\$275,000,000 TAX BILL ASSAILED AS HOUSE VOTE NEARS

Committee Votes 17 to 7 to Approve Measure, Introduced After Less Than Four Weeks of Study

(By The Associated Press) WASHINGTON, July 30.—The new \$275,000,000 tax bill was rushed today toward house passage through a fire of criticism from Republicans and Democratic Democrats.

The hour-long debate means committee in a 13-minute session formally voted 17 to 7 to approve the bill, introduced yesterday by Chairman Dougherty (R-Ore.) after less than four weeks of study.

Plans were made to take it up on the floor for initial debate Thursday and for passage Saturday or Monday.

Seen as Boomerang Immediately, a Republican counter-measure, Representative Trenton (N.J.) announced that the bill was a surrender to the president's dictation.

Almost simultaneously, however, the joint conference committee was objecting to the measure on the ground that it did not conform to the president's recommendations.

First of Ability to Pay The first senators voted to introduce the bill, and the president's suggestion of a graduated tax on corporations was rejected.

Benefactor's Reward NEW YORK.—A 12-year-old child, 83 years old, was killed yesterday by a man who had given him a few minutes on the street that he was generous and forgiving.

And the Fly Escaped NEWARK, O.—Fred Clark is shaving, a fly buzzed in on his nose. Fred made a pass at it with his comb and it stung him on the forehead.

Grounds for Damages GALLON, O.—Congressman Stephen Young, of Cleveland, tells this to his home.

Nudist's Downfall ATOKA, Okla.—A crowd attracted by a strange young woman nudist became so large the tent was called, officials doubted here yesterday.

Financial Woes Beset Emperor of Ethiopia; Silver Money Slumps

Merchants Close Shops Because of Low Value of Nation's Currency

(By The Associated Press) ADDIS ABABA, July 30.—New anxieties beset Emperor Haile Selassie today, already preoccupied with mobilization in anticipation of Italian invasion and with the outcome of the League of Nations council negotiations affecting his empire.

(By The Associated Press) TYPHOON WATERS SUBMERGE HOMES Yalu River in Manchoukuo Leaves Banks to Engulf 15,000 Houses

(By The Associated Press) ANTUNG, Manchoukuo, July 31 (Wednesday).—This city appeared in imminent danger of destruction by typhoon-driven flood waters, Rengo (Japanese) news agency reported today.

Constantly rising waters of the Yalu river engulfed fifteen thousand houses, following a small treat in a day. The water was running 24 feet deep in the Manchurian quarter.

Heat Toll Mounts in Middle America Temperatures Soar Above 100 Degrees; Far West Swelters

Summer's children boiled temperatures—nude 100 in middle America Tuesday as the heat toll for a week's span passed 40.

Oklahoma, Missouri, Kansas, Nebraska and Iowa were in the grip of a heat wave, which also made itself felt in the Southwest and Far West.

Bullets Wound Girl and Kill Salesman LOS ANGELES, July 30.—Agency Joan Parker, an artist's model, was wounded in the neck and a man police identified as Harry Mitchell, radio salesman, was shot to death in a sudden burst of gunfire in a fashionable apartment house, late today.

College Executive Casts Lot With Alaska Colony PALMER, Alaska, July 30.—Don Irwin, former leader of the Alaska colony, announced today that he was "loaned" to the Matanuska colonization project, today located in the Yukon valley.

Wins Against Odds NEW YORK.—Forty-four-year-old Harold Phipps, who has been handicapped 63 blood transfusions and eight operations was told yesterday by doctors that he could go home most anytime now.

Wish Against Odds ATOKA, Okla.—A crowd attracted by a strange young woman nudist became so large the tent was called, officials doubted here yesterday.

NO BREAK IN NAZI CAMPAIGN AGAINST STATE'S 'ENEMIES'

Steel Helmet-War Veterans in Saxony, Church Youth Groups in Saar Feel Force of Official Displeasure

(By The Associated Press) BERLIN, July 30.—Swiftly struck blows against "state enemies" of two kinds increased apprehension among Jews, Catholics and war veterans.

(By The Associated Press) SPRINGFIELD, Mass., July 31 (Wednesday).—Former U. S. Senator Frederick H. Gillett died at the age of 83.

ONE TIME SPEAKER OF HOUSE SOOGRUBS Frederick H. Gillett, Former Massachusetts Senator, Dies at Home

(By The Associated Press) SPRINGFIELD, Mass., July 31 (Wednesday).—Former U. S. Senator Frederick H. Gillett died at the age of 83.

WOMAN PRISONER IN HOME, RESCUED Aged Californian Found Locked in Closet; Robber Suspected

REDDON BEACH, Calif., July 30 (AP)—Mrs. Vera Wise, 33, whom neighbors had seen in a public house, was found unconscious and nude, locked in a closet in her home today.

FARM AND HOME EVENTS SCHEDULED

Federal Housing Administration and University. Slate Meetings

MOSCOW, Idaho, July 30 (AP)—Farm and home events from this on will be conducted in southern Idaho in August under sponsorship of the federal housing administration and the University of Idaho agricultural extension division. It was announced here today by E. J. Jiddings, director of the extension division of the university.

CAVANAGH CHAIRMAN OF PLANNING BOARD

D. J. Cavanagh, Twin Falls, was named chairman of the city planning committee at its weekly meeting held in the council chamber.

Coming Events

The Auxiliary of the Spanish War Veterans will hold a regular meeting Thursday evening at 8 o'clock in the Legion hall.

The Sodales Pinocchio club will meet at the home of Mrs. W. H. Heile, 1345 Fifth avenue east, Wednesday afternoon.

The Methodist Episcopal Ladies' Aid society will meet at the country home of Mrs. L. H. Wallington Thursday afternoon.

The Methodist Episcopal Ladies' Aid society will meet at the country home of Mrs. L. H. Wallington Thursday afternoon.

MAKE THIS MODEL AT HOME

Twin Falls Daily News Pattern

YOU CAN'T MAKE TOO MANY SIMPLE CASUAL WARM WEATHER SPORTS FROCKS! PATTERN 2322

by Anne Adams

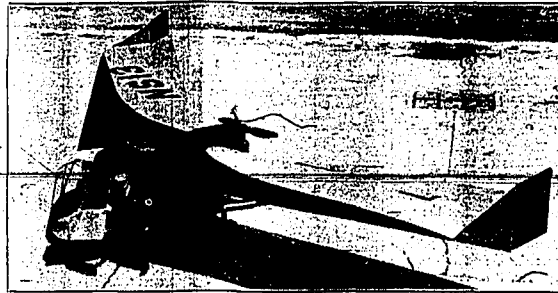

There are a hundred things you'll be doing on vacation and weekends! Such simple things as strolling through the green country, lazing on a porch, fishing about a tennis court, resting in all the sun and air you can! And you'll do them all better and with more comfort if you have debonair, casual frocks like pattern 2322 to change into!

The yoke-sleeve is so cool and brief with its slashed detail; the bodice so charmingly feminine. Four shirt pleats provide ample freedom and you'll like the diversity of fabric the easy pattern allows! Make one of darker toned material for instance; another of shantung, and one of a sky pastel crepe.

Pattern 2322 is available in sizes 12, 14, 16, 18, 20, 30, 32, 34, 36, 38 and 40. Size 18 takes 3 1/2 yards 38 inch fabric. Illustrated alternate neck styling instruction included.

Send FIFTEEN CENTS (15c) in coin or at home in Dayton after August 1st. Send to: Anne Adams Pattern, 1111 Broadway, New York, N. Y. Write plainly your address. Be sure to state size.

Tailless, Low-Priced Airplane Makes Debut

AN AIRPLANE, developed by Waldo Waterman, veteran pilot, met specifications of the department of commerce for a plane for private owners with limited pocketbook and flying experience, was shown to newspapermen at Los Angeles. The tail-less plane, shown above with Waterman, has a top speed of 110 miles an hour. Cruising range of 350 miles. It makes 13 1/2 miles to the gallon. The landing speed is 40 miles an hour.—(AP) Photo.

father, Mr. and Mrs. Sanders will be at home in Dayton after August 1st.

ROCK CREEK CLUB HAS SOCIAL SESSION

The Rock Creek Worthwhile Club met Wednesday afternoon at the home of Mrs. Ella Croft with Mrs. Violet Cummings as hostess.

is leaving the latter part of the week for Baker, Oregon, to visit friends.

Return From Coast—Misses Nancy and Mary Haddock and Miss Florence Patton returned Sunday from a ten weeks' vacation trip to California.

Home From Oregon—Mr. and Mrs. H. L. Roberts arrived home yesterday from a month's vacation trip to Portland and Seaside, Oregon.

Home After Vacation—Mr. and Mrs. Wilbur S. Hill have returned from a 20-day vacation trip to southern Utah parks, Grand canyon and San Diego and Los Angeles.

Vacation At Dam—Mr. and Mrs. Earl Lowery, Miss Annie Laurie Pabst and P. G. Pabst, Mrs. Lowery's father, have gone to Sunbeam dam on a ten-day vacation outing.

Coast Visitors—Misses Helen and Hazel Black, Los Angeles, are guests of the O. J. Caldwell home this week. They are on their way to Yellowstone national park.

Relatives Arrive—Dr. and Mrs. R. P. Isert and daughters, Betty and Marilyn, on a western tour, arrived Monday for a visit with Dr. Isert's twin brother, Dr. R. O. Isert.

Visita Aunt—Miss Helen Bredding, Pandion, Oregon, arrived Monday evening for a three weeks' visit at

the home of her aunt, Mrs. George Daurburn.

Leaving For Yellowstone—Mrs. C. V. Huckle, Miss Audrey Huckle and Miss Beth Bothwell are leaving tomorrow on a tour of Yellowstone national park.

Parents of Daughter—Rev. and Mrs. C. H. Hinggardner, Twin Falls, are the parents of a daughter born Monday at the Twin Falls county general hospital.

Conclude Vacation—Mrs. Ella M. White and daughter, Miss Billy Mar Waffler, who have been visiting at Portland and Seaside, Oregon, returned home yesterday.

Back From Montana—Mr. and Mrs. John S. Feldhusen and children, Jean and John, are home from a brief motor trip to Bozeman, Montana, and Yellowstone national park.

Return From Park—Mr. and Mrs. L. A. Wrayner and daughters, Misses Helen and Dorothy Warner, and son, Billy, are home from a motor trip to Yellowstone national park.

Here From California—Mrs. Loyal Pater, Uta City, California, accompanied by her niece, Miss June Fowley, who has been visiting relatives at that state, has arrived to

visit her parents, Mr. and Mrs. Frank Gross, Kimberly.

At License Counter—Two marriage licenses were issued at Twin Falls county recorder's office yesterday. Applicants were Paul Bryant of Twin Falls and Viola Noyce of Norfolk, Nebraska; N. N. Thompson and Jessie Hanel, both of Dunh.

On Visit Here—J. M. Bice of Auburn, Washington, Civil War veteran and a former Twin Falls resident with his son and daughter-in-law, Mr. and Mrs. George W. Bice of Caldwell, also former Twin Falls residents, arrived the first of the week for a few days visit here.

On Northwest Trip—Mr. and Mrs. J. H. Dlandford and sons, Leonard and Robert, are leaving tomorrow by way of Kalspell, Montana, for Sandpoint, Idaho, where they will visit relatives. Before returning to Twin Falls they will also visit at Lewiston and Walla Walla.

AAA Payments To Beet Growers Listed

WASHINGTON, July 30 (AP)—Domestic beet sugar growers were reported by the agriculture department today to have received \$2,530,924 in crop adjustment payments under the Jones-Costigan act up to June. The report to the Pacific International exposition at San Diego, La. route alone they will

motor through Yellowstone national park.

Ford Spends Birthday In Mountain Retreat

BIG BAY, Mich., July 30 (AP)—Many scores of congratulatory messages reminded Henry Ford of his seventy-second birthday today, although his Huron mountain club retreat is far from a telephone or telegraph wire. A messenger was kept busy traversing the 15 miles of unimproved road that leads from this upper peninsula village, to Ford's favorite resort, Lake Superior. There he can "rough it" in almost primitive wilderness, or enjoy the luxuries of a most m. 16-room lodge as the mood impels him.

Daily edition entered as second class mail matter, April 8, 1918 at the postoffice at Twin Falls, Idaho, under the act of March 3, 1919.

there'll be no need for forecasts at all. When man gains complete control of climatic conditions it will be time to move to another planet where there will be a little interesting uncertainty.
HOME FOR THE SOLDIER
In a world of rumors of war and preparations for war, it is heartening to read of demobilization in the Chaco. Bolivian troops are going home. Every soldier has his August pay, plus a bonus of twenty bolivianos, a suit of civilian clothing including underwear and shoes, and free transportation to his own home or the end of the railroad system.

By the middle of July more than six thousand had been demobilized, and others are following as rapidly as medical examinations can be given. Army trucks are being used to transport many of them.
It affords a fascinating midsummer day's dream to meditate on the result of early military demobilization wherever soldiers march and drill today. What a load of terror and hatred would be lifted from millions of human hearts if all the soldiers could go home to peaceful and productive occupations! It might not bring world economic recovery at once, but it would free men's minds for more intelligent action on the economic problems of the times.

NO MORE EASY FARDONS
(Saker, Oregon, Democrat-Herald)
If Governor Mackay had no other merit, and he has many, the stand he has taken against abuse of the pardon power would endear him to law-abiding citizens.
The other day he flatly refused to extend executive clemency to a former Portland builder, convicted of complicity in defrauding a financial and loan company. He declined to secure freedom for men of prominence who are in a position to command influence but who are in prison as a result of a conviction after a fair trial. The governor has consistently taken this position as to offenders of high and low degree, insisting that the law take its course unless there is genuine reason for interposing his pardoning power.

The pardon and parole power has been so generally abused in this and other states that it has become a contributing factor to the spread of crime. The Wertheimer kidnapers were but two of a large number of convicts, freed by sentimental officials, to continue their depredations against society.
Oregon is greatly fortunate to have a governor who refuses to be a party to such practices. More power to him.

THE JOBLESS "ON STRIKE"
(New York Times)
Spoken of organized labor in New York City a few days after a strike which under no circumstances are any of our organizations to permit their members to work on relief work at less than the prevailing wage. This is a remarkable decision. Its implications can be better appreciated when we recall the history of relief and examine the probable long-run effects of the present emergency.
In the early part of the depression there was only the meager and sporadic relief provided by private charity and local governments. Since early in the Roosevelt administration relief of a much more adequate nature has been supplied systematically and on a nation-wide scale. The president, in the belief that relief work was a temporary expedient, used last January that work be created which would give the unemployed an amount larger than they already received as a relief dose, but "at the same time not so large as to encourage the rejection of opportunities for private employment."

The last provision was successfully insisted upon by the president as a vital one. Neither straight relief nor work relief on anything like the present scale can continue indefinitely. The huge deficits of nearly \$4,000,000,000 in the fiscal year 1934, and of \$3,500,000,000 in the fiscal year just closed, and the even larger deficit in prospect for the coming year, have been caused almost entirely by the expenditures for work relief. There can be no question that if these continue they will result eventually either in a burden of taxation that must enormously increase the obstacles to a normal recovery, or in a ruinous inflation. But the unemployed cannot be got gradually back to private work unless government work is made less attractive.
The insistence by the union leaders on prevailing wages must in the end prove self-defeating from the standpoint of labor itself. It must certainly shorten the term during which the government can continue to supply work relief, and it may force the abandonment of work relief altogether for a return to the straight dose. There can be no question that an economically high wage scale in some uncolored trades, particularly in the building industries, has tended to perpetuate unemployment in those trades. It must have the same effect, in the end, when applied to relief work. How can the unions strike against relief work if it is created mainly for their benefit in the first place, and can easily be abandoned? Would a return to the straight dose help labor? Would it help to maintain wage standards? When there was no relief at all, wage standards were constantly threatened by the competition of desperate men out of work. When there is a straight dose the competition is less, but still much greater than it would be under a system of work relief which paid more than the straight dose.

BREAKFAST FOOD
Mother—Why, Ruthie, you don't know how bad it makes me feel to see you so cross to your mother.
Ruthie—Well, she's been acting terrible all day and she's been bossing me. Sometimes I wish I belonged to a family that was poor.
Customer—You've got a skin in your nose saying "We don't know how to do it."
Merchant—Yes, that's our motto.
Customer—Well, I only wanted to suggest that you should take a little time off for target practice."
June Wilson—What do they mean by "anti-trust laws"?
Dearest—That's just mean the bills that the grocer makes us pay in cash because we have no credit."
Hotel Clerk—How did your name come to be J. John B. B. B. B.?
Patron—I was considered by a number of my acquaintances.

New York
Day by Day
By O. O. McINTYRE
NEW YORK, July 30.—New York newsmen are not always to be seen in the flimsy or exclusive restaurants. There are, of course, the opulent strikers who fill much space in the social circles of the city.
But almost every celebrity has his private place in one of the more exclusive clubs. They are always in the tony spots.
But almost every celebrity has his private place in one of the more exclusive clubs. They are always in the tony spots.
But almost every celebrity has his private place in one of the more exclusive clubs. They are always in the tony spots.

He was talking to a group of 20 sorrowful writers who had felt the touch of genius long displayed in guiding the increase in the number of men killed in the portrayal of emotion in others, briefly beautiful. Long's advice is to be scattered over the entire range of the business world. He is a Japanese inventor in 1918, which was the first time that the word "midnight" was used. Joe Cook, chief of the U. S. Coast Guard, is a member of the U. S. Coast Guard. He is a member of the U. S. Coast Guard.

It probably would be beneficial for most young families if from the outset they were forced to stand on their own feet and choose their own line of development, without outside interference. If, for example, young couples were obliged to leave their parents' home and make a new start in a strange environment with only each other to depend on for help and advice, the experience probably would consolidate the marriage and give the children a better chance as they came along.

Nellie Revell says it is a small town, when you go to the telephone and ask for Jones' store and the operator replies: "It's look out there, it's look out there."

NATIONAL WHIRLIGIG
(WAS BEHIND THE NEWS)
(WASHINGTON)
By Ray Tucker
"PROBLEM." The Democrats' head men at the start that they could not make poverty a qualification for a relief job.
Mr. Hopkins has already released the House from the "stupid" Board of the project, the organized building trades "would stand for that, especially as many of their members had refused to go on relief rolls. Now many other groups are protesting that they shouldn't be penalized for trying to keep off the dole. The bars will probably be raised with respect to all heavy construction work before long.
Field men inform the Secretary of Interior that they are looking for "reliefers" qualified to perform highly skilled work on bridges, roads, buildings, etc. So the ulterior reason for Mr. Roosevelt's program is that he can't start his \$23,000,000 relief project unless he can get outside-the-project men.

LOST. Perhaps the unhappy "Joe" in Washington is "Joe" Trumby. As Secretary to Woodrow Wilson he would rather than accept a place in the League of Nations. Now he is in the "War" camp and there is only one war for "Joe." The caddy replied that he had fought in the Australian Army. Three brothers were killed in the War. There is only one war for "Joe." The caddy replied that he had fought in the Australian Army. Three brothers were killed in the War. There is only one war for "Joe."
While in this depressed mood he slipped into a conversation with the driver. Bill living in another day, "Joe" asked the caddy if he too had fought in the War. There is only one war for "Joe." The caddy replied that he had fought in the Australian Army. Three brothers were killed in the War. There is only one war for "Joe."
When Mr. Roosevelt took office the United States had only 122 ships of 14 treaty quota. His budget \$200,000,000 to build 70 of those ships—cruisers, aircraft carriers, submarines, destroyers. We can't build that many ships. To build the rest will require about \$300,000,000. It's a lot of money, but it places us in a position to build, either by purchase when and as we wish, or by building when and as we wish.
WAR. What gives our diplomat's hair is Britain's scrapping of ratios combined with her agreement to the General Treaty. It reflects at least one-third as large as her foe at Juland. This two-fold threat of a naval race and possible conflict with Germany has been a great incentive to us as well as a great source of anxiety to our neighbors.
The diplomat's look at it. This war would be a great advantage to us beyond her treaty allotment, and Germany takes full advantage of the situation. It is a great source of anxiety to our neighbors.
The diplomat's look at it. This war would be a great advantage to us beyond her treaty allotment, and Germany takes full advantage of the situation. It is a great source of anxiety to our neighbors.

NOTES. Conference on the AAA bill will be asked to tighten up the restrictions upon processors who try to use for recovery of taxes. Under the new provisions any processor who appoints hereafter must be confirmed by the Senate. Dr. Amy N. Stannard, former chief of the Federal Bureau of Investigation, is to be promoted to Judge T. Webster Wilson late of Virginia, isn't as important as Pat Harrison's. It is a great source of anxiety to our neighbors.

STORAGE. Harold Tokes is a member of the U. S. Coast Guard. He is a member of the U. S. Coast Guard. He is a member of the U. S. Coast Guard.

MAN ASKS DIVORCE AND CUSTODY OF CHILDREN
On grounds of alleged neglect and indifference, Quin Wilson started suit in the district court here today for divorce from the late Mrs. Irene Wilson, who he married at Spokane, January 3, 1914. The court awarded custody of their four children, 9 to 17 years old, who, his complaint recites, were given in charge to Mrs. Wilson's mother, on account of the mother's alleged profligacy. It is a great source of anxiety to our neighbors.

Buhl Junior High
PRINCIPAL ELECTED
Buhl, July 30 (Special to the News)—J. C. Newman, principal of the school at Richford, is elected principal of the Buhl junior high school, at a recent meeting of the Buhl school board of trustees.

HAGERMAN COUPLE
WEDS AT GOODING
GOODING, July 30.—A marriage license was issued Monday by Bert Bowler, county clerk, to Ralph W. Hagerman and Miss Ruth Thompson, of Burley. The ceremony was held at the home of Mrs. Hagerman, Burley, Saturday.

Uthians Visit at Burley
Burley, July 30.—Mrs. M. D. Baker and daughter, Janet, of Oregon, Uth, visited a short time last night at the home of Mrs. C. L. Barclay and family. Mrs. Baker was on her way to Shoshone on the upcoming Springs CCC camp on business.

FARM VALUES RISING
A report from a Kansas bank says that values in the Southwest, as shown by recent sales of farm lands and ranch lands, are twenty per cent higher than last year. They had previously gained twenty per cent in 1933 over the 1932 prices and thirty four per cent last year over the 1933 prices. Thus the three years register a significant gain.

WEATHER CONTROL
When it comes to long-range forecasting, which meteorologists say will be possible one of these times, the layman does a pretty good job himself. During the high temperatures of last summer, everybody said, "Just wait till next winter. We'll be cold enough then to suit anybody."

SCHOOLS ASK PART IN MINE TAX SUIT

72 Idaho Districts Petition for Permission to Intervene

BOISE, July 30 (AP)—Seventy-two Idaho communities, including all high and independent school districts yesterday petitioned the Third district court here to permit their intervention in a suit brought by United Mercury Mines company to declare the 3 per cent state mine tax unconstitutional.

The receipts from the tax go to the state school fund. The suit was started originally by the mining company before Judge C. E. Winstead, who now is on his vacation, which will delay action on disposition of the petition, court attaches said.

The attorney general's office denied the company's charge that the tax is unconstitutional when the action was started, but held that the law was inoperative because it did not include an appropriation for its administration by the state department of law enforcement.

The mining company's attorneys have argued that the act constitutes double taxation. It was passed by the 1933 legislature and sponsors estimated it would produce approximately \$100,000 annually.

BEET GROWERS WIN WAR ON WHITE FLY

Resistant Seed Makes Possible Harvesting of Normal Crop

BLACKFOOT, Idaho, July 30 (AP)—"We have practically eliminated the white fly from the beet fields of Idaho and Utah," said Douglas Scully, general agricultural superintendent of the Utah-Idaho Sugar

Three Dentists Named Members Of State Board

BOISE, July 30 (AP)—Emmitt Post, Idaho commissioner of law enforcement, announced today that he had appointed three dentists to replace three of the present members of the state dental examiners board.

The appointments are Dr. G. W. Burgess of Twin Falls, Dr. R. W. Barlow of Moscow and Dr. G. C. Black of Boise. They will replace Dr. R. C. Peterson of Lewiston, Dr. J. F. Johnston of Twin Falls and Dr. H. C. Dyer of Shelley.

Two members of the five-man board were reappointed. They are Dr. W. F. Olney of Caldwell and Dr. Vaughn D. Lyons of Pocatello. The board is appointed from time to time by the commissioner of law enforcement.

Appointees are chosen from a group of 15 recommendations made by the Idaho State Dental Association. Their terms are not definitely fixed. The board is charged with examining applicants for licenses to practice dentistry in Idaho.

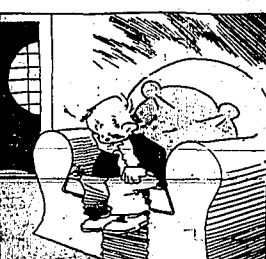

company. In an interview here today in the presence of agricultural superintendents and other leaders in the beet industry assembled from five states where the company operates. The statement was made following the completion of a beet tour and series of demonstrations conducted for showing the wide difference in results from planting U. S. number 1 beet seed under the same conditions with tractors planted with European seed.

Snake river valley will harvest a normal beet crop from the resistant seed despite the fact that insects all through the valley planted to the beet will be partial or complete failures, and while the scientists have been breeding new types of beets they have discovered that they can further improve the sugar content and reduce the salt content to secure better extraction by cooking.

"Planting beets in double rows on ridges forty inches apart will further increase tonnage and with less irrigation. Water supply is sufficient, and where crops are burning, examination of the farm usually shows the ditches are not kept clean. The outlook for beet production is good."

Blackfoot, Idaho, July 30 (AP)—"We have practically eliminated the white fly from the beet fields of Idaho and Utah," said Douglas Scully, general agricultural superintendent of the Utah-Idaho Sugar

JUST KIDS

VAN BORING (He never says a word)

PRISONER'S FIGHT FOR FREEDOM FAILS

California Court Denies Slayer's Attack on Procedure

SAN FRANCISCO, July 30 (AP)—The California state supreme court today wrote a foreboding epilogue to James McFarland's 25-year struggle-for-freedom saga.

In cryptic phrases, the state's highest tribunal ordered quashed a lower court writ which would have opened the steel gates of San Quentin prison for the convicted murderer.

McFarland, arrested in Contra Costa county in 1910 for the slaying of Manuel Garcia at Tassajara, California, was declared insane and placed in a state institution. A few months later he was brought to court and on May 17 pleaded guilty and was sentenced to 30 years' imprisonment at San Quentin.

In his idle moments, McFarland began thumbing through law books. They fascinated him. One day he came across a passage dealing with imprisonment of persons judicially

insane. From that moment on and for nearly a quarter of a century, he spent nearly all his waking hours studying his own case. The law seemed clear enough: A man can't be imprisoned while insane.

Several months ago, the fruit of his labors took the form of a petition for the extraordinary writ of habeas corpus, filed in Contra Costa county superior court. It was his contention that, since he had never been declared sane following his commitment to the hospital after his arrest, he had been unlawfully imprisoned. He demanded immediate freedom.

The middle-aged convict argued that, in fact, for the court noble writ was quashed.

Today came the sad tidings for McFarland. The high court would be setting a dangerous precedent to allow one to gain his freedom in a case of this nature.

The middle-aged convict argued that, in fact, for the court noble writ was quashed.

State Sales Tax Yields \$506,330 In Four Months

BOISE, July 30 (AP)—Receipts from Idaho's 3 per cent retail sales tax law from March 20, 1933, when it became operative, up to tonight totaled \$506,330. L. D. Shellworth, assistant to Ben Diefendorf, Idaho commissioner of finance and administrator of the tax law, announced.

Included a few delinquent and advance payments, Shellworth reported. At the rate of present collections, Commissioner Diefendorf estimated annual revenue of \$1,500,000 from the tax law will be conservative.

SAVES Gasoline in 3 Ways:

- STARTING—Super-Shell can save up to a cupful on every "cold" start. (Even in summer, your engine is relatively "cold" after being idle an hour.)
- SHIFTING—Super-Shell can save up to a cupful in 10 minutes of hard pulling, or on hills. It also avoids wasteful knocking.
- RUNNING—It can save up to a cupful in an hour on the long stretch—thus saving gasoline and saving time as well as on short runs.

Remember, when you save 16 cupfuls you save a whole gallon!

SUPER-SHELL

3,600 neighborly stations in the West

Today's shift—shift—shift is hard on your pocketbook—unless your gasoline has these Three Kinds of Power

mighty important. But to cut driving costs, you've got to have TWO OTHER KINDS of power as well!

FIRST, power for QUICK STARTING... which means you must have a gasoline that ignites quickly!

SECOND, power for SAFETY RUNNING... which means ample heat units!

The engineer's problem is to get ALL of these kinds of power into a gasoline... without "SKIMPING" on any. In short, to get them in perfect BALANCE. Super-Shell is the first TRULY BALANCED gasoline. And so it saves money in 3 ways!

Stop today at one of the 30,000 neighborly Shell stations from Coast to Coast.

READY-MADE WIFE

BY CORALIE STANTON
(Laurel)
(Continued From Last Issue)
SYNOPSIS: To save the career of Rex Moore whom she loves, Laurie has promised to marry her employer, Mark Alberty...

The trick I played on him and on you.
"But—surely, he'd never forgive that I told you Laurie's never stood being made a fool of. But he has said nothing to me."

She had been surprised to find that Rex Moore was there.
The party was over. But he had gone and said he would not be back until late.

This secret will come out, if it isn't mended! I don't suppose you've got anything here for me to mend it!

"Yes, thank. But I don't trouble her much. It's going back to Gretchen tomorrow, Alberty is going to spend several days down there—I suppose you know that."

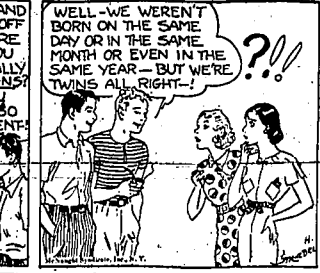

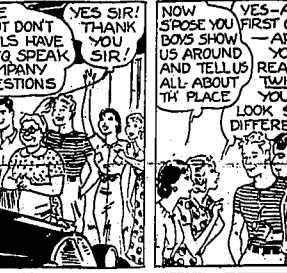

"That remains to be seen. It seems a long time since we met, Laurie," he added abruptly. "More than a fortnight. Have you begun your campaign of dropping hints about our matrimonial disposition?"

"You can ask for all you're worth," he replied. "I assure you that's not the way you'll make your first flight with me."

"Then, some other time," she said, still mechanically. "I'll ring you up. When do you start for the desert?"

"I see. I used to think you would—been in love with me. I expected it—well, so you say, I went mad. Do you mind telling me what he knows about you?"

PLANS PUSHED FOR WIDENING HIGHWAY

Committee to Seek Federal Funds for Road Improvement

Thirty-four representatives of various civic and highway organizations convened last night in Twin Falls to discuss plans for widening and improving the Old Oregon Trail, state highway number 20. Delegates present from Murtaugh, Buhl, Piler, Kimberly, Hansen, Bury and Twin Falls. Hagerman was the only district not represented.

The meeting went on record as demanding that highway 20, from Miles to the junction of the second and highway near Rupert, be widened to a 30-foot roadbed of the same construction as the present thoroughfare.

Stuart H. Taylor, secretary of the Twin Falls highway board, was designated to contact Governor Rogers and federal and state road officials to arrange a meeting at the earliest possible date with the idea of smoothing out any difficulties and obtaining the desired results.

Call on Governor
In another resolution the meeting directed that a committee be formed with one member from each of the several organizations from Bury to Hagerman and that this committee be empowered to promote improvement of highway 20 in all possible ways. This committee will meet with the governor and state officials and present their recommendations.

V. E. Morgan, chairman of the Twin Falls highway board, presided at the meeting. He told of a conference between members of the association and Governor Ross and Joe Stiemmer, state director of highways, at which the state association and county officials agreed to supplement the present one of 50 feet was emphasized. Morgan said it was the belief of Governor Ross and Mr. Stiemmer that if an 80 foot right of way were provided the federal government would supply adequate funds for the construction of a 40 foot paved road. At present the right of way is only 50 feet with 18 feet surfaced. \$2,500,000 will be spent in Idaho for federal highway improvement this year.

Districts Handicapped
The problem of broadening the right-of-way is complicated because of the necessity of removing ditches, fences, trees and other obstructions. It was brought out at the meeting that the total cost of widening the right-of-way to the proposed width was estimated at \$2,500,000. Several delegates stated that their districts could not possibly raise adequate funds for this purpose.

It was suggested that the present right-of-way was ample for a 30 foot road if the latter could be built with drain ditches and covered bridges in place of the present deep and unnecessarily wide borrow pits.

The following men were present at the session: Hy Pickett, Oliver W. Johnson, F. C. Carlson, Murtaugh; F. C. Graves, J. T. Winkle, J. B. Kinney, O. T. Koster, J. D. Bellamy, J. H. Seaver, R. Carpenter, W. B. Hoag, Ben Dill, C. L. DeLong, Robert Ray, C. H. Krenzel, David J. Koenig, V. E. Morgan and Harold R. Harvey. Twin Falls; H. W. Graves, J. G. Winkle and J. E. Winans, Piler; George R. Hart, W. E. Harvey, Harry W. Barry and Harry Wilson, Buhl; E. U. McInliffe, Kimberly; Peter Link, Hansen; Henry O. Dworshak, Otto Paulson, J. B. Mackney, W. A. Shear, J. T. Peterson, E. J. Burns and Lester McKean, Bury.

FIRE PERIL BRINGS WARNING TO OUTERS

Because of the acute fire hazard campers in Stanley basin and Cholla Basin forests are requested by forest service officials to carry shovels and water buckets with them on their trips. These articles are no longer available at Stanley because of heavy sales to travelers at that point.

According to the ranger at Challis guards have been posted on all roads in the district to enforce this request.

Government officials point out that the long period without rain has increased the fire danger to such a stage that campers must use extreme caution when in the woods.

COUNTY LAMB POOL BRINGS \$9,286.26

Seven cars of lambs loaded at Piler, Buhl, Rogerson and Twin Falls and shipped from here to Omaha on July 29 brought the gross sum of \$2,286.26. It was announced yesterday by Harvey S. Hale, county extension agent, that the Twin Falls County Livestock Marketing association, checks are now in the hands of the growers.

Prices received were as follows: \$5 for yearlings, \$2.25 for ewes, \$7.50 for 1,000 lambs and \$4.65 for 783 others.

According to Hale the shrinkage loss is \$3.11 per hundred. The lambs netted \$2.65 on a basis of weight or an average of \$5.80 with a shrinkage of three per cent. The net weight of the lambs was 122.9 clear of all expenses and the ewes \$1.07.

The next shipment will take place in the fall, probably about October 1, Hale declared.

FELONY CHARGED IN SHOOTING OF WIFE

Birch Brown Faces Prosecution for Assault With Intent to Kill

Accused of shooting and severely wounding his former wife, Juanita Murray, 31, at Kimberly, July 25, Birch Brown, 30, a Kimberly ranchman, was yesterday named as defendant in a felony complaint that charged him with assault with intent to murder. The complaint, signed by the girl's father, A. F. Murray, 55, was issued out of the probate court here.

Brown has been held a prisoner in the county jail here since the shooting.

Shot through the body and arm, Miss Murray has made a steady recovery under treatment at the county hospital here.

Brown is alleged to have shot her with a .38 caliber revolver, from which three shots had been fired. The shooting was reported to have occurred following a half hour conversation between Brown and his former wife in a Kimberly store.

Brown is a son of the late O. M. "Gum" Brown, early day sheriff of Blaine, and Miss Murray is a daughter of pioneer Rock Creek residents. They were reared on adjoining ranches and married in 1931.

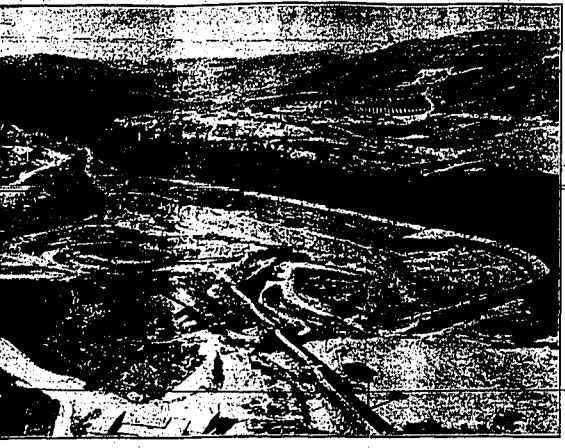

LEGION'S LEADERS TO VISIT IDAHO

National Commander to Attend State Convention at Boise

BOISE, July 30 (AP)—Definite assurances have been received from Frank Belgrand, Jr., San Francisco, national commander of the American Legion, that he will attend the seventh annual convention of the organization in Boise, August 18, 19, 20, and 21, Lester P. Albert, department adjutant, announced today.

Besides the national commander, distinguished visitors, Albert said, will include Mrs. Tea Carlson of Wilmar, Minn., president of the American Legion National Auxiliary; Mrs. Charles Bazson of Kayville, Utah, vice president of the American Legion National Auxiliary; Carl R. Moser, of Portland, Ore., Oregon department adjutant; C. A. DeJongh, Idaho department commander, who will preside; the Rev. Mr. Willie Martin of Los Angeles, former Boise clergyman; and Harold Warner of Portland, Ore., vice com-

Material Is Carried Mile And A Half

Over this system of belts the material being taken from the old river bed of Rattlesnake canyon about a mile and a half away and 500 feet above the bottom of the excavation. This general view of the excavation in southeastern Washington at the dam shows the Mason City contractor's camp in the background. —(AP) Photo.

Actress Accused Of Being Broken Up Home

LOS ANGELES, July 30 (AP)—Mary Boland, stage and screen actress, today was made defendant in a \$150,000 suit filed by Elizabeth Ross Kummer, wife of a nephew of Miss Boland, who charged that the actress broke up her home.

Miss Boland was unavailable for comment, but one of her representatives said the suit was filed, W. T. Gleason, a process server, started hunting for the actress.

The suit accused Miss Boland of interfering in the domestic affairs of the Kummer to such an extent that Kummer left his wife. The actress was charged with being dictatorial and with desiring to be the "ruler of the roost."

As soon as the suit was filed, W. T. Gleason, a process server, started hunting for the actress.

Friends and relatives of Mrs. Caroline Moberg, 82, assembled yesterday afternoon at the White mortuary chapel to pay final tribute to her memory. Dr. W. E. Anderson, pastor of the Christian church, was

An Eight for Thrill— A FORD V-8 FOR THRIFT!

YOU don't have to choose between thrill and thrift in your driving today. The Ford V-8 is famous for both!

You get better command of your horsepower at the wheel of a Ford V-8. It's not so much a matter of speed—as of responsiveness. Not just quietness—but smoothness and quickness. A Ford V-8 engine under your toe puts more fun in your driving, all day long.

On the open road, your Ford V-8 engine is running at ease at your favorite cruising speed. In town, your Ford pulls up, or stops, or turns, or parks—definitely parceling out its 85 horsepower, as much or as little, as quickly or gradually, as you at the wheel may wish. When red lights go green—your Ford V-8 flicks forward smoothly. On the hills, your Ford settles into its pull with never a whimper or snort of strain—and through the scattered highway traffic, you can scamper out and ahead on a split-second's notice.

Yet you get all this, with a Ford V-8, at rock-bottom cost today. This newest Ford V-8 costs less to own than any car Ford ever built before—and thrift has always been a leading factor in Ford history.

Go see this latest Ford V-8 yourself. Take it out on the road for the thrill of an 8-cylinder run. It's a car that's already setting new records for sales the country over. Near you is a Ford dealer who will gladly and quickly show you why. Go see him today.

"My THIRD year of NORGE ROLLATOR REFRIGERATION"

low cost refrigeration. Savings by eliminating food waste. Savings by more economical buying in bargain quantities. The Norge dealer in your neighborhood can show you actual proof that a Norge will pay for itself over and over again.

See the Norge. Compare it with any other refrigerator you ever saw. And remember this one important fact. Norge, only Norge, has the famous Rollator cold-making mechanism.

See the Norge before you buy.

NORGE CORPORATION
Div. of Borg-Warner Corp., Detroit, Mich.

THE ROLLATOR
Smooth, easy, rolling power provides more refrigeration for less.

NORGE ROLLATOR Refrigeration

BETTER THAN NEW

Instead of becoming less efficient with the years, Norge becomes more efficient—by actual factory tests.

That's because of its superior cold-making mechanism. With but three slow-moving parts, the Norge Rollator is powered to make more cold than you'll ever need. It uses so little current that you'll scarcely notice it on your light bills. It is all most everlasting. It is the basis of new economy in the home.

Norge owners report savings up to \$11 a month. Savings by

WHEAT ASSOCIATION TO CHOOSE DIRECTORS

Directors of the Twin Falls County Wheat Production Control association will be elected at eight o'clock this evening. Harvey S. Hale, county agent, stated yesterday.

Two community committees are to be chosen by ballot at each of seven polling places and each district will name one community committee chairman. The latter will be members of the organization's directors.

Voters will cast their ballots at the following polling places: Edmon—Graves hall; Hollaer—Murtaugh high school; Twin Falls—district courtroom; Kimberly—Kimberly high school; Piler—Grange hall; Castleton high school; Buhl—city hall.
