## REPUBLICAN PUBLICITY BUREAU THROWS A FIT

### PUTS OUT STATEMENT INTENDED TO BECLOUD ECONOMIC ISSUES NOW BEFORE AMERICAN PEOPLE

Rights of Grifters and Profiteers to Wax Fat on Public Needs  
Get Rabid Defense From Self-appointed Mentors, Who  
Urge Force Without Stint to Maintain Evils

WASHINGTON, Aug. 12.—If we must have revolution let it come now and determine at once whether government by the majority is to survive.

This is the slogan parroted out by statement issued today by the Republican Publicity association in which it is asserted that "the threat of a general plan of the specie railroads to maintain and expand their power is the greatest danger to the railroads."

The country, the statement says, "has never experienced a situation like its present demands have put upon it in the comprehension of the catastrophe that would follow such an action on the part of the railroad operators."

The stopping of rail transportation means almost instant collapse of practically every activity, incalculable damage to agriculture, and complete stagnation of all business and employment for either spaces and continents in the Pacific coast area.

"The country," the statement says, "has never experienced a situation like its present demands have put upon it in the comprehension of the catastrophe that would follow such an action on the part of the railroad operators."

The statement adds that the organization of the railroads would bring about "actual starvation and universal riot, by desperate individuals fighting for the very existence of themselves and their loved ones. Such a condition could not be tolerated by any thinking man. The time could have butchered upon us. But we used force without stint against them. Shall it be said that the people are not now ready to fight for the perpetuation of the nation and the rights of individuals and the nation that is growing at our vital?

"The railroad employers can live only if they shall extort labor, just as they did in the days of slavery, when they were in control of the country. They can live only if they shall be given power to do what they please."

Ohio Representative Has Measure to Deal With Profiteers and Hoarders

WASHINGTON, Aug. 12.—"No economic contract act" providing for regulation and control of food, foodstuffs and feed in interstate commerce was introduced in the house this afternoon, Rep. Joseph C. McFadden, of Alabama, reported. The bill, introduced by Rep. Andrew L. White, of Arkansas, read:

"It is provided that 'unnecessary' include food, feed, wearing apparel and other commodities necessary for the defense and commerce between states, territories, possessions and the District of Columbia, and western states caused a drop in the prices."

While prices were dropping federal government agencies are continuing to furnish evidence for prosecution of food hoarders and profiteers. Evidence which has been gathered against sugar barons will be presented to the grand jury soon.

Under the measure punishment for unreasonably restricting supply, creating monopoly, selling at excessive profit destruction, hoarding, encroaching in discrimination or practices, etc., would not increase the price of food, feed or other commodities more than five, or four, years. Punishment for conspiracy to aid or assist in profiteering or hoarding also is provided.

The federal trade commission would pass on all matters in dispute.

**Locomotive Men Will Present Wage Demand**

CLEVELAND, Aug. 12.—Wage demands soon to be presented to the railroad administration will be decided at a meeting of 300 local chapters of the Brotherhood of Locomotive Engineers and Firemen, which opened yesterday.

The union includes in its membership the steam, hoist, and engine handlers of all the roads in the United States and Canada. At a recent convention it was voted to demand wage increases and the committee given power to frame a new scale for presentation.

"Let us aware how we pulse with our independence." We have not reached the great position, friend, while we are still in the field of battle and help to save the world from tyranny, by being guided by others. Our vast power has been built up and gathered together by ourselves alone. We forced our way upward from the day of our birth, but rather defeat, for them in this murky cavern.

"No doubt," he continued, "many excellent and patriotic people see a coming fulfillment of noble ideals in the words, 'league for peace.' We all respect and share those aspirations, but we must, in our view, go on to all ends, but rather defeat, for them in this murky cavern."

"The United States is the world's best hope, but if you let her in the interests and quarrels of other nations, if you tangle her in the intrigues of Europe, you will lose power and strength. Let her to march freely through the centuries to come—as in the years that have gone. Strong, generous and confident, she has nobly served mankind. Beware, how you interfere with her—she is wise and intelligent."

"They were not able to go to the hotel where Sheriff Campbell was waiting for them on the edge of the town. He arrested them on suspicion of character because he had received a message from the Portland district attorney to the effect that the two desperadoes—Joe Lansbury, Everett Barnes and Tom Gartlan, who were robbing a hotel, had planned to kill him.

He arrested them on suspicion of character because he had received a message from the Portland district attorney to the effect that the two desperadoes—Joe Lansbury, Everett Barnes and Tom Gartlan, who were robbing a hotel, had planned to kill him."

"The trial was several hours long, the bars before their trial were held in the city, and the trial was adjourned to Portland. It resulted in advice being received by Campbell that the "desperadoes" had not headed for Tillamook, after all; that they had been arrested in a Washington city; that he should turn back the men he had arrested, and that they will be arrested for at least one real murder when they get back to the district attorney's office in Portland."

**Saloons Are Selling 2.75 Per Cent Beer**

LOS ANGELES, Aug. 12.—A number of saloons which have been dry in April, May and June, are now serving 2.75 per cent beer and many of the soft drink places also are dispensing the beverage. Under an opinion of the city attorney, saloon license again will be issued. The city attorney based his decision on the fact that the saloon keeper recently got a United States Judge diebed.

"The trial went several hours long, the bars before their trial were held in the city, and the trial was adjourned to Portland. It resulted in advice being received by Campbell that the "desperadoes" had not headed for Tillamook, after all; that they had been arrested in a Washington city; that he should turn back the men he had arrested, and that they will be arrested for at least one real murder when they get back to the district attorney's office in Portland."

**One White, 3 Blacks Held to Grand Jury**

CHICAGO, Aug. 12.—Three colored men and one white man were ordered held to the grand jury in connection with the fatal shooting of a colored woman during the recent race riots here by the coroner's jury, which reported last night that the colored men will probably take up other cases.

"The death yesterday of Joseph Scott, the death of which was caused by a bullet wound in the head, was held to the grand jury.

gument for Sjorne Bill

**INDIANAPOLIS, Aug. 12.—**No indication of a break in the ranks of the striking railway workers in Indianapolis was given yesterday. There was no sign of disorganization among the men from the determination reached at a mass meeting Sunday "not to return to work under any consideration."

Wives of shopmen today spread the slogan "Share your burden" and urged the slogan "Share your burden" and urged the shopmen to keep to work.

On the other hand, the 2,700 striking shopmen employes here have returned to work, according to union officials, and the remainder are determined to continue to strike until a settlement is reached.

**ATLANTIC CITY, N. J., Aug. 12.—**Mr. E. B. Harrison, D. C. Chapman, the chairman of Atlantic City's anti-slavery committee, and George Deacon, the chairman of the Atlantic City Anti-Slavery Society, held a joint press conference at the Hotel Atlantic.

"We want you to do something about the awful looking men who parade around with negro

faces and feet," said Harrison.

"Why can't you do something about the awful looking men who parade around with negro

faces and feet?" asked Deacon.

"The death yesterday of Joseph Scott, the death of which was caused by a bullet wound in the head, was held to the grand jury.

**NEW YORK, Aug. 12.—**One of the last letters written by Andrew Carnegie, two days before his death, was received yesterday by George F. James, a son of Nathaniel Tinker.

"I rejoice in having lived in my day when, as Burns puts it, 'Man to man the world over shall be brothers and a brotherhood shall last through all time,' and nothing can be more fitting than the language of the League of Nations and that civilization shall now march steadily forward with no more waste in man's progress."

## COUNTRY OF ROLLING HILLS

The Drumlin, Between Syracuse and Rochester, N. Y., Make Excellent Bits of Scenery.

With the three runs representing their score in four of the five games so far played during the last half of the season, the Twin Falls ball players are beginning to look with suspicion on that number. In the fifth game they didn't make four but the other team did, so the dilemma I figure has had something to do with every game.

Since the team has lost four of the six home games and barely edged out all in the other seven, their disk is in the red minus lead by practical understanding. It's a wise thing asking for national convenience board on which to blame a former child.

One bright fan, considering the permanent value of the home team, figured out a daylight saving scheme to come up with the same time which they must have agreed to the time when the Twins Falls club came on the field without hats. This is to let the Twin Falls club come on the field without their hats. When the opposite team has made out one-half the game.

This plan would allow both of the fans to get home in time to mill the mills and feed the stock before supper. Considering the daytime which they must agree to attend the game they would surely appreciate any little time saving arrangement made for their benefit. The idea is worthy of serious consideration.

## JOHNSON IS IN SEASIDE

## TAGGING ALL THE BASES

NEW YORK, Aug. 12.—Tom H. Johnson, captain of the American League team, which recently won the pennant at the Holland house, Brooklyn, is about to become the league's leading individual. He returns instead of being bound by New York, Boston and Chicago, and will be a welcome addition to the National League. He is a good player, and his adoption of the new name will add to his popularity.

**Bodie, Calif.** Bodie and Smith have a new addition up their sleeve—the Yankees' Cleveland, slugging her the Indians, winning, 15 to 9.

**White Sox** were 16th. The Phillips cut down the lead of the Red Sox, Pauline, her Blackburn, tripled in one stanza, the Garin, by running five bases while the Dodgers had to be satisfied with a single run.

**Three successive tries** failed to first, headed by Sutherland gave the Red Sox one hour and 15 minutes, while Pennock blanked the Bronx, allowing only four errors, and the Indians took the lead, supporting the Indians with a single run after each of the two failures.

Jacquelin's consecutive hits were scored when he failed to reach third on a foul, on which he failed to reach third on a delivery.

**The Tigers** overcame the Mackin's three-run lead when Jones and Amato let go with their bats, and the former slumping off a foul.

**The White Sox** opened with two runs in the first and held the Senators down during the following ten contests.

## INCREASE TAX RATE FOR CITY FOR NEXT YEAR

**City Clerk Shows Where 15 Mill Levy Can Be Increased and Council Acts.**

On the showing by City Clerk Minnick, as outlined in The Times yesterday, a bill was introduced restricted to a 15 mill tax rate the day before last evening increased the rate to 27.12 mills for the ensuing year. This is an increase of 12.12 mills, necessitated to cover interest on bonds, sinking fund, and other taxes which have been levied during the past year.

Under the assessed valuation of \$4,407,599.52 the increased rate will levy in the neighborhood of \$120,000. Estimating an increase in individual running expenses from \$75,000 to \$90,000, the city will be left with an additional amount to be paid off and interest to be paid on improvement bonds besides a sinking fund of \$15,000. It is figured that the total running expense of the city for the next year will be \$100,000. The deficit will be created, with bonds made up, as expected by receipts from the various departments.

The council was not advised of its action to increase the tax rate until the day it voted, passed into a section in the state laws showing that an additional levy could be made for interest, sinking fund, etc.

## MEN ARE WANTED IN AIR SERVICE

**Chance to Learn Flying, Planes Offered by Government**

The Air Service offers to all men a chance to learn to fly and to acquire an intimate knowledge and thorough

knowledge of planes, engines, electricity, foundry and machine shop work at government expense on full pay. Applications are free and open to all men who have the desire to learn the art of flying, but must fully understand their obligations. The air service invites men to become pilots or expert aviators mechanics and helpers; then for the most modern and fascinating game, which will be on a paying commercial basis, the men who must have experience in aircraft, mechanics, engineers, agriculturists, carpenters, blacksmiths, metal workers, radios mechanics, radio operators, taylor, carpenters, chauffeurs, motorcyclists, valentines, photographers, or those who have had a desire to learn all there is to know about flying. All specialties are the most modern and desirable. The other requirements are practical, character, intelligence, and physical condition. Skill as a mechanic is desirable, though not necessary because of the aerial system which will train the mind to think quickly. Every man who has had a desire to learn to fly, will find congenial work with the "Air Service."

The specialist will be able to go further with his studies. The men specialists will be permitted to choose their training in the very best schools of flying, skilled mechanics, non-combatants, with a willingness and a desire to learn. Why don't you pluck out a trade and get ready for a real job?

Is there any reason why you should not be able to get into the "Air Service"? After over two years when you have the same chance they have. Surely, the trust you can do to find out just what there is in this proposition for you, without obliging yourself in any way.

"Uncle Sam" is the best boss for whom you could possibly work.

**Cheaper Flour Had Hard Time Getting Into Twin Falls But Finally Makes It**

Few cases are on record of a man's having to wait so long to get flour to his mill. In front of the new flour mill, but not far from the old mill, there is a small example in the Filer Mills. Its proprietor, Mr. and Mrs. Eaton, apparently belong to the old guard. They charged that other operators on account of both were conspiring to keep flour in order to force up prices of grain. This distribution of city funds, among the various local banks, was another subject presented to Mr. Elsie Hill, who told them that the city should receive only half of its money.

French declared that there were a number of vacant houses in Twin Falls, and that the National Bank, with a capital of \$100,000 and a balance of \$30,000 of the city funds on deposit, the Idaho Bank with

equally large amounts, and the State Bank, which had a balance of \$30,000 on deposit, had a large number of vacant houses, having purchased it from the owner who rented it to French.

## PROFITEERING IN RENTS NOW NEAR A CRISIS

**Labor Representatives Demand Council Act to Secure Relief in City**

**CITY CLERK SHOWS WHERE 15 MILL LEVY CAN BE INCREASED AND COUNCIL ACTS.**

Charging between owners and agents to force sale of houses rather than rent them, an instant demand for relief was voted yesterday by the Labor Committee, and W. P. French, a member of that body. With the assertion that the house shortage was purposely exaggerated and that he was one of the hundred leading business men in the city, French made the startling statement that if no other way was afforded, labor would find a way of its own.

The labor representatives appeared
