DESIGN FOR FINE MODERN COW BARN

Sanitary Stables Necessary to Increase Dairy Production.

HAS HORSE STABLE WING

The Plan Here Explained Provides Structures That Easily Can Be Kept In Dry Warm Sanitary Condition.

By WILLIAM A. RADFORD.
Mr. William A. Radford will analyze conditions and give advice FREE OF CHARGE on all requests pertaining to the subject of building work on the farm. For a large and complete catalogue of plans and wide experience as Editor "Animal and Poultry" he will without charge advise the highest authority on all these subjects. Write to him at 1120 North 14th St., No. 1012 Prairie avenue, Chicago, Ill. and only include five-cent stamp for return mail.

There are only very few dairy barns that are arranged as well as they might be. A barn that is not properly arranged cannot be kept as clean, dry and warm as it should be.

The design illustrated below makes

...that looks better than I really believe. Because of the proportion of the different parts, the length and height of the stalls, and the way the air circulates in the barn, the animals will be comfortable. The stalls are 30 feet wide by 8 1/2 feet high. This arrangement of stalls is a very good one for two rows facing in. A wing of 60 feet of the back 30 feet wide will afford room for the horses and a horse stable wing. The stalls are 30 feet wide by 8 1/2 feet high. The stalls are 30 feet wide by 8 1/2 feet high. The stalls are 30 feet wide by 8 1/2 feet high.

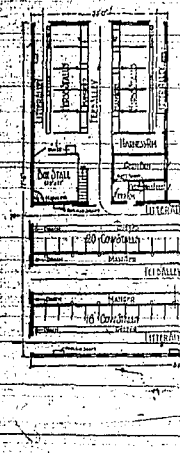

Diagram of Stable Floor of L-shaped Dairy and Horse Barn. The stalls are 30 feet wide by 8 1/2 feet high. The stalls are 30 feet wide by 8 1/2 feet high. The stalls are 30 feet wide by 8 1/2 feet high.

CREEPY CHINESE KILLING STILL A GREAT MYSTERY

Murder of Three Famous Oriental Scholars in National Capital Is Charged to International Intrigue

WASHINGTON, Feb. 1.—The perplexing murder of the famous Chinese scholars who were found in their bloodstained quarters last yesterday... From the many conflicting facts gathered, three theories of what happened in the house of death in the 'Lodge of Mystery' have been formulated. They are: 1.—Z. B. Wang, a 'graduate student' from China, registered at Columbia university and a guest for several weeks of one of the murdered men. He has been brought from New York to Washington probably about midnight yesterday.

Another theory is that the murderer was a powerful agent who feared the success of the Japanese in every quarter of the globe... The story of the 'Lodge of Mystery' is a most interesting one. It is a story of a powerful agent who feared the success of the Japanese in every quarter of the globe.

AUTOMOBILES ARE VERY NECESSARY IN MILITARY SERVICE OF UNITED STATES

Ammunition Trucks Awaiting Darkness to Cover Their Trip to the Front—First Division Ammunition Train

There is no doubt that the motorcar is a necessity in business and civil life today. Neither is there any doubt that it is equally necessary in the military service of the United States, both overseas and on this side.

The superintendent course, the aviation section of the school corps, the ordnance department and other sections of the army are using thousands of automobiles and motorcars in their service. These are leaving factories at great plants, being delivered to various camps and to Atlantic ports for shipment to the front.

The army has a fleet of motorcars of the best of civilian life, and it is being equipped with military motorcars of the best of military life. The army has a fleet of motorcars of the best of civilian life, and it is being equipped with military motorcars of the best of military life.

Now Is the Time To Buy Good Irrigated Land at Valler, Mont.

Good water right; good irrigation conditions. Maintenance fifty cents per acre per annum. Grow big crops of wheat, oats, barley, alfalfa, potatoes. Good general diversified farming country. Altitude of stock feed. Altitude 2500 to 3000 feet. No such heavy public drainage. A public sewerage system under water. Six banks, sixteen elevators on this project.

Increase in Cost of Water-Rights

On April 1, 1910, the price of water-rights for the Carey and Deed lands on the Valler project will be increased to \$50 per acre share. Why not make your plans to visit the Valler country now?

Let's Talk It Over

We have employed Arthur E. Anderson, of Valler, Idaho, as our local representative, who will be glad to talk the matter over with you and tell you about the opportunities in the Valler country. Write or write him today for literature.

FILE REPORT OF ACTIVITIES AMERICANS IN WAR TOLD BY GENERAL JOHN J. PERSHING

(Continued from Last Sunday)

The second statement of General Pershing to the Secretary of War concerning the activities of the A. E. F. deals with the Meuse-Argonne operations and the work of other units with the allies. The report follows: On the day after we had taken the Meuse-Meuse salient, our corps and army artillery which had operated at Saint Mihiel and our divisions in reserve at other points were already on the move toward the area back of the line between the Meuse river and the western edge of the forest of Argonne. With the exception of Saint Mihiel, the old German front line from Switzerland to the east of Rheims was still intact. In the general attack planned all along the line, the operations assigned the American army as the hinge of this allied offensive was directed toward the important salient of the Meuse-Argonne. The German general staff was fully aware of the necessity of a success on the Meuse-Argonne line. Certain that he would do everything in his power to oppose the action was planned with the utmost secrecy, as possible and was undertaken with the determination to use all our divisions in forcing a decisive battle. We expected the attack to be carried out by our front- and reserve divisions to the enemy were while the enemy was held under grave apprehensions and could not think of the line, which was our first purpose to do.

Our right flank was protected by the Meuse valley, which was a natural and elaborate defense covered by dense thickets had been generally considered invulnerable to our attack. From right to left was the Third corps from the Meuse to Malancourt, with the 23d, 24th, 25th and 26th divisions. The 27th division was in the center, with the 28th, 29th, 30th, 31st, 32nd, 33rd, 34th, 35th, 36th, 37th, 38th, 39th, 40th, 41st, 42nd, 43rd, 44th, 45th, 46th, 47th, 48th, 49th, 50th, 51st, 52nd, 53rd, 54th, 55th, 56th, 57th, 58th, 59th, 60th, 61st, 62nd, 63rd, 64th, 65th, 66th, 67th, 68th, 69th, 70th, 71st, 72nd, 73rd, 74th, 75th, 76th, 77th, 78th, 79th, 80th, 81st, 82nd, 83rd, 84th, 85th, 86th, 87th, 88th, 89th, 90th, 91st, 92nd, 93rd, 94th, 95th, 96th, 97th, 98th, 99th, 100th.

On the night of September 26, the French quietly took the raw of the French who held the line in this sector which had long been inactive. In the attack which began on the 26th we struck through the forest with our tanks and the sea of shell craters all the way to the Meuse. The attack was supported by the 27th, 28th, 29th, 30th, 31st, 32nd, 33rd, 34th, 35th, 36th, 37th, 38th, 39th, 40th, 41st, 42nd, 43rd, 44th, 45th, 46th, 47th, 48th, 49th, 50th, 51st, 52nd, 53rd, 54th, 55th, 56th, 57th, 58th, 59th, 60th, 61st, 62nd, 63rd, 64th, 65th, 66th, 67th, 68th, 69th, 70th, 71st, 72nd, 73rd, 74th, 75th, 76th, 77th, 78th, 79th, 80th, 81st, 82nd, 83rd, 84th, 85th, 86th, 87th, 88th, 89th, 90th, 91st, 92nd, 93rd, 94th, 95th, 96th, 97th, 98th, 99th, 100th.

The attack was supported by the 27th, 28th, 29th, 30th, 31st, 32nd, 33rd, 34th, 35th, 36th, 37th, 38th, 39th, 40th, 41st, 42nd, 43rd, 44th, 45th, 46th, 47th, 48th, 49th, 50th, 51st, 52nd, 53rd, 54th, 55th, 56th, 57th, 58th, 59th, 60th, 61st, 62nd, 63rd, 64th, 65th, 66th, 67th, 68th, 69th, 70th, 71st, 72nd, 73rd, 74th, 75th, 76th, 77th, 78th, 79th, 80th, 81st, 82nd, 83rd, 84th, 85th, 86th, 87th, 88th, 89th, 90th, 91st, 92nd, 93rd, 94th, 95th, 96th, 97th, 98th, 99th, 100th.

The attack was supported by the 27th, 28th, 29th, 30th, 31st, 32nd, 33rd, 34th, 35th, 36th, 37th, 38th, 39th, 40th, 41st, 42nd, 43rd, 44th, 45th, 46th, 47th, 48th, 49th, 50th, 51st, 52nd, 53rd, 54th, 55th, 56th, 57th, 58th, 59th, 60th, 61st, 62nd, 63rd, 64th, 65th, 66th, 67th, 68th, 69th, 70th, 71st, 72nd, 73rd, 74th, 75th, 76th, 77th, 78th, 79th, 80th, 81st, 82nd, 83rd, 84th, 85th, 86th, 87th, 88th, 89th, 90th, 91st, 92nd, 93rd, 94th, 95th, 96th, 97th, 98th, 99th, 100th.

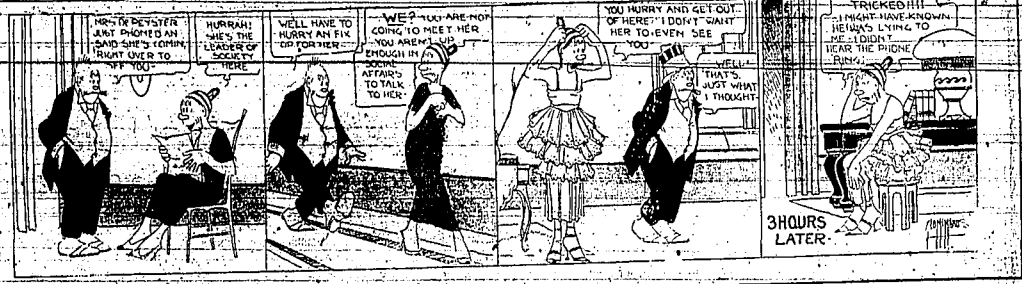

The attack was supported by the 27th, 28th, 29th, 30th, 31st, 32nd, 33rd, 34th, 35th, 36th, 37th, 38th, 39th, 40th, 41st, 42nd, 43rd, 44th, 45th, 46th, 47th, 48th, 49th, 50th, 51st, 52nd, 53rd, 54th, 55th, 56th, 57th, 58th, 59th, 60th, 61st, 62nd, 63rd, 64th, 65th, 66th, 67th, 68th, 69th, 70th, 71st, 72nd, 73rd, 74th, 75th, 76th, 77th, 78th, 79th, 80th, 81st, 82nd, 83rd, 84th, 85th, 86th, 87th, 88th, 89th, 90th, 91st, 92nd, 93rd, 94th, 95th, 96th, 97th, 98th, 99th, 100th.

The attack was supported by the 27th, 28th, 29th, 30th, 31st, 32nd, 33rd, 34th, 35th, 36th, 37th, 38th, 39th, 40th, 41st, 42nd, 43rd, 44th, 45th, 46th, 47th, 48th, 49th, 50th, 51st, 52nd, 53rd, 54th, 55th, 56th, 57th, 58th, 59th, 60th, 61st, 62nd, 63rd, 64th, 65th, 66th, 67th, 68th, 69th, 70th, 71st, 72nd, 73rd, 74th, 75th, 76th, 77th, 78th, 79th, 80th, 81st, 82nd, 83rd, 84th, 85th, 86th, 87th, 88th, 89th, 90th, 91st, 92nd, 93rd, 94th, 95th, 96th, 97th, 98th, 99th, 100th.

The attack was supported by the 27th, 28th, 29th, 30th, 31st, 32nd, 33rd, 34th, 35th, 36th, 37th, 38th, 39th, 40th, 41st, 42nd, 43rd, 44th, 45th, 46th, 47th, 48th, 49th, 50th, 51st, 52nd, 53rd, 54th, 55th, 56th, 57th, 58th, 59th, 60th, 61st, 62nd, 63rd, 64th, 65th, 66th, 67th, 68th, 69th, 70th, 71st, 72nd, 73rd, 74th, 75th, 76th, 77th, 78th, 79th, 80th, 81st, 82nd, 83rd, 84th, 85th, 86th, 87th, 88th, 89th, 90th, 91st, 92nd, 93rd, 94th, 95th, 96th, 97th, 98th, 99th, 100th.

The attack was supported by the 27th, 28th, 29th, 30th, 31st, 32nd, 33rd, 34th, 35th, 36th, 37th, 38th, 39th, 40th, 41st, 42nd, 43rd, 44th, 45th, 46th, 47th, 48th, 49th, 50th, 51st, 52nd, 53rd, 54th, 55th, 56th, 57th, 58th, 59th, 60th, 61st, 62nd, 63rd, 64th, 65th, 66th, 67th, 68th, 69th, 70th, 71st, 72nd, 73rd, 74th, 75th, 76th, 77th, 78th, 79th, 80th, 81st, 82nd, 83rd, 84th, 85th, 86th, 87th, 88th, 89th, 90th, 91st, 92nd, 93rd, 94th, 95th, 96th, 97th, 98th, 99th, 100th.

BRINGING UP FATHER

February 1st.

ANNOUNCEMENT

The Browning Automobile Co.

Wishes to announce the opening of its 4th Branch in the new building at present occupied by the Liberty Garage. They will take over the present garage and storage business as it now exists and will continue same as long as room permits, and extend a hearty invitation to the public and to all Willys Knight and Overland owners to come in and inspect their plant, where within the next 15 days they will have a representative line of Willys Knight and Overland Automobiles on display and will maintain a parts depot and service station for all Willys Knight and Overland owners.

BROWNING AUTOMOBILE CO.

IDAHO FALLS OGDEN SALT LAKE CITY

been used as replacements. In the 20 divisions, one in France or sent into three units of three companies each. The 20 divisions of the American army in the Meuse-Argonne area. On November 18, 1918, killed and died in wounds, 20,614; died of disease, 18,811; deaths unclassified, 2,800; missing, 11,620. We have captured altogether about 4,000 prisoners and 1,400 guns, howitzers and trench guns.

The duties of the general staff, as well as those of the army and corps staffs, have been very well performed. We must now carefully consider the new and difficult problems which they have been confronted. This body of officers, professional ability, in efficiency in their respective responsibilities. Nothing that we have in France reflects the efficiency and loyalty of duty to Americans in every particular. It is a body of officers who are not only imbued with a patriotic desire to do the full and they have at all times fully discharged their responsibility in the conduct of the war, and the results have been most gratifying. Our medical corps is especially well adapted to the general stresses of the war, both in the field and in the front. The medical corps has been developed to the point of efficiency in their respective duties. The Quartermaster Department has more than met the full and they have at all times fully discharged their responsibility in the conduct of the war, and the results have been most gratifying. Our medical corps is especially well adapted to the general stresses of the war, both in the field and in the front. The medical corps has been developed to the point of efficiency in their respective duties.

At this moment the line of the American sector from right to left has been extended to the Meuse at the Woorm to Bourcaux. In the meantime, the French government and army have always ably responded to the needs of the situation and transportation and to aid us in every way. The French government and army have always ably responded to the needs of the situation and transportation and to aid us in every way. "INDIANA NIGHT" AT CHURCH
 An innovation in church services is being introduced by Pastor W. A. Moore at the Christian church, at

FACTS YOU SHOULD KNOW

Santa Cruz Valley farms comprise a body of land in a thoroughly proven valley which is directly adjacent in Tucson, Arizona, situated in Pima county in the southwestern part of Arizona. The land extends along both sides of the Santa Cruz river. The soil is equal in fertility to that of the highest irrigated lands in the West. The growing season continues throughout the year. Two crops may be produced every twelve months. The following crops are successfully produced in the valley: Alfalfa, barley, brown corn, cane, clover, corn, flax, cotton, grain, Egyptian wheat, flax, flint, hay, hops, huckleberry, milk, mill, mules, oats, pea, sorghum, Sudan grass, soy beans, sugar beets, timothy, wheat, apricots, peaches, plums, cherries, apples, English walnuts, figs, grapes, oilseed, pecans, prunes, peaches, strawberries, artichokes, asparagus, beans, beets, broccoli, sprouts, radish, cauliflower, cabbages, cauliflower, celery, egg plant, lettuce, melons, mushrooms, parsley, peas, peppers, potatoes, pumpkins, radishes, rhubarb, spinach, sweet corn, squash, sweet potatoes, tomatoes, turnips, watermelons.

"The Homeseekers' Mecca of the Golden West"

We have a magnificent tract of approximately 20,000 acres of as fine land as can be found in the entire West, the soil is exceptionally deep and rich, being a sandy, silt loam which has been fertilized for centuries by leaf mold from heavy vegetation and from rich silt deposits; it is easy to work, and can be plowed, wet or dry; the drainage is perfect, the land sloping gradually and evenly from the foothills to the river; very little leveling is required. The climate is superb, and plenty of water at all times. Located in the southeastern part of Arizona, in the incomparably beautiful Santa Cruz Valley, this peerless tract is traversed by the main line of the Southern Pacific Railway, and the waters of the Santa Cruz river wind their way through the very center of this great oasis. Three thriving towns are located within its boundaries, and Tucson, a marvelously beautiful and progressive city of 27,500 inhabitants, is at its very limits. Bisbee, Nogales, Douglas, Tombstone and many other thriving cities and towns are tributary to it, and constitute all the year-round market centers for every product of field, orchard and garden—always at good prices and eager demand. Surrounding this notable valley in which our land is situated are high and lofty mountains, tempering the chill of winter and heat of summer to the degree of IDEAL, and lending a science grandeur unsurpassed in America. These mountains contain the greatest copper-producing mines in the world.

Vegetation of all kinds, and fruits and berries grow most prolific; the growing season is continuous, and not less than six cuttings of alfalfa are made yearly, the annual yield being six to ten tons per acre. This is the finest dairy country on earth, and all lines of agricultural pursuits are possible and profitable. Potatoes are selling in Tucson at present at \$2.90 per hundred in six sack lots. Alfalfa hay at \$30 per ton.

PRICES and TERMS

Our land (undeveloped) are sold at \$100 per acre, including right to perpetual water. The terms are \$50 per acre (cash or approved security), and the balance in five equal annual payments of \$20 per acre, beginning two years from date of sale, with interest at six per cent, payable annually.

Poultry commands "top-notch" prices all the time. Sheep, profitable returns from fattening range cattle. Excellent quality—also—grasses—irrigation—perfection. Cows, corn, alfalfa are never falling banner crops. SOIL AND CLIMATE—perfectly adapted to the best. A country of so fullness, as bad birds, no big storks. The climate is, all one can ask for on this old earth. The entire valley is a solid, famous health resort.

VIEWS

OF A REAL FARMER:

"Having investigated many of the best known Irrigation projects in the West I can truthfully say that this land offering possesses exceptional advantages. The conditions that I investigated most was that of the marketing situation. Despite the fact that the Santa Cruz Valley is blessed with an unusually productive soil—and an abundant supply of water, the great bulk of all produce is shipped in from California, through the River Valley of Arizona, Mexico and eastern points. Naturally, the high figures plus the freight costs. It has no outside competition, and obtains 'milling camp prices' for its fruit, vegetables, hay, straw, poultry, eggs, milk, butter, beef and pork. I have seen no other section where greater opportunities for quick money-making are presented. The climate is just what is needed for such rich growing season is continuous (the 'Santa Cruz' valley) and the abundance of water can be developed."

CHARL E. STEWART
 The water I proposed into a canal distribution system, which is considered by California as the most practical system of irrigation. A contract for perpetual water of our land that is sold.

SANTA CRUZ VALLEY FARMS = EDWIN R. POST CO.

TUCSON — (P. O. Box 666) — ARIZONA

FOR FURTHER INFORMATION AND DESCRIPTIVE LITERATURE, SEE PRESLER & SMITH, 157 Elm St., Twin Falls, Idaho.

No crop failures, droughts, floods, or cyclones here. Dependable, water supply, fertile, mullin of the year. No foul grass seed carried by our fine water system. Continuous demand for everything a farmer raises. The very best farmers in the West are settling here. Fresh vegetables and fruits being highest prices. Fruit, grapes, stock raising, can be found in America. Ideal dairying conditions the entire year round.

RETURN OF THE 346TH FIELD ARTILLERY FROM FRANCE

The crew of St. Louis coast guard ship in the country at a transport brought back three hundred and twenty-sixth Field Artillery of the Ninth Army division, which trained at Camp Lewis, Washington.

OWEN EXPLAINS FEELING, ETC.

(Continued from Page 1)
 people will submit to the present honorific militarism. If Germany establishes a republic, making the government really responsible to the people under a new democratic constitution, army proposals will give a very important guarantee to the world that war will not be made again by the German people in the interest of a dynasty or to promote the ambition of military leaders.

greatly. When they are compelled to make reparations and restrictions in enormous indemnities, these will cause additional punishment. The attitude of the outside allies is based entirely upon economic selfishness. The German people have actually been paying for their participation in Germany, applying the necessary food stuffs to the afflicted and defense power. They starved to death, and made reparations. The allies are faced with the decision either to make a peace agreement, or to continue to starve the German people. The allies are actually making a peace agreement by the terms of the Brest-Litovsk peace conference. The allies are making a peace agreement by the terms of the Brest-Litovsk peace conference.

FULL REPORT OF ACTIVITIES AMERICANS IN WAR-TIME BY GENERAL JOHN J. PERSHING

(Continued from Page 1)
 I would be impossible in this brief preliminary report to do justice to the personal and all the different branches of this organization which I shall cover in detail in a later report. The navy in European waters has at all times most cordially aided the army, and in its handling of the supply of troops has been most perfect cooperation between the two branches of the service. The army and navy have been most cordially sympathetic and helpful to the army.

Labor Council Passes Two Resolutions

Resolutions Affiliated Trades to Waive Militaries for Service Men—Congress Form Bureau.

The following resolutions were passed by the Twin Falls Building Trades council at its meeting, Friday, Jan. 31, 1919.
 At a meeting of the Building Trades council of Twin Falls, Idaho, this evening a motion prevailed that the body through its delegates request the affiliated bodies to give the initiation fee to all soldiers and sailors who are preparing to enter the laboring trade and that they be considered as new men in regard to our local papers.
 I. C. KEMPTON, Recording Secretary, Twin Falls, Jan. 31, 1919.
 At the meeting this evening at the Twin Falls Building Trades council a motion made by Jan. Mann was adopted and carried unanimously that this body go on record as endorsing the "Farm Bureau" for their action in opposing motion for "shopkeepers and laborers." The body also endorsed and supported the action of the industrial and commercial labor of Germany.

UNIVERSITY BOOK LETTER

This is the first issue of the University Book Letter. Its purpose is to keep everybody who is interested in books within the good things that are being written. The large staff of specially trained experts at the university will do the talking, and their talk will be reported to you by the University Press.

The University Book Letter will make no pretense at being literary. We will try to do as interesting as we can, and we want to give you the chance to read the things that are worth reading.

The war is over. The United States has taken her place with the nations of the world and has nothing to be ashamed of. But what nation does the United States hold in this our time? Do you know that this country is writing better things than ever before and that critics say American authors are taking an equal rank with those of the world's best writers?

Mr. Howard Winton Cook has published a volume on "Our Poets of Today" (McClure, Yard, \$5.00) where he shows how the new poets are taking something of their life, shows what they are trying to do and gives a little sample of so of the work of each. If you have had a taste of Winton's book with the good things that are being written, this book is a first-class gift. It is a volume around the heart when you realize that these poets are Americans and that you know that this piece of literature is not only good but was killed in action last August near a four lines.

I think that I shall never see A poem lovely as a tree.

Prof. Lewis Lewis has published a book "The Poets of Today" (McClure, Yard, \$5.00) where he shows how the new poets are taking something of their life, shows what they are trying to do and gives a little sample of so of the work of each.

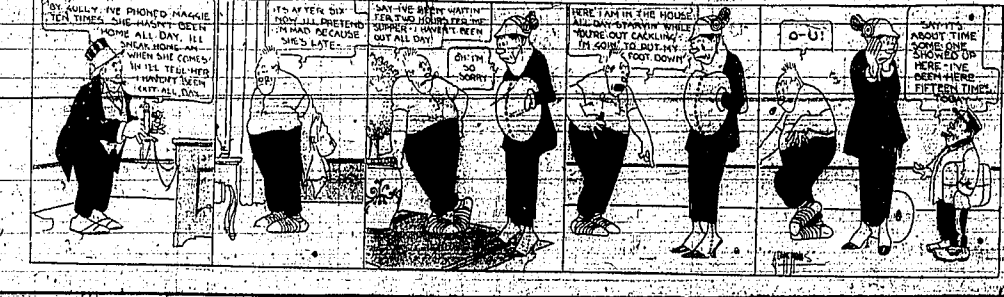

Mr. Winton's book is a first-class gift. It is a volume around the heart when you realize that these poets are Americans and that you know that this piece of literature is not only good but was killed in action last August near a four lines.

The book is worth reading. It is one of those rare volumes from a poet who has the stuff of poetry in her. It is not perfect, but it has dozens of poems that are very worth reading.

A valuable book for business men and bankers is Prof. Edwin Walter Kemmerer's "A. B. C. of the Federal Reserve System" (McClure, Yard, \$3.50). It presents the new system of American banking that was adopted in 1914 but that is being put into effect by our entrance into the war. The explanation is clear and simple enough for anybody to understand.

79 in. Linen Damask extra heavy quality. Dye stripes and floral design. Regular \$8. Special \$7.25 Yd.

BRINGING UP FATHER

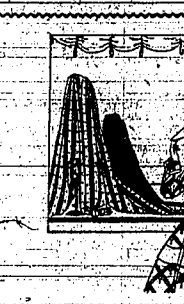

By George McManus

If you like stories about the adventures of long ago, true stories about the men who built the American republic, you will enjoy "March of an Old Soldier" by William Brewster (Princeton University Press, \$1.50). The story is about three men who lived in Bristol, N. J., between 1780 and 1812, when the United States was made up of England. One of the men was Captain Blincoe Porter who went privateering down the Indian and captured a French vessel. Father Fagan tells about the incident and gives a good picture of our ancestors who made war. Northwest John was the first man to go around the world via Siberia.

These are the most important books we have received this week. Others are coming, however, and some of them are already in the hands of the reviewers. If we can help you in getting any information about books, please write to The University Press, University of Idaho.

Old Yells Greet the Youngsters Yesterday

The sons of two great generations united for a gathering yesterday for a good lunch and to get acquainted. G. A. H. and the Ladies of the Circle and the Daughters of Veterans participated in the gathering. The program consisted of a number of musical selections for the ladies, following which the G. A. H. post chaplain read the invocation.

The Hurns School and the Community should be interesting to the people because it is written by Dr. Lewis Lewis, an economist. It is a book about the future of the world and the part that the community they are living in should play in it.

Dr. Lewis Lewis has published a book "The Poets of Today" (McClure, Yard, \$5.00) where he shows how the new poets are taking something of their life, shows what they are trying to do and gives a little sample of so of the work of each.
