THREE HELPS FOR CHICAGO

CHICAGO, July 25.—The city is being helped in three ways...

Have just finished my third bottle of Tanlac and have actually gained eighteen pounds! This is the remarkable statement made by Mrs. Mamie O'Connell of 2505 S. Welton street, Denver, Colorado, recently.

"Ever since I was a child," Mrs. O'Connell continued, "even as far back as I can remember, I have had trouble with my stomach. Everything I would eat caused me stomach cramps, flatulent pain and at times I would vomit. I was always very nervous and my appetite was so poor that I finally had to go to a doctor on account of the condition. He prescribed medicine, but it did me no good. I took pills for stomach trouble, but nothing helped me any good. I fell off my weight, was very weak and nervous. I was so tired I could hardly handle my brother-in-law. He told me of the fine results he had gotten from Tanlac and advised me to try it. The result, I am just beginning to realize, is that I could eat without suffering at all. My appetite is splendid and I can eat just anything I want and I enjoy it and I know if my food did not agree with me I could never have gained so much in weight. I sleep well every night now and Tanlac has built up my strength until I can do my work without getting the least bit tired. I have recommended Tanlac to everybody because of what it has done for me and I'm buying a bottle now for a friend of mine for I believe it is just what she needs."

Tanlac is now sold in Twin Falls by City Pharmacy, in Rigerson by Thompson Drug Co., in Murkuth by Murkuth Drug Co., in Flips by A. H. Wood, in Dahl by C. B. Herbig Drug Co., and in Kimberly by W. A. L. Slove—Adv.

VILLA DIRECTS SURPRISE RAID

Bandits Loot Mexican Town of Parral, Kill Civilians, Annihilate Garrison

EL PASO, July 23.—News of a surprise raid on Parral by Francisco Villa, in which the town was looted, several civilians killed and the federal garrison annihilated reached here today. According to reports, Villa broke up a brilliant dancing party of leading citizens of the city of Chihuahua by General Manuel M. Dignato, the Carranza commander.

The Villistas are reported later to have looted several stores at Parral, state of Durango, after which they retreated to the mountains.

Villa's actions here discredit the story that Villa and General Angelos are to make a trip to Japan in an effort to obtain munitions. They characterize the report as a Carranza propaganda. It is thought here, however, that General Angelos may go to the United States to urge recognition of the rebels.

FORD EDUCATOR ON THE STAND

Testifies Regarding Pro-Germanism in Auto Plant

MOUNT CLEMENS, Mich., July 21.—Apparently five hundred men whose symptoms were believed to be pro-German were at work in the Ford automobile company's plant during the war, according to testimony given at the trial of the Ford-Fitzmaurice \$200,000 libel suit today by Edwin O. Clement, one of the heads of the national department of the plant. Thirty-five men of German nationality, Clement said, were refused permits to work in the plant because it was not considered safe to employ them where munitions were being made.

Clement said these were instructed by the plant to keep their mouths shut and their eyes and ears open, and listen for anything derogatory to Uncle Sam.

Through Clement's testimony it was brought out that an employee of the Ford plant had been charged with using profane language in connection with President Wilson. The man was later heavily fined in court.

BALEAGED FEED, AIR, SUNSHINE AND SHADE REQUIRED DURING HOT SEASON

Green Feed Helps Hens to Keep Down to Good Laying Weights

Prepared by the United States Department of Agriculture

The obesity and bad language are opposed to profitable poultry production because excessive fat hens, as well as languid, lay hens, lay few eggs and waste their energies in storing up surplus vitamins instead of using them for the manufacture of an egg every other day. Healthier, more active, lay hens do not develop obesity, and the result is to produce more eggs and to keep their eggs open and fertile.

The instructions were said to warn "to keep their eyes and ears open, and listen for anything derogatory to Uncle Sam."

Through Clement's testimony it was brought out that an employee of the Ford plant had been charged with using profane language in connection with President Wilson. The man was later heavily fined in court.

A CONVINCING FACT

SHOES are going HIGHER. This is POSITIVE. We have already received notice of the advance from \$1.50 to \$2.00 per pair for Fall. Now if you can save this amount on a pair of shoes by buying now; is it not well worth while? Just figure what per cent you will save on the investment. Would you loan money for 30 per cent to 40 per cent? Then how can you afford to wait? THINK THIS OVER?

This is the Work Shoe Season

and we especially recommend the following numbers as being suitable for good service and comfort, and at prices that are far below their value:

No. 829. Chambray Blue, single sole, medium weight, Good-year welt, made over by the Minson Army last.

\$5.50

No. 828. Blue Suede, single sole, single sole, durable.

\$2.98

No. 2148. Brown Calfskin, 8 1/2, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

\$3.50

No. 9019. Suede as above except black. This shoe is a wonderful value at this price.

\$3.50

No. 911. Brown Moss-Bleach, well, single sole, six oiled, whole quarter, leather lined, stay and pull straps, eye, look last.

\$5.98

No. 7563. Black Elk Outing Hal, heavy single sole, vulcanized sole, Good-year welt.

\$3.98

No. 208. Black Weavite Outing Blue-welt, Oak single sole vulcanized. This shoe is designed to give the most soft and flexible shoe possible in a heavy weight. We recommend this model. Excellent value at

\$5.49

You cannot afford to allow this opportunity to pass. We urge you to investigate before buying shoes.

FALL RIVER BABIN FIRE REPORTED UNDER CONTROL

ROCK SPHINX, Wyo., July 23.—Latest reports from the forest fire in Fall River Basin is that the flames are under control.

New fires were reported yesterday on Rock and Twin creeks in heavy timber but it is believed these will be under control in a short time. Two hundred men from ranches within a radius of 100 miles are battling the flames.

AGREE TO EIGHT DAYS TRUCE

LONDON, July 23.—The Hungarians have agreed to an eight days truce with the Hungarian reds, said an Associated Press dispatch from Copenhagen this afternoon. Hungarian bolshevik delegates are reported to be on their way to Rumanian frontiers.

Arabs Eat Cucumbers Glad.

The cucumber is grown in great quantities in Palestine. A traveler visiting an Arab school in Jerusalem writes that the dinner the children brought with them to school consisted of a few slices of cucumbers and a raw cucumber, which they ate, and all.

PRICE OF PRODUCTS AND FARM LABORERS

Bureau of Crop Estimates Makes Interesting Comparison.

Wages Rates Have Not Kept Pace With Advance of Farm-Products During 'War'—Year of 1916.

(Prepared by the United States Department of Agriculture)

A comparison of crop and live stock prices has been made by the bureau of crop estimates, United States department of agriculture, and the advance of the prices since 1914, or the beginning of the war, is compared with the advance in the wages rate paid for farm labor. From 1914 to 1916 wages rates for farm labor have not kept pace with the advance of crop and live stock prices. The advance in wages in 1916 was 10 per cent, while the price of crops and live stock has advanced 27 per cent above 1914, while the price of crops and live stock has advanced 100 per cent in 1916. The advance in wages in 1916 was 10 per cent, while the price of crops and live stock has advanced 27 per cent above 1914, while the price of crops and live stock has advanced 100 per cent in 1916.

Times Want Ad Finds Watch

George Beer, lost his watch, and knowing the value of Times Want Ads inserted a little "Lost and Found" ad. A few days later the watch was found by Mr. Rudolph Peterson who on seeing the ad promptly returned the lost property to the Times office.

LOST—On Kimberly road, just east of center, an Eight watch, 14 jewel, G. M. Wheeler movement, saw silver case. Leave at Times office for reward. Lost Sunday afternoon. Geo. Beer.

Finding lost property is oftentimes merely a matter of advertising promptly and in the right medium. The Times with more than a thousand more paid subscribers than any other paper is the logical medium to advertise your wants.

Another Instance of Quick Action from Times Want Ads

Last week E. C. Nims advertised his home for sale. He had several replies and closed the deal with the first party who called to look the property over. The purchaser got a good buy, and saved the agent's commission. THIS LITTLE AD SOLD THE HOUSE.

FOR SALE—5-room house, bath, two closets, poultry and sleeping porch. Price for quick sale, \$2500 with \$1000 cash. Possession within 10 days. Inquire at 111 4th Ave. north, opposite court house.

We could cite you hundreds of instances where a little Times Want Ad has made quick deals, saving time and money for all parties concerned. It makes no difference what you want, if there is a market for what you have, and the price is fair a Times Want Ad will put you in touch with interested persons who are looking for your proposition.

Read the Times Want Ads carefully, there are many opportunities to make money for you.

The Times is the third largest daily in Idaho—The Reason: Most News, Most Circulation, Most Ads, Most Results.

REDUCE MILK-BOTTLE LOSSES

Much Help Can Be Given by Consumers by Careful Handling and Prompt Returning.

(Prepared by the United States Department of Agriculture)

Consumers can do much to help in reducing the loss of milk bottles and prompt return of milk bottles to dealers or their authorized agents.

Consumers can collect all bottles promptly and handle them with care.

Consumers can do much to help in reducing the loss of milk bottles and prompt return of milk bottles to dealers or their authorized agents.

LIVE STOCK

RESULTS IN STRAINING MILK

Operation Improves Quality of Product, but Does Not, Apparently, Improve Wholesomeness.

(Prepared by the United States Department of Agriculture)

Experiments conducted by the United States department of agriculture furnish the following facts regarding the value and proper use of milk strainers:

Experiments in milk indicates caseinogen in its precipitation or coagulation. Straining does not only the coarse particles of dirt and sand, but also the bacteria and has dirt, nor disintegrates flavors.

Straining improves the commercial quality of milk, but does not appreciably improve its wholesomeness.

Straining does not remove cotton fibers and absorbent cotton buttons and threads are not removed.

SCHOOL FOR HOUSEMAIDS

A great many of the colored women who have been flocking to the north in the past two or three years and have sought positions in domestic service have been almost completely ignorant of the work they sought to do as possible. Practically all of those who came from the cotton regions had spent their lives in the fields picking cotton. They brought no householding talents with them, only a profound belief in the wealth they were going to acquire in the big industrial cities.

They obtained positions because help was desperately needed in every field of endeavor and the housework supply was greatly depleted by the call to other fields. But they only complicated the problem of domestic labor by their ignorance.

One part of the program of the Detroit Urban League has been to train some of these women for expert houseworkers. This organization uses a modern, completely equipped flat as a training school. The girl or woman seeking a good position as housemaid goes there and is taught everything from correct dishwashing, scrubbing and sweeping the kitchen—there are correct ways to do these things where the modern electrical appliances are not available for use—on through the more complicated work of the rest of the house where rugs and furniture are involved. Students are taught how to clean the different kinds of wood used in houses and how to keep in perfect condition the finest porcelain bathroom. They are taught also how to cook and serve meals.

Girls who have taken this work are rated as D.K. by employers. When they have done this practical work for a few weeks or a month or so they are reported as satisfactory and are given a certificate of graduation.

Needless to say, the woman who employs this kind of help should recognize that she has obtained a skilled worker and should expect to pay fairly for such service.

THE TELL-TALE FILM

Movie actors had better be careful what they say behind the camera. Not that the camera cares, but it may tell tales.

Somewhat of a scandal has been caused in England by the discovery that a "Pilgrim's Progress" film is full of profanity. There had been previous much criticism of the strong language characterizing many American productions, based on the frequent occurrence of profane phrases plainly printed on the films. But so badly surprised the depravity encountered in that pictorial version of the heavenly Pilgrim, until it was shown to the inmates of a deaf-mute institution. They could read the lips of the actors, and what they read on the lips of the man portraying the part of "Talkative" filled that asylum with excitement and indignation.

It developed that the actor in question, who was told to converse freely during the filming, in order to make the picture-life-like, became exasperated over something or other, and filled the place with lurid and picturesque profanity, all of which the camera faithfully treasured up for subsequent revelation.

Movie patrons as well as actors may derive a lesson from this sad tale. Don't be too sure that the hero is uttering words of love or that the heroine is conversing like a perfect lady. Learn to read lips and see what they're really saying. It may shatter some fond illusions, but it will add a new element of interest to the movie shows.

FRENCH VIEW OF THE LEAGUE

There is a current impression that the French do not take much stock in the League of Nations. Whether or not this is true of the nation in general, it is certainly not true of Baron de Tiesouvalles de Constant, member of the French senate, who is now touring the United States. He puts the case of the league with unusual clearness and simplicity.

"The covenant of the league is very imperfect," he says. "but it is the end of war. I wish it could have been better. But I will vote for it in order to amend it later."

"If we begin by rejecting it, there is no use speaking of amending it. This would be destroying all the preparations of peace and starting another war. We could not, in France, endure this idea. We have suffered too much."

Speaking for his own senate, he says: "We are bound to ratify it. Otherwise, what is the consequence? Another conference? How long would that take? How many discussions? Another treaty— with what assurance that the people would accept it? There is already too much revolution, anarchy and Bolshevism. We must finish the job now."

A Bulgarian woman has arrived in New York bringing with her eight million dollars of money and a million dollars worth of a loan.

Frightfulness will never cease, Admiral von Tirpitz has written a book.

IN A RE-EMPLOYMENT BUREAU FOR FIGHTERS

A typical scene at the New York re-employment bureau for soldiers, sailors and marines organized at the request of Col. Arthur Wood, in a plant in the city of New York and conducted cooperatively by the army and navy. The Machinery Association of New York and all war time welfare organizations.

SENATOR MAKES LETTERS PUBLIC

El Paso Broker Makes Engagement for Senator Fall and Thon, Interests Senator

WASHINGTON, July 2.—Senator El Paso, who has been in the city for a few days, today made public a letter which he had received from El Paso, Texas, and which, according to the senator, had been written to him by a certain Thon, who is a resident of El Paso.

The Mexican government, according to dispatches from Mexico City, announced that it had received correspondence from Thon, who the senator said planned to have a villa in a certain spot near El Paso, and would make the correspondence public.

The copies given out by Senator Fall disclose that Thon informed him of his communication to Villa after it had been sent, and following a conversation with the senator in El Paso the senator then wrote Thon that he had carefully refrained from allowing himself with any Mexican faction and that as a preliminary to conversation with any Villa representative he must have a showing of the American flag and property would be respected.

Senator Fall added that if Villa was in a position to give such a showing of respect to the American flag before the people of the United States.

Senator Fall said he regretted that had sent such a communication.

M'LEAN GOES TO SEE PRESIDENT

Does Not Reveal What Effect Visit Had on Opinions

WASHINGTON, July 2.—Senator M'Lean, who has just returned to the peace treaty and the House of Representatives, today in a letter to the editor of the Chicago Tribune, said that he was leaving the White House after being received with the president for nearly an hour.

The senator's position on the peace treaty was "not touched" on, but the senator, Senator M'Lean, declared.

Senator M'Lean was seen one day in his office in the House of Representatives, and he said that he was not in a position to discuss the treaty, but he was not in a position to discuss the treaty, but he was not in a position to discuss the treaty.

Negligees From the Orient

In whatever corner of the world it is, there are beautiful, colorful dresses of silk and lace, of satin and tulle, of velvet and fur, of the dearest of materials. They are made up in the most exquisite and artistic manner. They are made up in the most exquisite and artistic manner.

Wide lace—floating sleeves that are called into the way of the designer and are used in many instances. Their underparts of silk, tulle, lace, and satin, are of the most delicate and beautiful. They are made up in the most exquisite and artistic manner.

The practicalness of the style of the negligee cannot be over-emphasized. It is the perfect thing for the day. It is the perfect thing for the day. It is the perfect thing for the day.

Rings Over Gloves.
According to fashion correspondence from the French capital, nearly all the French women in Paris are wearing rings over their gloves.

Artesian City

J. McFarlin was an Artesian City visitor.
Ron Marshall and Miss—appears late for Lewis for the Springs and from there they will go to Bear Lake and Salt Lake.

W. M. Gardner and son left for Stump.
Mrs. C. M. Arntine's mother, Mrs. Malquist, arrived from Fort Madison, Iowa. She will spend a few months with her daughter.

Mrs. T. J. Hight was a caller at the Marshall home.
Mrs. Earl Canary arrived in Artesian City from American Falls and is visiting her aunt, Mrs. Nick Swanson.

Edgar Stevens left Sunday morning for his home at Mountain View, Wyoming. Mr. Stevens will take charge of his father's ranch.
Mrs. Mary Heath left for Lewiston, having been called there by the illness of her sister.

Frank Ransom left for Hatley.
Mrs. Earl Canary and son Marvin left for Shoshone where Mr. Canary is employed.
Mrs. W. M. Stonegar was a caller here at the T. J. Hockhome.

Mr. and Mrs. Sturgeon and family were Artesian City callers.
Mrs. and Mrs. W. M. Hierarchy from Miller visited at the Vick Swanson home.
Miss Mabel Edwards of Mountain View, visited with her sister, Elmer Edwards.

CHICAGO ENGINEERS COMING
WASHINGTON, July 2.—The 310th engineers, now at first, are scheduled to embark for home on August 15. The 310th engineers of California was increased in a celebration from General Pershing. The 310th is composed for the most part of California men.

You haven't read your paper until you have read the want ads.

REFERENCE COMMISSION CONSIDERS AIR CONTROL

PARIS, July 2.—The airship treaty in Chicago probably will result in specific action by the aerial commission of the peace conference. It is expected that the commission will recommend legislation to regulate aerial travel. The commission has asked for an official report from the Chinese authorities to guide the permanent aerial commission when it begins its labors under the auspices of the league.

CHICAGO PHILANTHROPIST DIES

CHICAGO, July 2.—La Verne W. Sawyer, wealthy Chicago manufacturer and philanthropist, died early today as a result of a disease. His most recent philanthropy was the creation of a \$250,000 foundation to be used in the education of soldiers, sailors and marines of the great war and their descendants.

BRINGING UP FATHER

By George McManus

Delicate Mechanism

Despite its scope Swift & Company is a business of infinite details, requiring infinite attention.

Experienced men must know livestock buying with a knowledge of weight, price, the amount and quality of meat the live animals will yield.

Each manufacturing operation must be done with expert skill and scientific precision. A highly perishable product must be handled with speed and care to avoid loss.

Chemists, engineers, accountants, and other specialists are required to take care of our intricate problems.

Alert wisdom and judgment must be used in getting stocks of goods into the open channels of demand through our four hundred branch houses. Branch house organizations must show activity and energy to sell at the market in the face of acute competition from other large packers, and hundreds of small ones.

All these requirements of intelligence, loyalty, devotion to the task, are met in the personnel of Swift & Company. Yet the profit is only a fraction of a cent per pound with costs at minimum.

How can the workings of this delicate human mechanism be improved upon?

Do you believe that Government direction would add to our efficiency or improve the service rendered the producer and consumer?

Let us send you a Swift "Dollar". It will interest you. Address: Swift & Company, Union Stock Yards, Chicago, Ill.

Swift & Company, U. S. A.

KAISER IS FREE BUT CAN'T MOVE

Poor Fellow Suffers From Inadequate Attendance, and His Mail Is Censored

THE HAGUE, July 22. The Dutch foreign office has refused to grant permission to the ex-king to move from Amsterdam, though he himself desired to go to his friends in the former German emperor's residence at Weimar.

The ex-king is greatly free to leave Holland, it is said here, but a significant statement obtained from the foreign office today declined to say what would happen if he tried it.

William's so-called "freedom" consists of being guarded by soldiers who limit his movements to Leyden and Amersfoort. His entourage has been reduced to a chamberlain, an attendant and valet for himself, and only help in waiting and tea made for the ex-emperor.

Both his visitors and his mail are subject to Dutch censorship. Only a few days ago the Dutch refused to permit an American correspondent to talk to the former kaiser. However, there is a constant pilgrim of visitors from Germany who keep William Hohenzollern well informed of doings inside Germany. They advise him that the movement for his extradition by the allies has strengthened the hand of the monarchists but that his flight has alienated many of his staunch supporters and that should a monarchy be re-established, the choice of ruler would most likely fall upon the crown prince.

WILL WORK OUT BASIS FOR DAMAGE CLAIMS

CHICAGO, July 25. A commission of three men has been appointed to pass upon all claims for damages resulting from the "Coca-Cola" disaster, and the Goodyear Tire and Rubber company, owners of the plant has pledged itself to accept the findings of the commission as the basis for settlement of all claims. The action of the commission, however, does not preclude the filing of damage suits by those injured.

RED RULER OF HUNGARY

Bela Kun, who is enforcing his order ruthlessly in Budapest.

ANNOUNCEMENT
Dr. W. E. Aaron has resumed the practice of dentistry and is now located at 119 1/2 Main Ave. N., opposite the Perrine Hotel.

An Open Letter From Dr. Parker

The Dental Office using the E. R. Parker System, which has been established in this city, is the outgrowth of an idea that came to me over a quarter of a century ago.

I was a dentist, with only two hands, and my professional ability was limited to what those two hands could do.

I saw that I could do no more with those two hands in a dental way than Rockefeller could do with his two hands in an oil way.

And so I began to use my head.

It was as plain as the figure 1 that by training one man to extract teeth, another to fill teeth, another to make artificial teeth, and so on, and then associating these men in one office and having them work together, there was no limit to what might be accomplished; almost no limit to the reasonable prices at which fine dentistry might be done.

It meant that materials and supplies could be bought in great quantities at wholesale, and the saving could be taken off the bills which the patient pays.

It meant that no time would be lost in operating, and a saving of time is always a saving of money.

I carried out this idea in one office and it worked—worked better than I had ever hoped.

If one office was a success, why not two or ten or twenty or any number?

So I began establishing offices using the E. R. Parker System as fast as I could find competent dentists to conduct them, with the result that there is a Parker System office in this city.

This briefly describes the E. R. Parker System, based on the idea of lowering the price of dentistry by doing more of it and doing it better.

No charge is made for examinations of teeth, counsel or advice.

You are invited to visit this office, where you can see what modern dentistry has grown to be, and how little the price will be to have such work done as your teeth require.

DR. PARKER Founder and Executive Head of the E. R. Parker System.

SOLDIERS CHARGED WITH SHOOTING RESTAURANTEUR
GREEN RIVER, Wyo., July 23.—Roy W. Phillips of Denver and Charles J. Hall of Grand Island, Neb., returned soldiers, are in the city jail here, charged with shooting and killing Peter Asapogonas, Greek owner of a Green River restaurant in Hock Springs on Sunday.

A mob of Greeks gathered at the jail Monday night demanding that the two soldiers be turned over to them, but the officials managed to disperse the crowd without trouble.

ANNOUNCEMENT
Dr. W. E. Aaron has resumed the practice of dentistry and is now located at 119 1/2 Main Ave. N., opposite the Perrine Hotel.

URGES RELIEF FOR ELECTRIC STREET ROADS

HARVARD Economist Suggests Means of Getting Utilities on Their Feet Again

WASHINGTON, July 22. The country's electric railways are now in such financial straits that the federal, state and municipal governments should rescue them of at least a part of the heavy taxes now borne, Professor Harold J. Dutton of Harvard university said in a report on electric railways commission today.

Professor Dutton went exhaustively into the tax levied on street railways property in various states, showing that these taxes run from special imposts, such as for street paving, to taxes on gross receipts, capital stock and the federal income tax.

That municipalities waive the special taxes now exacted for the use of streets and charge only for maintenance, if any, occasioned by the presence of car tracks.

That other special taxes levied by state and municipal governments in excess of those imposed on ordinary business enterprises be reduced or abolished as the situation may require.

That relief from ordinary taxes imposed on property cannot be justified except in cases of extreme emergency. In the street railway world, it is said, such an emergency cannot be conclusively held to exist until the highways have first been relieved of the taxes violating the principles of equity and have been permitted to increase their fares as may be expedient and practicable.

CHURCHES

M. E. Bible Class
The adult bible class of the M. E. church is enjoying a good attendance. Last Sunday 43 were present. The lesson for next Sunday, "Christian Fellowship," should, no impress all members, and are largely churchless.

WATCHMAN HELD ON SUSPICION
CHICAGO, July 24.—Thomas Fitzgerald, a night watchman in the police today in connection with the disappearance of Janet Wilkinson, a six-year-old girl. The girl has been missing for nearly forty hours and was last seen talking to Fitzgerald a short distance from her home.

MINE SWEETEN-SINKS
THIRTY LIVES LOST
HELSINGFORS, July 21.—Twenty British mine sweepers collided with those off the Estonian coast and only nine were rescued.

DO YOU KNOW--
That the Canadian Pacific increased fares and selling at \$10 per A. with \$5 per A. cash and 20 years on the balance?
That the interest is only 2% per annum for the first 100 years where improvements work is done, and then 4%?

That the altitude is 2300 feet (2500 feet 11400 feet lower than Twin Falls) and that the average annual rainfall is 37 inches?
That the Dominion government controls all water rights in Canada and guarantees two acre feet for this particular tract?

That the water is measured and delivered on year land, and not 3 or 4 miles up the ditch?
That this body of rich land lies down the Bow River Valley about 100 miles northwest of Calgary and only 150 miles from the U. S. line?

That wheat, oats, barley, field peas, beans, alfalfa, clover, hay and all grasses do so well here as in Southern Canada?
That the C. P. R. will loan you \$2,000 for improvements on each 100 acres of land?

That there is no tax on personal property or improvements and only thirty cents for forty dollar tax on 100 acres?
That you should join one of our clubs and receive a survey of land, 150 and investigate this property?

Brown Bros.
Twin Falls, Idaho

Greater Mileage at Less Expense

You can add 5,000 to 10,000 more miles to the tires now on your car (granted they've already gone 4,000 to 6,000)—at half the cost of the original set.

And in addition to this heretofore unheard-of economy you get an ironclad puncture proof guarantee.

This unusual reduction in tire mileage cost and gain in convenience and comfort, has been made possible by nationally known engineer, Chas. C. Gates, who invented and perfected a tire that is now being used by over 600,000 motorists throughout the United States.

Since you too can take advantage of this money saving—worry ending opportunity, don't you feel that you should investigate Gates Half-Sole Tires, without delay?
