STRANGE TRAGEDIES
ATTACK EXPLORER
TO LONELY ISLANDS

Dr. Friedrich Ritter, Voluntary Exile, Possesses Secret of 'Something Too Terrible to Write About'

(By The Associated Press) LOS ANGELES, Nov. 20.—A hint that something too terrible to write about had happened in the Galapagos Islands, where a lone explorer, Dr. Friedrich Ritter, voluntarily exiled himself, came to light here today while an exploring party was making ready to leave for the spot.

The only clue to the mystery was the assertion that it involved the "Empress" of Charles Island, otherwise known as Santa Fe. Ritter, who was described by the holder of the secret as a "capricious princess, tyrannizing all about her."

The possessor of the secret is Dr. Friedrich Ritter, who with his mate, Hans Ditt, a German scientist, has been living on Santa Fe Island for the past 10 years. Ritter himself once mentioned in a letter that he had been "attacked" by the natives.

Blurred first by word of strange happenings on Charles Island and finally by the mystery telling the identity and whereabouts of the persons found on Santa Fe Island, Ritter, who is in the United States, said he had been "attacked" by the natives.

It became known today that Dr. Ritter, who is a German, had been "attacked" by the natives. The story, which is unusual, that he could not bring himself to put it in writing. The only making of this the matter might be about was the information.

Rebel Activities**

MEXICO, D. F., Nov. 20 (AP)—A rebel attack on communication lines near Lampazos, Nuevo Leon, home town of General Antonio Villarreal, deflected candidate for president of Mexico, furnished the only indication of a purported attempt to start a revolution in his name today.

A recent proclamation circulated in northern Mexico over Villarreal's supposed signature had called for an uprising on the anniversary of the 1910 revolution, to oust the present government and establish "true revolutionary government."

Ex-Marine Officer Says He Was Invited to Lead March on Capital

NEW YORK, Nov. 20 (AP)—Chairman John W. McCormack of the house committee on un-American activities quizzed Smedley D. Butler today about his alleged intention to lead a march on the United States Capitol.

After hearing the retired marine officer's account of reports that General Butler had taken the bottom of this matter and we are going to cut witnesses and records that may be."

After Butler had finished his testimony, Mr. McCormack asked Butler, vice chairman of the committee, said "from present indications, Butler has the evidence."

IN RECOVERY DRIVE

Endorses Housing Plan; Federal Advisory Council Supports Reserve Board

(By The Associated Press) WASHINGTON, Nov. 20.—To the growing cooperative drive for economic recovery, tonight was added a group of conservative political bankers.

William Green, president of the American Federation of Labor, appealed to working men everywhere to get behind the administration's housing plan, which had been enthusiastically endorsed by the business men leading the drive for an economic recovery.

Green said the federal advisory council—12 bankers chosen to advise the Federal Reserve board—had frequently at large meetings—pledged their support to the board and its new governor, Mr. E. C. Eccles.

At NRA board meeting in New York, he said in a statement, "the NRA board now directing that agency would do everything possible to assist the cooperative movement."

Coast's Orchards Blooming**

BEATLE, Nov. 20 (AP)—This is the ally season for Pacific Northwest weather, which has been slightly off, off and on, for almost a year.

Last December and January a 15 inch rainfall caused disastrous floods.

Then came an early spring and flowers bloomed and trees blossomed weeks ahead of schedule.

In eastern Washington, apple growers feared their fruit would be ruined by a heavy frost.

But a heavy frost did not come, and the fruit is now in the market.

California Party Leader in Boise Discusses Political Future

BOISE, Nov. 20.—Mr. H. H. Requa, California Party leader, Republican National Committee member from California and long time friend of President Hoover, today discussed the future of the Republican party being "about to die."

Visiting Requa here, Requa declared in a statement that "there is no more reason for the demise of the Republican party than there is for that of the Democratic party over the years of their defeat. They survived and so will the Republican party. I don't think it will be taken over by any faction but I do think that Henry H. Requa will make a good coordinator to harmonize the ideas of various factions and bring about a national program that will be acceptable to all. This will be the only way to save the party."

Requa said that the Democratic program has proved unworkable and unworkable, he continued, and is being rapidly discarded. What two years will bring forth alone can tell but of one thing I am sure, the Republican party is very far from being a corpse.

California Campaign

He described the recent gubernatorial campaign in California as "a campaign of definition, on the one hand, and a whole collection of vicious and impractical and unworkable ideas; and upon the other a national program applying the common sense of the people of the state."

He expressed doubt that Upton Sinclair could be elected governor of California, would press his proposed reform movement against Governor Clegg, he said that if it should be started "I think the revolution would be so great that it would meet few fewer votes than he got the first time."

"Too much praise," he continued, "cannot be given to the Democrats who put the welfare of the state above party regularity."

Idaho Truckmen Urge Holden Appointment

BOISE, Nov. 20.—A delegation of truck operators headed by W. E. Gragg of Lewiston called on Governor Ross Wednesday afternoon to urge a group meeting with Requa in Twin Falls to recommend the appointment of Henry Holden of the public utilities commission as a member of a western states organization for unifying motor transportation laws.

He was recommended as a successor to E. A. Taylor, formerly of the state department of law enforcement, who resigned to accept a position in the federal service, thus becoming ineligible for the post.

Other members of the committee recommending Holden were E. W. Jewell and Ed Caffrey, both of Orofino, and Ed Nesbitt of Boise.

The governor made no announcement on the appointment.

Gragg said truck operators met last Saturday night in Twin Falls and recommended appointment of Holden and urged as well adoption of uniform laws governing height and weight of vehicles.

The proposed legislation will be drawn by the state association before the legislature convenes, Gragg said.

THIS FROCK'S SHORT ON SEWING—LONG ON STYLE PATTERN 2069

Here's a brimly tailored short dress short on sewing and long on style! What could have greater appeal for the girl who is learning to sew? Don't you like such pointed yokes and the way it buttons, high up on one shoulder? The inverted pleats, back and front, are both smart and comfortable. Make it up in a rough orange wool—or for a splash of under-the-coat brightness—and use white plaques for the cunning collar and cuffs. Put on your prettiest belt, necktie and the contrasting yoke shown in the line sketch. Choose either—kinky or long or short either—as you prefer.

Pattern 2069 is available in sizes 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, GOVERNOR DECRIES PARSONS CHARGES

Insurance Fund Irregularities Report "Too Thin," Ross Says

BOISE, Nov. 20 (AP)—Governor C. Busch declared yesterday that a charge of irregularities in the state insurance fund made by State Auditor Harry C. Parsons was "too thin" and does not need a reply.

It was the first comment on the charge the governor has made since it was published last week. Parsons in a statement in which he alleged P. C. O'Malley, manager of the insurance fund, had made irregular payments to two physicians, one in Spokane and another in Soda Springs.

The payments were in connection with industrial accident cases. The insurance fund writes workmen's compensation insurance.

O'Malley "Not Ashamed"

O'Malley had replied previously that he knew of the charge in question but was "not ashamed" of any irregularities in connection with them.

The payment to the Spokane physician, Parsons asserted, was for \$75 and was in disregard of the fact that the insurance contract covering the case provided that no hospital or physician's fee should be paid by the insurance fund.

The other case involved payment to a workman in Soda Springs suffering a leg injury from a kick by a cow. Parsons, in his statement, presented evidence which he contended justified an investigation as to the validity of the case, and called attention to a payment of \$100 to a physician for treatment of the case, which had lingered over a period of years.

The bureau of public accounts, which has been making an audit of the insurance fund for more than a year, planned to submit a report to the governor late this week, including an analysis of the two cases questioned by Parsons.

TWO MINNESOTA FARMERS HARVEST LARGE POTATOES

HARVESTERS (AP)—The drought was responsible for the ruin of a large number of Minnesota crops, but two of the state's farmers were unharmed if it when they came to harvest their potatoes.

From the four bushes John Kerns harvested 70 bushels of potatoes. The smallest of the potatoes was about the size of a turkey egg, while the largest weighed one and three-quarters pounds.

Paul Miller, a farmer near Sauk Rapids, is exhibiting a bushel made up of but 38 potatoes. The ordinary bushel contains about 100.

TRACKLESS TRAMS' LAW HALTS CAPETOWN TROLLEYS

CAPETOWN (AP)—The street trolley system of Capetown has been given 10 years to tear its tracks out of the pavement and get its double-decked cars off the public thoroughfares.

Trolleys are to be replaced by "trackless trams," electric buses powered by overhead trolleys but running on tires instead of rails. An ordinance passed by the provincial council of the Cape of Good Hope stipulates that the last car must be off the streets by July 1, 1934.

The advantage used for "trackless trams" is that they can stop at the curb instead of holding up traffic at every block by stopping in the middle of the street.

DEEP SEA MOTIF APROPOS Bathroom And Dressing Room Combine Easily

Practical glass shelves add to decorative scheme.

(Prepared by the Decorators Club of New York for The Twin Falls News)

Though quite modern in feeling, this handsome bathroom would not be out of place in other types of interiors, since it combines furnishings of both English and American design with accessories that are primarily French. Its effect, moreover, need not be very expensive.

The deep sea motif in bathroom decoration is always appropriate, and today one of the latest and most practical of this type to suit almost any purse.

Glass shelves are convenient and practical for toilet articles while adding to the decorative scheme.

INHERITANCE TAX BOOST INDICATED

State Auditor at Work on Revision to Close Loop Holes

BOISE, Nov. 20 (AP)—Revision of the inheritance tax law to bring greater earnings to the state are being worked out by State Auditor Harry C. Parsons. For recommendation to the legislature, a report of his office said today in announcing a sharp drop in receipts this biennium compared with two years ago.

Collections for the biennium to October 1, 1934, were \$28,700, the report said compared with \$41,700 in the 1931-32 biennium.

High Watson, deputy auditor, said part of this was due to a decrease in value but he added that there were loop holes through which some large estates escaped taxation. Further, he said, no one person was chargeable with the sole task of collecting the tax, with the result some incorrect assessments escaped the auditor's office, with loss of taxes to the state.

He said further that because of the present relative value of the estate, higher, while reserving lower rates for widows and orphans.

INJURIES FATAL TO ATHLETE AT NAMP

NAMP, Nov. 20 (AP)—Injured in an automobile accident on the Nampa-Caldwell highway, Clarence Nelson, player on the Nampa high school football team, died Sunday in a local hospital.

The accident was caused when an automobile driven by John Hult of Nampa crossed the highway and struck Nelson's car, and the automobile collided.

JEROME FRESHMEN STAGE GYM PARTY

JEROME, Nov. 20—The freshmen class of Jerome high school held its first party of the school year Friday evening at the Jerome high school gym, under the supervision of George Bruner, class adviser.

Games and stunts featured the evening. The entertainment committee, composed of Marvin Reddell, Kenneth Knudsen, Harry Reed and Volney Petric, directed the games. Sixty persons were present.

Following an evening game of basketball, the refreshment committee, composed of Beverly Ross, Helen Murray, Mary Lou Chocky and Vera Tug, served refreshments.

COMMUNITY WELLS PLANNED AT JEROME

JEROME, Nov. 20—Pearl Merrieth, Buhl, E.R.A. administrator, met today in Jerome with officials of the Twin Falls North Side Land and Water company and with prominent businessmen of the North side to determine the feasibility of developing community wells to assist in the watering of their sheep during the coming winter.

The problem arose when the officials of the canal company several weeks ago decided definitely that no winter water would be run in the lateral of the North Side this winter.

R. E. Shepherd, Jerome, who presided over the meeting, stated that nothing definite concerning the plan for community wells has been determined so far, but added that action on the matter will soon be taken.

Ex-Senator Turner Dailman, CHARLOTTE, N. C. (AP)—Bent on stimulating the dairy industry in North Carolina, former U. S. Senator Cameron Morrison has imported a herd of Jersey cattle from the Isle of Jersey. One of Morrison's cows produced 11.1 pounds of butterfat and 12.62 pounds of milk in 300 days.

PLANS RECEIVED FOR NEW FEDERAL BUILDING

BURLEY, Nov. 20—Plans for the new federal building to be erected here, received by William Schilling, postmaster above a one-story structure with half basement, with a frontage on Overland avenue of 81 feet 6 inches and on Broadway street of 81 feet 6 inches. It is to be of brick and concrete. In the rear will be a central driveway and loading platform, the whole plot to be surrounded with lawn parking.

The first floor will be devoted entirely to post office requirements. In the basement is located the inspector's office and four small private offices. Originally designed for the midtown forest service officials and the county agricultural agent. There are also large storage rooms, and a furnace room, the building being equipped for either hot water or electric heating.

The ceiling of the lobby is 15 feet in height, and of the office rooms, 14 feet. Floor covering is to be heavily padded floor matting over concrete. The roof is to be of composition material. The roof is to be supported by two-inch steel beams. All fixtures and permanent equipment, including electric wiring, heating, radiators, grills and the like, will be installed in Washington, D. C., December 4.

PRICE PAID FOR FARM LAND SHOWS INCREASE

BURLEY, Nov. 20—An increase of 10 per cent in prices of farm land sold this far this year as above 1933, as reported by the Federal Land bank, is partially brought about by increased prices paid for farm daily products, declares C. W. Ross, manager of the local plant of the Jerome Cooperative creamery. The production of dairy products and manufactures in Idaho has increased in every class during the first six months of this year, with the exception of evaporated milk and the sale of butterfat for manufacturing purposes.

The average price for butterfat in Idaho, during this period, has increased to 21.5 cents a pound for this year, as against 19.5 cents in 1933. This price is based on prices paid for bulk cream and milk butterfat purchased for manufacturing purposes.

During the period under consideration, cheese manufacture increased 30.8 per cent; ice cream manufacture made a gain of 71.5 per cent. The manufacture of skim milk powder increased 10.5 per cent.

Cashin manufacture increased from 47,597 pounds to 89,490 pounds. Butter manufacture increased from 14,808,877 pounds to 15,091,106 pounds for the six months period. The only decrease in by-products manufactured was in butterfat stock, which decreased 60.63 pounds, to a total of 51,706 pounds.

SKILLED WORKERS TO PLANT WISCONSIN'S FINGERLINGS

MADISON, Wis. (AP)—Wisconsin is going to be a little more careful of the 400,000,000 fish it distributes about the state each year. It is to be planted in its lakes and streams. In the past, nobody knew exactly what disposition was made of the fish fry and fingerling fish after they left the railroad car in the hands of private individuals or government-manufacturing purposes.

From now on, says I. W. Mackenzie, state conservation director, skilled workers will supervise the planting on a large scale and will effort to prevent possible waste. Cooperation of sportsmen and citizens will continue to be sought, he said.

GRADE-CROSSING PROJECTS LISTED

Work Employing Thousands of Men Part of New Program

WASHINGTON, Nov. 20. — A grade-crossing elimination plan, costing many millions of dollars and capable of putting thousands of men to work, today took more definite form as a part of the new public works program.

How much money will be turned into the work of building bridges and underpasses remains to be determined. It has been estimated that complete elimination of all grade crossings would cost several billion dollars.

The bureau of public roads was declared today to have applied the public works program to a list of hundreds of projects which could be started almost immediately. These would cost upward of \$250,000,000.

Isks Give Endowment

Secretary Isks, already has endorsed grade crossing elimination as one phase of the new public works program. Joseph B. Eastman, the federal coordinator of transportation, is heartily back of such a plan.

The argument has been presented that the cost of eliminating the grade crossing hazard is one that rightfully belongs to the federal and state governments, rather than to the railroad and railroad owners.

Eastman has supplied Isks with data on engineering studies indicating that about 25 per cent of the cost of grade crossing projects would go for labor directly, and much of the remainder for materials. Eastman's engineers said the ratio of labor expense to other expenses in the construction work was probably under 20 per cent.

The most comprehensive figures on grade crossings set the number in the United States at upward of 238,000.

Earth Slip Menaces Grand Coulee Road

GRAND COULEE DAM, WASH., Nov. 20. — An earth movement which may necessitate the reconstruction of the railroad entry to the Grand Coulee damsite was reported today by engineers.

This is the second major movement here this year. The first, second, and third movements were estimated to be approximately 750,000 cubic yards of dirt and rock, is not expected to develop into a rapid movement. For several days the land has been sinking both above and below the railroad grade, and the area is becoming scarred with cracks.

The United States bureau of reclamation indicated it is considering four plans of examining the sinking region.

Theunis Returns As Premier of Belgium

BRUSSELS, Nov. 20. — Colonel George Theunis, twice previous premier of Belgium, last night again assumed the post of premier in forming a new government to succeed that of Charles de Broqueville and brought the week-long cabinet crisis to an end.

President Appoints Sea Hero Inspector

WARM SPRINGS, Ga., Nov. 20. — President Roosevelt yesterday appointed Captain George Fried, hero of the sea, as supervising inspector of the department of commerce.

Fried, who captained several of the big liners of the Atlantic ocean service, will take the place of John L. Crane, retired.

Appointment of the veteran and popular sea hero was regarded as a forerunner of a more rigid safety regulation by government over ships. Mr. Roosevelt has shown considerable concern over the Moro Castle disaster which cost more than 100 lives last summer.

GOVERNORS VISIT CHIEF EXECUTIVE

President at Warm Springs Receives First Official Callers

WARM SPRINGS, Ga., Nov. 20. — President Roosevelt broke his official routine here today to receive for the first time the governors of the southern states.

The visit was the first of many official ones the president will have during his four-month stay at the resort.

Governor Sholtz of Florida, the first of the governors to arrive, brought an optimistic report of improved conditions in his state and have the president and the new deal program the credit for a large share of it.

The governors of the southern states have been meeting in Atlanta in an effort to bring about an organization for better trade conditions and cooperation.

Enjoying the good weather and freedom of this place, the president again drove down to the new swimming pool at the foundation this morning.

The afternoon was devoted to another attack upon accumulation of mail and routine business.

Earth Slip Menaces Grand Coulee Road

Grand Coulee Dam, Wash., Nov. 20. — An earth movement which may necessitate the reconstruction of the railroad entry to the Grand Coulee damsite was reported today by engineers.

This is the second major movement here this year. The first, second, and third movements were estimated to be approximately 750,000 cubic yards of dirt and rock, is not expected to develop into a rapid movement. For several days the land has been sinking both above and below the railroad grade, and the area is becoming scarred with cracks.

The United States bureau of reclamation indicated it is considering four plans of examining the sinking region.

STAGE SET FOR BUHL SENIOR CLASS PLAY

BUHL, Nov. 20. — It won't be long now, no air, "It Won't Be Long Now." This is the title of the senior class play, which will be staged at the Buhl high school auditorium on Friday, November 23.

The play, which is a comedy, is directed by Mr. J. H. Wilson.

The theme of the play is as follows: A man gives up millions of dollars to be a doctor, but he has only 24 hours to live. Robert Preston, who has been in the Buhl school for many years, has been chosen to play the part of the doctor. He is a very popular student, and his play is expected to be a success.

In making plans for his departure, he pays all the people who have helped him, and he is very generous. He is a very popular student, and his play is expected to be a success.

THEUNIS RETURNS AS PREMIER OF BELGIUM

BRUSSELS, Nov. 20. — Colonel George Theunis, twice previous premier of Belgium, last night again assumed the post of premier in forming a new government to succeed that of Charles de Broqueville and brought the week-long cabinet crisis to an end.

King Leopold approved the selection of the new premier, announced as a diplomatic bridge between the reparations conference in London.

RURAL DISTRICT SUPPORTS DRIVE

Country Division Mobilized to Seek Funds for Com- munity Chest

The Twin Falls Community Chest holds its annual fund-raising drive as urban citizens in the community and rural men and women have joined the army of chest workers who are bending every effort to make the campaign a success.

"In taking over this rural work, we have the happy cooperation of the country people," said Mrs. Roy Evans, "major of the rural division. We realize that the service of the chest is open to all residents in the independent school district and we accept this obligation as our opportunity to help our own less fortunate, 'out in the country areas.'"

A. L. Ronell and Mrs. Frankie Barnhart are captains for the rural work and with the help of Mrs. Evans, have
