The surprise evangelical church council has instructed ministers of the gospel to deliver special prayers of Sunday "to strengthen the German people under God's leadership and, if necessary, to make sacrifices unto death."

PRESBYTERIAN COMMITTEES MAKE REPORT

One on Interchurch World Movement Falls to Make Any Recommendations

PRESIDENT'S MESSAGE NEARLY DONE

Will Urge Congress to Pass Appropriation Bill, Leaving Treaty Till Later

ST. LOUIS, May 16.—The executive committee of the general assembly of the Presbyterian church, in making its annual report today, failed to include any recommendations with regard to the interchurch world movement, which is one of the important questions to be considered by the assembly.

Members of the committee explained that no decision has been reached with regard to interchurch recommendations.

A dinner of leaders of the interchurch movement will be held tonight among those who will speak at the Campbellsville service conference.

The second day's session continued today with the formal inauguration of John Willing Dyer of Pasadena, Cal., as president of the conference.

Two papers were presented to the moderator this morning: the first was devoted to a review of the world's oldest a civil of historic importance.

PATNS, May 16.—President Wilson's message to Congress will be brief and formal and will not discuss the peace situation. It was learned today that the president is putting the delay in the release of the document when it is completed it will be called to Secretary Joseph P. Tumulty in Washington, who will make arrangements for its presentation.

The message, it is understood, simply recites the necessity for congressional action to carry out the nation's policy and reciting the failure of the late congress to enact appropriation bills.

The task of discussing the treaty in the president's message will be left to the president when he returns home. Then he will have an opportunity to lay down the terms imposed upon Germany and Austria and to explain them to the nation as well as other matters connected with the conference.

The president, in discussing today his colleagues that he would "present the act of the peace of the world to the senate of the earliest possible date."

BIG CROWD TO SEE BOUT FOR CHAMPIONSHIP

Advance Fight for Willard-Dempsey Sign Indicates Record-Breaking Attendance

TOLEDO, O., May 10.—With the official permit for the Willard-Dempsey championship bout July 4, packed stands, center-filled and staved away in the safe of A. Thacher of the Toledo A. C., with work on the arena already well advanced, the fighters that "all well" Tex Rickard, promoter of the fight (who turned the attention to the stream of money that will be paid for "club tickets" in his office here for the past few days, all containing verified checks, cash and receipts for the same) has advanced demand for seats giving the coming battle all the earmarks of a record breaker as far as each fighter.

Checks from several hundred sporting clubs, ranging from \$100 to \$500 for the right to "club tickets" have already been received. Rickard refused one check for \$10,000 because he feared the tickler's words would be realized.

Simultaneous with the making of the permit for the fight every day the Toledo Athletic union, an organization of 3000 members, has been formed to protest against the fight. Copies of the protest were mailed to Governor Wood and the state legislature at Lancaster.

The ministers in their protest declare the fight will attract "gamblers, thieves and thugs" to Toledo.

UNEMPLOYMENT ON INCREASE DURING WEEK

Industrial Lines Have Too Many Workers, But There is Continued Demand for Farm Labor

WASHINGTON, May 16.—An increase of unemployed in industrial lines is shown in telegraphic reports received by the United States employment service for the week ending May 10. There is an increase of 7,450 unemployed in 41 cities over the previous week. Reports furnished by 423 representative firms in 33 cities show that 42 cities, or 62 per cent, of those reporting, have a labor surplus aggregating 136,359, as compared to 127,560 in the previous week. Twelve cities show a shortage of 8,500, leaving 23 cities with a balance.

Reports on unemployment by states show that, of the 35 states reporting, 15 have surpluses, five shortages and 15 an equality of labor supply and demand. Interstate clearance of labor by the employment service totaled 20,672 workers cleared between the several states, while 71,575 applications for employment were cleared during the same period.

Cleveland, with 30,000 unemployed, and Pittsburgh, with 20,000, are the chief centers of unemployment, in the absence of specific figures from New York where the largest surplus was said to exist.

General unemployment exists in Connecticut. Edith Miller, Mass., reports a shortage of textile workers and a surplus in the building trade. Conditions in Vermont, New Hampshire and Rhode Island are good, with supply and demand equal.

Owing to the influx of soldiers and sailors in New York City there is a large surplus, but no estimate was given. Albany reported 5,000 unemployed; Rochester, 3,000; Utica, 2,000; while Utica Falls, which has been reported a surplus, shows an equality. Buffalo, with 8,000 unemployed, showed a slight improvement for the week. Industrial relations are good throughout the state, except in Albany, where they are reported to be tense. Pittsburgh, from which 20 reports have been received for some weeks, reports 20,000 unemployed. Supply and demand in Philadelphia, Allentown and South is an increase as reported, equal and industrial relations are good. In New Jersey and Delaware the supply and demand are equal. East St. Louis, Ill., reported 4,000

unemployed during the preceding week and showed an improvement of one thousand for the current week. Industrial relations in Chicago are quiet, but owing to the transient soldiers and sailors no data are available. Unemployment was given. A big shortage for farm labor was reported by Kansas. Practically the same conditions exist in Nebraska: the Dakotas, Wisconsin and Minnesota which show labor supply and demand in industrial centers on an even keel, but showing seasonal for farm labor.

Reports from Cleveland show 30,000 unemployed; Youngstown reported 16,500; an increase of 3,400 during the week, with industrial relations quiet. Akron had a shortage of 3,000, which is being supplied from Cleveland and Youngstown. Dayton reports 2,000 unemployed. East Chicago, Ind., with 2,000 unemployed and industrial relations quiet, is the chief center of unemployment in Indiana. Draveston and Indianapolis each report 1,000 unemployed.

The Pacific coast, Los Angeles had 7,000 unemployed, an increase of 600 over the previous week, while San Francisco reported 3,000. Owing to a fallow of stock the surplus of 1,100 in Portland was consumed during the week. California, Oregon and Washington reported some shortage in farm labor.

HELPS INDENTIFY BACK

WASHINGTON, May 16.—Cancellation of war contracts by the department goes steadily forward. A recent statement by the department shows that the advances branch still had to be delivered approximately \$12,000,000 worth of material on war orders, as compared with more than \$15,000,000,000 at the signing of the armistice.

The balance on order in the purchase, storage and traffic division has dropped from one billion at the signing of the armistice to about \$100,000,000, while the air service contracts have been cancelled or suspended to the value of nearly \$600,000,000, so that practically all deliveries of important items of material have been discontinued.

Termination of war contracts allows industries to get back to a peace-time basis and is contributing much to the industrial readjustment of the country, and in this work the war department has made splendid progress.

FARM GRAINS SUPPLY BEST CHICKEN FEED

Wheat is Not Quite as Good for Fattening as Corn.

Huffed, Oats, Rye, Rellished by Fowls and Are Excellent for Producing Eggs. Also Excellent for Supplementing to Give Variety.

Prepared by the "Living Stock" Department. It is generally considered the best feed for fowls. It is a good feed for fowls, with the following exceptions: "This grain should be supplemented by some other feed, such as alfalfa, to provide the proportion of protein. Wheat contains more protein than corn, about 12 per cent, as compared with 10 per cent in corn. Wheat also contains more phosphorus than corn, about 0.15 per cent, as compared with 0.10 per cent in corn. "Turn wheat" can seldom be fed profitably, because of its high protein content. It is a good feed for fowls, but it is not so good as corn for fattening. Oats are often fed for variety, but they are not so good as corn for fattening. Rye is a good feed for fowls, but it is not so good as corn for fattening. Hulled oats are the best feed for fowls, but they are not so good as corn for fattening. MERCHANT MARINE IS BEING AMERICANIZED

War was probably necessary to work out the problem of the Americanization of our merchant marine. There were not very many ocean travelers by profession before the war, but the demands of the country's navy made a lot of them.

From January, 1918, to April 1, this year, 39,601 Americans entered the merchant marine service. Of these, 22,924 were accepted for training on ships as apprentice sailors, foremen and stewards.

In its free schools for merchant marine officers, up to April 1 the shipping board had graduated 8,109 men, all Americans, in which number deck officers and engineers were about equally represented.

Men in the service are in three classifications: Deck department; engine room and steward's department. In the deck department, pay ranges from \$30 a month for deck boys and \$55 for ordinary seamen up to \$90 per month for carpenters.

Identifying the Americanization of the merchant marine, the shipping board's records show that out of a total of 6,985 men placed on merchant ships during March, 50 per cent were young Americans who had been fitted for their new vocation on training ships maintained by the shipping board.

As a first step toward qualifying as a merchant marine officer, navy men without merchant service papers enroll in the free navigation schools maintained by the shipping board, where they are prepared for the examinations given by the United States inspection service.

WILL GERMANY SIGN?

Germany will sign the peace terms, substantially as they have been presented. There has been a lot of bluff and bluster and threats and whines, but it is apparent that Germany will sign eventually, and within the time-limit.

However, if there should be a different outcome of the negotiations which necessity seems to indicate as improbable, the allies will be prepared to take the necessary military steps. What these measures will be of course is veiled in secrecy.

After Premier Scheidemann's fiery speech in the national assembly, the population of the nation took their cue, and they have held a number of meetings in which the treaty terms were denounced and the delegates instructed to refuse to sign.

INTERNATIONAL CONGRESS OF WOMEN

It is charming to be forgiving. It is the true Christian spirit, but the world has not yet arisen above the necessity of protecting itself against the pirates and kings and emperors and other enslaving institutions.

Certainly, the terms provide for a continuation of the rule of force, and Germany will be so ruled until she is willing to set aside her own national ideals of force.

he acknowledges some feeling of repentance and promises henceforth to be good.

It is not an ideal method of dealing with members of the human race, but it is necessary to do that or welcome slavery for the rest of the world. That is not desirable.

Erzberger sees the devil's hand in the treaty. "The desire for martyrdom is all but dead. Nobody nowadays wants to be a martyr."

ERZBERGER SEES THE DEVIL'S HAND

It is encouraging to note that at least the head of the German armistice commission has found the author of the peace treaty. According to the head of the delegation, the treaty "is the devil's work."

Erzberger says that there never will have been an armistice if the German army had stayed on German soil, and the German army would never have entered Belgium if it had not been prompted so to do by the devil—the Kaiser and his militaristic cohorts.

Give in a while the deeply penetrating German mind really gets at the bottom of things. It seems to have done so in this instance.

Does This Queer Pueblo Ghost Cough and Snore?

PUEBLO, COLO.—This bustling little burg is building a new city hall and auditorium. It is under construction and will soon be finished.

Uncle Jimmy says that every night as he makes his rounds he hears the ghost. The eyes sometimes it makes him think just exactly like a man coughing. At other times he would swear it was a man snoring.

EXPERIMENTS SHOW THAT BARLEY IS GOOD FOR HOGS AND CATTLE

What is the feeding value of ground barley compared with corn for cattle and hogs, says the Idaho Feed and Fertilizer, Department of Agriculture, and then answers the question.

At the South Dakota station the feed on lot of steers an average daily ration of 14.8 lbs. of ground barley, 1.5 lbs. of oil meal, and 24 lbs. of corn stlage.

Apparently a midrange or humped feed is not nearly as efficient a supplement to barley in its ration. With skim milk or whole milk as the only feed, the gain was only 1.5 per cent.

The Wisconsin station has confirmed the relative value of self-dried barley and self-dried corn for fattening pigs. Results were compared to the results with whole and cracked corn.

It is a decided showing in favor of barley with feeds at present prices. It is interesting to note that even in the corn belt, barley proved to be more economical for pigs than corn.

Something You Should Know About Tires

This Tire Solves Your Problems too

When Charles C. Gates, E. M., discovered the scientific principle that reduces tire expense one-half, and combined it in his great invention, the puncture proof Gates Half-Sole Tire, his next problem was to build an organization of dealer experts that would bring this tire economy to the door of every car-owner.

Keen-minded men were carefully selected for each locality and trained to meet the requirements. Today more than 1,000 of these experts are located all over the United States constantly solving every increasing numbers of car-owners.

Motorists in localities where dealers have been established are enthusiastic. Three years experience has proven to them that Charles C. Gates has made it possible to get 5,000 to 15,000 more miles out of their tires than ever before.

With five acres of modern factory buildings with activity night and day to meet the demand, The Gates Rubber Company is now creating additional factories to trouble its output.

Today there are 1,115 authorized dealer experts who will gladly show you how you can cut your tire bill in half, and get freedom from tire trouble. Those located in your territory are listed below.

Mr. William A. Hadfield will advise farmers on all matters pertaining to the subject of building work on the farm, for the benefit of the farmer. He is the author of "The Small Farm," a book which is being published by the National Farm Bureau. The book is a practical guide to the farmer, and is being published in a series of booklets.

"Build a barn!" This advice is being urged on the farmer by the United States government. There are two reasons why farmers should build a barn. First, it is a necessary part of the farm. Second, it is a profitable investment.

What an Idaho man Says about Santa Cruz Valley Farms

Greatest dairying opportunities in America.

April 11, 1919.

Mr. Edwin R. Post, Tucson, Arizona.

Dear Sir:

I have had the pleasure to write you a letter, stating how I have found conditions in the Santa Cruz Valley, Arizona, and the community in general as compared with the country I am now living in, and other places I have visited.

I will return to my home in Turkey, Idaho, when I can go into these three dairies, and will return there, then plan to go into my place and permanently locate in your community.

Very truly yours,
E. J. DUFFAY.

\$150 per acre "Double-crop land" With Water

\$50 an acre cash, or approved securities—balance five equal annual payments beginning two years from date of sale. Interest at 6%.

Never in the history of western irrigation projects has a land offering made a greater appeal to hard-to-please farmers than Santa Cruz Valley Farms. They come—they investigate—they BUY! Come here to view the climate and the soil, the water, the irrigation, the deep, rich soil of Iowa and Nebraska, the unfailing supply of the best irrigated lands in the West. The beautiful elevation and pure air of Colorado and the highest mountain conditions that prevail in the Abnakan farming sections—and you have the Santa Cruz Valley. Here are all the best farming advantages of America—without the disadvantages. And the price of the land is about two-thirds less than in any of our other great farming markets. Practically every farmer who has bought this land at \$150 an acre is convinced that in an improved state it will be worth \$400 an acre within a few years. Here's a chance to farm under ideal conditions and also make a splendid land investment. Write to Tucson bankers relative to our responsibility and integrity. Send for free illustrated booklet to-day.
