Question Whether United States Navy Participated in Fight is Unanswered

COMPARATIVELY MANY CASUALTIES IN EVENT WHICH IS FEATURE OF DAY

British Capture Prisoners on Albert Front and Win Fight at Wytschaete—Germans Increase Activity at Amiens—Large Force of Teutons Concentrate Near Kettle Ridge—French Defeat Several Small Attacks Capturing Prisoners—Belgians Defeat the Huns Severely.

WASHINGTON, April 23.—A much more aggressive naval policy on the part of the allies is heralded by the London announcement that a successful raid against the German submarine bases on the Belgian coast has been carried out. This was the opinion of the naval authorities here today.

LONDON, April 23.—Casualties among the British naval forces that raided the German submarine bases of Ostend and Zebrugge, on the Belgian coast, sinking five concrete laden ships to block the harbors were heavy in proportion to the number of men engaged, it was announced this morning.

The chief feature of the war news today was a brilliantly executed raid by British naval forces against the German submarine bases at Zebrugge and Ostend, on the Belgian coast.

The operation was carried out with vim and dash, the auxiliaries and obsolete cruisers being protected by men of war.

The British have again improved and strengthened their positions on both the Picardy and Flanders battle fields, but there have been no decisive developments.

There was local fighting in the sector of Wytschaete (on the northern end of the Albert front) and in the Messines ridge in Belgium, which ended in favor of the allies.

There is increase raiding activity along the southern flank of the German salient in that district very soon.

Paris, April 23.—German raids were carried out during the night between the Meuse and the Vesdre, in the sector of the Albert front.

Local fighting, which ended in favor of the allies, took place also in the sectors of Hebeek and Wytschaete (Belgium). Prisoners were captured on both occasions.

In the sector of Albert the British were successful in strengthening their positions, capturing 40 prisoners.

LESS THAN 200 AMERICANS LOST AT SEICHEPREY

FRESHING REPORT RECEIVED AT WAR DEPARTMENT FROM FRANCE

Details Must Be Made Public by General

Our Boys Covered Themselves With Glory—Three Hundred German Shock Troops Killed in the Engagement on Saturday.

WASHINGTON, April 23.—The American soldiers in the battle of Seicheprey covered themselves with glory. This is officially announced by General Pershing in his preliminary report now at the war department.

However, it is known that in his report General Pershing is not yet ready to disclose the actual losses of the Americans engaged at "less than 200," while the losses of the German shock troops who attacked were more than 200.

It is understood here that the units engaged were regulars. They were supported by national guard organizations and the entire outfit engaged is reported to have fought bravely.

The British force against the German salient was reported to have fought bravely. The British force consisted of an auxiliary division and six obsolete cruisers.

The raid met with a "reasonable measure of success" the official statement said.

The complete details were not available when this dispatch was written, but the admiral announced that the returning ships arrive at their base.

War department officials were hopeful today that General Pershing will allow the details of this engagement to be forwarded from France. It was explained that if this was done, it will stimulate interest everywhere in the war.

Two Charges Alleged Against Kingdom

Kaiser Would Embroil Little Nation in War Though Best Troops Have Been Removed From Holland Frontier.

LONDON, April 23.—Germany has followed up her threats against Holland by forwarding an ultimatum to the Hague, according to an article in the Daily News today, written by the lobby (parliamentary) correspondent.

The British foreign office is following the situation very closely and it is evident now that relations between Germany and Holland are more greatly strained than ever before.

Germany is basing her threats upon two grounds: 1. That Holland showed partiality toward the allies in returning a favorable answer to England's protest against allowing sand and gravel from Germany to be shipped into Belgium through the Dutch canal route.

The northern German Gazette, a quoted in the London newspaper, is quoted as saying that Germany has demanded a renewal of the arrangement for the exchange of coal, cheese and fats and also for the use of tonnage at Dutch ports as compensation for the Dutch tonnage taken over by the allies.

AMSTERDAM, April 23.—Germany is trying to intimidate Holland, according to information from the Hague today.

The Epworth League of the Methodist church, a group of about twenty-eight young people, went on Friday evening for a jolly weiner and marshmallow roast.

About 6:20 o'clock the young people grouped at the home of Mr. and Mrs. McLean, where the four cars came to gather them up.

They then made their way to Rock creek about five miles away and proceeded to build a fine bonfire and roast their weiners and marshmallows.

Then they sat around the fire telling interesting stories and jokes until a late hour when they started home, arriving home about 10:30.

RECEIVES AN INTERESTING PAPER

Rev. A. W. James has received an interesting paper entitled "Dora and Sylvia" from the son, Sergeant David James, Young James is stationed at Co. C, 146 M. G. Brl. A. E. F. A. P. O. France.

The paper which is authorized by the commander in chief A. E. F. and his staff is composed of army officers and men.

It tells of the war now such as can be published; of news at home, and of every line which could possibly interest a soldier lad.

Secretary Baker who recently returned from France says he is happy to find such a paper.

Following is copied from the paper: "To Our Secretary of War"

Mr. Secretary, welcome! We are here, right on the job!

We are proud to have you come and look us over;

With the Jacks we've been raising just a little bit of hub,

And take it all in all, we're in a clover.

We hope you'll find it spick-and-span in the matter presented by her.

Mr. Secretary, welcome! You're the kind of guest we like.

WAR PICTURES SHOWN

At the M. E. church Friday evening a large crowd was privileged to watch some beautiful slides pictures of the war in Europe.

Among other features of the pictures were the following: Scenes on the Thames, of bank buildings, and castles, barbaric enfilade and other methods of warfare as practiced by the Germans.

These pictures are very instructive and Kimberly should consider it a very rare privilege to see them.

## Poindexter Continues Attack on Mooney

Declares that Stringent Measures Must be Taken to Crush Organization in This Country.

WASHINGTON, April 22.—Congress has its attention on Thomas Mooney and the I. W. W., today, Senator Poindexter said.

"The feature most to be subjected to the power of the government,"

"It is my purpose today in this place which I speak with a sense of responsibility, to proclaim my belief that the greatest responsibility which rests upon the government today, is to pull down with the strong hand of authority the dome of unbridled force and lawlessness at this time."

Senator Poindexter's outbreak came after he had presented to the senate a resolution from a hot courier which declared that the conviction of Tom Mooney of planting a bomb in California during a fireworks parade was the result of a conspiracy on the part of big business. He also presented a letter from Beniamin (Tom) South, notifying him that labor organizations are planning a strike on May 1, if Mooney is not pardoned or given a new trial.

"The threat contained in the letter is to gratify their desire of the law at the expense of our 'rights' and whose object is forever, the men who are strong needs to be put down by the energy hand of the government," Senator Poindexter declared.

"No one but a coward would commit such a crime as Mooney was convicted of. Those putting forward this proposition are cowards in their hearts."

"It is from the anarchists and Bolsheviks of Russia that this movement has originated—culminating in an organized threat at Seattle to up the war industries of the United States on the first day of May, 1918."

"This insolent threat is the outgrowth of a conspiracy which has its agents in every corner of this most noblest of free nations of the world."

"The German militarists behind the anarchists and Bolsheviks of the United States, just as they did those of Russia."

"An showing the partnership existing between the Prussian minister of finance and the syndicates of the Mooney and I. W. W. type, no-

## THE FARM HELP PROBLEM

By Geo. F. Thomas, Farm Help Specialist

There is no time like the present to do definite planning towards overcoming the farm help problem during the hay and harvest periods. Last season there was considerable difficulty during these periods through lack of help and lack of proper organization. This should be overcome to secure the maximum production from all our planted crops.

From indications so far received through the state crop and labor survey, there will be a considerably larger area of the grain planted this season, while the labor situation does not look much better. Don't become alarmed because of the slow movement and organize properly to overcome it.

- The plans suggested whereby this problem can be very greatly relieved are as follows:  
1. If you are not a member of your county farm bureau, become one at once, that is an organization which can be of more help at this time than any other.  
2. See that your farm bureau has a good live man as head of the labor committee, one who will keep in constant touch with the situation at all times.  
3. See that there is a labor representative of the farm bureau in each county who will be in touch at all times with the head of the farm bureau labor committee.  
4. Have a card system of register in motion in each county, showing the men working in the district. (A number of the counties already have this practice and find it very successful.)

5. Have some business men in every town appointed supply agent to attend to local calls; whenever possible to fill them—at home, if not, can be immediately get into communication with other counties and see what they have listed as surplus list.  
6. Know when you are going to want a man and try to secure him in advance, but at all times have a man on hand unless you need him; if you are supplied, immediately notify the labor agent the time your man is needed.  
7. Organize haying and harvest crews between neighbors to travel from county to county and save on the grain. This can be best accomplished by certain ones being assigned to mowers, rollers, etc. In this manner the expensive machinery will be required and the work will move along on a more businesslike basis.  
8. The business men are organizing public service reserves, to go out and assist the farmer if necessary in times of the greatest need. You should give them your utmost support and encouragement as they will not see the crops suffer through lack of help to them. Don't let them get so far away from on hand work maybe for years to turn up the fork handle the first day. It will burn his best and do it willfully.  
9. There are numerous calls from married men wanting to work on farms the year through. They will gladly accept and do the year through.

## ANNEX ALL OF CANADA

CLEVELAND, Ohio, April 22.—The Krimmer caused the war and had his eye fixed on Canada as a future German province as one of the returns to be obtained, according to G. O. Armstrong of Calgary, Alberta, Canada. The German plots were discovered and it was for this reason that Canada threw heretofore into the fight, he declared.

According to the information which Armstrong said the authorities in Canada discovered, a company was formed in Germany to exploit Canadian resources. Once Germany had secured this, a number of million dollars had been paid to the German government for this purpose.

Their plan was called for and a disgruntled member of the company "brought to light the matter go down further—It is said to have been a matter of a booklet, suppressed, which told of the plan and which was said to have shown conclusively that Germany started the war."

According to Armstrong the United States government has now obtained the plan and the United States has known about the affair for some time.

## Trained Nurse Endorses Tanlac

Graduate of London, Eng., Says She Improved Rapidly After Taking It

Mrs. Lena Bloomfield, a trained nurse residing at 3900 San Jacinto street, Dallas, Texas, is but one among many in her profession who after trying the merits of Tanlac, have come forward with unqualified endorsement of the "Master Medication."

Mrs. Bloomfield graduated in London, England, and for several years followed her profession in New York, Denver and Dallas. Her statement testifies as it does from one of such wide experience in relating suffering will be of interest to hundreds of this section. She is seeking relief. In telling of the benefits she has derived from the use of Tanlac Mrs. Bloomfield said:

"Some time ago I had a severe attack that brought on nervous prostration and I suffered from actual tremors. The headache was so bad I was put out of order and most everything I would eat disagreed with me. I usually have a unique disposition and I try to be cheerful under all circumstances, but I had become so weak and run-down and my trouble weighed on me so much I had gotten to the point where I felt depressed and dependent and had no desire to live or do anything else."

"A friend of mine recommended Tanlac to me and as I was anxious to find something that would relieve me, I got a bottle. My improvement was particularly noticeable when I was on my third bottle, when my appetite picked up and my flesh began to grow. The headache and tremors were particularly noticeable when I was on my third bottle and I was much to be all the time. My sleep is refreshing, my stomach and nerves are stronger and I feel and am much to Tanlac for what it has done for me and will continue to use it for some time because of the good it is doing me."

Tanlac is now sold in Twin Falls by the Pharmacy in connection with Thompson Drug Co., in Mortarport by Murtagh Drug Co., in Piler by A. B. Wood, in Dahl by C. D. Barnes Drug and in Kimberly by W. A. L. Sikes—(Adv.)

TO ALL "TIMES" SUBSCRIBERS

The Mid-week and Sunday editions of the TIMES in the late past have been favored with a large and rapidly growing list of subscribers. Having determined to change from three to six issues each week the publishers propose to show appreciation of such favor by sending the entire six issues of the new daily edition to each of its present subscribers at the same rate heretofore paid for three—namely, \$3.50 per annum.

To secure the paper at this rate it will only be necessary that, before June 1, 1918, all arrearages be paid and advance payment for not less than three months be made on the daily. All amounts now outstanding to credit of each subscriber will be applied in payment for the daily upon the basis stated. So soon as the clerical work can be done, each subscriber will receive a statement of his subscription account with full explanation of the new arrangement. Should any one prefer only the same amount of the paper previously received, one week at the same price, instead of six, he will please notify us at once.

That all may be democratically served alike, new subscriptions for not less than three months will be received at same rate (\$3.50 per annum) if paid in advance prior to June 1, 1918. After that date and other than as herein specified, further notice will be given. To the numerous subscribers who have already paid at a larger rate the excess will be refunded.

TO ALL "TIMES" ADVERTISERS

Although the consolidation of the "Twice-A-Week" and the "Sunday" Times subscription lists will give a larger circulation than was before reached by either edition, the advertising rates will remain for the present as per the "Twice-A-Week" schedule. As the basic principle of one cent per column-inch for each hundred subscribers is believed to be equitable, an increase may be demanded in the future.

Advertisers will find a great advantage offered by the six issues each week, all reaching the entire Times clientele. They will now be able, not only to get quick action when desired, but also to bring any particular article, or line of goods, to the notice of customers at the psychological moment.

It will be necessary that all display advertisements be filed not later than the night preceding the day on which they are expected to appear; and any other advertisement must be laid by 9 a. m. of publication day to insure its appearance.

(Entered at the Twin Falls post-office as second class matter as a twice-a-week publication, October 18, 1916.)

The TIMES is an Independent Democratic newspaper. But it regards the policy as opposed to the most united and vigorous prosecution of the war that is possible. Therefore, it is AGAINST any man, Democrat or Republican, caught throwing hardware into the machinery—either with his hands or with his mouth. If this be "partisan," make the most of it!

FUSION ON SENATOR

As stated in The TIMES yesterday, the talk about Democrats refraining from opposition to our senior senator for re-election emanated from a source, to-wit: the "Statesman bureau" which was opposed at once to the administration, the Democratic party and Senator Borah, and which, in giving its currency, probably as a "feeler," had no road will toward any of the parties mentioned.

Comes now Chairman S. D. Taylor of the Republican state committee, and says that there shall be no fusion and makes a solemn argument against an alleged "Bourbon" proposition to fuse. The TIMES does not believe that a fusion proposition was ever made by any responsible Democrat. It has no "tip."

It has no right and assumes none to speak for Senator Nugent or his confidential friends. But it does not believe that he or any other faithful Democrat, who meant well to him, ever authoritatively made proposition for such an absurd thing as a fusion in this state under present conditions.

Of course, a plan like that suggested by Judge Carl A. Davis, of the Third Judicial district in the Statesman Monday, that a truce be declared and all state and congressional officers now in office be retained for another term to allow all to concentrate on war work would be all right, if feasible, but it is not workable, in the opinion of The TIMES, for reasons that are quite palpable.

Every person familiar with the lay of the land ought to know that the railroad, power and allied industries of this state will go to it that Senator Nugent has opposition to his seat, but that no stone shall be left unturned to keep him from retaining his seat. Under such circumstances the very thought of fusion must always have been evidently ridiculous, even if the nominating machinery would not preclude the possibility of carrying it out.

Obviously, it would be impossible to carry out such "plans" and any thinking Democrat must know it. Obviously, too, the insinuation that such proposition had been made must tend to prejudice some people against the junior senator. Assuming, and it is not a violent assumption, that Senator Nugent is not wholly lacking in common sense, it is quite impossible

to think of his making overtures for fusion under such circumstances.

The TIMES, speaking absolutely for itself, said yesterday and repeats today, that conditions may arise which would make it no act of patriotic expediency to leave vacant the place on the Democratic ticket for the long term senatorship. Colonel Bryan once said that if it were necessary to elect a trust senator, he should prefer a Republican trust senator to a Democratic trust senator. Without applying this saying literally to Idaho, or intimating that it could be applied without reservations, The TIMES will frankly say, that with all its respect opinions and inclinations this paper will not ever see a trust senator re-elected to see a Democratic trust senator elected to succeed him, who would go to Washington with words of fair generalcy on his lips and who would take the first occasion offered to covertly injure the administration and hamper its war policy.

It is a long time until the primaries in September but we do not think what voters ought to begin to think about who will be nominees this fall.

Should there appear a real, big, fundamental Democrat, as much superior to Borah from the viewpoint of real Idaho Democrats as Abraham Lincoln was superior to Stephen A. Douglas in 1858 from the point of view of Illinois Republicans, The TIMES will be for him otherwise, it would consider the proposition as worth pondering of either endorsing Borah as the lesser of evils or of refraining from running against him.

It has never considered fusion possible. It has been convinced that there would be a Republican in the field for the short term, and has been and is equally convinced that fusion talk was originally started as campaigning by the man who expects to nominate and hope to "put over" this Republican candidate.

THE SUPREME CALL

Under this caption the Literary Digest begins a summary of the situation by saying:

The enemy has definitely decided to win the war this year and the fate of the Empire, the fate of Europe, and the fate of liberty throughout the world will depend upon the ability of the allies to collect men and money to the firing-line during the next seven or eight months. That every available man is to be rushed to the front at once is the outstanding fact revealed by Premier Lloyd George's illuminating statement to the Parliament on April 9. Because the crisis calls for great reinforcements to France, Germany's last desperate effort to transmute the iron from the "steel mills of the world," the British government finds it necessary to raise the draft age to 18, and to cancel all exemptions in Great Britain, to extend conscription to Ireland, to call upon the British dominions and colonies for every available man, and to appeal to the United States to accelerate by every possible means the shipping of American soldiers to the front in Europe, Belgium and Bulgaria. If we wish to avoid a war lasting for years, this battle must be won now, and to win it we must have the men to throw at the resources," says the Premier. "France, we are told, has taken up the question of immediately calling her 1819 class to the colors. As the Kaiser's battle develops into a campaign, Donar Law reforms Parliament that we have been able to fill the vacancies in the battle thus far, but according to the figures of the casualties available, the most critical time is the winter, which ends at the end of May or June. To make clear that the extraordinary efforts required to meet the emergency of keeping out of debt for you are already in debt to the full amount of

the loan. Your concern—the United States—has obligated itself to spend the money. The debt is incurred now. The more completely it is taken upon the individual shoulders of the rank and file of the people, the better the country's financial position will be.

The more widely the loan is distributed, the less inflation there will be; and every individual with a debt to pay will have a spur to increased production and greater economy.

"Go in debt for this loan!"

Years ago some one gave a little jargon term, situated on the Teton Valley branch of the Oregon Short Line the German name of Prantz. Now the citizens, backed by the O-S-L, have changed the name to "France," which looks much better if it doesn't sound any different.

Friday night between "Strangler" Lewis and Joe Stecher was increased today by announcement that the former was missing Earl Caddock for the title. The promoters have offered a \$50,000 purse for a championship match.

Great Britain Lacks a Reserve Army

British Officer Requests That We Rush Men Over as Quickly as Possible From the United States

NEW YORK, April 22.—Great Britain has no reserve army to send to France. We tend to never break, but for God's sake get there before we die," was the message of warning which Lieutenant Colonel F. Fraser Fraser, British provost marshal in the United States, sounded for Americans today. "The army and a half million men supplied by Great Britain since the outbreak of the war have fought and died on thirty-seven fronts," he said. "We simply haven't the men, or we wouldn't say our backs are against the wall."

AN EXCEPTION TO RULE

Says the Saturday Evening Post: There are always exceptions to the rule. Right now there is an exception to an excellent rule: Go in debt for this liberty loan. Calculate how much money, with reasonably good sense, you can expect to have in hand during the next six months. Subscribe at least that much. Then hustle all you know to pay it up.

Really, there is no question here of keeping out of debt for you are already in debt to the full amount of

THE KNEW HOW TO COLLECT. No Trouble at All for Mrs. Sandy to Bring the Pleas Mr. Goodman to the Scratch.

"I don't suppose that I shall ever get this bill settled," sighed Mr. Sandy, the town accountant, looking carefully at a small piece of blue paper.

"Why not asked the partner of his joys and sorrows, the town clerk, looking carefully at a small piece of blue paper.

"I've asked him for it," said Mr. Sandy, "but he says that he can't get it. It's a big one."

"That was Saturday evening. On the Monday evening the bill and the cash book were in his hands."

"How did you manage it, my love?" asked the bookkeeper in amazement.

"Oh, it wasn't much trouble," said Mrs. Sandy, quietly. "You would have understood. When I brought round the bill for the collection, I just put that bit into the plate, folded it up in my pocket, and there it was."

"I don't know how you did it," said Mr. Sandy, "but I'm sure you did it."

# EL PASO MOVED BY REPEALS OF COMING CLASH

## FORTIFIED FORCES OF MEX. TOO GAUERING APPEARENCE

### War Department Unalarmed by Situation

Conditions South of the Border Said to Be Due to Economic Causes—State of Affairs in Now Thought to Be Difficult.

EL PASO, Texas, April 23.—Reports of an impending clash between Mexico and United States troops in the Big Bend districts are received here, with news that 5,000 Mexican soldiers under General Lucero are being transferred to leaving the district in large numbers, being said to be ready to march on the rail on the White ranch near Santa Rosa, where horses and cattle were driven off.

The situation at Marfa has been heavily reinforced. Large bodies of Mexican troops continue to concentrate at various points and trouble is anticipated.

WASHINGTON, April 23.—Concern over Mexican military movements on the border, but especially in the Ojinaga-Juarez section, is believed by officials here to be the result of speculation by Germany and Mexico. However, the war department advises do not indicate that immediate trouble will be feared.

The entire situation, war department officials say, is in the hands of the commanding general of that district, General Pershing, who has been received here which indicated any danger of an outbreak. There has been no "loss" of soldiers for several months along the border and there have been several outbreaks in the Tampico oil district, but they have been of an order which officials say they have been due chiefly to the disturbed economic conditions in the district.

It is known that the Mexican forces are "backing" their position, greatly strengthened by the use of machine guns. At many points they are entrenched but there is doubt here as to whether they are in a position to make the information available here. Pancho is now in the southern Chihuahua and a negligible quantity of Mexican troops are reported to be spreading south through northern Mexico, charging that the northern States intend invading the northern Mexico.

Officials here refuse to discuss the Mexican situation for publication. It is delicate, they point out, and disclosure would make trouble. However, it can be stated that there are sufficient troops in the southwestern district to afford the usual protection to American interests, but the matter which emergency may arise.

## British Budget Is Introduced

Immense Home Spent and Loan—Increased Taxes for the War Are Proposed—Hans Tazewell.

LONDON, April 22.—Great Britain's gross national debt was estimated at \$2,500,000,000 pounds at the close of the year. The budget for the financial year beginning April 1 will be £2,312,000,000 pounds sterling while the chancellor reckoned the revenues from old taxes at £740,000,000. The revenues from new taxation was estimated at £5,000,000,000 pounds.

# RAILROAD MEN TO GET SEVENTY-FIVE MILLION

## BACK PAY, COMING WHEN McADOO APPROVES COMMISSION FINDING

### Increase Retroactive to January 1

Railroad Director Makes Patriotic Appeal to Men to Invest in Liberty Bonds All Such Accumulated Savings.

WASHINGTON, April 23.—Seventy-five million dollars, it was estimated in railway administration circles today, will be turned over to the railway men of the country as back pay when Director General McAdoo approves the findings of the railway wage commission. This of the generally conceded belief that the commission will grant general increases of 25 per cent. It already has been known that any increase allowed will be retroactive to January 1.

In an appeal to the railroad employees of the country to support the Liberty loan, Director General McAdoo announced that the report of the wage commission would be made public on his return from his tour through the states. He announced shortly after possession and control of the railroads was assumed by the government that if the report of the investigation would become effective it would be as of January 1, 1918.

## al Oak and that he burned the body.

TOYIAC, Mich., April 23.—Workmen today are digging over every inch of the yard at the home of Albert Schmidt, in Royal Oak, Mich., in an attempt to clear up the mystery of the disappearance of Miss Augusta Steinbach, who has been missing from her New York home for more than a year.

## Willard-Fulton Bout Up Before Commission

Should Leave No Trained Fight With Take Fight—Fanning Details Wallace of Denver.

ST. PAUL, Minn., April 23.—If the state safety commission now session here today approves the Willard-Fulton boxing bout July 4, the last barrier in its path will be removed. It is believed the state boxing commission has put its OK on the bout after an agreement with Colonel J. C. Miller and Willard that they get their share of the fight. In Liberty Loan bonds, Colonel Miller agreed to give 15-20 per cent of the gross receipts to the Red Cross fund and he also agreed to give 25 per cent of all money received from the fight pictures to the restoration fund of the army.

DENVER, Colo., April 23.—Arlo Fanning, Oklahoma lightweight, today in victory over the Wallace of Denver, made a decision last night at the end of fifteen fast rounds of boxing at the Lakeside A. C. Fanning showed much improvement over his last appearance in Denver, using a fast left that seldom missed its mark. The new man will be met by Johnny Jones of Iowa, here today.

"I hope that every railroad employe will be as well as the money he can, consistently with his individual circumstances, to his government, by buying Liberty bonds."

## Seek Body of Girl Who Disappeared

Helmut Schmidt of Michigan Arrested on Charge of Killing New York Woman.

DETROIT, Mich., April 22.—Helmut Schmidt, accused of the murder of Miss Augusta Steinbach, a New York girl, killed himself in a Michigan park police cell last Monday by striking his head against the steel bars of the cell. A few minutes prior to killing himself, Schmidt told police that Augusta Steinbach had committed suicide at his home in Royal Oak and that he burned the body.
