ARREST OF SINN FEIN PLOTTERS BY BRITISH BRINGS HARM TO ANY MOVE

GOVERNMENT ASKS FOR VOL- UNTERS TO AVOID CON- SCRIPTION

Leaders of Revolution- ary Move Jailed

Leading Organ of the Nationalist
Protest Against Draft Requi-
sitions the German Sympathizers
in an Editorial.

The Irish Nationalist
(I. N. S. Staff Correspondent)
LONDON, May 18.—Faced with the
possibility of a revolt in south Ire-
land following the arrest of sev-
eral leaders of the Sinn Fein party,
the government has ordered the new
draft law to be enforced in the north
and south alike, but has refused to
submit a proclamation calling for vol-
untary enlistments.

The proclamation, it was said, was
issued from the hope that it would not
be necessary to resort to "compul-
sion" to gain Irish recruits.

In a previous paragraph the lord
lieutenant had stated that it had come
to the attention of the government
that certain subjects of King George
today had had a meeting at which
able communication with the Germans
and that the government is attempt-
ing to have Ireland quiet in the
contingency of its proper
strength without recourse in con-
scription.

The lord lieutenant's announcement
was the first intimation that aban-
donment of the Irish conscription plan
was even remotely possible. While it
has been stated that the danger of
recruits and block the German-Sinn Fein
plot, it is considered certain that it
will result in a general strike which
anxiously aroused by the possibility of
enforced war service.

"Meanwhile," says the Chronicle's
Dublin correspondent, "the danger of
the enforcement of conscription may
be finally and definitely put aside."
The Freeman's Journal (of Dublin)
says:

"While it is possible that a few fol-
lowers may have conspired to fol-
low the lead of the Sinn Fein party
withstanding the proclamation of
England, are not pro-German."

LONDON, May 18.—Thirteen leaders
of the Sinn Fein in Ireland including
the Countess Markievicz (who was
imprisoned in the Dublin uprising),
Patrick D. Moran, (Irish member of
parliament) and others equally promi-
nent, have been arrested, said a dis-
patch from Dublin to the Evening
News today.

Five arrests were made in Dublin
upon the heels of the proclamation of
the lord lieutenant declaring that a
German plot had been unearthed
those arrested in the Irish capital
were Dr. Dillon, Arthur Griffiths, the
Countess Markievicz, Dr. Valery and
Sinn Fein leader named Cosgrove.

The Freeman's Journal (of Dublin)
states that conscription will have no
effect in Ireland under cover of the
revelations that are now being made.
"Arrests were made in different parts
of Ireland but were made simultane-
ously. All followed the revelation that
German propaganda was being libel-
lously butted in the name of the
Sinn Fein."

The Star, in referring to the matter
said:
"The developments indicate the
land immediately.

In his proclamation the lord lieu-
tenant stated that it had come to his
knowledge of the government that
subjects of the British crown in Ire-
land had entered into treasonable
conspiracy with the enemy.

Professor Do Valera, the president
of the Sinn Fein, is devoting fol-
lowed by the members of the organi-
zation, their rallying cry being "Up
Valera."

Professor Do Valera was arrested
and sentenced to death by a martial
court but the sentence was after-
wards commuted.

Professor Do Valera is said to have
been born in New York.
Four years ago arrested later
among those taken into custody by
Deane McCullough.

Professor Do Valera was arrested at
his residence in New York.
One of the principal arrests were
made at Belfast.
Darrig Figgis, who was seized at
Dublin, was taken to Dublin Castle in
an army lorry and there placed under
guard. Figgis is secretary of the
Sinn Fein organization and poet and
writer.

Arthur Griffiths president of the ar-
rested is vice president of the
Sinn Fein.
Another of the detained persons—
Captain William Mellows—look par-
ticularly noteworthy. He was seized
and escaped to New York but was ar-
rested there in the following October.

GREATEST SHOW ON EARTH HERE IN CITY TODAY

UNCOMPARABLE EXHIBIT OF TRAINED ANIMALS OF THE JUNGLE

Spectacular Pageant Parades the Streets

Many Splendid Acts Given This
Afternoon Will be Repeated
This Evening for Those Who
Love Evening Performances.

Al. O. Barnes big four ring wild
animal circus rolled into Twin Falls
today. In his carload he has a
wild animal, 600 highly trained
horses and 600 people.

In his many ways the greatest cir-
cus aggregation to ever visit this
section of the state and is the greatest
animal show on earth. There are
more than 1000 trained animals,
including the Barnes show with their
wild beasts.

The show this afternoon contained
eleven series of acts. The most
outstanding features of the show
were two women—Miss Venus
Fashion and Miss Madol Stark.

Miss Venus Fashion, a beautiful
lady from India, entered a den with
a lion and placed her head in one
of its jaws and came out unharmed.

Miss Grace Marvel recognized as the
greatest of the country's living tiger
trainers, attended the crowd by west-
wardly, she was accompanied by
her assistants, broken and trained
by Barnes himself, except the role of
soldiers. They fire cannons, fall
from a high place and were finally
carrying Miss Marvel from the field.

Clarence Crosby and his giant
polar bear, grizzly and brown and black
bears; Joe Miller and his tick ponies;
Clarence Cross and his 40 funny
clowns, these and a score of other
good acts are on one of the best shows
ever presented under canvas in Idaho.

There will be another performance
this evening. The doors will
open at 7 o'clock to permit the public
of Twin Falls to visit this big monar-
chic circus.

RAIDERS SUSPECTED AS CAUSING LOSS TO SINNERS

ST. LOUIS, Mo., May 18.—Raiding
gangs as cause of loss to sinners
by the score to the millions of
America. Religious workers set
to identify, ragged ragtime music
and the law enforcement agents are
being used in the "Religious Church"
to lure traders of the scarlet path
into the swastika trail.

ONLY ARTILLERY FIRING ON THE FRONTS DURING THE DAY

Huns Still Hesitate to Make the Big Plunge and Counter in Aheance—Captured German Docu- ments Show That Tremendous Losses Have Caused Cessation Until Shattered Lines Can be Reformed—Further Information Relative to Americans Lacking.

(Frank Charlton, I. N. S. Cable Editor)

It has now been almost four weeks since there have been any in-
fantry operations of the first magnitude on the Peadaryand Planders
battle fronts in France.

The official war office reports put out in Paris and London to-
day, told only of heavy artillery duelling along both fighting zones.

On the British front the big gunfire was concentrated in the dis-
trict between Givenghy and Robecq, along the southern flank of a
small German salient that juts westward immediately north of the
railroad positions of Bothune.

The German cover, Bothune not alone for the fact that it is on
an important railway position, just because it lies amidst hilly country
of the utmost strategic value.

It is entirely probable that the Germans may launch a drive be-
tween Givenghy and Robecq. The same sector has seen some tremen-
dous fighting in the past.

Further light upon the hesitancy of the Germans to renew their
twin offensive has come from documents captured from German offi-
cers. These show that the German losses were terrific in the initial
stages of the big drive. Some divisions lost as much as seventy per
cent of their effectives. Divisions were kept on the firing line until
they were completely shattered and it was a common thing for dis-
cisions to lose fifty per cent of their men before being withdrawn
for reorganization. This the smallest of the units that the enshel-
ding inflicted by the allies all along the line and the mighty losses
sustained by the Germans have been the determining factors in hold-
ing up the von Hindenburg new operations.

No further news has come from France relative to the Americans,
who have now joined the British on the northern front.

The German offensive started just 59 days ago today.

NOTED RUSSIANS REPORTED ON THE WAY EAST

GOVERNMENT AND OFFIC- ALS OF ALLIES DENY ALL KNOWLEDGE

Said to Want to Meet Kerensky

Madame Baronsky and Colonel
Botchkorova Declared They Are
Unacquainted With One An-
other but Both Women Await
the Fallen Leader.

SAN FRANCISCO, Calif., May 18.—
If Madame Maria Lvontseva, Botchkorova,
organizer and commander of the
Russian premier of Russia, have
dropped to meet Kerensky, as is
reported today, no one in official
capacity with the government of
Belgium will admit knowledge of it.

Both women left here last night, but
not together and apparently without
the knowledge of each other. Colonel
Botchkorova said she did not know
Madame Baronsky.

She has received official notice
that Kerensky has left Russia and
America is the logical place for him
to come to New York to plan the
reorganization of the Russian army.
"I shall wait for him a month in New
York and if he comes there he will
find me."

Colonel Botchkorova insisted she
know nothing of Kerensky's plans.
The report here today is that she
is going to New York to plan the
reorganization of the Russian army
on her own.

L. W. W. WOULD BUILD
UP AND DEFY NATION

CHICAGO, May 18.—The ambitions
of the Industrial Workers of the
World to build up a gigantic organ-
ization should be able to defy the
government of the entire world,
plans for striking armies to attack
the companies and authorities and
other halls of the W. W. W. in
America were disclosed to the jury
in Judge K. M. Landis court today,
where the Industrial Workers are
trial for hindering the war pro-
cess of the United States.

POLES TO HELP ALLIES

PARIS, May 18.—A Polish contin-
ent has just arrived at a French port
from the United States. The Poles
planned through the streets with a
bust hand at their head and received
an enthusiastic greeting. The Poles
are going to fight with the allies.

HUNDREDS ARE KILLED OR HURT IN EXPLOSION

T. N. T. SET OFF AND DE- TOYLES WORKS AT OAK- DALE, PENN THIS A. M.

Property Owned by the Aetna Chemical Co.

Cause of Trouble Unknown—Un-
dertaker Reports That at Least
One Hundred and Seventy Have
Been Killed outright in Works.

PITTSBURGH, PA., May 18.—
Scores of workmen were reported kil-
led and several hundred seriously in-
jured by a series of explosions at the
Oakdale plant of the Aetna Chemical
company shortly after noon today.

One undertaker who had been rush-
ed to the scene estimated the dead at
170. He said that every other man in
the plant was injured. There were
said to be 600 men at work at the
time.

Another man who at the scene said
there were at least 500 dead in the
building in which the first explosion
occurred.

Citizens of Oakdale hurried to the
plant with wheelbarrows and other
vehicles and carried the injured to
hospitals. The plant was said to be
almost completely wrecked.

T. N. T. The deadly explosive, was
being manufactured in the plant and
several hundred tons have occurred
there within the last two years. The
explosion destroyed all wire commu-
nication with the plant and the first
word of the loss of life came with
the rush call to neighboring towns
for undertakers.

SECOND DRIVE FOR RED CROSS BEGINS TUESDAY

ONE HUNDRED MILLION DOLLARS, IMPERATIVELY NEEDED

\$21,000 for Twin Falls County

Drive Begins Tuesday Morning,
May 21—Organization All Com-
pleted—Hope to Go "Over" by
Wednesday Night.

Everybody in Twin Falls county, of
course, wants to give to the Red Cross.
Money was never asked for a warlike
cause. Since the last drive, in June,
1917, the people of the city and coun-
ty had not solicited for Red Cross purposes,
except during the membership drive at
the close of the war. The Red Cross
has asked for \$100,000 to give to Twin
Falls county to give \$21,000. We gave
liberally last time and must not fall
down this time.

The following items of information
and suggestion are gathered from in-
terviews with Chairman Taylor, Man-
ager MacVicar and their assistants:
At a meeting of about 100 workers
at the Perrine hotel last evening the
committee for the city and coun-
ty drive was thoroughly organized with
W. R. Priole in charge of this district,
which comprises Independent School
(Continued on Page 4)

Roark "Killing" Wholly Unfounded

Former Twin Falls Man Didn't Even Have Quarrel with War Man and That Nobody at All

In a letter to Mr. and Mrs. T. A.
Appoll received yesterday from Fort
Scott, Kansas, E. J. Roark emphati-
cally contradicted the story current
in the city that he had shot a Ger-
man in self-defense in a quarrel grow-
ing out of the war. He says that he
has never been in the city and that
no field had been applied
whatsoever, except that which flows
incidentally from the sifting of a story
on a newspaper. He says that he
thinks they are all in good health.

The rumor which proved without
ground was that he had shot a Ger-
man having been quarrel with a quarrel
with Mr. Roark, finally drew a gun
and that Mr. Roark "beat him to it"
and shot him.

Automobiles, Tractors and Good Roads

Oil System For Our Motor Cars

In discussing oiling systems for motor cars, Edwin D. Shultz of the Nordko and Marmon organization who had seven years experience in the lubrication field, said recently: "Marmon engineers originated an oiling system which was employed on the first Marmon car built in 1902, whereby oil was fed to the bearings under pressure through a hollow crankshaft. This system has been improved and developed until it has become the most perfect and altogether satisfactory means of lubricating a gasoline engine. It has been adopted for the leading foreign car makers."

"The latest improvement on the Marmon 34 is a device connected with the oil pump which controls the oil pressure according to the power being used, by means of an automatic valve actuated by the varying vacuum in the intake manifold. "The careful attention necessary in the lubrication of spring shackles, bolts, brake operating and clutch throw-out connections, has always a source of great annoyance to the motorist, because it has been necessary to keep from 40 to 50 grease cups filled, and some in accessible positions are frequently neglected. "The friction of these parts on the Marmon 34 is taken care of by means of oilless bearings consisting of a fabric bushing which is swamped with oiling and a steel inner cap-

with asbestos fabric bushing between the movement and were taken by the asbestos bushing, which does not require lubrication, does not become noisy and, after two years employment of this system, close examination shows no perceptible wear. "There are but four grease cups on the entire car and these are on the steering connections. It is evident that these features which are on the that those features which are found on the Marmon 34 will do more to reduce insuring a motor car against inefficient lubrication than any system yet devised."

Washing Automobile As Is Should Be

We have been asked to publish something which will tell just how an automobile should be washed and here are instructions which, if followed, will maintain the finish of a car in first-class condition for a year or two. Good varnish, well cared for, should last and look as a gentleman wants his car to look for two years. If the varnish is poor or the car is not properly washed it will not look well so long. "The proper washing of an automobile takes time, and it must be done at the right time, and it must be done as it should be washed requires about two hours' careful, steady, hard work. A touring car doesn't take so long, of course—if mud is allowed to dry on the car it is harder to get

off and stains the varnish permanently. Mud should never be permitted to remain on a car overnight. If a chauffeur expects to wash a car, he should first be willing to flush off the mud at night, no matter how late it is, but the work need not be done more than half an hour after the car can be thoroughly washed and polished in the morning. "The chief fault to guard against on the too free use of soap, and using water with too much force, and using the hood before it is cooled. "The varnish wash on cars is made up of the evening, and if a car has been used in the morning the result, of course, has had a hard day's work. The varnish will never look well again. Perhaps it is too much to expect public garages to take as good care of the finish as they ought to, and perhaps it is too much to ask of a private chauffeur, who lacks care of an employer's car to put the proper amount of time in washing at the right time, but it is just as well to know how much trouble is caused by the use of the car, the chauffeur and the varnish-maker. If your car always looks well, do not think it is or a particularly good job of polishing, but realize that it would look good if your chauffeur had a good and steady hand in his work, which he might have without. "In the old days no coachman would wash a car in good order, but now, no matter how late he came into the stable at night. You have got to treat an automobile the same way if you have to wash it. "An old-fashioned coachman reached. Varnish on automobiles is subject to the same troubles, and it is much better, because it does not have ammonia fumes to contend with, but we get no much pleasure out of an automobile and its contents so much to our convenience and have so much time that we have come to think that we have to get up and wash a car that a gentleman never was willing to sacrifice with a carriage. You haven't got to sacrifice anything, only we have to pay a price for maintaining the finish of our car. "There are two things that should be kept always in mind: "1. That soap, caustic, or anything like them intended to cut grease will attack varnish if allowed to stand on first-class condition for a year or two. "2. Hot water takes the luster from varnish. Dissolve a little good automobile soap in a pail of water so as to make a sandy solution. Have your good soft carriage sponge ready. Start with the right-hand front wheel and the inside of the fender on that part of the chassis nearby. Let the water flow from the hose in a gentle stream, so that it will carry about six inches from the end of the hose over the wheel, etc., first with water from a hose. Most of the mud will come off. Then use the sponge on the machine oil, which requires soap. In that case put some of the soapy water on these parts, sopping it on freely. After that use the hose, start with a hose and a sponge and wash it off. Don't let the soapy water keep any longer than five minutes on the varnish. Follow with a washing with clean water, because all the mud and grease should have come off by this time, leave it alone to dry. That completes the right-hand front part of the chassis, and the same work should be done on the fender and wheels and adjacent parts. That completes the work on the chassis. "Take another clean sponge, and with the water still flowing gently from the hose, start at the left-hand front of the body and flow all the dust off. There will be no need for soap, because washing it off with water is never spattered on the body. After flowing the water on them, go over the entire body again with the sponge and wet sponge and wash it. Go entirely around the car, including the top of the fenders to the left side, but don't wet the hood. Now if the dirt has been 'flowed off' and the sponge should be squeezed as dry as possible, and all the water remaining by moulting it over the car. Pick up. Wet a channel thoroughly and squeeze it as dry as possible. Then wipe off all the water from the body. This will get it perfectly dry. "After it is all done wash the bonnet and the top of the radiator. There may be some splatters of machine oil on the bonnet, and, if there are, use a little soap locally, washing it off soon after it is put on. In any case, don't let the water stand more than five minutes on the bonnet, because it has been heated by the engine. The engine heats the radiator and the water will be damaged. It should finally be dried with a channel, like the body. "If you have trouble drying the body with a channel, ask some old-fashioned coachman how to do it. There is a little trick to it, but it is not difficult when the trick is learned. "Without a desirable finish, no car will stand road dust, grit, heat, cold, rain, wind, sleet and snow. And the finish of a car is next to engine efficiency, the largest element of value to the owner and efficient chauffeur.

Charity Gets Big Donation in Will

Mrs. Potter Palmer Leaves Nearly Million For Charitable Purposes—Estate Worth \$16,000,000.

CHICAGO, May 17.—Charity is given an \$25,000 by the will of the late Mrs. Potter Palmer, which was filed for probate here today. The estate, valued at \$16,000,000, is left to be divided between her two sons, Potter Palmer, Jr., and Honor Palmer, equally. Personal property to the value of \$1,600,000 is also disposed of.

Each of the sons is given \$400,000 to be used in philanthropic and educational enterprises as they see fit. His art collections valued at \$100,000, are left to the Chicago Art institute.

The United Charities is given \$100,000, the Children's Memorial hospital \$10,000, the Legal society \$5,000, and the Chicago Commons association \$10,000.

Mrs. Frederick Best Grant, Mrs. Palmer's sister, is given all the property which Mrs. Palmer acquired from her father and all her interest in the Scammon Trust created by him in 1850.

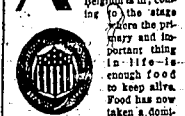

NOTHER GERMAN "GOT" BY LIEUT. HICKENBACKER

Newton C. Parks (N. S. Staff Correspondent) WITH THE AMERICAN ARMY IN FRANCE, May 17.—Lieutenant Edward Hickenbacker of the American air service, who down another German aeroplane over the front, north of Arras this morning.

Hickenbacker hails from Columbus, Ohio, and before the war was an automobile racer in the United States. Hickenbacker was decorated on Wednesday along with other Americans for shooting down a German machine. "There were three German planes in the squadron attacked by Hickenbacker. The vanquished German machine caught fire and was in flames when it fell.

Food Will Win the War

LAURENCE of the world is coming to the position that helping is in coming to the aid of the primary and important thing in 1918—enough food to keep alive. Food has now taken a dominant position in the war. The American people must prepare themselves to sacrifice far more than was at first thought necessary.

The cold facts are: France, Italy and Greece have just enough food to keep them going ten or twelve weeks. When America's food shipments stop, the allied nations begin consuming into this slender store and famine conditions which would mean defeat in short order.

Europe then must live on America's surplus. Your saving increases our available stocks just that much and actually feeds some person in the countries with which we are associated in our war against the Central Powers. Our surplus wheat has already been shipped to the allies.

U. S. FOOD ADMINISTRATION

RED CROSS GOLF TOURNEY TOPEKA, Kan., May 18.—For the benefit of the Red Cross local golf tournament the Shawnee Golf club plays here today and tomorrow. A large sum of money is expected to be raised.

INVESTIGATE STEEL CONDITION OF NATION

WASHINGTON, May 17.—An immediate investigation of the steel condition of the country is to be undertaken by a committee of steel manufacturers aided by the war industries board. It was announced this afternoon. The big steel men of the country had a four-day conference with the war industries board, following which the committee was selected and instructed to begin work immediately. The war industries board will work out its curtailment program on the basis of the report to be submitted by this committee. The committee consists of J. A. Farrell, E. G. Grace, H. G. Dalton, C. A. Clark, J. A. Topping, for the steel men, and General Johnson and J. B. Replege for the war industries board.

L. A. OPPOSES SEDITION

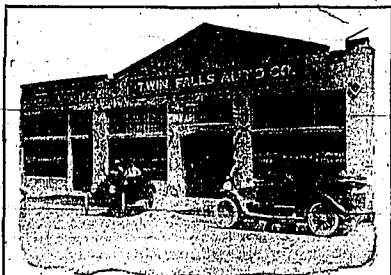

CHICAGO, May 17.—There is no place in the ranks of the Rural Arcanians either in times of war or in times of peace, for anyone who is guilty of sedition. In the light of a resolution which will be offered at the annual meeting here of the association of the order. "The resolution was drafted by Harry G. Henson, Grand Regent of the state of New York. It has been announced that the Royal Arcanians will take active part in Red Cross drive.

LARRY DOYLE EASHER

NEW YORK, May 17.—Larry Doyle, second baseman of the Glatts, was reported resting easier at the post-operative hospital today, following an operation for intestinal trouble. Doyle expects to join the Glatts team about June 1, but his physicians believe that he is in poor optimistic.

OUT-OUT GERMAN

KANSAS CITY, Mo., May 17.—By unanimous vote, the board of education at a meeting last night abolished the teaching of German in the public schools of this city. In order that students in the language may earn their credit toward graduation, the schools will not be abolished until the end of the present school year.

Don't Take Any Chances

A battery may seem to be doing its job nearly as well as usual—may turn the engine over strongly enough to "get by"—may supply enough current for light—may produce a fairly hot spark—and may go on doing so right up to the point where the spark of life goes out.

If you don't know that

your battery's in good health, you're taking chances.

Drop in at the Service Station for ten minutes and let us test your battery.

And ask about the Still Better Willard—the only battery with the "Bone Dry" principle that is your absolute assurance of getting a battery as new as the day it left the factory.

Big Motor Truck Falls Over a Bridge

As a rule, it would be safe to assume that when a motor truck falls over a bridge, forty feet high, into ten feet of water, that truck would be out of commission for some time.

That there are exceptions to that rule, however, is proven by the recent performance of a Maxwell truck owned by E. W. Greer, of Pittsburg, Oklahoma. This Maxwell, operated on a freight line between McAlester and Pittsburg, took such a high dive with really remarkable results.

Carrying as a load, a heavy refrigerator, the truck reached the high bridge only to meet a tearing car coming in the opposite direction. The driver of the truck became confused, turned the truck squarely around and proceeded to drive off the bridge. There was some splash and the truck sank out of sight except for the tip of the radiator cap which showed above the surface. There was no help in sight, the country being but sparsely settled and a full day elapsed before it was possible to haul the Maxwell out of the water and see the extent of the damage.

The hood and the radiator were hauled

off without by the force of the fall but no other part was injured in any degree. A few minutes work and adjustment and the truck was driven 12 miles into McAlester under its own power. As the hood had been wrecked a one-gallon oil tank was used to hold gasoline for the run into the city.

And the high diving truck made the 12 miles on the one gallon very easily despite the fact that it had lain on the hood of a river for a full 24 hours.

The Lewis-Briggs Motor Company, Maxwell distributors for McAlester, Oklahoma, have had the truck on exhibition and state that this latest proof of the truck's sturdiness of construction has resulted in several sales.

Too Christlike Says I. W. W. of Workmen

CHICAGO, May 17.—"We have been too Christlike and patient. Frank Little must be avenged. We must pay the blood for blood. We have the means, let's do something."

So wrote Albert Praher, one of the defendants in the I. W. W. trial to William D. Haywood, secretary-treasurer of the organization, according to a letter read into the evidence today in Judge Landis' court.

The letter was signed, "Yours for the revolution."

Haywood wrote back:

"More than 1,000 of our members have been arrested." To this Praher, doing organization work in the east, replied:

"Send more workers. We can't let the sheriff of Luzerne county, Pa., cripple us with his dirty work."

LANDIS SUGGESTS A STAR IN THE MOVIES

CHICAGO, May 17.—Kansas Mountain Landis, famous federal judge, the man who fined the Standard Oil company \$20,000,000 one time, and who is trying the I. W. W. case, and who is known far and wide for his brusque and elegant justice, has come out as a movie star. Last night he appeared in a scene for "The Immigrant," a propaganda movie filmed by the committee on public information. The scene was staged in Judge Landis' court room. The director of the piece declared it took more than three hours to get Judge Landis' consent to pose. He also said the judge's features were ideal for movie work.

OKLAHOMA RAILWAY MEN HOLD BIG MEET TODAY

OKLAHOMA CITY, Okla., May 18.—Oklahoma street and interurban railway men are holding their annual electrical convention here today and tomorrow, and street car men in all capacities are here for the conference. War plans and problems will be discussed, and plans for the future of the state electrical work will be made.

HARVARD TRAINING CORPS IN FINAL INSPECTION TODAY

CAMBRIDGE, Mass., May 18.—The Harvard college reserve officers' training corps marched before thousands of admirers today in their final field inspection. It was a cold day for the corps, most of whose members now join the regular army training schools. A number of athletic events were run off.

TORPEDOES AUSTRIAN BOAT

ROME, May 17.—Italian-English naval forces torpedoed and sank an Austrian torpedo boat and a steamer during the night off Durazzo. It is officially announced.

National War Labor Board Learns That Women Know How to Transact Business

Edna Huber Church, WASHINGTON, May 17.—Women are certainly coming to the front. In the days gone by labor troubles and strikes and such like were enjoyed to be forms of amusement supported only by men, but things are different now. When President Wilson named a national war labor board he probably did not think that he was doing for women but women workers were among the very first to use the new instrument.

Ex-President Taft and Frank P. Walsh had hardly located their desks in the department of labor building when a group of women called upon them and asked them to enforce the principle of "equal pay for equal work" laid down in President Wilson's proclamation.

It is interesting to note that the leader of the women was a lady of social standing. Shades of the first fabulist in Washington? Who is the Washington lady of old who rode in a victoria and carried a parrot to keep the man from her? Things are certainly coming to a revolution in our state when Washington social leaders are enacting in labor—well, that is just what happened.

Mrs. Clifford Pinchot, wife of the Pennsylvania game warden, has been a figure in politics for some years, headed the delegation of clear thinkers who were the first women to appeal to President Wilson's national war labor board for relief.

According to Mrs. Pinchot a clear thinker had forced women to work in an unsanitary shop and had paid them less money for the same work as was paid by men. Mrs. Pinchot spoke right up in meeting and you never would have pictured her as a society ladies. She was ably corroborated by Mrs. Rebecca Perry, a clear thinker who wasn't so careful of her diction but who was just as forceful.

It may seem a long cry for the clear thinker to appeal for relief as a war worker. Mrs. Pinchot bridged the gap very ably, however. She pointed out to ex-President Taft and Frank P. Walsh that the morale of the men at the front must be maintained. Tobacco and cigars have been established as one means of maintaining morale. Mrs. Pinchot declared. Thus she connected the difficulties of the clear-thinking girls with the winning of the war.

This incident was a small one in the busy days of the first sessions of the national war labor board, but it made it very plain to ex-President Taft, Mr. Walsh and the other members of the board that their own going to be a very strenuous one which the women really get under way.

"The most remarkable thing about the incident was, however, was the length of the interview. It is the general opinion that when women start to tell their troubles it is stated to be a long session. Not so with Mrs. Pinchot and her clear-thinking group. They told their story and told it succinctly in less than ten minutes."

Minority Report Scored Resolution

Thompson and Jones Against Sweeping Chamberlain Plan—Compromise Coming 11 Monday.

WASHINGTON, May 18.—The investigations authorized by the Chamberlain resolution would "cause great annoyance and interference with the necessary war work now going on in the most important branches of the war department."

This was the view submitted to the senate yesterday afternoon in the minority report of the committee on audit and control. The report was signed by Senator Thompson of Kansas, chairman of the committee, and Senator Jones, of New Mexico.

"The minority of the committee," said the report, "are opposed to the passage of the resolution as amended, as it is little better than the original resolution and is a mere 'straw' proposition as wholesale inquiries into various departments of the government are directed whether there is any necessity for or not."

Both sides lodged a "show down" in the senate yesterday afternoon over the Chamberlain investigation resolution and negotiations are under way for a compromise.

Neither the Chamberlain faction nor the administration forces were ready for a vote. No effort was made to call up the resolution and an understanding was reached to put it off until Monday to give time for the drafting of a compromise.

It is understood that amendments will be offered to restrict the powers granted to the military affairs committee but at the same time there will be no obstacles in the way of an investigation.

WEATHER GOOD FOR FLIGHT

WASHINGTON, May 17.—Under perfect weather conditions an army aeroplane left for New York today at 11:30 carrying a large pouch of mail. Postoffice department officials are confident today's trip will be made without mishap as the aviators are becoming more familiar with the route.

PREDICTS ANOTHER CZAR

COPENHAGEN, May 17.—Sven Hedin's correspondent and explorer, who has just returned from Germany, makes the prediction that another czar will occupy the Russian throne.

It is understood that there is any necessity for or not.

HUNK CLAIM CAPTURE OF ALLIED AIRPLANE

AMSTERDAM, May 17.—It was reported today from Zebrugghe, that a railway aeroplane was shot down. An airplane that flew over Dutch territory from the direction of Belgium was fired upon by Dutch guards.

IDAHO'S LATEST DRAFT CALL

On May 26th, Idaho will entrain for Camp Lewis a total of 721 men for the national army. They will constitute the third call under the second draft. Boise City, Bonanza, Bostona, Blaine, Boise and Bonnellville counties are exempted, having entailed to their credit to make up for the quotas assigned them. The 721 men are apportioned among the other counties as follows: Ada 28, Adams 8, Blainock 28, Blaine 23, Blomere 6, Franklin 20, Fremont 23, Gem 16, Gooding 22, Idaho 22, Jefferson 16, Latah 10, Lemhi 10, Lewis 19, Lincoln 20, Madison 23, Minner 23, Nez Perce 15, Owyhee 10, Power 6, Shoshone 128, Teton 2, Twin Falls 7, Valley 9, Washington 18.

IDAHO SHALL NOT FAIL

In taking active hold of the plan to place \$22,149 worth of Thrift stamps within the merchant's division in Idaho, E. S. Chadwick, who has been appointed to conduct the campaign, has issued a slogan, "Idaho Shall Not Fail," and in a letter to the state makes up his idea of Thrift stamps in which it is behind. With an allotment of \$20 per capita or \$3,000,000 for Idaho, 10 cents per capita or less than a million dollars has been raised in four months in Idaho."

MAYOR SPEER DIED IN DENVER YESTERDAY

DENVER, Colo., May 17.—Business suspended today in Denver from 11 until 3:30 o'clock that the city might pay its last tribute to Robert W. Speer, mayor, who died last Wednesday of pneumonia. The body lay in state at the municipal auditorium from noon until 3:30, as thousands filed past. All public offices were closed during the funeral. Today was the second anniversary of the inauguration of Speer for the third time as mayor.

IOWA TRACK MEET TODAY

IOWA CITY, Ia., May 18.—Iowa college and university track and field teams are here today for the annual state field meet at Brandeis university of Iowa. Every college and university in the state that has a track team is entered in the meet.

RED CROSS PARADE TODAY

PITTSBURGH, Pa., May 18.—At a public demonstration preliminary to the opening of the second Red Cross war fund campaign, 20,000 members of the Allegheny county chapter paraded here today. It was the largest body of women marchers ever seen here.

YALE REGATTA TODAY

NEW HAVEN, Conn., May 18.—The annual Yale spring regatta was held in the harbor here today. Class crews, composed of and crewed by freshmen crewed a race with the Choate school crew.

FOUR STEEL SHIPS LAUNCHED LAST P. M.

A PACIFIC PORT, May 18.—Four big steel steamships were launched from local shipyards in forty minutes last evening.

The quadruple launching, putting more than 36,000 tons of steel in the water, is said to establish a record in the government's program to rush the "bridge to France."

The Moore Shipbuilding company, which set a world's record with a triple launching on March 14, sent two National Livestock Shippers Protective League versus the Louisville & Nashville Railroad company and Southern Railway company and others. Miller Brothers vs. St. Louis and San Francisco Railway company and others.

HOLDING COMMERCE HEARING WASHINGTON, May 17.—The interstate commerce commission set for hearing on July 8, in the federal building at Chicago, the case of the National Livestock Shippers Protective League versus the Louisville & Nashville Railroad company and Southern Railway company and others. Miller Brothers vs. St. Louis and San Francisco Railway company and others.

hearings will be before Examiner Abbott.

When We Repair Tires You Can Rest Assured That The Work Will Be Well Done

SAVE YOURSELF a lot of trouble next year when you purchase tubes vulcanized under a guarantee that you are getting perfect repair as well as the best service that efficiency at high pressure can produce. Bring your "hoes" and tubes to us for reliable work.

THE DAILY TWIN FALLS TIMES
 Published Every Day Except Sunday
 by the
KEMES PRINTING & PUBLISHING COMPANY
 Twin Falls, Idaho
 News of the World to the Hear
 G. E. Leisher, General Manager
 J. D. Nielsen, Associate Editor

Entered at the Twin Falls post office as second class matter as a daily publication, April 11, 1918.

The TIMES is an Independent Democratic newspaper, but it knows no politics as opposed to the most trained and vigorous prosecution of the war that is possible. Therefore, it is AGAINY man, Democrat or Republican, caught throwing hardware into the machinery—either with his hands or with his mouth. If this be "partisan" make the most of it!

TAKING A REEL OUT OF THE CURSEL WHEEL

While there is not the slightest doubt that George Creel would make his remark about slumming with congress to be taken as a joke, and while the reading public generally undoubtedly understood it in this sense, it is also true that the remark was in very bad taste, particularly at a time when there was more or less friction between him and the body which created the place occupied by him. And while it was made up of ninety-nine per cent. a rather poor quality of joke, it doubtless contained at least one per cent. of sting—Mr. Creel has been "feeling his oats" more or less since he got into his present place, and while he has mostly performed his duties satisfactorily and conscientiously, a scolding down in the form of a reprimand was in order, if not overdue. But, on the other hand, while entitled to be treated with the dignity due a great coordinator here of government, congress should not take too seriously a flippant remark, even though, as stated, under the tension existing it was reprehensible and under any circumstance of questionable propriety.

Notwithstanding some tendency to delay and to indulge in interminable rhetoric and play politics, congress has done pretty well as a rather poor committee of the senate and a few reporters in both houses, mostly in the upper one, there has been a pretty determined effort to stick to business and a great deal has been done.

The senate rules regarding debate have been abused outrageously on some occasions, notably in the delay in passing the Overman bill. That this measure, which provides for redesigning new offensive weapons already granted by law, was considered a good measure by most of the members of both houses is evidenced by the fact that but thirteen senators and two congressmen voted against it, and yet it dragged along for three months in the senate and speeches of great length were made indirectly against it, or beside it, by men who finally voted for it, who did not hope to change the vote of anybody by their talks and who could have had their views printed in the Congressional Record for their constituents and gotten down to business and to voting in a few days. This was bad, but after all, such things must happen unless we are to shut off discussion entirely in both branches of congress, which is a desperate expedient to be resorted to only as an alternative of foreign subjugation. The two senate committees named, have in different ways of fended and deserve censure much more than George Creel does, and a saving sense of humor would do even a statesman no harm.

Bill, a subordinate of congress, holding an office created by congress, which is a desperate expedient to be resorted to only as an alternative of foreign subjugation. The two senate committees named, have in different ways of fended and deserve censure much more than George Creel does, and a saving sense of humor would do even a statesman no harm.

shall be made in the manner provided for in the constitution itself. Even in war times certain changes may profitably be made and will, in fact, be made during the present war.

But while much of the furor for public consumption Creel did err in talking too much and deserved censure.

HEARTING HOPES FOR PEACE

Nothing may be speaking better than his hopes when he today predicts peace this year as a consequence of armistice taking place now on the western front. The TIMES believes that the utter crashing of the armies on the western front will bring about a reaction in Germany which will result in the wresting of power from the Kaiser and the military element and the surrender by that nation of territory, land, and of the Alsace and Lorraine, as well as the granting of indemnification of invaded lands for damage actually done; and that the Germans, once thoroughly whipped will be ready to disarm and go back to the ideals of Goethe, Schurz and the great men of the country. But they must be soundly thrashed first. Therefore, every energy of America should be bent in helping the government get men and machines across the sea at once. No other result than a complete victory for the allies can terminate the war this year. A German victory, however pronounced, could only extend it, for the Teutons must be beaten and will be.

IRISH AGAINST THE HUN

The reputation of the attempted revolution in Ireland by the leaders of that anti-draft movement there and the conciliatory attitude of the government, as evidenced in the call for volunteers, is indicative of a growing understanding between the peoples of Ireland and England. This lack of understanding has been the cause of most of the trouble in the past. It is largely a matter of psychology. What we think, we are. What you think the other fellow is, he actually is to us; however far he may in reality be from our conception of him. The English nation and the Irish nation have had erroneous ideas about one another for a long time. If the Sinn Feiners, who are the Hibernians, in the United States, who will attempt to arouse the masses of Ireland and England to a sense of common danger and to the necessity of common action against these tools of the Kaiser, they will have unintentionally performed a good service.

Fine Entertainment by Royal Neighbors

A large and appreciative audience attended the entertainment given by the Royal Neighbors last night in their lodge rooms. Large flags of the United States and the Red Cross were on the hall and many smaller American flags were used about the room.

The program was of a patriotic nature and was highly artistic. The opening number was a short tableaux in which Mrs. Starr took the part of "Liberty" and such a beautiful and dignified "Liberty" she made; impressing the dignity, strength and purity that the word symbolizes to us. The Boy Scouts next introduced the speaker of the evening, Attorney E. M. Wood, who delivered a very able address. The five graces of the lodge were introduced by Mrs. Bickford and Mrs. Starr. The graces were: Encouragement by Mrs. Corn Crouse; Enlargement by Mrs. Nancy Inarity; Unselfishness, Mrs. Lehmer; Courtesy, Mrs. Guttery; and Modesty by Mrs. Mabel Stevens.

The service flag of the Royal Neighbors of the United States was presented by the Boy Scouts, Home Grammar, after which "Just a Baby's Prayer at Twilight" was sung by Dorothy Koblitz, Marjorie Bickford, Thelma Heffert and Florence Bickford. Miss Marion Watson sang "Little Boy Blue" and the Stars boys gave a violin and cornet duet accompanied on the piano by Vera Cook.

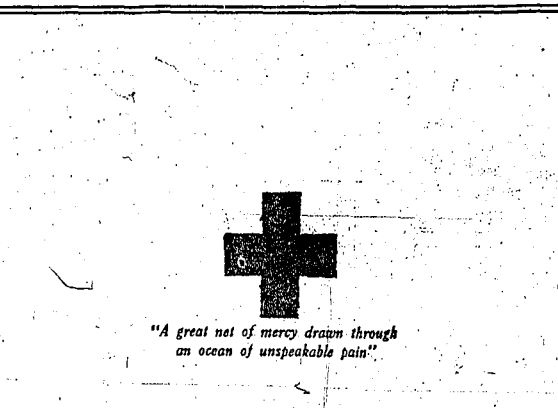

At the close of the program the Boy Scouts and the small group of Red Cross nurses marched onto the platform in military style, the Scouts being led by Home Grammar and the nurses by little Marie Bickford. The little girls taking the part of nurses were Florence Bickford, Maria Mills, Thelma Heffert, Ruth Stewart, Ruth Dreisell, Caro Thompson, Helen Heffert, Ruth Van Assulin.

The last part of the program was Paul Becker, Jack Becker, Ralph Ormsby, Ellsworth Meloberte, Earl Bickford, Jim Purdy, Joe Dehn, Dunster Dehn and Home Grammar. Miss Edna Bickford was pianist for the program, and showed wonderful ability in her understanding of the music presented. The Royal Neighbors wish to thank those who so kindly loaned their hats and other decorations for the occasion.

This program will be repeated at the Woodmen's lodge rooms next Wednesday night, May 21. There will be three tableaux added and the songs will be changed and the officials hope to have some good flashlight pictures taken. The committee for the entertainment is composed of Mrs. R. J. Thompson, chairman; Mrs. Bickford, Mrs. W. W. King, Mrs. Home Grammar, Mrs. Crouse, Mrs. Lehmer, Mrs. Van Assulin, Mrs. Starr, Mrs. James and Mrs. Sears.

Lutheran Services

Lutheran services will be held at 10:30 o'clock tomorrow morning.

What Has Your Red Cross Money Done?

In the first place, it has enabled the American people, through the Red Cross, to help care for its army and navy.

Secondly, it has enabled America to hearten her Allies' fighting forces and to keep up, among the civilian populations, the spirit to win the war. That, alone, has made the American Red Cross one of the largest factors since our entry into the war.

Canteens which provided food and hot drinks—more than a million meals to soldiers in December; warehouses, crammed with materials, situated all along the French line, all along the Italian lines, at seaports and at places where our soldiers are going to fight; institutions for the care of consumptives, institutions for the re-education of maimed men—these are a few of the concrete accomplishments abroad.

At home—the millions of woolen sweaters, mufflers, socks and other comforts for the men in camps; the work of sanitation around cantonments and the help and advice given dependents of soldiers and sailors—these are things which will "make you, your children and your children's children, in whatever part of the world they may be, proud of being Americans."

Will you do your share to keep this Hand of Mercy at its work?

Every cent of every dollar received for the Red Cross War Fund goes for War Relief.

The American Red Cross is the largest and most efficient organization for the relief of suffering that the world has ever seen.

It is made up almost entirely of volunteer workers. The highest executives being without exception men accustomed to large affairs, who are in almost all cases giving their services without pay.

It is supported entirely by its membership fees and by voluntary contributions.

It is today bringing relief to suffering humanity, both military and civil, in every war torn allied country.

It plans tomorrow to help in the work of reconstruction throughout the world.

It feeds and clothes entire populations in times of great calamity.

It is there to help your soldier boy in his time of need.

With its thousands of workers, its tremendous stores and almost perfect transportation facilities it is serving as America's advance guard—and thus helping to win the war.

Congress authorizes it.

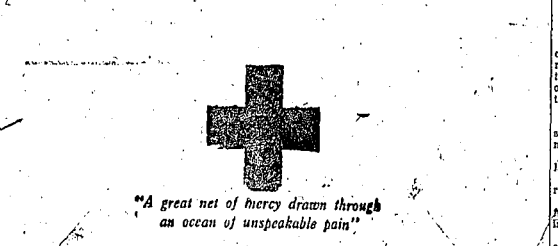

President Wilson heads it.

The War Department audits its accounts.

Your Army, your Navy and your Allies enthusiastically endorse it.

Twenty-two million Americans have joined it.

"A great net of mercy drawn through an ocean of unspearable pain"

SECOND DRIVE FOR RED CROSS

(Continued from page one)

District No. 1 and four others lying just south of it.

Twenty team captains were appointed and these captains chose their men from the workers present. Lists of subscribers were passed around the tables and each team chose their list of drivers. Cards are now being made up and Tuesday morning at 9 o'clock the drive will begin.

All teams will work in town in the morning and in the country in the afternoon. All team captains will meet Mr. Pribe Monday evening at the headquarters in the Perrito hotel for final instructions and as to country territory assigned their team.

If you have not been chosen on any team so far, report to headquarters Tuesday morning and ask to be put to work. Everybody must help to get our quota and more.

The following is a list of the respective captains and teams as made up for the Twin Falls district of which W. R. Pribe is in charge:

- Team No. 1—J. Kingbury, captain; E. M. Sweezy, W. H. Pease, T. F. Warner, F. W. Bronaugh.
- Team No. 2—H. S. Cowling, captain; Geo. C. Wiley, Geo. Bryant, W. J. Young, C. S. Bickford.
- Team No. 3—W. T. Smith, captain; J. H. Van Tassel, Harry Hesel, J. McMillan, Ed. Kinney.
- Team No. 4—J. E. Murray, captain; A. J. Peavy, F. F. McAtoc, C. H. Booth, Allen H. Fisher.
- Team No. 5—W. E. Hill, captain; I. C. Claiborne, A. Hollingsworth, E. Wall, Geo. Dow.
- Team No. 6—R. A. Parrott, captain; G. E. Dehn, Burton E. Morse, William H. France, C. O. Melus.
- Team No. 7—C. J. McCormick, captain; O. P. Davall, D. D. Alford, R. H. Spafford, C. M. Lambing.
- Team No. 8—J. E. White, captain; C. H. Robbins, Curtis Turner, J. A. Barrett, E. Johnson.
- Team No. 9—A. L. Swin, captain; Jim Sinclair, T. J. Woods, H. A. Driscoll, J. A. H. Gorman.
- Team No. 10—L. E. Salladay, L. Haasmussen, E. B. Williams, Paul H. Taber, F. J. Dawson.
- Team No. 11—A. A. Wilson, captain; Geo. Eastly, Abil Ebnol, Dr. Sullivan, C. J. McKinley.
- Team No. 12—T. A. Harrison, captain; C. E. Rowell, W. E. Palmer, Fred Spencer, H. L. Dinklockner.
- Team No. 13—W. E. Hart, captain; C. M. Evans, E. V. Berg, W. A. Patrick, Kobes.
- Team No. 14—J. S. Reed, captain; Ed. Cook, M. M. Mawell, E. H. Gates, D. F. Magel.
- Team No. 15—L. T. Wright, A. R. Campbell, W. T. Lester, E. J. Jenkins, Geo. H. Stetson.
- Team No. 16—C. B. Chascol, captain; E. S. Johnson, Bert Soule, V. H. Ormsby, A. H. Gorman.
- Team No. 17—H. E. Barber, captain; Clair J. J. M. Diamond, Dan Updgraff, J. A. Barrett.
- Team No. 18—R. E. King, captain; Eldridge, Henry Brown, Z. H. North, C. C. Sigler.
- Team No. 19—O. E. Carlson, captain; Frank Lechleider, Jack Shroat, Tom Horiggton, Frank Bellville.
- Team No. 20—W. E. Hill, captain; W. E. Spinger, Carl Hahn, Chas. Hunt, P. Sweeneyberger.

Great Benefits Are to Come From War

Secretary—Lans—Mates—Fornell. Speech to the Illinois Council of Defense Yesterday.

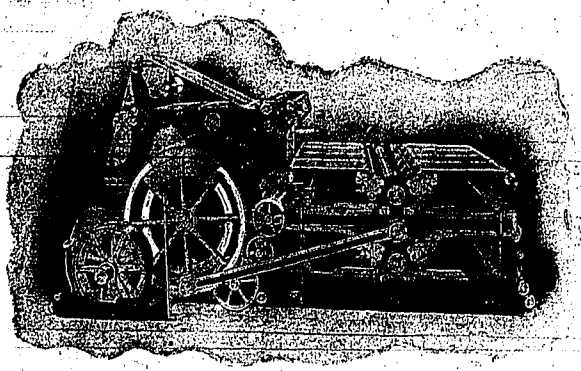

CHICAGO, May 17—Some great benefits that are to come America as a result of the war were outlined here today by Frankie K. Lans, secretary of the interior, who is conferring with the state council of defense.

The more important are:

- No one man control of things essential to the well-being of a community as a whole.
- Accumulation of fortunes will be looked upon as shameful.
- Men who do things will form the real aristocracy of the future.
- Greater efforts to Americanize the foreigner and a socialization of life in general.
- Practical men will put theories in effect that heretofore have been only talked about.
- American inventive genius will come to the fore as never before.
- On the war proper Lans said there is no doubt that the allies will hold until America gets her full force into the conflict. He said the German terrorism will prove his own destruction.

Creech Apologizes to Congressmen

Says He Has Reflections on Them Wrote in Joke in Reply to a Silly Question

WASHINGTON, May 17.—George Creech, chairman of the committee on public information, this afternoon publicly apologized to congressmen which he had compared with the "slime."

In a letter to Chairman Pau, of the house rules committee, Creech expressed his regret and said that his remark was in answer to an "alloy question" and was made to a spirit of jest.

A majority of the committee chaired by Representative Treadway indignantly demanded that the committee recommend passage of a resolution characterizing Creech as "a person unfit to hold public office" and requiring his removal by the president.

While the rules committee has not yet indicated any course of action with respect to the resolution of Mr. Treadway, I cannot permit myself to say under the impression of having passed public opinion on the subject among the congress of the United States.

My estimate of your honorable body is expressed in a pamphlet issued by the committee on public information in October, 1917, under the title "The War of the West" and the "31st remarkable did the record of agriculture appear to me that I had it summarized for general distribution."

SEED BEANS! In good shape to plant on quick notice, at MUNSON & HARDER

CLOSE-UPS IN SPOONFUL

Allan Markley, (I. N. S. Staff Correspondent) NEW YORK, May 18.—The arrest fighting which has raged to and fro since the beginning of the history of Union Square, has been quieted. This time it is not the bloody battles, in which knives and gun play appear in leading roles, but a more orderly affair conducted under the supervision of the authorities of the United States.

America's Mission After Winning War Is Further Democratic Development

PHILADELPHIA, Pa., May 16.—The United States is to maintain the position of spiritual leadership acquired during the war, our domestic as well as our foreign policy must be attuned to the same high standards, said Dr. Leo S. Row, of Philadelphia, today in an address before the Win the War For Permanent Peace convention. Dr. Row, who is assistant secretary of the treasury and a member of the executive committee of the League to Enforce Peace, declared that in order to take our rightful place in a league of nations we must stamp out sectional, intolerant and race prejudice and bring the immigrant into vital contact with the best that the most splendid influences of our national life.

tion of public officials by popular vote. Its essence is a state of society from which all special privilege has been eliminated and to which there is real rather than merely formal equality of opportunity. "We are now face to face with a situation which involves the struggle to bring about a world situation which will enable us to carry to a far higher plane our own development. "Germany's treatment of Russia and Roumania has made strikingly clear the nature of the menace which we are confronted. Any compromise with the German dictator would signify an incalculable moral loss to the world and would mean the ruthless disregard of law, brute force, and aggression. It would mean the loss of all national advantages that have been secured. It would mean an undermining of faith in law and order from which Western civilization would never recover.

It is clear that out of this struggle a new world will emerge. But the type of world will depend largely on America's unwillingness and on the steadfastness of her faith in international rights and justice.

Eddie Collins Sets New Baseball Record

Breaks Sam Crawford's Mark For Playing Complete Games in Big Leagues

NEW YORK, May 17.—Eddie Collins, doubling captain and second baseman of the world's champion White Sox, is the "Iron Man" of baseball.

He acquired the title by breaking Sam Crawford's record for playing in complete games in 1916, when his record was 47.

Collins started out on his campaign for the record at the tail end of the 1914 season when he was sold to the Chicago White Sox by Connie Mack, who had played in three games—the last three of the regular schedule.

It takes a consistently brilliant player to make a record like this. It means that he must be able to hold out, no matter what happens. It means plugging. But Collins is just that kind of a player.

Table with columns: Year, Games, Field, Total. Rows for Eddie Collins from 1914 to 1918.

Table with columns: Year, Games, Field, Total. Rows for Sam Crawford from 1913 to 1916.

BACKWARD PEOPLES OF EDGES OF CIVILIZATION JOIN TO DEFEAT KAIEN

PHILADELPHIA, Pa., May 17.—"The 'Philippine Peoples' of the world are lining up solidly against Germany's self-declared 'League to Enforce Peace' in order to discuss Germany's rational methods from his long experience in the Far East.

"Many thousands of the dark-skinned peoples who are former members of the supreme bench of the Philippine Islands and of the Philippine Commission, are discussing Germany's rational methods from his long experience in the Far East.

of pity for the weak and unfortunate which the liberal spirit of the age has cultivated. It worships at the shrine of the god of efficiency.

In such a system as Germany has created there is, of course, no place for theories of colonization based upon humanitarian considerations, sympathy for the weak, and the usual obligations of man to man.

Notice is hereby given that Fred Lyle, of Rogerson, Idaho, who, on July 8, 1914, made homestead entry No. 016588 for SW1/4NW1/4, W4SW1/4, Sec. 34, T8N28E4, Sec. 23, and on December 10, 1917, made additional homestead entry No. 018293, for SW1/4NW1/4, NE1/4SE1/4, section 33, township 15 south, range 17 east, Boise meridian, has filed notice of intention to establish claim to the land above described, before C. MISS VENUS FASHION WHO ENTERS DEN WITH 30 LIONS IN AL. G. DARNES WOULD AMUSE CIRCUS HERE.

"Thinking my life has been a pleasure to me. If I had to live day by day, without taking chances in a lion's den I don't believe I'd be entirely worth while."

This was the statement today of Miss Venus Fishkin, queen of the country's lion tamer, who enters a den with 30 lions with the A. U. Darnes big four ring wild animal show.

Miss Fishkin, the daughter of a British army officer in India, was given a lion cub as a pet when a child. Natives taught her to train his beast. Darnes imported her from India at a big salary. Today she is touring America by her daring in appearing in acts with lions.

Twelve Hundred Pupils Present Living Flag in Lane County School Rally Feature

EUGENE, Ore., May 17.—Twelve hundred children from the schools of Lane county, transformed themselves into a gigantic American flag on King's field here this afternoon as if by magic.

The mystery of the sudden appearance of the flag is explained. At a given signal each child—already in proper position in the course of the marching drill—simply swings out and holds over his head a piece of colored bunting, thus forming the flag which so suddenly hid the children.

The rally opened with a big parade in which the boys marched in military formation, while the girls executed

AMATEUR MAT MEET

OMAHA, Neb., May 17.—The annual wrestling championship of the Nebraska division of the Amateur Athletic League of North America, are being held here today at the M. C. A. gym.

SCOREBOARD REFLECTORS

Lines to a Pitcher
A Washington pitcher named Shaw made the White Stockings feel pretty

that they had to throw. When they got hot three hits. That this Shaw packed a right wicked paw.

The White Sox will not wear well on the part of any other pitching performance such as that seen at Washington. The Sox were blanked with three hits.

Miller Huggins continues to work miracles with the Yankees. All in all, the four hit game against the Browns was a real triumph.

Art Nelt stopped an intended drive on the part of the Athletics in the St. Louis sector, suffering only four nicks in his delivery.

McGraw has called up the reserves, purchasing Bert Niehoff to play second base.

NEW YORK, May 18.—Fighting tooth and nail to establish themselves in the first division, the Pittsburgh Pirates met and won today at the surprise test of the 1918 season.

Pittsburgh's showing has not been a flash in the pan. The Pirates are playing a hard, ball, and control very much in the running with the Cubs and Reds for first division prominence.

A feature of the success of the Pittsburgh club lies in the fact that it started the season in the best of shape. Many of the players before going to camp last spring, and wanted no time with routine, Molwitz, Catalano, and McKeehan, the infielders, have been playing in snappy fashion. Molwitz and McKeehan are doing remarkable work for 1918, and although a youngster, and not a great hitter, is feeling well. The battery men of the Pirates have performed remarkably so far, and the future success of the club seems vested in the pitchers. The loss of Earl Hamilton, the infielder, during the games, was a terrific blow, yet Cooper, Harmon, Miller, Jacobs, Steele and Sanders hold up, and the winning spirit of the Becklins is still strong.

Alexander Asked to Pitch One Game

Being That Fighting Men May Play While on Absence gives Him Chance If He Can Get Off.

CHICAGO, May 18.—Club fans today are anxiously awaiting a reply from Grover Alexander, the only player to a telegram from Business Managers Craighead of the Cubs, asking him to pitch one game for the club.

The question now is whether Alexander can get the leave of absence. It is feared he will be unable to get it through as he would be paid a regular price to pitch one game.

Clergymen With Fourteen Sons
Has Four Here Who Will Join Later to Help Uncle Sam Kick the Kaiser in War.

CHICAGO, May 18.—Here is a 1400 cent patriot who lives down in Taylorville, Ill. His existence was revealed here today by A. Lomax, a Point Pleasant man who has just returned from a Liberty Loan campaign in the south.

The patriot in question is the Rev. R. W. Johnson, a colored minister. He has fourteen sons in the army and four more who will be ready to go to the front. One of the boys, now one of the boys was drafted, all enlisted in the regular infantry.

Johnson's family number 19, of which 18 are boys. There is not a triplet and he finally named them Matthew, Mark and Luke.
