can be inveigled into admitting he is an advocate of law and order. And is suspected of having enough stamina to stand by his convictions he is next in line leading toward the door-of-evil-that-is-the-sole-where-fairness to society ceases and the farce begins. However, we should thank God that crime's defender can't pick their juries from the penitentiary, and that there is a limit to the number of challenges.

In order to do away with this crime encouraging practice, I would like to see the law amended that the presiding judge would be made sole judge as to whether or not a man is qualified to decide as to the guilt or innocence of one accused, after hearing all the evidence, barring all hair splitting over whether the juror is married or single and how long he has been that way, and not leave it to some petty lawyer who is not responsible to the voters for his conduct, and whose interests in society are wholly obscured and his conscience governed by the size of his fee.

The practice of law has long been honored as an exalted profession, as it rightly should. But it is becoming badly infested with a small species of crime feeding ambulance chasing parasites that ought to be sprayed or plowed under. And unless some correction is made in the law, or the method of selecting jurors, the day is not far distant when the self respecting juror may have just cause to blush with shame if asked to state whether or not any one of

RUPERT LUMBER YARD DAMAGED BY FLAMES

RUPERT, June 23—An estimated loss of between \$100 and \$1500 resulted from fire Saturday morning at 3:30 o'clock that swept through the storage shed of the Gem Blazo Lumber company yards, destroying much cool, quantities of sacks of plaster and a stock of wall-board.

When first discovered by Night-watchman Dick McDevitt on his rounds, the blaze was about in the center of the storage sheds working upward. Turning in an alarm at once the Rupert fire department was on the job in 20-time, but with the excessively dry buildings much damage was done and the plaster, with the play of water was "set."

It is believed fragments of trash blowing from one of the metal trash burners in the alley was the beginning of the fire originating across the alley from main street west. It was covered by insurance.

BURLEY, June 23—Among candidates who have announced they will enter the primary election for Cassia county offices are: M. Oberholzer, Republican, for treasurer; Oberholzer is retiring postmaster. He came to Burley in early days and has been in the real estate and banking business.

Frosty D. Pace, Republican, has filed for reappointment as sheriff. Coming from Garfield county, Utah, in 1902, he went to farming near Burley. He has served five terms as sheriff of Cassia county.

AN INTRUSION

school children health clinics have been changed. Mrs. Emma C. Davis, Cassia county health nurse, accompanied by Dr. C. C. Espe, county physician, will hold the first clinic in Oakley June 25. Elizabeth Smith, supervisor of nurses in the south central Idaho district comprising 11 counties, will start with Mrs. Davis.

A clinic will be held at Declo June 26, where Miss Rachel Lewis will assist. At Mallett Dr. Ester and Mr. Orson Sanders will assist. June 27, Burley the clinic will be held June 28 and 29. Mrs. M. Pickett will help here, with others.

Mrs. Davis reports that there is typhoid on Okley and an effort is being made to procure serum for inoculation against this disease. Application having been made to Boise through the FEPA. There is plenty of cod liver oil to fill requirements. Serum for inoculation against diphtheria and smallpox is getting low. Whooping cough is appearing in Burley, declares Mrs. Davis, but measles has been about cleared up in the county.

red to for this replacement and attention is asked in a circular of announcement by service organizations, welfare and relief agencies. The limitation date of enrollment is March 31, 1935.

85 to 91 MILES PER HOUR

What Does This? Mean To You?

You do not buy fire insurance because you're going to have a fire. But you do buy it for protection. It's the same way with the 85-mile an hour speed in the NEW FORD V-8—it's there if you need it. But, better still it's there for reserve power and energy.

The extra miles per hour that you get in the Ford V-8 means extra strength. It's a real satisfaction to know that when you are driving sixty actual miles per hour the engine is loafing. The high speed in the New Ford benefits the normal driver as well as the fellow who has to get there.

FORD V-8 sales are leading the nation, the state and the county. It is the guide to the most for your money. It is insurance for your future satisfaction. It safeguards your investment.

TWO NEW ENTRIES FOR CONGRESSMAN

G. F. Rudd, St. Anthony, and John B. Robertson, Twin Falls, Announce

BOISE, June 23 (AP)—One applicant for the office of secretary of state filed a petition at the office of secretary of state today and three prospective candidates for the position of congressman from the Second district.

Arthur C. Dunn,bury Republican, out for the office of secretary of state, sent in a petition bearing 284 signatures of residents in 22 counties and a fee of \$32.

George F. Rudd of St. Anthony, former warden of the Idaho state penitentiary and former county representative, and John B. Robertson of Twin Falls, a Democrat, also filed petitions.

Rudd was discharged from the office of warden of the state penitentiary a few months ago, following alleged disclosure of laxity in prison regulations. He declined to resign, defending his policies on the grounds that they were based on sound and advanced penal theories.

He was succeeded by Ira Taylor, the present warden.

Attaches of the office of secretary of state said today that Ira H. Masters of Blackfoot secured petitions Friday to file for the Democratic nomination for congressman from the Second district. They said they were asked to relay release of the information.

Masters made the race two years ago and ran second with a total vote of 5,881, approximately 100,000 more than his nearest opponent for second place. He formerly published the Idaho State Journal at Pocatello and the Tribune at Ballou.

He was appointed referee of the United States land office March 1 and has held that position since. He has requested a leave of absence, pending the outcome of the campaign.

His applicant for a congressional seat and two district judgeships obtained blanks yesterday from the secretary of state for circulation incidental to their entrance into the primaries August 14.

W. P. Whitaker, Pocatello, a Democrat, secured the office of Second district congressman.

Walt Banting and William F. Wynn, both Republicans, obtained nominations in the non-partisan primary for the Fifth district bench.

Stanford Wins National Collegiate Track, Field Meet

Portland Golfer Takes Over Leadership Of Idaho Open Tourney

Indians Score 63 Points; Trojans Second And Louisiana State Third

High Scoring Squad Takes Only One First Place

By BRIAN BEALL
(Associated Press Staff Writer)
MEMORIAL COLISEUM,
LOS ANGELES, June 23.—
The race was not as swift
but to the strong at Stanford
University won the 13th annual national collegiate track and field meet today.

The Indians scored an amazing total of 63 points in 57/200ths for the University of Southern California in the piece position above, and Louisiana State University. Stanford picked up 28 points in the weight events, 16 in the discus and 22 in the shot. The winners won only one first place, the 400-yard dash by Gordon "Ginger" Dunn, but John Loman was second in the discus and third in the shot. The other two first places were picked up by other points here and there. The pole vault and javelin adding vital points.

LONG AND SHORT OF N. C. A. A.

JACK TORRANCE, 278-pound shotput and discus thrower who starred yesterday at Los Angeles for Louisiana State, is shown standing beside the smallest man in the N. C. A. A. championship, Francis Benavides, Southern California's two miler, title the scales at 122 pounds.—AP Photo.

at Old Nassau when Cunningham set a new world's record of 4 minutes, 47 seconds. Benavides' time was four minutes, 38 seconds—better than Cunningham's N. C. A. A. record of 4:29. Last year, and better than the record—ended world record.

The giant Torrance, who trailed Lyman of Stanford a fraction of an inch in the preliminaries yesterday, showed that he was not fooling in the finals. His first put of the day was almost Lyman's best yesterday and his second carried 34 feet, 6 inches. The other fellows spent the rest of the afternoon showing that Torrance's throw, however, was more than half a foot back of his 55, 1 and 1/2 inch toe made at the Drake Hotel in April.

Slender Jack Rand of San Diego State college set the track record of the meet. He cleared 14 feet, eight and a half inches, by breaking the record and nosing out Bud Deaton of Stanford, the favorite, who could do no better than 12 1/2.

The other N. C. A. A. record hunkered was the javelin throw. Bob Parkman set an almost perfect weather conditions enabled the athletes to put forth their best effort. Four world records were smashed and five N. C. A. A. marks were bettered and one tied.

BULLET FATAL TO LOCAL ACCOUNTANT

W. D. Nesbitt, 55, Found Dead From Self-Inflicted Wound

With a bullet wound through the head, the body of William D. Nesbitt, about 55 years old, Twin Falls accountant and former Casage City, Kansas, banker, was found yesterday afternoon in his room at a local lodging house where he had made his residence the past several weeks. The body was slumped on the bed. A .27 calibre revolver was on the floor nearby.

County and city authorities found no written statement, but Dr. P. A. Wright of Piler, coroner, said there was no doubt the fatal wound was self-inflicted.

Nesbitt had partially dined before he was fired. Persons at the lodging house who saw Nesbitt last about 8 o'clock Friday morning said they thought he was going to his room and asked to be disturbed. The coroner said Nesbitt probably was fired late Friday evening.

In Bad Health Friends here said Nesbitt had been in bed for some time. He had made his home for several months on a farm near Hansen with his sister who died last April. His father, George Henry Nesbitt, living on a farm northeast of Hansen, and leaves also several children, one of whom is Miss Alice Nesbitt of Washington, D. C.

Before coming to Idaho about 20 years ago, Nesbitt was employed for 16 years as cashier of an Osage City, Kansas, bank. He was a member of the Republican party from 1917 by Frank Healy, pioneer Twin Falls plumber, and also served as an accountant at Pocatello and elsewhere.

No arrangements for funeral services had been made last evening.

Nesbitt resided at the Williams mortuary.

BELL CANDIDATE FOR PROBATE COURT JUDGE

F. B. Bell, United States commissioner and attorney, resident of Twin Falls the past 24 years, announced last evening that he is a candidate for the Republican nomination for probate judge in 1936.

Mr. Bell graduated from the Drake University law school and was a member of the Iowa state bar before coming to Idaho.

FUNERALS

SCHMIDT-Funeral services for Mrs. Anna Katherine Schmidt will be held at 2 o'clock tomorrow afternoon at the Christian church in Kimberly. Interment will be in Twin Falls cemetery, members of the Bethel church at the service. The body rests at the Twin Falls mortuary.

The Board reserves the right to reject any and all bids. C. BRUCE BEQUA, Clerk, Board of Education, Independent School Dist. No. 2.

Officers On Watch For Counterfeiter Passing \$5 Bills

Business houses of Twin Falls were warned by officers yesterday to be on the lookout for counterfeit \$5 dollar bills. One was passed at a local store and another was offered and turned down. Although officers and sheriffs' men are on-the-look-out-for-the-counterfeiter, no trace of him has yet been found.

The man is described to be a tall, slim blond, approximately 24 or 25 years old. He was wearing a dark cap, a dirty white shirt, and light pants with dark stripes when he attempted to pass the second bill of the afternoon, police said. The bills were described as crudely printed to resemble an ordinary \$5 bill.

The words "Louisville, Kentucky" were printed in red ink circle on one of the counterfeit bills; that officers noted.

PATRIOTIC BODIES AND LODGE ASSIGNED PARTS IN VETERAN'S SERVICES

MURDER AT MUCKING HOUSE

(Continued from Page 10)

choice that he hated in the muck house. He had a gun but when Harry wanted to try to get away from him, he got his hands on the gun. He figured out the way to get it. He worked out fine and my alibi held up and everything. Harry had been all right if it hadn't been for the gun. Nobody will shed a tear because Harry has gone, so I burned all his papers. Harper can figure out all I can of it for himself. Anyway I swore I'd never go to jail and I stuck to it, but I guess that won't be necessary.

Harper read this startling confession through twice and put the letter in a tin box. It had been found in the garage, O'Connell said. "Yes, sir. It's just like it says in the letter—an old tire hanging' up on a big spike." "All right, bring the tire up here." Presently the ruddy-faced policeman came back with the designated tire. O'Connell held it upright on the window-seat, while Harper's eager fingers plucked the contents of the circular hiding-place.

The first, and bulkiest portion of the treatise, from nose to tail, was a neatly-skinned length of a very thin, but exceptionally strong and durable rope. It was a brownish yellow color and each end of it was fastened in a ring. These rings had the circumference of a fifty-cent piece. (Copyright by Walter C. Brown)

WOMEN ESTABLISH CANNING KITCHEN

Workers Can Vegetables and Fruits for Charitable Organizations

With the idea of "saving" the surplus, a canning kitchen has been set up at Parish hall, under the direction of the women's division of the I. E. R. A. Mrs. Gladys Barrett, who has had training and experience in home economics work, is the supervisor of the kitchen. Thus far fruits and vegetables have been canned for the county poor farm, the commodities department of the I. E. R. Co-operation of a number of retiring units has made possible the setting up of the kitchen. The county commissioners have agreed to pay for the electricity, realizing that distribution of these fruits will lessen the job of caring for dependents this winter. The Associated Charities, with money from the Community Chest, provided funds for the purchasing of necessary cooking utensils, paring knives and other equipment. The Idaho Power company contributed the use of a six-burner electric stove and Kyle Watts installed the stove at less than cost.

Donations Requested

We are particularly eager to secure fruit, cans also surplus fruits and vegetables which residents of the county are willing to give for this project. Mrs. E. J. Malone, in charge of the women's division, is at the I. E. R. A. office, 100 West Third street, for information.

The canning kitchen has the endorsement of the engineering department for the state I. E. R. A. work in putting it into operation, and the women's division has had the 100 per cent cooperation of the men's division, the director stated.

Parent-teacher associations have volunteered to provide vegetables and fruits to be canned for the hot lunches next fall. They are also furnishing the containers. Women engaged in canning, do so under careful supervision.

Other projects to be undertaken by the women's division in the immediate future will be beauty contests, demonstrations, lectures on personal hygiene, and home demonstration work in sewing.

CRUELTY, NON-SUPPORT BASES OF DIVORCE SUIT

Allegation of cruelty and non-support, Mrs. Edith Long started suit in the district court here yesterday for a degree of divorce from Earl Long to whom she was married in Twin Falls, February 23, 1929. She asks also for \$25 a month alimony and suit money and attorney's fees.

There are no children and no community property involved. Raymond and Rayborn are her attorneys.

PRATER CANDIDATE FOR RE-ELECTION AS SHERIFF

E. F. Prater, Twin Falls county sheriff the past six years, announced last evening that within the next few days he will file his formal announcement for re-election, subject to the Democratic primary election. Prior to his election as sheriff in 1928, Mr. Prater served for six years as deputy in the sheriff's office and has been a Twin Falls resident for more than 20 years.

Babson's Reports The Babsonchart & Barometer Letter Should Your Wife Shop Now? This Barometer Letter is for the women of the home—the wives, mothers and other women folk who do most of the buying. Will your wife's dollar buy more or less six months or a year from now? ... Mrs. Brown heard a speaker at her club meeting last July. He concluded his address by saying, "Remember, ladies, that this New Deal will affect all of you. You will soon find that you will be paying more for your dresses, stockings, shoes, food, and the thousand and one things you need for the home. I strongly urge you to buy now." ... Mrs. Brown has been watching the papers with keen interest for sales of dresses, stockings, sports outfits and several other items she has on the "want list." She is price-minded because she has to be, but at the same time she has an eye to quality—she has learned that oftentimes the lowest price paid is the most expensive in the long run. In her food purchases, she has found prices of flour higher this past week. This is due to the serious drought in the West which, unless broken quickly and permanently, will mean still higher flour prices. Butter, eggs and cheese are heading upward due to drought and hot weather. Prices of beef, hogs and hog products are destined to reach higher levels as a result of the drought.

This Seemed So Timely In connection with our Semi-Annual Clearance Sale that we were glad to donate this space for what it may be worth to the housewives of South Central Idaho. NOTICE PARTICULARLY what Babson says about insisting upon quality even when buying at a price. We were glad to see this in his Bulletin. It coincides perfectly with our theory of store operation. Think back upon the specials it is our policy to offer almost every week. They are generally nationally known quality brands offered as cheap or cheaper than the lowest priced goods of unknown origin. And This Idea of Quality Certainly applies to our Clearance Sale. Many famous lines in different departments are all offered at once at reductions running from one-fourth to one-half price. Frankly we don't see how thrifty buyers could afford to pass up this opportunity. Idaho Dept. Store THIS CONFIDENTIAL BULLETIN IS REPRODUCED THROUGH THE COURTESY OF THE BABSON ORGANIZATION.
