

### Aviators Get Huns in Six Minutes

Bert Ford, L. N. B. Correspondent. WITH THE AMERICAN ARMY IN FRANCE, April 17.—It took two American aviators just six minutes to capture two German airmen on Sunday, and tomorrow the Americans will be decorated for their exploit.

The Americans who thus distinguished themselves are First Lieutenant Allan S. Winslow, of 2523 Hampton Court, Chicago, and Lieutenant Douglas Campbell, a Harvard graduate, whose base is at Mount Hamilton, Calif.

The Germans were captured after two dramatic duels and today they told the correspondent of the International News Service how they did it.

Winslow, who is 22 years old, and a Yale man, is as handsome as a fiction hero. While at school he edited the college paper and distinguished himself as an aviator. He is a blonde and stands six feet two inches.

Campbell and I were playing cards when the "Alert" signal sounded," he said.

"Two Roches were headed our way and we went up in pursuit. They were captured six minutes after they had crossed our lines. The most satisfactory feature was that we caught them at the aerodrome. It was the first time it had happened. My man opened fire at me from below while we were looking for position. As he looped I dropped, getting a better range and drove him to the ground. It was all over in a jiffy.—I got out of my machine and asked the chap if he wanted a cigarette. He apparently did for he took it. I thought Doug might need one so I started again, but he brought down his opponent with the German machine in flames a minute later. The actual battle took about half an hour and five minutes. Then we left the field with our prisoners. My man was of Polish birth and 24 years old. He said he had been a pilot for two years. In perfect French he exclaimed:

"The war is over for me. It all happened so quickly it was a bit confused. I had no time to think.

"The French people were enthusiastic over the affair. A French woman who kept a little store insisted on treating the Americans. She did it, too, but mistook the German prisoner in the crowd and shot at him, averting a worse injury than what he received. He was burned some, but managed to unhook the strap that held him in his seat.

"Both enemy machines were of the Albatross type. My prisoner was 20 years and was armed so much that he had to go to the hospital. His machine man was pretty much burned too. It was thrilling afterwards to think of the danger. It took us about a day to realize that we had gone through the affair without a scratch."

Campbell's story follows: "The German machines were up about 200 yards when we closed in. I began to pump bullets from my machine gun as soon as we got in range. We feathered around and finally I winged one. His machine was crippled and it fell in flames. The German—evidently a pilot—was hurled, averting a worse injury than what he received. He was burned some, but managed to unhook the strap that held him in his seat.

"Both enemy machines were of the Albatross type. My prisoner was 20 years and was armed so much that he had to go to the hospital. His machine man was pretty much burned too. It was thrilling afterwards to think of the danger. It took us about a day to realize that we had gone through the affair without a scratch."

### Chicago Boy Got British Praise

Went Over Top With Two British Officers Who Were Killed and Received Commendation.

CHICAGO, April 17.—How a young Chicago boy in his first time "over the top" won orders of commendation from the British government was told today in a letter from France.

First Lieutenant Royal F. Munger went over the top at midnight with two British officers who were killed almost instantly. Munger then carried their bodies back to the British lines one at a time, under a heavy fire from the Germans.

He was the youngest applicant at the second officers training camp at Fort Sheridan.

### RAILROAD COMMISSION REPORT IS QUINCHED

WASHINGTON, April 17.—The report of the railroad wage commission has been completed and is ready for Director General Mead's inspection upon his return from the west coast campaign. It was turned at the railroad administration today. No intention is given as to the recommendations contained in the report. But it is known that its recommendations cover a series of disputes that were pending when the commission took over the railroad. Reports that the commission would recommend an increase of \$200,000,000 in wages have never been confirmed, but it is believed the recommendations will carry increases that will meet the expectations of the men.

### LEWIS JOIN ON WRESTER

WRESTLER BELIEVES SHAKESPEARE WAS, April 17.—Ted Lewis' reputation as a heavyweight champion of the world is suffering considerably today, following his battle last night with Egan in the Boston blegger. But for the fact that Egan and Lewis entered the ring about 10 minutes after the preliminary weight Egan might be champion. Egan was given four of the rounds, four were even and Lewis the other two. Lewis stalled and clinched considerably, following some formidable blows from Egan's right and left. Once in the clinch Egan's right caught Ted on the chin and had him smother.

### CLAIMANTS' COMMISSIONS CUT FOR SOLDIERS' HEIRS

WASHINGTON, April 17.—The house this afternoon reduced the rate to five per cent on claims. Claimants may collect from the beneficiaries of American fighting men killed in the service under the war risk insurance act.

### ARTESIEN CITY NEWS

Mrs. Lavina Zeever, mother of Mrs. C. H. Dean, who has been ill for the past half year, died April 13 at 11 P. M. She was born in Republic, Ohio, May 15, 1852, being 66 years, 10 months and 28 days old. She was married and a mother during the Civil war, and did farm work along with her husband and anything else that was needed that she could do. She drove a freight wagon for a while before the railroads were built near her home, and in fact during the war and right after took the place of both a man in the field and a mother in the home. She lived in Chicago, Ill., with her daughter until four and a half years ago, when she came here to live with Mr. and Mrs. Dean. For that year or more she was always happy and contented and was the most optimistic person under the circumstances that any one would wish to meet. She will be greatly missed by the people of this vicinity, and all join in sending comfort to her bereaved family.

Mrs. John Day has been ill with the grip for the past week, but is much better now.

Mr. and Mrs. Orson Strong and family of Twin Falls, visited with their daughter, Mrs. I. B. Randall over Sunday.

Mrs. J. Griffiths expects to leave soon for Montana to visit her sister. Mrs. Emma Griffith of Owenduff, is here visiting at the Stark home.

Mr. Aronson has been in Hansford for the past week, visiting with Mrs. DeWinger.

Frank Terrill was a Twin Falls visitor Sunday.

School election was held Monday, April 15, some school business was

### REGARDLESS OF THE WAR ROADS TO BE IMPROVED

SPRINGFIELD, ILL., April 18.—Federal highways in Illinois will be improved during 1918 despite the war. Assurance of this is contained in governmental approval of the work. Secretary of Agriculture Houston has sent word that Secretary of the Treasury Mead has agreed to plans for the construction of roads outlined by the state highway department along the Illinois highway, Lincoln highway, Chicago-Joliet route and the Peoria-Spartan line. About the year \$1,000,000 will be spent from federal, state and county sources on the project.

### BIG PURCHASE OF LAND BY NAVY DEPARTMENT

WASHINGTON, April 17.—Purchase by the secretary of the navy for \$1,000,000 of 1000 acres of land, half in the state of Maryland and half in Virginia, was authorized by the house this afternoon. The land will be used for testing large naval guns, which at present can be tested only through firing through the use of reduced charges. The field will give a range from 45,000 to 50,000 yards.

### QUIET FOURTH PLANNED

BELLEVILLE, MISS., April 18.—There will be no noisy celebration of the Fourth of July in this city. The trustees of the Chamber of Commerce have gone on record as against a celebration. This action is in line with the country-wide movement to dispense with elaborate celebrations owing to the urgent demands of the war.

### PERSHING SCHOOL OPENS IN CITY OF CHICAGO

CHICAGO, April 17.—Chicago today probably boasts of the first school in the land named after General Pershing.

And what is more the name Pershing was given to a school that up until today has been known as the Blinnack, after the "Iron Chancellor" of the Huns.

The change in name followed a strenuous protest against Blinnack by residents and patrons of the school district.

### SAVINGS AND THRIFT STAMPS REPLACE MEDALS

DURANT, OKLA., April 18.—War Savings Stamps and Thrift Stamps are replacing medals today in the awards of the southwestern state normal field and track meet which opens here for three days. The change is the plan of Director H. O. Tudor, who believes that the patriotic sentiment will give an added zest to the meet.

Those who win first place in any event will receive a Thrift card valued at \$4, second place, \$2 in stamps, and third place, \$1. So far as is known, this is the first college to make a change from medals to Thrift stamps.

# "Save Animal Fats. Use Vegetable Fat. Substitution will do more for food conservation than the strictest economy."

## U. S. Food Administration

YOU have probably been told of the world's shortage in fats—animal fats particularly. Has the force of this condition come home to you?

Our fighting men need fats for their energy. Our Government needs fats for munitions. Millions of devalitized women and children abroad need fats for life itself—does this appeal fall on deaf ears?

Does so much as an ounce of lard or butter steal its way into your cooking? If so, there is not the slightest necessity or excuse for it.

Do you realize that this country produces vast quantities of pure, nutritious cooking fats

derived from vegetable sources? From these fats we make Cottolene.

When you use vegetable fats in place of lard and butter, you are doing a patriotic duty. You are sacrificing nothing in wholesomeness, economy and good eating. You are simply making an easy change in the way you cook—for your own good and the good of your country.

"Every pound of vegetable fat used in place of butter or lard is as sure of service as a bullet"

Get on the firing line in your own kitchen today with Cottolene.

CONFEDERATE VETERANS RECORDED AS DEBERTER

ALTHOUGH AN AVIATOR RECORDED AS DEBERTER

TULSA, OKLA., April 18.—Definite decision has been reached to hold the annual reunion of the United Confederate Veterans here in September. For two months there had been a question as to whether the reunion should be held this year because of registration and the error was corrected. The error was brought about by his commanding officer failing to send the exemption board notice of his willingness to explain in now on the way back to the reunion from all over the south.

### Jurors Turned Over to Defense Yesterday

Trial Was Tentatively Accepted in the L. W. W. Trial in Chicago—May This Evidence Soon

CHICAGO, April 17.—Twelve men were turned over by the government this afternoon to the defense as prospective jurors in the trial of the L. W. W. charged with violation of the espionage act, according to reports to hinder the war-work of America. All have been tentatively accepted by the United States attorneys.

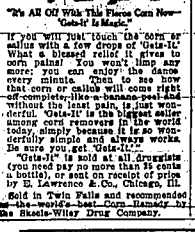

A feature of the examination today happened when the third venireman was brought in—the Great Lakes Jackie band entered the federal building and began playing in the corridors as a part of the liberty loan campaign. They struck up the national anthem, but in one verse in the court room. All seemed to be watching Judge Landis for their cue but he did not hear the music and remained sitting.

If the defense maintains the same speed in accepting the jurors as displayed by the government it is possible that the taking of evidence will begin before the end of the week.

### "Gets-It"—2 Drops—Then to the Dance!

"Goodnight to Corn, Pains—Corns Peel Off With 'Gets-It'."

"My girls, you can laugh at tight shoes, or damp, corn-pulling water, but you know how corns on the soles of your feet, corns between the toes, hard and soft corns."

"It's All Out With This Corn Remedy—'Gets-It'."

"If you will just 'lick 'em' with some of this with a few drops of 'Gets-It'—What a blessed relief it gives to corns! You won't limp any more; you can enjoy your shoes every minute. 'Gets-It' is so easy to use—just rub it on the corns—peel off the corns—'Gets-It' is the largest selling corn remedy in the world today, simply because it is so wonderfully simple and always works."

"'Gets-It' is sold at all drug stores (two cents per bottle) or sent on receipt of price by E. Lawrence & Co., Chicago."

Sold in Twin Falls and recommended by the world's best Corn Remedy—the 'Gets-It' Drug Company."

### Fort Niagara to be Enormous Hospital

Plan to Create Vast Home for Injured Soldiers Under Admiration of War Department

WASHINGTON, April 17.—Fort Niagara, N. Y., may be transformed into an enormous hospital for injured soldiers brought back from France, if conditions which are now being investigated are carried out, according to department officials today. Officers of the medical corps are now looking the ground over and if their report is favorable, the six-acre famous army post will be placed in the hands of the medical department. Officers say that its location for this purpose is ideal, being 16 miles from Niagara Falls and sufficiently isolated for the purpose of an insane hospital.

### WHITE WAITRESSES ORDERED DISCONTINUED

DES MOINES, Iowa, April 17.—Proprietors of cafes adjoining Camp Dodge were ordered today not to employ white waitresses, following a disturbance last night when 200 negro soldiers, becoming enraged when ordered from a restaurant, threatened violence. Two of their number had been ordered from a cafe by S. F. Powell, proprietor, when their fellow diners grow angry and throw bricks through a window.

Military police and deputy sheriffs were called and quelled the angered mob. An order was also issued closing the cafe.

### REVOCAION OF LICENSE JUDGED BY COMMISSIONER

WASHINGTON, April 17.—Federal Trade Commissioner Murdock this afternoon recommended the revocation of the license of the Inman-Hinckley Milling company of Kansas City, on the ground that the concern inflated wheat costs and sold at an increased retail price. The license of the Frasier Packing company of Sioux, Ind., was recommended for revocation. The Frasier company was charged with having failed to deliver tomato catsup on contract, and the president, O. D. Frasier, for having taken over his plant and manufacturing for higher prices.

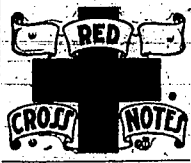

### Guatemala President Gets Large Judgment

Case in Litigation for Many Years Dealt in Favor of Manuel Estrada Cabrera.

SAN FRANCISCO, April 17.—Manuel Estrada Cabrera, president of the republic of Guatemala, is richer by \$15,000 today as the result of a victory in the superior court in a suit against Transhudson & company, London, for having taken over his plant and manufacturing for higher prices. The action was filed eleven years ago and was for the purpose of collecting on an exchange bill for goods purchased more than twenty-one years ago.

### PRESIDENT BELL RESIGNS

DES MOINES, IOWA, April 17.—Hull M. Bull, president of Drake college has resigned according to an announcement today.

### Surgical Dressings

(By Amelia Josephine Barr) Intermittent folds of gauze For those who have never seen them. Remember when your fingers pain. That every drop of blood to stain. This white-cotton-falls-for-you-and-me. Part of the price that keeps us free. To serve our own, that keeps us clean. From shame that other women know. They have never seen. Forgive us that we are so slow. God—if the blood should cry to vain. And we have let our moment go.

The work in the surgical dressing department will begin again on Monday, April 22. Now that the women in Twin Falls understand the pressing need of these dressings let it never again be necessary to send out a call for vendors. Every day the need grows greater as every day the number of our workers over seas grows larger. Our boys who are so far from home will all our care. The hours and the days are the same.

The quarterly meeting of the county auxiliary has been postponed to Saturday, April 27.

Because of the forming of the Twin Falls city branch it is necessary that a check be made on all outstanding yarns. Will any one having wooleens, either hand-knitted or unfinished garments, report same to the sewing room on or before the twentieth of this month.

The organization of the city branch of the Twin Falls chapter, is nearly complete. The following list of the officers for the Twin Falls city auxiliary have been appointed by the board: Mrs. F. B. Franck, chairman; Mrs. Geo. A. Alton, vice chairman; Mrs. J. S. Balladay, secretary; Mrs. C. O. Pilkington, treasurer; Mrs. W. F. C. Pike, chairman sewing committee.

The first aid classes under Dr. R. Scott, will take their final examination in about two weeks, after which a new class will be started.

Under the leadership of the Children's bureau of the United States bureau of labor, a country-wide effort for the saving of the lives of 100,000 children in the United States by increasing throughout the country measures for child protection, is now being organized. The United States bureau of labor has already proved efficient in saving the lives of children in the United States. To inaugurate this child-rent, a nation-wide watching and measuring-of-babies and children of pre-school age will be undertaken. In each community what the children need, if the rising generation is to be free the physical defects which the draft has revealed.

It has become necessary to procure a room for the storing of supplies for the Red Cross in Twin Falls. Bullbait quarters have not yet been found. Anyone knowing of a place that would be suitable for this purpose will kindly communicate with headquarters, phone 350.

The civilian relief department has now established an information service to aid those having relatives in the service. The civil relief service asks you to answer the following questions: Do you receive your husband's or son's letters? Does he receive your letters? Has he been wounded? Do you want to know more fully how he is? Do you receive your allowance and allowances to those matters and other your home service section is prepared to advise you.

Mr. C. E. Douth has kindly loaned to the Red Cross chapter a quantity of yarn to be replaced later when the chapter yarn comes in.

The Washington school will have a Red Cross exhibit in the window of the City Hotel store on Saturday. It would pay one to stop and see the work finished by the school children for it is very interesting and of good workmanship. Each of the four schools will exhibit in this manner.

### U-BOAT PRISONERS ARE BROUGHT INTO PORT

AN ATLANTIC PORT, April 17.—The first German submarine crew captured by American naval forces, whose arrival in the country was reluctantly received by the United States Navy Secretary on Saturday came on the same boat that brought Secretary of War Baker home today. The fact that the crew were aboard was carefully guarded for several hours after Baker was on his way to Washington.

The prisoners number between 20 and 24, and were the crew of the German U-boat 85, sunk by an American destroyer while the latter was conveying transports.

### FOUR AVIATORS FALL TO DEATH IN TEXAS

ELLENFIELD FIELD, Texas, April 17.—Three men were killed and a fourth man is believed fatally injured, the result of the death of a biplane.

Second Lieutenant Roland J. Winterston, Boston. Cadet Forest Dean Jones, Worcester, Mass. Second Lieutenant Leo J. Nugent, Washington, Iowa. The injured aviator is Cadet A. Maurice. Winterston and Jones were killed near Webster at the camp and gun field.

BEST IN THE LONG RUN

## The Cold Figures of It

ATLANTIC	FLEET	2,540,012	TIRE MILES
PACIFIC	FLEET	1,810,960	TIRE MILES
MOUNTAIN	FLEET	160,796	TIRE MILES
PRAIRIE	FLEET	180,744	TIRE MILES
LAKE	FLEET	3,225,700	TIRE MILES
DIXIE	FLEET	3,225,700	TIRE MILES

**TOTAL 4,178,744 TIRE MILES**

## GOODRICH TESTED TIRES

The City of Goodrich, they have officially announced, the grand mileage of Goodrich's nation-wide Test Car work of 1917:

**1,044,686 linear miles.**  
**4,178,744 tire miles.**

These figures indicate the Emancipation Act of motorists, freeing them from mishaps and amputated mileage.

Compressed in them is the story of the famous Six Fleets, and how they hurried Goodrich Tires the length and breadth of our nation, over city pavement and country road, ploughing them through mud and mud, mauling them against rock and gravel.

Mathematics has no fables. That multiplied mileage of 4,178,744 miles

coldly, calculatingly, puts the seal of multiplied proof on Goodrich Tires, and stamps them "tested" in that searching test, no slightest defect, no hidden short-coming could escape the sight of the Goodrich experts.

SILVERTOWN CORDS, and BLACK SAFETY THREADS, under light and heavy cars, defied the rough going of roads wherever the Test Car Fleets rushed them.

The spiral-wrapped, cable-cord tire body, and Goodrich's tough black tread rubber fought the hard fight and conquered.

Seek tire surety and long mileage in the proven service of "America's Tested Tires." Goodrich guarantees you will get it because Goodrich tested and got it.

Tested Tires mean 100 per cent. quality. Demand it. Tested Tires mean supreme service. Demand it.

**THE B. F. GOODRICH RUBBER COMPANY**

### Pardon Asked for Mooney by Friends

Alleged Dynamite Opposed to Merz Heppner—Mail Meeting Endorses Stand of President Wilson

SAN FRANCISCO, April 17.—Pardon and not reprieve for Thomas J. Mooney, preparedness parade bomb plot defendant sentenced to death, is the slogan today of labor leaders, who are endeavoring to bring about his release. Mooney himself has appeal to 8,000 persons assembled in his behalf last night at a mass meeting here. Governor Stephens has urged to give him an outright pardon.

Resolutions were adopted endorsing President Wilson's request for a new trial for Mooney. Among those who addressed the meeting was Mother Jones, Colorado labor organizer.

### PROF. THOMAS GANNED FROM CHICAGO UNIVERSITY

CHICAGO, April 17.—Prof. W. I. Thomas, who was arrested last week charged with taking Mrs. R. M. Grant, ex-wife of an army officer in France, to a local hotel, is no longer a member of the faculty of the University of Chicago. His dismissal was formal, announced by the board of trustees after a short session yesterday afternoon. Thomas is scheduled to be arraigned Friday morning with Mrs. Grant in a morals court.

### DANIELS GUEST AT YALE

BRIV HAVEN, CONN., April 18.—Secretary of the Navy Joseph Daniels was the joint guest of Yale university and the City of New Haven today. He came principally to review the Yale naval training unit, but a joint dinner at which the city and university authorities were the hosts was arranged in his honor.

THE DAILY TWIN FALLS TIMES

Published Every Day, Except Sunday by The Times Printing & Publishing Company, Twin Falls, Idaho. News of the World to the Head C. L. Langley, General Manager; J. D. Wilson, Associate Editor.

(Entered at the Twin Falls postoffice as second class matter on a two-week publication, October 15, 1916.)

NEWS WHILE HOT

Recently before carrying out the plan to establish a daily, THE TIMES called attention to the fact that on press days its news was just a day ahead of outside dailies and that important items on other days were carried over and served as quickly as outside papers. The superior quality of enterprising service still continues. The story of the British victory in the North Sea Tuesday, carried exclusively in THE TIMES, appeared in the Statesman, in Associated Press dispatches, on the front page, Wednesday. The story of

the great Greek victory on the entrance of the Hellenic army into the war was told yesterday exclusively in THE TIMES, and readers of outside publications carrying the Associated-Press or the International News Service dispatches will read it today. These are but samples of how THE TIMES keeps its readers in touch with the year events now taking place in the world.

MARITAL LAW

The proposition to establish marital law, universally in this country by legislation is worthy of the most serious consideration before its adoption, as it is a measure that should be resorted to only in the most extreme cases.

Understand, if conditions are such that it is required or if it is an alternative between marital law and harsh law, for the suppression of sedition and treason, THE TIMES is for it. No legislation of the most far-reaching character is already proposed or in the course of enactment, and this might even be greatly strengthened, without resort to universal marital law. Jail sentences

should be substituted for internment and the offense of treason be defined so as to increase the number of those made liable to the death penalty, and the application of martial law in districts made easier, and all this might be done without taking so sweeping a departure from the legal basis of our society.

The first great problem is to win this war. Anyone who understands current conditions knows that a vast number of patriots, people, in view of the greater part of the membership of labor unions, and a still greater proportion of unorganized laborers, look with grave suspicion on universal military rule. These people are generally doing all they can for this nation. It is imperative that they retain the confidence which they feel in the purposes of this nation and the hope that they feel against the beneficial results of the termination of the conflict in our favor. Unless they are nearly 100 per cent efficient in pushing the war, it will be prolonged. Unless they at least continue strenuously in its favor, it cannot be won.

When war broke out, there were only 100 means to punish sedition. Legislation thought adequate at the time was enacted. It failed to a great extent, because the character of offenses changed to dodge its application. Now, with ample experience, new laws are enacted.

Stock Market Goes Up at the Opening

NEW YORK, April 18.—The stock market again showed its disposition to break away from a waiting policy at the opening today. During the first fifteen minutes of trading many stocks made vigorous advances with a number of issues selling at the highest prices reached in a long period.

CHICAGO, April 18.—A higher range in both corn and oats due to lack of selling pressure featured the opening of the market today. There was only moderate buying, and it was almost entirely local in character. There was some short covering in evidence.

Trade in provisions was somewhat weaker. There was something in the falling of ribs bid for an outside packer. Prices were a fraction lower than yesterday's close.

Qualla, Neb., April 18.—Hogs, Receipts 19,000, market 12.00; lower, Top 17.30; range 16.75@17.20; mixed 17.10@17.25; good choice 17.00@17.15; rough 16.75@17.00; light 17.25@17.50; bulk 17.10@17.25; pigs 12.00@12.50.

Cattle—Receipts 1,000, the market steady. Beves 12.00@12.50; cows and calves 9.00@11.50; steer and feeders 9.00@12.50; calves 9.00@12.00.

FOOD'S FORCES HOLDING LINE (Continued From Page 1) miles west of Poelcapelle. Both points were gained by the British in their great offensive against the Germans on the West Flanders front last summer. On the Picardy battle front, where the first thrusts in the German offensive were begun on March 21, the Germans are still contending themselves with violent bombardments. The district north of Mondifort, (southeast of Amiens) has especially been the scene of strong gunfire. The loss of the two British key positions to Belgium—Messines ridge and Passchendaele—makes the British hold on Ypres very cautious. In fact, quite a number of English war experts have counseled the withdrawal from the Ypres salient. However, such declarations were made before the British army in this zone was strengthened by French reinforcements and now the situation there looks much better. Again the Germans have brought up fresh troops, throwing them into

the fighting with utter disregard of losses. In the fact of this overwhelming pressure the British have been compelled to relinquish a small amount of ground, but the Germans gains were unimportant in view of the strategic results attained by the British in their retirement. There has been stiff fighting in the sectors of Gheluvelt and Baeslare, near the famous battle-wound Ypres-Menin-road and the English were compelled to yield slightly. The German losses, however, were very severe as columns advancing to the attack in dense formation were caught under direct artillery fire.

DIED THIS MORNING

As we go to press we learn of the death, at child birth, of Mrs. John Fluke, of this city. The child also died.

FRANKLIN How Big Should the Gasoline Tank Be? With one filling—270 miles to go—how big should the gasoline tank of a car be? Your answer to the question would undoubtedly be, "it depends on how much gasoline a car needs." Exactly. The Franklin car scientifically free from unnecessary weight, runs 270 miles (at least) on its gasoline tank capacity of 13 1/2 gallons, at the rate of 20 miles to the gallon. The average heavy car (even the very best of them) to run the same distance would require a cumbersome gasoline tank of 27 gallons, at the rate of 10 miles a gallon. (It may easily be less). Why? Simply because of the mechanical law—as old as the ages—that weight and the power to move it must be in proportion. And the more power is needed—the more gasoline consumed. Wherever there is excessive weight, there is friction, wear and drag and it always shows up in the gasoline tank. The heavy car is bound to burn up fuel dragging around its own excessive weight. The scientific light weight Franklin with its perfectly balanced flexible construction, uses fuel to deliver power to the rear wheels in driving force. These are acid-test times for a product of any kind. A motor car, merely to justify its existence, must prove that it is not wasteful or extravagant. You've heard people all around you talking Franklin and high gasoline mileage; your common sense tells you that it can't be an accident—there must be facts back of it. Drop in the Gooding Motor Company sales room, and get the facts. The Franklin story is short and simple, and these are "if" or "but" in it. The increase in the use of the Franklin is a culminating triumph of a car that has been piling up economy records six sixteen years. The Franklin car of today has many features of vital interest to every motorist, no matter what car he may drive. The Franklin is the greatest of all American cars. GOODING TWIN FALLS BUHL BURLEY

### Primitive Methods Threatened in Wis.

Chairman W. P. Bloodgood of Milwaukee Wants Application of Martial Law

WASHINGTON, April 17.—In appealing to congress to establish martial law in Wisconsin, W. P. Bloodgood, chairman of the Wisconsin committee of defense, today warned the military committee of the senate that the people of Wisconsin "were apt to go to primitive methods" and that "conspicuous unfortunate would happen" unless the government dealt with pro-Germans more effectively.

"Feeling grows with the departure of every transport," he declared. Bloodgood told the committee the civilians were inclined to favor the measure. He quoted Assistant Attorney General Warren as saying, "This war could not be run in the criminal courts and the moral effect of one man tried by court martial was worth one hundred tried in the criminal courts."

Bloodgood said he "didn't believe it possible to obtain a jury which would convict a man of seditious utterances in Wisconsin where 75 per cent of the voters endorsed Victor Berger's anti-war platform."

Bloodgood declared that German propaganda was directly responsible for the slowing down of production in practically every kind of war work, including ship building, aircraft and ordnance.

German agents purchased "unofficial cards and was admitted to employment in munition factories, where they couldn't hit a nail with a hammer," he charged. He said much German propaganda has been disseminated in training camps. As a result of this Berger received many soldier votes in the recent senatorial campaign, he said. Illustrating the futility of trying to suppress sedition as long as the practice is followed, Bloodgood declared:

"Mr. Berger multiplied the force and bitterness of his attacks after he was indicted."

Although the situation is bad in Wisconsin, he said, it was worse in New York and Chicago, where German agents have concentrated their efforts.

Senator Thomas of Colorado suggested that disloyalty could be dealt with much more effectively by internment than by court martial.

### CANAL BOARD MINUTES

January 28th, 1918.

Board met in regular session, all members present except Keenan.

Minutes were read and approved. Moved by Wurtz, seconded Lincoln, that this Company deed back to George J. Barker, the late farmer, formerly decided by him to this Company, in consideration of an easement for a waste-way through his land for the water spilling from the gate at Frye Creek reservoir, and provided that he waive all damages that may arise in the future from seepage on said lands transferred to him. Carried.

Moved by Wurtz, seconded Taylor, that Joseph Toupin be allowed \$200.00 in full for damages caused him by a break in the Company's lateral. Carried.

Moved by Lincoln, seconded Wurtz, that the claim for damages of C. F. Kluckman on account of seepage, be disallowed. Carried.

Moved by Taylor, seconded Wurtz, that the claim for damages of C. H. Ulrich be disallowed. Carried.

Moved by Lincoln, seconded Wurtz, that the claim for damages of T. J. Flynn be disallowed. Carried.

Moved by Lincoln, seconded Taylor, that this Board further extend to S. E. Burnham, the Contractor on the work at the Miller Dam, a vote of thanks for aid and appreciation of his work thereon, on account of his difficult character and the thorough and workmanlike manner in which it was performed. Carried.

Whereupon recess was had until tomorrow morning.

January 29th, 1918.

Board met pursuant to recess, all members present as of yesterday.

Moved by Lincoln, seconded Wurtz, that J. Wolfenden be employed to audit the books of the Company. Carried.

Moved by Wurtz, seconded Taylor, that calls for bids be made for hardware supplies—wooden saws, number, and one car of iron pipe, as per list. Bids to be opened on January 22nd, 1918. Carried.

Moved by Taylor, seconded Barker, that \$200.00 be appropriated as our contribution to the expenses of the joint conference of the Agricultural, Live-stock, and Irrigation Society to be held at Idaho Falls, Carried.

Moved by Lincoln, seconded Wurtz, that Judge J. H. Howell be employed as Attorney for this Company at a salary at the rate of \$2500.00 per annum. Carried.

There being no further business, the meeting adjourned.

January 22nd, 1918.

Board met in special session, all members present. Whereupon the Board proceeded to open bids for two cars of lumber as per list, and after due consideration it was found that the bid of the Home Lumber Company was the lowest and best, whereupon the contract for said lumber was awarded to said Home Lumber Company.

Whereupon the bids for supplies were duly opened and considered, and after due consideration the bid of Prater's Grocery of Twin Falls was found to be the lowest and best bid, whereupon the contract for hardware supplies were opened and considered, and after due consideration the bid of Timmerly Hardware & Implement Company was found to be the lowest and best bid; whereupon it was moved by Barker, seconded Wurtz, that the contract be let to the lowest bidder for the various supplies shown above. Carried.

Moved by Lincoln, seconded Taylor, that the Foreman and Cooks in the camp are hereby notified to observe all rules of the Federal Food Administration as to wheat and meal and meal. Carried.

Moved by Lincoln, seconded Barker, that a car load of iron pipe be purchased from the Coast Culvert & Flume company at a total price of \$1165.00 f. o. b. Portland, Carried.

There being no further business, the meeting adjourned.

January 23rd, 1918.

Board met in special session, all members present.

The day was devoted to a discussion of matters of general interest. Whereupon recess was had until tomorrow.

January 29th, 1918.

Board met pursuant to recess, all members present.

Moved by Lincoln, seconded Wurtz, that the wages for different employees of this company for the ensuing season be as follows: To-wit: Blacksmiths—50c per hour. Carpenters—45c to 55c per hour. Blacksmiths—45c to 55c per month. District water masters—\$150 per month.

Blacksmiths—\$125 per month. The man at the Forks, Dry Creek and Cedar Draw—\$135 per month. Day men at dam—\$125 per month. Foreman—\$110 per month. Drill runners—45c per hour. Foreman—\$115 to \$125 per month. Street labor—\$100 per month. Truck drivers—\$90 to \$100 per month.

Laborers—40c per hour. Truck drivers—\$100 to \$125 per month. Foreman—\$115 per month. Supv. construction—\$175 per month. Chief Water Master—\$160 per month.

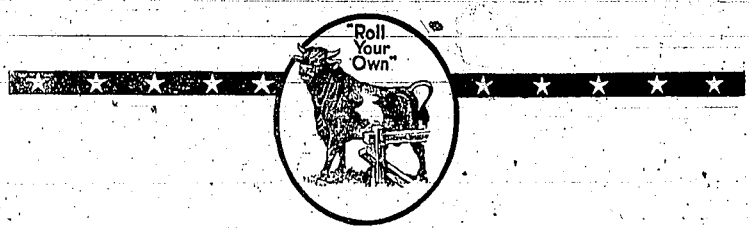

Board of men in Co. camps at the rate of \$1.25 per meal.

Board for teams in Co. camps at \$1.00 per day.

Wages for teams—20c per hour. There being no further business the meeting adjourned.

Minutes of the Board of Directors, Feb. 12th, 1918.

Board met, all members present. The minutes were read and approved. Moved by Lincoln, seconded Barker, that the claim of C. R. Vance for

# ANNOUNCEMENT

OUR Government has requested that we put at the disposal of the War Department our entire output of the "makings"—"BULL" DURHAM tobacco.

And we have complied—fully, gladly. For whatever the Government wants, whatever it needs, it must have from us and from you fully and with a generous heart.

We have been sending immense quantities of "Bull" to our men at the front, and at the same time trying to supply consumers at home. But now we are asked to give all our output—36,000,000 sacks, 2,000,000 lbs., 100 carloads of "BULL" DURHAM every month.

This call means more than just huge figures to me and I know it will mean more than figures to the hundreds of thousands of men everywhere in the country who "roll their own" and who look upon that little muslin sack of good old "Bull" as a personal, everyday necessity.

It means that the Government has found that our fighting men need the "makings".

But, if "Bull" is a necessity to you, here, in the peaceful pursuit of your daily life, how much greater its necessity to those splendid Americans who have gone to fight for you—to win this war for you.

I know that you will think of them as I do—only of them. I know there will not be a single complaint. I know that you will give up your share of "Bull", however long you have enjoyed it, however close it is to you, as you will give up anything you have if it is made clear to you that our forces over there need it.

That the Government has requested the whole output of "Bull", the night and day output of all of our factories, must make this absolute need clear to you.

And I know that you will not forget the little muslin sack—gone for the present on its mission of hope and inspiration to our boys in the trenches.

"Bull" will come back, with ribbons of honor. Have no fear.

*Reuben Hill* President

THE AMERICAN TOBACCO COMPANY  
NEW YORK

### DEBATE HERE FRIDAY NIGHT

Moved by Lincoln, seconded Barker, that the claim for damages for the death of a horse on the work, presented by C. B. Mallick, be disallowed. Carried.

Moved by Lincoln, seconded Wurtz, that the contract with Dr. T. O. Boyd for medical and hospital services for the employees of this company, be renewed for another year. Carried.

Moved by Barker, seconded Wurtz, that J. C. Whoolan be employed as manager for this company for one year from Feb. 4th, 1918, at a salary of \$7000.00 per annum. Carried.

Moved by Lincoln, seconded Barker, that the High Line Canal Company be allowed \$600.00 in payment for the cost of cleaning and repainting the laterals in their system for the current year. Carried.

### DRAFT BILL TAKES ANOTHER STEP FORWARD

WASHINGTON, April 17.—Another step was taken today toward the final disposition of the bill to draft men who have reached the age of 21 years since June 5, 1917.

The chief of the War Relocation Authority has submitted a favorable report on the measure, recommending that it be acted upon finally at the next available date. A special rule will be asked to facilitate its consideration.

Your Clean-up and Paint-up parties will be made easier if you will attend our Paint Opening Day—Saturday, April 20th, Consolidated, Wagon & Machine Co.—Adv.

### HELP THE RED CROSS

T. J. Woods has written Fire Insurance in Twin Falls county for thirteen years and two months.

To my old customers and others I announce the following proposition:

On every policy of new business given to my office during the next ninety days I will donate one-half the commission to the RED CROSS.

I represent ten of the strongest Board Companies and this offer applies anywhere in the County. Telephone or write and your business will be taken care of at once. If you don't carry your fire insurance with me, now is a good time to start.

T. J. WOODS

### DO YOU WANT TO MOVE

Work has begun on the class play. The class of 1918 will put on "The Rivals", a play which has won much favor in many high schools and colleges. The characters who have been cast are: Michael Thomet, Marjorie Smith, Gilbert Younger, Stanley Woods, Lamar Lonschenker, John Parille, Anna Andrus, Ula Nord and Wm. Buck. The class play will also be staged during commencement week.

## "Idaho Facts"

A few illustrative facts, illustrating a full record of the state's production in Idaho in years for the state. It is the only state in the world having a record of the highest yield of products grown in the United States.

You are cordially invited to call at the Idaho State Fair to see our complete and extensive exhibit of products grown in the United States.

R.A. SMITH, Colocationation & Industrial Agent  
Twin Falls System  
Room 2118 B. C. Bldg., Coeur d'Alene, Ida.

(Above—Sample of Advertisement Used in Eastern Newspapers.)

### IDAHO'S RECORD

- Highest record for continuous seasons without farm crop failures.
- More irrigated acres than any other State.
- Two Government projects irrigate a total of 350,000 acres.
- Many communities use electricity for lighting, heating, cooking and power.
- Less effected by hog cholera than any other State.
- Has record of world's largest potato production per acre; 784 bushels.
- Famously near frank in the production of beet sugar.
- Flourished as a producer of seed crops.
- Produces the finest prunes in the world; other fruits of highest quality.
- Furnishes one-third of nation's annual lead production.

## THIS STATE MUST MAKE FULL PREPARATIONS FOR "BAOK TO LAND" MOVEMENT

### GET READY FOR THE WAR'S END

"Wonderful Idaho." This is the spontaneous comment of all those who have seen anything about this most interesting state. According to the record of its agricultural department, Idaho holds the record for continuous seasons without farm crop failures. It is there within its boundaries more irrigated acres than in any other state. Two Government projects irrigate a total of 350,000 acres, and the private irrigation projects are numbered by the thousand.

Water falls furnish an inexhaustible power for the manufacture of electricity and in many Idaho communities the use of electric appliances is more universal than in the large centers of the east. Electricity is used extensively, not only for lighting but for power but for heating and for cooking.

In these days, when the hog has demonstrated its value as a farm animal, it is profitable to bear in mind the fact that Idaho is more free of hog cholera than any other state.

The potato is one of the great products of this state and it holds the world record for the largest potato production per acre. This production having in one instance reached 784 bushels. The State is also rapidly coming to the front ranks in the production of sugar beets.

Idaho fruits are world famous. The fruits of Idaho are of the highest quality and Idaho apples and Idaho prunes are famous the world over.

There are still many acres of undeveloped land in Idaho. Many thousands of acres that are now given over to sage brush and jack rabbits wait only the development of irrigation projects or the coming of the scientific dry farmer. Many of the splendid productive areas of the state have been reclaimed from the sage brush in the last 30 years, and where it was once believed the desert would always reign, there are now fertile farms, all many thriving and prosperous communities.

Idaho—New Spelling for Home. To the man in Idaho there is a firm

conviction that the spelling of the word home should be revised and the five simple letters I-D-A-H-O used instead.

Millions of Acres Available

Millions of acres of land that have never known the feel of the plow lie waiting for the homeseeker in the great Empire State of the Trans-Mississippi West, and in the states that face the Pacific Ocean.

Many of these acres are in the dry-farming sections, many of them are being brought under irrigation ditches.

In addition to this "wild" land, there are many acres in these states, now cultivated in large tracts, which with the ever westward pushing of those who seek new lands well, in the next few years, be cut up into smaller farms.

When the tremendous tragedy of the world now being enacted in blood and suffering upon the fair fields of France, reaches finally to an end, the longing for the open country will be an even greater hold upon the hearts of mankind. Then this great country in the West should be in position to respond to this longing, should be ready to receive those who will seek its welcome.

Idaho must do its part. Every agency in the state should be directed to this end. In preparation for this day every facility should be used to acquaint those who now are looking for a new home in the West, and every organization that is working to secure the upbuilding of the West should be organized.

Union Pacific System On the Job

One of the most active organizations especially maintained for work of this character, an organization admirably equipped with resources and ready to receive a thorough knowledge and system, is the Colocationation and Industrial Bureau of the Union Pacific System.

This Bureau is under the direction of T. A. Stutley, who has had many years' experience in such work. Recently there has been installed on the ground floor of the headquarters building of the Union Pacific Railroad, the most complete and permanent exhibit of the agricultural, horticultural and live stock interests of the states which are served by the Union Pacific System—Montana, Kansas, Colorado, Wyoming, Utah, Idaho, Washington, Oregon, California and Nevada. This exhibit, which was prepared and installed through co-operation with the public authorities in each of these states, is to be maintained and kept constantly renewed.

**WAR GARDENS DECORATE RAILWAY RIGHT OF WAY**

MEMPHIS, TENN., April 18.—War gardens are to be seen from the window of almost any passenger train in the south. In some sections long strips of land paralleling the right-of-way are in cultivation. A field thirty feet wide, or less, and a half mile long is not uncommon. There are innumerable little gardens to be found between the end of the crosses and the right-of-way fence.

**FRISCO GERMANS BOOST THE LIBERTY LOAN**

SAAN FRANCISCO, April 18.—Americans of German origin in an Francisco have won their appeal to have a part in "putting over" the third liberty loan. The local authorities today answered the plea of these patriotic citizens by forming a committee to be known as the "Americans of German Origin Liberty Loan Committee." Cyrus G. Moore, former president of the Panama Pacific International exhibition, was appointed acting chairman.

## State's One Hundredth Anniversary of Statehood Is Celebrated Today by Illinois

SPRINGFIELD, ILL., April 18.—College in Illinois today observed the centennial anniversary of the statehood. In a letter to all the schools G. A. Anderson, president of the American college stock fund, called for a general recognition of the day.

"We should celebrate this—happiest anniversary in order to stimulate and strengthen the patriotism of our youth," he declares. "And to lead them to become more thoroughly conversant with the splendid history of our state."

The day was a big affair in Springfield, here the Illinois centennial commission and the State Historical society staged large meetings. Dr. John H. Finley, commissioner of education of New York state and president of the New York state university, delivered an address. Other prominent speakers were also present.

A program was given by the Sangamon County Centennial commission. Dancers designated it as "The Sword of America."

## Vigorous Action Is Urged by Davison

Wants Section Suppressed—Thinks Progress In Interning Aliens Has Been Slow.

NEW YORK—More vigorous action in the suppression of section in this country was demanded by Charles Stewart Davison, speaking for the American Defense society, of which he is a trustee. Mr. Davison is a prominent lawyer with offices at No. 69 Wall street, lives at No. 37 West fourth street and has been a leader in the patriotic work of the American Defense society.

"Mr. Davison issued a warning that the public would rise and take the authority into their own hands in dealing with spies and traitors unless the government gave the desired relief."

"There has been but slow progress in the matter of interning alien enemies after the armistice and the suppressing section," said Mr. Davison. "Many feel that the progress has been timely and rapid, but the effects of treasonable practices result in a slowing up of preparations in an untold number of directions."

"In these matters we should take a leaf from the Allies, bold and learn to be efficient. How long would they order the People's Council to continue its practices—all of which are openly and deliberately aimed at diminishing the efficiency of this country?"

"There are two ways of aiding the enemy. One is by diminishing the effect by encouraging to greater restriction. When a meeting of pacifists takes place in the United States the German press seizes it and with its usual headlines, 'Peace Propaganda Begins in America,' 'Labor Troubles in Germany,' 'Germans and Soldiers Are Assuming Serious Proportions and the Production of War Materials.' When these appeared as headlines in the German press they tended directly to injure the case of the United States by making the enemy more resolute."

"The night's meeting in this city of Chicago has been the presence of an assemblage of two thousand persons, our ally Great Britain was vigorously denounced as revolution in Ireland advocated, which are exploited throughout Germany. These are but individual instances out of thousands of occurrences which are permitted, and all of which makes the results of the struggle in which the country is engaged the less desirable."

"The American people, more than any other, are long suffering in relation to anything which can be called freedom of speech, and it is this trait which is becoming apparent. Where a government does not effectively suppress treason nor put down section the people will finally take the matter into their own hands."

"From various points during the last two months word comes of meetings, assembled and righted the wrongs which neither our local nor Federal authorities have dealt with. Very soon wholly innocent persons will be accused and subjected to lynch law."

"It is responsible to say that John Smith was killed in battle in France, because of a speech made in New York which was the last he made of section is reaped on the battle field."

"It is now proposed to pass another act in congress, and it may be that another act of congress is desirable. The atmosphere may possibly be cleared by a statutory enactment making many delinquents who are now specifically so catalogued, offenders. If the federal officials feel that they need further legislation in these directions it should be promptly supplied and the punishment provided should be sufficient to deter."

"If congress does not act, lawlessness with all its objectionable features will steadily grow throughout the country."

**BIG SNOW IN MICHIGAN**

CALUMET, Mich., April 18.—A heavy fall of snow today accompanied by unreasonably cold weather has halted planting in northern Michigan. Forest fires which have been burning for week in various parts of the peninsula are believed extinguished as no reports of their spread was received today.

## More Less Days Got Goat of Schmidt

CHICAGO, APRIL 18.—Headless whistlers and madmen today were all eyes with Carl Schmidt, but when, as he alleges, his wife, aided and abetted by her folks, issued a ukase ordering, smokes, bottles and homeless dogs. It was too much, so today a suit for divorce is pending in court against his wife and another charge of alienation of affection is filed against his father-in-law in which Schmidt asks \$50,000 heart.

Schmidt attributes part of his troubles to "spooks." He alleges that on three nights a week some member of the Spook family visited him, but by the well known washbasin and trumpet route. Being spiritualists of good standing, Schmidt alleges, his wife, Mrs. Gertrude M. Schmidt, William R. Wallace, attached great solemnity to the tri-weekly entertainments.

Schmidt charges that on these nights he was ordered to stay away from his home, he being told that "his presence" bothered the "spook" visitors. Schmidt says he stayed away while the spooks splashed around in water-souper in a washbasin filled with water, and from his death grieved up messages from somewhere in spaceland.

That he hurt Schmidt, worst of all was to be prohibited from smoking in his own home, taking a bath on Sunday and being at home only on Tuesdays, Thursdays and Saturdays to make room for the spooks.

Wallace is described as a man "ever ready to fight."

## Dry Win in Many Towns in Illinois

Sweeping Victory for Prohibition Forces Reported—Chairman Pleasid With the Result.

Ellis P. Martin.  
(I. N. S. Staff Correspondent)

CHICAGO, April 18.—The political significance of yesterday's local option election in which twenty out of 39 cities voted went dry, overruling local interests in the result, according to a statement issued today by William P. Anderson, superintendent of the anti-Saloon league, which directed the fight by the dry forces.

"The dry" forces won the minimum number of local victories in the election on the prohibition field and according to Superintendent Anderson represent the result as a distinct victory. Failure to win in the larger cities, however, was a big disappointment to the dry leaders. "They're the greatest cities and been put forth, they're an eleven-hour appeal by Ernest 'Dilly' Sandoy."

Women who voted for the first time in the state figured largely in the "dry" victories in the smaller cities but in the larger cities their vote was split up almost evenly in some places.

## Modern Hester Pryne Marries

Won Big Judgment From Gay Lethard but Never Collected and Weds a Workman.

CHICAGO, April 18.—Leona Gardner, who in 1916 valued her heart at \$116,000, has been won by a laborer.

Leona, it will be remembered, is the "Princess Lady" who in 1916 sued John Hester Henderson, an ex-former senator from Missouri for a breach of promise and was a verdict for \$116,000. Since that time she has been living with her little girl here quietly and trying to collect the money.

But she admits today that a Chicago working man has won her heart and that she is going to marry him, Eric Hester Henderson. But that is all Leona would tell about him.

"He is just a working man," she said. "He isn't looking in particular for a pair of overalls. Ever since the court decided my suit in my favor I have been trying to get the money, but now I don't care whether I get it or not."

Miss Gardner expects to return to her home in Des Moines, Iowa, for her wedding trip. She said after her affair with Henderson she has kept following the "Secret letter" with her. She said she saw in herself another Hester Pryne, "but you can say for me," she declared, "that I have conquered, while the real Hester did not."

## Minneapolis Gets Championship Fight

Tom Remley to a Delaton Will be the "Big" Between Willard and Patton on July 4.

MINNEAPOLIS, MINN., April 18.—Joe Willard, heavyweight champion of the world, and Fred Fulton, challenger, will fight for the title in the "Big" Chicago, July 4th, according to an announcement made by Colonel Miller, promoter. The fight will be limited to ten rounds to a decision, thereby complying with the state law with the exception of the decision on which the boxing commission waded his rule.

The fight will be staged in an enclosed to be built in the Midway district between St. Paul and Minneapolis. Said to 5,000 people are to be installed according to arrangements.

The bout of ten rounds will be the shortest heavyweight championship fight in history.

Colonel Miller is expected here today to complete arrangements for the fight.

**CHANGES IN CANADIAN LAW**  
OTTAWA, CAN., April 18.—Legal changes are expected in the conscription act of the Dominion government following a secret session with the cabinet yesterday. The age limit will probably be lowered from 24 years to 19 years by an order in council expected soon.
