EXECUTIVE FAMILY TARGET FOR THREAT IN EXTORTION PLOT

Former Navy Machinist Demands \$168,000; President and Grandchildren Threatened With Harm

NEW YORK, Aug. 30.—Benjamin Franklin was arrested tonight under the Lindbergh law for allegedly writing Mrs. Franklin D. Roosevelt a letter threatening harm to the president and kidnapping of his grandchildren unless she paid him \$168,000.

The letter was written to the White House and described itself as a routine fashion by the secret service.

Telephone Number Cited After directing that the money be paid in \$1, \$5, \$10, \$50 and \$100 bills, the letter informed Mrs. Roosevelt she would be told by telephone when and how to deliver it.

His order of Zanzara was the signature attached to the threatening letter—recalling that it was Giuseppe Zanzara who attempted to assassinate Mrs. Roosevelt at her inauguration. Zanzara was executed in Florida for the slaying of Mayor Anton J. Cermak of Chicago.

Roosevelt Surprised BY THE ARREST of Mrs. Roosevelt expressed surprise tonight over the arrest of a man charged with the slaying of a newspaperman that the letter never reached the summer White House and was handled in routine from Washington.

Richard Jervis, chief of the White House secret service, declined to comment on concern was felt here over the incident. It was the expressed opinion of Jervis after talking with Chief Moran of the secret service.

WOMEN SURVIVE HAMMER ATTACK

Discharged Minor Bank Official Attempts to Kill Members of Family

SEATTLE, Aug. 30.—James E. Davies, 34, discharged minor bank official, was in a padded cell tonight after attempting to slay his wife, daughter and mother-in-law with a hammer because, though his family would find death preferable to divorce they faced over discovery of an alleged \$10,000 shortage in his accounts.

Another Sea Monster CHANARAL, Chile.—Chile, too, has a sea monster. A huge sea creature described as 75 feet long, is reported to have appeared in the bay Thursday and panicked fisherfolk.

Questioned by Captain of Detectives Ernest York, Davies said he had planned the attack in 1933. "Something snapped and it came to me all at once that they'd be better off dead than in the disgrace I had brought them. They're all religious and I knew they'd go right to heaven."

Lawyers Call For Probe Of New Deal Legislation

Milwaukee Convention, in Stormy Session, Discusses Merits of Roosevelt Administration

MILWAUKEE, Wis., Aug. 30.—The American Bar Association today voted in record favor of an investigation of the effects of New Deal legislation and policies.

The resolution for the association in national convention here approved a resolution instructing its next president to appoint a committee to investigate.

On Attack on President The resolution was drawn by the general counsel after being proposed by George L. Bult of Charleston, S. C., a Democrat, and seconded by Charles A. Dwyane, Wyoming, a Republican.

SINCLAIR VICTORY CHANGES STRATEGY For or Against New Deal Likely Dividing Line in Campaign

WASHINGTON, Aug. 30.—Adjustments of New Deal strategy were made tonight at the reaction to Sinclair's runaway victory in California gubernatorial gubernatorial gubernatorial.

Decision of the American Bar Association to parallel the league's scrutiny of Roosevelt policies added to the crescendo of dispute.

Comment and the lack of it after the resolution adopted at the Sinclair organization Democrats remained wary. They noted the resolution intimated that if they would discuss politics in his column meeting with the nominee.

ODDITIES O--of Life (By The Associated Press)

Birthday Candy—LOS ANGELES—Boys will be boys and candy is candy. A 7-year-old boy was given 72 sticks of peppermint candy. But it was Walker's birthday, and the boy wanted to have his birthday cake.

Quintuple Tragedy—GULFPORT, Miss.—Mississippi's famous Siamese quintuplet kittens died Thursday because their mother, unused to having five kittens crowded together, dropped them as she was climbing over a fence.

Another Sea Monster—CHILARAL, Chile.—Chile, too, has a sea monster. A huge sea creature described as 75 feet long, is reported to have appeared in the bay Thursday and panicked fisherfolk.

Veteran Shoeman—CONCORD, Mass.—Frank Pierce, who showed to Ralph Waldo Emerson, will begin his seventh year in business tomorrow when the clock in the belly of the First parish church will strike noon.

IDAHO DEMOCRATS ADOPT NEW DEAL SILVER PLATFORM

Halley Convention Wipes Out Any Mention of Prohibition or Cabinet Form in Party Declarations

HALLEY, Idaho, Aug. 30.—With support of the "New Deal," as a principal theme and renunciation of silver as a major plank, the Democratic state-convention today drew up its platform for the coming campaign and closed its two day session.

Under a new chairmanship, that of Robert Couther, speaker of the house in the last legislature, the party delegates indorsed with a shouting of "ayes" the plank in the platform affirming confidence in the national administration.

White Writes Silver Plank Their battle over the selection of a chairman ended, the convention delegates gathered in the Halley opera house, concluded the convention by hearing an appeal from the local state official who was singled out for defeat in the primary election of two weeks ago.

Without a dissenting vote the convention adopted a plank proposed by Representative Compton.

Prohibition Out of Picture Prohibition had a sadder fate. It was thrust out of the picture entirely after opposing factions sought to incorporate planks on the question.

LONGFISH PROMISES EARLY VICE PROBE
Louisiana Senator, Celebrating Birthday, Prepares for Action

BATON ROUGE, La., Aug. 30.—Senator Huey P. Long said here today that the legislative investigation of "corruption" in New Orleans would begin this week.

Long had just celebrated his 41st birthday here today before announcing the inquiry would be held.

Attorney General Gaston L. Porter, with whom the committee conferred during the afternoon, made public at the same time an opinion prepared for Long.

Long was getting our powder dry before we start," he said.

The committee also said the Louisiana political dictator would be asked to resign.

Long was in Baton Rouge with his family and children which is scheduled to make an investigation into alleged vice and corruption.

ROOSEVELT SOLICITS NON-PARTISAN AID

Declares Improvement Program Has 'Nothing to Do With Parties'

HYDE PARK, N. Y., Aug. 30 (AP)—President Roosevelt today called for support for a national improvement program on a non-partisan basis.

"We in the town of Hyde Park, which we like it or not, are paying for and have to pay for the correction of conditions in other parts of the country," he said in a talk to his neighbors, gathered to welcome him home.

"I am very certain that most everyone here is willing to go along on a big program that has nothing to do with party. We are trying to be square to Republicans, Democrats, Socialists or no matter what is one's party and no matter to what church he belongs."

Tonight the president conferred with the director of the budget, in a meeting which afforded opportunity for a check-up on the national income and outgo for the coming month.

Speaking from a platform set up on the porch of the Roosevelt farm, the president told members of the Roosevelt home club of his trip across the country this summer and his inspection of the territories.

Too Much Land Tilled

"Things have grown up like Topsoy," he said, "and we are paying the penalty today. A great deal of land is being put into cultivation which should not have been. We are recognizing this so we won't be paying the penalty in the future which we are today."

Mr. Roosevelt asserted "we have a solid nation" and said he was "thrilled on his cross-country tour to see how this country all ties together in some way."

The folks covering the spacious grounds applauded the president. He spoke extemporaneously and in a neighborly way.

Telling of his return home Sunday, Mr. Roosevelt said he got a "severe shock when one of the neighbors exclaimed to him, 'my boy, you are getting.' Then one of the writers—I guess you would call him a columnist—said he had gained 12 pounds. You can't quarrel with the president, but he made the mistake of putting one before two. I gained two pounds, but with the qualities of Dutchess county milk, my mother's cooking, and the Dutchess county air, I don't believe I will make good my objective."

The president's mother, who has bided him and Mrs. Roosevelt received a round of applause.

Lawyers Call for Probe Of New Deal Legislation

(Continued From Page One)

Administrative court. The report cited the judicial functions which it said have been delegated to the secretary of agriculture, the administrative bodies of the AAA and the NIRA.

Called the report "an attack on the president of the United States—and essay of political propaganda."

Clarence M. Gooden, of Washington, D. C., former justice of the Illinois appellate court, said the report has a misconception of what constitutes judicial functions and judicial actions and contended it did not belong on the convention program.

Critics Sound Charges

Silas Strawn of Chicago, William A. Schneider, attorney general of Pennsylvania, and Henry G. Wills of Boston have been among the prominent critics of the New Deal at convention sessions. They have sounded charges the New Deal goes against the constitution and encroaches upon the rights of states. Vigorous decla-

U. S. Needs Indicated Basis Of Farm Production Limit

AAA Considers Telling Farmers They Shall Produce Only Domestic Consumption Plus Economical Sale Abroad

WASHINGTON, Aug. 30 (AP)—The AAA, it has developed, may tell American farmers soon that they shall produce only as much as is consumed within the borders of the United States plus whatever can be sold abroad.

That would mean abandonment of the present system under which production is limited to a fixed percentage of a farmer's average output over a "base period"—a number of past years.

The only commodity now produced on a domestic consumption basis is sugar, which is limited by agreement around \$450,000,000 during 1934.

New Livestock Control Plan

But a new livestock control plan for next year is being drafted. Under it, the number of livestock raised would be limited indirectly by control of feed grains.

Meanwhile the bureau of agricultural economics issued an estimate that income of farmers in the United States would total approximately \$4,000,000,000 during the present calendar year.

The estimate, which includes sales of farm products, income from rental and benefit payments, and receipts from sale of cattle, sheep and goats to the AAA, is 19 per cent above last year and 29 per cent over the previous year. It is still well below the peak year of the past 10, or 1929, when income was \$10,479,000,000.

Figures announced were arrived at by estimating income during the entire four months of the year plus total income during the first seven months of \$2,854,000,000.

The new livestock plan, which has received the support of several farm organizations, would be executed through a composite contract covering production of all feed grains now listed as "basic commodities" in the agricultural adjustment act.

Wheat, corn, rye, grain sorghums, and barley are the basic grains included. Since about 100,000,000 bushels of wheat are normally fed to livestock and poultry each year, consideration is being given to limiting their use for that purpose.

Officials said it was unlikely that processing taxes on hogs would be lifted under the contract.

Such taxes are necessary to make benefit payments and continue the program.

The AAA also announced that up to August 25 it had paid out \$32,378,398 for cattle purchased in 19 drought-stricken areas.

Purchases totaled 3,668,280 head, of which 2,393,000 were paid for on August 25 at the rate of \$13.53 per head.

FREE IMPORTATION OF HAY PERMITTED

(Continued From Page One)

ably until next summer, officials said.

In describing the situation, those who had visited the territory said livestock feed supplies were extremely short, some farmers had not raised seed for next year's crop, water supplies were low and the shortest crop production in 40 years will leave thousands of farmers with no cash income except that coming from the government benefit payments for reducing acreage, which are expected to total \$179,402,000 by the end of 1935.

AAA officials were outspoken in their disapproval of the action of the Association of Western Livestock Producers in discontinuing emergency rates on hay, coarse grains, livestock feeds, water and livestock in drought-stricken sections.

GREEN SEES RISE OF UNEMPLOYMENT

(Continued From Page One)

deed, Richberg did not, however, discuss the present unemployment problem, or suggest methods for putting the unemployed to work. Two important facts should be considered in reviewing the achievements of NRA in reemployment:

"First, practically all of those who went back to work were reemployed themselves. June and October, 1933, there have been no significant employment gains since. From June to October, 1933, 2,200,000 were employed; from October to June, 1934, only 100,000.

New Job Seekers

"Secondly, there is a constant growth in the population seeking gainful work, because the number of young people coming of age for work is larger than the number leaving their jobs because of old age or death. The increase in those seeking work, he estimated, is about 100,000 a year.

"This increase in gainful workers, according to our estimates, approximates 400,000 a year. It is when this group is accounted for, we find that although 2,200,000 went back to work from June, 1933, to June, 1934, the decrease in unemployment was less than 1,800,000."

Green said—that is, unless the fall season puts these men and women to work again, we shall find unemployment this winter than we had last year.

"We cannot indefinitely support one-sixth of our population on money borrowed against future taxes," he said. "Clearly businessmen have no solution to offer. The situation is a challenge to the government to give us a plan which will finish the task so well begun last summer and put the rest of the unemployed back to work."

EXECUTIVE FAMILY TARGET FOR THREAT IN EXTORTION PLOT

(Continued From Page One)

that the arrested man needed hospital attention.

Charles Fed. included Marvin H. McIntyre, presidential secretary here, talked with the president in 1928 program since 19 drought-stricken areas.

Purchases totaled 3,668,280 head, of which 2,393,000 were paid for on August 25 at the rate of \$13.53 per head.

Steel Makers Cut Salaries Until Business Improves

(Continued From Page One)

purchase power.

At NRA it was said that steel companies granted a 10 per cent increase in pay last April and that the slash ordered today undoubtedly would be above the minimum permitted. The steel industry was said to be operating at less than 20 per cent of capacity. It was said that it would have to operate at approximately 50 per cent before any reasonable profit could be made.

New Phase at Weirton

The Weirton Steel company, storm center of the industry's recent labor disputes, approached a new phase of the fight.

Employees of Weirton, controlled by National Steel Corp., filed with the national steel labor relations board at Washington a request for an election to determine who shall represent them in collective bargaining.

The Ford expansion program, calling for two new steel mills, will increase the Detroit area's steel producing capacity by one-fourth and

Textile Union Leaders Call For Nation-Wide Walkouts

(Continued From Page One)

are not some are union members while others are not yet all are likely to feel the effect of the strike.

Strike Spread Feasibility

Possibility of extension of the walkout among 50,000 workers in the silk, rayon, woolen and synthetic yarn industries remained in doubt. The strike order called upon them to "stand by for further orders."

The walkout call was tapped out by telegraph in a dramatic setting. Crowded around the telephone members of the executive council and strike committee of the United Textile Workers of America, officials from other labor organizations who trooped over from American Federation of Labor headquarters, and scores of reporters and photographers.

Francis J. Gorman, strike chairman, handed the message to a telegraph operator.

The bodiam subdued and Gorman nervous began:

"I am about to hand to Robert T. Shearley, a member of the Commercial Telegraphers Union, a telegram which will go to 200 local unions of cotton textile workers, putting the cotton strike into effect nationally at 11:30 o'clock Saturday night, September 1."

Drowned Out by Cheers

He read the telegram but his words were drowned out by the cheers of the assembled laborites. It read:

"To all local unions, greetings: Strike of all cotton textile workers will begin at 11:30 o'clock, your time, Saturday night. For all previous instructions into effect. Wool, silk, rayon and synthetic yarn membership stand by for further orders. Victory through solidarity."

A last hour meeting of the union's executive council preceding issuance of the strike order. The strike committee, which has worked from early morning until late at night for more than a week on the mass of detail attendant in a major strike, was heavy-eyed from lack of sleep.

Gorman and Thomas P. McKeon, president of the United Textile Workers, customarily affable and complacent, were tense and irritable. Others of the strategy board were grim.

Arrogant Employers

The three rooms assigned as strike headquarters were jammed and the crowd overflowed into the hall as Gorman, in a brief address, declared that if the mills supported the government's policy, there would be no need for a strike.

"They have defeated the government's purpose in the textile industry," he said.

enable the company to turn out 3000 automobiles daily without market purchases of the metal. Construction, already started, will provide 500 new jobs.

POCATELLO WOMAN HELD FOR MURDER

(Continued From Page One)

her condition permitted. She is reported suffering from an appendicitis attack and a fever.

Shankel later this evening admitted that the shooting was probably done by a person or persons he had discharged but would not clarify the statement.

While Shankel would not state where his wife was at the time Merritt was killed, the family attorney said she was asleep in a cabin 300 yards from the Merritt home.

THEY CAN'T FOOL ME AGAIN - FROM NOW ON IT'S LEVI'S FOR ME!

YOU SAID IT JIM - THEY'RE THE FINEST OVERALLS MADE!

LEVI'S WEAR LONGER GIVE GREATER VALUE

Farmers, ranchers, cattlemen, who have worn Levi's Waist Overalls, seldom change to any other. They've learned that Levi's wear longer, give better service, greater value for their money.

Why? Because they are made of extra heavy denim loomed especially for Levi's. They're copper-riveted to give extra strength at every point of strain. Their comfortable, tailored cut never binds—never makes you feel "tied down." And Levi's are so strongly stitched, you get a new pair FREE if they rip! Insist on genuine Levi's when you buy!

QUALITY and nothing else but... makes these new coats as exceptional in value as they are attractive in style.

\$16.75 to \$79.75

St. Louis 5, Philadelphia 1.
Chicago 1, Boston 0.
Pittsburgh 3, Cincinnati 2.

CLEVELAND, Aug. 30 (AP)—The Tigers stubbornly refused to be downed today and after tottering on the edge of defeat for six innings slammed their way back to beat the Indians, 6 to 1, in the series opener and maintain their five game lead over the Yankees.

The Tigers not only conquered Monte Pearson, the Indians' mound ace, but did it without any of their first-string pitchers. Carl Fischer and Elton Hogenstetter pitched today, with Fischer for six innings and Hogenstetter for two. For six innings Fischer and Pearson were locked in a close duel with Cleveland holding the lead after Hogenstetter's first inning. In the seventh and added four unnecessary tallies with a typical Detroit rally in the eighth.

Bill Rogell started the seven-inning rally with a single and belted a homer with Goose Goslin aboard for the first two runs in the eighth.

The teams have an open date tomorrow, returning their three-game series Saturday.

NEW YORK, Aug. 30 (AP)—The Yankees established their southwestern "Goofy" Gomez, as the leading major league pitcher of the season today when he belted out an 8-0 triumph over Washington. It was Gomez' third victory of the season, putting him one up on the National League leader, "Dixie" Dean, and his ninth in succession.

Gomez allowed only five hits, passed four and struck out five. He allowed one run in the third when Luke Sewell, Senator catcher, belted a homer into the left field stand and another in the next inning on Joe Cronin's single and Fred Schatz's triple, retiring two men while Sewell was on third.

The Yanks hopped on Monte Weaver for three runs in the first inning, a bad frame for the Senator batter, and drove the mathematics out with another three-run burst in the third. After an error and a walk in the third had loaded the bases, Alex McCool took Weaver's place.

Score by Innings: R. H. E. Washington—001 000 00—1 2 0
New York—300 010 00—12 0
Batteries: Weaver, McCool and Sewell; Gomez and Jorgens.

Illinois Shotgun Expert Triumphs

H. H. Holbrook Wins Preliminary Handicap Trapshoot

VANDALIA, Ohio, Aug. 30 (AP)—H. H. Holbrook, of Goretto, Illinois, won the preliminary handicap trapshoot today, defeating H. G. McLaughlin, of Hillsboro, Ohio, Trimmer of Detroit and W. L. Yeaman of Logan, Iowa, in a shoot-out after the three had tied at 90.

McLaughlin, who shot with 25 hits, were Frank Troch of Portland, Oregon, Elliott Pugh of Cincinnati, and Joe Heald of Hillsboro, Ohio, who broke through the 20-yard line and the others from the 25.

Despite the high breeze, Mrs. A. Paddock of Syracuse, N. Y., displayed some fine shooting. She broke 23 targets in each of the first 25 releases and smashed the last 23 in a row. The six misses left her with a 94 total from the 18-yard line.

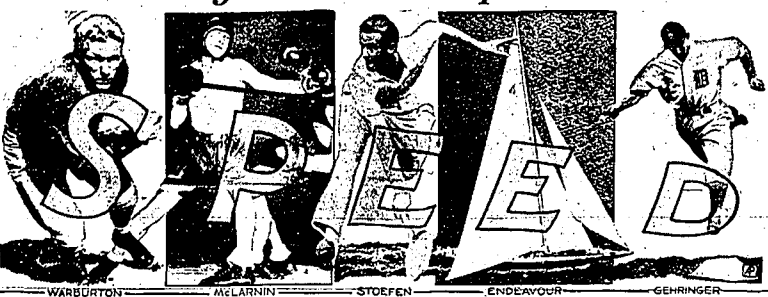

Fails to Win Title
Heistand's 95 ran his cumulative score for the week's shooting to 782 out of 800 regular targets although he has failed to win a major title this week.

'The Race Is To The Swift, The Battle To The Strong' In Month's Sports Headliners

September offers one of the most interesting programs of the year to the swift and the strong. Irvine Warburton, speedy back of the Southern California Trojans last year, will report to Howard Jones again this season. Jimmy McLarnin will attempt to regain his welterweight crown from Barney Ross. Lester Stoeffen will try to bring the National Men's singles tennis crown to the United States again, the Endeavour will be trying to take the America's Cup back to England, and Charley Gehringer, the Detroit Tigers' flashy second baseman, will be doing his best to win the American League title for Detroit.

NEW YORK, Aug. 30 (AP)—The races and battles of September bring together again an ancient pair, the swift and the strong.

First battle of the month should go to the swift, as Fred Terry, the English No. 1 player, defends his National Men's tennis championship against the best players in the land at Forest Hills, L. I., starting September 1. Among these is Lester Stoeffen, the big blond Californian, whose speed and skill rank him as one of America's hopes to bring the title back to home soil.

Jimmy McLarnin, though he is a batter, will be depending on his speed in his battle to regain his welterweight crown against Barney Ross at Madison Square Garden here, September 6. But here the one battle which demands more than speed, for Ross is one of the fastest men in the ring's history.

Perhaps the most interesting sports event of the month will be the attempt of the British yacht Endeavour to take the America's Cup away from the Yankee defender when they meet in the first of their series of matches in the waters off the coast at Newport, R. I., starting Sept. 15.

Here is a battle of skill and strength in an attempt to gain speed. T. O. M. Sopwith, owner-skipper of the British challenger, served his time where speed is paramount—in the air. He claims his knowledge of aeronautics has played a big part in the preparation of his big sloop for the race.

Then as the month goes, comes football. With the introduction of the new smaller ball this year, football coaches claim that the small fast back will be used to greater advantage this year. The success of Irvine Warburton, who has a member of the Associated Press all-America team last fall after a great year on the gridiron for Southern California, has led many coaches to comb their squads, not for brown as they have for years, but for this year for—speed.

The East-West polo matches complete the major sports program of September. With Tommy Hitchcock uncertain whether he will be ready to play, the West team is favored to retain the title gained at Chicago last year.

The Big Dip

(By The Associated Press)

Little Lou Gehrig lifted his batting average 3 points yesterday and stopped just one short of tying Paul Waner for the big hit feat. Gehrig's American League rivals placed into a three-way tie for fourth place in the series as the two who played both last ground. Gehrig hit three times in four attempts. Heinie Manush lost 2 points, with no hits in four times up and Charley Gehrige dropped 3 with one down in five tries. This pair slipped into a tie with the idle Al Simmons for the third American league berth. All three National league entries were idle.

The standings: AB R H Pct.
Waner, Pirates .501 102 184 .347
Gehrig, Yankees .498 116 217 .337
Terry, Giants .488 101 174 .337
Gehring, Tigers .478 117 217 .337
Manush, Athletics .437 78 183 .237
Simmons, White Sox .417 104 188 .237

Giants Entertain 4,000 Youngsters

FLINT, Mich., Aug. 30 (AP)—The New York Giants entertained 4,000 youngsters in an exhibition game here this afternoon, defeating the Capitol Recreation semi-pro outfit, 7 to 3, with Salveon hurling all the way for Bill Terry's work-champs.

The Giants started with a rush. Travis Jackson smashing out a home run in the first inning with two mates aboard.

The East-West polo matches complete the major sports program of September. With Tommy Hitchcock uncertain whether he will be ready to play, the West team is favored to retain the title gained at Chicago last year.

CONNIE MACK COULD START COLLEGE

PHILADELPHIA, Aug. 28 (AP)—Connie Mack's Athletics may be down this year, but if new faces will bring them up next, they'll be at the head of the league. Connie has so many college boys riding in and out of the A's dugout, that the veterans can't find a seat.

Air Race Pilots Schedule Takeoff For Trophy Dash

Roscoe Turner, Noted Speed Flier, Granted Honor of Being First to Leave Burbank, California, Field

BURBANK, Calif., Aug. 30 (AP)—At a meeting of the Bendix trophy air race pilots here late today it was decided to start the dash to Cleveland at 8 a. m. tomorrow. Five and possibly six fliers were expected to take off at five minute intervals.

The pilots said weather reports indicated there would be excellent weather conditions on the morning except for slight cloudiness and scattered, thunder storms over Arizona.

Roscoe Turner, winner of last year's Bendix race and holder of the transcontinental speed records East and West, was granted the honor of being first to take his speedy plane off the airport here, followed in succession by Douglas Davis, veteran Chicago pilot; Lee Gehlbach, New York, who arrived late today from Des Moines; Lieutenant Murray Dilley, of the March Field army base, Riverside, Calif.; and John Worthen, of Patterson, Louisiana.

YELLOWSTONE

This trip Yellowstone gasoline is a new idea of gasoline.

"I want action from my gasoline—but I never expected any kind could make such a big difference in my car.

"Those steady pulls on the way to Yellowstone were especially easy with Super-Shell. No knocking, either.

"And it seemed to me, the car picked up faster. And mileage! I got my best average since this car's been broken in!"

None of the gassy "tops" of petroleum in Super-Shell. None of the sluggish "bottoms." That's why this gasoline does every job well—IT'S PURE POWER!

FORD PREPARES TO PRODUCE OWN STEEL

Motor Maker Spends \$13,000,000 to Consolidate Position

DETROIT, Aug. 30 (AP)—The Ford Motor company, an announcement today disclosed, is spending \$13,000,000 to consolidate its position as industry's biggest "steel wolf."

Pursuing the same goal its stonewall policy Henry Ford adopted a score of years ago when other automobile manufacturers declined to join in his fight against the Belden patents which until he won his suit demanded a royalty on each motor car manufactured—the Ford company is turning to produce in its own plants all of the steel needed to turn out 3000 automobiles a day.

Foundations are now being laid at the Ford-Young plant in Dearborn for the two mills which will produce the 36 varieties of steel that go into automobiles.

The buildings will cost approximately \$50,000. Machinery and equipment will cost \$40,000,000. The cost of doubling the company's steel facilities to meet the new demands is estimated at another \$40,000,000. The combined expense of expanding power and steel requirements to meet the new goal of complete independence is estimated to total at least \$127,000,000.

When the program is completed, in about eight months, the Ford company believes it will be the only private steel using manufacturing concern in the world independent of outside producers.

The Ford plan to expand its steel producing units first was announced last February. At that time, the theory was suggested in some quarters that the company was striking at advancing steel prices. Company officials said then that the real purpose was to eliminate the Ford dependence on outside steel producers.

The new mills will give the Ford plant a capacity of 1500 tons of finished steel a day. Five hundred men will be required to man the new plants.

PIONEER BRIDGE CLUB GATHERS AT MURTAUGH

Nero Did Some Coin 'Fiddling' Too, Modern Chemical Analysis Shows

He Was The First Big Inflationist

PRINCETON, N. J. (AP)—The chemistry of ancient coins reveals Nero as the first grand scale inflationist in history.

Nero didn't originate any methods not already known. But he applied the simplest of them on a scale that probably lasted longer and went over bigger than anything of the kind since. Modern economists would call his method debasement.

But Nero was so conservative in his work that the inflation he started lasted about 300 years. It paid for some Roman wars and imperial amours. In the end, historians rate it as one of the spectacular events leading to Rome's downfall. But Nero's coin was not widely known.

German Gatherers Data. Chemical tests and dates on the coins show his hand most clearly. These records were gathered by J. Hammer, a German, who combed the chemical work for them and published them in *Zeltgeschicht* and *Numismatik* years ago in a volume now scarce.

Some recent work on the composition of silver coins from ancient Parthia conducted at the Princeton university laboratory by Earle R. Colby, assistant professor of chemistry, calls attention to Hammer's records.

Dionysius, the Greek tyrant, seems to have been the first inflationist recorded. He adulterated his coins. But as a rule the Greeks practiced "minting rectitude."

When Nero came on the scene in the first century A. D., coined money was only a few centuries old. The Greeks started it in Lydia; the Romans established about B. C. 265. Early inflationists usually decreased the weight of their coins.

But not Nero. When he came in, the Roman silver coins, under Augustus, contained by modern chemical analysis 99 to 97 per cent of pure silver. Nero melted them up and released the coins with the silver content dropped to 92 per cent.

Not enough to make a noticeable change, but enough to issue many more coins, and these extra pieces belonged to Nero. Seldom has an economic experiment had a longer run or a more complete finish.

History credits the emperors with the silver. The percentage of silver in the coins was reduced.

His father, Leroy Lee. They will go to Salt Lake City for a visit at the home of Mrs. E. J. Marshall.

Miss Helen Marshall, Marysville, California, is visiting with her mother, Mrs. E. J. Marshall.

Wilfred Bland visited last week at the Marvin Olmstead home in Cas-

Nero, famed as the man who fiddled while there was a hot time in the old town, now is revealed as the first grand scale inflationist in history. Modern chemistry shows that he lowered the silver content of Roman currency by about five per cent. He'd melt the coins and then issue more than there had been before. The early Roman coin shown here bears a likeness of the emperor.

age of precious metal went to 21, 17, 14, and to silver plate at 5.6 per cent. Then to nothing. The chemical analysis shows finally less than 1 per cent, 38 per cent exactly. This may have been merely "impurity," that is silver the money makers did not know was there. At the last the coins had to be washed in silver for the sake of appearance.

That was the end of the great experiment. Aurelius improved the coins, and Diocletian reformed them to 94.3 per cent silver.

Mr. and Mrs. W. E. Griffith and son Elmer and Hilda and Cecil Walker are vacationing in Yellowstone park.

Mr. and Mrs. W. E. Griffith and son Elmer and Hilda and Cecil Walker are vacationing in Yellowstone park.

EASTERN IDAHO CROP OUTLOOK CALLED POOR

POCATELLO, Aug. 30 (AP)—Pocatello was again the keynote of the weekly crop and weather report summarizing eastern Idaho conditions which was released by the U. S. weather bureau here today.

Main, harvested in all but the northern and extreme southern districts, has brought poor yields, the report says. Beets too, are poor in most areas. They suffer from the white fly as well as from groundhogs. Potatoes are from fair to good with some second growth coming on. Prospects are poor for a third crop of alfalfa.

Ranges are "practically burned up." Livestock is fair, but feed is getting scarce, with surplus stock being slaughtered.

Harvesting of alfalfa seed has commenced. Temperatures during the week were normal with no rain reported.

All crops are reported "very dry" in the Fremont county section.

Only in Bingham county were crops reported fair to good. Beets, potatoes and meadow lands were satisfactory, the Blackfoot summary stated.

"Everything very dry and stock feed practically gone," was the report from Montpelier, Bear Lake county. Harvesting of grain continues.

JEROME BOOSTERS TO FORM CARAVAN

JEROME, Aug. 29—Plans for forming a caravan of Jerome cars to attend the Jerome day at the Gooding rodeo occupied most of the time at the weekly merchant's lunch, held at Tom's cafe at noon today. Plans have been completed and pennants and other banners will be supplied at small cost who wish to join the caravan when it leaves Jerome Thursday.

Mr. and Mrs. Niel Jensen and son Hobby left Thursday for Carrol, Iowa, for a visit with relatives.

Miss Josephine Ellis, who has spent the summer here with her sister, Mrs. Earl Sears, returned to her home in Tremonton, Utah, recently.

Mitchell Marshall, who came to the bedside of his father, F. J. Marshall, during his illness and death, returned to his work in Halley Saturday.

Mr. and Mrs. Clifford Evans left Friday for Pingree, Idaho, where Mrs. Evans will resume her teaching. Mr. Evans will attend the University of Idaho at Moscow this winter.

MARINFOFF BEER

IN half-gallon JUGS

Leader and Originator in the Pacific Northwest (PATENT APPLIED FOR)

MARINFOFF BEER IN HALF-GALLON JUGS IS TAKING THE ENTIRE, NORTHWEST BY STORM. This is the first time since the beginning of the brewing industry that you can get real beer in half-gallon jugs, filled and sealed at the brewery by special process invented by the Northwest Brewing Company.

MARINFOFF BEER now comes to you in these sealed glass jugs, with all the flavor of real draught beer, and is brewed by experienced brewmasters in America's most sanitary breweries, of the highest quality malt, hops and other ingredients.

BEWARE OF IMITATION BUY ORIGINAL

Many other concerns are trying hard to imitate our process. There is only one original. That is MARINFOFF BEER in half-gallon jugs put up by special process for the public by the Northwest Brewing Co.

MARINFOFF BEER is put up in half-gallon jugs for FISHING TRIPS, PICNICS, PARTIES, or for HOME use.

Marinfoff Beer is the Only Beer in the United States that will not go Flat in half-gallon jugs

You can now keep a jug on ice, open it a dozen times, if you wish, and the beer will positively not go flat.

Buy it by the Jug

Call for MARINFOFF BEER in jugs at retail stores, taverns, beer sellers, parlors and grocery stores. Buy a jug today and enjoy MARINFOFF BEER at your home.

Congratulations!

The Gossman Clothing Co.

79 Fifth Avenue, New York

Extends its heartiest congratulations to the

Golden Rule C. C. Anderson Co.

upon the event of moving into their new home.

We are proud of the fact that "GROSHIRE" Exclusive Clothes "Tailored in the Custom Manner"

Will Be Featured in This New Store.

Heartiest Congratulations to Golden Rule C. C. Anderson Company

Upon the Occasion of the Opening of THEIR FINE NEW STORE

Always dainty with HALF THE NUMBER OF DRESSES when they are washed in the NEW EASY Spirallator

Fewer garments . . . washed quickly and easily at frequent intervals in that marvelously gentle new Spirallator washer . . . that means constant daintiness for the girls . . . and economy that gratifies the slimmest budget.

Everything from sturdy shorts to the most enchanting party frock . . . and, of course, the most fragile modern lingerie . . . may be washed safely . . . but thoroughly in the New Easy Spirallator. The garments move so loosely and freely, as the Spirallator cleanses them, that there's no hint of tangling or needless washing wear.

GOLDEN RULE STORE BUSINESS INCREASE CALLS FOR MOVE

Mercantile Institution Reciprocates With New Facilities for Service to Twin Falls Patronage

The C. C. Anderson company will open the doors Saturday of its new and modern "Golden Rule Store" in Twin Falls at the corner of Main and Second street east. Removal from its former location, according to J. J. Chapman, general manager of the company...

"Twin Falls has been very good to me," continued Mr. Chapman, "and we are endeavoring to give its citizens the type of new store we feel they so richly deserve. Harry Carson, its manager, will continue as manager of the new establishment, it is announced. The building which will house the new Golden Rule has been completely done over, the most modern of new fixtures have been fitted together with an indirect lighting system and other features calculated to provide the greatest possible convenience and comfort for Golden Rule customers."

Idaho Institution

Asked to give a message to the people of this community, Mr. Chapman responded, "This is your store, please make yourself at home. It is a 100 per cent owned Idaho institution. In arrangement, in the display, in the lighting effects, and in all services that make for time-saving and pleasant, easy shopping, this store has been designed with but one thought in mind, to serve you better. Money spent in this store stays in Idaho, so that my suggestion to the folks of the Twin Falls tract and South Central Idaho is to spend their money at home where it does the most good. The Twin Falls Golden Rule is one of an association of 25 stores in Idaho, including Boise, Blackfoot, Buhl, Caldwell, Cascade, Emmett, Gooding, Glenns Ferry, Weiser, Pocatello, Mountain Home, Nampa, New Plymouth, Parma, Payette, all in Idaho, Nysaa, Ontario and Vale, Oregon, Puffinbarger and Tropic, City, South Dakota. The parent store is located in Boise."

C. C. Anderson Founder

Thirty-eight years ago the first of the Idaho Golden Rule stores was established in Boise by C. C. Anderson, now president of the C. C. Anderson company and still president and foremost responsible for the remarkable success and growth of these stores. Coming originally on what was styled "The building of a great business" an Idaho newspaper had this to say in its issue of October 21, 1913, of Mr. Anderson's achievements: "Ideas overcome all obstacles and command success. It is the man who possesses and is possessed by a great idea who becomes a commanding force in any avenue of human endeavor and in a community."

"In the mercantile life of Boise a merchant who through many years has built up a great business by steady adherence to an idea, is a force to be reckoned with. The great central and commanding idea of his business career has been, 'Every day should be a bargain day.'"

In All Markets

"A simple idea in itself, but one demanding great labor and great executive ability. In following this idea all the markets of the entire country must be known, and the merchant must be alert, active and vigilant."

CONFUSION ENDED ON BRAN

New Ruling Makes Labels Accurate

To protect the buying public, the United States Food and Drug Administration has advised every package of cereal labeled "bran" to contain the label exactly what it contains.

Before this ruling, even part-bran cereals were sometimes mistakenly referred to as "bran" cereals. It was not easy for the purchaser to tell whether the cereal was entirely bran, or all bran with flavoring, and another that was part-bran.

Kellogg's ALL-BRAN is labeled "ALL-BRAN" Deliciously Flavored with Malt, Sugar and Salt, a statement which describes the product fairly and honestly.

Kellogg's ALL-BRAN has won millions of friends because it corrects most types of common constipation safely and pleasantly. It furnishes gentle laxative action needed to promote normal elimination.

However, ALL-BRAN is not a "cure-all." Certain types of intestinal disorders should be treated only on a physician's advice.

When you buy a bran cereal, for the relief of constipation, read the directions on the package. The fact that it is "bran" is a sure sign that it is a bran cereal. Kellogg's ALL-BRAN is a sure sign for satisfaction.

It is a success in the red-and-green package. Made by Kellogg's Battle Creek.

Mrs. Piccard, Eager For Stratosphere Flight, Doesn't Fear Death, But She Balks At Mending

By JOHN LEAR

PHILADELPHIA (AP) — When Mrs. Jeannette Piccard—who as a housewife likes to cook but hates to mend—launches woman's first stratosphere flight in September, it will be with the conviction that fate started it all by throwing her husband out of a job.

"It seemed as though it were the thing we were intended to do," is the way this woman, a devout church member and the mother of three children, puts it.

"We had the balloon," she says, "we had the gondola. We were out of a job."

"We couldn't do any work for ourselves for civilization. If we had no laboratory in which to work on the ground, we had one in the air, and we ought to make use of it."

Faith and Fate Help Of course, the woman pilot has to add, they probably wouldn't have the balloon and gondola were it not for the stratosphere pioneer of brother-in-law Auguste, the famous Belgian.

It was he who inspired the 1933 world's fair flight of Lieutenant Commander Settle, and his brother Jean who organized them and was given the craft in return for his work.

Auguste's successful flights have something to do with his wife's lack of fear, and that matter of faith and fate has done the rest. "I do have a certain amount of misgivings naturally," she says. "One has to recognize certain dangers. Otherwise it would be foolhardiness."

Death, Perhaps

"But fear—I don't think so. What is there to be afraid of?" "Death, perhaps, but one is not afraid of death."

Only one thing am I afraid of, she says. "I'm afraid of my husband's death. Like husband Jean and brother-in-law Auguste, Mrs. Piccard is a

and absolutely self-reliant, quick of judgment and ever ready to act. "Every day a bargain day has made the Golden Rule store of Boise and its many branches in nearby towns a marvelous success and marks its owner, C. C. Anderson as one of the real forces in the commercial life of the Pacific Northwest."

A rapidly increasing business causing the Golden Rule to be familiarly known as "The store that always buys" did not divert Mrs. Anderson's attention from the possibilities of other Idaho towns, and shortly after the establishment of the main Golden Rule store in Boise, other stores were opened from time to time. The Twin Falls store was established here about four years ago.

"Our new store in Twin Falls," says Mrs. Anderson, "is a wonderful opportunity to speak the appreciation it has long felt toward the people of the Twin Falls country. Our faith has been clearly proven and we are glad to present to Twin Falls a store especially designed to meet its specific needs, both in merchandise and equipment."

Departments Roster The roster of departments in the new Golden Rule store follows: complete men's and boys' store, clothing, hats, furnishings and linens; complete fashion section with women's and children's dresses for all occasions, coats, suits, millinery, fur and lingerie; complete accessories department of gloves, hosiery, underwear, jewelry, neckwear, to-

tries and notions; complete dry goods section consisting of silk, wash fabrics, woollens, linens, white goods, towels, blankets, bedspreads, etc.; complete shoe department carrying men's, women's and children's shoes of all descriptions, and a "basement store" that will duplicate the departments of the upstairs store with merchandise of the greatest economy, with the addition of a washing machine and electric refrigeration sections.

The Golden Rule organization commands the services of one of the largest buying offices in the United States in constant touch with stylists and manufacturers and its own buyers go to market four times each year, thus taking advantage of the best market conditions. This gives the Golden Rule store of Twin Falls buying opportunities second to none in the country and enables it to present to its customers assortments and styles found usually only in stores in cities of many times the population of Twin Falls.

"Details of the grand opening," said Mrs. Carson, local manager, "will appear in the Twin Falls Daily News issue of Saturday."

CAR LOADINGS

NEW YORK, Aug. 29 (AP)—Revised estimate of car loadings on the railroads of the country for the week ended August 28, which will be published Friday, place the number at 600,000 which would compare with 600,546 cars handled in the preceding week and 631,998 in the same week last year.

Mrs. Jeannette Piccard faces her first stratosphere flight confidently. She will ascend with her husband, Jean Piccard, with whom she is shown at the right beside the balloon in which they made training flights recently from Detroit.

in-law Auguste, Mrs. Piccard is a husband will be the welfare of their three sons: Donald, 8; Paul, 10, and John, 11.

All were born in Switzerland, their father's native country, while her mother's theirs under Prof. Jean

on the stratosphere hop with her he was teaching chemistry at the University of Lausanne. Their father had met at the University of Geneva where Jeannette Bidlon, French from Bryn Mawr, studied for her mother's thesis under Prof. Jean

Chief worry of the woman pilot.

Then came the Settle flight, and a determination was born in Jeannette Piccard to become the pioneer woman explorer of the upper air.

Long before she was a balloonist—she took her tests this summer and recently received a license from the Federation Aeronautique Internationale—the 35-year-old housewife firmly believed "a home is made to live in."

"I'm a good cook," she says, "and I can make a bed so a restless child can't stir a night—I don't like to mend, but I've just learned a new way to darn socks with a machine."

First Night Flight Wint do she and her husband seek in the stratosphere. All the data we can get on the cosmic rays. And to that end they wait and work at suburban Swarthmore, adding the staff of the Barto Research Laboratories of the Benjamin Franklin Institute in hurried construction of instruments to count the rays and their direction and measure their effect.

Barring the unexpected, their balloon will take off from Detroit some midnight in September when weather conditions are right, and the first night flight into the stratosphere will be under way.

"If luck's with us," Jeannette Piccard chuckles, "we'll get a nice picture of Lake Erie."

Piccard, on leave from his Swiss school.

A Good Cook

The five Piccards became naturalized Americans in 1921, a year after the chemistry professor came to the Massachusetts Institute of Technology. After three years there, he got a job with the Hercules Powder company, and the family made its home in Delaware. Three more years, and he was out of employ-

ment. Then came the Settle flight, and a determination was born in Jeannette Piccard to become the pioneer woman explorer of the upper air.

Long before she was a balloonist—she took her tests this summer and recently received a license from the Federation Aeronautique Internationale—the 35-year-old housewife firmly believed "a home is made to live in."

"I'm a good cook," she says, "and I can make a bed so a restless child can't stir a night—I don't like to mend, but I've just learned a new way to darn socks with a machine."

First Night Flight Wint do she and her husband seek in the stratosphere. All the data we can get on the cosmic rays. And to that end they wait and work at suburban Swarthmore, adding the staff of the Barto Research Laboratories of the Benjamin Franklin Institute in hurried construction of instruments to count the rays and their direction and measure their effect.

Barring the unexpected, their balloon will take off from Detroit some midnight in September when weather conditions are right, and the first night flight into the stratosphere will be under way.

"If luck's with us," Jeannette Piccard chuckles, "we'll get a nice picture of Lake Erie."

MOVIE INSTRUCTION STARTED AT HANSEN

HANSEN, Aug. 29—An innovation in the instruction in the Hansen public schools this year, according to Superintendent Ralph Byrd, will consist partially of motion pictures. Arrangements are being made by the board of trustees for the purchasing of "non-inflammable" film for the projector.

All classes in science will profitably study this new method of teaching. Classes will be conducted so that one class may attend the picture and then attend the regular recitation class.

Teach New Course "Due to the employment of an extra teacher for the 103-34 term," said Byrd, "new courses in science, speech, band, and glee club will be offered, and when the amount of motion picture instruction is made it expects a much larger interest in education to be shown by the high school students."

Plans were completed today for the opening of the schools on Monday, September 3. Because of a partial registration during last year's course, registration will be completed on Monday.

From 10 a. m. to 6 p. m. on Tuesday, September 4, election of two board of trustee members will be held at the high school building.

HEAR LAKE COUNTY FAIR OPENING AT MONTPELIER

MONTPELIER, Idaho, Aug. 29 (AP)—Montpelier was ready tonight for the opening tomorrow of the annual three-day Bear Lake county fair here.

Officials said livestock and produce exhibitions are the best in recent years. Visitors are expected from many parts of southeastern Idaho, western Wyoming and northern Utah.

Among the judges are L. W. Elster, county 4-H club leader of Pocatello, J. E. Norby, professor of animal husbandry at the University of Idaho at Moscow and J. W. Barber, district extension agent.

KIMBERLY VISTORS LEAVE FOR KANAS

KIMBERLY, Aug. 29—Mr. and Mrs. G. C. Christal and family from San Francisco, who have been visiting Mr. and Mrs. Ben E. Potter and family, left today for Kansas.

Misses Frances Newirk and Madeleine Douglas of Pocatello are visiting friends during the week.

The Kimberly Girl Reserve will be hostesses to the freshman girls and the adult council in the city park Friday afternoon at 2 o'clock.

Schilling Pepper

The luxury of good pepper is anyone's. It costs no more.

THE Diamond Hardware

extends an invitation to each and every one of you to visit this store during the Magic City Jubilee Celebration, September 5th to 8th.

PRINCESS TO WED IN MOTHER'S GOWN

Bride-to-Be of British Prince Interested in Wedding Outfit

BOHINSKO LAKE, Yugoslavia, Aug. 29 (AP)—A stately wedding in Westminster Abbey awaiting her a few months hence, **Princess Marina of Greece** tonight been thinking about her trousseau.

The Brunette daughter of Prince Nicholas of Greece plans to be married to Prince George, youngest son of King George VI, in the wedding dress her mother wore when she was married at the Russian royal palace 23 years ago.

Vacillating as to where the princess' parents also are visiting, the royal forms have been filed seen by the residents of this little Yugoslav mountain retreat.

That has not prevented them from finding out, however, that the princess is just as interested in her wedding wardrobe as any other young bride-to-be, and has already begun acquiring gowns and other feminine accessories for the event.

Wedding Date Uncertain

While the exact date of the state ceremony in Westminster Abbey will not be determined until the prince has conferred with his father at Balmoral castle in Scotland, where King George is now on vacation, the wedding will be held sometime during the winter.

Inspector Harry Evans, crack Scotland Yard detective and the same **Marina** who has been visiting the Mahatma Gandhi when he visited London, has been assigned to guard the prince and princess during their brief stay here.

Inspector Evans has his difficulties in trying to keep the prince and princess apart while at the same time trying to stay close enough to take care of any incidents.

Like any guests at an English house party, Prince George and Princess Marina are not chaperoned except when making formal appearances in public. The prince's father and mother are here, but are studiously careful to keep their distance when Marina is alone with her bride.

Pose for Cameramen

During the afternoon the prince and princess took time off from their many social engagements to pose for photographers.

For the occasion Princess Marina wore a sports costume while Prince George was attired in a lounge suit.

"Keep still," George admonished his fiancée as butlers were about to click.

Shortly after the last picture had been taken, the royal couple returned to King Alexander's palace at Bled—where the king and queen were their hosts at tea. Further

Sunburn, Stay Away From My Nose

PHYLLIS LIVINGSTON (left) and Marjorie Roth, a niece of Zane Grey, have evidently found a method to keep away red noses as they go aquaplaning off Catalina Island, California. They take their parasol along—AP Photo.

plans for the fiances were not disclosed.

George takes morning plunges into the icy mountain stream which flows past Prince Paul's villa into the lake, hiccups up and down mountains at a pace that surprises even veteran mountaineers and outwails even his personal adjutant, Major Humphrey Butler, and Inspector Evans. Thus, Prince Paul is Marina's brother-in-law.

COMPLIANCE FORMS FILLED BY FARMERS

BURLEY, Aug. 30—Compliance forms have been filled out by practically all the 428 participating wheat-growing farmers in Cassia county, preparatory to their receiving the final payment of six cents a bushel on their 1933 wheat allotment. The final payment will bring the total for the season up to 26 cents a bushel to wheat production control participants for 1933 government payments. These contracting farmers will also receive 20 cents a bushel as their 1934 initial payment when the final 1933 payment is made.

The reduction in acreage required from participants will be 10 per cent for 1934 plantings, instead of 15 per cent as provided in the government contract. The Cassia county allotment committee reports that most farmers adhered closely to their requirements acreage production this year. A few, however, planted more than

their allotment and were required to cut the excess grain while green, for hay.

The Cassia county allotment committee is made up of A. J. Azor, chairman, Wilford Sagers and C. H. Powers, County Agent W. W. Palmer as executive secretary.

WHEAT ALLOTMENT CLOSES AT JEROME

JEROME, Aug. 29—All but seven of the 814 wheat allotment contracts in Jerome county had field inspection and compliance papers completed for them by the last of the week. D. E. Smith, Jerome county agent, said today. This marks the end of the first year of the wheat allotment work.

Smith mentioned that all work, including the making of the contracts by the community committee, board of directors and allotment committees, disbursement of checks, office expense, supplies, rent, measurement of fields and compliance work, etc., was completed for only 2.3 cents per bushel of the county allotment.

According to a summary prepared by Smith, Jerome county agent, Jerome county as a whole did not plant the maximum allowance, but left considerable more than the required contract acreage.

ACHIEVEMENTS SHOWN BY JOLLY STITCHERS

FAIRFIELD, Aug. 30—Jolly Stitches 4-H club presented its achievement day program in the Cassia County high school gymnasium Saturday. Ornaments and other articles made by the members during the past summer were on display, after which each group modeled. Elma Jean, Mae, Carol, and Donna Mae Nelson presented a playette. Patricia Spratt, Patricia Spratt, LeVern Shear, Gayle Neely, Marjorie Moon, Elma Cox, Arnelia Cox, Theresa Lewis, Billie Parkinson, Carol Nelson and Jane Ellen Cunningham, Fay Nelson, Elizabeth Bracken, Glenn Pond, Carol Jean Miller, Clair Bracken, Dean Stry and Doris Wheatcroft made up the second year group. Elma Jean Nelson and Beth Dixon completed the third year work and Mrs. Leo P. Bracken spoke briefly, expressing the appreciation of the mothers for the work done by the leaders.

Officers of the club are Phyllis Lock, president; Jean Smith, vice-president; Glenn Pond, secretary; Elizabeth Bracken, reporter; and Gayle Neely, song leader. Mrs. W. B. Parkinson acted as leader of the club, with Mrs. Jo Moon, assistant. Other helpers were Mrs. B. D. Spratt, Mrs. P. E. Neely, and Mrs. Elmer Nelson. Mrs. R. H. Pond and Mrs. J. N. Orffith judged the first-year work.

Of the 40 girls who enrolled in the July 28-31, completed the course. According to Earl Stannell, Burley, district 4-H club agent, who visited Fairfield Saturday, most of the girls are outstanding in quality. They were Mary Jean Cluer and Elizabeth Bracken.

"IF IT ISN'T RIGHT, BRING IT BACK"

DAIRYMEN URGED TO RETAIN HERDS

Association Manager Tells of Price Increase and Drouth Relief

BURLEY, Aug. 29.—Rising prices for butterfat, brought about by increased production, increased consumption of dairy products, and lowering of storage supplies of butter in the United States, should cause dairy farmers to think seriously before selling the good producers from their herds, warns G. W. Ross manager of the local plant of the Minicasta Dairymen's association.

The government drouth relief cattle purchasing program is of great value to farmers, enabling them to get rid of poorer cows and low producers, as well as of those threatened with bovine berriosis or other diseases. But prices paid by the government for such cattle do not justify owners of dairy cows in selling good producers from their herds.

Present increased prices paid for butterfat will bring returns that will pay for feeding dairy cattle at the present cost of feed. And the strong position of the dairy industry, with the probability of much higher prices for dairy products in the near future, to their inducement to hold on to their good cows at all costs.

Statistics show, Ross points out, that butter production for the first six months of 1934 was 91 per cent below the same period of 1933; and that consumption thus far in 1934 was 49 per cent above last year.

Butter in storage August 1, this year, amounted to approximately 100,000,000 pounds, as against 151,000,000 pounds the same date last year. In fact, storage stocks now on hand amount to 20,000,000 pounds below the five-year average, and are rapidly decreasing.

Unprecedented drouth conditions have reduced butter production in every state in the union except Kansas, Washington, New York and Vermont. Hay and other stock feed production is low in the latter States, but hay production in southern Idaho, although lower than normal, is somewhat better than over hay from the previous year.

It is considered poor farming policy to sell hay from the farms for shipment outside the district, and it would seem especially bad policy this year in face of the encouraging position finally facing the dairy industry.

NORTH TALKS BEFORE KIWANIANS AT BUHL

BUHL, Aug. 30.—Charles A. North, Twin Falls attorney, was guest speaker at the Kiwanis luncheon Wednesday. North discussed the two theories of government, which have predominated throughout several centuries of civilization: the government of power, with power the predominant factor; and the government of liberty with citizens with power subordinate.

He developed the progress which has been made since the adoption of the constitution, when the federal government was chiefly a governing body, and showed the steps by which further powers have been granted. He concluded with the thought that we are passing through a transition in government, and we may see many radical changes in the near future.

Miss Fortian Hunt played several selections on the accordion as a feature on the musical program. Miss Minnie Pelt, who represents the Buhl Kiwanis club in the contest for queen of the Twin Falls jubilee, was presented to the club members.

W. B. Smith, Twin Falls, and J. M. Plumbot, Salt Lake City, were guests.

BUHL WOMAN FETED AT BRIDAL SHOWER

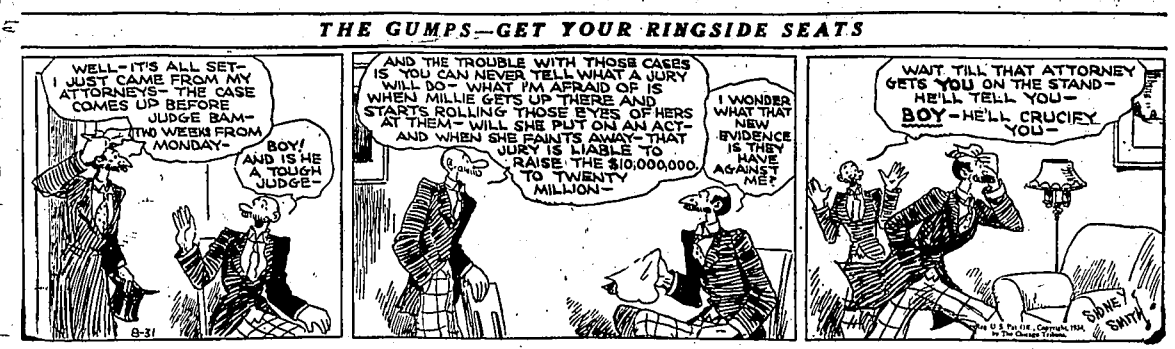

BUHL, Aug. 30.—Mrs. C. D. Borng was the honored guest at a bridal shower and theatre party given Wednesday by Mrs. L. J. Johnson and Mrs. Ross Wilson at the Johnson home. After the theatre, a two-course supper was served at a table centered with a bride and bridegroom sailing a silver moon boat on a sapphire sea of ocellophane. Blue tapers in crystal holders were placed at each end of the table, and silver crescents served as nut cups at the individual places which were marked with crescent and star place cards.

Following the supper Marion Wilson and Howell Johnson, dressed as bride and groom, came down a ribbon aisle in the living room to the strains of Lohengrin's wedding march and presented the honored guest with baskets filled with silver gifts.

Present, in addition to the guest of honor, were Mrs. Elizabeth McQueen, Mrs. Adolph Johnson, Mrs. Henry Orbel, Mrs. K. K. Short, Mrs. Jefferson Hill, Mrs. Harold Olson, Mrs. Gertrude Hine, Mrs. Sheldon Palle, Mrs. Gordon Van Ostran, Mrs. Doyle Shriver, Miss Ada Ryan, Miss Blenda Thompson, Miss Lois Rudy, Miss Frances Scullin, Miss Viola Wilson, Miss Gerda and Miss Mabel Sandgren.

BURLEY LEGION TO REVAMP DRUM CORPS

BURLEY, Aug. 29.—Reorganization of the American Legion drum and bugle corps is now under way, in charge of a committee made up of P. Parsons, Dean Hartwell and A. C. Hutchinson. Mrs. C. D. Johnson has been received by this organization to

MINIDOKA RANGER GOES TO WYOMING

BURLEY, Aug. 30.—Responding to a call-for-assistance in fighting seriously menacing forest fires, E. E. Stewart, Minidoka forest supervisor, has sent Harry O. DeAtley, formerly a ranger of the Raft river district of the Minidoka forest, to Jackson's Hole, in the Teton national forest. He will act as fire foreman, having had experience in fighting fires in Missouri, and plans to open a law office in Missouri and was regional attorney for the state finance department for time. He has not made announcement of his office location as yet.

MISSOURI ATTORNEY OPENS BUHL OFFICE

BUHL, Aug. 30.—M. E. McMurtrey, a brother of A. E. McMurtrey, Castleford mail carrier, has arrived here with his family from Hartsville, Missouri, and plans to open a law office. He practiced law for fourteen years in Missouri and was regional attorney for the state finance department for time. He has not made announcement of his office location as yet.

The Goodspeed apartments, adjoining the telephone building on Broadway, have been given a thorough renovation and are being opened by the state national bank of Idaho for September occupancy. The building has been closed for some months.

Members of the Rotary club are going to Wendell Thursday evening for their regular meeting.

TWO CANDIDATES FILE AS RUPERT TRUSTEES

RUPERT, Aug. 30.—With two places to be filled on the Rupert school board and only two candidates filed, the election to be held Tuesday holds little in the way of excitement. H. M. Cole and R. L. Colley are running for three year terms.

John Norby and H. M. Cole are the directors whose terms expire. Polls are scheduled to open at 1 p. m. and close at 7 p. m. Tuesday.

CEDAR DRAW GIRL MARRIES IN NEVADA

BUHL, Aug. 30.—Announcement has been received here of the marriage of Miss Dorothy Metz, daughter of Mr. and Mrs. E. L. Metz of Cedar Draw, and Mr. Charles B. Barnes of Los Angeles. The ceremony took place at Las Vegas, Nevada, and they will reside in Los Angeles where Mr. Barnes is engaged in business.

Mrs. Barnes graduated from the local high school and is also a graduate of the Los Angeles county general hospital and for the past few years has been employed at a hospital in Trona, California.

VISITORS LEAVE FOR SOUTH DAKOTA HOME

ELLER, Aug. 29.—Mr. and Mrs. Manning Tittle and daughter Lillian, accompanied by Russell Scog and Oliver Phillips left Tuesday morning for their home at Rapid City, South Dakota after a visit with Piler relatives.

Miss Grace Hicks returned Monday from San Francisco where she attended summer school for several weeks.

A family reunion was held at the fairgrounds Sunday when the families of E. A. Beem, O. C. Beem, H. E. Hammerquist, Manning Tittle and Isaac Beem gathered for a so host dinner. There were 27 in attendance.

WASH OUT 15 MILES OF KIDNEY TUBES

Medical authorities agree that your kidneys contain 15 MILES of kidney tubes or filters which help to purify the blood and keep you healthy. They should pour out into a glass a pint of fluid a day which contains 4 pounds of waste matter. If you have trouble with too frequent bladder passages with scanty amount cause, pain and discomfort, this is 15 MILES of kidney tubes need washing out. This danger signal may be the beginning of heartache, leg pain, loss of pep and vitality, getting up nights, lumbago, swollen feet and ankles, rheumatic pains and dizziness. Kidneys don't empty 3 times every day and get rid of 4 pounds of waste matter, your body will take up these poisons causing serious trouble. It may knock you out and lay you up for many months. Don't wait. Ask your druggist for DOAN'S PILLS which have been used successfully by millions of kidney sufferers for over 40 years. They give quick relief and will help to wash out the 15 MILES.

Don't take chances with strong doses or so-called kidney cures that claim to get you up in 15 minutes. Your common sense will tell you that this is impossible. Treatments of this nature may seriously injure your kidneys. Doan's Pills are the only safe, reliable relief that can be had. Doan's Pills are sold in drug stores. Doan's Pills at post-draw, O. 1914, Foster-McIlhenny Co.

Electricity Gives You Cooking At Its Best

SPEED. ECONOMY. EFFICIENCY

Women who have just experienced for the first time the thrill of cooking by electricity say they had never dreamed that the kind of range could make so much difference in the quality of their cooking. Their first electrically cooked meals were a revelation, not only to themselves, but to the whole family.

People who have never tasted roasts with all the juiciness and flavor left in, vegetables cooked in their own juices, grilled steaks with the distinctive flavor of charcoal broiling—electrically cooked food—have never tasted food at its best.

Electric cooking with a modern electric range knows no limitation. Whether you bake, or roast, or broil, the electric range oven turns out food with a flavor and tenderness not even approached by any other form of cooking. And cooking on the surface elements is just as different, just as far advanced.

The "CHICAGOAN", a Beautiful New Model Electric Range

This new table-top model Hotpoint Electric Range is the last word in beauty and modern design. The cooking units are placed at the left leaving half of the top surface free for other uses. The automatic oven is equipped with smokeless broiler pan and double extension sliding shelves. This modern range has a large utility drawer or warming compartment equipped with a separate heating unit. It is finished in beautiful porcelain enamel either in cameo or white with pearl gray trim. A decidedly attractive range, moderately priced.

You can purchase this handsome Hotpoint Range on a convenient monthly purchase plan.

NATIONAL REPRESENTATIVES PRUDDEN, KING AND PRUDDEN, New York, Chicago, San Francisco.

IN CALIFORNIA Nomination of Upton Sinclair, avowed Socialist, as Democratic candidate for the governorship of California serves to place that state in the very center of the political stage, for the moment.

It is not at all unlikely that Sinclair will be elected. If it is it will be interesting to watch the workings of a programme which no orthodox politician or candidate of either major party would accept for a minute.

Mr. Sinclair would put an end to want and idleness. He would do this by starting up every closed factory of whatever kind in the state, and there are many. He would utilize every acre of idle land and generally regiment the state and its people in such a way as to ensure a reasonable living for everybody.

Can it be done? Perhaps, but nobody has ever done it yet. Within easy recollection, A. C. Townley tried something of the kind in North Dakota. There were publicly owned mills, elevators, warehouses, lumber yards, stores, banks and newspapers and after a few years of this there was a financial tangle in the affairs of North Dakota which has not been completely cleared up to this day.

But the present is an age of experimentation and things are being done every day which a few short years ago would have been deemed impossible. Some of them may yet be found to be impossible but a part of them may succeed. Some of them had better succeed or the result will be a condition of chaos which will make the example of North Dakota read like a story from a child's picture book.

One at least of Mr. Sinclair's promises can probably be relied upon. He declares that he will pardon Tom Mooney, at present serving a term of life imprisonment for complicity in a San Francisco bomb outrage during the war years which cost the lives of some seventeen persons, if he is elected to the office of governor. Having helped for years to bring about numerous reviews of the case in the interests of executive clemency it is altogether likely that a pardon will be issued if Sinclair is elected.

LAW REFORMS The American Bar Association, in session in Milwaukee, has accepted the proposition that if reforms are to be instituted the layman must assist in the process. In connection with the five point program adopted by the Association to bring about improved procedure and a less uncertain dispensation of justice the suggestion is made that committees consisting of lawyers and non-lawyers be appointed by governors of states whose business it shall be to criticize law enforcement.

Throughout the entire proceedings runs the flat acceptance of the proposition that the law and its administration stands badly in need of a new deal. Speakers high in the ranks of the profession call attention over and over again to this and admonished the membership to give serious thought to the grave dangers incident to methods of practice in vogue in both civil and criminal procedure.

The increasing menace of criminal activity was pointed to as a compelling reason for a revised jurisprudence and the many safeguards and privileges which are enjoyed by the criminal were cited as one of the chief causes in the growth of crime. Many of the reforms proposed are the

outgrowth of years of study by leading lawyers of the country and the adoption of these is expected to result in accelerated procedure and a general raising of the standards of practice.

No question was raised as to the advisability of adopting such a programme.

ACCESS TO MACHINE GUNS

The automobile has sometimes been blamed for the increase in crime in the United States in recent years. The auto has certainly made it easier for robbers and gangsters to get away from the scene of their crime, but it is probably far less to blame than the machine gun.

Without the fancy artillery these bad men possess in such quantity they would show less boldness and daring. Most of them are cowardly. It is the fact that they carry arms superior to anything their victims have for self-defense that encourages them to their daring raids and such hold-ups as that of the armored money-truck in Brooklyn.

Why should it be possible for private citizens, and particularly anti-social gangs, to obtain machine guns and sub-machine guns? The public has known for a long time that this question is at the heart of the crime problem. It has been urged in the newspapers and in the courts and elsewhere that whatever is necessary to do should be done to deprive lawless persons of their weapons. When will we get around to taking the obvious action, and disarming the crooks?

A WORKLESS WORLD

A workless world only fifteen years in the future is the prediction of a recent presidential address to the national inventors congress, which met in convention the other day at Cincinnati. "All the work will be done in an infinitesimal fraction of the time now required, machinery doing the trick."

Here is a utopian time many of us would like to dance to. Man relieved of his labors with life as simple and easy as that of a power and sustenance could be garnered from the sunbeams.

A workless world Even the inventors should project their vision still dreams in other channels. The golden hour of invention itself surely must terminate like other hours when the man of genius takes to easy leisure instead of work. If it were true that a workless world is to be our future domicile, what a fruitful field for invention!

The inventors will do nothing but laughter and merriment and present mankind with a one-way ticket to destruction, if they give us a workless world.

GANDHI'S MODERN COSTUME

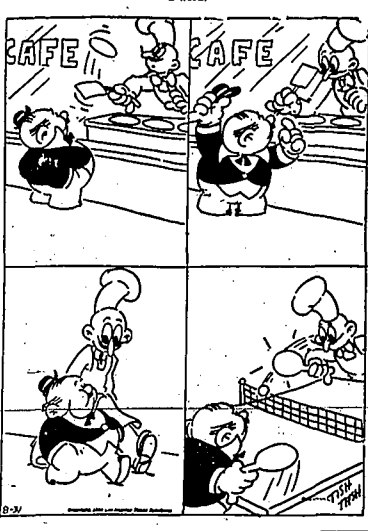

Gandhi is back in the news after an absence of considerable length. The first glimpse of him in the pictures brings a sense of something greatly changed, despite the familiar elements of figure and dress.

Five-Child Family is Rare (New Orleans Times-Picayune) Birth of five children to one American family in the top financial bracket is almost as noteworthy as though the youngsters had been quintuplets, instead of scattered at intervals throughout ten years.

BREAKFAST FOOD

"Is your son still pursuing his studies at college?" "Yes, but he doesn't seem able to catch up with them."

VAN BORING (He never says a word) By Tish Tash

NATIONAL WHIRLIGIG

(NEWS BEHIND THE NEWS) (Copyright McClure Newspaper Syndicate)

WASHINGTON By George Burne INTEREST. Most minds of the New Dealists drive to stimulate home modernization and repair are more likely to be leveled against them.

The charge the Federal Housing Administration is facing is that any home-owner who borrows money to repair his house under the government's new scheme will wind up paying interest at the rate of 8.72 per cent instead of the advertised 8 per cent.

Financially, this is true but FHA feels the case against them has been most unfairly presented. A setup has been devised which permits the borrowing citizen to get cheaper and easier credit than he ever could have gotten before.

Assistant Administrator Albert L. Deane, whose private-life job is President of the General Motors Holding Corporation, knows all the angles. The FHA plan is really his baby.

After much consideration FHA launched its publicity campaign in a \$100 note. Immediately he sent \$25 to put into work on his house. He ultimately will have to pay back \$100.

That is exactly the way it works.

the bank. At the end of three years still using the FHA repayment plan he has the desired amount.

But all that time the bank is enjoying progressive use of his money and the old homestead is depreciating in value.

STRENGTH. Several important Republican bills have been introduced in the past few days for an estimate of the significance of Representative James W. Wadsworth's name on the charter roll of the American Liberty League.

The consensus is that New York's ex-Governor is being "blinded" by because it couldn't hurt him and it might help him.

Wadsworth is regarded in many influential circles as an outstanding candidate for the Republican Presidential nomination in 1936. If the Liberty League succeeds in rallying the old parties into so-called liberal and conservative camps he'll be on the ground floor. If they don't the Republican party as a whole still will get the benefit of their anti-New Deal fireworks and Wadsworth remains a good spot.

Wadsworth was beaten for reelection to the Senate several years back because he was too far-sighted. He embraced repeal of prohibition before it became nationally respectable.

STABILIZING. Three or four important recovery agencies are to become permanent according to present plans. NRA is to retain supervisory codes. The anti-trust laws are not to be permitted to kill off cooperation under codes. Federal Relief in some form will be made permanent, with unemployment insurance and pensions added to take older people out of competition with the young.

Notes. A fierce underground scrap is on between NRA and the Federal Trade Commission over administration of the anti-trust laws. Spokesmen of both sides brought the question up with FDR when he landed at Portland. Disbursement of public works funds has temporarily fallen off. Lawyers and politicians are wondering whether the Supreme Court will decide a test case affecting the New Deal before election day.

PLEASANT VIEW DATES OPENING OF SCHOOL ENELL. Aug. 30—Pleasant View school will open September 3 with Mrs. Virgie Grout as the upper grade teacher and Miss Ada Ripley as the primary room teacher.

CREDIT. Going a step further, Deane takes into consideration the thirty man who does not want to go into debt but prefers to save until he has enough laid aside to put those new shingles on the old homestead.

Methodically, he puts money into

A New Yorker at Large

By MARE BARRON

NEW YORK—True as it is that hard times have made people homesick, it is equally true that the late dark days have given others far more pleasure than they have ever known before.

Following the tide, other builders began similar assaults on the mean streets, reaching deep into the Third Ward before 1929, the tenement dwellers would have been startled to find in their midst a man who had been so long in the city as to scare them right back into their cellars.

It is not necessary to recall that at this point the developers, contractors and realtors were found themselves fresh out of money. Down-at-the-heels tenements still in the line were criss-crossed by the "house where a bull" noise "brings" a roomer broods over the kids playing basketball in the street while the "house" nobody seems to know for these places are now occupied by the people who were not born into it.

For that reason, they are grateful, in a half-ashamed personal way, for the depression. The markets and shops, long dependent on poor people, have attractive prices. Rent is low, service just dandy and it all makes for the life of Riley.

STEWART. A fierce underground scrap is on between NRA and the Federal Trade Commission over administration of the anti-trust laws.

PLEASANT VIEW DATES OPENING OF SCHOOL ENELL. Aug. 30—Pleasant View school will open September 3 with Mrs. Virgie Grout as the upper grade teacher and Miss Ada Ripley as the primary room teacher.

CREDIT. Going a step further, Deane takes into consideration the thirty man who does not want to go into debt but prefers to save until he has enough laid aside to put those new shingles on the old homestead.

Guiding Your Child

By ALICE CLARISSE RICHMOND

"Mother, may I sleep out tonight?" "It was a question which Sam asked periodically during the first months and which his parents always answered in the negative.

Had they analyzed the difficulties honestly they would have realized that the basic objection was their own aversion to the idea, partly because of vague fears of prowlers and kidnappers and partly because it was new. Innovations are always stumbling-blocks to parents who are by nature conservative where their children are concerned.

In point of fact there was no valid objection to the child's sleeping out. It would have done him harm only if he were a child of the house who had no other place to go.

SCHOOL GIRLS HOLD NO-HOSTESS DINNER BULL. Aug. 30—A no-hostess dinner was given Monday evening at the home of Miss Genevieve McCreary to a few well-chosen guests who were going away to school.

POSTERS SOUGHT FOR HOBBY SHOW

Federated Groups Formulate Rules for Fair Here September 20-21

All organizations participating in the Hobby Fair, September 20 and 21, at the Twin Falls high school building are asked to submit posters, calling attention to the event, which may be displayed during the jubilee celebration here next week. It was announced at a federated meeting of the organizations last evening at the high school auditorium.

Mrs. James Vandenberg is in charge of the posters and requests that they be presented at the Twin Falls public library by September 4, if possible. Late posters will not be accepted, however, inasmuch as the Hobby Fair is to continue for two days, a responsible person will be stationed in the exhibit room over-night, assuring exhibitors the safety of their displays.

Sobbyists to Register
All hobby exhibits must bear identification and classification. Those having hobbies to exhibit will be requested to sign registration blanks, which will be available at the library starting at 10 o'clock on September 4. The committee may know in advance the variety of hobbies to be displayed, and the amount of space that will be required.

A quantity of display cases and sectional book cases, for the suitable showing of the various items, will be needed. All persons having such articles to donate for the occasion are requested to notify Andy Frederick, Mrs. W. A. Van Epsen or Lawrence Louden, who has been designated as property manager for the Hobby Fair. The Hobby Fair will open at noon Thursday, September 20, and will continue throughout the day, closing at afternoon. Thursday evening a program, stressing hobbies, will be presented. This will include musical numbers and illustrated talks.

Willie Wilks by ROBERT QUILLER

"Pop is just right. If he was sister I wouldn't like him, and if he was tougher I couldn't play with him."

BREVITIES

Parents of Daughter—Mr. and Mrs. I. Foyler, Filer, are the parents of a daughter born yesterday at the county hospital.

Home From Utah—Mrs. Andrew Dingle and daughter, Norma Jean, have returned from a vacation visit in Salt Lake City.

Daughter Visits—Miss Edith Williamson, Boise, is here a week-end visit with her parents, Mr. and Mrs. A. D. Williamson.

Back From Utah—Mr. and Mrs. Lem Chapin and Mr. and Mrs. R. A. Reynolds returned yesterday from a trip to Salt Lake City.

Visit Mother—Mrs. M. J. Throckmorton, Denver, and Miss Alice Carlson, Pullman, are here visiting their mother, Mrs. O. E. Carlson, Fourth-avenue east.

Shamrock School Opens—Shamrock school will open Monday, September 3. Teachers are Miss Charlotta Riedeman, room 101, and Miss Clea Lindsay, primary grades.

Back From Trip—Mr. and Mrs. Floyd Jones have returned from a fishing trip on the Salmon river, bringing with them three salmon they speared near the mouth of the Hoarling creek.

Returns to Tacoma—Miss Edith Ramsey, member of the Tacoma high school faculty, who has spent the summer here visiting her parents, Mr. and Mrs. Fred E. Ramsey, has returned to Washington.

Discharged From Hospital—Patients discharged yesterday from the county hospital were Tom Deane, Twin Falls, Robert Frazier, Mrs. Clara Lundy, W. R. Duffin, and Dale Harrison, Twin Falls, and John Engles, Hollister.

To Reopen Studio—Miss Grace Bryant, Twin Falls, is the proprietor who will reopen her studio in Twin Falls September 10, according to information received by friends here. Miss Bryant has spent the summer in Detroit and Milwaukee studying.

Vacation Ends—Mr. and Mrs. R. P. Robinson and son, Delbert, and daughter, Jeanette, have returned from a vacation trip to San Francisco and other California points. Mr. and Mrs. Robinson attended a month here, closing out the school of the local store. During his absence Howard Smith will be temporary manager of the store here.

Leaves for Hollywood—Bill Norgreen left yesterday for Hollywood the day will be Frank L. Stephan of Twin Falls, Republican nominee for governor.

A chicken dinner will be served at noon in the Colthrop park. The afternoon will be devoted to different sports. A rodeo will be staged at 2:30 o'clock in the afternoon. Dancing in the Park opera house in the evening will conclude the day's entertainment.

NEW YEAR BEGINS FOR HIGH SCHOOL

150 Seniors, 160 Juniors Enroll for Term; Principals Meet

Yesterday's enrollment at the Twin Falls high school included 150 seniors; 160 juniors and 30 sophomores. Sophomores will register this morning; freshmen this afternoon, and students from other schools Saturday morning.

The high school library will be open to receive books for the book exchange today from 9 o'clock in the morning until 1 o'clock in the afternoon. Those who have second-hand books for high school to turn in may do so beginning today. Miss Gladys Hibbs will have the book exchange open during registration.

Anyone having a place for a boy or two to work for books and room is requested to notify the principals' office at the high school.

A meeting of principals with the superintendent is called for this morning at 10:30 o'clock to plan for the opening of school.

COUNCIL TERMINATES PRE-SCHOOL PROJECT

The Parent-Teacher Association Council closed an outstanding pre-school study group project this week. The study was held in the city park and overall were distributed by local chairmen and welfare workers to pre-school children.

Mrs. Orla Gray, chairman, chose materials fascinating in color, design and pattern, and all pre-shrunk before cutting. The styles were chosen with self-help features. The material was bought by the local Parent-Teacher association organization and the dresses were made by some employed by the YWCA, and most of the work was done, for which the Council expresses deepest appreciation.

Another feature of the project was the conduction of three meetings for parents of pre-school children, with discussions on nutrition, play, materials, and clothing, with Mrs. O. W. Burns as a special chairman. The work is recommended as follow-up for the summer round-up by the National Congress of Parents and Teachers.

TWO YOUTHS JAILED FOR CHECK FORGERY

Accused of forgery of a \$16 check, William Brown, 20, and Fred Stombaugh, 19, both former residents of Holbrook, Nebraska, pleaded guilty in the district court here yesterday, and were sentenced to serve 150-day terms in the state prison, sentence being immediately committed to 60-day jail terms each.

District Judge W. A. Babcock pronounced judgment when the two young men were arraigned on the charge of receiving sentence after entering their pleas.

The prosecutor's information charges that the two young men forged the check at Duhl last August 12, with intent to defraud a local department store, and that the names of two fictitious persons were used—Duane Slapp as payee and Frank Hearn as payor of the check.

The accused young men were arrested by Duhl police officers, where he will join his mother, Mrs. Beatrice Norgreen, who has a secretary position with one of the moving picture studios. He has been the guest this summer of his grandparents, Mr. and Mrs. E. J. Ostrander.

Admitted to Hospital—Patients admitted yesterday to the county hospital were Mrs. R. T. Fuchs, Jerome, Mrs. Floyd Osborne, Washington, Mrs. A. A. Boettcher, Twin Falls, Mrs. G. H. Shearer, Filer, Miss Janice Ramsey, Filer, Miss Norma Neek, Garnett, Master Charles Hansen, Shoshone, and A. Moncher, Paul.

Fur Brightens Autumn Frocks

A PANEL of gray and white squirrel riding the coat, adds a striking touch to the gray wool dress and coat ensemble pictured at left. At right is a suit of black wool. Stenciled leopard forms the reverse, the tie and barrel muff. The costumes were designed by Herbert Sondheimer, 179 Photo.

BOOSTER CARAVAN TO ADVERTISE JUBILEE

Junior Chamber of Commerce members and other boosters of the Magic City Jubilee will assemble at the city park at 6 o'clock this evening and organize an automobile caravan which will serve to advertise the Jubilee.

The motorcade will leave the park and go to Filer, Duhl, Hagerman, Bliss, Gooding, Wendell and Jerome. A public address system will be used to make the announcements and advertising literature will be circulated. Bruce Johnson, committee chairman, said last night.

NORMAN BATES WILL OPEN DANCING STUDIO

Norman Bates, who has been taking a teachers' course in tap-dancing at Meglin's School of Dancing in Los Angeles this summer, has returned to Twin Falls preparatory to opening a dancing studio here the middle of September.

Mrs. Ethel Davis Burdett, state instructor of Norman Bates, and former dancing instructor of Twin Falls, is a

NEW DEAL GROUP ACTIVE IN RELIEF

Retiring Temporary Chairman Assigns Credit for Allotment Boost

Twin Falls county's FEPA allotment for August, which he said was at least two and one-half times greater than that of the preceding month, was attributable largely to activities of the New Deal club, E. Madding, retiring temporary president, told members of the Twin Falls club at a meeting in the prob-

ate court room last evening. He responded to a vote of thanks that the meeting extended to retiring officers.

Frank Brennan was the club's choice as its new president, with L. W. Williams as vice president; Eugene Scott, secretary; and James D. Whelan, treasurer and publicity agent. Brennan had served as vice president since the club's organization.

In attendance at last evening's meeting, Harold L. Yeamans of Buhl, New Deal club organizer and a defeated candidate for the Democratic nomination for second district congressman, pledged continued advocacy of the principles of the new deal.

Speakers indicated sentiment in favor of continuing the New Deal club as a non-partisan organization.

CIVIC CLUB OUTLINES PLANS FOR MEETINGS

HAGERMAN, Aug. 30—Members of the civic club board met Wednesday at the library. During the business session the program for the coming year was outlined. The first meeting following the summer vacation will be held the first Thursday in October instead of the first Thursday in September.
