TWIN FALLS, IDAHO, THURSDAY, AUGUST 28, 1919

OLD VOL. XIII, NO. 54

Times Presents Appeal of North Side Farmers for Water

"GIVE YOUR NEIGHBOR DRINK" IS APPEAL MADE TO FARMERS

Although Good Crops Were Produced, North Side Has No Water for Stock or Domestic Uses and Faces Serious Situation Unless Canal Waters From South Side System Can Be Borrowed.

"You would not refuse your neighbor a drink if he was thirsty... The plea on which the Twin Falls Times today presents before farmers of the north side an opportunity to do a great good and remove a close friendship between communities, besides caring for themselves the lasting gratitude of those benefited. The appeal is that of filling the cisterns of the north side tract, that the farmers there may have water for their livestock. The appeal is made on purely humanitarian grounds, though the situation generally has its compensation in the good will of the north side and the benefits that may result from that. It is desired by the Times to get from the farmers of the north side a sufficient strong expression of approval to justify proceeding with the plan of relieving the demand water shortage on the north side.

"The north side today is facing a serious situation—not only in that though they have not irrigating water since the middle of July they produce no crops—let us consider water for livestock and more important still, for domestic use. The water on the north side is entirely inadequate to meet the requirements of the farmers are hauling their water from great distances at heavy loss of time and money. The harvest is being jeopardized because of the time and trouble required to secure what water they get, which demands respect of their work.

"At a meeting of the farmers in Jerome yesterday, a representative of The Times made the offer before the situation before farmers of the north side. This offer was gratefully received. The farmers of the north side have a serious situation. It is desired by the Times to get from the farmers of the north side a sufficient strong expression of approval to justify proceeding with the plan of relieving the demand water shortage on the north side.

"The north side today is facing a serious situation—not only in that though they have not irrigating water since the middle of July they produce no crops—let us consider water for livestock and more important still, for domestic use. The water on the north side is entirely inadequate to meet the requirements of the farmers are hauling their water from great distances at heavy loss of time and money. STARTS TRIP SEPTEMBER 3

President Will Travel by Special Train in Swing Around Circle for Treaty

WASHINGTON, Aug. 28.—President Wilson, who will start on his speaking tour on September 3, and will make his first address at Columbus, Ohio, on September 4, it was announced at the White House today. His second address will be at Indianapolis on September 5.

The president will be accompanied by Mrs. Wilson, Secretary Tumulty, Dr. Cary T. Grayson, his chief medical personal physician, three White House stenographers, secret service men and newspaper correspondents. His wife will leave for New York on the night of September 2.

Announcement of the itinerary was delayed as the result of many objections to the route. It was originally planned to include many requests for open air speeches and these were put up to the president for his decision.

General Botha, Boer War Hero, Is Dead

LONDON, Aug. 28.—General Botha, Boer War hero, died at his home in London today. He was 70 years old. He was a member of the House of Commons and was one of the most prominent statesmen of the day.

JAPAN'S AMBITIONS ARE MENACE TO WORLD PEACE, SAYS EXPERT

M. Cordier Declares Japan, by Secret Agreement During War, Cunningly Encircled China and Now Covets North Pacific and North Asia.

"China is now awake. Every Chinese citizen is being mobilized and Japan's shipping magnates, who also control trade, are becoming alarmed over this situation. M. Cordier charges that, while the war was in progress, Japan cunningly encircled China, meaning her independence and her economic life. In the same way, by secret agreement with the former Russian czar's government, Japan sought to prevent Russia from having any part of the Far East. In this connection, M. Cordier laid stress on the agreement of Count Sazonov, former Russian foreign minister, and Count Motono, of the Japanese ministry, whereby Japan and Russia were to come to one another's aid in the event that either of them should be attacked. Japan's design against Russia or Japanese interests in China. M. Cordier declares that the entire behavior towards China during the peace conference was 'blackmail.' The powers, he added, were 'bought' because they feared that the Japanese would withdraw from the conference as the Italians had done. During the war, continued the expert, the powers gave into Japanese conditions because Russia was unable to support her allies with her army and navy.

CARNEGIE WILL DISTRIBUTE ESTATE OF THIRTY MILLIONS

Widow and Daughter Already Provided for—Educational Institutions and Authors' Club Remembered—\$350,000,000 Given on Away During Life of Testator.

NEW YORK, Aug. 28.—The will of the late Andrew Carnegie was filed for probate at noon today, appraising an estate estimated at from \$25,000,000 to \$30,000,000. A number of bequests were made to educational institutions. The will recites that provision had already been made for Mrs. Carnegie and the daughter, Mrs. Carnegie Miller, during the life of the testator, but it left to Mrs. Carnegie to provide further for her daughter as she guided by her judgment and affection.

All of Mr. Carnegie's real estate, works of art and household goods are left to Mrs. Carnegie. The will recites that Mrs. Carnegie, in his life, gave away \$30,000,000 to charity and for educational and uplift work, thus carrying out his desire to 'do a comparatively poor man, a blow of the riches he commanded.

Among the bequests to educational institutions were: University of Pittsburgh, \$200,000; Cooper Union, of New York, \$60,000; Hampton Institute of Virginia, \$300,000; Steno-Graphic of Chicago, \$100,000. The sum of \$200,000 was left to the relief of the authors' club of New York.

His will was filed by Ethel Hunt, Jr., the attorney for Mr. Carnegie.

Let's Be Disarmed by German Troops

BERLIN, Aug. 28.—German and Lithuanian troops have clashed at Mianus and two companies of Lithuanians were ordered, according to information received here today. Afterwards the Lithuanian commander was sacked. The German government has been placed in an embarrassing position by refusal of the Germans to withdraw their troops from the districts in question. Representatives of the iron division of the German army in Baltic Russia announced the intention of the soldiers to 'make Lithuania free from the rule of the German Government. Chancellor Bauer and Gustav Noske, minister of public instruction.

Hay Is Not Moving Says Chief Inspector

BOISE, Aug. 28.—Hay in the Twin Falls region is not moving, farmers preferring to hold it rather than take a low price, it is being offered by the Kansas City buyers, according to N. J. Smith, chief hay inspector for Idaho, who has just returned from a trip to the southeastern portion of the state.

INSURANCE CO. TO BE ORGANIZED

BOISE, Aug. 28.—W. R. Hyatt, state director of insurance has today announced the organization of the Union Automobile Insurance company of Lincoln, Neb. The insurance department is expected to be organized by the end of the month. Hyatt was named to this position by Governor Alexander, three years ago. When Governor Davis took office he had just.

Federation Council Will Go Into Session CAPITAL AND LABOR CONFERENCE TO SOLVE PROBLEM IS PROPOSED

WASHINGTON, Aug. 28.—Samuel Gompers, president of the American Federation of Labor directed in Washington today that his staff be called to attend what may be the most important meeting of the executive committee of the federation ever held. The meeting is an important preliminary with reference to the crisis in the steel and railroad industries, and is scheduled on.

Russians Arrested for Being Radical

CHICAGO, Aug. 28.—Radical Russians are in jail today, while the police are investigating their activities. W. W. Watkins, the man who was arrested in a raid conducted last night by Chief of Police Barry's 'red squad' in the rooming house of Russian Workers, said he had headquarters of the younger radical element in Chicago.

HOUSEWIVES GO FOR RETAILERS RAILROADERS GO BACK TO WORK

Organized Effort Will Be Made to Take Advantage of Drop in Livestock Markets Traffic Restored to Normal Following Advice of Brotherhood Official to Men

CHICAGO, Aug. 28.—Chicago housewives are preparing today for an event which is expected to benefit the sharp break in food prices on the Chicago market yesterday. The women are expected to appear in large numbers at the market in prices of meats, grains and produce, which caused a sensation yesterday, when they reached the market and touched the scales.

The break in prices was attributed to a report of high prices for livestock in the north and west. The price of hogs began to rise with the price of sheep and lambs were down 25 to 50 cents and produce of other kinds, including fruit and potatoes, followed in the wake of meats. The level reached by pork was the lowest since last January.

WANT AMERICAN SIDE CLEANS

Part of Outlawry on Mexican Border Charged to Americans by Carranza Agents

EL PASO, Aug. 28.—American ranchers living along the border supplied the border, Mexican National leader, with rifle, ammunition and horses and advised him in the wild which led up to the capture of Lieutenant Horton, Mexican aviator, and American aviator, according to charges made in confidential reports, which are being sent to President Carranza by the Mexican republic today.

MISSING FLYERS REPORTED EOUND

SAN DIEGO, Cal., Aug. 28.—Officials of the Rockwell Flying Field here today expect news of the whereabouts of Lieutenant Frederick Waterhouse and Cecil Connelly, missing aviators who have been rescued in Lower California.

MONTENEGRINS ARE IN REVOLT

Fighting Officially Reported Over Large Area—Berks Try to Suppress Revolt

LONDON, Aug. 28.—The whole of Montenegro is in revolt, and fighting is reported to have broken out. The revolt has been put down by the Montenegrins. The Berks are throwing large reinforcements into the country and are endeavoring to suppress the revolt. The Berks are reported to have been successful in suppressing the revolt.

Federal Grand Jury to Probe High Cost

BOISE, Aug. 28.—Judge H. Frank District of the federal district court expects to issue a call today for a federal grand jury to meet in Boise September 8, to probe the high cost of living and profiteering in Idaho.

THREE MEN LOST IN FOREST FIRE

Three men were lost in a forest fire in the Idaho national forest today. The fire was started by lightning and burned for several hours. The men were rescued by a search party.

Russian Bolsheviki Are Driven Back

DAMSKIN, Aug. 28.—The Russian Bolsheviki have been driven back from their offensive on the eastern front. The Russian army has been successful in driving the Bolsheviki back to their original positions.

Postal Clerks Send Ultimatum Message

PHILADELPHIA, Aug. 28.—All postal railway mail clerks in the City of Philadelphia today are following the lead of the chairman of the house postoffice committee in Washington.

AMERICANS MAY LEAVE EUROPE

PARIS, Aug. 28.—The American peace delegation, headed by Frank B. Rowland, Balkan and president Wilson whether it is worth while to remain in Paris attempting to solve the problems of southeastern Europe, is being questioned.

SAYS JAPAN IN OPIUM TRAFFIC

WASHINGTON, Aug. 28.—Written charges that Japan was not only encouraging a widespread traffic in opium, morphine and other drugs in China, but was receiving from it revenues amounting to millions of dollars annually, were filed this afternoon with the senate foreign relations committee by Senator Charles McNary.

Peace Delegates Question Wisdom of Trying to Straighten Out European Tangle

PARIS, Aug. 28.—The American peace delegation, headed by Frank B. Rowland, Balkan and president Wilson whether it is worth while to remain in Paris attempting to solve the problems of southeastern Europe, is being questioned.

Christian Missionary Charges Government Encourages It for Healthy Revenue

WASHINGTON, Aug. 28.—Written charges that the government was encouraging a widespread traffic in opium, morphine and other drugs in China, but was receiving from it revenues amounting to millions of dollars annually, were filed this afternoon with the senate foreign relations committee by Senator Charles McNary.

Federal Grand Jury to Probe High Cost

BOISE, Aug. 28.—Judge H. Frank District of the federal district court expects to issue a call today for a federal grand jury to meet in Boise September 8, to probe the high cost of living and profiteering in Idaho.

## TENNIS PLAY IS IN THIRD ROUND

### Stars of Game Manage to Work Themselves Into Positions as Honor Contenders

**FOREST HILLS, L. I., Aug. 28.**—Twenty players remained in the running for the national tennis title with the playing of the third round of the annual tournament on the courts of the West Side Tennis club here today.

Match winners proved the tournament for the first time took and won the title, and the victor and runner-up were both expected to be the national champions of 1920.

The national tennis has unfolded that match, it was expected to be a close one, with the favorite, the champion player, having taken the lead in the first set.

But the match was a close one, with the favorite, the champion player, having taken the lead in the first set.

## FROM THE PRESS BOX JUG

Whether or not a post-season spring, to doubt the league championship will be necessary should become apparent next Sunday after the clash between the Barley and Report clubs at Rupert. With both teams at present in a tie for first place, their last scheduled meeting, promises to be the most exciting fourth game of the season.

From the press box, going the rounds the situation at Rupert Sunday will resolve itself into a contest between Barley and Report rivalry. Already the most perfect baseball machine in the Barley club has been further strengthened by the addition of Fitzpatrick, a fast middle-of-infielder, and two pitchers superior to whom it is hard to find a better one. The thing that has been overlooked to be the team's one weakness, is this thought up to a level with the rest of the team.

In Rule Exams most critics will admit that Report will still retain an advantage, so far as pitching is concerned. We have heard it said that the Rule is a false claim but such opinions appear to be unfounded. As a matter of fact he will outdistance any pitcher that Barley has covered or can cover outside of Class AA ball. He may have an off day, at times, but such is not present him from throwing a brand of ball that is nearly hard to beat. Behind Rule are several hard hitters, a fairly good holding club, a more or less well trained umpire and a first class game of terris, both in uniform and in the stands.

This is the combination which Barley must buckle on to beat. With a beautifully balanced team that has won as much prize for its team management as for its playing ability the Barley club will be compelled to outdo the Report from so far that there can be no comparison. Mobile is likely to depend on part of a close fought. The prospect is reasonable but most certainly fine if good experience is any criterion.

The shabby Barley hitters should be able to handle Rule's team if anyone can do it, although it will be no easy task. The Barley team of hitting is considerably above that of Report. The big shaggy, then, before Barley, will be the Report umpire and the Report crowd. Such obstacles are enough to beat any ball team in the country if allowed to function. They will be a lot and believe me, the team of Barley makes on the ground and the may have a something to feel but no surprise should be occasioned next Monday if the pitcher and a few bats in the circle were the Barley ball team used to be.

Due to the match with Barley, the former champion's chances in the national tournament were considerably reduced by many teams following. It is hard to say how good a job Williams took as coach. It is better than any of the remaining coaches.

## FAST BOYS DUE TO BATTLE AT BOISE

### Frank Barrion and Mickey King Are Colling Neck Offering

(Special to The Times.)

**BOISE, Aug. 28.**—Frank Barrion, middle-weight champion of Canada, and Mickey King, Australian middle-weight, will meet in a twelve round, "catcher" match at the Liberty Theater, city, on the evening of Labor Day.

The match is arranged by Promoter, Jack Collins, in an experiment with the revival and arrangement of the fight game in Idaho. Both men are among the top notches and should furnish an interesting scrap for the one hour.

## NO GAME SUNDAY; PAUL ON MONDAY

### Labor Day Exhibition Game Will Provide Keel Battle

The local baseball park will be "dark" next Sunday, the game will be postponed for that day being forfeited by Labor Day.

Spectators are sure to get a game with the Slugs club on the local grounds but an agreement on financial arrangements could not be reached and the plan was abandoned. Twin Falls could not guarantee expenses for the visiting club which declined to come on a percentage basis.

A real battle will be staged in this city Monday, however, when the final comes for an exhibition game. The local winners will be much strengthened by the return of Joe Chase, Norman and Holt and expects to put a team into League's ranks.

## NATIONAL LEAGUE

Team	Won	Lost	Pct.

Philadelphia	2	10	.167

Boston-Brooklyn postponed, rain.  
 St. Louis at Philadelphia, clear, 2:30.  
 Los Angeles at Pittsburgh, post-pone, wet grounds.  
 Boston at Brooklyn, clear, 2 games, 1:20 and 3:20.  
 New York at Philadelphia, clear, 2:30.  
 St. Louis at Pittsburgh, clear, 2:30.

## Booking Passengers for Airplane Trips

**CHICAGO, Aug. 28.**—Passengers were being booked here today for flight from Chicago to New York, the what the promoters say is the largest airplane in the United States.

The plane, which has accommodations for twenty six passengers, will leave for New York within the next day or so.

The huge aircraft was constructed at Milwaukee at an approximate cost of \$125,000. It has a wing spread of 160 feet and is equipped with twin Liberty motors of 400 horsepower each.

According to present plans the plane will be placed in regular passenger service between New York and San Francisco.

7. Swimming pool in summer and skating rink in winter.
8. Improved street lighting system.
9. Good roads throughout all tributary territory to city.
10. Electricity railroads of Idaho.

### SOMETHING ABOUT THE COST OF ROCK CRUSHING

From information supplied by Mr. Johnson, engineer, after he had visited Utah, California and Oregon, the Twin Falls highland district commission "felt justified in assuming that it could produce crushed rock in a large up-to-date plant at from \$1.25 to \$1.40 per cubic yard." The commission gave consideration to the fact that the average cost in California was 60 cents per cubic yard. No doubt there are a couple thousand difficulties in Idaho to be overcome, although the commission had virtually the whole outdoors upon which to locate its crusher plant, and it had a number of quarry sites under consideration, and presumably chose the most desirable. But after consideration of all the enormous difficulties, the commission "felt justified in assuming" that it could produce crushed rock for \$1.50 a cubic yard. That's not the rate of 94 cents a ton. So the commission "felt justified in assuming" that it could produce crushed rock for about twice as much as Jim McMillan's cousin paid in California. It has been shown that Jim's cousin, in paying 50 cents a ton, is paying at the rate of 80 cents a cubic yard. It has also been shown that Jim's cousin is paying a profit of 25 per cent above the average cost in California. Eliminating the profit, which the commission is not required to show, it is clear that the commission felt justified in assuming that it could produce crushed rock for just two and a half times the California average.

It might be urged that the cost of "quarrying" rock is not included in this "average cost." But Mr. Johnson's report "shows" the average cost of quarrying and grinding rock in the large plants on the coast to be about 60 cents per cubic yard. And Jim McMillan's cousin, who he buys crushed rock at 50 cents a ton is paying for all the work that was put into the finished product, including amortization of the crushing plant, the cost of quarrying, dynamic, expense of leave, if any, and every other item of expense, including a profit of 25 per cent above the average cost in California.

What peculiar items of expense entered into this cost which the commission "felt justified in assuming" are not mentioned. True, there is the immense crusher plant. But we find that plant is so efficiently built that only four men are needed to run it.

The commission had opportunity to choose the most likely spot in the district for quarrying and handling rock and setting the crusher plant. It had the experience of the California rock crushers who do the work and make a profit at 20 cents a ton. Surely the Idaho rock is not twice as hard as California rock. If it is, there is no suggestion in the report which shows that as a fact. There is no indication of any peculiarly distressing difficulty that must be overcome which will make Idaho crushed rock cost twice as much as Jim McMillan's cousin pays in California. If such difficulty exists, the commission certainly made provision to overcome it, for the report says: "We called for bids, . . . specifying the kind of equipment to be installed."

The report is significantly lacking in the details of cost entering into the production of crushed rock. The crushing plant will cost \$125,000, and it will produce 180,000 tons of rock. Still the commission figures on an amortization of the plant, the plant at the end of two years will have been reduced to nothing in value, with the original cost of \$125,000 absorbed in manufacturing the 180,000 tons of crushed rock. That cost, divided among the 450,000 tons is at the rate of a fraction more than 26 cents a ton. That is assuming that the plant will be worthless after it has done its two years' work. The fact is the commission did not contemplate a complete amortization of the plant's equipment. The suggestion is not contained at any place in the report. Indeed, the direct contrary is suggested when the report says: "In our opinion this plant will be needed to furnish crushed rock for maintenance and further construction for several years after the present road improvement program is completed."

Now, to operate the plant requires four men. Taking into account the high cost of living, and everything, it seems likely to allow each of these men \$10 a day, making a payroll of the plant \$40 a day. That is, four men for \$40 a day will produce 500 cubic yards or 500 tons a day, which is at the rate of 8 cents a cubic yard or 5 cents a ton. Now 5 cents, the labor cost of a ton of crushed rock, and 20 cents, the amortization proportion to be set aside on each ton, added together make 31 cents a ton as the cost of manufacturing the crushed rock. There is also other item of expense suggested in the report upon which the commission might feel "justified in assuming" that rock could be crushed for 31 cents a ton except the fact that the plant is to be electrically driven, but even in Idaho, where electricity is an expensive luxury, it does not seem possible that it would make up the vast difference between 31 cents and 94 cents.

But it is not fair to include the amortization of the plant in the estimated cost of crushed rock, because the plant will be charged as a direct expense to the district, and the plant will be needed for several years after the present road improvement program is completed. So that, in fact, the only items of expense which can be deemed from the report are that of labor, which has been shown not to exceed 8 cents a cubic yard, and that of electricity. The peculiar conditions upon which the commission "felt justified in assuming" that it could produce crushed rock for \$1.50 a cubic yard should be explained. Labor cost of many articles is the largest single item. Here it is only 8 cents a cubic yard, while the assumed total cost is \$1.50

a cubic yard. What items enter into that \$1.42 not accounted for, but which the commission "felt justified in assuming" it could crush rock for, should be more clearly set forth.

### PUBLICITY FOR THE STATE ADMINISTRATION

Under the heading "Story of New Form of State Government," the state administration is endeavoring to popularize the so-called Davis form of commission government. To read the story is to be convinced that about two-thirds of the commissions, inspectors, agents and paper-pushers should be put to work at some useful labor. The Times says, not because the present state administration is of Republican proclivities, but because it is a fact. Democrats and Republicans alike, when they get into power, load up their administrations with a lot of supernumeraries whose duties are not numerous and the performance of which duties adds nothing to efficiency or human happiness, but kills any efforts at public economy.

In the second installment of the state administration's advertising campaign, for instance, is this statement regarding the activities of the commissioner of immigration, labor and statistics:

"The commissioner further has been seriously handicapped by lack of office room, but, nevertheless, has been maintained to assist statistics with regard to irrigating farm lands, livestock and other important strands in the Idaho commercial fabric which will prove immensely valuable to the seeker for information."

His duties are to assist statistics. The only valuable feature about the amassing of statistics is that when they are printed it makes work for a printer. Ninety per cent of the statistics amassed by state departments of statistics is unneeded, and the other 10 per cent never had any value to anybody. . . . Can the "savings" effected by the new form of government pay to the point.

Commissioner Gibson of the department of commerce and industry reduced his office expenses \$1000 in six months. He must have had one office ornament. For this he is to be commended. It must have been one whose party regularly was open to question, however. Credit for advertising result of state bank, netted the collection fund \$187,000. Commissioner of public investments reports collection fund \$100,000 greater than in preceding same period in 1913. In July of current year game licenses totaled \$20,000—a sum more than double the best record achieved in any month of 1913.

Yet with all these economies and savings and this efficiency, the state board of equalization found it necessary to increase the tax levy for state purposes from 2.2 mills to 2.8 mills. The new state levy, it is estimated, will give the state \$3,675,280.08, whereas the total in 1913 was \$1,222,132.30.

The new tax levy means that the state will collect on each square foot of valuation \$7.80, and the state recently whopped up the farm valuations of Twin Falls county. Last year, under the old valuations, the state collected \$2.20 on each thousand dollars' valuation.

This publicity stuff is just the same old political bunk that has been peddled by hundreds of the politicians, who in turn are kindlings of the interests. It is discouraging to think that anybody takes the stuff seriously.

### POINTED PARAGRAPHS

Self-made men never boast of their successes.

When a doctor gives a patient hope he expects pay for it.

An ardent kiss is the kind one woman inflicts on another.

A small man's shadow is just as black as that of a great man.

He who tries to do his best should draw the line at doing his best friend.

A speech made in a banquet is called a toast because of the dryness thereof.

A man can get used to everything—except the foot actions of his relatives.

Some men do the right thing because they are afraid of being caught if they do otherwise.

Yes, there is a meat a horse is a sure sign of death. A live man never rides around in a horse.

Even the man who never fails to keep his appointments is apt to fall down when it comes to assisting friendly letters. Chicago Daily News.

### CONVERSATIONAL CAROMS

Never talk about yourself—show.

Our vanity jobs don't have to advertise for business.

Self-assurance is confidence multiplied by clean lies.

Mock modesty is inability to speak the English language.

A dramatist is a man to whom there are no happy marriages.

Modesty is the fear that someone knows how easy it was to do it.

Women show with suspicion the anonymous step on the phonograph.

There was one thing never told about Nero; he didn't take an encore.

Broadway is ten thousand times longer than it is wide, but few actors get across.

### ALL TRUE

Hard work is good, but how splendid when bolstered up by luck!

People-pleasers can accomplish ten things; it can not be one either a success or a bore.

One wants to be a human being rather than a paragon of efficiency. Efficiency is tough on psychology.

The farmer enjoys the benefits of nature? We must presume so, although none have written poetry about them.

A loquacious cannot change his spots, but in the middle band of a card sharp that does not seem to be able to change at all.

### COL. D. ANTOINE DEPAGE

Col. D. Antoine Depage of the Belgian army, famous among scientists the world over for his remarkable feat of surgery during the war, comes to America to thank the people of this country for what they did for Belgium. He was for four years in charge of front line hospitals in Belgium and is head of the Belgian Red Cross. His wife resided on the Louisiana while taking home funds she had collected in America for Belgium.

### COMMENTS

BY A TAXPAYER

No, we don't quite understand yet why, by installing the so-called permissive filtration plant, Twin Falls should be using the same ditch water it has always had, uncleaned, since the early days of the tract, except for the "chlorine dose" which upset the good nature of our taxes to such an extent that it was first applied, as to the effect on our dispositions and dispositions—well, can the administration wonder that an ordinary taxpayer continues to ask "why" regarding the water filter?

Please remember, in reply, that the ordinary taxpayer does not "roll to bed with a Latin phrase" nor "finish a verse of Greek." He just wants to know in the simplest language why the filter stands high and dry this summer and why our water supply is as it used to be.

And to keep the explanation so plain that a child can understand, we suggest that the administration begin with the good old maxim "Water can not run uphill."

Upon this case of reasoning, just how is it proposed to remedy the inefficiency of the water filter? And how much is it going to cost the public pocketbook to make the change?

No doubt the members of the city council acted in good faith when they offered a reward for the apprehension of the person who first told the story of "the body found in the city reservoir."

These gentlemen probably know that, in all regard, the truth about the city water is bad enough, especially if considered at meat time. The bare statement of facts concerning the water supply surely would disgust the most healthy appetite, and the slightest exaggeration might easily become a real menace to the public digestion. . . .

It appears, therefore, that the offering of the reward was altogether timely and might be classified as a community benefit. . . .

Water meters and "Keep off the grass" signs go hand in hand in most unneeded centers. We stroll through the city park yesterday to see if a ten dollar fine would be imposed as a penalty for leaving the park. Evidently this matter has been overlooked. It should have the attention of the proper city authority immediately. . . .

Twin Falls has always been most generous in voting bonds. Why not have a system of reciprocity—recognize that mixture of hundred cent worth of service for every dollar spent of public funds?

### Rogerson Items

Blair Langford, Chas. Craig, Mr. and Mrs. Harold Gott and family returned home Sunday evening from a visit at Twin Falls.

Mrs. Iulo Jones of Contact spent Saturday here.

Harry Peterson returned home on Saturday after visiting in Salt Lake. A. R. Caldwell of American Transcontinental returned here Saturday.

Mr. and Mrs. Iulo Knudsen and L. Kunkel of Amsterdam spent Friday evening here on business.

Howard Gibbs spent Friday in American over business.

B. Alexander of Twin Falls spent the week end here visiting friends.

George Tanner spent Friday in Twin Falls.

His Class.

"That's an odd specimen who wants me to trace his family tree for him." "Why probably find it among the nut trees."

### When Occasion Calls for Afternoon Gowns

To be correctly and smartly gowned, that is the "connotation" dignity to be withheld, when occasion calls for afternoon clothes. In these gowns, most young women may be beautiful, and their own brilliant and stunning, and a lot of the best of opportunities and their offer of ability to take advantage of them. With the fabrics at least this season, designers have done most unusual things. It is to their credit that they have taken the "figured" and plain georgettes, satins, crepe-de-chine, and organzas and made handsome, beautiful combinations of them, resulting in a variety that has never been seen before. In the former days georgette and satin are the very usual fabrics that have been converted into two brilliant afternoon frocks.

The frock at the left is suited to maturely wearers, with its striking contrast and general richness of appearance. It owes this to the character of the pattern in the printed georgette as much as to the material. The dress at the right is a more restful in color, and the material is a soft, delicate, and very pleasing texture in the gathered-in bodice and skirt.

Some are of black satin, the sleeves of black georgette. A bodice and tulle of printed georgette are posed over the satin foundation and a long, full, pointed bonnet of its fabric is the sleeves. The tulle is cut away over the hips and another agreeable surprise gives us in a narrow border of black georgette at the bottom of the skirt. There is a grade of very rich satin ribbon with a single loop and short cut at the back to finish a gown that has distinction and dignity.

Another gown belongs also to the gown of printed georgette for a younger woman, shown at the right. Perhaps the suggestion of drama in its printed stripes accounts for the wide kimono sleeves. But the influence of fall fashions is here. The fall skirt is gathered in about the ankles and the long slash of satin lies easily about the feet and waistline. It is a graceful gown, its cutting unexpected and very pleasing texture in the gathered-in bodice and skirt.

White kid pumps are very lovely for evening wear. The one we show is of the new slender toe and vamp, leather covered Louis heel, in a plain throat style. AA to D widths and \$10.00 a pair.

NOTICE  
Owing to the increased cost of living the organized laborers of Twin Falls are compelled to raise their wage scale for coming labor to \$5 per day, such scale to take effect the 1st day of September, 1917.  
International Hod Carriers Building and Common Laborers Union of America, Local No. 351, Twin Falls.

### NOTICE!

If interested in taxidermist work watch for open season on animals and birds, and when you secure a good specimen, send or bring it to me, as I do all kinds of work in this line and guarantee it to be satisfactory.

### For Young Women With An Interest In New Cloth Frocks

Already many quite delightful wool dresses are here, so that young women going to school or college, or simply in search of something new and different, will have no difficulty in finding something to suit their needs.

Serge, quite naturally, is the first choice of many girls, and tricotine is a close second. Frocks of both fabrics are here in dark blue.

Some are much braided, others are embroidered, a few show the use of another, brighter color for trimmings. Shallow, round necks seem to predominate, lines are long and straight, waists are used occasionally (and most effectively) and girdles are quite as fashionable as ever.

\$25.00 to \$35.00, 16 to 20 year size.

### Women's New Pumps With Long Graceful Lines

Built on the new lasts which are long and slender, the style that women are now demanding.

A new black kid colonial, with a buckle of same, in the long vamp, long toe style, with leather covered Louis heel, in a plain style having neither buckle or bow. Widths AA to C, at a pair \$25.00.

A bronze kid pump sure to be a leader, long toe, long narrow vamp, leather covered Louis heel, in a plain style having neither buckle or bow. Widths AA to D and at a pair \$20.00.

White kid pumps are very lovely for evening wear. The one we show is of the new slender toe and vamp, leather covered Louis heel, in a plain throat style. AA to D widths and \$10.00 a pair.

**LABOR RALLY TO TALK NEW TEMPLE PLAN**

General Call to Union Men Given for Friday Evening at Parish Hall

A general call for a labor rally was issued today by the Central Labor Union, the rally being set for Friday evening at 7:30 in Parish Hall.

At this meeting the building committee of the unions will report on plans that have been made for construction of a labor temple for devoting.

The following call to union men to attend the rally has been issued:

Twin Falls, Ida., Aug. 28, 1919  
All Members of Unions in Twin Falls GREETINGS:

In accordance with the custom passed at regular session of the Central Labor Union August 21, we request to the labor rally to discuss the proposition of a labor temple the Labor Temple Committee, which was set the date, after that it is now ready and will meet at Parish Hall, 7:30 p. m. Friday night.

Your presence is urgently requested on that date. It is a matter of utmost importance to all union men there it is to decide the matter of labor's new home.

Fraternally,  
E. W. SHANKS  
Sec'y C. L. U.

**Hart's Ready-to-wear**

**Smart coats for college girls**

Going away to school a full wardrobe. A top coat to wear over serge dresses, and blouses and skirt is an absolute requirement. Coat stocks in this store are more complete and in wider range of prices and models than ever before.

The model at the left is of brown broadcloth trimmed with seal plush collar and buttons; has pockets and full skirt. A chic model for dressy wear—\$65.

The center drawing above is a rich brown pile fabric with black plush collar; has loose sleeves and trimmed with buttons at the side and across the shoulders.

The coat sketched at the right is of brown pile cloth with high convertible collar. Is belted with narrow belt so much worn this season. Trimmed with large lappets and turn back cuffs.

**Q. R. S. PLAYER ROLLS**

**LOGAN PIANO COMPANY**  
(Opposite Perrine Hotel)

**The House of Kuppenheimer Clothes**

**Invest \$35 Now For Clothes Dividends**

It would be well to look upon clothes-buying as an investment now, rather than as a necessity-purchase. You'll draw liberal dividends if you do.

The tendency of clothing prices is upward—and will continue so.

The cautious, far-seeing man is buying clothes now—investing on the rising market.

The Kuppenheimer suits offered here at \$35 represent a "buy" you will reap good returns on. Equal qualities will cost considerably more next fall—they're already selling at higher prices elsewhere.

Remarkable garments at the price; quality fabrics; Kuppenheimer tailoring; every detail shows skill, excellence and care. Styles in a variety to satisfy the wants of both men and young men.

**Strauss & Glauber**  
Twin Falls Buhl  
Manhattan Shirts

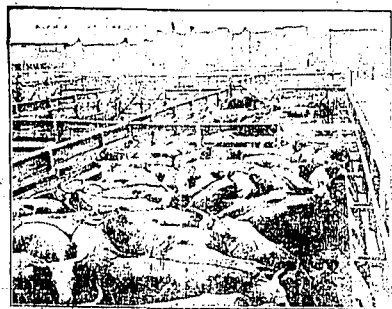

**ATTENTION!**

All members of the Metal Trades affiliated with Machinist Union No. 1307 are urgently requested to assemble in front of the Idaho Department Store promptly at 9:30 a. m. Labor Day to take part in the parade.

**THE COMMITTEE**

LIVE STOCK PROBLEMS SOLVED UNDER GOVERNMENT SUPERVISION OF MARKETS

One Step in the Marketing of Live Stock—Cattle at the Stock Yards.

John Hiltner, Emma Smith.

**ELEMENTARY GRADES**  
Eather Munawring, Grace McMillan, Clara Miller, Edna Hook, Georgia Stewart, Myrtle Peterson, Jessie Wolfe.

## HOLLISTER WILL HAVE ROUND UP

Backing Contests, September 7 Are Drawing Attention

Hollister blossoms out as a Round Up city on September 7th, when a backing contest that promises to draw with the best will take place. A field has been prepared south of the Hollister school and all is ready for the event.

The best riders in Idaho and the wildest horses will turn up thrills for the spectators. Eighteen trained buckers and thirty wild nags who have never been mastered by hand will be used in the backing. The twenty male will also have his chance to draw a laugh. Backing events and wild round up are the hit of performance. Herding, roping and rearing events are listed.

G. L. Larson of Hollister is managing the contests, which are expected to draw large crowds.

## FOUR PLAYING MEN TO FIGHT WITH POLE ARMY

PARIS, Aug. 27.—General Resolow, chief of the Pole military mission, has formally authorized Major and Captain M. O. Cooper of Jacksonville, Fla., to raise a fighting corps to fight with the Polish army. It will be known as the Kosciuszko expedition and will consist of the 1st Flying Corps and the French army during the war.

The squadron will be limited to fifty men. In addition to Major Cameron and Captain Cooper the following Americans have already enlisted: George M. Fray, Fred White, Raymond Kenneth Shrewsbury, Charles Carl H. Clark, Tulsa, Okla., and C. Carl of New York. All are experienced.

Sunday and Daily Times—\$7.00.

## RESULTED AFTER EIGHT DAYS' ON HIGH SEAS IN BAY

BOSTON, Mass., Aug. 27.—A message from the American steamer *Perseus* from the E. P. Rogers company here today announces the destruction by fire at sea of the three-masted schooner *George Edmunds* of Boston, and the recovery of her crew of seven men by the *Perseus* after they had drifted off the mercy of wind and waves for eight days in an open boat.

The schooner will be limited to three hundred miles south-westward of Nantucket on August 27. The officers agreed so rapidly that Captain H. D. Coleman of Springfield, ordered the crew to abandon her.

## Close Restaurant Clean Coffee Urns

CHICAGO, Aug. 28.—The city chemist today was engaged in examining the contents of the coffee urns of a downtown restaurant following the unpalatable illness of thirty persons who had eaten in the lunch room yesterday. On orders of the city health department the restaurant was closed for twenty-four hours pending a report by the city chemist. None of the victims are seriously affected.

## Any Coal Today?

**K**ING and Kemmerer "V" coals have the reputation of making permanent friends and users. Among those who want the best coal obtainable there are hundreds whose search ended when they tried either of these two good coals.

It is easy to understand why their enthusiasm increase the longer they use them—because they are clean—free from soot and clinkers—have very little soot and burn to a clean white ash.

—Because they are free from stone. They are the most economical coals to buy—

A nickel a rock for every rock you find in either King or Kemmerer coal when they are unloaded into your bin.

# For Coal That's Fine Phone Eight-O-Nine

Order your coal now for the winter. It is always a safe plan to have a few tons of coal stored away in case of a shortage.

With the labor unrest throughout the country, a strike at the mines or on the railroads would result in a shortage of coal.

There has been less coal stored this year than any time for three years. So you can see what the result would be if we have a hard winter, and labor troubles. —Play safe, order now.

# CITY COAL CO.

Corner of Second Street South and Fourth Ave. South

# King, Kemmerer and Rock Springs Coal

Schilling Tea, fine as it is, costs less per cup than any other tea we know of, and surely less than any tea selling at a lower price.

It costs a lot of money—the biggest part of the price you pay for tea—to get tea to you from the tea-plant.

So why pay that good money and get only common tea?

Schilling Tea costs more per pound but less per cup.

There are four flavors of Schilling Tea—Japan, Ceylon, India, Orange Breakfast. All are quality. In parchment-lined moisture proof packages. At grocers everywhere.

A Schilling & Co. San Francisco

# COOMBS HOLDS FASTEST TIME IN AIR DERBY

Official Announcement May Not Be Made Before Saturday—Nineteen Have Finished

ROOSEVELT FIELD, MINNEOLA, L. I., Aug. 28.—Unless his time is beaten before the New York-Toronto air derby ends tomorrow night, Sergeant Frank Coombs, an American flyer who started from the Canadian city, probably will be judged the winner of the 1000 mile race and the first cash prize for speed.

Coombs gave his time in the air at 211 minutes for the round trip. Major Randolph Schneider, another Toronto flyer, made the double journey in 274 minutes, according to his log book while the timing time of Lieutenant H. P. Mitchell, a Minneola starter, was 283 minutes. Coombs and Mitchell used old Haviland machines; Schneider a V-7.

Official announcement of the winner of each prize and trophies may not be made until Saturday night.

Nineteen contestants in the race had completed the round trip between Minneola and Toronto when flying was resumed this morning. The weather conditions had improved over night. It was cool with a stiff breeze but the sun was shining and there was no prospect of further rain storms.

Word was anxiously awaited here today of the fate of Lieutenant H. G. Slicker, Canadian entrant who disappeared on the Buffalo to Toronto leg of the flight. It is feared that Slicker and his companion, Sergeant Strickland were either lost in Lake Ontario or else were blown out of their course by the storm and compelled to land in some isolated region.

Lieutenant F. T. Hominger, Ica, D. H. 4, who was forced to land at Farmingdale, L. I., last night, arrived here at 8:10 o'clock this morning completing the round trip. He had left the flying field for Toronto at 9:01 Tuesday morning.

Lieutenant H. H. George, Ica de Haviland Four, left for Toronto at 9:37 on the return trip.

Lieutenant Colonel Harold E. Hartney, who completed the round trip last night, said he would re-enter the race and make another flight in the machine used by Lieutenant H. Logan.

## GOVERNMENT'S NEXT MOVE SUBJECT OF SPECULATION

WASHINGTON, Aug. 27.—What the next move of the government will be in the great, almost forgotten campaign of the country vote to strike for an immediate increase in wages was being made a question for speculators in official circles today. It was the consensus of opinion, however, that the government's action in such an emergency has not yet been considered and there were indications that, for the time being, the attitude of the officials would be "to cross that bridge when they come to it."

The Twin Falls Daily Times, 7 days a week, 27 a year.
