

Two More Border Aviators Disappear; Believed Lost in Mountains of Mexico

NO WORD FROM FLYERS SINCE LEAVING YUMA

Started Wednesday for San Diego and No Trace of Them Has Been Found Since—Border Patrol Receives Additional Airplanes.

SAN DIEGO, Cal., Aug. 22.—The two army aviators, Lieutenant Waterhouse and Captain Connolly, who disappeared from the border patrol car which was being driven by them in a fight from Yuma to San Diego, were again reported to have been seen in the mountains of Mexico, according to a report received from the border patrol today.

CALEXICO, Cal., Aug. 22.—Five United States army airplanes were in the air this morning in the territory adjacent to Colorado, and one of them was shot down by a Mexican border aviator, according to a report received from the border patrol today.

SAN DIEGO, Cal., Aug. 22.—Word had been received here today that the two aviators, Frederick B. Waterhouse and C. H. Connolly, who are supposed to have been shot down in Mexico, were seen in the mountains of Mexico, according to a report received from the border patrol today.

SAN DIEGO, Cal., Aug. 22.—Word had been received here today that the two aviators, Frederick B. Waterhouse and C. H. Connolly, who are supposed to have been shot down in Mexico, were seen in the mountains of Mexico, according to a report received from the border patrol today.

LOCATE OUTLAW HEADQUARTERS

Bombing Airplanes With Heavy Supply of Explosives Will Give Mexicans Taste of War

MARFA, Tex., Aug. 22.—Headquarters of Jesus Gonzalez, head of the Mexican outlaws, who are being hunted by the border patrol, has been located in the mountains of Mexico, according to a report received from the border patrol today.

MAY ABANDON MANHUNT SOON

Unless Cavalry Strikes Hot Trail Pursuit of Mexican Bandits May Be Given Up

MARFA, Tex., Aug. 22.—Pursuit of the Mexican bandits who hold up the border patrol, may be abandoned soon, according to a report received from the border patrol today.

It was made plain that the chase of the Mexican outlaws will not stop because of any pressure from the Mexican authorities, but because the hunt would be regarded as hopeless.

It was the exact location of the British cavalry who are searching for the outlaws, a military secret, it is known they have penetrated a considerable distance into Mexico.

Although the authorities in Mexico City apparently are opposed to the American expedition, the border patrol is continuing its hunt for the outlaws.

WILSON TO MEET PERSHING

FROM THE PRESS BOX JUG

Starring of the LaFolles as backdrop for the Twin Falls baseball club is generally regarded as a strong hand for the team. It gives the home outfit two strong catchers, counting LaFolles, because that department of the club stronger than it has been at any time this season. Although LaFolles' catching will be left to the team until after next Sunday he will be in the line-up for all at the games at home.

Local fans have had their eye on LaFolles for a long while. Long before the P.T.A. disbanded he was generally by name fans' favorites in the Twin Falls. The fielding and throwing are a delight to the eye and he covers practically all the ground between first and third. Added to that he walks off the ball in the great way.

The game next Sunday with Hold gives promise of being a tough one. The two clubs are not out about Twin Falls in the past one year and they have strength and their club in a manner that indicates their intention to stay about even. Another one of the reasons for this is the fact that they are a patching up for Hold and have little to be said in that department. Denny Patton, old Twin Falls catcher, is receiving for Anderson. Other positions on the team have been indicated until it doesn't include the club that dropped a very good one.

DARK HORSE MAY WIN GOLF HONORS

Only One Champion Left in Tour-nament at Semi-Finals

PITTSBURGH, Aug. 22.—Prophet of a dark horse winning the biggest amateur golf honors this year found large today when the tournament stage was reached at the tournament at Oakland.

Only one former champion remained in the running, W. C. Fawcett, Jr. of Pittsburgh, the winner of the 1918 tournament. He was matched by the local amateur golf honors this year found large today when the tournament stage was reached at the tournament at Oakland.

Only one former champion remained in the running, W. C. Fawcett, Jr. of Pittsburgh, the winner of the 1918 tournament. He was matched by the local amateur golf honors this year found large today when the tournament stage was reached at the tournament at Oakland.

Wood of Pitts-burgh, Phil Arnold, is matched with David Johnson of Pitts-burgh. Phil Arnold, the biggest surprise of the tournament when he eliminated Ernest Outint, the favorite, in a sensational 25 hole contest. Outint's play was below the form he displays when he put brains out of the running. But Pitt proved himself worthy victor. Although little notice has been given Heron, his card shows the best score of any in the tournament.

The weather today was fair and the course was drying up fast.

TAGGING ALL THE BASES

Arthur Nott pitched the Giants to victory over the St. Louis Cardinals, but he had permitted the base runners to rather too often in the first inning.

Phil Dunlap, who was traded from the Cubs to the Giants, hit a home run in the first inning, but he was out in the next at bat.

The Athletics and Braves both came to each fourth place, but the Athletics had a better record.

The Athletics had a better record than the Braves, but the Braves had a better record than the Athletics.

J. R. Annis in Jail Charged With Robbery

(Continued from Page 1)

It is said that he didn't like to spare the man's life. About fifteen, saying he was a good man, and it was impossible that he had done a thing like that. He was a good man, and it was impossible that he had done a thing like that.

Starr was standing rapidly and he was they looked. Then, suddenly, Starr was standing rapidly and he was they looked. Then, suddenly, Starr was standing rapidly and he was they looked.

Starr on the spot. He fired two shots, one missing on each side of Starr's head so close that he could feel the wind. However he directed Starr to drive back to the bank where the check was made. Annis kept his left hand while he was holding his right hand on his gun. Then they started for the north side of the street. Starr was standing rapidly and he was they looked. Then, suddenly, Starr was standing rapidly and he was they looked.

Many Extra Miles

We can show you—and prove to you—that there is a genuine money saving in the use of United States Tires.

The extra miles they give mean just so many extra dollars counted in real money.

And there are further actual economies in the saving of gas, oil, repairs and depreciation.

The reason of all this is in the tires themselves—their liveliness, ruggedness and sturdiness.

There are five United States Tires—a type for every make of car.

United States Tires are Good Tires

We know United States Tires are good. That's why we sell 'em.

USUAL ADMISSION

TODAY ONLY Matinee and Night

Rogerson Items

F. A. Champitt of Amsterdam was a Friday visitor here. High Lutz and C. S. Munson of Twin Falls spent Friday here transacting business.

Mc. Samson of Twin Falls spent Friday here, installing a new hoist for the logging system for the Rogerson department store.

Mrs. J. E. Boyd has recently purchased a new Ford coupe. E. E. Henstock and mother, Mrs. J. E. Henstock of Hollister were business visitors here Friday.

Mrs. J. E. Smith, who has been on the sick bed for some time, has recently undergone an operation at Twin Falls and is reported to be improving nicely. Mr. Smith has been with her some time, but was able on Saturday to return home.

Mrs. John Langford spent the greater part of last week visiting with the family at the home of Mr. and Mrs. Orville Falls of Twin Falls Saturday evening and Sunday, visiting with the Gibbs family and including a chicken hunting on Horse creek.

Mrs. Roy McGuffin arrived from Dulh on Saturday morning to spend a week with the home family. Mrs. McGuffin has been in ill health for some time and will again need to undergo a surgical operation to seek relief. She has the sympathy of her many friends.

Mrs. and Mrs. John O. Ponce of Three Creek spent Saturday here and in the evening proceeded to Twin Falls for a visit. The many friends of Mrs. Vane Whiteville will be glad to hear that she is getting along very nicely since the arrival of their baby boy about a week ago.

Walter Russell, James Russell and baby Holly, Mrs. Durban and baby, Mrs. Durban and baby, and son Roy of Twin Falls spent Sunday here. Mrs. Durban is a sister of Mrs. Hines and enjoyed a chicken hunt on Horse creek. Mrs. Durban is a sister of Mrs. Russell and has recently arrived from Texas. She is planning to leave in about a week for Chicago where she intends placing her children in school.

Charles Craig, Adam Moe, Ted Bachmann and W. J. Bean spent Sunday at the forest ranger's cabin and had a good time and a successful chicken hunt. Orr Chapman and family spent Sunday at the home of Mrs. Chapman, making the third in that family recently.

Henry Scott, who has been in the sheep business in Lincoln county was transacting business here Monday. Gus Carlson of the Carlson Construction company was transacting business here Monday. W. A. Faust of Lloves creek and M. E. Brooks of Three Creek, transacted business here Monday.

Mrs. E. H. McKelvie entertained the missionary society on Friday afternoon. Anton Sauerba, a Dulh sheepman, spent Monday here. Wm. Auston of Three Creek, a veteran prospector, over 50 years of age, spent Saturday here. Arthur Ponce, Jr. spent Saturday here on his return from the Omaha market, where he conducted a shipment of sheep.

Blair Langford returned home on Monday after spending three weeks visiting in the east. Mr. and Mrs. John Langford motored to Twin Falls to meet him and the trip, together with the best enjoyed so much for Mr. Langford, Sr. who was taken ill shortly after arriving there and was forced to seek medical attention. He is now greatly improved on Monday and able to return to his home.

Kimberly Items

T. Scott Williamson of Ellet visited with friends here Saturday evening and Sunday.

S. P. Stever, told his home north-west of town to S. B. Hugh, the superintendent of the school, that he is planning to spend Mr. Stever's home for 3000. Mr. Stever has made no definite plans as to what to do with it at present.

Dr. W. T. Steffler was in Kimberly, installing auto lamps, where he has made his home after leaving here for a short time ago for Boise, and from there he went to Shippu, and from there he returned to Twin Falls, after returning to Shippu.

Roy Kemp of Rock Creek was a business visitor here Saturday. Mrs. C. C. Mathews and Miss Vera Mathews arrived in Kimberly the latter part of the week to visit with the Mathews and Byard families.

Mrs. Mattie Young arrived in Kimberly on Saturday from Gakky to visit with her son, S. P. Strong, who is in the military service.

Mrs. Chas. Mathews and children of Rock Creek were in Kimberly on Sunday. Mrs. M. H. Hillis was taken sick Sunday with a severe sore throat. Miss Helva Hillis is also sick after having her tonsils removed last week. Both girls are suffering to the utmost extent but are on the road to recovery.

Mrs. Wanda Harter arrived Sunday afternoon from a delightful visit in the east in Chicago, Rochester, Minn., and different parts of Nebraska. Mrs. Harter will remain in Kimberly on a visit at the home of Mrs. W. J. Ponce, where Mrs. Wanda Harter will take a week's vacation.

Reed Hartill, who left Kimberly some time ago for the training camp of Uncle Sam, arrived here Sunday after visiting his relatives at Briggsville. Mrs. S. H. Procter spent the day in Twin Falls on Friday shopping.

Miss Melba Bailey returned to her home at Jerome Sunday after a delightful visit here with her people. Miss Theresa Strong returned to Twin Falls Saturday evening. Miss Gladys Seidle has given up her position at the bank of Kimberly and will leave in a short time for Ates to visit with her mother.

Arthur Ayotte of Twin Falls was a Kimberly visitor on Sunday evening. Mrs. W. J. Ponce spent Sunday with her folks here, coming from the north side where he is employed now. Mrs. Albert Dumein spent the day in Twin Falls Sunday shopping.

Ernest Eden was a Twin Falls visitor on Saturday evening. Mrs. W. J. Ponce spent Sunday with her folks here, returning to Dulh Sunday afternoon.

CHICAGO NEGRO FLEEING FOR HIS LIFE

This photograph, taken in the "hobnob" of Chicago during the race riots, shows a colored man, holding a desperate man, escape what conditions who were trying to catch and kill him. Such scenes were frequent.

BLONDES DYING OUT IN AMERICA TELEGRAPH HAS RAPID GROWTH

Big Wars Gradually Eliminate Northern Types, Says Ethnologist. Government Report Shows 1,688,793 Miles of Wire Used by 21 Companies.

DAY OF BRUNETTE AT HAND BIG INCREASE IN MESSAGES

American Women Are Tending to Neutral Type, With Brown Hair Than Golden Hair and Brown Eyes Instead of Blue. Last Five-Year Period Shows 45.7 Per Cent More Telegrams—Par Value of \$100,350,377.

Washington—According to a report issued by the census bureau, the number of blondes in America is gradually being eliminated by the brunettes. Blondes are becoming fewer and fewer in America, and the number of brunettes is increasing. The report shows that in 1917 there were 1,688,793 miles of wire used by 21 companies, a 45.7 per cent increase over the five-year period ending in 1912. The par value of the telegrams was \$100,350,377, a 45.7 per cent increase over the five-year period ending in 1912.

Makes Matters Worse. The world war, he says, has made matters worse for the blonde because it is the blonde woman who in all peoples that invariably makes the greatest sacrifice in war, while the brunettes, being more robust and stronger in number than before. The world war has made matters worse for the blonde because it is the blonde woman who in all peoples that invariably makes the greatest sacrifice in war, while the brunettes, being more robust and stronger in number than before.

REPORT NEW HUNGER DISEASE Workers Find Bodies of Children to Have Excess of Water From 'Starvation'. Prague—A new hunger disease is reported among the children of some of the remote districts of Czechoslovakia. The disease is called 'starvation'.

How He Did It. 'Did you hear that our friend Jones has made a major success?' 'Yes, he's inventing heavily!' 'No, took a little too much blarney tonight, and he's gone to the moon. I'll be there just around the corner.'

Turned Brewery Into Cheese Factory. Camarvon, Wis.—The brewery at Camarvon, Wis., which was one of the largest in the state, has been turned into a cheese factory.

The Public and the Company

A COMMUNITY always welcomes the establishment of an institution that fills a recognized community need, unambiguously it doesn't always manifest a lively interest in the health of such an institution after it is established.

It is one thing to establish industries; it is quite another thing to build up, develop and maintain them.

An industry can be established by the investment of capital; its development and maintenance depend upon the attitude of the public toward the enterprise and toward the product.

Likewise, the permanency of an institution depends upon the willingness of its customers to pay a sufficient price for its product to enable it to continue strong and healthy financially.

The Mountain States Telephone and Telegraph Company's system of wires, furnishing the means of communication over mountains, plains and desert, is a tremendous factor in the development of the West.

Telephone service is a "home product" of every community in the mountain states, and is woven into the very texture and life of commercial and social life. The permanency and adequacy of telephone service depend upon the same factors as are involved in the security and permanency of every other established industry.

With every, very few exceptions, the people of the West recognize these principles and pursue a "live and let live" policy toward all legitimate business institutions.

The Mountain States Telephone and Telegraph Company

Berger Items. J. M. Pierce spent Monday in Ellet. Chas. Abrahamson transacted business in Hollister Monday. Mr. and Mrs. H. W. Tague visited in Dulh Tuesday. Mr. and Mrs. Chas. Tucker spent Thursday in the county seat. R. W. Tanner and wife visited with home folks Wednesday. Mrs. A. G. Ayers and daughter, Malou, did shopping in Twin Falls Saturday. Frank Varada and family of Chicago are here, the guests of Frank Joska, a brother of Mrs. Varada. Mrs. C. W. Stapton was a passenger on the Ellet train Saturday. Mrs. D. E. Hooton and Helen Hill motored to Twin Falls Saturday. Mr. and Mrs. H. G. Lammers returned to their home in Berger Friday after a week's visit with their daughter, Mrs. Young, at Eden. George L. McGee motored to Ellet on business Monday. J. E. Young of Twin Falls is a guest at the Ellet hotel this week. A crowd of young people motored to Arden City Sunday. Miss Barbara Criss is recovering after a brief illness. Miss Mary Hoover was a visitor at the home of C. G. Stanbury Sunday.

BOYS' SCHOOL SUITS

"I'm Ready—Are You?"

Twin Falls Schools Open September 2

With substantial additions being made to both buildings and equipment, and with provision for a larger enrollment of students than ever before, the school directors predict that the forthcoming school year will be the brightest and most successful in the history of Twin Falls.

The opening of school means preparation in the equipment of your boys.

Are They Ready?

There's no need to worry this year about being able to equip the boy for the coming school terms. We are amply prepared to take this worry off your mind. Our stocks are complete and carry every item necessary to outfit him properly. Our—

Boys' "Best Ever" School Suits

have become the standard by which all other makes are guided. Every one of the suits in our stock is picked for its good, sensible style. None but the best materials are used in "Best-Ever" suits. They are all that the name implies.

PRICED \$7.95, \$9.95, \$11.95

Boys' Furnishings

The boy's outfit will include Blouses, Shirts, Caps or Hats, Underwear, Hose, Neckties, etc. We have everything he needs and our supply is so varied that he can be perfectly suited with his selections.

Let him visit our store. He will receive the same attention as the adults.

COL. C. L. LONGLEY BENEDICT TODAY

Takes Distinguished Helena Artist as Bride at Pocatello.

Charles Lawrence Longley, well known former newspaperman of Helena, Montana, was joined in marriage today at Pocatello. The ceremony was performed by Archdeacon Howard Stoy. Mr. and Mrs. Longley will be at home at the Episcopal rectory, 216 Third avenue north this city after September 10th.

The numerous friends of Col. Longley will receive the announcement with pleased interest. He has lived in Twin Falls for a number of years being identified with the Times and actively connected with the profession. Heart congratulations will await him. His bride is a distinguished Helena artist, of whom a Helena newspaper states:

"Mrs. Hatch is one of the best known artists in Montana. The closing of her studio will be a real loss to the people of Helena and the State of Montana. Mrs. Hatch will be much missed in the art and club life of Helena, as well as of the social life, in all of which she has been especially active in the years of her residence in the city."

Local Notices

S. G. Hall, piano tuner. Phone 51. Rogerson Hotel.

Camping Trip—Mr. and Mrs. Ernest White and Mr. and Mrs. Jack Shroton left this morning on a two weeks' camping trip to Copper Basin.

Fined for Assault—Fred Miller was found guilty by a jury in probate court yesterday for assault upon St. John Skinner. This morning Judge Juwail fined him \$10 and costs.

Divorce Suit Filed—Suit for divorce was filed in district court today by Lucinda J. Fritchard against George Fritchard, the grounds being non-support. They were married at Price, Utah, in May, 1913.

Ready for Dance—The stage is all set for tonight's dance of the American Legion at the Laverling theatre, according to the committee on arrangements. A big crowd is expected to turn out for the affair.

CANAL COMPANY SUED FOR LOSS IN CROP YIELD

Reduced Water Supply Made Basis of \$30,000 Damage Suit by Edwards and Selby

Damage of \$15,000 are sought from the Twin Falls canal company in a suit filed today by C. F. Edwards and Harry Selby. Losses in crop yield in 1914 due to failure to receive their proper supply of water in given amounts.

SEND DELEGATES TO ENCAMPMENT

G. A. R. and Ladies of G. A. R. Will Be Represented at Columbus

The Twin Falls will be represented at the G. A. R. National Encampment at Columbus, Ohio, by several delegates from the local post and also the ladies of the G. A. R. The encampment opens September 7 to 13.

Voting delegates from Twin Falls to the national convention of the Ladies of the G. A. R. are Mrs. J. W. Shields, past department president; Mrs. T. O. Boyd, elected delegate; Mrs. D. E. Hogan, elected delegate; Mrs. W. W. Humphrey, past department president.

NOTICE

The Knights of Pythias and Pythian Sisters will on next Sunday, August 23, hold their annual picnic at the home of C. H. Eldred. All members of the Order are requested to be in attendance, and the Knights will bring their wives whether a Pythian Sister or not. All visitors, members of either lodge are especially invited. Those attending will convene at the City hall at 10:30 a. m. Sunday morning. For further information phone Mrs. A. Putzier, Mrs. C. H. Eldred.

MEXICAN SENATE WANTS TO DISPUTE DIFFERENCES

MEXICO CITY, Aug. 22.—The senate has advised the foreign relations committee to investigate the relations between Mexico and the United States in order to take steps for an adjustment of them. It was unofficially reported here today that the United States troops that have been chasing bandits in Chihuahua have returned to American territory and that the source of the rumors is not known.

If you have a car you no longer need, and still want to get the most for it, call on us.

May Soon Abandon Man Hunt

(Continued from Page 1.)

holding of Lieutenants Peterson and Davis of the American forces, for ransom.

It was rumored that the men had been brought to Marfa and are being held here incommunicado.

All of the feeble resistance which Mexican bandits in the Sierra Madre-Donthillas are attempting to put up is being crushed as soon as it develops and four more outlaws were killed in a fight yesterday in a canyon near this place. At least five Mexicans were killed and two captured since the American crossed the border Tuesday morning with not a single American has been even wounded.

News of the killing of the four Mexicans was received at military headquarters in Marfa from Major James P. Yancy, who is with the four troops of the Eighth cavalry that swept over the line.

It is now known that there were at least thirty members of the outlaw band under Jesus Benavente which has been operating along the border and under the command of Peterson and Davis of the United States air service, for ransom. About 20 of these outlaws are known by sight to the Mexicans who are now active in pursuing the bandits.

Answer Protest After Troops Withdraw

WASHINGTON, Aug. 22.—Mexico's protest against the "invasion" of her territory by troops of the Eighth cavalry probably will not be considered until the troops ultimately have been withdrawn. This was learned at the state department today.

In the meanwhile, so far as the state department is concerned, the troops will continue the search, the matter of their withdrawal being for the war department to decide.

The text of the representative letter at the state department yesterday by Ambassador Donthillas has not yet been made public, and there was no announcement today as to when it would be. It was assumed, however, that it would be given out at the same time the reply, which probably will be of a perfunctory nature, is made public.

METAL TRADER WORKERS OUT

SALT LAKE, Aug. 22.—Seven hundred members of the metal trades unions went on strike yesterday to enforce a demand for one dollar wage increase in pay. Nearly 100 hater-makers and helpers quit early this week. Twelve contract shops are involved.

BANK ROBBERIES GET \$15,000

NEWTON, Kan., Aug. 22.—Robbers entered the National Bank of Newton early today and escaped with \$15,000, according to officials of the institution.

The men were dressed in overalls and fled in a motor car.

Pulvis and sheriff's offices throughout the surrounding territory have been notified and asked to aid in the search for the bandits.

Farm and city loans, quick action.

Arthur L. Swain.

TODAY'S MARKETS

People Who Neglect Their Teeth Soon Have No Teeth to Neglect

By DR. PARKER

Founder and Executive Head of the E. R. Parker System

DECAY is the thing that kills. People die because some part of the body decays and gives out.

The only one who can stop tooth decay is a dentist, and the more a dentist knows, the better advice he can give and the better work he can do.

DR. PARKER

The knowledge of one dentist is limited, but the knowledge of several dentists put together amounts to a great deal.

That is the advantage offered you by offices using the E. R. Parker System, where a number of dentists combine their knowledge and skill and work together.

You can come and have your teeth examined free. You can find out if some of your teeth are decaying and if disease is establishing itself in your mouth.

It ought to be worth your while to learn exactly what condition your teeth are in, particularly as it costs nothing to find out.

God gives us all but one set of permanent teeth, and it is little short of a crime to neglect them.

WHITE BUNGALOW

ATTRACTIVE HOME

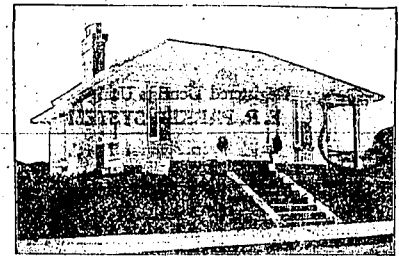

Has Compact Room Arrangement and Pretty Exterior.

ADAPTED TO SMALL FAMILY

Design is Equally suited to Country or City—Has Commodious Living Room and Conveniences That Appeal to Housewife.

Mr. William A. Bradford will answer questions and give plans. **LOW COST** on all subjects pertaining to the building of his white bungalow. On author and manufacturer of all these bungalows. Address all orders to William A. Bradford, No. 127 West Chicago, Chicago, Ill., and only enclosed stamp for plans.

Planning to build homes that are in keeping with the attention of the new wave of American families this year. Never was the average American more able to pay for a home; neither has he so thoroughly realized the advantages of becoming a home owner. With his mind made up to build, Mr. Average Citizen here is wanting architect's designs and selecting one that will suit his needs and his pocketbook. For the small family there is no type of home that so nicely fits the need as a bungalow. The accompanying illustration shows a four-room white bungalow.

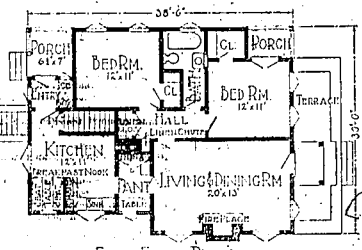

plan that will suit those who want a home that is attractive to the eye and has an interior arrangement that provides the outdoor and convenience that are features of modern dwelling. This bungalow is 30 by 36 feet. It contains a lot of 50 or more feet in width, an 18 breadth allows for plenty of side yard, and its depth permits of a large open lawn for front and rear lawns and a garden. The addition of

a garage of the same architectural design rounds out a fine home-building proposition. It is not advisable to build. The hip roof, outside brick chimney and the arched port over the entrance all combine to give it an exceptionally attractive exterior. The decorative features also are the terrace on either side of the entrance and the stone steps leading to it.

The four rooms consist of a commodious living and dining room, kitchen and bathroom. All the bedrooms also there is a breakfast room. In the dining room is a breakfast room. In the dining room is a breakfast room. In the dining room is a breakfast room.

The living room is of extraordinary large size and is a well light. The dimensions are 29 by 13 feet. Wide down on either side of the fireplace and one on the terrace side make this a cozy, pleasant room in winter and a general place of refreshment in the summer. Beyond the living room and the kitchen is a breakfast room, with a china cabinet in one end and a sink, table, the window in the other. This arrangement gives the housewife easy access to the dishes and provides her with a serving table which can be turned round to serve in the dining room.

In one corner of the kitchen, which is 12 by 11 feet, there is a breakfast room, with partitions half way to the ceiling. Favor the window is the dining table, while on either side are built-in seats. This is a cozy place for the members of the family to have breakfast and luncheon, and even dinner if desired. Another popular arrangement in the kitchen is the sink underneath the window. The entry leading to the rear porch is of sufficient size to accommodate the ice chest.

FIRST FLOOR PLAN

The basement extends under the whole house and provides room for the heating plant and fuel, and space for storage of vegetables and other articles. Basements of modern homes usually are divided with full partitions, which makes for cleanliness and prevents the heating plant from warming the storage rooms.

This design is equally suited for country or city, except in the larger cities where restrictions as to fire-proof construction are in force. By its arrangement it fits the efficiency of a two-room house, without the cost of the extra room.

There are many good reasons why the home owner is not a lucky person. The home owner is not a lucky person. The home owner is not a lucky person. The home owner is not a lucky person.

It does not require a great amount of money to build a home, but it does require a considerable amount of character to assume the burden of paying for a home. However, as that boy that mouthed him that his fortune has been spent for rent will be paying for a home, and accumulating an asset that is as good as a bank account.

In building a home, care should be exercised in selecting the lot with an eye to its future value and in planning the design for the home. A costly house should not be built on an inexpensive lot. In the event that the owner wants to sell, he will find that in either of these conditions he will be a loser. A good proportion of costs is about one-sixth—\$5,000 on a \$15,000 lot.

It is always well to consult with an architect and with the contractor and material dealer before the plan finally is decided on. All of these men are experienced in home building and from them will be gained many valuable suggestions, both as to what to build and the materials to be put into the building. They take the place of the

latter. First, the saving of grain by allowing hogs to get all the green feed they want second, the building up of the soil through the use of manure obtained from hogs continuously in these pastures, and, third, the much more sanitary conditions under which the hogs live, plus the exercise which the hogs get in pastures, both of which are necessities in successful hog growing. In some parts of the progressive country farmers are able to pasture three hogs on 11 months in the year. In each part of the country hogs can be pastured at least six or seven months.

All these practices have labor in them, and the addition of a considerable amount of labor in hauling out and scattering manure that neutralizes, in each feeding under the system.

Many hog feeders ship or carry their manure and hog manure on the market are practical and effective in keeping hogs from becoming infested with lice. The general practice of growing hogs and feeding them the grain raised on the farms has a tendency to distribute the louse throughout the year.

AID FOR OVERHEATED HORSES

Live Stock Breeders' Association of Wisconsin Gives Directions for Care of Animal.

When a horse is overworked by heat, get him in the shade, wash out his mouth and nostrils, spritz him all over, shower his legs, cool his head at once, using cold water or better, crushed ice, wrapped in a cloth or rock. Give him four ounces of ammonia, or two ounces of spirit of nitre in a pint of water, or a pint of warm coffee. Minn. Live Stock Breeders' association.

ORIGIN OF FAMOUS DISHES

Sally Lunn, Who Gave Her Name to Tea, Drove a Real Yarn to Luce—Mulligatawny.

Sally Lunn, was a pretty cook who at the end of 1660 used to sell the bread which bears her name in the streets of Bath, Stray Stumps (London) says that the origin of Mulligatawny.

Sandwich is called after the earl of Sandwich. Mulligatawny is derived from an Indian word meaning pepper water.

Mineral originated from a Greek phrase meaning the highest quality of oil in allusion to the ancient custom of calling it forasts for departed souls.

Kosherkaffery is an corruption of gossamer "koffey" meaning filled or pressed gooseberries.

Frenchmen came from the French word "barre" is stuffing. This is foreseen useful for stuffing. Hina-mungame means literally "white water."

Challenge camp was invented by a Mrs. Deschamps, a Paris market woman who died about 1817, aged 100 years. The name is derived from the Paris after Waterloo and suggested vegetables to the "Tulleries" during the reign of Charles X and Napoleon III.

Beavers Gapp Tepees of Indians. In the mid-west a number of Indian houses which looked like small Indian tepees, writes Samuel Sewall, Jr. in "Boy's Life." Most of them were built of water, but some were made of mud and sticks built up from the bottom. The poles bent through the mud and sticks were fastened by the mud and sticks built up from the bottom. The poles bent through the mud and sticks were fastened by the mud and sticks built up from the bottom.

FEED OUT STRAW TO HORSES. Gives Nearly as Good Results in Feeding Animals at Light Work as Timothy Hay.

Straw used as nearly as good results in feeding horses at light work as timothy hay, according to an experiment at the Missouri experiment station. In each case 14,000-pound horses were fed 10 pounds corn and 10 pounds of one and two-thirds pounds of straw daily. At the North Dakota experiment station it was found that horses which fed 10 pounds of straw and 10 pounds of timothy hay were as good as those which fed 10 pounds of timothy hay and 10 pounds of straw. The results of the experiment are as follows: At the North Dakota experiment station it was found that horses which fed 10 pounds of straw and 10 pounds of timothy hay were as good as those which fed 10 pounds of timothy hay and 10 pounds of straw.

Feet Act Like Buckets. Hoofed or ungulate animals, such as sheep, pigs, camels and elephants, have the habit of using their feet in a hostile manner, and employ them solely for progression. Consequently new shankers is out of their shoes. In Africa and Syria occur, however, certain representatives of the order known as ungulates, or hooved animals, which are being the one referred to in the Bible as the "camel of the valley of the Euphrates." Certain African ungulates have, however, taken to tree climbing, and the way they manage it is thus: In each foot the sole is somewhat cup shaped, and by the aid of muscular action the center can be more elevated, so that when the hooves are applied to the bark the hooves act as a bucket.

Getting Into a Scrape. Rabbits, men, golf and Scotland accepted to produce the expression of "getting into a scrape." In that part of Great Britain the game was first played in 1500. The rabbits were identified as now, they had a habit of making little hollows in which to rest. Whenever a ball happened in one of these scrape-holes, the player had a real problem to solve. Finally the practice became so numerous that the "golfing" was called "scraping." The game was named after "getting into a scrape." From that time, with the difficulty decreased, the game flourished.

Women and Mice. It is contended that woman's fear of mice arises from their being classed as "rats." The fact that mice are dirty and plague is not disputed. Mice may not be quite so dangerous. Their bites and scratches are trifling, they carry disease and dirt, and a baby sleeping in a cradle, for instance, may suffer in consequence. The fact that mice are fond of eating bread and in seeking to protect their offspring from contact with mice have unconsciously, we are told, had that feeling of nervousness which has inspired the comic artist with his periodical picture.

NOTICE!

If interested in taxidermist work watch for open season on animals and birds, and when you secure a good specimen, send or bring it to me, as I do all kinds of work in that line and guarantee it to be satisfactory.

Read them because they set before your eyes the current history of business progress. Read them to keep informed. Read them—Regularly.

Self-Feeders Save Labor for the Hog Raiser.

away with the laborious work of feeding hogs. No definite experiments have been made along the line of comparing feeds, but the feeders against soap, yet some work of this kind has been done and results were very satisfactory with the self-feeders. Many farmers and hog growers have tried feeding these feeds in a self-feeder, and the results were fully as good as those that have obtained by the system of stop feeding.

It is highly desirable that feeders used in feeding hogs, especially corn, be fed in a self-feeder. This gives the hog granary. Feeding floors should be built adjoining pens or granaries, hedges, pened over.

Another means of saving labor in hog raising is the more extended use of water-soluble feeds. If the hog grower has all his feeds mixed and fed with light feeding he can save the waste in these feeds after harvest, and can also follow the hog in a three-down corn, which is highly desirable and economical.

Probably the best way to which, however, the feeding of hogs is to be in making possible the use of force-feeding. Our best hog growers have been "force-feeding" their hogs.

It is in nearly every part of the country there have been grown some of the best force-feeding corn, and they offer three distinct advantages:

Hot Days Give Tires Severe Tests

June broke some heat records—and also "hopped" a good many tires. How did yours stand the blistering sun? If you experienced trouble and delays on the road, you will doubtless be more interested than ever before in the money saving—worry ending, scientifically constructed tire, invented and perfected by Charles C. Gates, E. M.

The fact that over 600,000 car-owners in America are now taking advantage of the unusual low mileage cost and continued motoring comfort to be found in Gates Half-Sole Tires, should convince you that they are well worth investigating. Drop in for facts and figures—today.

BRINGING UP FATHER

By George McManus

What Is a Building and Loan Association?

A Building and Loan Association is the co-operation of a number of persons combining to accomplish that which the individual cannot accomplish alone.

As an illustration: One man cannot loan \$10.00 per month and get first mortgage Real Estate security, neither can ten men, as no one wants to give a first mortgage on property for \$100.00; but 100 men investing \$10.00 each month can make a loan of \$1000.00 every month and get the same rate of interest as the financier.

Is the Investment Safe?

This is a matter of vital importance to you and one of our many strong points. For every loan made a first mortgage on improved real estate is taken. We have the confidence and patronage of some of the best business and professional men in Twin Falls; among them banks and bank officials.

If Something Happens and I Cannot Meet My Monthly Payments, Do I Lose What I Have Paid In?

No. If payments are not made for 6 months the Association reserves the right to declare your stock forfeited, and after deducting fines at the rate of 5 cents per month per share, you are paid the balance of the value of the stock. Your stock participates in the earnings of the Association during the time of non-payment, when fines are paid. We know of no Association so liberal in this matter.

Can I Withdraw My Money?

Yes. You can draw out the full amount of money paid in on your stock at any time by giving the Secretary short notice. This applies if you have paid in one month or five years. If you continue your payments for six months before withdrawing we pay you interest at the rate of 5 per cent per annum. If you continue your payments for one year before withdrawing we pay the full earnings of the stock. We charge no withdrawal fees of any kind.

What Returns Do I Get on Money Invested?

As this is a mutual Association, the stockholders receive all of the net earnings. Each dollar invested shares equally in the earnings. No man or set of men receive any special dividends.

All indications at this time point to a 5 per cent dividend on the stock for the last six months of this year.
