LOYAL TROOPS WIN 12-HOUR BATTLE AT GATES OF PEIPING

Rebellious at Japanese-Dictated Orders, Mutineers Seize Armored Train and Attack 'Forbidden City'

(Copyright, 1935, Associated Press) PEIPING, June 22.—Chinese rebels, rebelling against Japanese-dictated orders for the evacuation of Hopei province, fought their way to the very gates of this "forbidden city" today, only to be beaten back by loyal troops after an all-night battle.

Major-General Peiping during the 12 hours the fighting raged but best information available indicated only one civilian was killed. The city's defenses suffered casualties.

The mutineers, military circles here said, were led by the command of General Tsai, one of the subordinates of the ousted Hopei governor, General Hu Hsueh-Chung.

At last night he sent an armored train and attacked the defenses of the south gate of the 16-mile city.

To the fire of the rebels' 3-inch gun, guards replied with machine guns, rifles and trench mortars. The main attack retreated to General railway junction near Peiping.

Two thousand loyal troops sallied out just before dawn to cut the railway line, surrounded the armored train and captured it. The rebels then fled in the direction of the demilitarized zone.

At the height of the fighting two unidentified secretaries of the United States embassy in Peking were rescued outside the walls, bringing them into the city.

A few shots fell inside the city during the 12-hour engagement, but caused little damage. Major-General Tsai was declared in Peiping, and all 16 Japanese warships reopened this afternoon, however.

Japanese army officers here, virtually all of them, have accepted the Nanking government's acceptance of the demands concerning the province, contented themselves with waiting on the leaving of the troops to deal with the invaders.

It doesn't work away, but that holds the Japanese in line, as assistant in the University of Iowa's child welfare institute, said yesterday.

Many Trouble Spots On Anniversary of Slaying At Sarajevo

Bartenders' Union, W.C.T.U. Oppose Drug Store Beer

KANSAS CITY, June 22 (AP)—Those age-old enemies, the W. C. T. U. and the Bartenders' union, found themselves together today in opposition to a proposed chartering of a new law in Kansas which would permit the sale of beer by drug stores.

"It's the first time I ever heard of such a thing," grinned Charles B. Nelson, president of the union, as he arose before the annual meeting of the city council today to protest the proposal.

Fannie L. Taylor, president of the W. C. T. U., had previously testified that sale of beer by the drug stores was "a temptation to youth."

ARMY OF 100,000 MASSES IN AFRICA

Five Ships Sail From Action Ports as If Duce Prepares for Action

ROME, June 22 (AP)—The army Italy is massing in Eritrea and Somalia for possible action against Ethiopia passed the 100,000 mark tonight.

Five ships sailed from Italian ports today with about 3000 men aboard, including the total number of soldiers, officers, technical experts and skilled workmen concentrating in Italy.

That will be the largest army any European nation ever has sent to a foreign land.

While national observers here, feeling the pulse of public sentiment, considered the situation, the Italian press said today that the move was not universally true five months ago—the Principessa and Giovanni, killed from Siracusa, the Leonardo da Vinci, Romolo and Viminale from Naples.

Potatoes Given As Premiums to Gasoline Buyers

LOS ANGELES, June 22 (AP)—The Los Angeles motorist was getting all kinds of inducements to buy gasoline tonight.

At one station, cigarettes, potatoes and wine were being lost in as premiums by smaller independent dealers in certain sections of the city in an effort to bring prices of gasoline even below retail prices, which had dropped to nine cents a gallon for the structure fuel.

The cut rate retailers started off by giving small sacks of potatoes, a few dozen cigarettes, a tin of oil, or a bottle of wine, for the price of their extra petroleum product we can expect gasoline to drop to five cents a gallon, he said.

OFFICERS FAIL TO SOLVE MYSTERY OF MISSING TOURISTS

Detectives Ready to Abandon Attempts to Link Texas Suspect With Disappearance of Four Persons

DETROIT, June 22 (AP)—Detectives tonight virtually had abandoned attempts to link a New Mexico man held here with the baffling desert disappearance of four Illinois tourists several weeks ago.

The 36-year-old suspect, Clement Tim Sikes, admitted he was a resident of Socorro, New Mexico where the search for the missing party, believed slain, is now being conducted.

Detective Captain Will Britton tonight said "I have about come to the conclusion that the man had either fled or was killed."

Heid For Questioning "Fritz said he had learned the suspect had lived in a rented place in Wichita Falls for two weeks ago."

Heid For Questioning "Fritz said he had learned the suspect had lived in a rented place in Wichita Falls for two weeks ago."

PICTURE OF NECESSARY MARKS THEFT TRIAL

Photograph of Undraped Figure Offered by Defense Attorney

LOS ANGELES, June 22 (AP)—Excitement ruled the courtroom for a time today when lawyers for the defense introduced a photograph of an undraped figure.

Attorney John L. Fleming offered the picture, he said, to show that the term "love" was many times in letters and telegrams from Mrs. Guttman to her husband.

"I never did," she cried, eyes blazing. "I know that picture was made with my bare back exposed."

"I never did," she cried, eyes blazing. "I know that picture was made with my bare back exposed."

"I never did," she cried, eyes blazing. "I know that picture was made with my bare back exposed."

"I never did," she cried, eyes blazing. "I know that picture was made with my bare back exposed."

Borah Declines To Detail Plans For 71st Year

Washington, June 22 (AP)—Senator Borah, militant Idaho Republican, ended his 70th year today by working at his office and braving reporters who sought to ask him what he planned to do during his 71st year.

He had a battle in the past week for immediate action on the president's tax program and proposed amendments.

F. D. R. CALLS FOR COMPANIES' DEATH

President Renews Attacks on 'Unnecessary' Holding Units

WASHINGTON, June 22 (AP)—Felix what he called the power lobby as the most daring in history, President Roosevelt today called for the death sentence for "unnecessary" public utility holding companies.

The demand came as House administration followers were fighting desperately to break a revolt that threatened to thwart all efforts to re-instate the secret provision, in place of one written in by a house committee to permit the securities and exchange commission to rule whether or not utility holding companies should be eliminated.

Speaking determinedly at his bi-weekly press conference, Mr. Roosevelt charged the most powerful lobby group in Washington, the utility industry, with employing deliberate falsifications in its fight against the "death sentence."

Blasphemy at the claims of power interests that elimination of utility holding companies in seven years would mean the end of the utility industry, Mr. Roosevelt contended the legislation would really benefit stockholders by ousting what he described as "parasites" who were eating up profits in managing fees and dividends.

U. S. TO TRANSFER GOLD TO ARMY POST

Secret Orders Given for Construction of Subterranean Vault

(Copyright, 1935, Associated Press) WASHINGTON, June 22.—The U. S. government is transferring gold to an army post in Kentucky, and is building a subterranean vault for the gold.

Into it will be transferred a good portion of the billions in gold now held by the government in New York, and in San Francisco.

The structure, officials reluctantly disclosed, will be built in continuation of the plan to transfer gold to an army post in Kentucky, and is building a subterranean vault for the gold.

Into it will be transferred a good portion of the billions in gold now held by the government in New York, and in San Francisco.

Snipers Fire On Guards Besieged At Kansas Mine; State Troops Assembling

MISCHIEF FEARED IN EXTENSION OF CONGRESS SESSION

Gold Measures and 'Tax the Rich' Program Promise Period of Idleness; Chance for Revolvers

WASHINGTON, June 22 (AP)—The extension of which will show adjournment into the indefinite future, today drew forecasts from some congressional chiefs that the delay might enable would-be revolvers to force through unwanted and possibly "unwholesome" measures.

It would be July 29—more than a month away—before a bill embodying the program could be ready for presentation to the house.

Heads Into Trouble Nor were the prospects for a peaceful ending of the session brightened by introduction of a bill by Chairman Steagall (D-Ala.) of the house banking committee to carry out recommendations made by the president in yesterday's gold message.

His measure would deny to holders of government securities with gold clauses in them the right to sue the government for damages because of dollar devaluation.

It would be July 29—more than a month away—before a bill embodying the program could be ready for presentation to the house.

NEW CLUES FOUND IN DETROIT MURDER

Police Search for Suspect in Connection With Dickinson Slaying

DETROIT, June 22 (AP)—Fragments of evidence pointing to a strange rendezvous between Howard W. Perkins, an attorney, and a woman, were found today in connection with the slaying of Dickinson Thursday morning.

The New York counselor here to investigate the slaying of Mrs. Elizabeth Carmichael Witherspoon for a daughter's share of the estate of the late William Yawkey, wealthy lumber dealer and sportsman, disappeared from the Book-Cadillac hotel.

Perkins was found shot to death and another man, identified as a taxi driver, was found in a pool of blood in the same room.

Perkins was found shot to death and another man, identified as a taxi driver, was found in a pool of blood in the same room.

Perkins was found shot to death and another man, identified as a taxi driver, was found in a pool of blood in the same room.

Volleys of Rifle and Revolver Bullets Rain In Darkness On Building Occupied By Dozen Men

Postman Delivers Food Through Lines

GALENA, Kas., June 22 (AP)—Sniper fire tonight on twelve mine guards beset in a building of mine ruins, scene of disturbances which led to the calling out of the Kansas national guard.

While the state troops were assembling at other points a crowd of between 75 and 100 strikers sympathizers lay siege to the Engle-Picher smelter. Shots were fired spasmodically starting at 9 o'clock.

Six or eight short shots whistled through the windows of the smelter office and as many more struck the side of the small frame building.

Hidden By Darkness The besieged guards telephoned the police to return the fire, all of which came from the south toward the smelter.

The strike sympathizers, the guards said, appeared to have stationed themselves both on the north and the south sides of the smelter, 100 or more feet back from the plant and grounds.

Postman Brings Food The guards, who were in the building for thirty six hours, and who watched the disorders on the highway from a safe place, were in the office when a postman drove up in a postal car at 7 o'clock tonight.

Several strikers rushed to the smelter, but the guards in the building immediately unlocked the gates and permitted the car to pass in.

The food was delivered and the guards were in the building for thirty six hours, and who watched the disorders on the highway from a safe place, were in the office when a postman drove up in a postal car at 7 o'clock tonight.

QUAKE IN HAWAII CRACKS BUILDINGS

Earth Shocks Inhibit Heavy Damage and Cause Two Slides in Crater

HONOLULU, Hawaii, June 22 (AP)—A sharp earthquake in Hawaii today, cracking buildings, inflicting heavy property damage and causing two slides in a volcanic crater.

The shock, heaviest experienced here in many years, occurred at 10:22 a. m. (EST).

The quake apparently struck hardest in the Puaea and Hahaione sections of Honolulu and at Redea Island, in Hilo bay. The damage, however, apparently was confined to a few blocks of houses and broken chimneys and gables.

The quake apparently struck hardest in the Puaea and Hahaione sections of Honolulu and at Redea Island, in Hilo bay. The damage, however, apparently was confined to a few blocks of houses and broken chimneys and gables.

LIGHTS and SHADOWS In Day's Events

(By The Associated Press) SOUTHERN BLUE BAY—SOUTH AFRICA—Does the baby cry? Turn on the blue light to stop him.

It doesn't work away, but that holds the Japanese in line, as assistant in the University of Iowa's child welfare institute, said yesterday.

It doesn't work away, but that holds the Japanese in line, as assistant in the University of Iowa's child welfare institute, said yesterday.

AA A Discloses Shortage Of Nation's Spring Pigs

WASHINGTON, June 22 (AP)—A decrease of 20 per cent in the 1935 spring pig crop as compared with the small 1934 spring crop, was reported today by the agriculture department.

Officials said this means very definite shortage of hogs will continue until the spring and summer of 1936.

Officials said this means very definite shortage of hogs will continue until the spring and summer of 1936.

DOUGLAS FAIRBANKS AND LADY MARY ASHLEY TRAVEL

HONOLULU, June 22 (AP)—Douglas Fairbanks and his wife, Lady Mary Ashley of England, departed today on the steamer Empress of Canada for Vancouver, B. C.

They arrived from the far east yesterday on the same liner, and first planned to cruise the coast of the Pacific.

They arrived from the far east yesterday on the same liner, and first planned to cruise the coast of the Pacific.

ENFORCEMENT FLIES RIDE OUT STORM

Rain, Along With Stabilizer Trouble, Threatens to End Long Grind

KEYS FIELD, MERIDIAN, Miss., June 22 (AP)—Keys, Fred and Al tonight apparently rode out a rain and wind storm without incident.

The brothers kept their plane, the "Ole Miss," close to the landing field during the disturbance, fearful that it would be blown away and outside the field and thus forfeit the record.

Plans to establish a new endurance record must land in the field from which they take off.

Plans to establish a new endurance record must land in the field from which they take off.

A. F. of L. Urges Plan to License Industry In U. S.

WASHINGTON, June 22 (AP)—The possibility of new NRA legislation this session moved up a notch today by a speech by the president of the Labor presentation to the president of a plan to license industry in interstate commerce.

Another plan, sponsored by the Labor business advisory committee, looking toward the voluntary association of business men, was expected to be presented shortly.

Another plan, sponsored by the Labor business advisory committee, looking toward the voluntary association of business men, was expected to be presented shortly.

New Bombings in Omaha Car Strike

OMAHA, Neb., June 22 (AP)—Bombardment of several streets by a mob of strikers today in a strike which has held here since the Nebraska national guard was called out to restore order.

The structure, officials reluctantly disclosed, will be built in continuation of the plan to transfer gold to an army post in Kentucky, and is building a subterranean vault for the gold.

Into it will be transferred a good portion of the billions in gold now held by the government in New York, and in San Francisco.

THE ALASKAN EXPERIMENT

Recent newspaper dispatches on the subject of the Matanuska Valley experiment lead to the conclusion that the best thing the government can do is to get the settlers on board ship and out of the country with as little delay as possible.

The colony itself is torn by discontent. Charges are made that the government has failed to live up to its promises. Food prices are too high, medical service is unsatisfactory.

Whether the charges are true or not, and the chances are they are exaggerated, an atmosphere had been engendered among the colonists which is enough of itself to destroy whatever chance there may have been of the experiment succeeding.

There is grave danger that the experiment will result in stark tragedy if these people are allowed to continue to put in their time filing complaints and framing protests.

CHANGES

It was to be expected that a change of some sort would come in connection with the Federal relief programme but whether it will be actually possible to take care of the unemployables of Idaho at State expense, in a manner which will be satisfactory, remains to be seen.

By "unemployables" is meant persons too old to work, or unable from physical causes to support themselves, and the mentally deficient. It is estimated that there are about twenty thousand of these in Idaho.

It is apparent that some sort of a change had to come about but it is equally obvious that people are not going to be allowed to starve to death. If the State of Idaho cannot carry the load the Federal government will have to help out, which is the manner in which the relief programme should have been handled in the first place.

Taxes must be steadily increased. They are now the highest in the history of the country but even greater sums must be raised. It doesn't matter in the least whether people like it or not and it is idle to talk about economy in either State or National.

Perhaps the change will be more apparent in theory than in fact. The Idaho Emergency Relief administration may become a thing of the past but this does not take away from the responsibility of government towards those who must have work or towards those further unfortunate persons who are unable to work.

DENTAL CONTROL

A dentist's office becomes less of a chamber of horrors with an improvement shown in a recent news picture. A girl is pictured in a dentist's chair, with the operator working on her teeth and the nurse standing by.

These defenses must give the sufferer a reassuring sense of safety. Whether much progress can be made under such conditions is another question. Some victims would like a third gadget capable of picking the dentist up, in case of extreme aggravation, and throwing him out of the window.

Aren't people getting too soft? Our grand-parents could sit calmly and have all their molars yanked out without an anesthetic, or have their teeth drilled clear down to the toes without wincing.

A BENEVOLENT DESPOT? (Lewiston Tribune)

Mussolini has been a benevolent despot, as despots come and go. The Italian people have been proud of him. So great has been the improvement on everything, in every town, along every countryside, that it was natural for them to ascribe great virtue to his Fascist regime.

Nor has Mussolini been a monster of the German or Russian type nor even given to cruelty. True he stamped around heavily and scowled blackly, but he didn't murder. Political dissenters were arrested. If he persisted in their opposition they were ordinarily sent to one of the numerous islands off the Italian shore.

It will be seen, therefore, that Mussolini was a typical despot of the amiable order.

Cables tell us that the Italian people, who are given to kindness and justice, do not enthuse over a campaign of slaughter against the Ethiopians.

And Mussolini is running true to form. He is merely another demonstrated case of what the hunger for power and the passion for ruling does to men, even those otherwise of good intentions.

No one can think of a worse hazard for a country than centring power at one place. But the desire of people to throw themselves into the arms of some ruler if they like his looks or the way he makes promises, particularly in time of distress when they are confused concerning the right road, is a weakness among those who are impetuous or do not coolly consider that the despot whom they trust today will have such physical and mental changes in the course of time as to wreck every endeavor to build a dependable state.

And who his successors may be is a secret in the lap of heaven.

LESSON OF DROUGHT AND FLOOD IN THE WEST (Washington Post)

The very country that for months basked beneath a parching sun without a drop of rain now is flooded by the swirling waters of rivers run wild. There is more to this than simply proof of the adage that nature runs to extremes.

Although it may not have been a major factor, it is commonly agreed that improper cultivation of the middle western plains accentuated the effect of the drought last year. Acres had been cleared and cultivated with virtually no thought of conserving water.

It needs no expert to suggest that what must be done is to revise farming practices in this area. That is precisely what has already been ordered by the government through its national erosion agencies using, in part, public works funds.

BREAKFAST FOOD

Colonel: "So you lost half your forces by a trick of the enemy?" Captain: "Yes. They rigged up a machine-gun to look like a movie camera and the boys just fought for a chance to get in front of it."

Mrs. Peck: "Henry, do you think we are prepared for war?" Henry (in alarm): "Why? Is your mother coming to visit us again?"

It was the warm, soulful June season and love was in the air. "Dearest," he crooned, "I will get you a nice diamond ring for Christmas."

"No, darling," she whispered, "I will take the ring now. Let Christmas bring its happy surprises just as usual."

New York Day by Day By O. O. McINTYRE

NEW YORK, June 22.—New York, the night watchman of the world, can become all of a sudden most forlorn. I speak in particular of any summer Saturday afternoon around 5 o'clock.

A doorman fans himself with his hat on the curb across the street. This apartment is in the grip of the same inertia—everybody is waiting.

The slow drip of a water faucet accentuates the dolor. I am wondering if there is ever a time in this mystery of progression when living man is entirely alone and friendless? Philosophers hint that there will be such a period.

The loneliest and most deserted I ever felt was after stepping from a dinky train at San Luis Potosi in the Mexico to scamper across the sun bleached square for a refreshing drink.

That quality called eerie—and there is a more descriptive word—seems to settle and choke like icy pollen about a deserted apartment.

There's a trace of gloom this way violates the columnar credo: Be merry and bright. But many of us, like to wallow in the morasses now and then. The British call it "going wanky."

CASTLEFORD SHEEPMAN PAID FINAL TRIBUTE

Buhl, June 22.—Funeral services were held for Jose Domingo Achabal were held at the Catholic church, Thursday morning with Father J. McElroy officiating in charge music for the services were under the direction of Mrs. Paul Kearney.

Guiding Your Child By ALICE CLARISSA RICHMOND

CARE OF HAIR "Ouch! Stop pulling my hair!" "Hurry!" "Or a more practical approach: "What do you have my hair cut? Everyone pulls it so."

But perhaps it is the generations of hair pulling that have given women thicker hair than men. It may be that there would be less baldness if boys had their hair pulled more often.

Hair does not spring out of the top of the scalp. It springs from roots far below the visible portion of the scalp.

Pride has its pang, and it seems that the smart set wants thick hair should not only encourage jingling it pulled, but pull it herself—just by single bits which come out, but by handfuls which start the blood circulating and the glands functioning.

Neglect of hair in childhood is apt to do harm later in life. Hair should be thoroughly brushed night and morning, and combed vigorously until the scalp tingles.

Children cannot adequately care for their own hair. If they wash it themselves, they are very apt to leave soap in the hair and the washings are in any event sure to be infrequent.

NATIONAL WHIRLIGIG (NEWS BEHIND THE NEWS) (Copyright, McClure Newspaper Syndicate)

WASHINGTON By Ray Tucker SWEET, Secretary of President Hoover, has been reported to have approved the bill to amend the Constitution to extend the term of office of the President to six years.

Senator Norris still dotes on Franklin D. Roosevelt. "Another Roosevelt," he believes that the President has made a serious mistake in his administration's social program.

Unlikely. It is well to bear in mind the impediments facing attempts to amend the Constitution. No proposal is likely to be introduced to the state unless it is passed by a two-thirds vote of congress.

TRUCE. Administration labor scouts don't look too happy. They may be sporadic outbreaks, but they expect basic industries—steel, automobile, rubber, etc.—to experience disturbances through the summer months.

AFI-R Francis J. Gorman, for instance, years to stage a strike demonstration in the textile industry tomorrow. He would like to protest against the industry's stock split-up.

NIPPON. World statesmen worry about the potentialities of war in various spheres of controversy. But our military strategists are not in favor of conflict except in the Orient.

No nation now involved in current wars is likely to see a combination of personnel, raw materials and money for carrying on a first-class war. This applies to our present situation.

FATE. It would not serve as legal evidence in the controversy between the government and the airplane strike now. They have large inventories and would appreciate a summer war.

The cold war is watching this situation closely. The new labor relations board will tackle this armed truce as its first problem.

Only Japan is fuaring the weapons of conflict. With her conquest of China she will possess rich stores of raw materials.

NOTES. The gold-plated mansion of the late "Tom" Walsh, of Camp Hill, Pa., is to be sold. The world's military chieftains are cockeyed from squinting toward the Land of the Rising Sun.

REX TUGWELL'S rural retreat, a beautiful home on the banks of the Hudson, is being sold. The world's military chieftains are cockeyed from squinting toward the Land of the Rising Sun.

Somebody's Going To Inherit An Unpleasant Job One Of These Days

HAGERMAN WOMAN DIES IN HOSPITAL AT BUHL

BUHL, June 22.—Mrs. Vivian Idora West, 62, of Hagerman, died at the Buhl general hospital at 4 o'clock Friday morning. She was born June 22, 1872, at Hagerman and was married to Charles A. Terhune, her parents, Mr. and Mrs. M. E. Roberts, reside at Hagerman.

Funeral services will be held at the Buhl general hospital at 2 o'clock Sunday afternoon at 2 o'clock. Interment will be in the Hagerman cemetery under the direction of Fred and Johnson funeral home of Buhl.

Savant Ascribes Odd Cannibalism To Old Indians

MINNEAPOLIS, June 22.—An unusual form of cannibalism among Indians in North America was described to the American Museum of Natural History by a scientist from the University of Minnesota.

Some savants from northern Minnesota Indian mounds, Winford told the anthropology museum, showed that the Indians had eaten the flesh of their dead, they drained the marrow from the bones and the brains from the skulls. Bones, the ends of which were not crushed, had been pierced at one end.

"This crushing and breaking," he said, "was no doubt done to break up the brain for food or for industries such as tanning."

BODY OF AGED WOMAN REMOVED TO UTAH

BUHL, June 22.—The body of Mrs. Laura Neilson, 82, was taken to Utah, where she was buried by the Evans and Johnson mortuary of Twin Falls for funeral services there.

Dr. Olsen, of the home of her daughter, Mrs. Giam Gould of the Cedar Draw district, late Thursday afternoon, she had been taken to this country for the past 30 years.

COURT DECREE ANNULLS YOUNG GIRL'S MARRIAGE

The marriage of 14-year-old Genevieve White to Hubert McDonald at Shoshone last August 22 was annulled by the court here today.

Genevieve was 14 years old when she was married to Hubert McDonald in Shoshone last August 22. She was 14 years old when she was married to Hubert McDonald in Shoshone last August 22.

COOPERATORS SHIP BIGGEST LAMB POOL

13-Carload Shipment of 2900 Animals Sets Record for State

Thirteen carloads of lambs, believed to be Idaho's largest ship ment of pooled lambs were loaded and shipped to markets in Denver and Sioux City, Iowa, by Twin Falls Cooperative Stock Marketing Association last Thursday, Harvey S. Hale, county agent and secretary for the association, announced last evening.

At the same time he announced sale in Denver last Wednesday of 10 carloads of lambs from the association shipped from Rogerson and Twin Falls. Selling for \$7.50 per 100 pounds, within 25 cents of the top for the Denver market that day. Twin Falls lambs in this shipment netted \$4.40 on full home weight, and Rogerson lambs netted \$2.29. This 13-carload shipment, this week comprised 2900 lambs selected from farm flocks of 94 shippers. Seven carloads of the shipment were loaded at Buhl, two at Pler, two at Twin Falls, and one each at Hollister and Rogerson. E. L. Green, Buhl, a director of the association, accompanied the shipment. Other directors, C. O. Thomas of Pler, Frank W. Brown of Twin Falls and L. C. Goodrich of Rogerson, assisted in receiving the lambs for shipment.

Including a carload of pooled lambs shipped from Moscow, the association has shipped 32 carloads of spring lambs this season, the secretary said.

A shipment of pooled hogs was sold by the association Thursday to a Portland butcher buyer for \$9.20 per 100 pounds. The shipment was of one-deck, and the carload was completed at Bury.

HIGH PRAISE GIVEN LOCAL DAIRY HERD

One of the best dairy herds in the United States is the Holstein herd owned by L. D. S. Carlson of Twin Falls, Dr. E. R. Haiser, member of the Ohio State university faculty and assistant director of the Holstein-Friesian association of America, told a group of dairymen and others interested in the industry here.

Dr. Haiser's visit here to inspect the Trenchick herd was made the occasion for a "Black and White" day, winding up in the evening with a banquet at the Park hotel for Holstein breeders and others interested in the dairy industry. Other guests were T. R. Warren, University of Idaho dairy specialist; H. Mathiesen, northwest representative for the national Holstein-Friesian association; and Mrs. J. H. Adams of Twin Falls, president of the Southern Idaho Jersey Cattle club. A. H. Jepsen of Buhl, president of the Southern Idaho Holstein-Friesian association, presided.

L. D. S. GENELOGICAL CONVENTION ANNOUNCED

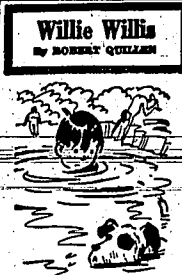

Genealogical societies of a number of southern Idaho L. D. S. stakes have been invited to attend Twin Falls state genealogical society annual convention in Twin Falls Saturday evening and Sunday.

Joseph H. Smith, assistant recorder at the Salt Lake City temple, and Miss Marcella Collett, archives department research worker, will attend and take part in the convention. The junior group will present a play, "Procrastination," on Saturday evening.

J. Arthur Swenson, Twin Falls state representative in charge of arrangements for the meeting.

COURT GRANTS DECREE ON CRUELTY GROUNDS

On grounds of alleged cruelty, Mrs. Juanita Brown was granted a decree of divorce from Birch E. Brown, and was restored to her former name of Juanita Murray, following an uncontested hearing before Judge Adam B. Barclay in the district court here yesterday. They were married at Kimberly December 24, 1931, and separated last June 14. There were no children. She asked for the court's approval of a property settlement.

Willie Willis by Robert Quillen

Scouts To Gather Play Equipment For Health Camp

Twin Falls Boy Scouts have been requested to assist in collecting a supply of play equipment for boys and girls at the McClusky health camp at Buhl during the two-month summer season beginning next Sunday.

Scouts are to discuss the project at their troop meetings Tuesday evening, and then are to concentrate efforts to assemble the requested materials for delivery as troop contributions at the residence of Mrs. Roscoe Stevens, 129 Tenth avenue north, McClusky camp director.

RESTORED IN HEALTH, CHILD RETURNS HOME

Restored to normal health by skill of physicians and surgeons at the Shirine hospital at Portland where she had been a patient since last December, four-year-old Alpha May Kreigh returned to her home in Twin Falls yesterday. Her father, Frank Kreigh, accompanied her from the hospital.

Suffering from lockjaw so that her diet was of necessity restricted to liquids when she was taken to the Shirine hospital, the little girl now can open her jaws readily, and her father said, doctors at the hospital advised using hard foods in her diet to promote exercise for the jaws, and promote continued improvement.

McCLUSKY CAMP READY FOR GUESTS

Registration Starts Sunday; Chairman Announces Appliances to Date

McClusky health camp will welcome guests from all over the country the opening day of an eight weeks' session, Mrs. Orr Chapman, chairman of the Twin Falls County Anti-Tuberculous association, announced last evening. Children who have been accepted are asked to report at the Buhl camp any time Sunday, where they will be received by the camp personnel and committee.

Thirty children, whose applications have been correctly filled out and endorsed, have already been accepted by Mrs. Chapman for admission to the camp, and the others have been tentatively accepted, pending completion of their credentials, which parents or guardians are urged to submit at once. Exclusive of the Buhl children, those approved to date are:

- List of acceptances: Dorothy Mae Formwalt, Nina June Deahl, Hansen; Thelma Pargworth, Marjorie Herrick, Mavis Herrick, Kimberly; Betty Jean Neale, Wilma June Lorain, Earl Lorain, Nancy Hart, Ernestine Hart, Fifer; Vera Malone, Miriam; Evelyn Watson, Todd; Watton; Evelyn Bell, Hazel Mary Jordan, Lloyd LeClair, Nettie Sabala, Shirley, Donald, Betty and Anna Jean Moldenhauer, Richard Holmes, Helen House, Virginia Livingston, Ernest Prosser, Marie Lougen, Lila Mae Hawkins and Lois Payne Hawkins, Twin Falls.

Mrs. Roscoe Stevens will be camp director. Miss Margaret Griffin has been appointed playground supervisor, and she will have two assistants. Miss Esther Wohlhals is to be dietitian this year. Aiding the camp personnel will be IERA employees.

Mrs. Marshall Chapman has been named a member of the camp committee in an advisory capacity, to cooperate with the playground director.

Automobile Horn Effective Guard Of Poultry Yard

Martin Meier of Twin Falls waited for almost a year for a practical test of the contrivance he devised to safeguard his poultry yard against invasion by thieves, and then found it to be entirely successful.

Two of the chickens were raided Meier's poultry yard and carried away several chickens. He set to work on ways and means of preventing a recurrence of the raid. He put no confidence in locks and decided against bear traps and spring-guns, but instead he installed at the poultry yard gate an automobile horn with an electrical connection.

C. CHURCH ANSWERS FINAL SUMMONS HERE

C. Church, Twin Falls, died last evening at 5:45 o'clock. Since 1915 he had made his home with his daughter, Mrs. A. L. Hamilton, and his son, H. G. Church, in Idaho.

He was born February 18, 1863, at Keokuk, Iowa. He spent his early life in Iowa, moving to Oklahoma in 1901 and then to New Mexico in 1907.

In addition to his daughter and son he is survived by four grandsons and four granddaughters and six great-grandchildren.

The body is at the Drake mortuary pending funeral arrangements.

CRUELTY ALLEGED IN PETITION FOR DIVORCE

Alleging cruelty, Mrs. Esther Hansard of Twin Falls started suit in the district court here yesterday for divorce from Walter F. Hansard to whom she was married in Vale, Oregon, May 11, 1932. She asked also for custody of their two-week-old son, and for \$75 a month for support of the child and herself, and asserted in her complaint that she is the mother of two other children by a former marriage and owns a residence in Twin Falls which is her separate property. Chapman and Chapman are her attorneys.
