Oriental Grab Opportunity American Capitalists Turn Down Says Senator Phelan.

GOVERNMENT MUST PROTECT

Washington, July 30—Japan is pressing through the failure of the United States to take a strong stand in Mexico, Senator Phelan of California declared today. The Japanese, he said, are buying 'oil' oil interests which Americans, who have been discouraged, are giving up.

Our government, as a measure of protection against the possibility of a Japanese grab of the oil interests in Mexico and the United States, should take a strong stand in Mexico, the California senator declared. The danger of oil interests in the United States would be eliminated.

CORBETT TALKS ABOUT DEMPSEY

Says If Jack Learns to Control Himself, He's Best Ever

(By Tad)
NEW YORK, July 26.—Dempsey is only a boy at the boxing game, said Jim Corbett last night while chipping fights with a bunch at the Ruydell home. "You know what I mean, kid? A natural fighter who shoots it all without thinking. Say, he's another kid heavyweight we ever had. An McDermott, or Ketchick. They were just boys at the game. He's just like him. If either one of those fellows were taught the three points of the game they would have been as far as I can see."

air, a tough guy. He was in his You get me? Hard to hurt and hard to keep away. He was naturally left handed, and take it from me, that he left law of his was always in your favor. Dempsey and left would have been a bloody mess. If he would have had helped him a lot, too. He had tremendous shoulders. Without me, I hope the left hand, although he is left. A fairly fair man in hard the fact. They've always an top of it. "If the Dempsey ever learns to control himself he is going to be the best of them. He's a good fighter, but without thinking. Say, he's another kid heavyweight we ever had. An McDermott, or Ketchick. They were just boys at the game. He's just like him. If either one of those fellows were taught the three points of the game they would have been as far as I can see."

TAGGING ALL THE BASES

Billie's heavy hit started the White Sox in a hot race with the Yankees. Heavy hitting, including home runs, came from the Gray and Walker, former both that bore at Willard like a ball of fire in a double-header divided by dog. He wanted to make the killing in the Indians and Athletics. They gave the Pirates but three hits in the first half of a double. "Kid McCoy or Chasnick would have given Dempsey a merry time if the second game and played him. He had been around when they were in the club. The Reds and Braves played fifty hits lightning. They would have fifty in a double-header. King, the staid him off for a few rounds and Brooklyn citizen, gave but six hits then you're have seen a fight 'em in the first game. In the second the would make two Kibbeny extra hits. Braves scored eight. Hahn took the American league though they were stalling. "Jeffries. Oh, a good fighter. Yes, he's a real record, established by books."

FROM THE PRESS BOX JUG

In some corners of the American sport world may be heard aloud protest against William Harrison Dempsey's desire to limit on a title competition overseas. Dempsey has, and something about crossing in for an investigation of title claims presented by a couple of our allies, George, Carpenter of Erie, and Joe Egan of "Lantern." A good deal of hot and stew has resulted among the sport critics because Jack proposes to take his heavyweight title about on the trip. "That seems to be the main objection. If he leaves the crown locked up in the vault of home all is well. The critics don't care a whoop what happens to Jack, but they want the title to stay in America."

Such an attitude should give the new champion cause for deep and careful thought. He says Jess Willard got pummeled right and left by careful scrutiny of his title, which during the Willard administration was never impugned from the world balls but the one time, that time when Dempsey took it away from him. And now they are after Jack for wanting to give them a little action. "What the objection is, Dempsey will wonder."

But why Jack should hold off a little while, at least until Willard could take a pull, another fight, thus showing respect for the departed, but that is the only reason we can see why he shouldn't go any and fight anybody anywhere he pleases. That's our idea of a "strong championship." We're sure Jack would be justified in making his best of them come and hunt him up if they want a crack at the title, but if he chooses to go and get 'em then he is just that much more of the American ideal and idol. Let him look, we say.

They say that Eugene Carr and those other referees will rob him of his title if he gets into a foreign ring. They say that Jack is dead sure to lose on "points," basing their prediction on the raw deals that were handed to Pat Moore, Willie Ritchie and some others. Dempsey would not risk his title that way, they say.

But how can a referee give a man a decision on points if he is that on his back, let alone to the birdsies sing in the tree tops? Believe you us, that is just what our Jack will do to 'em. The question of which his opponents will want the title. And as for risk, the men who are in the ring with Dempsey, Jack ought to be allowed to risk his title with them.

Belmont in 1922, when he hammered out his championship, sweat sweat against the Thors. But his honor failed to save the Red Sox, however, as Dutch Leonard was in form and Derold was ready. Sathorn's pitching was too effective for the Senators, who had to the Browns. Sathorn contributed to the scoring with these hits.

The E. R. Parker System in Dentistry

What It Means to You

By DR. PARKER
Founder and Executive Head of the E. R. Parker System

THE E. R. Parker System means the use of every known and proved method to give you good dentistry. It means better teeth for everybody, and this means better people. It means a fair price for dental work done by specialists. It means that every effort is made to give entire satisfaction to every patient treated in a Parker System office.

This System has succeeded because it believes in the Square Deal, and the Square Deal is the only thing that ever wins out.

This policy of pleasing and satisfying the people has been followed from the foundation of the business twenty-seven years ago.

Dental offices similar to the one in this city have been established in different parts of the country, and each branch is a credit to the community in which it is located.

E. R. Parker System offices grow, and they grow faster as the public becomes familiar with the dependable services they render.

The System stands for progress—for what is newest and best. Under the E. R. Parker System, Registered Dentists will do your work as well as dental work can be done, and do it at a price you can afford to pay. Do not neglect your teeth. Let Registered Dentists using the System examine them free and tell you in advance how little the price will be to put them in good condition again.

BRITTON MEETS HEAVIER MAN

Welter Champ Will Go Eight Rounds With Middleweight

(By Jack Vack)
NEW YORK, July 26.—Jack Britton, welterweight champion, is going to step out of his class. He will fight Dave Mudge, middleweight of the Newark Sportsman's club, today announced that he has signed Britton and Mike O'Flaherty, the middleweight champion of the world, for an eight-round bout on the night of August 22.

The conditions of the match stipulate that O'Flaherty shall not weigh more than 158 pounds ring-side, and number such terms the middleweight title will be at stake. An O'Flaherty could not possibly make 155 pounds, Britton will not risk his title in meeting the St. Paul fighter. The contest between O'Flaherty and Britton will bring together the champions of different classes for the second time in a little less than two weeks.

How You Can Double the Mileage on Your Tires

After running 4000 to 6000 miles on your tires, wouldn't it interest you to know that you could get again as much mileage out of them—at half the cost of the original set?

And wouldn't the proposition have been a stronger appeal, if you were promised puncture-proof service in addition to this heretofore unheard-of economy. A new scientific principle in tire construction makes all this possible—credit for the invention going to Chas. C. Gates, E. M.

The fact that over 600,000 motorists in the United States are enjoying these advantages should convince you that Gates Half-Sole Tires are well worth investigating.

SPECIALIZED IGNORANCE

One of the New York papers remarks that criticism of Henry Ford, based on his apparent ignorance of many things as shown in his testimony in the Chicago Tribune libel case, is uncalled for. 'Suppose,' says the writer, 'that Mr. Ford, turned questioner, were to ask his inquisitor about ohms and amperes, ignition sparks and injectors, vacuum and lubricants, tensile and shearing strains, the design differences of combustion engines for road work, farm tractors and lumber-hauling...'

The lawyer or newspaper editor or merchant would be criticized if, without any training in mechanics, he set about to educate the public in regard to automobiles. The automobile expert deserves even more criticism when he undertakes, with such obvious lack of qualification, to instruct a nation and shape its opinion on public affairs of the highest importance, at a critical time.

Let the shoe-maker stick to his last. A great deal of mischief is done, right along, in American affairs, by attaching too much importance to the utterances of brilliant specialists outside of their own specialties. The profession of the publicist, which many men rush into so lightly, is one calling particularly for long training, wise knowledge and special fitness.

CIDER TRIUMPHS

The House bill for the enforcement of wartime prohibition and the federal prohibition amendment is drastic, especially in its insistence that liquor containing more than one-half per cent alcohol is intoxicating. But there is one strong exception made from which thirty souls, particularly in the rural sections, may derive solace.

Cider is excepted. Not sweet cider, but hard cider. This, as too many men know to their cost, is a potent beverage, whose effects are sometimes disastrous beyond what might be expected from its alcoholic content. And that content, as laboratory inquiries have established, is not at all insignificant.

Department of Agriculture experts testify that fermented cider contains 8 to 10 per cent alcohol, which is twice as much as there used to be in beer. Nevertheless, congress in its wisdom decrees that beer is deadly and cider is harmless.

It is probably futile to inquire too closely into the operations of the congressional mind on this matter. Perhaps the "drys" were fearful of making the law too drastic, and chose to create a sort of safety-valve to ease the "wet" pressure and avoid retaliations. (If perhaps the congressmen feared the farmer vote.)

At any rate, the exception stands, unless the senate rules it out. And this cider steps into a new and honored place—or dishonored, if you prefer—in the list of American drinks. Henceforth it is to be the only beverage obtainable that is capable of inducing—no intoxication, of course, congress has settled that—but such transient exhilaration as the people have been wont to obtain from alcohol.

It needs no prophesy to foretell a big demand for cider and an eager market for every cider-apple produced. Those apples will not be left rotting on the ground next fall.

A YOSEMITE MOTOR ROAD

A paved highway into the Yosemite Valley is soon to be built. To meet the expense of the road, which will cost for a million-dollar fund, 200,000 certificates have been issued at \$5 each. These entitle the holders to admission to the valley. A ticket into the valley at any time costs the same amount, but this particular issue is to build the new road.

Traveling through the Yosemite has been difficult for lack of roads, and almost anybody who likes to travel and is proud of his country would be glad to contribute his \$5 for the sake of making this one of America's wonderlands more accessible.

If tourist traffic in the Yosemite is anything like the traffic in other parts of the country this year, selling 200,000 tickets should be as easy as selling out the circus.

Maybe Japan intends to free Shantung when we free the Philip-pines.

Never mind. Maybe we can keep warm next winter by burning our bills.

Music in Twin Falls Past, Present and Future.....

'My experience in regard to music in Twin Falls hasn't been very varied,' said A. S. Paulin, until recently director of music at Ascension Episcopal church, when seen by the interviewer. 'But I can do no good by spreading my lines of church chairs I hope it will help.' The interviewer had a sudden picture of the evangelist who approached one of the young ladies at the revival service and solemnly inquired, 'Are You a Christian?' To which the young lady replied, 'Oh, dear, no, I'm a member of the choir.' But the interviewer never mentioned the story. After a pause Mr. Paulin continued: 'This church choir is a training school for singers. It is an organization, and one which all singers should embrace. The choir offers the singer a preparatory course in sacred music. The singer has a great deal to learn about sacred music and how to sing it.' It was a new point of view, then, that Mr. Paulin presented, that singers in church choirs might get a lot of valuable training by simply taking advantage of the opportunity. Then Mr. Paulin was asked about the director of the choir. He replied: 'Training the choir when the singers are in school is pleasant work, but the director's trouble is not with the singers who are present, but with those who are absent. They should sing, but they do not. I am in a state of uncertainty as to where any or all of them will be on Sunday.' Then the interviewer was asked: 'Why is it that the director is the only one that attends all the rehearsals? Would church singers also rehearse if they were directors?' The interviewer was in doubt, and left Mr. Paulin to answer his own question. 'There is a difference in the re-

PROVIDES \$300 BONUS FOR ENLISTED MEN WASHINGTON, July 29—A bonus of \$300 a month for each month of actual service in the war over two months, with \$100 extra to each soldier, sailor, marine or nurse under actual fire, provided in a bill introduced in the house today by Representative John C. Rostenkowski of Illinois. The bill would require a two billion dollar loan at four per cent interest in all quarters, the beneficiaries to receive a bonus of cash if they choose. No person doing clerical duty and receiving \$50 a month or more is to share in the bonus proposed.

Telephone COAL Nibley Channel for Co. The interviewer went away happy. 'With the singers and musicians we have in this city (and I am sure I am not alone) I do not see anything to prevent these people from really deriving the coming fall and winter. I shall be very glad to do whatever help I can to the above societies.' The interviewer went away happy. 'It would be a wonderful opportunity for the musically inclined of Twin Falls to get a choral society, a string orchestra and an opera society to give the public and ourselves some of these phases. And an occasional public appearance of any of the societies would do much to cultivate public appreciation of music in its best forms. Something without the jazz accompaniment, it seems, is possible in Twin Falls. The interviewer would be as pleased as Mr. Paulin to see the development.

PLANT CHURCH CONFERENCE AT BELLEVUE

Presbyterians Will Meet Midst Scenic Beauties of Wood River Country

A long cherished hope of the Presbyterians of Idaho will be realized next week when they gather in a "summer conference" at Bellevue. An advertiser for this conference has been specific rather than general, because the general public has not been invited to the gathering.

Bellevue was chosen for the meeting place because of its location in the beautiful Wood River valley and its position as the most central meeting place in the synod. Anyone who appreciates beautiful scenery, good fishing and an occasional hike up the mountainside will say Bellevue is well chosen. The conference is prepared for all ages and to instruct in all kinds of religious activities. Sunday school people, young people interested in society work, missionary men and women, students of sociology, etc. The morning hours are devoted to class work, the afternoon to recreational activities and the evenings to inspirational addresses.

Representatives of the big church bodies from New York, Philadelphia, and Chicago are on the program and will assist local church men in conducting the class work. Dr. Verkuyl of Chicago, specialist in the Sunday school work, will lead the conference. The Rev. Oscar Mathison of New York, for a number of years the head of the National Sunday School Association and one of the leaders of the missionary education conference at Silver Bay and Northfield, will conduct a course on Christian Americanization, the recently published book, "A Philadelphia specialist in young people work will lead after that part of the program. Other men on the program are the Rev. H. H. Hayden of the College of Idaho, Rev. Dr. Barton and Rev. G. W. Barnum of Bellevue, L. Lloyd Roberts, chairman of the foreign mission committee of the synod, Prof. and Mrs. M. C. Mitchell of Twin Falls, Rev. Hanz of Boise, and of the inter-church work and survey of Idaho.

While the Presbyterians are putting on the conference it will be conducted through interdenominational lines and all who come will be welcomed. To cover the cost of the conference an enrollment fee of \$2.50 is charged, housing has been arranged for with lodges of the Bellevue church and rates of \$3.50 per week for rooms and \$2.50 per week for tents are established. These definite tents furnished all equipment excepting only limited accommodations together immediate reservations. These may be had by sending an order and enrollment fee of \$2.50 to Rev. A. H. Brand, of Twin Falls.

The conference opens on Tuesday, August 14th, and closes Thursday, August 16th.

TO INTERVIEW DISABLED MEN

H. R. Fulton, Vocational Representative, Coming to Twin Falls

H. R. Fulton, representative of the federal board for vocational education, will be in Twin Falls, Idaho, August 2, to consult all disabled men who desire compensation, vocational education, or certificate of disability.

An interview should be arranged for each man in the community who has been disabled or injured in the slightest degree. The Home Service division, Columbia Hall, will be glad to make an appointment for any man who wishes to consult Mr. Fulton.

WORLD GIVE RAILROADS BACK TO THEIR OWNERS

NEW YORK, July 20—The world's railroad men are expected to vote today to return the railroads to their owners, with comprehensive regulation by the government, and favor this return as soon as legislation can be enacted. The result of the referendum vote was announced here late last night at a dinner given by the Civic and Commercial Association to the members of the board of directors of the United States Chamber of Commerce here. The vote was taken in favor of the return of the railroads to private ownership.

MOVIE STAR IS ILL

SAN FRANCISCO, July 20—Frank Keenan, motion picture star, is here today, according with pneumonia pneumonia, and has cancelled all engagements in a campaign to bring picture studios here. Keenan was stricken aboard the steamer Governor, on route from Seattle here. He will be taken to a hospital today, it was stated.

DO YOU KNOW?

That the Canadian Pacific irrigated farms are selling at \$10 per acre, with 40 per cent cash and 20 years on the balance.

That the interest is only 2 1/2 per cent for the first two years where improvements are done, and 4 per cent thereafter.

That the altitude is 3,000 feet to 4,000 feet—ideal for growing wheat, corn, alfalfa, etc.

That the Dominion government controls all water rights in Canada and guarantees two acre feet for the first two years.

That the water is metered and delivered on your land, and not 3 or 4 miles up the ditches.

That this land is the land that has made the Rock River Valley about 100 miles northwest of Calgary and only 130 miles from the U. S. line.

That wheat, oats, barley, field peas, flax, alfalfa, sugar beets and all grasses do as well there as in Southern Idaho.

That the C. P. R. will loan you \$2,000 for improvements on same terms as the first two years.

That there is no tax on personal property or improvements, and only thirty to forty dollars tax on 100 acres.

That you should join one of our parties, spend a week's time and \$15, and investigate this proposition.

THE STYLES YOU HAVE BEEN WAITING TO SEE IN FALL SUITS AND COATS ARE HERE

NOT all of our Fall merchandise is here of course, but every day we are receiving by express, from Style Headquarters, in Chicago, New York, and Cleveland, new approved styles in Cloaks and Suits.
