

TWIN FALLS DAILY NEWS

Pennsylvania Senate Maps Relief Program Under Crowd's Threat

State Troopers Guard Doors Against Jeering Throng of Unemployed As Leaders Reach Compromise

(By The Associated Press)

HARRISBURG, Pa., July 13 (AP)—Republican and Democratic leaders in the senate, agreed in separate caucuses tonight to compromise on an appropriation of \$45,000,000 for unemployment relief, while hundreds of unemployed men and women stormed the state house.

Senate leaders said several "new tax bills" would be reported by the finance committee for action, in addition to revenue proposals now pending.

There also was discussion of a bill to transfer \$3,000,000 from special funds for emergency relief in July. The administration has opposed further transfer from special funds.

Storm Senate Doors

While Pennsylvania's legislature struggled to break its deadlock over unemployment relief tonight, hundreds of unemployed men and women stormed the doors of the senate, jeered and booed from the galleries and the streets.

"We'll take the capitol over if you don't do something soon," Mayor Lynn G. Adams' superintendent-of-the-sale-police, had picked details of troopers kept, other jeering hundreds from the new senate building.

Several senators, upholding Governor East's estimates, demanded that the state should grant relief; Republicans refused to grant more than \$35,000,000.

Shed Demands

Previously, the unemployed shouted their demands for "100,000,000 relief" in a mass meeting in front of the capitol.

John J. G. Adams, head of the Workers Alliance of Luzerne county, said, "This is not going to be done until we see adequate relief. We will march in fresh delegations every day."

Many carried banners on which was crudely printed "Join the Unemployed League."

STRIKERS RETURN TO WORK AFTER \$2,000,000 LOSS

First of 5,500 Steel Company Employees Trudge Back to Jobs; Violence Marks Costly Walkout

(By The Associated Press)

PORTSMOUTH, O., July 13 (AP)—Three hundred workers, the first of 5,500, trudge back to their jobs at the Wheeling Steel corporation plant today, ending a strike that resulted in violence and one slaying and left this industrial community counting its material loss at \$2,000,000.

The strike, called May 22, cost the 5,500 employees \$1,000,000 in wages, based on normal monthly payroll of \$300,000, and business men estimated their indirect losses at more than half a million dollars.

Advocate Suspension

WASHINGTON, July 13 (AP)—The American Federation of Labor executive committee members said tonight they believed suspension from the federation was the only way to handle tactics of the rebellious union led by John L. Lewis.

Both William Hutchison, president of the carpenters, and Daniel J. Tobin, president of the teamsters, expressed such an opinion in talks with reporters.

William Green and other council members were known to feel the Lewis suspension was a matter of principle, however, a majority said they were not committed to suspension.

Assails Lewis Group

Green assailed the Lewis group for failing to appear before the council to answer charges before promoting "dual unionism" in setting up a committee to foster organization of all the workers in each industry into one big union.

Angered at Lewis' announced plan to disregard craft lines in steel, automobile and rubber organization campaigns, the council several nights ago directed the steel, automobile and rubber organization workers and seven affiliated unions to send representatives to the current meeting to explain their action.

Several of the unions, including mine workers, ignored this summons.

Meanwhile, George M. Harrison, president of the railway carmen, continued his drive to delay action looking toward suspension in the hope that the council would reach a compromise with Lewis that would avert a split in the federation.

COAL COMMISSION SEES JOBS FOR TEEB MEN

WASHINGTON, July 13 (AP)—Do-termined effort to find work for thousands of soft coal miners renounced jobs by mechanization of mines was pledged today by officials of the national bituminous coal commission.

Scores New Deal

George M. Peek, first AAA administrator, asserting that he definitely will not support present farm and foreign policies.

"I see no sense in curtailing production and bringing in food."

(By The Associated Press)

TOPEKA, Kas., July 13 (AP)—George M. Peek, after a three-hour conference with Governor Alf M. Landon on farm, foreign trade and currency stabilization policies today, told newsmen it was "too early" to say whether he would support the Republican presidential candidate.

"Will you support President Roosevelt?" was the next question asked the former new dealer last before he was crained for Washington.

"I support our present farm and foreign policies," Peek replied, "I see no sense in curtailing production and bringing in food."

It was the first meeting between Landon and Peek, first administrator of the AAA and later foreign trade administrator under Roosevelt.

Peek withdrew from the Roosevelt administration after a clash with the president over the tariff policies. His engagement with Landon, Peek said, was arranged by the Republican national committee.

Submitted Memoranda

Asked whether he had written a portion of the Republican platform, Peek said he submitted memoranda on agriculture, foreign trade and currency stabilization to both the Democratic and Republican national conventions.

"Neither platform followed my own ideas," Peek said.

"The Republican platform follows most of my suggestions on farm and foreign trade policies," he said.

He said he told Landon that while at the head of the two export-import banks, the United States has an opportunity to sell 1,000,000 bales of cotton to Germany. Reporters asked the reason.

Peek replied, "I think it was because the administration feared the transaction would interfere with Secretary Hays' program for general reduction of the tariff and because of the Jewish influence on the administration. The administration hasn't been particularly sympathetic with the Jews."

Peek's memorandum on currency favored delay in international stabilization for domestic transactions.

Favors Full Protection

His farm proposals called for full protection of the American market for the domestic product, and American price for American cotton.

Rains Start Cool Weather Over Drought Burned Area Toward Heat Stricken East

Meteorologists Predict 'Certain Break' In Plague Over 1,700 Deaths

(By The Associated Press)

CHICAGO, July 13 (AP)—Rain-fall in the northwest sector of the drought land started cooler weather on a new march across the sun-baked plain states tonight as renewed onslaughts of heat to the east continued to break records and piled up the death toll.

Good rains struck sectors of the drought parched Dakotas and western Minnesota, lowering temperatures and bringing an expected eastward movement of the cool front.

Fatality in the eleven days of oppressive heat exceeded 1,700. Michigan, tormented by the worst heat plague this year, reported 200 deaths, with no relief in sight for tomorrow. For a 14-hour period in Detroit the victims died at the rate of one each 15 minutes.

Breaks Heat Wave

In an address at Colorado Springs, Colo., Secretary of Agriculture Henry A. Wallace said the drought was "a matter for national concern" and thousands of farmers will need all help he can give regardless of the weather in days to come.

The central office of the weather bureau reported cooler weather was moving westward from the Pacific seaboard and the northwest.

Masses of cool air were breaking a path through a virtual wall of hot air which had piled up over the farm belt, and showers were expected by Wednesday morning in the west and northern sections of the central north states.

The showers in the Dakotas and western Minnesota, "piled" from light to heavy.

"Some relief" was expected tonight in Michigan.

Industry Convinced

"The heat, which combined with drought to produce a virtual wall of hot air, has been broken by a mass of a third of a billion gallons of water from the Pacific coast," also General Motors corporation announced managers in its 65 plants had been authorized to counter with repairs to scattered plants in regard to stopping work until the heat ends.

High temperatures were more than 100 degrees in several areas, many more than for the past several days. Chicago's gift from Lake Michigan.

Nugget Uncovered Near Idaho Town Weighs Out 408

KELLOGG, Idaho, July 13 (AP)—Digging out 408 lb. nugget, weighing here today by Jim Clark, pioneer Murray placer miner.

Clark was preparing to leave the site of the nugget, a shallow drift of a cavelin.

"I was cleaning out the dirt," he said, "when I saw the nugget on my shovel. I washed it in the pan and could hardly believe my eyes."

Shaped like a potato, it weighed one-pound six ounces. A small piece of quartz adhered to the nugget. Clark recovered 418 small nuggets from the pocket.

Shed Demands

Previously, the unemployed shouted their demands for "100,000,000 relief" in a mass meeting in front of the capitol.

John J. G. Adams, head of the Workers Alliance of Luzerne county, said, "This is not going to be done until we see adequate relief. We will march in fresh delegations every day."

1000 PERSONS PAY TO HEAR ZIONCHECK

'My Record Is Open to Anyone,' Tells Congressman

SEATTLE, July 13 (AP)—Martin A. Zioncheck, Washington's publicized congressman, told his constituents tonight he "had a feeling he was on exhibit," but that he was "inhibit No. 1, if you please."

Before more than 1,000 persons, all of whom paid to hear him speak, Zioncheck quietly told his audience he was glad to come back to his home town on his feet "instead of in a cage or padded cell."

"The worst thing of my whole experience in the nation's capital was the letters received from my friends saying they hoped I would feel better soon."

"What bothered me more than anything else was that I was unable to represent my district," he said, "referring to his stay in a Maryland sanitarium."

"Things are pretty bad as they can trump up a charge against a person and lock him up for 30 days," he asserted.

No Apologies

Zioncheck said he did not come back to explain or apologize for anything he had done in Washington, D. C.

"My record is open to anyone. I am not trying to go into the charges they held against me back here. My enemies wouldn't believe it."

ARRESTS NEAR IN MUTILATION CASE

Witness in Vice Probe Recovers After Murder Attempt

WASHINGTON, July 13 (AP)—Police searched the underworld of New York and Washington tonight hoping to find the man who was in connection with the mutilation of Jean Bell, 23, who testified before a New York grand jury on vice charges last October.

Detective Chief Bernard W. Thompson of the Washington police thrashed the man who was in connection with the mutilation of Jean Bell, 23, who testified before a New York grand jury on vice charges last October.

Police said the girl was fully recovered today.

According to chief said he would question her, her brothers Ray and Roy Bell, and Milton Rickard Reeves, her escort at a night club.

Farm Secretary Sees Plentiful Food Supply

'There Is No Likelihood Now Of National Shortage,' Wallace Declares

(By The Associated Press)

COLORADO SPRINGS, Colo., July 13 (AP)—Henry A. Wallace, secretary of agriculture, lashed out tonight at "alarmists and propagandists" who, he charged, "have tried for their own purposes to scare the consumer about food scarcity."

Reciting steps the government contemplates to aid drought-harassed farmers, particularly in the middlewest, the secretary, in a radio address said purchases of livestock for meat will be handled "so neither consumers nor growers are penalized."

"There is no likelihood now of any shortage of a national food shortage," he said.

Wallace said he had suggested in 1934 that the government buy up surplus crops in 1934. There is an ample supply of vegetables and other food.

High prices recently "even if the corn crop in the middlewest should be cut severely the effect would not be felt in the country. In time it would be translated into higher prices for pork, but on the whole there is no cause for substantial increase in food prices now."

"The persons who are using the drought as an excuse to increase their profits are taking advantage of human suffering."

Wallace said the drought situation the secretary, who is vacationing in the Pikes Peak region, said, "It is a matter for national concern for thousands of farmers need all the help we can give regardless of the weather in days to come."

The government, Wallace said, was prepared to take care of the crop "1934—and it is prepared this year."

The secretary pointed out that congress appropriated for the drought relief fund in 1934 but that such an appropriation is not available this year.

The growing interest in drought relief funds available, he said, "and the president wants everything done that can be done to help the farmers."

EVYSON SMASHES 48-HOUR RECORD

Striking Over Salt Flats, British Driver Passes Old Mark

BOONEVILLE, SALT FLATS, Utah, July 13 (AP)—A British driver, with a long string of records already broken, smashed the 48-hour record of four French drivers—with hours to spare—tonight as he sped across the salt flats in his "Speed of the Winds."

Although the record run will not be completed until 7:20 a. m., when the 48-hour check will be made, the steel-tired driver already had passed the mileage mark established by Frenchmen, Fernand Dhomme and Girod in their 48-hour test.

Passes Mark

The Frenchman made a total of 5,257.22 miles in the two day run. Evyston passed the 5,000-mile mark at 11:00 a. m. at that point, officially averaged 142.61 miles per hour, compared with the old record of 139.29.

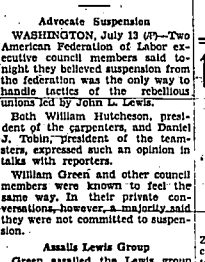

The gray-haired Englishman, confident but nervous, was unable to sleep during the 48 hours. He paced the flats while a countryman, Bert Denly, was at the wheel of the 32-cylinder speed-moored racer.

"With the two-ton speaker performing perfectly," Evyston and Denly tumbled records with regularity.

Principal marks to fall were: 24 hours—401.52 miles an hour; old record, 110.49; held by four Frenchmen. 3,000 miles—142.054; old record, 140.75; held by Evyston. 2,000 miles—140.024; old record, 142.70; held by Evyston. 1,000 miles—152.138; old record, 144.93; held by John Cobb, London.

SLAYER DIES IN GHASTLY FASHION

Apache Killer Gunned for 33 Minutes Before Pronounced Dead

SAN CARLOS, Ariz., July 13 (AP)—Earl Gardner, feared Apache slayer, died at dawn today on a gallows hanged in a way that has become almost a tradition at the base of Coolidge dam.

For 33 agonizing minutes Gardner died at the end of the noose before he was abandoned to death as he hoisted—"like an Apache."

Walls Five Hours

His iron nerve never faltered, not even during the five hours he was kept sitting in an automobile, 25 yards from the gallows, as a crusher that had been converted into a gallows.

He walked to the scaffold with a stony stoic quality while Henry C. Smith, chief deputy marshal, read the lengthy death warrant by which Gardner had been sentenced to death as a last statement.

"I'm glad to get it over with."

A hired executioner pulled the lever.

DROUGHT DUSTINGS

FRANKFORT, Ky., July 3 (AP)—Unsettling dust, "blowing" fifty per cent of the people of Franklin county will starve to death this summer, County Judge L. Stone Hamman today told George H. Goodman, Kentucky relief administrator, in arguing in his 10-foot-away-red.

"Cattle and hogs which the farmers had hoped to live on during the winter are being sold because there is nothing to feed them," he said.

MOOSE JAW, Sask., July 13 (AP)—Old, blustering southern Saskatchewan the past week, is the "mother" of at least one chicken born in the kitchen window of the farm home of Mr. and Mrs. E. Dumont, near here. Without the aid of a hen, the heat hatched several eggs in a tin can. Only one chick survived.

TORONTO, July 13 (AP)—Extra grave diggers were called tonight to bury Canada's best victims.

The mounting toll was estimated at 450 persons while a forecast of "somewhat cooler" weather tomorrow brought hope that the day heat wave would be dissipated.

Funeral directors in Toronto were using hearses brought in from outside the city to conduct burials.

BROOKFIELD, Mo., July 13 (AP)—Many thermometers burst here today as the heat without the pressure registered from 110 to 112 degrees in the shade.

In the sun on Main street 131 degrees was recorded.

SALTA, Argentina, July 13 (AP)—How much of the United States sweltered in a heat wave, the Andes mountain passes along the frontier of northern Argentina and Chile were blocked with snow six feet deep today, as the result of a prolonged blizzard.

Alaska's 'Lady Musher' Helps Rescue Explorer

JUNEAU, Alaska, July 13 (AP)—Chance arrival of a motorboat fishing party led Mary Joyce, Alaska's attractive "lady musher," helped save Father Bernard Hubbard's expedition.

Father Hubbard's specially built light-weight steel boat and much of its valuable equipment was lost in the accident, when caught in fast-moving ice floes were swirling down the rapids and their position on the rock exposed.

Father Hubbard said. Chisholm volunteered to try to swim the rapids. Taking off a heavy coat and shirt, he received the priest's blessing, plunged in and was "washed away" by the rapids.

"He went under twice, but chilled and numb, made ashore and ran ashore," Father Hubbard said.

His shouts aroused Nicholas Cavare, cameraman, and John Finn, his assistant, and they returned with ropes and axes. With night coming on, two hours later, Miss Joyce's boat appeared.

The expedition will establish two more base camps, one on the Taku ice cap and a third at the Devil's Claw. Ascents of the Devil's Claw peaks are planned.

SOARING COST OF LIVING PREDICTED

CINCINNATI, July 13 (AP)—Dr. S. H. Huebner, dean of the Wharton school of finance, Philadelphia, told insurance men here today that "terrific rise" in the cost of living is on the way.

"According to many things," he said, "but I am certain of that."

The growing interest in drought relief funds available, he said, "and the president wants everything done that can be done to help the farmers."

Camels add zest to eating — they set you right. No wonder smokers say: For Digestion's Sake... Smoke Camels!
M.EALTIME often finds us in a state of ruf and tension. The excitement and nervousness slow down the flow of digestive fluids. Remember, then, to pause for a Camel. When you smoke Camels at mealtimes the flow of digestive fluids helped back to normal. Alimentary is increased. You experience the well-being that follows a meal well digested. Camels are gentle on your throat and they never get on your nerves. Enjoy them often for their cheery "lik" ... for the unqualified taste for their cheery talk. Camels set your right.

Largest Completed WPA Project-Dedicated

THIS is New York's Triborough bridge, the largest completed WPA project in the East, which links the boroughs of Queens, Manhattan and Bronx. The span, built at a cost of \$64,000,000, was dedicated by President Roosevelt. (P) Photo.

PLANNING CHAIRMAN SUPPORTS PROJECT

Simons, Asks Idahoans to Lend Aid to Bruneau Development

BOISE, July 13 (AP)—Will Simons, chairman of the Idaho state planning board, called on Idahoans to lend their aid to development of the so-called Bruneau project in Elmore and Cregar counties.

The Twin Falls extension company, which recently filed articles of incorporation, will undertake the reclamation of 670,000 acres of arid land in the project, officials said. It is capitalized for \$1,000,000.

As chairman of the state planning board, Simons said he is sure that this proposed immense development project to the attention of our people in order that they may lend whatever aid we may to this vast undertaking, and to leave no stone unturned in aiding and assisting, in as far as we may, those who have confidence in our land and water to carry on to completion a project of such schools, banks, hotels and stores, we can see the resultant wealth that will spur the growth of this state to such an extent as it is hard to realize, Simons said.

Seattle Greeted Shriners With Blaze of Color

SEATTLE, July 13 (AP)—Seattle streets became lanes of light and banners and colored lights tonight as thousands of Shriners and their families joined in preliminary festivities to the organization's annual convention.

An open-air opera shared interest with the Shriners' grand escort parade and formal opening ceremonies.

Snipers Kill Miner At Work In Garden

BIRMINGHAM, Ala., July 13 (AP)—Hidden snipers killed a Negro non-union miner today as a climax to a brief period of terror in Alabama's strike-torn iron hills.

How do I Oil-Plate my engine? You do it while you drive. It is no work at all, and costs nothing extra. Oil-Plating comes from the sure union that will take place between all working parts of your engine and Conoco Germ Processed Oil—patented. This is the first oil ever especially alloyed so that it does not merely flow on, but plates on! Therefore it does not flow off, letting precious metals scrape and scorch. Instead it keeps them Oil-Plated. And that keeps up the power and oil level, though the thermometer and your speedometer may go up this summer... High time to Oil-Plate your engine with CONOCO GERM-PROCESSED OIL

NORGE Norge sets the pace! Darrington, Declo, incumbent, and Loren Lewis, Burley, both Republicans. Second district—W. Matthews, Oakley, Republican, incumbent, and M. T. Woodhouse, Oakley, Democrat. Third district—Wesley B. Ward, Almo, Republican; A. D. Pierce, Malta, Democrat, incumbent.

HANSEN

Birthday Party—Mrs. Harvey Fornwall and Mrs. Raymond Brown entertained a number of little friends in honor of their children, Shirley Fornwall and Johnny Brown on their fourth birthday Saturday afternoon. Lola, Helen and Russell Edward Durk, Mrs. Ed Durk, Kenneth and Armasjon Elvins, Stanley Browne, Burdell Browne, Betty and Virginia Ann Prior, Thelma Edwards and Mr. and Mrs. Raymond Seger, were guests. Games were played during the afternoon on the lawn at the Fornwall home.

Beginning tomorrow at the Orpheum theater Jack Oakie and Sally Eilers appear in "Florida Special" with Kent Taylor, Frances Drake and J. Farrell McDonald. In this story of romance and intrigue, a heterogeneous lot of characters are thrown together on a speeding train, bound for the south, and the adventures they experience are alternately comic and hair-raising. Jack Oakie, as a star reporter, and Sally Eilers, as a train hostess, give an excellent account for themselves in their exciting roles. The program is completed with a Charlie Chan comedy, color traveltalk and Paramount News.

Showing for the last time today Robert Taylor and Loretta Young appear in their new romantic picture "Private Number."

Visits at Hansens—Lewellen Appleton City, Missouri, spent Sunday visiting at the home of George Watal.

Attend Camp—League members leaving Monday morning to attend the Camp Stearns Institute include Helen and L. G. York, Laura Belle and Gaylord Lattin, Marjorie Washburn, Edith and Rosa Trunkey, Geneva Hollfield, Leola Hall, Richard Motherhead, Paul Vigus and Dorothea Wafel. Mrs. Harvey Fornwall and Mrs. Emma Baily will be camp mothers. Mrs. Fornwall's children, Shirley and Dorothy, are also attending.

Guests Leave—Sixteen Boy Scouts, Bruce Walker, Wilbur Goller, Miles Gilhepie, Lorne Baily, Clifford and Clifton Nielsen, Kenneth McFarland, Lee Skarnagen, Gerald Deah, Marvin Washburn, Edward Elvins, Junior Hughes, Robert Fornwall, junior assistant scoutmaster, and Jack Goodale, assistant scoutmaster, left Monday morning for a week's camp at the Boy Scout camp above Easley.

One Of Twin Girls Drowned At Cascade

EMMETT, Idaho, July 13 (AP)—Dorothy Dillon, 15, twin daughter of Mr. and Mrs. Robert Dillon of Emmett, drowned in a ditch near Cascade, Idaho, Saturday afternoon while swimming.

The body was recovered but attempts at resuscitation failed. Her twin sister, two other sisters and a number, besides the parents, survive.

STATE DISTRIBUTES NEW \$147,023 LIQUOR DIVIDEND
BOISE, July 13 (AP)—The Idaho state liquor commission ordered a \$147,023 1935 second quarter dividend distributed today.

It is distributed to the state general fund, the public school income fund, counties and cities.

STATE CALLS FOR BIDS ON NORTH-SOUTH HIGHWAY
BOISE, July 13 (AP)—The Idaho department of public works called today for bids to be opened July 31 on 12 miles of the north and south highway from the Boundary county line south.

BRAIN FEVER REPORTED AMONG IDAHO HORSES
BOISE, July 13 (AP)—Dr. T. W. White, director of the state bureau of animal industry, warned farmers today to take steps to prevent an epidemic of brain fever among horses.

A new vaccine, "which was used effectively last year," White said, "is the best known preventative measure."

Cases of the disease have been reported recently from Ada, Adams, Canyon and Payette counties.

WEED CONTROL WORK STARTS AT GOODING

GOODING, July 13—Weed control work in Gooding county is progressing with about 40 WPA laborers using gas and spray poison on weed patches. Farmers are cooperating due to the shortage of WPA labor.

The project was outlined for 100 men and its continuation next year will be necessary before the county weeds are downed, according to A. A. Meacham, project superintendent. Federal and county money to the extent of \$55,000 is available for the work.

Relative D. Worth Clark and county commissioners will accompany Superintendent Meacham and County Agent C. A. Mink on a tour of the county July 31 to conduct a thorough inspection of results and probable extent of future control work.

... and then came

Cheap Electricity

ONLY too well do our mothers remember the many weary hours they spent—rubbing, rubbing, rubbing—over their old-fashioned wash tubs. Not very many years ago "washday" meant trying aches and pains that came just as the sun rose, with every washday. "Blue Monday" had a bitter meaning!

Now, thanks to CHEAP ELECTRICITY, the old rub-a-dub-dub days are gone forever. The modern homemaker just tosses dirty clothes into an electric washer, touches a switch and a few pennies worth of CHEAP ELECTRICITY does the entire family washing—quickly, easily—changing toil into a pleasant task.

CHEAP ELECTRICITY plays a big part in keeping modern homemakers from growing old before their time. Idaho Power Company's electric rates—among the lowest in America—bring new freedom to your home.

BLUE LAKES WATER SUPPLY PRESENTED

Seattle Concern—Submits \$650,000 Proposal to City Council

Raymond J. Huff of Seattle, vice president and secretary of the Puget Sound Bridge and Dredging company, appeared before Twin Falls city council last evening and presented proposal to provide Twin Falls with a new water supply, to be taken from Blue lakes spring in Snake river canyon, three miles north of the city.

Most of the system outlined in his proposal would be \$650,000 in cost of the city complete. Huff said, but also would have to provide right-of-way and easements on ground occupied by tunnels and pipe lines.

No action was taken pending further investigation by the council and preparation of a preliminary proposal by the Seattle company.

Mayor Comments
Mayor Duane M. Johnson, following the meeting last night said: "The proposal presented this evening appears to be rather incomplete and is presented to a taxing unit for consideration. However, we will be glad to consider any proposal Mr. Huff or other party might make in regard to providing Twin Falls with an adequate water supply at a low cost to the city."

Huff was accompanied by W. C. Moore, consulting engineer for the company, and together they outlined the plan in detail for the council.

The proposed system has a capacity of eight million gallons per day. It is designed to be safe and free from contamination with reservoir delivery temperature of approximately 58 degrees Fahrenheit. The plan is to take water from the spring, above upper Blue lake, carrying it through a steel pipe to a pumping unit on the south side of the canyon—where a new pumping unit would be installed.

Water Pumps
The pumps, two of which would operate at the same time, would be driven by water wheels, water to be taken by tunnel from Rock creek, where it would be constructed near Twin Falls county hospital. The pumps would carry the water over the rim of the canyon to the five million gallon storage reservoir, to be located near the present site of the city fill plant, two miles south of Twin Falls.

Huff presented affidavit from Homer "Bacon" Twin Falls, concerning the water, and assured the council of adequate supply, both for drinking water and for irrigation. He said that he had contracted with E. B. Perrine for 30 second feet of water for 25 years, and that he had filed on water from Rock creek for the pumping.

Huff's proposal provided for neither a cover for the reservoir nor for filtering and chlorination of the water, which was deemed necessary by the council.

Referred to Taylor
Twin Falls city council requested that the city vacate Mill street in order that the company be allowed to lay the water lines on the adjoining property. The matter was referred to Street Commissioner W. E. Taylor.

Commissioner from the Idaho Survey and Rating bureau urging that Twin Falls fire chief attend at least one firemen's convention or school this summer, was read and bond of \$1000 for J. G. Prescott, in lieu of bond of city garage, was approved.

Police Chief Howard Gillette applied for the purchase of a new fire truck and requested advice on whether or not to permit delivery trucks to double park while making deliveries. The council decided to leave the matter to the discretion of the officers and Gillette said that such parking will be permitted except in cases where back door deliveries are possible.

Six building permits, totaling expenditure of \$250 were granted.

Willie Willis

BY ROBERT QUINN

"Education won't learn you anything," Pug's brother was a realer guy when he went to college and now he's gone slay over some old girl."

from Davenport, Iowa, where he visited relatives for the past two weeks.
