Today Is The Day

IN today's City Election Twin Falls has a chance to elect to office men who are interested in giving to Twin Falls the kind of an administration Twin Falls should have.

But-it will not be possible to win this election without the cooperation of every right thinking man and woman in the City. Every single person whose legal privilege it is to vote should do so, without fail.

THERE are two voting places, namely, the Lind Garage and the Cooperative Exchange on Second Avenue North, a few doors east of the City Hall.

All persons over 21 may vote provided they have been residents of this City for a period of three months and of the State of Idaho for six months, provided further that they are bona fide residents within the City limits of Twin Falls.

To vote in this and all other elections constitutes one of the first and highest duties of citizenship.

No legal qualified voter should neglect this duty.

Changing Map Of Europe Looms Behind Arms Trouble

If war should come to Europe again, one big cause probably could be found by looking at the changing maps of that continent during the last three decades. Here's Europe as it was at the outbreak of the World war, in 1914. The heavy shading indicates the Central Powers; the light, the Allies. Prior to the conflict, the great powers were grouped in alliances, similar in some respects to those formed and being formed today as the diplomats consider Germany's rearming. The "Triple Alliance" held Germany, Austria-Hungary and Italy; the "Triple Entente," Great Britain, France and Russia. Neither of these major groupings, however, survived the clash. The figures show the armed forces, exclusive of reserves, of the major countries before the war began. The United States forces at that time numbered 92,000.

The World War re-made the map of Europe—and that new map, shown here, has been the cause of trouble ever since. Germany rearms, despite the Versailles treaty, and the world ponders the outcome. Is rearmament a preparatory step to demanding a return of territory taken from Germany and her allies in the war? Will guns again reverberate throughout the continent? Note the new division of territory—the new countries carved out, the smaller Germany. This division gave rise to numerous trouble spots—the Saar, for instance, and the "Polish corridor" splitting Germany—and led to countless conferences and new alliances, the while each nation paid close attention to its army. The figures show the armed forces, excluding reserves, in 1920, except Poland's, which is for 1921. The United States forces in 1920 numbered 280,000.

He said he would reply to questionnaires sent out by the Philippine Sugar Association. Shows that only 30,000 tons of surplus cane are available. Destroyed. BOY FATALLY HURT WHEN HIT BY TRUCK

Vernon Thiel, 2, Dies at Hospital Following Accident Monday

Vernon Thiel, two and one-half year old son of Mr. and Mrs. W. J. Thiel, was fatally injured early Monday afternoon when he was struck by a truck and hurled 30 feet on the highway at the eastern city limits of Twin Falls. The accident occurred at 12:45 p. m. and death came at 6:45 o'clock last evening at Twin Falls county hospital.

Witnesses to the accident said that the boy had been playing along the parking in front of the Evergreen lodge, a tourist park where his parents live, when his rubber ball had bounced into the street. The child ran in pursuit and was struck by the military gas tank along the side of a commercial truck, owned and operated by R. A. Blaser, 527 Main avenue west.

Taken to Hospital! An unidentified man, at Blaser's request, rushed the child to the hospital.

The Thiel family last summer lived at Dietrich, but this winter had resided at the tourist park.

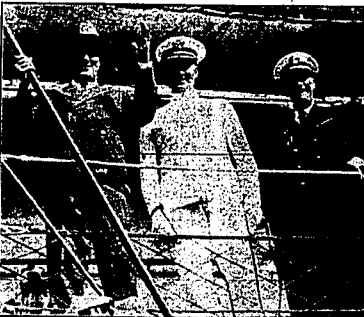

The body rests at the White mortuary and will be taken to Idaho Falls today for funeral services and interment.

Vernon was born August 16, 1932, at Idaho Falls, Idaho, and was the fourth child of his parents; a sister, Marjorie; a twin brother, Victor, and another brother, Donald.

NRA ESCAPES TEST IN SUPREME COURT

Justices Grant Motion to Dismiss Appeal in Lumber Code Case

WASHINGTON, April 1 (AP)—With NRA already under heavy fire in congress, the government today sought and obtained supreme court permission to avert an immediate test of the constitutionality of that hub of the recovery program.

The court granted a motion by the justice department to dismiss its appeal in the Belcher-lumber-code case, while a move was under way in the senate to get a decision on the case as a guide to congress in enacting legislation to extend the blue eagle's life.

Senate hearings (R-Del), one of the authors of the senate move, immediately halted the government's action as evidence "the department of justice, look it can't sustain."

COURT INTERVENES TO SAVE NEGROES

Nation's Highest Tribunal Orders New Trials in Scottsboro Cases

WASHINGTON, April 1 (AP)—Once again the supreme court today today to save two Negroes sentenced to death in the famous Scottsboro, Alabama, cases, but it upheld the refusal of the Democratic party in Texas to permit Negroes to vote in its primaries.

In effect, the highest tribunal ordered new trials for both Clarence Norris and Haywood Patterson, two of the "seven who" probably would not have been executed in 1932 had it not been for the order.

New trials were ordered in the first instance when the court concluded that the men were denied representation by adequate counsel.

Chief Justice Hughes in his opinion today said, the constitutional rights of Norris and Patterson were violated because Negroes were excluded from jury service at the trials. "We think the evidence that no Negro has been called for jury service in Jackson county (where the trials were held) for a generation established there had been discrimination," the chief justice said.

Court's Fourth Ruling

The Texas Negro voting controversy has been before the court at intervals since 1924. The decision today was the fourth ruling by the court on an appeal by a Texas Negro asserting the right to vote in Democratic primaries.

Texas statutes which prevented Negroes from voting and which authorized the state Democratic executive committee to prevent Negroes from voting in primaries were declared unconstitutional by the court.

But today R. R. Groves, Harris county Negro, led the appeal from the decision by the Texas Democratic convention that only white persons might vote in party primaries.

"We hold the party was a voluntary association and was competent to decide its membership," said Justice Roberts, who delivered the opinion.

The court failed to act on a pending new deal case—the constitutionality of the railroad pension act.

Early Days on Yukon Recalled At Meeting Here

Roaring days on the Yukon returned in memory for former Klondikers and members of their families at an annual reunion at which covers were laid at dinner for nearly 40 persons in the Rogerson hotel last night.

One after another the men who had sought gold or adventure in the Klondike at the turn of the century responded to invitation by the chairman, A. J. Nye of Twin Falls to relate their experiences or anecdotes brought back from the far north.

One woman, too, was introduced. Mrs. Mina Lang of Twin Falls, first white woman to visit some of the furthest reaches of the region.

Chairman of the former Klondiker reunion in Twin Falls the past five years, Mr. Nye last night turned the responsibility for next year's gathering over to a five-man committee, and a secretary, L. S. Place, was elected.

A program of entertainment included dance numbers by little Miss Rhoda Phillips and instrumental air by Miss Nell Klemme, pianist. Mr. Shanley, clarinet, and John H. Nye, Jr., guitar.

He promised, however, that more details would be forthcoming—later.

BORDEAUX, France, April 1 (AP)—An Austrian doctor and two assistants accused of performing 15 sterilization operations upon men in New York, were arrested here today. The men were held in a hospital for life-impairment at hard labor—if they are caught.

Three of the persons who voluntarily had themselves sterilized were arrested. Secret service officials said the French army would be empowered if such practices became general.

Christ to Return To Earth in 1936 Council Informed

Twin Falls city council last evening received word that Christ would again appear on earth some time during the month of February, 1936.

Claiming to have received a direct communication from God through his name with the title, "a messenger of Christ," Fred Helman, Johnston, Pennsylvania, submitted the epistle to the city fathers so that they would have the necessary time during which they might prepare for the event.

Helman predicted that the year 1935 would hold in store the greatest drought and famine known in the history of mankind and said that "certain darkness" would blanket the entire earth for four years preceding Christ's arrival at Jerusalem.

The prophet explained that he had, upon six occasions, written to President Roosevelt concerning the matter and that his letters had been ignored. "I have written to all

SAN ANTONIO, Texas, April 1 (AP)—Anne Gould doesn't live here any more.

NRA. It showed, he contended, "no honest purpose in trying to comply with the constitution," and added a charge that Donald Riebeling, NRA chief, is trying to "outface" congress.

Bi-Partisan Move

Hastings and Senator Clark (D-Mo) joined in a bi-partisan move when the senate convened today to obtain a decision in the Belcher case. They introduced a resolution calling on Attorney General Cummings to prosecute the appeal.

But even before their resolution was filed in the senate chamber, Stanley Reed, the new solicitor general, stepped into the office of the supreme court, only a few yards down the capitol corridor, and filed the motion to dismiss the case, involving A. E. Belcher, Alabama lumber operator, the case presented to the court for the first time the issue of constitutionality of the national industrial recovery act.

About three hours later, Chief Justice Hughes handed over the court's permission to drop the case, after refusing to let other parties intervene.

Solons Investigate NRA

Payroll and attention to the legal developments, the senate finance committee meanwhile went ahead with its investigation of NRA, receiving a report from a federal trade commission attorney of price fixing by members of the Rubber Manufacturers' association.

The attorney, Harry A. Babcock, told the committee he had filed with the commission a report charging members of the association and the rubber code authority with conspiracy in restraint of trade for fixing prices of tire hose.

He said the price fixing agreement was entered before the code became effective but was perfected under the blue eagle. The code authority, he added, had exceeded its authority.

The Belcher lumber case presented to the supreme court the basic question of constitutionality of the hour and wage provisions of the recovery law.

WE DIDN'T ASK FOR BUT LOOK WHAT NORGE OWNERS SAY ABOUT ROLLATOR REFRIGERATION

- 1 "...What I save on food bills more than makes up Norge payments."
- 2 "...keeps foods fresher, sweeter and longer. Norge worth its weight in gold."
- 3 "...save \$3 to \$5 a month by taking advantage of food bargains."
- 4 "...simplicity of Norge working parts its most important feature."

YOU can take our word for Norge extra quality. But you don't have to. Go to any Norge owner. Go to any number of Norge owners. Ask them what refrigerator they would choose if they were to buy another.

They will tell you that Norge gives them far more than they expected—more in convenience, in economy, in all 'round satisfaction.

There's a reason for that. It is this: The best part of the Norge is the part you never see—the famous Rollator cold-making mechanism.

Simple, super-plus-powered, almost ever-lasting, the Rollator actually improves with use. And it uses so little current that you will scarcely notice it on your light bills. Norge—and only Norge—has the Rollator.

NO IDEAS?
Clarence Darrow hit a nail on the head very neatly when he said to a Senate committee: "Good times are gone forever because the power of production has overrun any ideas we have on distribution."

there who have ideas concerning this problem—and who have expressed them clearly, but their audiences decline to heed or apply their words because it would interfere with established human prejudices and privileges.
The human race is willing to let scientists go ahead with their investigations into the mysteries of the universe and even to apply their findings for the benefit of general health, comfort, convenience and efficiency—in therapy, housing, transportation, and so on. But when it comes to poor distribution, the only serious obstacle now standing in the way of civilization's progress, the majority of the people, or the powerful minority, shuts its eyes and shakes its collective head in horror at the thought of change.

OPIN DISTRIBUTION
Evelyn J. St. L. Strachey, the young English author and lecturer on economic problems, had the federal authorities rather stymied in his deportation hearing. Admitting his free comments on Communism and other radicalisms, he blandly argued, by implication, that his writings were no more radical than the New Dealers'. Thus he submitted this passage from a book by Secretary of Agriculture Wallace:

"I am inclined to agree with Tawney and Weber that Capitalism is a rather natural outgrowth of Protestantism, and that Socialism, Communism and Fascism are in turn rather natural developments from Capitalism."

Also this from a book by Secretary of the Interior Ickes: "Government has to go a new way because the old way is closed forever."

THIS NEW CANADIAN CRISIS
(Especially Oregonian)
Never anything that has done greater violence to a civilization—only the mutually discarded and lineless and empty bottles of an almost brotherly confidence and esteem. It has been touting in the extreme. But now a martial note is sounded in latest dispatches from Ontario, for it is told that the Dionne quintuplets are under provincial police guard last week. The Dionne quintuplets are under provincial police guard last week. The Dionne quintuplets are under provincial police guard last week.

THE DUST-STORM PROBLEM
Los Angeles, June 1
The problem of which the recent midwest dust storms is a symptom is not being exaggerated, if experts who testified before a house committee are very near correct. Unless prompt action is taken there is erosion of the soil by wind and water, there is a possibility of all of the following things are likely to happen:

BREAKFAST FOOD
Little—Does a grackle get a sore throat if it gets its feet wet?
Teacher—Tell me what it is when I say "I love you, love her."
Modern Nurse—"It's one of those love triangles where somebody's going to get shot."

NATIONAL WHIRLIGIG
(NEWS BEHIND THE NEWS)

WASHINGTON
By George Dutton
HIDDEN: After the political developments in and out of Congress during the past three months, no one is inclined to begrudge President Roosevelt his desire to get away from the back-biting, the under-mining and the 'bull weevils' for a few days.

Now, in the face of a stiff fight, Assistant Secretary of Treasury Thomas Jefferson Goldidge has advised a House committee there is no real objection to removing the Secretary as an ex-officio board member.

SETBACKS: The more 'littery' among the administration faithful are even recalling that on one occasion when Roosevelt took a brief vacation Congress overrode his veto of the economy bill.

SALES TAX ISSUE GETS INTO COURT

Argument Scheduled on Application for Decision by Popular Vote

BOISE, April 1 (AP)—Arguments as to the applicability of the state referendum law to the 2 per cent retail sales tax act, immediate suspension of which is sought by the Anti Sales Tax League, will be heard in the Idaho supreme court tomorrow at 10 a. m. with Chief Justice Raymond L. Owens presiding.

The attorney general's chief counsel will be his assistant, Ariel Crowley.

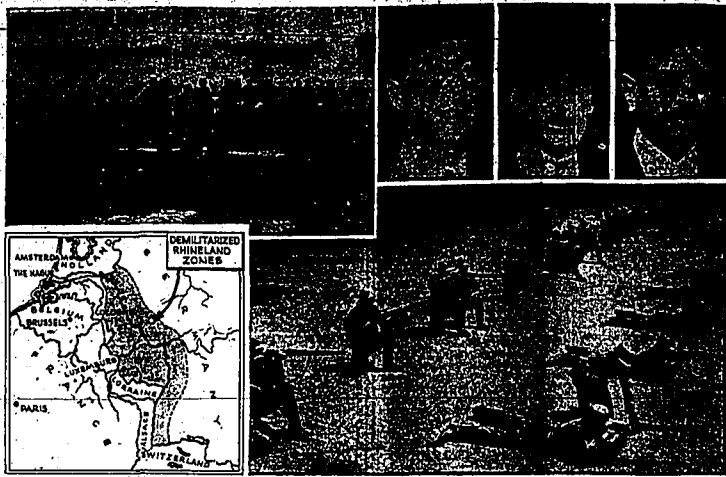

The secretary of state, who instituted the action will be represented by J. L. Zuerich and James F. Altshuler, Jr., Boise lawyers.

The arguments will be on the alternative answer as to why he declined to issue a ballot title for the referendum petitions sought for circulation by the Anti Sales Tax League.

He was permitted two courses under the writ—issue the ballot title asked by the secretary of state, Franklin Girard, or show why he refused to do so.

He will contend, attorneys said, that the referendum law does not apply to the operation of the sales tax act, which has become effective under an emergency provision.

CULBERTSONS HOLD BRIDGE MATCH LEAD

Sims Take Two Out of Five Rubbers In See-Saw Session

NEW YORK, April 1 (AP)—After a see-saw evening session in which Sim and Mrs. Hal Sims took three rubbers to two for Mr. and Mrs. Ely Culbertson, the bridge match at Crochford's club adjourned with the Culbertsons still 5,940 points in the lead.

This total was 3,440 points below the Culbertson lead when the match took a week-end recess on Friday night. The disparity represented a healthy score registered by the Sims team this afternoon when six of eight rubbers went to the couple from Deal, New Jersey, playing their best bridge of the tournament.

Culbertson bid and made two small slams in hearts tonight scoring 680 points on each, and on the second one he could have been set but for a faulty discard by Mrs. Sims.

Another slip on the Sims side of the table came when Hal Sims made a bad three no trump bid, was doubled and was set three tricks, costing 600 points in penalties.

Today's was the first official test of the new contract bridge rules and both teams were enthusiastic about them.

The Culbertsons' had the edge on top cards at tonight's session, holding 53 aces, 49 kings and 43 queens. The Sims team held 52 aces, 52 kings and 39 queens.

The comparative standing on top cards for the 53 rubbers played so far is: Culbertsons—646 aces, 623 kings, 689 queens. Sims—624 aces, 657 kings, 593 queens.

MABEL WEBSTER

The first carriage was already in place under the porch cothurns. Mrs. Northrup and the twins were to go in that and it was time to be off.

But where were the twins? An hour before their mother had dressed and groomed and brushed them within an inch of their lives. Threatening them with unpeppering punishments if they were not ready by hand.

Chapter 26
MAN AND WIFE

In a plain black and white street gown, open prayer book in hand, sat Mabel Webster apparently studying the voice and entirely oblivious of the gala clad crowd or the necks craning in her direction.

But Aunt Nappy sat deeper into the shadows to laugh silently. "God, but Mabel's made history this day. And not out of my hand it is. I bet Jane . . ."

Mrs. Northrup was now advancing majestically down the aisle. Her white skirts trailing after her. Just a step behind her walked the twins. For once subdued and seemingly under perfect control.

Jane held her breath while Mrs. Northrup passed so close. Her hand touched her. Mabel did not look up. Mrs. Northrup, by the Grace of God, was talking to Tom Crowell's wife. But the twins . . .

The twins had stopped in their tracks and were looking at Mabel Webster and down, down and up. A murmur, a ripple of suppressed excitement and laughter ran through the church.

Mabel Webster flushed, glared for a moment at the twins and dropped to her knees. Her hot face in her hands. The twins continued their unblinking stare. Mrs. Northrup, sending the excellent-sounding music away to the matter, but the twins were already walking sedately down the aisle. She bent her head and her hands came out into the pew before her.

"Our cue for the sacrifice. Beat it, Nappy. Come on, Isaac." But commanded James was pushing forward out of the safety and comfort of the darkness.

"Here comes the bride! His bride meeting night! Prayer meeting night! Father, is isn't true? It isn't possible?" Jane cried through the church.

The purple staining her father's already ruddy cheeks, the vengeful glint in his eyes that radiated from his nostrils which sheltered his sons answered Jane better than words.

All the miserable doubts and clogging uncertainty abruptly took flight. James felt excited, lifted above himself, his heart wrung by tenderness for this exquisite, fragile creature who was trusting him with her life . . . more than her life. Impulsively he made a step forward so James felt he was to reassure and comfort Jane, but Bud put a hand on his arm just in time.

The bishop's soft sonorous voice hung for a moment over the heads of the congregation, and then dropped gently into their hearts and consciences.

James tightened his hold on Nappy. To think that this exquisite creature had promised not only to love and cherish but to obey him!

James was almost light-headed with happiness as he walked down the aisle with his new wife on his arm. Jane's eyes sparkled as she looked at him and he smiled back at her.

The double doors at the back of the church were opened by unseen hands. There was Nappy, as dignified as a statue on a monument.

"You're seven years old now, but I must say you look like a young man."

"But how do you know? Did you think you didn't love me? Didn't you want to be married?"

"Confession is sweet. For a moment James was tempted to admit his doubt and reluctance of the pre-

Free-For-All Pennant Race Looms In American League

Bobby Jones Strives To Regain Form Before Second Comeback

New York Yankees Greatest Obstacle In Detroit's Path

Junior Circuit Prepares For Open Campaign

By EDWARD J. NEIL
(Associated Press Sports Writer)

WASHINGTON, April 1.—That precept, baseball prospect before the magnates or six clubs primed for a season's brawling all with a chance to win the pennant—finally has settled over the American league after entertaining the folks across the way in National league territory year after year.

It has been a long time since the junior circuit loosed a campaign as open as this one looks, with Detroit's dominating champion rated little better, if any, than the New York Yankees and Cleveland Indians; the Boston Red Sox, the Philadelphia Athletics, and the Washington Senators potential apple cart wreckers; and the St. Louis Browns and Chicago White Sox far from favorites.

Perhaps that's the way the baseball fans have of spending their time for the league's greatest, drawing card for the past 15 years, Babe Ruth, ready to lure hundreds of people from town over to Madison Square, something had to happen to keep the hurrales from running away from the stands.

It is strangely enough when the National league finally got Ruth, it also got what looks to be the first two-leaf race there in years.

Sports Writers Pick Cards and Giants to Lead

By ORLO ROBERTSON
(Associated Press Sports Writer)

NEW YORK, April 1.—In the opinion of the men who write about baseball, the National league pennant race will be a two-team affair with the St. Louis Cardinals repeating their 1934 triumph and the New York Giants. Giving little consideration to the six other clubs, the 17 sports editors and baseball writers, who pastored in the ninth annual Associated Press pennant poll, cast all but seven of their first place votes for either the Cards or the Giants.

Thirty nine of the experts favor the Cardinals while 21 voted for the Giants.

Only two other teams were given a chance to finish at the top of the standings. They were Chicago and Pittsburgh, the Cubs receiving four first place votes and the Pirates, three.

The balloting was in sharp contrast to last year when the Cardinals received only 13 first-place ballots and were generally picked to finish no better than fourth. The Giants topped last year's poll.

As further evidence of what the writers think of the coming pennant race, they cast the majority of their second place ballots for either St. Louis or New York.

The Cubs, selected last year as the favorite to repeat, this year could muster only ten votes for the one-two position but had no trouble in beating out the Pirates for third place.

Despite the addition of Babe Ruth, the Boston Braves in the opinion of the writers will do no better than fifth.

Picard Adds New Championship to String of Titles

Pennsylvania Golfer Passes Harry Cooper to Annex Metropolitan Crown in Atlanta Golf Tournament

By KENNETH GREGORY
(Associated Press Sports Editor)

ATLANTA, Ga., April 1.—Continuing the spectacular streak that carried him to the heights among golf's money winners in the winter campaign, Henry Picard of Henshaw, Penn., today added the Metropolitan open championship to his collection and enriched his bank account by \$400.

Trailing his nearest competitor, Lighthouse Harry Cooper, veteran Chicago marksman by two strokes as the field set out for the final 18 holes, Picard clipped six strokes from par 71, adding a beautiful 65 to his 144 total through yesterday's play to card a 209 and nose out the aged campaigner who came in second with 212.

Picard, winner recently of the Charleston open and heading the list of money winners in the country, played an outstanding golf throughout his final round, and was all square with Cooper as the pair drove from the last tee. Both landed on the green, with Picard farther away. The Pennsylvania sharpshooter smacked his put into the cup from 12 feet for a birdie, two strokes ahead of Cooper three-putted.

Both Picard and Cooper had 36 at the turn, two under par, while the former came in with a scintillating 31, four under perfect figures, on the last nine, with Cooper taking 35 for a total of 69. The latter recorded 300.

In the third place came Byron Nelson who carded a 59, two under the last tee, both landing on the green, on his last round for a total of 216 and prize money of \$250. He was trailed by Horton Smith of Oak Park, Minn., who carded a 60, and Milwaukee, each of whom registered 69 for a total of 216.

Ray Mangrum, hard-driving Los Angeles professional, who was in close pursuit of the two leaders after yesterday's play, slipped slightly, one over par with 72, and finished in sixth place with 217.

Boston Red Sox, Building For Future, Find Promising Rookies

Editor's Note: The following article is the sixth in a series dealing with youthful additions to major league baseball clubs.

By ALAN GOULD
(Associated Press Sports Editor)

SARASOTA, Fla. (AP)—The Boston Red Sox have a flock of bright looking youngsters under their championship roof this year. The club is building for the long pull as well as concentrating on a pennant fight. In a new job, Manager Joe Cronin is especially anxious to have a good peek at all of the best prospects so that he will be better informed in passing future judgment upon them.

Aside from one or two pitching hopefuls, however, there is only one newcomer vital to the 1935 outlook. He is Elsworth Tenney Dahlgren, first baseman purchased from the San Francisco Mission and already christened "Babe." Cronin has seen him perform in the Pacific Coast league and he looks like a real part of a good all-around workman.

Misses No Games Since 1931

Dahlgren is no Lou Gehrig but he comes up to the standard of something of an "iron man" record. He hasn't missed a game since 1931. In fact he says that he can recall being out of the game only about nine innings, all told, over a four-year stretch. He hit .301 last season, which is only fair, but his fielding average was .985, which is excellent for a first baseman. Cronin thinks for a while he'll be a gambler on him because of the power in the rest of the lineup. "Babe" had 52 extra base hits in 1934.

Dahlgren is a fellow San Franciscan of Manager Cronin, but the first baseman broke into professional ball with the Tucson, Ariz., club. He is 22, weighs 203, bats and throws right-handed.

The Red Sox will rely on a veteran pitching staff, but they have two exciting outfield prospects in George Hockett, Alabama who flashed shutout skill in his debut last season, and Johnny Newcomb, Bridgeport who has a good amount of stuff. Both have shown enough to warrant being given real work on the firing line this season. They may eventually be the replacements needed for Lefty Grove and Babe Wagon, one-time ace of the A's whose pitching days seem to be numbered.

Arthur Graham, Boston Red Sox, is a promising rookie. He has not missed a game since 1931.

Dahlgren's no Gehrig, but already they're calling him "Babe," and he hasn't missed a game since 1931. Graham's real outfield find, to be numbered.

The Red Sox have two former college heroes on their roster of infielders but only one is likely to get as much as a seat on the bench this year. He is Al Niemiec, formerly of Holy Cross, who had a good season with Kansas City last year. He is likely to get a utility infield role. The other is Don Kellert, all-around football, basketball and baseball star at the University of Pennsylvania. He jumped right from the campus to the big leagues last summer but will be formed out this spring.

Former Amateur Champion Gives Poor Exhibition

Five Years After Celebrated 'Grand Slam' of Golfdom, Famous Georgian Tunes Up for Augusta Event

By ALAN GOULD
(Associated Press Sports Editor)

AUGUSTA, Ga., April 1.—Despite the widespread interest generated by the second annual comeback of Robert Tyre Jones Jr., it became increasingly evident from first-hand observation today that only a sudden, miraculous return to form will make it possible for the former world champion to figure in the "money ball" in the Augusta National Golf club's invitation tournament.

Five years after his celebrated "Grand Slam" and subsequent retirement, Bob Jones needs no alibi for anything that happens on the line but he's got ready to add the truth of Big Bill Tilden's claim that there's "no substitute for competition."

Enthusiasm and sentiment have combined to establish Jones as a favorite in this year's tourney with Paul Runyan, the National Tour champion and runner-up last year, making his first appearance in the event.

Jones played so poorly for nine holes today, with Lawson Little, Bill Nicholson and Oren Norman today that he was a goner by himself for the kind of a workout he needed, unhampered by a gallery. He shot the original nine in an even forty and was disgusted with most of his shots. He was away off on his short approaches and putting ball.

Cincinnati Reds Defeat Dodgers

ORLANDO, Fla., April 1 (AP)—The Cincinnati Reds today defeated the Brooklyn Dodgers 9-1 in a game that was a real slugfest. The errors were made in the sixth and seventh innings and contributed no little to the seven runs the Reds piled up in those frames.

Van Lingle Mungo, the Dodgers' star hurler, pitched seven innings for Brooklyn.

Flash Gun Gets Blame for Golden Miller's Showing

LONDON, April 1 (AP)—A new explanation of Golden Miller's failure to finish in the Grand National stephens at Aintree Friday night today when it was reported that the red hot favorite was frightened by a photographer's flashlight when he was getting ready to make a jump.

The incident, it was reported, was the unspoken feud between British and American photographers.

A 3-1 favorite, Dorothy Faggs's Golden Miller "refused" to take a jump, spilled Jockey Gerry Wilson and thus saved British bookmakers some ten millions of dollars.

Trapshooters Vie At Club Grounds

Twin Falls Rod and Gun club trapshooters met in weekly competition at the club grounds today. Due to the high wind velocity, few shooters attended and the scores for the day were accordingly low. Several double events were not off.

Another of the weekly trapshoots is planned for the club next Sunday.

Jimmie Fack's shift from first to catcher has proved the ace in the hole for the team. The young pitcher, Fred Ostermeyer, who has been in the lineup since the season began, is well balanced with Frank Higgins, Eric McNair, Dix Wright, and the other regulars.

Bump Hadley's arm and the veteran catcher have been the backbone of the team. An overcast season may find the veteran pitcher, Earl Whitcomb, Monte Rhodes, Johnny Welch and Henry Johnson may be enough without any more. There's no question at all that the team is well balanced with the outfield is good.

Champion's Manager Receives New Offers

CHICAGO, April 1 (AP)—World Heavyweight Champion Max Baer started getting himself into condition for a proposed exhibition tour today while his manager, Ancil Hoffman, heard offers of more serious warfare without making any decisions.

Hoffman listened to the Chicago Stadium promoters, Nate Lewis and Jim Mullen, who want the champion to engage in a 10-round non-title bout April 12, if a suitable opponent can be found.

But he was in no position to accept terms for a fight that far off until Madison Square Garden has either named or failed to name a suitable opponent for a championship bout by April 15. The same goes for Joe Jacobs' request for a Baer-Schmeling bout.

The champion's manager said that plans for the exhibition tour through the middle west, are in the making.

His only comment on a story from a Munich, Germany, newspaper, which declared a bout between Schmeling and Baer, would be "intolerable to Germany" was "It makes good reading."
