SENATE COMMITTEE AGAIN TAKE UP WORK OF FIND. L. S. FLAWS

Aircraft Program to be Further Aired

Borglum's Profiteering Charges Made the Basis for New Kick by the Men Opposed to the Conduct of the War.

WASHINGTON, May 3.—The war was paved this afternoon for a reopening of the army investigation on a sweeping scale to include the aircraft program, ordnance production and the quartermaster's corps. This was stated following a meeting of the senate military affairs committee which was held in the senate chamber.

Von Hindenburg Still Unable To Renew The Great Drive

Proposal for England to Buy Liquor Business of Empire

LONDON, May 3.—The English, Scotch and Irish committees that have been considering the financial aspect of the purchases and control of the liquor trade in the United Kingdom have issued a report proposing between \$2,000,000,000 and \$2,500,000,000 as the purchase price. The report avoids questions of policy.

The Chronicle in commenting upon the proposed purchase, says it would enable the government to reduce the number of licenses, insure a wholesome beverage, economize in labor and eliminate the demoralizing influence of exploiters.

The Scotch and Irish section of the committee proposes a separate purchase of stock aside from other assets. All affirm the principle of buying on the basis of pre-war profits and capitalization.

The English section of the committee recommends the purchase of breweries within fifteen years, the Scotch within eight years and the Irish within thirteen years. The government is to control liquor export.

ARMY EXPANSION PROGRAM WAS SET IN MOTION THIS MORNING

Secretary Baker Presents Views to the House Military Committee—Approximately a Million and Half Men Contemplated in the Call—Expected to be Issued Tomorrow—Wants Power Given President to Commandeer Needed Supplies—Nearly Fifteen Billion Dollars Will be Required for War Budget.

WASHINGTON, May 3.—The administration army expansion program was set in motion today. While Secretary Baker elaborated his tentative plan for putting three million men in France before the house military affairs committee, the chief of the general staff, General Pershing, was busy preparing the largest draft call since the United States entered the war.

By working all night the program was generally believed the call which will be for approximately 1,500,000 men could be issued tomorrow. Secretary Baker today gave information on which the numbers of men and amounts of money that would be required to carry out the program. The bill at approximately "somehow" over thirteen billion, will not be approved, fifteen billion," members of the military committee said today.

Secretary Baker this afternoon wrote Senator Chamberlain of Oregon, chairman of the senate military affairs committee, urging prompt action on the bill empowering the president to commandeer any real or personal property necessary to the conduct of the war.

The measure was sent to congress by the war department some weeks ago. It was referred to the senate military affairs committee where it met with the unfriendly reception because of the extraordinary powers it conferred upon the president.

Mr. Baker in his letter this afternoon informed the committee that passage of the bill is urgently needed to enable the war department to take possession of the property for convalescent hospitals and other buildings necessary to the war department.

When he left the house committee today today Secretary Baker said he had nothing to add to his statement. "I had today all I wanted the newspapers to know he added. He admitted, however, that the total estimates submitted would be near 15,000,000,000.

It would be appropriated for the ordnance and quartermaster corps will be in the neighborhood of \$11,000,000,000, for the army corps consisting of \$1,000,000,000 and for the engineer corps \$1,000,000,000. The major part of the engineering appropriation will be used for the construction of training facilities and for railroads abroad. The intention of the war department to train men in this country is being rapidly and to train men abroad was emphasized by Secretary Baker. The national guard cantonments probably will be turned into permanent cantonments. He indicated that the present cantonments will be destroyed, but under present conditions no new ones will be built.

Secretary Baker stated to the committee his unalterable opposition to raising the draft age to 40 at this time. His position is grounded on the assertion that it would interfere with necessary industries to take these men. He indicated at the same time his intention if possible to continue the drafts to be made during the next twelve months to the men now listed in class I and the additional 500,000 that will be made available under the bill to register all who have become 21 since June 5 last. If this policy is carried through, class I will be exhausted in raising the armies contemplated by the authorizations being asked by Secretary Baker.

PIAVE SCENE OF NEXT FIGHT SAY THE ITALIANS

MILITARY EXPERTS BELIEVE THAT MOVE WILL BE MADE THERE

Would Relieve West Front Huns Hope

People Are Losing Hope of Their Army Being Able to Break Through.

London Newspapers Indicate That

LONDON, May 3.—Correspondents with the Italian army on the southern front have predicted heavy fighting along the Piave river.

It is believed that the Germans will insist upon an Austro-Hungarian offensive against the Italians in an effort to relieve the pressure against the Germans on the western front and to prevent the further sending of Italian forces into France.

Some correspondents corroborate a report printed by the Berlin newspapers that the German army work was carried out in Flanders and transfer the drive to Italy.

From more than one German source the news has come out that the German people are quickly losing hope of winning on the western front and that they are deeply depressed by their reversals.

The text follows: "Patrol activity continues on both sides. We captured several prisoners. The heaviest fighting was carried out. Explosions resulted in enemy battery positions. Our air forces destroyed twelve enemy airplanes. We lost three. The total enemy airplanes destroyed since the arrival of the British in Italy is 109. In the same period we lost 15."

Poland Ignores the Whole China Issue

Congress Are Established Without Regard to the Ukrainian Claim—Red Guard Army Has Surrendered.

LONDON, May 3.—Poland considers the Chinese non-existent and is establishing corps despite the Ukrainian claim said a news agency dispatch from Copenhagen today.

When Germany made peace with the Ukrainian rade the district known as Chelm was promised to Ukraine. It is the fact that it is part of Poland.

FRENCH WIN FRESH SUCCESSES AGAINST SOLDIERS OF WILHELM

Growing Intensity of Artillery Fire Indicative of Probable Move—Germans Again Massing Forces for What Is Believed to be New Attempt to Break Through the Lines—Foch Has Strengthened All Threatened Positions and Is Ready for Any Contingency—French Critic Says Germans Will Fight to the Finish to Try to Close War by Sword This Year—Report That Mackensen Will Lead 600,000 New Troops Against West Front Discredited.

PARIS, May 3.—French troops have scored fresh successes south of Villers-Bretonneux and made slight advances in minor operations elsewhere, according to the statement of the French war office today. The official text says:

"In the region of Villers-Bretonneux, violent bombardments were maintained on both sides and there was lively fighting near Moncourt, where we advanced."

"South of the Avere river late yesterday we succeeded in minor operations. We attacked German positions between Hailes Castel and captured Hill 82. In our operations we captured more than 100 prisoners including a number of officers."

"In the region of Allette the enemy claims to have repaid our attacks."

"Our patrols brought back a number of prisoners in the Lorraine and Wevercy sectors."

LONDON, May 3.—Efficient reports that Marshal von Mackensen will command the next blow against the allied forces and that the assault will be made by 600,000 fresh troops are discredited by the Central News dispatches today. It is also denied that the British are using soft-nosed bullets as alleged by the Germans.

(Frank Charlton, I. N. S. Cable Editor)

The staggering defeat administered to the Germans on the Flanders front last Monday by Anglo-French forces is still making itself felt.

Von Hindenburg has not yet been able to renew his drive, but there is a growing violence of artillery fire over a wide area from Givency, immediately north of La Bassée canal to a point south of Ypres, where Monday's fighting centered.

Nor have the Germans been able to renew their thrusts on the Picardy front.

There was local fighting around Villers-Bretonneux, nine miles east of Amiens, during the night which ended to the advantage of the British enabling them to improve their positions.

Violent artillery duels have raged north and south of the Avere river (Piedra river) near which Americans are holding part of the battle lines.

The Germans are reported to be massing fresh forces and it is accepted as a foregone conclusion by French military critics that the end of the struggle is not yet in sight.

While the Germans have been reorganizing their shattered divisions and bombarding, General Foch has been active, strengthening his positions before Amiens, Arras and Ypres and moving reserves to strategic points. No matter where the next German thrust falls the boches will find the allied forces ready to meet them and give them blow for blow.

This was the 44th day of the grand German offensive.

Near Bomb Found at Twin Falls Hospital

A hurry-up alarm came to the sheriff's office about 10:30 this forenoon from the Twin Falls hospital.

It was thought that a bomb of some description had been found in the coal supply and a real and not unreasonable alarm spread itself among the employes who were informed. If there were any piece of coal so wickedly loaded, no one could tell how many others there might be or when one of them might go into the furnace or range. (Hurry the alarm!)

The sheriff and Deputy Lawrence made quick time to the scene and a careful examination followed. The large piece of coal which caused the alarm was found to contain a subterranean fuse, with the lamping still in place around it. But the bomb, or dynamite stick, with which the fuse should have been connected, was conspicuous by its absence. The explanation offered by the sheriff was that the fuse remained from mining operations but that while the charge to which it was originally attached may have been hoisted, loose several tons of coal, it still failed to throw out the fuse and lighting, being the electricity at the hospital.

TWIN FALLS BANK & TRUST COMPANY

SO DOES THE OSTRICH

WE HAVE all read of the ostrich, that extraordinary bird of the desert, which dines on scorpions, lanches on stones and when danger threatens his head in the sand and believes himself safe from harm, because he cannot see his danger.

Pictures to yourself this glaucous bird, taller than a man, resting in fancied security because his head is hidden from view, although his body can be seen for miles around.

There are too many of us who adopt the tactics of the foolish ostrich. We are told of an impending danger and think that we can escape it or avoid it by refusing to face it.

We are informed that there is great danger of restriction of our facilities for local trade if our local business men are not given better support; that we must find ourselves deprived of the opportunity for marketing our farm produce in our home town if our storekeepers find themselves stocked up with goods, but with no adequate volume of local business.

What is more natural than that this may be the case if we do not stop sending our money away from home to the mail order houses in the big cities? If we do not, we will find out, in all probability, that our local merchants will look for other locations than in our town.

Which is the wiser thing to do—to look the conditions squarely in the face and take the steps necessary to counteract them, or shall we, like the foolish ostrich, refuse to face the conditions and decide to take the consequences of them?

We can permit matters to drift along until the inevitable occurs, or we can think things over, carefully and with judgment, and take the steps necessary to protect our interests—the interests of ourselves, and those who will come after us.

Our community is built-up as the result of various interests, not the least of which is the tributary farming population. Our town was created because of the various interests that center here and because this is a natural point for the distribution of the products of the surrounding farms. The life of the farm produces brings the money for the buying of the merchandise, while the merchandise supplies the necessities of those who raise the crops. It therefore follows, naturally as one of the unfeeling laws of civilization, that IF IT WERE NOT FOR THE FARMERS AND OTHERS WHO PRODUCE THINGS FOR THE MARKET, THERE WOULD BE NO OCCASION FOR THIS COMMUNITY. THERE WOULD BE NO NECESSITY FOR STORES AND SHOPS.

On the other hand, were it not for the stores that are the mediums for the marketing of the crops, there would be a great lack of facilities for marketing and farming would not be so profitable as we now find it in our community.

If the business men of our town do not afford the requisite facilities for marketing such crops as must be handled locally in order to give full advantage to the farmer, then the farmers will find out that they must look for a market elsewhere or accept a much smaller profit on that which they have to sell.

On the other hand, if the farmers do not do their share toward the support of the business men by spending the money locally and keeping the circulation in our own town, instead of sending it to the mail order houses, then the local storekeepers will find it necessary to restrict their investments in goods for the local market, thereby resulting in a diminishing of the facilities for getting what we need at home.

This is a point we must not fail to observe. We must look the conditions squarely in the face and arrive at a conclusion as to what steps are necessary to preserve and to maintain the conditions which make for prosperity.

If we fail to do this, or if we temporize and let matters drift, we will find that we have ourselves brought about a most local and hopeless situation. WE NEED THE MONEY AT HOME. PATRONIZE THE LOCAL BUSINESS MEN. KEEP THE MONEY IN CIRCULATION IN OUR HOME-TOWN. WE NEED EVERY DOLLAR AT HOME TO HELP THE COMMUNITY.

Fighting Prowess Is a Gift of Nature

So Says Jack Dempsey, Who Claims Fighting Ability Is With You, Like Red Hair.

By Jack Velock

NEW YORK, May 2.—"You don't have to learn how to fight. It's a natural talent. It's with you, just like a pug nose or red hair."

This is Jack Dempsey's definition of fighting ability. He believes it is an inborn talent, and he says the bled who tries to make a reputation in the ring without it has about as much chance to fight you as a pug nose or red hair.

"You've got to have the fighting heart," says Jack. "And if you don't like to fight you can't make yourself that you haven't got it."

"Learning some of the fine points about fighting may be all right," he says, "but you've got to know how to keep within the rules. But when you get into the ring with a stranger you've got to make your own fight and you've got to do it as you go along. Trying to get the low down on the other fellow in advance doesn't get you a whole lot of good, for you may find there figuring on fighting along certain lines and then change it all after you get started. Take it from me, fighting instinct is with you when you are born."

Dempsey ought to know something about it, that, for he had had his ups and downs. Many a young chap would have quit the ring cold after getting the idea of a rock for you may get when he broke in; and Dempsey almost concluded at one time that he was a fighter. But the old fighting instinct kept spurting him on. Otherwise he would be working in a Seattle shipyard today instead of training the Willards and Puttans of the heavyweight division.

When Jim Flynn gave Dempsey a hard, right swing to the jaw about a year ago, Dempsey was a crestfallen young man. But he realized that he was in condition when he met Flynn and that he had taken a bout with one of the toughest old-timers in the ring on an almost even chance. He didn't exactly give up hope.

What he has accomplished since he came back to the ring is well known to fight fans all over the country, and even though he needs with some setbacks in fights to come he will bounce back at the best available man in his division. Dempsey figures that you can't keep a fighting man down.

War Laborers Are Praised by Daniels

Secretary of Navy Gives High Credit to the Men in the Big Shipyards

PHILADELPHIA, May 2.—Extolling the high standard of patriotism in the rank and file of America's war-laborers, Secretary of the Navy Daniels, in an address this afternoon to the workers at the League Island Navy yard, predicted that in the last analysis the greatest war "triumph" would be that the men who labor, the men who bear the heat and burden of the day, either in the trenches, on ships or in the yards or plants, are "mainly responsible for the winning or losing of the present war."

"The crying need of the hour," the secretary said, "is ships and ships and more ships, and they must be fashioned by skilled, intelligent and willing hands."

Failure of the U-boat war on the troop transports is not the greatest disappointment, the "saddest" has been the failure of the war "triumph" of the ships and ships and more ships, and they must be fashioned by skilled, intelligent and willing hands.

"Labor men are turning out more supplies and ammunition than ships can transport overseas," said the secretary.

In a review of the administration and congress-attitude toward labor during the war, the secretary promised "that labor's rights have been and will continue to be in safe hands."

BRITISH LINER SANK

UBOAT ON RETURNING

Forteen Ships Towed Before the Submarine Went Under to Seek the Bottom of the Sea.

AN ATLANTIC PORT, May 2.—A big British liner which recently carried 1,300 men and 140 ships was towed to France, returned here today with the report of having sunk a U-boat on the return trip. Twelve passengers and a number of Canadian and British soldiers who are to take part in the final hours of the Third Liberty Loan drive in New York city reached the continent.

From a distance of a mile and a half the U-boat was seen, which went wide of its mark. As she dashed after the liner, the submarine fired her torpedoes, but they were all ineffectual. The steamer's crew crewed the action and sent 18 ships at the submarine. The gunners say that the 13th and 14th ships were destroyed, as the U-boat vanished and was not seen again.

General Prohibition of Export Inexpeditious

Lord Ballou Makes Report on Matter of Resolving Allied Goods From Post After War

LONDON, May 2.—The Post war committee, headed by Lord Ballou, reports that a general prohibition of exports to present enemy countries after the war is impracticable and would be a serious handicap to resolution can be carried out if a policy of joint control over certain commodities can be agreed upon by the allies.

It adds that the government should consider the expediency of establishing a post-war joint committee to deal with reconstruction and such private orders as it is expected to control.

It may be well, it was stated, in exceptional cases, for the government to purchase certain raw materials when the supply needs are great.

LONDON, May 2.—The later-alled committee of war transport has concluded its sessions, and has recommended the question of restricting the trade of certain commodities to the allied regions. The French, although they have stated that they are not interested in restriction French merchandise men for allied use.

The committee's recommendation is to be reported to the government.

WORLD MAY 'TIRE OF YOU'

WHITES VETERAN SUICIDE

MEMPHIS, Tenn., May 2.—"Don't try to live too long, or the world may get tired of you. As for me, I am tired of the world. I go without food or sleep. These words were pronounced in a note found" beside the hollow body of Dr. W. Collier, seventy-eight, who had served as a lieutenant in the army of the Confederate States of America from 1862 to 1865.

The veteran showed carefully in his gray hair, white beard and eyes, and his relatives and then sent a bullet crashing through his brain.

L. W. W. TRAIL ON BEFORE LANDIS

Frank E. Nebeker's Precious Case to Jury, Strongly Scoring the Organization Leaders on Trial.

CHICAGO, May 2.—After nearly a month of jockeying, spent in getting a jury, the L. W. W. trial got under way today with Frank E. Nebeker, assistant attorney general, making the opening statement for the government in Judge K. M. Landis' court.

"He outlined the nature of the evidence, declared it had all been taken direct from L. W. W. headquarters, from files, from records and from books in those headquarters. And then he read the indictment. At one point he startled 'Big Bill' Hayward, midwestern chief of the 'Wobblies' out of his complacency when he said that the L. W. W. membership now is between 40,000 and 60,000.

"He hasn't the complete membership files," protested Hayward, "Why have I got a local unit west with over 45,000 members."

Nebeker charged that the defendants in following the precepts of the L. W. W. masked as "conscientious objectors" and "rebels." He stated that the government will endeavor to prove "that the defendants would fight only under the red flag of France, if forced to enter the army or navy, to practice sabotage in the army or lay down their arms in the presence of the enemy."

DANGEROUSLY SLASHED

NEW YORK, May 2.—Harry C. Colter was seriously slashed about the face by Walter Hawthorne, a Knoxville knitting mill salesman, who was escorted Mrs. Hawthorne to her home at 3 a. m. Hawthorne, who had spent most of the night searching for his wife, was held today for felonious assault. Mrs. Hawthorne, whom Colter had known as the "Dollie of the Blue Grass Region," in Hawthorne's years ago, expressed pleasure over the announcement of the police that her husband was being taken to a cell.

TWO AUTO BANDITS KILLED IN BATTLE

NEW CASTLE, Pa., May 2.—Two auto bandits were killed in a battle with police officers here today. The officers were wounded, one probably fatally, in gun battles with officers of New Castle and Youngstown, O., last night. The dead bandits were Pasco Taylor, 35, and Theodore Grims, 33, both of Detroit. Police-James James shot and killed Taylor about three times and will likely die. Captain of Police A. L. Jenkins of Youngstown received a cheek wound. The men were attempting to rob strangers here and fled to Youngstown.

AMERICANS BEHAVED WELL DECLARES FRENCH CRITICS

PARIS, May 2.—The Americans who took part in the fighting on the Picardy front on Tuesday displayed splendid capacities during the enemy's fiercest coup de main and gave him a bad time, capturing several prisoners, said Marcel Huille, famous French military critic. He added that the Americans were much admired by competent judges. The Germans are getting their breath now, said the Parisian in commenting on the battle situation. Only artillery has been working in the sectors of Draupont and Lezra, south of the Yser river and Bethune. There has been some activity, however, on the Somme and Aves rivers.

GERMANY TRYING TO SUPPRESS SOCIALISM

LONDON, May 2.—Germany is trying to stamp out socialism, it was asserted by the German delegate to the Young Socialists congress at Olgen, Switzerland, said a dispatch to the Daily Mail today. Private meetings are suppressed and typing machine propaganda has to be distributed at danger to life and liberty. Youthful camps distributing pamphlets are sent to the front, sent into penal servitude or shot. Thousands are languishing in German jails on mere suspicion.

OVER MILLION TONS OF SHIPPING IS AUTHORIZED

WASHINGTON, May 2.—One million tons of wooden ships, authorized in one day, making additional 200 ships to the emergency fleet, will be contracted for within the next few days, it was said at the shipping board today. This is the biggest expansion in the wooden ship construction since the emergency ship was announced its original building plans for wooden vessels. Chairman Hurley of the shipping board said today that contractors who buy contracts under the specifications and whose ships will be of the Ballines Donnybeg type, he said. Each to build and deliver approximately 4,700 tons.

THE CLUB HE FEAR

The time is coming when the mail order houses will be a thing of the past, but it may take sometime. Reliable publications all over the country have refused to carry advertising for the mail order houses, knowing that the statements made by them are not always true. How long will the Government continue to act as carrier for these concerns, when the reliable publications everywhere have classed them as undesirables? Investigation is what the catalogue house fears—but it is coming.

Why, then, should you give your patronage to concerns of this character? They are the greatest drawback to our community welfare. Be wise—forget this habit, trade with the local merchant now and all the time.

WHY LET "GEORGE DO IT"?

If you are one of those who regularly sends out community earned dollars to enrich the Mail-Order man, why not "take stock" of yourself and see the amount of damage that results to your neighborhood and your home merchants by such action. You act as a brake to the efficiency of your home town, you add to the wealth of a distant community instead of your own; you discount the ability of your own merchants to give you and your neighbor the best and you fall in that fine quality of citizenship that stands for the upbuilding of your own home and your own state. Don't shift that duty to your neighbor. Get behind and push. Don't let "George do it."

WAR RESOLUTION WILL BE DEFERRED SOME TIME
Senate Committee Decides to Refrain From Action After Talk of Secretary Lansing.

WASHINGTON, May 2.—Congress will not act for some time on the resolution declaring war against Turkey and Bulgaria.

The senate foreign relations committee decided this afternoon to make no immediate report on the resolution following a conference with Secretary of State Lansing.

Mr. Lansing spent more than an hour in secret session with the committee. He took no decided stand on the resolution but merely presented the substance to the committee. He admitted there were reasons for declaring war upon Turkey and Bulgaria, but insisted there were also reasons why such a declaration should be withheld at the present.

MORE MACHINISTS LAID OFF SHORTLY IS BELIEVED

CHICAGO, May 2.—More machinists are expected to be laid off today in the brass and iron foundry strike, which is affecting government war work. Two thousand men will be out in a few days if the strike continues, it was said. W. J. Michael, president of the Foundry Owners' association,

said the owners would not concede more than their offer of \$526 for eight hours, and that if the men refuse to accept the terms the government would be notified that the founders cannot fulfill their contracts, with the result that the work will be transferred to other cities.

INTERNATIONAL FIGHTERS THE TWO BIG LEAGUES

NEW YORK, May 2.—With their backs to the wall, and the national agreement as their chief weapon of defense, the club owners of the new international league were prepared today to fight to a finish to protect territory which the major leagues have planned to invade. Announcement to the effect that the New York Yankees and the Boston Red Sox were scheduled to play a regular championship game at the old Federal league park at Harrison, N. J., next Sunday left no doubt as to the stand of the major leagues. Harrison, which is a suburb of Newark, is within the zone which comes under protection International league territory, and John H. Farrell, president of the new formed league, has already granted the organization protection as he is secretary of the National association.

TWO MEXICANS KILLED

KANSAS CITY, MO., May 2.—Two Mexicans were killed and three others severely wounded in a gun fight with policemen early this morning. Patrolman Albert Leppert was slightly wounded in the shoulder. A quarrel which began among the Mexicans over the sale between Mexico, Germany and the United States, in which some men stood up for Germany, started the men fighting among themselves. When the police arrived, part of the Mexicans fled but those who had stood up for Germany began shooting at the officers, who returned their fire.

SPRINGFIELD DISCESS IN ANNUAL SEROD TODAY

LINCOLN, Ill., May 2.—Celebration of the holy eucharist here this morning opened the first day's annual serod of the diocese of Springfield. St. Raphael church, Vermont St., St. Charles acted as pro-cathedral.

A large number of representatives from central Illinois is in attendance. The synod will continue throughout tomorrow.

The women's auxiliary is also in session.

The evening's short mission service will be held. It will be followed by a reception to the synod and auxiliary at the home of Judge B. A. Foley.

Tomorrow Bishop Granville Sherwood, who is presiding over the meeting, will celebrate the corporate communion of the women's auxiliary.

"Knights of Liberty" Extend Workings

Hasg One Man Charged With Blasphemy and Bar and Feather. Another After Tyrill Him.

SAN FRANCISCO, May 1—That the Knights of Liberty, members of which include the mayor and city clerk, and several other prominent citizens, and are said by Kester to have hanged another man, has organized branches all over the state and will start a drive against disloyalty, was stated in a telephone message to the Associated News Service today. Meanwhile a search was started today for the second prisoner who is declared by Kester to have been tried with his last and that he believed paid the death penalty. The officials think the second man was not a prisoner, but was merely used to disguise Kester.

"The Knights" were black gowns and black "hanger's caps" that completely hid their features and clothing. They took Kester from his bed, put him into an automobile with the other "prisoner," dashed into the streets where they formed a mob, held under a bridge, found both men guilty of disloyalty and sentenced them to be hanged. Later today Kester's sentence and brought him to the McKinley monument in San Jose, where they chained him to it and applied a electric coat of tar and feathers.

WHOM DO WE SUPPORT?

WHAT if we should go to one of our local storekeepers and say: "Here is a ten-dollar bill; I want you to buy for me such-and-such an article, made so-and-so, of this color, that size, and deliver it to me at your convenience"—say 20 cents.

We would then have treated our local storekeeper with the same liberality as we who have benefited of the mail order houses, have treated these non-resident storekeepers. We would have then supplied him with cash capital sufficient to buy what we ordered and give him a fair profit on his sale.

Yes, we would thus enable him to take a trip to the city, buy from the manufacturers the articles desired, ship them to us, spend a day or two enjoying himself if he so pleased, and let him a fair percentage of profit over and above the cost of the articles and his expenses.

DO WE DO THIS? YES, WE DO NOT.

But this is exactly what we do with the mail order man in the big city. We send him the money in advance. He sends us whatever he chooses and if we do not like it we can write for our money.

He takes our money and buys that which we have ordered. Then he may take a trip to Europe if he so wishes, all at our expense.

Few of us realize that we, the people outside the big cities, furnish the bulk of the funds for the big mail-order business. We do not stop to think that it is our money which is building these great structures which are the pride of Chicago and some other cities. We do not stop to consider that we are the capitalists who are supplying the sinews of war against our own local business men.

JUST FIFTEEN OF IT—DIVIDENDS OF FIFTEEN MILLIONS OF DOLLARS PAID TO THE BIG MEN IN THE MAIL ORDER BUSINESS AS A PROFIT EACH YEAR ON OUR MONEY.

We send the cash in advance to them. They require practically no investment except for the printing of their catalogs and other stationery. They send us catalogs of business on the money which we pay ahead of time and they send us goods to them, when we are only cutting our own throats and helping to diminish the prestige and strength of our local tradesmen.

What would be the result if we should hand our dollars in advance to our local storekeepers and give them the same chance to make profits, without investment? What would be the effect on our community?

It would mean prosperity for us all. It would mean more taxes to be paid by our business men; improvements of a municipal character, better school facilities, better street lighting, better paving, etc.

Of course, our local storekeepers do not expect us to do business in this way. Yet who should we not? We do it with the mail order houses and when we are fooled we take our medicine because we are ashamed to let our friends know how we have been hoodwinked.

But we should do this—we should give all of our business to those men who have made their investments in our town, who are trying to build up the community. We are paying the taxes and who are getting the value of our real estate holdings. We all know that the value of our houses and lots here in town will be increased as the community advances in prosperity and health in proportion to the advance in the prosperity of our business men.

SHOULD PATRONIZE THE MEN WHO ARE TRYING TO HELP OURSELVES.

What are all hopes to advance. We all hope to become prosperous. When we buy from the mail order houses we are helping monopoly to get our storekeepers out of business. When we send a dollar to the big city, instead of spending it at home, we are depriving our children of some of the opportunities for education, which they are entitled to.

Let us spend our dollars here at home, with the merchants who are trying to keep up the schools and other local advantages which we cannot have if we buy from the big cities.

Let us wake up to a consideration of our best interests. Let us support those who help us and our children.

ST. PAUL, Minn., May 3.—Everything is set for the best horse tonight between the two heavyweights, Jack Dempsey and Billy Miske.

Dempsey is a favorite today with odds of 10 to 8. Betting is heavy. With the arrival of a big gang from Chicago today a lot of money is expected to be brought in to bet on the Pacific coast boxer.

Swiss and German Negotiate Slowly

Teuton Empire Wants to Force Republic to Enter an Economic Agreement—Cool Important.

PARIS, May 3.—Negotiations be-

tween Germany and Switzerland for the renewal of the economic agreement are progressing tediously, said a dispatch to the Path Parisian.

Directors of the Swiss federal railway fear to break in upon their coal reserves, the dispatch added.

Switzerland has been getting her coal supply from Germany. Germany taking advantage of this condition of affairs, has been attempting coercive measures.

Peace Pact With Rumania Is Ready

Signing Expected by Hun to Settle Dispute Between Turkey and Bulgaria Over Boundary

LONDON, May 3.—An Exchange Telegraph dispatch from Amsterdam quotes the semi-official German newspaper Cologne Gazette as saying that a peace pact with Rumania will be signed at once and that it will settle the Bulgarian and Turkish frontiers.

Recently it was reported that Bulgaria would cede some of the territory taken from Turkey in the first Balkan war if Turkey would recognize Bulgaria's claims in Dobruja.

LETTER IN THE MORNING MAIL

How Mrs. Lane Finally Realized That Thousands of Other Mothers' Sons Are at War Scattered Battle Front.

By MAXIMILIAN FOSTER Of the Vigilantes.

Mathematics teach us that if from 1 leaves nothing and there is also the well known biological theorem that you cannot get blood from a turnip. It is also assumed, Sir Isaac Newton having demonstrated the law, that what goes up is bound to come down but this is only abstract. Mrs. Lane probably would have denied it.

Hard to Make Ends Meet. One source for the war? That you think she was doing anyway? She was giving every cent she had, trying to make both ends meet in her household. It hurt, though, Mrs. Lane was a kindly, warm hearted woman, and she would have liked to give.

The letter came in the morning mail. Mrs. Lane read it, then she read it again. She was a kindly, warm hearted woman, and she would have liked to give.
