Rupert Attorney Delivers Annual Commencement Address

MURATUGH, May 16.—Judge **Alvin A. Baker** of Rupert, Idaho, presiding over the annual commencement of the Muratugh high school, their parents and friends at the annual commencement exercises Friday evening in Muratugh high school auditorium. The processional, "Triumphal March" was played by the high school orchestra and David G. Moyes pronounced the invocation. Roger Tolman and Darwin Perkins played a clarinet duet, "The Rosary," and the high school sextet sang "Allan's Holiday." The brass quintet played "The Old Refrain" and Lawrence Lee sang "I Shall Not Forget Again This Way."

New Opera 'Find'

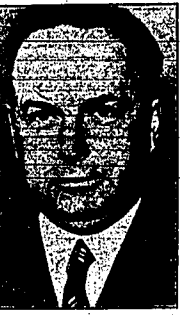

AFTER only two years of study, Elizabeth Brown (above), 21, the thirteenth child of a Mormon high priest, was signed by the Chicago Civic Opera company for the contract role in "La Flamma" this fall. A native of Tremonton, Utah, Miss Brown won a music scholarship at Phoenix, Arizona, two years ago.—(7) Photo.

CLUB GIVES PARTY HONORING MOTHERS

GOODING, May 16.—Mrs. Walter Davlin, hostess for the North Side Community club, on the occasion of the club's Mothers' day party. There were 27 members, 17 children and nine guests present. A program of readings and vocal numbers was given. Those participating included Marian Kilbourne, Gene McCoy, Dale Bunnager, Lawrence Prince, Billy Johnny and Martha Ann Krahn. Juanita Quick, Donna and Jimmy Barker, Clifton Brown, Mrs. F. H. Judevine, Mrs. Earl Renner and Mrs. Krahn. Clever booklets made by Mrs. Judevine and Mrs. Krahn and bouquets of sweet peas were presented to each woman present. The next meeting will be at the Methodist church, May 21, when the group will be guests of the Golden Hour club.

Physicians' Leader

IT was in dramatic fashion that Dr. J. Tate Mason (above) of Seattle became president of the American Medical Association. Although he was in a critical condition at Seattle following a leg amputation, delegates to the association's convention at Kansas City voted to install him in office "if he is alive"—(7) Photo.

Walker Speaks

The baccalaureate sermon was delivered last Sunday evening by Rev. Lefroy Walker of Burley. "The Mystery of the Mastered" Miss Inez Tolman played the processional and invocation was by Dr. E. L. White. Lawrence Lee sang "Aria If With All Your Heart" and the teachers' duet, "Miss Florence Hacking and Miss Inez Tolman sang "The Rosary" and "A Perfect Day." Trio and quartet numbers were given and the choir sang a hymn. Clifford Tolman pronounced the benediction.

SHIPPERS RENEW FIGHT OF FREIGHT SURCHARGE

WASHINGTON, May 16 (AP)—Shipping interests fired a new broadside before the interstate commerce commission today against a proposal by class-1 railroads to continue emergency freight surcharges indefinitely. The railroads estimate that the surcharges, due to expire July 1, provide additional yearly income of \$104,500,000. Briefs in opposition to the extension were filed by the American Newspaper Publishers' association, the National Industrial Traffic League, the Cudahy Packing company and Armour and company of Chicago; certain petroleum refiners of western Pennsylvania and West Virginia; the Pulp and Paper Traffic League; the American Pulp and Paper association, and the Manufacturing Chemists' association.

GO-AS-YOU-PLEASE TRAFFIC

AGAIN RULES IN PEPPING UP (By) Local chauffeurs and ricksha pullers are rejoicing over a general relaxation of the strict traffic regulations which were inaugurated here early in 1932. With the coming of a new but old-fashioned city administration it was decided that the modern regulations were too much for them. Now wealthy officials and humble cokes alike cut happily across corners at busy intersections, and bicyclists career wildly beyond the fading zone marks painted on the pavement for their benefit. So far no increase in accidents has been reported.

It's something about political life that just naturally makes people blow their own horns.
It's the same with actors. They are nearly always saying, frankly or tacitly, 'I'm good! Look how good I am! If you don't appreciate me, it's your fault, not mine.' Artists often give the same impression.

And there's no use getting mad or scornful about it. Such people are to be accepted philosophically. They have the defects of their calling—as we all have.
The Washington audience at the first showing of the Interior Department's film, "The Flood That Broke the Plains," is said to have been greatly impressed—first at the beauty and grandeur of the western-plains—and then at what happened to them from intensive cultivation and careless handling. Says a reviewer:

"Starting with a scene of green, grass-covered prairie, illustrative of what the Great Plains once looked like, the film moves swiftly through the changes from western pioneering days to the present dust storms. Then the skull of the steer, and an unseen commentator says: 'Forty million acres of plains utterly ruined by the plow, two hundred million acres badly damaged. This is America going to do about it?'"

It is clear to thoughtful Americans, by this time, that the "winning of the West" wasn't all the bold pioneers and their admiring friends back East thought at the time. Much of that gain has turned to loss, through lack of knowledge and foresight. Much of the job has to be done over again.

WHAT DOES IT PROFIT? (Helena Independent)
"For what a man profits, if he shall gain the whole world, and lose his soul? Or what shall a man give in exchange for his soul?" Matthew 16:26.
Picture-makers, photographers, artists, butchers, claim first page space in the newspapers of the civilized world for the pictures of the Italian "heroes" in the last few days. We do not have space for them.

But now, for a short time, brave, loud words and big doings in the little Italian towns, and medals and honors presented, making the "victors" seem worth while.
Roman banners, salutes and music will hide the vision of the little hill-towns, set feet long ago, and the towers which stand in an unbelievably hot, bleak and inhospitable land. They'll give glamor to the taking of an African city, and the taking of the town in Africa, and it isn't time to go into the matter of Italian budget balancing-eyes.

SPEAKING OF ELEPHANTS (Burley Bulletin)
New Deal political dealers fondly boast that they are going to cage the O. P. elephant and turn it into a tame animal. The elephant will turn out to be true, some political observers in Washington are of the opinion that the new party will be a bad precedent for the old. The unfortunate part of this from the standpoint of the American taxpayer, is that these pachyderms are all of the bleached color plant which stands in the way of progress. And while elephants have never been regarded as the right sort of animals to have on hand.

RUSSIAN WOMEN OF LEISURE
It is startling to read of a "leisure class" in Russia. This class is composed of the wives of the highest-paid men in the public service. Three thousand of them, whose husbands are industrial directors and technicians, have been holding a convention in Moscow lately, constituting what a correspondent calls a sort of "Soviet Women's Aid Society."
The women, functioning under a government commissar, are working to improve living conditions and cultural life among the women in their husbands' plants. It should be a useful service.

It is clear that Russia today, despite considerable progress, is still far from its professed goal. Stalin admits that Communism has not yet been attained, and not even ordinary Socialism. The present system might be described as State Socialism, with some capitalistic concessions.

TOOTING THEIR OWN HORNS
"Some day," says a paragrapher, "we hope to encounter a candidate who admits he is not the best qualified man on earth for the particular office he seeks."

NATIONAL WHIRLIGIG (NEWS BEHIND THE NEWS)
WASHINGTON
By Ray Tucker
KILLED. What makes the Senate suspicious of the cotton tax bill is the fact that corporations which usually make high-priced lawyers against a revenue measure have been conspicuously silent about this measure.

C. O. P. Keynote: Frederick Steiner, regales clubbers with anecdotes which won't help the bill. He tells how he asked a prominent New York industrialist why he did not oppose the measure. The answer was that, though corporations would not wish the tax, they saw no reason for fighting a bill which would eliminate the threat of competition for a long while.

CENSUS. U. S. Cens. C. R. don't intend to let Secretary Roper put them in a false light with respect to their efforts to solve a national problem. They are passing out word that their only contribution will be an industry to disprove the census. They are not going to resign in any way.

CORRAL—Republican-Old-Congressmen who are in a hurry to get their names on the convention delegates may be rejecting prematurely. There appears to be more than fact-surveying in the Old Congressmen's private assurances that he will not be a delegate.

NOTES. Exports and imports of farm products remain stationary. "Imports" increasing faster than exports. Democrats headquarters plays a waiting game, pending the O. P. P. move. Many important bills are now being introduced, a sure indication that Congress will suddenly break the log-jam and get on with its work.

G. O. P. Republican insiders prophesy that the "big slate" delegation to the new Pennsylvania, Illinois and Ohio will hold the key to the O. P. P. nomination. Pennsylvania leads the list, with Ohio and Illinois following.

TRAINING—Manufacturers' complaints of a shortage of skilled labor are constantly increasing despite the Federation of Labor's contention that no such shortage exists. Many manufacturers are taking the operation of the vast machinery of modern industry, which has new shop equipment that has been installed in many plants.

QUERY. On several occasions New Dealers have made quite a hubbub about "identical propaganda"—a meaning from letters or telegrams sent to a large number of people, duplicated at the instigation of utility or other interests threatened with adverse legislation.

By O. O. McINTYRE
NEW YORK, May 15.—Darcy: Up and a note from Montana. And he's talking a way with Ted Woodard exchanging lops and quiddity. Then by the hills are a-bumping.

Home in the moonlight have missed Kay Brush's dinner bid and also seeing her guests, Irma and Duke Goldstein and the young William Browns. Working furiously until late and then reading the English edition of Dalton Trumbo's "Impulse" was as tedious enough to say I inspired.

Broadway went for palliation in a big way. It was soon being bridged on the air and in cabarets. Gary Cooper brought it out of the mud with a recent production of old New England expression derived from the English word plait-meaning elves, and often resurrected in the "Carnegie" and "Columbia" in a slang way out in Ohio.

Guiding Your Child
By ALICE CLARISA RICHMOND
UMBRELLA DANGER
It was a rainy day and the grade school was just being let out. The little slipper heads in front of the school were covered with what looked like a moving army of bobbing head-stocks. The children were small and unused to umbrellas, and passing motorists for the most part slowed down to avoid running over some of the children who were busy struggling with their unaccustomed shelters to pay attention to the little children on their own umbrellas are really dangerous.

WPA POWER LOAN DECISION REACHED

Supreme Court Expected to Announce Opinion Soon

WASHINGTON, May 16 (AP)—Decision on whether to pass on the constitutionality of WPA loans for publicly owned hydro-electric projects was believed by observers tonight to have been reached by the supreme court.

This opportunity was the most important duty that confronted the justices when they met for their regular conference.

Their decision will not be announced before Monday when they hand down opinions. The rulings at that time may include decisions on constitutionality of the Guffey coal act and the municipal bankruptcy act, two of the deal measures.

Twenty-six cases will be decided on the next three Mondays and the court will adjourn for the summer on June 1.

Guffey Decision Awaited.

Some lawyers thought the long-awaited Guffey decision—involving price-fixing and regulation of wages and hours in the soft coal industry—would be announced Monday. Others believed there might be further delay.

The case has been under consideration longer than any other new deal dispute. It was argued on March 12.

Constitutionality of the 1934 municipal bankruptcy act—intended to help cities, counties and other political subdivisions reduce their indebtedness through federal bankruptcy courts—was challenged by the creditors of the Cameron county, Texas, water improvement district number one.

The law was upheld by the fifth circuit court of appeals.

Validity of PWA loans was questioned by the Duke Power company in contesting a \$2,827,000 government loan and grant to Greenwood county, South Carolina, for a power plant at Burgett. The circuit court of appeals at Charlotte, North Carolina, sustained the government.

Auxiliary Plans Poppy Day Sale

Enrollment of volunteer workers for the American Legion Auxiliary's Poppy day program is going forward rapidly. Mrs. Ralph Reynolds, chairman of the Poppy day committee of Twin Falls unit, announced last evening. The Auxiliary will distribute the memorial flowers to the people of the city on Poppy day, May 23, she stated.

Practically the entire membership of the local unit has volunteered for Poppy-day work. Camp-Five girls as well as the adults will take part in the day's festivities. All women and girls will serve without pay. Mrs. Reynolds emphasized, every penny of the money contributed by those taking flowers goes to the welfare and rehabilitation funds of the American Legion and Auxiliary. The disabled veterans who make the poppies are the only persons receiving pay for their work in the Auxiliary's poppy program.

"The Auxiliary is very grateful to all those volunteering to help us in our poppy effort," said Mrs. Reynolds. "We know that hard, unaccustomed work will be required of them. We hope that the public will recognize their unselfish service and when they appear on the streets, they will respond to their appeal in the same spirit that their service is given."

METHODISTS TAKE MIDDLE POSITION

Declaration Asserts Right to Be Heard on Social, Economic Issues

COLUMBUS, O., May 16 (AP)—A statement of policy termed "The Middle Position of Methodism" received approval of the quadrennial Methodist Episcopal church conference today and the delegates thus took a "middle of the road stand" on social and economic questions.

The statement, adopted with little opposition, was hailed by conference leaders as a long step toward healing a threatened cleavage between liberals and conservatives.

Drafted by a sub-committee headed by Bishop-elect O. Brumley Oxam of Depauw university, the declaration upheld the right of the church to be heard on social and economic questions, but rebuked any attempt to encourage communism or socialism.

"We are unalterably opposed to any method of economic change

that is based upon war or that condones violence..." the statement said. "We repudiate the entire concept of class war. The fact that class consciousness exists is a challenge to remove it, not accentuate it..."

"We declare ourself for democracy. All dictatorships challenge democracy... Dictatorship dignifies itself in opposition. Democracy dignifies itself in cooperation."

"Consequently, believing in both democratic form and the democratic ideal, we propose to resist every form of dictatorship, whether it comes from the left of communism or the right of fascism."

Tarpon fishing offers just about tons in thrills for the fisherman, but when a 700-pound shark leaps into the water to make an unusual but anguished splash, his excitement plus.

A tale of a tarpon-shark-angler was off the coast of Florida is related by Edward J. Geiger of Chicago. It happened a few days ago and the fishermen were George Geiger, Jr. and Captain Goodwin.

"The Geiz boat had dropped anchor less than 10 minutes when a tarpon hit. George, Jr. got the strike. Naturally, there was a fight, for a 145-pound tarpon can make a tough fight. It so happened there were five or six other fishing boats nearby when the fish was caught.

"George, Jr. and Captain Goodwin, who operates the Virago, had spent about 10 minutes trying to bring the fish in when the 30-foot shark made his lunge at the victim. Shark men know when one is in distress and a hooked victim seems to sense when he is about to be attacked. This tarpon started for the water. The fishermen's shouting and the sound of the harpoon and pole drove him away long enough for the Geiger to land the tarpon.

"George Geiger, Jr. was determined against a non-member. Result will be decided by a point system.

Bryan Carter, chairman of the tournament committee, last night announced that there will be no green fee for the tourney.

'Bitsy' Scoffs At Charges of Tennis Politics

By **PAUL MICKELSON** (Associated Press Sports Writer)

PHILADELPHIA, May 16 — The mighty atom of tennis will be "bitsy" today and said it wasn't much use.

Bryan "Bitsy" Grant of Atlanta, regarded by many as a martyr to tennis politics in the selection of active players on America's Davis cup team, said he wasn't that at all. In his heart, he said, he knew well that he couldn't master the grass game like he has that on clay.

"What's the use of kidding ourselves and myself, in particular," asked the day king of clay between puffs after a hard rally with red-headed Don Budge on the Merion cricket-club grass-courts. "No one is going to be angry with me. I'll talk about the tennis association dinking me is a lot of bunk. The other fellows look and are better off grass than I am, especially at this time of the year, so why should I be trusted with the job of winning singles match against Australa?"

"I Can't Do It"

"On clay, you get a dependable bounce; on grass you don't know where that ball is going, especially if the other fellow is a better player. My forte is baseline play. On grass, I can't do it."

Yet, disgraced Bitsy is drilling a hard harder than any player on the team.

He undoubtedly will be named one of the four-players on the squad against Australa. William Allison, Edna Robert Yellow, and John Van Ryan will play singles and doubles against the Aussies.

'LITTLE BAMBINO' - - By Milton Morris

Joe's prize rookie of the 1938 crop. The New York Yankees paid the Frisco Seals of the Pacific Coast league \$75,000 for him, thinking he'd be a constant attraction like Babe Ruth, the Big Bambino.

Wham! The Little Bambino made good his first day in the big time with 3 hits—and around the outfield. He got 3 more in his second game. The next Sunday he hit a homer.

Criles were surprised that 21-year-old Giuseppe could hit all around the outfield. They'd figured him a dead left-field batter but he slipped to right.

Too, Joe pegs 'em in from left field in a way that brings memories of Bob Meusel. He's a natural at getting into a scoring position as he traps a fly ball.

Still handicapped by spring training injuries, Joe runs the bases like a scared jack-rabbit and promises to be a constant worry to the masked men.

NEW YORK—Elden Auker, the lanky lad who had to throw submarine fashion because he couldn't serve 'em up any other way, now is happy over the college football colitions that knocked down both his shoulders and almost wrecked his hurling career before it began.

Kidding in Detroit dugout while the pitched-up Tigers tried to put up a bold front against the Yankees

the other day, Auker told of the misfortune that turned out to be a break, after all.

"Both shoulders were knocked down when I played at Kansas State for Doc McMillin (now the gentleman of Indiana). I cracked one of them in a game against Purdue, but didn't even know it until the game was over."

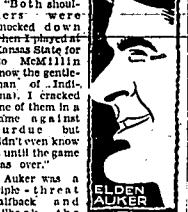

Auker was a triple threat—halfback and tailback, the chief quarterback for McMillin's secondary.

"At first I had to throw underhand because of my shoulders, but now I wouldn't try to pitch any other way."

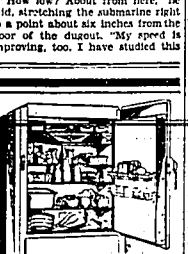

"I am the only pitcher in the league who throws underhand and there is an advantage in having something different to offer. My shoulders are loosened up. They never felt better. And I'm throwing lower than ever."

Daglia's Individual

"How low? About from here," he said, stretching the submarine right to a point about six inches from the floor of the dugout. "My speed is improving, too. I have studied this

Big German Fighter Appears in First Class Physical Trim; Refuses to Reveal Secret Plan of Attack

By **EDDIE BRIEZE** (Associated Press Sports Writer)

HANANOOH, N. Y., May 16 (AP)—The German fighter Max Schmelzing, an end, Max Schmelzing pitched into hard work today for his important 10-round fight with Joe Louis at the Yankee stadium, New York, June 18.

"From now on it will be all work after no play for me," Schmelzing said in his country for the expressed purpose of halting the winning streak of the sensational Detroit Negro and then going on to regain the heavyweight crown from the smiling Irishman, James J. Braddock.

Manager Joe Jacobs and trainer Max Machon have mapped out a rigid training program for Schmelzing.

The big fellow appeared in first class physical trim and what his opening workout was not impressive, both Jacobs and Machon said they were satisfied.

Max stopped two rounds with Heinz Kohlhase, 200-pound German heavyweight, and another pair with 19-pound Andy Wallace of Newark.

"I feel about this fight just as I did when I arrived here," he said after the workout. "I believe Joe Louis can be beaten and that I can do it. I have his weak spot, remember. What is it? But that would be telling."

Three World's Marks Bettered in Annual West Coast Relays

FRESNO, Calif., May 16 (AP)—The world's records were bettered tonight in the annual west coast relays which saw the powerful University of Southern California track and field team tie for the championship with Stanford University. Each scored 64 points in the battle for the team title. Nearly an hour after U. S. C. had been declared the winner, relay officials discovered that through a mix-up they had accepted Stanford's relay team which resulted in the deadlock.

Relay teams recruited from the wealth of talent possessed by Southern California, bettered accepted records in the mile and 400-yard events.

The time for the mile relay was 3:11.5, one full second under the listed time made by Stanford in 1931. Southern California, however, already has applied for a new record-time of 3:12.4 made last year.

Timed in 40.7

In the quarter mile relay, the U. S. C. quartet was timed in 40.0 seconds, bettering the record made by the 1931 Southern California squad by one tenth of a second. The Trojan time for tonight, however, already had been bettered last year by Iowa at 40.8 seconds.

The San Francisco Olympic club accounted for the third world record bettering time in the muley relay, an event in which the 400-yard, 1200-yard and one mile. The time was 10:10, clipping four seconds off the 10:14 record set by the California college at New York in 1932.

JURY HOLDS WOMAN GUILTY OF SLAYING

Mary Hanson to Pay Voluntary Manslaughter Penalty

Convicted of voluntary manslaughter, Mary Turner Hanson, 37-year-old Negro housewife who last April 21 shot and killed Charles Harris, Negro porter and shoeshiner, she had expected to marry, will receive her sentence in the district court here next Monday.

District Judge Adam B. Barclay set the time for pronouncing sentence when the jury returned its verdict at 11:20 o'clock yesterday forenoon, following deliberations since 10 o'clock the night before when it received the case.

Voluntary manslaughter, which is defined as the unlawful killing of a human being in "a sudden anger or heat of passion," is punishable under Idaho law by imprisonment in the state penitentiary for a term not to exceed 10 years.

State Atty. Gen. Malley obtained a verdict of first degree murder, contending that the accused woman had indicated her purpose some days before the shooting to do away with Harris.

Defense evidence was to the effect that Harris was shot accidentally while struggling with Mary Hanson for possession of a revolver she held in her hand when the two went to a garage for a blanket after Harris according to the woman's testimony, had struck her and threatened her with a knife.

Evidence indicated differences between the two growing out of Harris' asserted interest in another woman after accepting money and meals from Mary Turner Hanson for several months.

The convicted woman has been held in the county jail here since she surrendered herself and turned the gun over to officers a few minutes after the shooting.

ROSS HITS CRITICS WITHIN OWN PARTY

Idaho Governor Predicts His Election to U. S. Senate

BOISE, Idaho, May 16 (AP)—Governor C. Ben Ross, criticized by some opposition within his own Democratic party in Idaho, said today he isn't worried and predicted that if he meets Senator William E. Borah in the United States senatorial contest Borah will be the loser.

"Borah," the governor said in an interview, "is a political Coltrane—but 1936 is a Democratic year."

Ross has not announced for the Democratic senatorial nomination but he has left little doubt that he intends to run.

If Borah should win the Republican presidential nomination or if he should decide not to seek reelection to a sixth term as senator from Idaho, at least two Republicans—state senator Ralph E. Whitten and Ray McKaig, deputy national grange master—have announced they will seek the nomination in the August primary. Others "have been mentioned."

Leaders Don't Count

Of his opposition within the party, Ross asserted it isn't the political leaders who "count," adding: "It's the folks in denim and calico that hold the keys to political doom or fortune. At least it's that way in Idaho."

In this connection, the governor admitted he was thinking of developments last week at the Democratic state delegate convention in Lewiston. Ramsay Walker of Coeur d'Alene, who has bitterly criticized Ross, was elected Idaho national committeeman. Walker was backed by such prominent party men as W. Orr Chapman, Twin Falls and Robert Rider of Coeur d'Alene, former state national committeeman.

Rolls on Primary

"Such opposition in a convention is effective," the governor commented, "because you have only to account for 118 votes. But when it comes to a primary or general election—in which a candidate has an opportunity to appeal directly to the people—such opposition is not effective."

"That is why I am for a direct primary law, such as we now have. When—not if—I am elected to the United States Senate, I shall continue to use my influence toward preservation of the direct primary law."

Ross asserted he took no part in the Lewiston meeting and added: "I'm glad it came out the way it did. If the opposition had been denied there would have been bitterness—this way everybody's happy. And what's one national committeeman—more or less?"

Tomorrow Is Circus Day In Twin Falls

IDAHO RANKS HIGH IN ELECTRIFICATION

85 Per Cent of Twin Falls County Farms Get Service

According to figures compiled by federal government sources, Idaho has secured with electricity is nearly six times the national average. This summary, compiled in Washington last week, shows that in the United States as a whole 11.6 per cent of the farms have electric service. In the territory served by Idaho Power company, according to R. W. Carpenter, division manager, 85 per cent of the farms are electrified. The average for the entire state of Idaho is 33 per cent, while in Twin Falls county 45 per cent of the total number of farms are receiving electric service.

"Southern Idaho's lead in rural electrification is due in large measure to the ready acceptance of electric service by the farmers," said Mr. Carpenter. "As more farm customers are added to our lines and as customers increase their use of electricity, the cost of furnishing electric service drops and this cost is passed back to the customer in the form of lower rates. Since 1927 electric rates have been reduced 30 times."

—and winning fame as the smoothest EIGHT in the world

The 1936 De Luxe Eight 4-Door Sedan, \$819.

For thrills, thrift and smartness — no EIGHT on earth like the new Pontiac

EXPERTS call Pontiac the smoothest eight in the world. And here's why: Pontiac's extra-heavy, short-stroke crankshaft is buttressed by overlapping bearings. The harmonic balancer, introduced by Pontiac, works miracles. And all moving parts are balanced with incredible precision. The result is something new in eight-cylinder history — an engine with no vibration point at any speed!

That's genuine fine-car engineering and it's matched by everything else in the car. You can't get better brakes than Pontiac's big hydraulics. The solid steel "Turret-Top" bodies are the safest money can buy. And this big eight has delivered, under official supervision, 22 miles per gallon. Look around before you buy your eight. Get all the facts. You'll come back to Pontiac convinced that it's the best buy of them all!

Happiness Ahead
---And It's All The Result of Proper Planning---

What makes happiness, anyway? Not temporary periods of joy. Not momentary exhilaration... but contentment that continues, and grows. Families experience it, often. Sometimes, it comes from little things. A backyard garden. New dishes. Working together to enjoy a new radio, a new car, new furniture. Planning together, the hope that they're going to have some day. Finding pleasure in the school record that son is making, the trip that mother has just finished.

And what does such planning involve? The regard for each other that must characterize a successful group, of course. The pleasure of cooperation—joy in the knowledge that all are working toward a common end. Achievement, individually and as a group. Security and increased welfare for everyone. The things that Twin Falls families, and Twin Falls itself has, and is going to continue to enjoy.

IDAHO'S DOCTORS SCHEDULE STUDIES

Five-Day Graduate School Announced by Association Head

Dr. Charles T. Scott of Twin Falls, president of the Idaho State Medical Association announced last evening six members of the University of California medical school faculty will conduct a five-day graduate school for doctors in Boise August 31 to September 4.

The dates are the same as those for the association's convention which is expected, Dr. Scott said, to bring 300 physicians to Boise.

"The only way a doctor can render latest scientific services is by constant study and by frequent conferences with his brother practitioners and with those men who are researchers and teachers," Dr. Scott observed.

"Because of the isolation and the burden of going great distances to medical centers—problems common to Idaho doctors—the Idaho Medical Association has attempted to provide graduate schools annually in Idaho," he explained.

The six California faculty members who will conduct the school here are Dr. Langley Porter, Dean of the college; Dr. G. Lattimer Callender; Dr. George K. Rhodes; Dr. Gordon E. Hein; Dr. Chauncey D. Leake and Dr. Howard E. Ruggles.

SMITH-HILES WEDDING CEREMONY AT GOODING

GOODING, May 16 — Winnifred Louise Hiles, daughter of Mr. and Mrs. D. A. Hiles, became the bride of William Arthur Smith, son of Mr. and Mrs. Earl Smith, Sunday morning at 8:30 o'clock. The ceremony was performed at the home of the bride's parents, which was profusely decorated with a large variety of spring blooms.

The bride was attired in a white organza gown and wore a corsage of lilies of the valley and violets. Miss Janie Willis, bridesmaid, wore a tea-rose lace gown and carried pink tulips. Don Smith, brother of the groom, was best man.

Mrs. Howard Foster played the wedding march. The ceremony was witnessed by the immediate families of the principals and a few close friends. Rev. A. E. Bessley conducted the ceremony.

Following the wedding the young couple left for a short wedding trip by auto, expecting to return by May 20 to make their home here.

FAIR BOARD NAMED IN CASSIA COUNTY

BURLEY, May 16 — Cassia county commissioners here have appointed J. P. Hackney, S. H. Kunaui, W. F. Palmer, A. J. Hanks, all of Burley, Saul Clark, Oakley, and Wilford Sagers, Declo, as members of the 1938 Cassia county fair board.

It was requested that a meeting of the board be held on Monday, May 16, at 8 p. m., in the commissioners' office in the court house to complete the organization plans and to name a chairman, and secretary, treasurer, and clerks, to any other matters pertaining to plans for the fair.

The commissioners met Wednesday afternoon with commissioners from Minidoka county for a discussion of the new WPA wood project. Telegrams were sent by the commissioners here to Governor C. Ben Ross, Senator Pope and Congressman Clark protesting the change made here by transferring women in the WPA canning kitchen and sewing rooms to the social security setup for dependent children. The board feels that the amounts these women will receive will be inadequate to support themselves and children even with the one-third contributed by the county.

ing address with response by Miss Nutting. Pioneer school band, directed by Thomas Utison, was the feature of the opening of the program followed by the pledge to the flag by the entire assembly.

The program, instituted a few years ago under the Idaho chorus club, exemplified the growth of the music work through the grade schools.

Only Stewart-Warner Has SAV-A-STEP... The Surprise Feature That Makes Back Shelf Front Space!

New invention gives 30% more front-shelf room for food, makes work easier, saves current

HERE'S THE invention every woman has wanted in refrigeration! A brand new idea—**SAV-A-STEP**—that gives you the maximum use of every inch of space—takes everything for a whole meal to the kitchen table at one trip—saves the current wasted by repeated opening of the refrigerator—and actually gives 30% more front shelf space than other refrigerators of the same size give you!

This feature alone would make Stewart-Warner the best buy in refrigeration. Yet it's only one of a dozen big features in this beautiful box, **SLID-A-TRAY, TILT-A-SHELF**, and many others—you'll be delighted with every one. For they at last give complete refrigerator convenience—permits you to arrange things to suit your own personal ideas—and let you do your kitchen work with half the effort.

We've another surprise for you, too, in our new easy payment plan—the simplest, easiest plan we've ever offered, with surprisingly modest monthly payments spread out to suit your convenience. Let us explain when you stop to look at the new Stewart-Warner, today or tomorrow, sure!

SEE HOW THE STEWART-WARNER GETS YOU AS MUCH GET-AT-ABLE SPACE AS REFRIGERATORS COSTING \$30-\$50 MORE!

SAV-A-STEP lifts off its hinges and over the back of the refrigerator door. If you prefer it there—automatically making rear shelf space as accessible as front space.

SLID-A-TRAY slides out or back as a dish—holds almost a shelf full of food at once on slip-proof, non-scratch, gold plating—free your hands for other things.

RUNS LESS COSTS LESS Let Us Prove It!

GOVERNOR BRAYMAN OF TERRITORIAL DAYS PAYS VISIT TO GREAT SHOSHONE FALLS

A perennial of Idaho history is that part of it pertaining to territorial days...

Although the territory was strongly democratic and during that twenty-year period...

Some time after his return to his home town...

He was the brains and voice of the Bear Lake county...

Neil was a man of diminutive size and it was claimed by many who knew him...

It was along in the last days of the last legislature...

But I started out to tell you about Governor Brayman...

headless, and when he looked the outfit over he expressed himself to the effect...

I unlaced the stirrup straps, and he advised shortening and shortening the straps...

All the cowboys who were in camp were attracted to the scene...

"Beat Him Some More" He flew out into more open fields...

The governor raised the bottle and as he raised the bottle...

THE LEGEND OF RED FIRE LAKE—THE CLOUDS Indian Mary was a full-blooded Indian woman...

Long ago, when my mother was a little girl...

The beautiful one had as a playmate an Indian boy...

Encounter With Rattles I remember I was afraid of snakes...

work, a feather plucked up and handed to her by playmates...

After many days of fasting and offering fervent supplications to the deity...

This transformation had not revealed itself to these children of nature until one morning...

He was an Indian without a name; he had never contributed to his own support...

"The governor raised the bottle and as he raised the bottle...

for the buffalo hunt; no horse had ever equaled him...

Great preparations were being made for the coming feast...

"He told the curious Indians that he had come from afar...

The time had come to approach the father of his sweet heart...

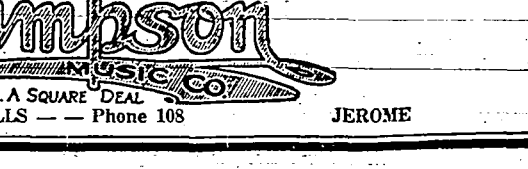

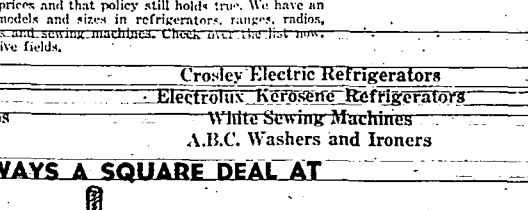

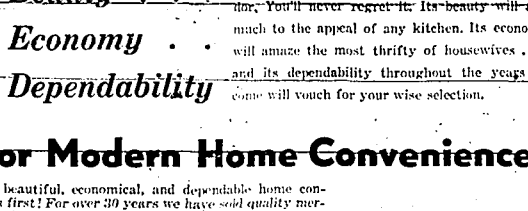

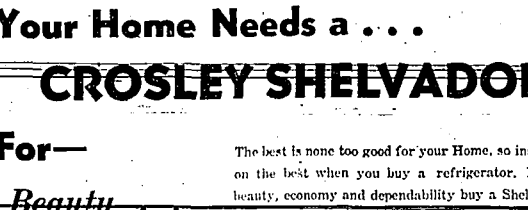

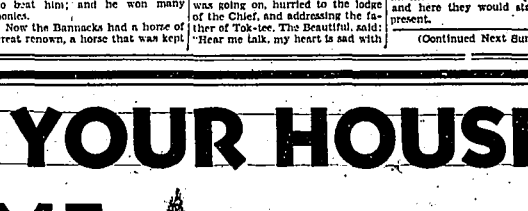

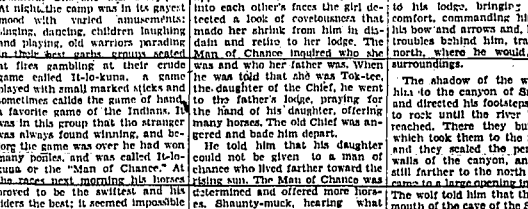

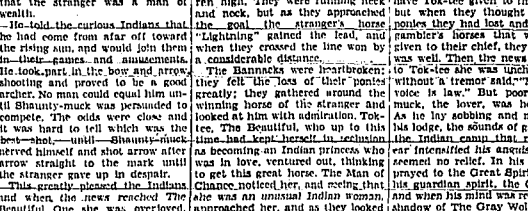

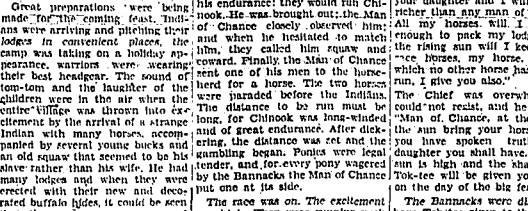

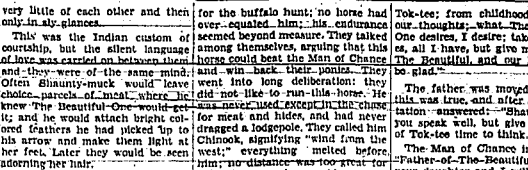

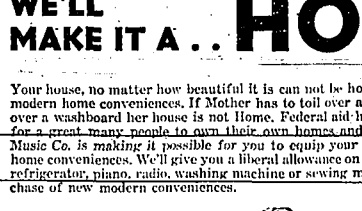

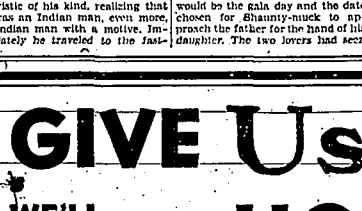

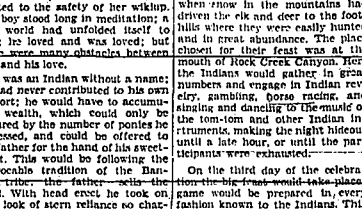

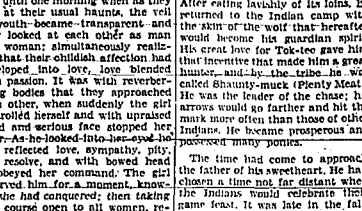

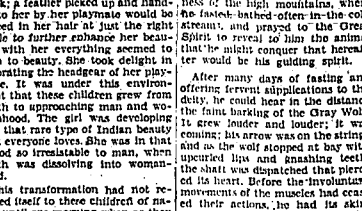

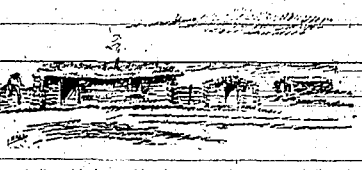

Now the Bannacks had a horse of great renown, a horse that was keen...

For me, from childhood we knew our thoughts...

The father was moved, he knew this was true...

The Man of Chance interrupted: "Father-of-the-Beautiful-give me your daughter...

The Bannacks were displeased to have Tok-tee given to the stranger...

Parties Line Up Women Campaigners In Organized Fight For Feminine Vote

With women becoming an increasingly important factor in politics, this campaign year will see both parties battling for the feminine vote with women speakers. These girls are playing prominent roles in the fight for the feminine vote.

WASHINGTON (AP)—Now is the time for all good women to come to the aid of their party. Major political camps, with an eye to the feminine vote, are giving serious attention to the choice of women campaigners.

Do they have good voices? Do they know the facts? Can they speak extemporaneously? Can they keep their tempers in the face of heckling? Are they witty? Which of them hold positions in non-political groups into which they can take campaign talk?

Many are passing the 1934 and training for platform service. Won Vote 16 Years Ago Women's political importance has been steadily increasing since they won the right to vote 16 years ago. Busting like a county for county battles for the women's vote began to acquire a routine pattern in 1920 and reached a marked degree of efficiency in 1922.

This year the fight for the women's vote will reach a high because the four years coming to a close have seen no double-campaign let-down. Both Democrats and Republicans have kept up a constant battle for memberships in their women's clubs. Both sides already have women campaigners in the field who are armed with facts and figures for women-are-asking increasingly pertinent questions.

The Dewson "Reporter Plan" When the campaign gets into full swing the voters will hear from both ingenuous and stars among the women, of course. But the largest crowds are expected to collect for the seasoned trouper.

Among the Democrats the seasoned ones include Mary W. "Molly" Dewson, who devised the "reporter plan" for her party which has enrolled 150,000 women in clubs. She has been on the road in the west since the first of the year.

Among the Republicans, Mrs. E. E. "Dolly" Gann will, no doubt, be one of the biggest drawing cards. She is the sister of the late Vice President Curtis in whose behalf she gained her campaigning experience—she spoke in 22 states in 1922.

Another Republican light is Alice Roosevelt Longworth, daughter of a President and widow of a speaker. Two of the busiest women behind the scenes already are Mrs. James H. Wolfe, Democrat, and Mrs. Robert Lincoln Hoyt, Republican, both from the west. They are directors of the women's divisions in their parties. As such they are in charge of organizing and supplying speakers to all interested women's clubs.

New Jersey's Norton The Republicans have a second President's relative on their panel of feminine stars in Mrs. Constance Grant, granddaughter of President Grant. She has wide influence among national defense groups where she already is making frequent speeches for the Republican ticket.

There is a second group of workers in the campaign who limit their speaking to sections of the country. Outstanding among them is Representative Mary C. Norton of New Jersey, who has garnered many "firsts" in women's political advancement. She will have her own election campaign to handle, but she also will swing into nearby states to hold votes for her party.

She has a Republican counterpart in Mrs. George W. Rogers, president of the Republican Women's Federation of Michigan. Mrs. Rogers has such an efficient organizing record behind her that she has been detailed to the Republican's Chicago office to handle organization of women voters throughout the middle west.

STERILIZATION DANZIG (AP)—Sterilization laws have been applied with considerable severity since the Nazis became dominant here.

It was disclosed at a recent volkstag committee meeting that of 618 ordered sterilizations, 505 had been carried out. It is pointed out that this is a high proportion for a territory like Danzig Free State, of only 407,000 inhabitants.

HE HAD THE CIGARETTES JUST LACKED A LIGHT DALLAS, Tex. (AP)—Police here a 15-year-old burglar holds the record for criminal nonchalance. Arrested after he smashed a store window, the boy said he did it to obtain a match to light a cigarette. "Where are your cigarettes?" he was asked. "Right here," he replied, exhibiting five cartons he had pilfered.

GRAIN VALUES ADVANCE FROM EARLIER SETBACK OF CENT A BUSHEL

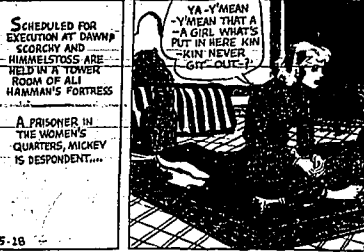

By JOHN P. BOUGHAN (Associated Press Market Editor) CHICAGO, May 16 (AP)—Notwithstanding that deliveries on May contracts here are expected next week, wheat gradually developed strength late today, and recovered from a cent a bushel setback.

Acting as a late stimulus was confirmation in the last at least one instance of a cent premium over the May price had been paid to mills outside of Chicago for wheat shipped here from Kansas.

Wheat was associated more or less with a drop in quotations at Liverpool and why center was the showers in North Dakota and Montana, where temperatures of nearly 100 degrees yesterday had been felt.

What in Chicago closed irregular, 1/2 cent higher, and the price of wheat was unchanged to 47 cents down.

Planned and prepared for months ago. The Idaho Department Store has always attempted to be considered headquarters for students when it came to clothes. Students have used this store for over twenty-five years. That's one reason why graduation day is such an important day to us. We number the friends that we have made in the High School among some of our most loyal customers of long years' standing.
