THICK CLOUDS OF DUST TAKE HEAVY TOLL IN MIDWEST

Kansas Residents Warned to Remain Indoors; Wide-spread Property Damage Caused by New Storm

(By The Associated Press) KANSAS CITY, March 20 - Another major dust storm, causing confusion and wide-spread property damage, rolled eastward tonight across the Midwest plains. Traffic was paralyzed by both land and air. Schools were closed. Business was tied up. Street lights were turned on in mid-day, blinking eerily in the heavy haze. Human lives were threatened by flying dangers and possible suffocation.

At Palo, Kansas, 2-month-old Shirley Ann Prater, and her sister Bernita Ann, 1 1/2, were reported dead of pneumonia caused by bread dust a few days ago. A tiny baby's death also was laid to complications resulting from the dust. Warnings were issued widely for residents to remain indoors.

Dust Covers Feeds Western Kansas appeared hit by dust in southeastern Wyoming that was reported to cover as far as to cover Feeds. The storm ranged from western Oklahoma and eastern New Mexico north to South Dakota's Black Hills reaching eastward into Missouri. The Chicago grain market reacted quickly. Prices moved as reports told of unmitigated damage to crops in the wheat-belt. Governor Alf M. Landon of Kansas (Continued on Page 2, Col. 1)

LIGHTS and SHADOWS In Day's Events

(By The Associated Press) Church on Rollers—CHEWELASH, Wash.—The Methodist Episcopal church here bought a supply of relief articles, formerly described as "tools of the devil," and set up its own asking rink. The incident affecting 100 of the people were as follows: Young boys and girls skate in the station, finding health and amusement. The more mature church members skate at night, this avoiding more complicated, possibly more harmful, amusements. The Ladies Aid gets the dishes washed without complaint. The "rink" is the church meeting hall, 50 by 75 feet, and the church board charges skaters only \$2.00 to pay for lights, water and heat. The young folk storm the hall as skating dinners are held. The tables and start the nightly skating, to the relief of their mothers.

Farm Accident Victim—BUTTE, Mont.—Wesley Landis, 17, Blackfoot, Idaho, lost both his legs yesterday when he accidentally fell into the wing of a tractor, a hay cutter at the Selway ranch near here. He was brought to a local hospital where he was reported in fair condition.

With Thorns—HITHE, England.—Two willing volunteers are required for the fire brigade. The notice posted outside the fire station here speaks for itself: "Wanted—Two young men to join 'Hith's Fire Brigade' on terms as previous and late members. These are: Pay nil. Thanks selling. Hours on duty 24. Recreation nil. Uniform free. Reward, joy through sacrifice. No other compensation has responded to this earnest appeal.

Ickes and Indians Move To End 100-Year 'War'

WEST PALM BEACH, Fla., March 20 (AP)—Squatting on the shores of Lake Worth, Secretary of the Interior Harold Ickes and seven Seminole Indians today revived negotiations to end the 100-year "war" between the tribesmen and the United States. Through an interpreter, the Indians, mostly from the 500 Seminoles surviving in Florida asked for \$100,000. Ickes said the United States spent 1,500 men and \$40,000,000 in futile attempts to round up the Seminoles in Florida. During years of bloody guerrilla warfare a "war" was waged. Ickes said that he had treated more deeply into the wilds of the peninsula and eventually into the interior.

Darrow's Criticism Of New Deal Draws NRA Official's Fire

(By The Associated Press) WASHINGTON, March 20—In the strong role of prosecuting attorney, aged Clarence Darrow slouched down in his chair before a senate committee today to draw an indictment of NRA which brought a sharp reply from an official of the recovery organization.

Darrow, paradoxical combination of genial philosopher and shrewd criminal lawyer, put the whole new deal on trial before he finished, attacking administration policies with the verbal rapier thrusts that have made him famous. The veteran defense attorney urged "the abolition of the new deal." Sidney Hillman, member of the agency's administrative board, later told the finance committee that the abolition of the recovery organization would be followed by an unemployment situation worse than in 1932-33.

OHIO DEMOCRATS ATTACK HOPKINS

Assembly Calls on President to 'Right the Wrongs Done Our Governor'

COLUMBUS, Ohio, March 20 (AP)—Democratic members of Ohio's general assembly today called on President Roosevelt to "right the wrongs that have been done our governor" in the controversy with Relief Administrator Harry L. Hopkins.

Voting unanimously, the Democrats in joint caucus expressed "condemnation of, and deplored the gratuitous insult directed at our chief executive, Governor Martin J. Davis, by the Relief Administrator, Harry L. Hopkins, in his emergency relief." Resolutions deploring the controversy between Hopkins and the governor was adopted in the senate Tuesday. The Democrats declared "their unswerving confidence in the integrity, ability and high purpose of our governor" and we do hereby pledge him our allegiance and support in his courageous fight against waste and inefficiency in the administration of relief.

Plunges Into Controversy Francis W. Poulson, chairman of the Ohio Democratic executive committee, plunged into the thick of the controversy with Relief Administrator Harry L. Hopkins today with a statement charging that Republicans in "high government circles" have "betrayed the president." President Roosevelt's "greatest mistakes have been the appointment of Republicans to high positions," said Poulson. The president's "friends are the Democrats" and not the Republicans, as in the case of Mr. Hopkins who "betrayed and who could be expected to tear down the Democratic party."

Poulson's statement, bristling with sarcasm, was directed at Relief Administrator Hopkins who last Saturday took over administration of federal relief in Ohio and sent a letter to the Ohio state board of survey saying he had obtained "incontrovertible evidence of political corruption in the Ohio relief effort."

Charges Criminal Libel The governor retaliated with a warrant asking Hopkins arrest for criminal libel, an action unrecognized by the relief chief. Poulson is under subpoena to appear tomorrow before the Franklin County grand jury. County Prosecutor Donald W. Hoopes, who has affidavits from Hopkins alleging Ohio relief workers "incite to futile strikes" and "obstruct the relief department did business to obtain funds for Davis' \$100,000 campaign and inaugural debt.

Calls For Vigilance TROOPS CALLED TO FLOOD ZONE WHEN MOB BLASTS LEVEE

400 Vandals Attack Guards and Dynamite Hole in Tallahatchie River Dike; Authorities Fear Battle

(By The Associated Press) MEMPHIS, Tenn., March 20—Violence entered the picture in the north Mississippi flood zone tonight and national guardsmen were ordered out to cope with the situation resulting from a dynamite attack on a Tallahatchie county levee. The threat of possible bloodshed came as engineers expressed the opinion the "flood" pert had just passed its worst stages. Armed guards, who had stood watch over a levee near Phillip, Tenn., on the Tallahatchie river, were overpowered by about 400 vandals who blasted a hole in the dike and permitted the water to pour out eastward over the lowlands. Governor Grants Request Hearing that the dynamiters were headed south to LeFlore county on a similar mission, officials sent out a hurried call for national guardsmen and Governor Bennett Connor granted the request. One man suffered a fracture of the leg as he was struck by a piece of earth ripped loose in the blast. Authorities said they feared a battle would result if the vandals met armed civilian guards at any other points before the troops arrived. The object of dynamiting the levee is to relieve water pressure at other points to prevent natural overflows which might inundate lands occupied by the dynamiters. Major W. M. Hoge, district United States engineer here, was optimistic tonight after an airplane inspection of the Arkansas flood territory. Flood Reported On Wane "Almost everywhere the crests have passed," he said. "Leaves are budding. The flood is on the wane." At the Mississippi river, Major Hoge said that "it will carry off even though the skies rip above us." As the crest of the St. Francis flood in the southern Missouri river basin moved downstream, nearly 5,000 refugees had returned to their homes, but the Red Cross estimated today that nearly 20,000 still were homeless, mostly in Arkansas. The slim possibility of a flood threat along the north Mississippi river seemed further dispelled by a report from U. S. engineers that the big stream was practically stationary. FRANCE TAKES LEAD IN ARMS PROTEST

Paris Prepares to Act Alone, if Necessary, Against Reich

(Copyrighted, 1935, by Associated Press) LONDON, March 20—A smashing vote of confidence in the French senate for the French government's determined efforts to curb German rearmaments today followed closely decision of the British, French and Italian governments to hold direct discussions of the problem. Great Britain, yielding to French and Italian insistence, agreed to participate in a conference with German representative Captain Anthony Eden, lord privy seal, to Paris for the tripartite conference, to be held one day before Eden and Sir John Simon, British foreign minister, go to Berlin to confer with Adolf Hitler.

France Shows Determination The vote of confidence given Premier Pierre-Etienne Flandin's stout resistance in the face of Hitler's decision to renew compulsory military training in Germany gave additional evidence of the determination to act alone in the face of the German threat, if necessary. Simultaneously the Observateur Romano, official Vatican organ, urged peace in an editorial which said the "international situation appeared to be in a state of equilibrium." A Good Time to Recall How We Became Involved In the Last War

Roosevelt Urges 'Neighbor' Policy

Washington Talks Record Smashing Military Outlays

WASHINGTON, March 20 (AP)—A Trans-Atlantic conference on "good neighbor" policy as the solution for Europe's acute military problems was projected today by President Roosevelt.

Disarmament, the president told newspapermen, is a component part of the "neighbor" policy, and, despite the crisis resulting from Germany's announcement of a determination to rearm, the chief executive said he would hope for future arms limitation.

Meanwhile, the United States was bringing into direct contact with Sir John Simon, British foreign minister, summoned here by Albert Johnson, American ambassador in London, and gave him an outline of Britain's position for transmission here.

Navy Building Ships At the same time, Secretary Swanwick told newspapermen the navy was considering plans for building battleships after present treaties expire and was not deriving from its program of laying down 78 smaller vessels.

Secretary Root also entered the discussion that has swept about the world since Adolf Hitler's abrogation of the Versailles treaty with an assertion that "we're for peace," and an added statement that he did not "anticipate our getting into a war in the near future."

A contrasting assertion that the United States is in danger of being drawn into another general European war unless the "present policy of drift and increasing military expenditure is checked" was made tonight by Raymond T. Beal, president of the Foreign Policy association.

Kimberly-Couple Celebrates 50th Year of Marriage

KIMBERLY, March 20 (AP)—Mrs. James E. Kimberly, 67, and her husband, James E. Kimberly, 66, celebrated their 50th anniversary at their home here Monday in a room banked with flowers and gifts they received from 50 friends and neighbors during the afternoon.

The Kimberly high school band, under the direction of Walter Wagner, played during the afternoon. Children attending included Mrs. Harry D. Mastie, Middleboro, Kentucky; Mrs. George W. James, both of Kimberly; and the following grandchildren: Mrs. James B. Terry, George W. Harold Byard, Robert James, two great grandchildren, Miss Charlene Middleboro, Kentucky, and Jackie Twa, Hansen, also attended.

Mr. and Mrs. Kimberly were also honored guests at the Kimberly Methodist church Sunday evening. Mrs. Ray W. Shaw gave a musical prelude and Mrs. J. R. Durk played a solo. Rev. A. W. Adams read prayer and a duet was sung by Fred Latham and Miss Madalene Ben. Hymns were "The Bride's Bouquet" and Mrs. A. A. Arnold and "Ben-Jansen" sung by "Silver Threads Among the Gold."

Mrs. Ben Taylor presented a gift from the men's Sunday school class and Mrs. Arnold sang a solo. Mrs. R. W. Terzaga presented a gift of gold and Ben-Jansen sang a solo. Mrs. Arnold sang "I Love You Truly." Mrs. Ray W. Shaw played the organ and read and Rev. Adams gave a "Memory Sacrament." Mrs. Arnold closed with "Till the Bands of the Desert Were Cold."

Upon the request of the congregation, Mr. Halter sang a solo, accompanied by the organ. Mrs. Masie. Refreshments were served by the Dorcas Sunday school class.

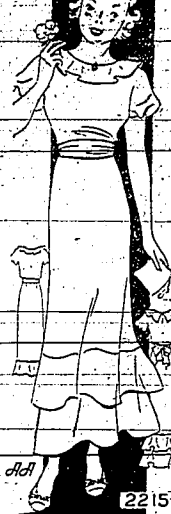

The literary department of the Letter Day Bazaar Relief society will meet Thursday afternoon at 2 o'clock at the tabernacle. Modern biography will be discussed. Mrs. Mary Wright will be class leader.

Boy Plays Pirate, Walks the Plank, And Almost Dies

DENVER, March 20 (AP)—David Schrod, 10, drew the "black spot" in a game of pirate, "walked the plank" and almost drowned.

Remembering "Treasure Island," Schrod and his companions decided to make "Long John Silver" and his bloodthirsty crew.

There were shouts of "pieces of eight" and "sixteen men on a long yellow chest." Suddenly came a mutiny and a "Jong John" went into a scuffle with his lieutenant, turning first, back on young Schrod, then they "turned" and handed him the "black spot," sentence to walk the plank.

Young Schrod was to walk the big pier in Washington park lake but was to win a reprieve at just the last moment.

He fell pirates shouted to him to stop but it was a moment too late. Schrod, with his eyes closed, had taken one step too many and plunged into the icy water.

He was unable to swim and was floundering and thrashing the deep water. The boys who had conspired, seeing that he had come to the point of drowning, called for help and the youngsters.

The Day In Washington

(By The Associated Press) President Roosevelt was reported today as having a "policy" of controversial legislation at the current session to make possible a short and harmonious session preceding next year's elections.

The farm administration lifted acreage restrictions on the planting of spring wheat.

House Republicans cited the "extravagant" policies of the administration.

President Roosevelt urged a trans-Atlantic "good neighbor" policy while congressional circles discussed proposals for huge peace-time armaments.

Clarence Darrow suggested scrapping NRA before the senate finance committee hearing.

The treasury department announced that tax receipts for the fiscal year are close to the two-billion mark.

CALIFORNIA AUTHORITY CLAIMS FUGITIVE HERE

G. T. Rodgers, 44, fugitive from Polson, California, prison, who was arrested at Caldwell recently for the slaying of James "Kimberly" farm, was delivered here yesterday into the custody of Thomas P. DeVo, Polson prison traveling guard who led him here to the Oregon State prison camp about a year ago.

He had been held in Twin Falls county jail since he was arrested and brought back from Caldwell. His former prison record was disclosed by Rodgers in conversation with E. L. Hayburn, Twin Falls attorney, whom he asked to see immediately after being lodged in a jail here. He recalled that Raymond, as a proceeding attorney, had helped to send him to the Missouri prison several years ago.

SO WHAT?

The News does not consider a picture of any member of the Times staff worth two hundred and fifty dollars... The name "St. Christmas" it appears, is fictitious, although it may be possible to find some one who will acknowledge authorship of the Christmas letter.

NOW WE HAVE IT

The State of Idaho is now committed to a sales tax of two cents on every dollar's worth of goods purchased within the confines of the State. It may be that certain kinds of purchases are exempt from this tax but, by and large, all goods bought will cost an added two cents on every dollar's worth.

Naturally the tax falls heaviest on the man or small or uncertain income, which is the best of all reasons why no State should ever impose a sales tax except as a last resort and after every other possible source of taxation has been exhausted.

This is the chief weakness of the sales tax. It falls heaviest upon the man of small income. And for this reason it should have been avoided in Idaho at all hazards.

The resumption of the I.E.R.A. relief in the State was not in any manner predicated upon the passage by the Legislature of a sales tax law. The relief programme would have been resumed just the same had use of a part of the gas tax money been authorized for this purpose by House and Senate or the necessary revenue been either raised or saved in any other way.

It is unfortunate that some method of raising the needed funds other than the sales tax was not chosen, a fact which will become more apparent as time passes.

Idaho could have gotten along without a sales tax. There were other and better ways.

THE EUROPEAN CRISIS

The delicate situation which has arisen over Germany's renunciation of the Versailles treaty seems to have grown more alarming with each passing hour. What the outcome will be no one can say but most statesmen agree that Hitler's decision was a heavy blow to peace.

Yet the German president's step was not entirely unexpected. For months diplomats have wondered if Hitler would not eventually discard the post-war pact as far as his nation was concerned and begin the upbuilding of a powerful army.

ably become involved in difficulties of the gravest kind. Our problems do not coincide with those of Europe and there is no reason why we should assume risks by attempting to aid in their solution.

PIONEERING IN ALASKA

There will be much interest in an old-fashioned pioneering project announced by the government. A colony of two hundred families and four hundred unmarried laborers, taken from the drought-blighted lands of our Northwest, are to be transplanted in Alaska. It will be much like a traditional western settler enterprise, except that Uncle Sam is directing it and will stand by to help until the new community is a going concern.

The location is inland from Seward in the Matanuska Valley of the Kona peninsula. It is on the sixtieth parallel, but the climate is said to be about that of Minnesota and North Dakota.

Traveling and preliminary expenses will be advanced to the settlers by the rehabilitation division of the Relief Administration. The first shipload will leave early in May. The newcomers will have forty-acre homesteads allotted them and will spend the summer clearing the land, building cabins and a schoolhouse and getting ready for next year's spring-planting.

This move suggests Russia's northern colonization work. But there is a vast difference. The Soviet government sends political malcontents north as a punishment, without adequate provisions and equipment.

The American citizens go voluntarily, with necessary facilities provided by a friendly government. If the pioneers succeed, they will repay the cost, and others will follow them. Development of Alaska would add wealth to the Nation.

THE FARMER AND RECOVERY

It was not so long ago that politicians, industrialists and to truth, all of us were loudly proclaiming that this country could never get on its feet until the buying power of agriculture was restored. To sustain this sound viewpoint seems of date were submitted. It was shown that in this country there is no such thing as a guaranteed national property that excludes reasonable prosperity for the farming masses.

But now, since over a period of a few months the price of farm products has risen to a point where the public is disinclined to wait for industrial readjustments that may be expected to result from increased farm buying power. The fact is overlooked that if present farm price levels held throughout the year, and this season's crop is normal, the farm buying power will aggregate \$10,000,000,000. According to federal records this would be approximately \$4,000,000,000 more than the farmers received in 1934 and it is a safe guess that the bulk of this extra income would forthwith be returned to circulation.

The price of farm products has been heavy. In truth, farmers need almost everything from machinery and barn roofs to house furniture and clothing. Give them an opportunity to harvest a crop or two at a fair profit and their buying power will play a very large part in solving the problems of industry and the unemployed.

And according to the journals, increased farm income—chiefly from dairy and poultry products, has materially bolstered buying power within recent months. This is strongly reflected in retail trade gains—and as shelves are cleared factory wheels will hum to supply replacements.

"WILFUL WASTE MAKES WOEFUL WANT" (Caldwell News-Tribune)

The pity of relief is the awful waste that seems inevitably connected with it. For several days past we have noticed in newspapers coming to our desk pictures of a log cabin, with the legend: "Constructed of old telephone poles, their rotted ends sawed off, this recreation cabin at a recent picnic at the work camp easily duplicated for \$300 and that, anyway, the work wasn't necessary at all."

To the suggestion that, perhaps, it had been undertaken to make work for the unemployed, he replied that it had not been given to unemployed men but had been carried out under contract.

Such incidents, and the press of the country is full of them, call to mind an inscription across the front of a new kitchen range our grandmother installed sixty-five years ago. In raised iron letters it read: "This range was made by Wilful Waste."

Such admonitions as "Don't waste" and "Save" are new day's but we'll have come back to them, if recovery is ever to get out of the propaganda stage and into the regions of actual fact.

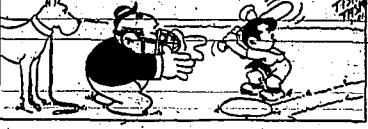

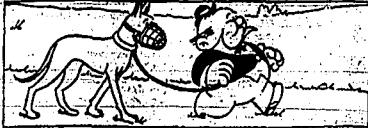

BREAKFAST FOOD

TOO MUCH DETAIL: private Shepherd had been in the army a week when he was asked: "What do you think of the army as far as you're concerned?" "I'd say it's a waste," he replied. "But just now I think there's too much drilling and justing around between meals."

AHA!

"He's been trying to think of a word for two weeks."

VAN-BORING—By Tish Tash

WASHINGTON: FREE: By George Burns—The headquarters of various leagues, federations and societies for the preservation or annihilation of this and that, have been busy recently sending suggestions that their air time be given over to General Hugh Johnson and his associates on the way to the aerosol leagues, federations and societies.

REFLECTED: Since Senator Veto Donohue came on from Ohio he has abandoned his chewing tobacco for chewing gum. He has observed the unwritten rule that Senators remain silent on the floor during their first year.

"Honey Veto" hasn't brought any joy to the administration along with his silence. The former Ohio Governor's formula is to vote "no" on everything and get nothing but a double much too often to suit the White House.

Donohue just acquired political fame a number of years ago when he was state auditor. In that capacity he rejected an item on the tax collector's return, a piece of land which called for a 50 cent back potato. Donohue pointed out that this was a tax on getting that much a bushel at the time.

NEW TAX VICTORY FOR MINIDOKA MAN

Representative J. A. Handy Achieves Objective in School Levy

BOISE, March 20 (AP)—After 18 years, Representative J. A. Handy (D-Minidoka) accomplished an objective today when the house and senate passed his measure calling for a 2-mill ad valorem levy which is supposed to produce \$768,000 annually for financially hard-pressed common school districts. The house vote was 30-13; the senate, 27-5. The measure that the school districts throughout the state will receive their levies by an aggregate total of \$768,000, Mr. Handy said. Nearly a score of years ago Mr. Handy, through then Minidoka county representative, J. D. Hundinger, sought to have the legislature enact such a measure. It passed today. It was approved at that time by the house and defeated by the senate, Mr. Handy recalled. The \$768,000 will go into the public school income fund into which all school levies are paid. The purpose is to equalize the burden over the state and aid the poor school districts, Mr. Handy stated.

Pension Advocates Recall Legislator

EUGENE, Ore., March 20 (AP)—Because he refused to endorse the Townsend old pension plan wholeheartedly, Howard B. Merrill has been recalled from the Oregon legislature, election returns showed today. With 72 of 98 precincts of yesterday's special Lane county recall election tabulated, 6,986 had voted for the legislator's recall, and 3,927 against it. Merrill voted to urge congress to pass "an equitable old age pension" but despite recall threats refused to vote to memorialize congress to adopt the Townsend plan.

Wyoming Bids For Midvanis' Divorce

CHEYENNE, Wyo., March 20 (AP)—A cable invitation to Princess Barbara Hulton-Midvanis to get her divorce in Wyoming went to London today. "You may now establish residence in Wyoming—land of beautiful scenery, wonderful people—perfect climate, and get a divorce in 60 days under new law," read the message from the Wyoming Holmeisen's association. Wyoming's new 60-day divorce law, effective May 17 but the attorney general has ruled that if residence is established 60 days prior to that time that requirements will be nullified.

OREGON GOVERNOR VETOS POWER LINE BUILDING

SALEM, Ore., March 20 (AP)—In a long message enumerating seven specific objections to the measure, Governor Martin yesterday vetoed the Ickes-Orange power bill, one of the most controversial questions before the recent legislative session. Governor Martin pointed out that the act bore little resemblance to the original rural electrification act proposed by Harold Ickes, public works administrator. The bill was rewritten by the legislature to make the state responsible for construction of transmission lines from the Bonneville power dam.

FIVE WESTERN FIRMS LOSE NRA BLUE EAGLE

SAN FRANCISCO, March 20 (AP)—Five more NRA blue eagles have been withdrawn from western firms, it was announced today by Douglas Renshaw, western NRA regional director. The action was taken on recommendation of the western regional compliance council which has the same powers in the west that the national compliance council of Washington has for the nation. One of the NRA "tagging" with drawings was based on the theory in a recent court ruling in the so-called "gold clause cases." This was the Golden Eagle Transcontinental Route, Inc., of Los Angeles, accused of paying agents more commission on ticket sales than the motor bus code specifies. The accused corporation's defense was that the payments were in accordance with a pre-existing contract. Other blue eagle withdrawals approved by Renshaw were those of the Kirkpatrick Chevrolet company of Baker, Oregon; Greenwood-Coyne association of San Diego, California; Pearl Press, 567 California street, San Francisco; Kenton Lumber Mills, Portland, Oregon. The regional compliance council's recommendations also included suggestions that NRA litigation counsel be given the cases for "such action as may be appropriate."

BURGLARS RECEIVE PRISON SENTENCES

JEROME, March 20 (AP)—Jim McClellan and Charles Howe, arrested as a recent robbery attempt made in the Jerome Milling and Elevator building, were sentenced in Twin Falls Monday by District Judge T. Bailey Lee of Burley, to serve from two to fifteen years in the Idaho state penitentiary at Boise. Sheriff James Davis of Jerome county announced today that a record had been received from the Federal Bureau of Investigation in Washington, D. C., to which fingerprints of the men were sent immediately after their arrest. McClellan seems to have a clear record, having never been apprehended.

CRANSTON RETURNS TO BUSINESS HERE

DRIVE-IN Market's Owner Sees Bright Future for Twin Falls

A monument to Ronald Cranston's belief that Twin Falls is "the most progressive and busiest city in the Northwest" is the lately completed structure of reinforced concrete, wood rest in dimensions, at the corner of Broadway Street and Second Street, in which the Drive-In Market is to open for business on Friday of next week.

Broad windows at the front and south side of the new building afford unobstructed view of the interior of the market, and concrete driveway all the way around the building has been provided to facilitate a true "drive-in" service.

For connection with the market which is to be operated under management of H. C. Little, who returns with this enterprise to Twin Falls, Mr. Cranston's latest company has installed a long, refrigerated counter and will operate the market during the summer months.

Mr. Cranston, owner of the new building and business who is to remain here to assist in the opening.

"I am very happy to be back in business again in Twin Falls. I enjoyed a very good business trip to the city of Pocatello, Idaho, which I was forced to leave temporarily."

"Business has been so good in Twin Falls the last two years in spite of every line of business that is possible for me to obtain a suitable location for a grocery store. It had only one purpose in mind and that was to get me out of my own building, which I have done."

"Twin Falls in my opinion is the most progressive and busiest city in the Northwest. Its future is indeed a bright one. Nowhere, regardless of the size of the city, is there so good farm land and such fine people."

Mr. Cranston will visit his home in Hampden, Pa. to visit his daughter, Mrs. Ruth Brown.

Visit in Pennsylvania — John Smith had gone to New York City to visit his brother, Walter Smith.

Gas Station — Report of the theft of ten gallons of gas from the Standard Oil company station was made to Twin Falls police early yesterday.

Licensed to Wed — Wilfred Cherry and Blanche Randall, both of Twin Falls, obtained a marriage license at Twin Falls county recorder's office yesterday.

Visit in Portland — Rev. and Mrs. L. B. Smith and daughters are on a brief visit to Portland, they will return to Twin Falls "the latter part of the week."

Cars Colored — Cars driven by C. M. Hepler, 227 Fifth avenue east, and R. M. Newby, 335 Van Buren street, collided at the intersection of Second and Third streets north at Second street and Third avenue north at 10 a. m. yesterday. Police report no damage.

Pinehole Tournament — Twin Falls American Legion plays a pinhole tournament second round of games will be played following a regular meeting at the Legion Memorial building this evening. J. M. Randall, tournament commander, announced yesterday.

Leases Farm — C. O. Hardisty has leased from C. L. Sowbury of Eugene, Oregon, a 20-acre farm a mile north of Twin Falls for a three-year term ending March 1, 1936, for \$100 a year cash rent, according to a lease agreement placed on record here yesterday.

Orchard Men Meet — Claudio Walsland, state entomologist, and W. H. Wick, director of the bureau of plant industry, are to be the principal speakers at a meeting of the Twin Falls Horticultural society in the protate court room in Twin Falls at 7:30 o'clock Friday evening. A. H. Carter, president, announced yesterday.

JURY DELIBERATES IN DAMAGE ACTION

Trial of Motorcyclist's Collision Claim Goes to Night Session

A district court jury which entered upon deliberations at 8:30 o'clock last night in the suit of K. D. Hodges, 300 1/2 Second street, against the driver of a truck, which ran into an asserted collision with a potato truck, had not reached an agreement at 10 o'clock this morning.

The trial began last Monday, the first of the March term of court in Twin Falls, and went into a night session to continue deliberations on the evidence, introduction of evidence was completed shortly after 10 o'clock yesterday afternoon.

The driver of the truck, W. W. Holmgren, became the only defendant, when District Judge Adam S. Barclay at the conclusion of the testimony granted defendant's motion for non-suit as to F. A. Holmgren, father of the truck driver. It was stipulated that the truck driver, the father and son were interested jointly in the potato hauling enterprise, and that the father was liable for damages. Judge Barclay ruled that the older Holmgren's participation in the enterprise had not been proven.

The accident occurred on Addison avenue east of Twin Falls, on October 14, 1933, when Hodges on a motorcycle was struck by the truck.

The trial was continued with testimony from the driver of the truck, W. W. Holmgren, and the father and son were interested jointly in the potato hauling enterprise, and that the father was liable for damages.

Beet Growers Plead For Workers' Help In Saving Industry

Labor Spokesmen Ask Time To Consider Proposal

Spokesmen for sugar beet field labor in the 20-acre Idaho district asked for more time to consider the labor contract for the 1935 season presented by growers' representatives at a three hour conference at the Ferris hotel in Twin Falls Tuesday evening, and it was agreed that the contract be returned to the labor representatives to be reached a decision within the next few days.

Importance of maintaining the beet industry was stressed throughout the conference at which labor was represented by L. M. Smith of Twin Falls Federal Union, and the growers by George T. Dobbey of Blackfoot, president of the Idaho Sugar Beet Growers' association, Clayton Beck of Rupert and J. N. Davley of Pocatello.

MAN'S DIVORCE SUIT CHARGES DESERTION

Alleging desertion, Harold V. Gould started suit in the district court here yesterday for divorce from Evelyn M. Gould whom he married in 1926. On September 5, 1932, his complaint says she left their home without caring for him, and he has not heard from her since. There are no children and no community property is involved. Mrs. Gould and Raymond are Gould's attorneys.

POTATO GROWERS WARNED BY BORAH

Idaho Senator Tells of 'State's' Department's Deal With Canada

A committee appointed by Secretary of State Hull is gathering facts with reference to a possible reciprocity treaty with Canada on potatoes, Senator W. E. Borah of Idaho advised in telegrams addressed Tuesday to a number of Idaho potato growers and others interested in the industry, a copy of which was received here by C. L. DeLong, dealer.

"It seems to me," Senator Borah's telegram said, "a treaty of that kind would be very injurious to the potato industry."

"Of course the power to make the treaty is wholly with the executive department, but we ought to be prepared to present such facts as we can on the subject, and within a reasonable time."

Local growers and dealers indicated their belief that the proposed reciprocity treaty will not be negotiated for several weeks.

GREAT RICHES

By Madal House Fanshawe

(Continued From Last Issue)

SYNOPSIS: James Stimson, III, is not only the paragon of all virtues in Judge Holmes' town, he is also the most desirable catch in New Concord, Kan. James' father, the late Mr. James Stimson, was a New Concord man who tried to marry his daughter to the wealthy Mr. Northrup. But James—just James—left his home to Leslie Harris, feeling able to lick the world. Leslie's father is a drunkard.

Chapter 15 ONLY HEARTBREAK

James was in the midst of delivering a speech before the assembled members of the town of New Concord and Senate, with Leslie looking proudly down from the balcony gallery in the rear. The "minister" had not only offered him a cool hundred thousand not to make but had threatened blood if he persisted. He persisted in and had just moved his vast audience to thunderous cheers when he was brought abruptly down to earth by the sight of the father of his divinity making uncertain progress up the street in his direction.

It was Saturday night and John Harris always celebrated the close of the week's work by going on a glorious spree. He was in a dry state, of course, but that was a minor irritation when one's town was so festively celebrating that a short walk across the bridge brought one to a more enlightened community where the liberty was not interfered with.

James waited in the shadows until John had passed him and then turned and followed him, keeping his eyes on him as much as possible until John presently lost heart and sat down on the curb and sang an old downy old song, which he evidently thought long and in need of entertainment.

James, to be sure, was far from satisfied by John's singing. He lacked altogether that grand manner which had been his grand father's, lacked self-assurance, lacked indeed most of the things that James had once thought indispensable.

John Harris was the reformed, old grocer owner of the Daily Globe. Mrs. Harris had given up seeing and lived of elegant leisure in her remote cottage.

There was more, much more and even sweeter. It was dawn and the birds were singing before he tumbled into happy slumber. To John Northrup and her wealth of charms or of her amazing desirability as a wife he never gave a thought. There was room in his heart at present only for one small yellow-haired girl.

Meanwhile what of James Northrup? Was he or was he not in love with James Stimson? Had his sudden departure caused her only a little natural chagrin or wounded her deeply? Was she going to take it lying down or make a fight to save James from complete disaster?

For she must marry and marry well. Jane was no flirt, as was so often claimed, and not altogether unjustly. Leslie Harris, whom she had been home a few months she told herself that it was time to think seriously of her future.

It was after looking the ground over thoroughly and considering matters from every possible angle that she came up to her room and the good ladies of New Concord that she and she alone in the town was eminently fitted to make the ideal of a young politician with unusual talents.

Whether she was or was not in love with James Stimson, Jane was not yet positive herself. Certainly there was no one else. But there was no hurry about deciding. She "ministers" had not only offered him a cool hundred thousand not to make but had threatened blood if he persisted.

James, to be sure, was far from satisfied by John's singing. He lacked altogether that grand manner which had been his grand father's, lacked self-assurance, lacked indeed most of the things that James had once thought indispensable.

Diz Dean Wins First Clash With George Herman Ruth Rocky Mountain Champions Knocked Out Of A.A.U. Hoop Meet

Babe Goes Hitless As St. Louis Cards Defeat Braves, 5-4

Both Teams Start Scoring After Retirement of National League's Celebrated Stars

ST. PETERSBURG, Fla., March 20 (AP)—Jerome Herman (Diz) Dean won his first tilt with George Herman Ruth today as the world champion St. Louis Cardinals defeated the Boston Braves, 5 to 4, before a crowd of 6,487 an attendance which surpassed all records for major league exhibition baseball in Florida.

The Babe faced Dean twice during the five innings the Cardinals pitching came on the mound and failed to get a hit. On his third and final trip to the plate, with Wild Bill Hallahan on the mound, Ruth chased Worthington to deep center for a fly, which would have been a home run in many major league parks.

Dean allowed only three hits and struck out three. Babe Ruth, Detroit, allowed only one safe ball, a double by Joe Medwick, which Ruth attempted to catch but fell after getting his glove on the ball.

With both Dean and Ruth out of the game, both teams started scoring, putting over their runs in the last three innings.

Score by innings: R—H—E
 St. Louis 000 011—0 11 0
 Boston 000 211—4 9 2
 Batteries: J. Dean, Hallahan and Delancy; Betsa, Smith and Hogan.

PHILLIES 5, TIGERS 5
 WINTER-HAVEN, Fla., March 20 (AP)—The Phillies finally found their collective batting eye today and handed two young Detroit Tiger pitchers, Larkin and Wade, a 5 to 5 victory their first of the "spring" season.

Score by innings: R—H—E
 Detroit (A) 000 110—0 15 1
 Philadelphia (N) 400 202—5 13 3
 Batteries: Larkin-Wade and Rober; B. Johnson, Bowman, Peczelko.

RED SOX 10, GIANTS 5
 SARASOTA, Fla., March 20 (AP)—An early run in the first inning gave the Boston Red Sox a 10 to 5 victory over the New York Giants today at the Florida National League's third straight defeat since leaving their training camp at Miami Beach.

Score by innings: R—H—E
 Boston (A) 000 100 10—10 15 1
 Batteries: J. Dean, Hallahan and Delancy; Betsa, Smith and Hogan.

ATHLETICS 4, HOUSE OF DAVID 3
 FORT MYERS, Fla., March 20 (AP)—The Philadelphia Athletics gained revenge today for a "spring" league setback of the fourth inning of the House of David nine 4 to 3 behind some fine pitching by John M. Marcum and Noble Dutch Leiber.

Outfielder Ted Coleman led the Athletics in home runs, 2.

Score by innings: R—H—E
 David 000 003 000—3 8 0
 Athletics (A) 003 010—4 9 0
 Batteries: Janesko, Sloan and Marcum; Marcum, Leiber and Berry, Centroy.

INDIANS 11, PELICANS 2
 NASHVILLE, Tenn., March 20 (AP)—The Cleveland Indians batted the ball all over the lot today, piling up thirteen hits and defeating the New Orleans Pelicans 11 to 2 in a spring training exhibition tilt.

Score by innings: R—H—E
 Indians (A) 022 043 000—11 13 2
 Batteries: Buche, Vele, Pih and Helf-Fernandez; Galehouse, Perrin and George.

FRENCH 8, BEAVERS 1
 SAN BERNARDINO, Calif., March 20 (AP)—The Pittsburgh Pirates rang today as they defeated the Portland of some brilliant hitting, but lost from one bad inning experienced by Ed Bryan, who was hammered off by the Pirates made all of their hits. The Pirates were held to one hit after that.

Score by innings: R—H—E
 Portland 000 010 100—1 8 1
 Pittsburgh (N) 000 000 000—8 9 1
 Batteries: Bryan, Gourlay, and Cronin; Hoyt, Swift and Padden, Dewese.

WHITE SOX 11, STARS 5
 LOS ANGELES, March 20 (AP)—Verlon George Washington, rookie outfielder, led an assault on the Hollywood ball club of the Pacific coast today to give the Chicago White Sox a 10 to 5 victory.

Washington, who had a home run and home run showing little effect of his finger injury of several days ago, led the eighth off game, a right hander, when he coupled Washington's power with three doubles, a single,

Wins Intercollegiate Meet

SHIRLEY FRAZER (above), University of Washington co-ed, has become the national intercollegiate rifle champion, by scoring 598 out of a possible 680. The Seattle sharpshooter tied with Mary West of Carnegie Tech last year to lose the meet on a flip of a coin.

AT MOBILE, GULF S. R. H. E.
 Chicago Cubs (NL) 4 2 2
 Class year he patrolled first base and then for the inter-league all-star game Joe Cronin, manager of the Americans, posted him at third base. "Important thing, however, is that no matter where he stationed on the defensive he always found at home at the plate with a bat in his hand."

Harold Osborn is one name that is ringing in the minds of truck and field stars for many years to come if the 37-year-old high-jumping veteran's late performance is a criterion. George Smith, the New York university star, who seemingly had pushed Osborn into the has-been class three years ago with a leap of six feet, eight and a half inches last year, recently went back to look up to the veteran recently when Osborn cleared six feet.

AT TAMPA, FLA. R. H. E.
 New York (A) 371 000 124—18 18 3
 Cincinnati (N) 020 003 004—11 16 3
 Batteries: Allen, Deshong, Tamu, Duke and Glenn; Richmond, Brennan, Fred Johnson and Campbell, Lombardi.

ON THE SIDELINES

Some loxob left-overs:
 When the big league ball season opens and Jimmie-Fox appears in his new backstopping role for the Philadelphia Athletics it will be the third position he played in major competition in less than a year.

Some of Dipp's supporters, however, pointed out that part of the physical education course, back-talking calls for tap-dancing and when it came time for him to high-jump his leg muscles were bountifully strong. "It's a fairly large representation of the tap-dancing part of the course until after the current indoor season."

"Young" Year in Golf, Tommie Youngsters are virtually sure to dominate the United States' Davis Cup team this year and there is a strong likelihood that another American international aggregation—the Ryder Cup golf team—will have a fairly large representation of youngsters. It will be a month or more before Professional Golfers Association officials all down to dope out the team but it's going to be difficult to omit the names of Jay Laffoon, Vic Orzell, Johnny Revolta or Harold Grog Metcaden. 10 players make up the team and they'll fit in nicely with Olin Davis, Paul Brunan, Craig Wood, Leo Diegel, Denny Shute and Gene Sarazen. Only sentimental reasons will win a place for the veteran Walter Hagen although the P.G.A. is apprehensive of all Hags has done for it, might appoint him honorary captain and place him on the reserve list.

Primo Garza's bellows dreams come true and frequently he has dreamt that he regained the world's heavyweight boxing championship. Max can visualize Max Beer lying helpless at his feet and he says he can make that scene a reality if the promoter will give him another crack at Beer and make the California champion keep his thumbs out of the ring. Garza's dream is over that right at Madison Square Garden bowl last summer. "I was ahead on points and in the 11th round I tried to call the referee's attention to Beer's fingers (thumbs) but he thought I said finish and he stopped the fight."

Los Angeles Club Bars Big Leaguers
 SAN BERNARDINO, Calif., March 20 (AP)—Operation Office of the Los Angeles Pacific coast baseball club is having major league teams for playing exhibition games in that city next spring. The Pittsburgh Pirates will return here to train next season. This was the statement made today by W. E. Benavenger, president of the National League club.

Speed King Ready To Leave Daytona As Deadline Nears

Beach Too Rough for 300 Miles an Hour, Campbell Prepares to Take Huge Auto Back to England

DAYTONA BEACH, Fla., March 20 (AP)—Campbell's speedy Argosy for 1928 was overhauled, having only a mile or so of running, and the speedy Englishman was ready to pack his belongings and take her and her new 1928 miles an hour back to England.

He made his final test run on Daytona's gleaming sand today, but he was ready to leave for the future rather than the present. The beach was still too rough for anything like the 300 miles an hour he needed and he contented himself with experiments with acceleration.

Tomorrow is his deadline here, and there seemed no chance in a million that the perverse weather had been so kind. Campbell's Argosy would suddenly shift overnight and for him what it has refused all the time to do is to permit a smooth beach on which he can loose his 350-horsepower machine to the full.

\$25,000 Handicap Date Unchanged

Decision Against Postponement of Big Race Announced

SAN MATEO, Calif., March 20 (AP)—Although preferring to postpone the \$25,000 added one-mile-and-eight-eighths Bay Meadows handicap until April 5 to give more conditioning time to some entries, General Manager W. P. Kyle of the Bay Meadows track, today announced that the race will be run next Saturday as scheduled.

The postponement would assure the entry of Anzac, which runs a hoof after winning the Santa Anita handicap, a few weeks ago. Kyle said, "The horse is sound otherwise it needs a long time to recover from the injury."

Six American-Owned Horses to Compete In Grand National

LONDON, March 20 (AP)—Six American-owned horses, including the 25 final acceptances for the grand national steeplechase, to be run at Aintree, March 29.

They are: The Duke of Devon, owned by J. H. Whitney; Deane, owned by J. B. Snow; Goswick, owned by M. J. Simons; Pouquet, owned by M. D. Blair and Thersa, owned by J. Metcalf.

BOWLING

Fred Stone's Militia added another to their string of victories last evening when they topped the Challenge Cup team, 11 to 9, in a number of pins bowled over. The Militia won with a score of 293 to 233, but the losers scored two out of three games. Riders of the Challenge Cup were the field with one out of three and a 384 for the series.

Brumack plunksters took two out of three in the Blakins team in a regular league match. The leaders scored 119, 126 and 147, but couldn't seem to lock in the other two. Davis of the Jones topped the single game list with 165 and his best 181. Simons and Riggert led for the series lead with 412 each.

Seattle Five Trims Aggies Of Utah In First Major Upset

Italian Athletic Club Cagers Overcome College Conference Titleholders By Score of 34 to 28

DENVER, March 20 (AP)—The Utah State Aggies, sorely needing their disabled captain Glee Petty, were knocked out of the National A.A.U. basketball tournament here tonight by the Italian Athletic club of Seattle, 34 to 28, in the first major upset of the annual maple court classic.

The Rocky Mountain college champions were the first of the 20 college titleholders to check out of the tournament.

Italian A.C., plays the Globe Oilers from McPherson, Kansas, in the quarter-finals tomorrow night.

The collegians, all so-soberly outfit among the light seeded teams, had many chances but their hurried shots and the absence of Captain Petty kept about their downfall.

Petty, who indicated a knee last night after making his seventh field goal in the first half, watched the defeat in his miles from the bench, fumbling with his crutches.

Seattle Leads Throughout
 The Seattle team stayed ahead all the way through the game. Pat Murphy, big gunner of the winning team, slipped in three layup shots in the final two minutes. Pat Murphy, forward, and Warner, guard, were big factors in the rough-and-ready A.A.U. attack.

Seattle's forward, over-ambitious, collegians missed many easy shots and passed up chances at the free throw line to go into the lead. Desperation drove them, to fouling in the second half and Hanson was expelled near halftime.

In another third-round game the Denver Athletic club quintet trimmed the McPherson city cagers of Cleveland, 41 to 21.

Revolta, Picard In Tourney Tie

Pair of Sharpshooters Turn In 68s for First Round Leadership

CHARLESTON, S. C., March 20 (AP)—Johnny Revolta and Henry Picard turned in 68's today to go into a tie for the first round lead in the 1928 Charleston open golf tournament.

Revolta and Picard were three under par. The only others to tie the 1928 Charleston open golf tournament.

Kansas Establishes New Canadian Mark

HAMILTON, Ont., March 20 (AP)—Oleyn Cunningham, the Kansas golfer, established a new Canadian record for the mile run tonight in the 33-2 victory over Denver University, then turned on the steam in the final ten minutes, and set a new record for the mile run in 17:15.4.

Leader of Irish Eleven Succumbs

SOUTH BEND, Ind., March 20 (AP)—Death again has blighted Notre Dame's football hopes.

Johnnie Howard, captain-elect of the 1927 Fighting Irish died early today, following operations for a brain tumor on the inside of the skull. Last summer, the death of John Young at his home in Texas, deprived Notre Dame of one of its most brilliant backfield stars.

Coaches Compare Notes On Varied Systems of Play

Basketball 'Clinic' Outgrowth of National A. U. Tournament; Offensive Tactics Probed

DENVER, March 20 (AP)—The eighth, the Rockies and the Far West basketball coaches gathered at the first of three "clinics" in connection with the National A. U. tournament.

They used different terminology but all assembled to discuss a new type of fast-breaking and deliberate offensive and the Pacific coast's experimental banishment of many of the old-fashioned tactics.

J. Laurent Johnson, coach of Lambuth college, Jackson, Tenn., was the featured speaker. He said that the South was the conservative element in basketball, but he believed the North and the Rocky Mountain region is the evolutionary process.

Johnson's team was beaten last night by the University of Utah, Aggie, Rocky mountain conference champion, 67-42, who was a hustling type of game characteristic of Utah.

Romney Ainslie, coach of Brigham Young university, Provo, Utah, describing the latter method, said the success of the game depended upon a pickup "fast break" defense more than the dash-offense that many coaches believe was the type of the "old" system.

Romney said the "leadout" pass on offense should travel two-thirds the length of the court with the receiver breaking out ahead of the opposition to take it.

Lord Latta, coach from the Pacific coast, said the "no-center" jump experiment had become a crowd-pleaser but had very little satisfactory results. Fans like it, he said, because it gave the "underdog" a better chance to win. He said he had the record on open puts the ball in play on the sideline and that has been successful.

He pointed out that although the elimination of the tip-off does away with the contest between jumpers at center it still leaves the man his advantage under the basket.

One detrimental factor, Latta said, is that a team deliberately one point might foul deliberately for the chance to get possession of the ball if the free throw is either made or missed.

W. H. (Little Bill) Miller, coach of the Tulsa Oilers, who won the national title in 1923 and 1924, described tournament play and experience with traveling clubs. Chicago Public, Denver university basketball coach, presided.

Lowest-Cost Loan Ever Offered in Twin Falls

Owners of good modern residences and business properties in Twin Falls may now purchase financing as low as FIVE AND ONE-HALF PER CENT, including both interest and brokerage.

See us for particulars. This money may be had for new construction or for refinancing. This rate is available on loans of \$500.00 to \$10,000.00. Rates are slightly higher for larger advances. On a loan of two-thirds of security value, the rate is 7%, including commission. Monthly repayments on a \$2000.00 loan are \$19 on principal, plus interest on the balance.

We have a few choice residence locations on Lincoln, Buchanan and 11th North on which we will supply financing with our own funds on an even more liberal basis. Construction is already started in this district, which seems in line for considerable activity this year.
