New Federal Relief Program to Provide Jobs for 3,000,000

Hopkins Announces Plans For Expenditure Of New \$1,450,000,000 Fund Under Decentralized WPA

WASHINGTON, June 22 — Putting much of the responsibility for administering the new WPA program in the hands of state administrators, Harry L. Hopkins today directed them to select relief workers from the unemployed on roller or those certified as "in need of relief."

Quotas fixing the number of workers and the amounts to be spent in each state will be fixed shortly, officials said, making the WPA budget provide an average of 2,300,000 jobs during the 12 months.

This program, contrasting with the peak of 3,038,973 WPA workers at the end of last February, will provide a few thousand not now employed by WPA to obtain jobs, officials said.

Greater flexibility in selection, however, will be possible to provide for some needy who under the present rules have difficulty in obtaining relief.

Under the decentralized WPA, state and local administrators not only will select workers but will decide how many hours a month they must work and which of the \$4,000,000 worth of projects are approved but not begun, will be carried out.

Although the new appropriation bill does not require that a person must select work, it does require that a WPA job, officials said Hopkins would confine workers to those now employed by WPA.

A total of 700,000 jobs in addition to those provided by WPA will be created by other federal agencies financed with separate appropriations.

Under the new program, state and local administrators will be given more authority to select workers and to decide how many hours a month they must work and which of the \$4,000,000 worth of projects are approved but not begun, will be carried out.

FRANCE AUGMENTS ARMED FORCES ON GERMAN FRONTIER

Paris Government Orders 30,000 Soldiers to Border to Reinforce 110,000 Troops Already There

PARIS, June 22 — The French government ordered heavy troop reinforcements sent to the German frontier, sources close to the ministry of war said tonight.

More than 30,000 soldiers, it was authoritatively estimated, will be moved up to the north and east borders following a decision by Edouard Dauterle, minister of national defense, to reinforce the 110,000 troops already there.

The move includes the creation of new divisions of north African troops and the strengthening of other divisions with extra regiments and battalions.

Britain Withholds Assent LONDON, June 22 (AP)—Britain's Anthony Eden, speaking Thursday for Geneva, told the house of commons that he would neither propose nor assent to resolution of Italy's annexation of Ethiopia.

Members of parliament also heard from the busy young foreign secretary.

1. That a shipment of arms consigned from the Sudan to western Ethiopia had been treated for lack of constituted authority in that region, where Galla tribesmen were believed to have recognized no sovereignty.

2. The British government is without offer to grant loans for credits to Italy, and does not intend to seek that position.

3. The British position on loans to Italy will be stated in due course.

SAILORS ROIST RED FLAGS OVER SHIPS IN FRENCH HARBOR

Strikers Forcibly Prevent Officers From Obeying Vessel Owners' Instructions to Remove Banners

PARIS, June 22 — Red flags flew over ships in Marseilles harbor today when sailors struck. Rightists clashed with police and leftists here for the third successive day.

Sailors aboard French ships in Marseilles signalled the walkout by running up the red banners when they forcibly prevented officers from obeying owners' instructions to remove the flags.

The walkout affected 50 ships. Several hundred passengers who were ready to sail on three liners for Mediterranean ports, were annoyed that the sailors refused to move their baggage.

The passengers suffered further discomfort because of a hotel strike which left only two establishments open.

Sailors struck, occupying the ships, when the crews asked them to lower the red flags and to remove the banners which left only two establishments open.

Officers Leave Ships Most officers left the ships when their orders to lower the red flags were disobeyed, warning the sailors they assumed "grave responsibilities."

The ship owners' association telegraphed a protest to the government against the occupation of the ships "under the sign of the red flag."

The ministry of interior announced there are still 204,000 workers on strike throughout France. Before noon, settlements were effected nearly 1,000,000 were out.

Delegates At Philadelphia Set To Cheer, Unanimously Nominate Roosevelt, Garner

Farley Leads Chorus Of Fighting Words Hurlled At Al Smith Because Of Attack On New Deal Chief

PHILADELPHIA, June 22 — Paying little open heed to rumors of thunder on the far right and left, Democratic delegates tonight moved serenely and fearlessly toward the formal opening of their national convention tomorrow.

Beneath the harmony-tinted surface of a gathering set to cheer and unanimously renominate Roosevelt and Garner, fighting words were hurled at Al Smith because of his "out-Roosevelt" statement last night.

But actual convention disturbance appeared likely to be minor indeed.

In fact, barring the apparent improbability of Smith taking his seat as delegate, only two major convention question marks remained visible. One stood behind an abolition of the two-thirds rule, another hung over the heightening discussion about the Roosevelt platform.

Some thought the president's platform proposals might contain a "two-thirds" clause.

WILSON IN RACE FOR GOVERNORSHIP

Twin Falls Attorney Announces Candidacy for Nomination

Asher B. Wilson, Twin Falls attorney, and member of the state board of education, announced here last evening his candidacy for the Democratic nomination for governor, declaring at the same time that "the term of governor should be for four years without right of succession."

Mr. Wilson was a candidate for the gubernatorial nomination on the Democratic ticket two years ago. In connection with his announcement this evening Mr. Wilson gave out the following statement:

In announcing my candidacy for nomination as governor on the Democratic ticket in the coming primary, I make the following statement:

I favor economy in the administration of all state departments. All property must bear its just share of taxes, burdensome taxes must be eliminated insofar as it is possible to do so.

Three-Dollar License I favor the reduction of license fees for private automobiles and farm trucks to \$3 per year. Taxation on this particular property at the present rate is unjust. To illustrate, a \$400 automobile driven 10,000 miles a year and using 600 gallons of gasoline pays to the state \$40 in gas tax, which in addition to...

GLASS WITHDRAWS FROM NEW DEAL PLATFORM GROUP

Virginia Senator, Vigorous Foe of Roosevelt Monetary Policies, Declines to Serve on Committee

PHILADELPHIA, June 22 — New Deal platform difficulties were apparently reduced tonight with an announcement by Senator Glass of Virginia, a vigorous opponent of Roosevelt monetary policies, that he would not serve on the national convention's resolution committee.

His statement, made upon reaching Philadelphia, found platform conferees away from the arrival of Senator Wagner of New York with a platform draft worked out in consultation with President Roosevelt.

A number of every Democratic platform committee since 1896, the program for the Democratic national convention is expected to continue in the same capacity.

TOWNSMENITES TO PICK CANDIDATES

Endorsement Confined to Senator and Representatives

BOISE, June 22 (AP)—Dr. Francis E. Townsend's high command, in Idaho-backed, leaders declare, by 200,000 of the state's 220,000 votes will meet tomorrow night to select congressional and senatorial candidates and insure the appearance of their names on the November election ballot.

"We intend to take no formal action in respect to candidates for any other public office," E. O. Davis, Idaho manager of Townsend old-age pension movement, declared tonight.

"But to make certain that the names of our best candidates for congress will appear on the November ballot, despite the outcome of the primaries, we are calling a non-partisan convention to be held here August 11.

"At that time, under provisions of the Idaho law as it relates to called minor parties, these three men will be formally nominated so that their names will be printed on the November ballot, voters choose from these three in the August 11 Democratic and Republican primaries, in which they will run as their personal political dictate."

Three committees have been at work for some time. Each of the 153 Idaho Townsend clubs were asked to send their recommendation for first, second and third congressional and United States senator to headquarters.

The recommendations are in, and each man recommended has answered a questionnaire as to his beliefs and stand relative to the Townsend movement.

From these questionnaires our committee will select three candidates we believe will be best qualified to represent the cause in the congress of the United States," Davis said.

"We expect to complete our task by next Wednesday noon.

"We have 60,000 signed members," Davis declared, "and they can contact an additional 400 votes outside our organization."

The chairman of the first district eight-man committee is E. F. Stannard of Lewiston, district two organizer; the chairman of the second district eight-man committee is W. C. Carnes of Pocatello, district organizer; and Davis is chairman of the state committee. Three committees will meet jointly to select their candidates.

CANDIDATE LEMKE FACES OBSTACLES

Difficulties Threaten to Keep Name Off Ballot In Several States

NEW YORK, June 22 (AP)—The Townsend plan and share-the-wealth leaders smoldered today upon the insupportable presidential candidacy of Representative William Lemke — although withholding formal endorsement — while the candidate himself faced difficulties threatening to keep his name off the ballot in several states.

The New Herald at St. Smith of the share-the-wealth forces announced he, Dr. P. E. Townsend and a representative of Father Charles E. Coughlin would meet with Lemke tomorrow or Wednesday in Washington.

Smith said that Lemke has accepted an invitation to speak at the grave of Huey Long in Baton Rouge, La., to a gathering of Townsden and Coughlin followers.

This speech, for a date not yet set, is to follow a mass meeting in New Orleans to which Smith said it would be necessary to call 50,000 people. Father Coughlin also will be invited.

Ready to Back Lemke

Dr. Townsend already has announced he personally would back Lemke if the candidate accepted without reservation the Townsend old age pensions program.

Father Coughlin has made his endorsement without qualification.

Obstacles to Lemke's filing in several states was seen by officials at Washington after examining laws setting time limits on a party's entrance into an election. A "write-in" campaign might be necessary, they said.

Meanwhile, Colonel Frank Knox, Republican vice presidential nominee, said the Union party would make "serious inroads in territory upon which the new leaders had receded heavily."

IDAHO POWER COMPANY'S

1935 TAXES WERE \$920,000.00

Taxes take 22c of every dollar you pay for Electric Service

YET, OUR RATES ARE AMONG THE LOWEST

This is tax-payment time, and no other electric company in the United States pays out in taxes as large a percentage of the money it takes in as the Idaho Power Company. In 1935, out of every dollar we received from our customers for electric service, about 22c was paid out in taxes. In many of the communities we serve, we are the largest single taxpayer. Our 1935 tax bill amounted to \$920,000.00.

This huge sum of money went to maintain useful and necessary public services such as the schools, fire and police protection, to build roads, to maintain parks, and to support city, county, state and federal governments.

In terms of tax-cost per customer this amount of \$920,000.00 means that for every customer on our lines we paid 22¢ in taxes.

Yet, in spite of the fact that we are the highest taxed electric utility in the United States, our customers enjoy electric rates among the lowest in the nation. The reduction in rates made on April 6th of this year was the 20th reduction since 1927.
