SENTIMENT IN GERMANY IS TO SIGN THE TREATY

WORLD REVOLUTION WILL REMEDY ALL DEFECTS

Congress May Appropriate Total of Seven Billions

GOVERNMENT WILL GRAB CHANCE TO SIGN UPON SLIGHT PRETEXT

Any Concessions to Save Government's Face Will Be Accepted Gracefully, Is Correspondent's Opinion

BERLIN, May 24.—Signing the peace treaty "under protest" is the new direction in which the weather vane of public sentiment is pointing in Germany. This cannot be defined as a sign of the sturdy sentiment of the country, but it is regarded as significant that at the largest peace demonstration so far held in Berlin—where more than 100,000 persons gathered in the Lustgarten—Hugo Haase, independent socialist leader, made this suggestion. He was loudly cheered when he made this declaration, and added that a world revolution is expected to break out and remedy all the defects which Germany "infect" suffer from the treaty.

DISTRICT COURT SESSION OPENED HERE YESTERDAY

Petition Asking For Special Session of Grand Jury Turned Down as First Move

District court opened yesterday with Judge W. A. Dabcock presiding. Having concluded the court sessions at Rupert which delayed opening of the Twin Falls session from May 19th to the 24th, Judge Haebler fears a formidable array of criminal and civil cases in the present session. The first decision of the court was to deny the petition filed by J. A. Cron, requesting a special session of the grand jury in this county to investigate charges against public officials.

The court also called the demurrer calendar and made motions for hearing during all of next week. The court was also made calling three jurors for a sitting June 2d.

County Attorney E. L. Bittman announced yesterday that he would file information in three liquor cases Monday morning. One is a misdemeanor charge against C. H. Williams for having in his home a total of 4720 and another is a felony charge against Robert Kato, who, when in possession of second violation of the liquor law, and a third is against the Oakley State Distillery, which is in violation of the law for not having 5000 bond.

Demurrer has been filed in the case of the Doherty-Taylor, et al., et al. Amended Complaint. An amended complaint has been filed by John and Doris Taylor against the Oakley State Distillery, which is in violation of the law for not having 5000 bond.

Experts Working to Make Terms Easier

Additional peace negotiations for the economic demands of Germany were handed to President Wilson today by Bernard H. Baruch, of the American peace mission.

Memorial Day

What Does It Mean to You? Who does it mean, this memorial day? A few old men who are fast out of their heads? And you see the banners that brightly wave? You have heard men gibber at the thought of it? You endured the grief and honored the dead? You have heard of the cause, that was lost and won, that it was the lesson you teach your children? And what is the meaning of this to you? What does it mean, this trading by a few old men who will cross our path? To march to the graves where their comrades lie? Or to hear the cheers of the carousal drivers? What is the lesson your son has learned? And what is the meaning of this to you? They offered all that the brave may give for the world's good and the good of their own people. They have given more and have not regretted it. What is the lesson your son has learned? And what is the meaning of this to you?

Memorial Day Parade Plans Being Formed

New Generation of Veterans Will Appear This Year With the Grizzled Boys of '65

WASHINGTON, May 24.—The government has formed a national committee for the 1919 Memorial Day parade. The committee is composed of representatives from the various branches of the service, and will be in charge of the parade on May 31st. The parade will be held in Washington, D. C., and will feature a large number of veterans from the Civil War, the Spanish War, and the World War. The parade will also feature a large number of new recruits, and will be a fitting tribute to the men who have sacrificed for their country.

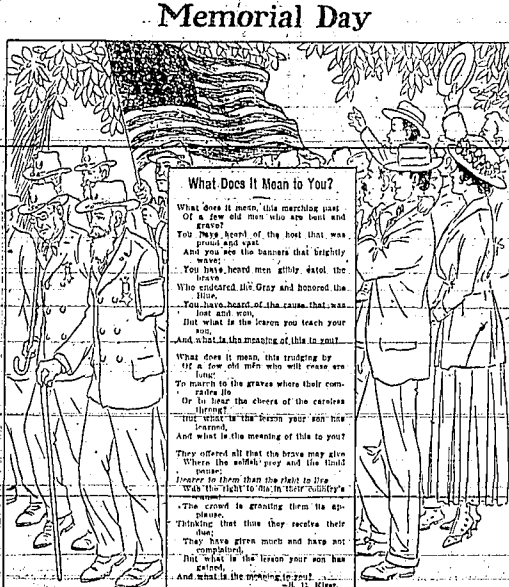

Question Is What Is Misbranding

WASHINGTON, May 24.—Whether "misbranding" is misbranding of sausage and other food products is the question before the Supreme Court today. The case involves a dispute between a packing company and a retailer over the labeling of a product. The retailer claims that the product is misbranded because it does not contain the ingredients listed on the label. The packing company claims that the product is not misbranded because it contains the ingredients listed on the label.

THREE STATES SHOW INCREASE GRAIN ACREAGE

Nearly Million Acres More This Year Than Last Will Yield Biggest Crop in History

PORTLAND, May 24.—A total acreage of 6,427,000 acres will be planted to grain in the United States this year, according to a report from the U. S. Department of Agriculture. This is an increase of nearly a million acres over last year's total of 5,528,000 acres. The increase is due to a combination of factors, including a larger area of land being brought into cultivation and a higher percentage of the land being planted to grain. The report also indicates that the yield of grain is expected to be the highest in the country's history.

Shipments Delayed—Long Time Arrives

After a delay of nearly two months a carload of automobiles has arrived for the local distributor, Merritt Auto Company, last Friday. Two cylinder models, one light and one heavy, were included in the shipment. The cars are expected to arrive in Twin Falls within a few days.

Work of Peace Conference Is Going Forward

Austrian Pact Ready This Week—German, Italian, Russian Situation Revised

PARIS, May 24.—The Austrian treaty will be completed Monday, according to a report from the peace conference. The terms of the treaty are expected to be submitted to a plenary session of the conference on Wednesday or Thursday. The most difficult part of the treaty is the question of reparations, and it is expected that this will be the subject of a long and heated debate. The German, Italian, and Russian treaties are also being discussed, and it is expected that they will be completed in the near future.

ALL PEACE-TIME RECORDS WILL BE BROKEN BY PRESENT SESSION

Railroad Director—Asks \$1,200,000,000 for Operation to Carry Roads Up to Time of Return to Owners.

WASHINGTON, May 24.—With Director Howard Hines asking \$1,200,000,000 for operation of the railroads all year by the present session. Hines, the regular supply bills which will be close to \$1,000,000,000, the railroads and other deficiencies will push the total up above \$1,700,000,000, it is now estimated. Work in railroad appropriation, as well as the \$1,000,000,000 bill for the pay and subsistence of the army, will be taken up by House committee next week. In addition, the House will consider a bill for the purchase of 100,000 tons of steel for the public health service. The House will also consider a bill for the purchase of 100,000 tons of steel for the public health service. The House will also consider a bill for the purchase of 100,000 tons of steel for the public health service.

BOLSHEVIKI EVACUATING PETROGRAD

Fires and Explosions Reported, Indicating Blowing Up of Munitions Magazines

LONDON, May 24.—Reports from various sources tonight indicate the bolsheviks are evacuating Petrograd to prevent their being hampered in the event of a Finnish and Estonian attack. The bolsheviks have already begun to evacuate the city, and it is expected that they will be out of the city by the end of the week. The evacuation is being carried out in a hasty and disorganized manner, and it is expected that there will be a great deal of property lost. There are reports of fires and explosions in the city, and it is believed that the bolsheviks are blowing up their munitions magazines and other military installations.

Counter-Proposals Will Be Ready Soon

PARIS, May 24.—The German counter-proposals probably will be handed to the allied and associated governments very shortly, according to a report from the peace conference. The proposals are expected to be submitted to a plenary session of the conference on Wednesday or Thursday. The proposals are expected to be a significant improvement over the allied proposals, and it is expected that they will be accepted by the allied governments.

LIST OF DEAD IN EXPLOSION GROWS BIGGER

Thirteen Bodies Recovered, and Official List of Missing Stands at Thirty-five

CDAR RAPIDS, Ia., May 21.—The thirteenth body was taken from the ruins of the Douglas Starch works today. Three hundred employees of the company were engaged in clearing away the wreckage. It is expected that the remaining bodies will be uncovered during the day.

The official list of missing still stands at 35, five of the injured are barely alive in the hospitals and physicians say they will die. There is small hope that any of the missing 35 are alive. The police say the death list will reach 53 if the five in the hospital die.

Company David F. King summoned the leading business men of the city and they viewed the wreck. A search for bodies will be started tomorrow of Monday.

The coroner is investigating a report that the Douglas company was engaged in the manufacture of black powder and that 2500 pounds were stored in the plant at the time of the explosion. Company officials deny powder was being manufactured, but so many stories to the contrary have been told that the coroner deems an investigation necessary.

Investigators from the department of agriculture will arrive in the city tomorrow from Washington to start an independent probe of the explosion. The department wishes to determine if dust was the cause of the accident. At 9 o'clock a telephone message from the wreckers announced that they had almost reached the spot where it is believed that 18 bodies are incriminated. They may be gotten out in a few hours. The western head of the Red Cross has arrived in take charge of the relief work.

WHEN PUNISHED AT SCHOOL HE COMMITTS SUICIDE

DAYTON, O., May 24.—James Peterson, aged eight-four, was confined to the detention ward for violation of the rules of the county home and he committed suicide. His only worldly possession was a watch and this he left to a little boy who he said "reminded the only joy he had" by playing a harp for him.

Navy Man Deserts to Get Into Fight

GREAT LAKES, Ill., May 24.—The cause of his gallant service as a Doughboy in France, Frank Wesley Albee of Springfield, Mo., will not be punished as a deserter from the navy. Albee deserted from the U. S. R. North Carolina and joined the infantry because he wanted to see real fighting. He went to France and fought in some of the most notable battles of the war.

Swiss Have Lot of Royal Highnesses Who Are Unwelcome

(Exclusive cable to The Times by I. N. S.)
GENEVA, May 24.—The Swiss government has decided to prevent the entrance of "look-beak revolutionists" into the country to avoid straining relations with the entente. It was learned from Bern that the government is to issue a decree to that effect.

The Swiss have a heavy problem on their hands with 30,000 Germans and 20,000 Austrians, in every station of life from prince to peasant, working to live here.

Polcs Act Contented to Conference-Wish

PARIS, May 24.—The Polish agitation today was causing great anxiety. Word has reached the peace conference that the Poles in defiance of that body's wishes, have crossed the Danube river and are fighting their way through Rumania. President Wilson is known to have drafted a statement in the name of the big four which, it is reported, states clearly that the alliance and associated powers will not countenance Polish aggression. Publication of the statement is being held up until Premier Clemenceau arrives from Warsaw.

SIX FEMINE IN CHICAGO FIRE

CHICAGO, May 24.—Six persons, three women and three men are reported missing and are believed to have perished in a fire which swept through the Bell hotel on South Wabash avenue late today.

Vests in Fashion's-Limelight

Vests, as a part of new, surging tailored suits, could not be more important. E-wearing them shows a master of patriotism instead of a master of fashion. In fact, a spring suit without a vest, made of less casual and conspicuous is hardly to be found and one might wear a small volume about them by undertaking to describe the various styles by which they are made, the kinds of material used and the endless variety of adornment and trim.

ADVICE FOR FARMERS AND POULTRY RAISERS

Newspapers are made the recipients of thousands of words of advice to farmers and poultry raisers from the federal government through its several departments from the state agricultural colleges and from other reliable sources.

During the past week The Times has received no less than ten thousand words of this advice, covering about all the rural activities from Florida to the southeast and Texas on the southwest to the Canadian border.

Ab, Ah! says he. Here is some advance information "anticipating" the month of June and birds. Here's where we profit by the sage suggestions of the experts.

Next following the wise saw heretofore noted comes the advice to produce infertile eggs. The words are printed in caps and underlined.

Further advice is continued in the suggestions for June. Preserve eggs now for winter use. If you don't know how to preserve eggs, just write to the Department of Agriculture, Washington, D. C., and ask them how to do it.

LET NATIONS HELP THEMSELVES

Herbert Hoover is urging the governments of Rumania, Poland, Serbia and Czechoslovakia to establish machinery to take up the work of feeding themselves, as American help is only guaranteed until the next harvest.

The United States government is to provide advances for the starting of these undertakings and the food imported is to be sold to the people.

Conditions proposed for export are to be laid by the commission abroad, and little by little it is believed that normal business can be built up within six months time.

The American public will doubtless approve this policy. The first help that can be given the newly European nations from now on is encouragement to help themselves.

Secretary Lane of the Interior Department recently announced a plan for stimulating motor touring between three great and popular national parks of the West, which will in his opinion make the backbone of a new epoch in American travel.

The equipment to be used in this service consists of large new touring cars of seven and ten-passenger capacity. The fleet is to be placed in operation by H. W. Child of Helena, Mont., and R. E. Emery of Denver, who now operate the transportation lines in Yellowstone, Glacier, and Rocky Mountain national parks.

It is Secretary Lane's belief that the federal government ought to actively encourage travel to American health and recreation resorts, regardless of whether or not they are in the great national park system.

Germany negotiators said that poor old Germany will be unable to pay. Why don't the credit men chain the nation out to the highest bidder?

Germany never thought, way back in 1917, when she began cutting throats, that she would have to lay them all out herself.

THE BOUNTY BONCO GAMBLING

In the Utah congress a resolution was passed providing for the discontinuance of the bounty on rats.

It seems that the dwellers in those dim land Pacific isles are not above some very unclean tricks and the Guam treasury was always behind on the rat bounty because the simple island folk made a practice of going into the woods where the rats abounded in numbers, did not harm, and killing them by the thousands.

The point of the whole thing is this. Taxes which had always been low in Guam began to mount. Investigation proved that it was the bounty lunacy game which was responsible, since it demanded a steady increase in the provision for bounties.

CHILD LABOR LAW IS PERHAPS CONSTITUTIONAL

The new federal child labor law, recently declared unconstitutional by Judge Boyd of the western judicial district of North Carolina, does not contain any reference to interstate commerce.

Unless the supreme court goes squarely back on its previous decisions, it will not affirm Judge Boyd's decision of unconstitutionality. The fact that congress sought to do by indirect action what it could not accomplish by direct prohibition, has nothing to do with the case.

Poor old royalty got a stinging rebuke from democratic Canada when the king was asked "graciously" to refrain from conferring any titles of nobility upon any residents of the dominion.

Conditions following the civil war when the soldiers boys returned were very much different from conditions today. They didn't have jazz and they didn't have prohibition when Johnny came marching home.

There is a slight to pressing lack of food in Europe, according to reports, but there is plenty of food for reflection to last for a century or more.

Montrose Thought Coxcomb Peak Was Uncomphagre

MONTROSE, COLO.—Colorado is building at the capital city of Montrose county and it has a right to be. The job is on Montrose and there is no use trying to get out from under. It's this way: For more than 20 years the people here have been known as "uncomphagre."

Montrose A. H. Reeves, who has lived in the valley 20 years, would not listen to him. Neither would County Surveyor W. H. Fleming. There were scores of other old timers who were almost willing to stake their lives on Uncomphagre. But the newcomer stuck to it all the United States geological survey started beyond question that "Uncomphagre" was Coxcomb and that the snowy summit "with no name" was the finest good-looking Uncomphagre.

GENERAL SMUTS GOES TO HUNGARY

Gen. John Christian Smuts, minister of defense, Dominion of South Africa, is one of the big men of the peace conference. Report has it that he is the author of many of the league of nations covenant.

The new government in Hungary has definitely promulgated a system of government by village, town, district, and county councils, and a national assembly of councils. The representatives to the national assembly will be elected by the town and county councils.

SOLDIERS KILLED BY EXPLOSION

WASHINGTON, May 21.—Four American soldiers were killed and 12 injured in two explosions at Camp Williams, Is-Sur-Tille, France, on May 15 and 16. General Pershing said the explosion resulted from the war department.

Expect Crisis in Winnipeg Monday
WINNIPEG, Man. May 24.—The general strike here will reach a crisis Monday, it appeared tonight. Government employees, prepared to accept most employees back to work, by Monday noon, the alternative being automatic dismissal. The three unions of government labor employees and the government, reached the ultimatum as the first definite test of strength. The committee of 1,000, representing government labor employees and the government in every way possible. Members of the committee already prepared to submit to striking firmness. The committee will meet again tomorrow. It is expected that the government will be forced to accept the terms of the ultimatum. The committee will meet again tomorrow. It is expected that the government will be forced to accept the terms of the ultimatum.

General Electric, military director of the district, has a large force of military police at his command. A machine gun battalion was added to the city. It was not advertised by the military police. The strike leaders said they would try to avoid disturbances of any sort but said there are many radicals in the ranks who may create a riot. A small riot was started by this faction; they said it might justify the entire organization.

Would Hold Agents Liable in Damages
WASHINGTON, May 24.—Food and drug administration officials advise that the prospect of being held personally liable for damages for losses caused by the sale of adulterated food and drugs by the enforcement of unwise, unjust or discriminatory orders and regulations issued under the authority of the food and drug administration. A bill introduced in the House by Representative Chandler of Louisiana would grant permission to agencies of the government to sue and sue agents to receive damages.

One-Cent Letters Are Provided For
WASHINGTON, May 24.—Ultimate one-cent letter postage is provided in bill introduced in the House by Representative Mansfield three years ago. The bill provides that the rate of postage on letters shall be one cent, proportionately as the charges are increased on the advertising matter. The bill also provides that the rate of postage on letters shall be one cent, proportionately as the charges are increased on the advertising matter.

FIGHT MENACE OF ANARCHISM
American Workers Alive to the Danger Contained in "Red" Propaganda.
ONE FLAG, ONE LANGUAGE

No Possible Justification for Revolutionary Agitation in This Country—Partnership Between Labor and Capital the End to Be Sought.

(From Union Labor Advocate, Chicago)
Organized effort that has been made to create the reddest workers of this country to overthrow the bourgeoisie and the U. S. Government is one of the most serious threats to American life. They Came Direct From UNCLE SAM

These Splendid AUTO ROBES AND BLANKETS

They Will Be Sold At the Astounding Price of

\$5.50

Ends Thursday, May 29. Saturday, May 31.

How This Astounding Opportunity Became Possible

THE WAR ENDED suddenly. Everybody was glad—bilateral joy that the awful carnage was ended and the victory won. But Uncle Sam was just as well prepared to go on as to stop. Supplies of all kinds had been bought at market prices. Among these supplies there were thousands of fine Blankets and Auto Robes—and Uncle Sam bought only the best. After the end of the war ended the government's need for the surplus. A group of loyal men purchased thousands of these Auto Robes and Blankets direct from the government and they offer them to you at about half the price the government PAID FOR THEM only a short time ago.

The Sale of these Government Standard Auto Robes and Blankets Begins Thursday Morning

A Tip to Wholesalers and Retailers and Hotelkeepers

The more you know about merchandise the more you want you to attend this sale. You know that \$5.50 is less than you have paid for the manufacturer's price. It will save you to get on the train and come to Twin Falls, regardless of distance if you live out of town. If you can't handle big lots we will take right on price. Handle large better than on the chance you never had such a one before.

A Terse Description of These Robes and Blankets

The Blankets and Auto Robes in this collection are the U. S. Government standard winter flannel or flannel. Colors are olive drab, grey and black blue, as well as other colors in the Auto Robes. They are all 80 per cent of pure pure wool according to government standards. See them and you will realize that never before did you have such an opportunity. There is no mistake in the price. The flannel robe, \$5.50 and that's correct—our un-sterilized choice at \$5.50 each. None are worth less than double and some as high as \$20. Wise buyers will be on hand Thursday morning at 10 A.M.

The Strongest Argument for Christianity

By REV. HOWARD W. POSE, Megley Bible Institute, Chicago

The strongest argument for Christianity is a Godly life. There is about it something that is well-nigh irresistible... "I have heard it said, but I do not like your Bible."

Memorial Day This Year Has New and Great Significance

MEMORIAL DAY, the day of America's soldier dead, has grown with the growth of America's destiny in this great war... "I never heard about it at all, but I saw it first in San Francisco."

The Closing Scenes of the Great War Between the States

THEY fought man to man, a brilliant fighting day in Virginia's Front Royal... "I never heard about it at all, but I saw it first in San Francisco."

Ingersoll's Tribute To Those Who Died for Their Country

However the graves of the heroic dead with flowers, the past days before us, as it were, like a dream... "I never heard about it at all, but I saw it first in San Francisco."

THE GRAND REVIEW AND THE LAST PARADE

Few of the Veterans Who Marched Down Pennsylvania Avenue in 1865 Were Present at the Last Parade Over the Same Route in 1915.

More than 400,000 men, estimated by a military staff, rode at the head of the column that trooped through Pennsylvania avenue... "I never heard about it at all, but I saw it first in San Francisco."

Gen. Philip M. Sheridan.

There were cheers and tears from the crowd... "I never heard about it at all, but I saw it first in San Francisco."

Gen. Nathan Bedford Forrest.

Gen. Nathan Bedford Forrest... "I never heard about it at all, but I saw it first in San Francisco."

KEEP UP WITH THE TIMES

Gen. George Gordon Meade.

Gen. George Gordon Meade... "I never heard about it at all, but I saw it first in San Francisco."

The Grand Falls... "I never heard about it at all, but I saw it first in San Francisco."

ELEGANCE IN SPRING SUITS

The youthful and chic suit shown here will interest those who are looking for novelty... "I never heard about it at all, but I saw it first in San Francisco."

NOVEL SILKS IN SKIRTS

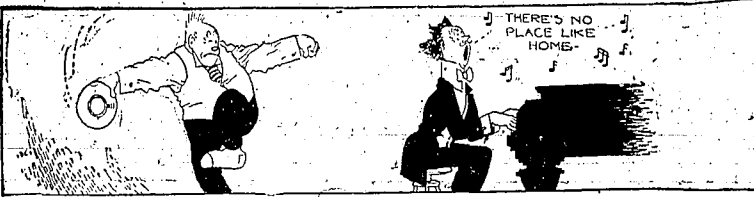

A new and fascinating chapter in the story of feminine fashion has been introduced... "I never heard about it at all, but I saw it first in San Francisco."

AT APEX OF SPRING STYLES

The return to favor of a certain style of dress... "I never heard about it at all, but I saw it first in San Francisco."

THE SUNSET MAGAZINE

THE Times is highly gratified to be able to state to its many readers and friends that we have been successful in obtaining an extension of time to June 1st in our publishing arrangement with this great western magazine for western people. The Sunset. We advise all our Sunsets readers to avail themselves of this most liberal offer at once, as June 1st is the limit to which we can give you both these publications at the price of The Daily Times alone.

The Daily Times ONE YEAR The Sunset Magazine \$5.50

Walter V. Washburn concludes his article on the Shoshone case with an article having the appropriate subtitle of the defense. It tells of the methods employed by that treaty organization, the International Workers' Defense League, and the results of its work. The article is called "Defamed Publicity."

Walter Hall concludes his article in a somewhat new describing the trials and tribulations of racing, yet still reads that will contain real news in the story. You will check on the writer's experience and you will learn a few things you did not know about a horse known industry. The title of the article is "The Race of the World."

This issue contains another page of "Notes of Idaho Stars," where men who have won distinction overseas, with the record of the acts that brought their decorations.

In fiction there are three short stories and a long installment of Rose Wither-Lane's novel, "The Road to the Sun." The novel is called "The Road to the Sun." The short stories are: "A Shoulder to Lean On," by Vincent J. Lee; "The Promise of War," by David H. Valentine.

The Police of the Pacific, eight pages of editorial comment on Western affairs, and the regular department, "The Hour in the West," interesting Westerners, and interesting Service Bureau, complete this interesting issue.

The Daily Times and Sunset Magazine offer has been extended to June 1st.

Take advantage of this liberal offer while you have the opportunity—DO IT NOW!

Farmers' Light, Heat & Power Co. soon to be incorporated; most all the stock has been subscribed. Just a matter of knowing what roads the power lines will be built upon to get most consumers and stockholders in least distance

If you want Light, Heat and Power have your neighbors ready to buy stock, so as to build more lines and serve more people. Enough Power and Heat for practically every farmer in this district. Ask any questions you wish to; they will be answered.

Farmers' Mutual Light, Heat & Power Co. Answer Questions as They Are Asked

- Q. How long will it be ready to be served by the Farmers' Power Line at least all are that I have seen, but I want to know where the line is going, and if we can depend that all the farmers can be served?
- A. The line will first be built along the road where the most users, and the most stock is subscribed. As the line is now laid out it will run one mile east of Bald, south to the section corner, four miles south of the southeast corner of Bald, then east by the school house, and continuing along the section line as far as Rock creek, and then there will be a main trunk line going east by the cheese factory and continue east to the section road running north and south two miles east of Twin Falls city. The south two miles, there are a lot of heavy consumers of heat and power, and many have subscribed for large blocks of stock.
- Q. If there is so much money made on power and light, why don't some individual put in the section and make a million?
- A. If the voters of the State of Idaho will elect men to office that will eliminate the Public Utilities commission, so other power companies can operate—imagine it would be done. You can only build at this time a mutual company without profit.
- Q. How much money does it cost per mile to build a line. Just wire and poles?
- A. About \$1800 per mile all depends on the nature of the country where you are building.
- Q. How much of each \$1000 subscribed for stock will be put into line and how much will be put into the purchase of the plant and machinery at the generating station?
- A. Up to the expenditure of \$100,000, about 17 per cent will be in the work and 83 per cent in generators, water wheel, buildings, etc. However, after the first expenditure is made most all money will be used in line building.
- Q. What advantages has the man who takes \$1500 stock over the \$1000 subscriber?
- A. Generally a larger user, has more votes, and wants to put it over, and can see where his saving in power, light and heat will pay him back not only his investment but a large rate of interest, but as the line extends, the more stockholders will pay more than line cost, and the larger stockholders can reduce their holdings to where all stockholders will be on an equal basis, considering the amount of power used.
