Our New Serial The Devil's Own

By Randall Parrish

THE tale concerns chiefly a diabolical plot by Joe Kirby (The Devil's Own) to fit in at poker. Judge Beaucaire, a Missouri planter, and then get possession of his daughter. This comes to the knowledge of Lieutenant Knox of the regular army, who happens to be on the boat where the plot is conceived. He is powerless to prevent the robbery and the death of the judge which follows, but he takes the cause of the girl as his own and after a series of exciting adventures defeats the scheme of the villainous gambler. The time is at the outbreak of the Black Hawk War, which forms part of the background of the story.

It is a Story You Will Want to Read

"Devil's Own" a Good Story. Randall Parrish is a shining example of trencher turned novelist. His stories, which deal mostly with historical matters in the middle West, have a wide sale. His latest, "The Devil's Own," is a well constructed tale and holds the reader's attention to the end.—Chicago Tribune.

Elimination Matches Leave Sixteen Players to Compete in Tennis Games

FOREST HILLS, N. Y., Aug. 29.—Tennis tournament, star of the autumn tennis season, will be put on the feet here on the courts of the West Side Tennis club here this afternoon by the club here.

With fair weather on tap and the crowd narrowed down to sixteen competitors for the title, the tournament will be a real test of the players' endurance. The tournament will be a real test of the players' endurance. The tournament will be a real test of the players' endurance.

On his showing to date the track and field player has proven himself to be the master of using ball bats, and a player of great endurance. His playing powers enabled him to wear both Alexander and the Detroit-Ohio-Johnson match, a physical impress as a match player has left little experts to believe that he is holding something back for the important matches which he is to play.

Today's schedule offered an interesting list of matches. In addition to the Detroit-Ohio-Johnson match, Norman E. Hancock, veteran Australian, was scheduled to cross against Phil Charles S. Gardner, the young star from Pittsburgh, and the steady veteran looked to have an even chance to win.

Robert Lindsay Murray, the nation's champion, drew against H. Boyle of Washington today, while H. Norris Williams II was scheduled to face H. J. Thomas of Kentucky. William T. H. H. Philadelphia was matched with John Kanagawa, the Japanese star, Maurice E. McLaughlin of Los Angeles drew Perry Remington, boxer, who came to the city from Boston was scheduled with Wallace J. Johnson, Philadelphia.

PAINFUL APPRECIATION
"What shall we expect tonight?" asked Hamilton Bauer, the editor-in-chief, of the "Herald."
"How about 'Hamlet'?" said his leading lady.
"Yes, finding our last performance of 'Hamlet' the audience of four or five only showed less delight in seeing the members of my company die in the present struggle which concludes the celebrated drama, but they acted as if they hoped they'd die!"—Baltimore Sun August 28th.

A Diplomatic Illness.
"In a friend you were not as sick as you appeared to be," said the nurse to the ill man.
"But," answered the young man, "my wife says, 'He's fast, 'The Devil's Own' is a well constructed tale and holds the reader's attention to the end.—Chicago Tribune."

WRESTLING PARSON IN ARMY

Soldiers Thrown by Chaplain. Currier of Second Division Promise to Go to Church.
With the American Forces in Germany.—"Currier" E. S. Currier of the Second Division has become known among the American forces on the Rhine as the "wrestling parson" in his go-to-hatch campaign, which is maintained recently among the soldiers.

Chaplain Currier has been putting on an exhibition in Lousdorf every night the last few weeks, and each man he throws promises to induce the other soldiers to accompany him to church the Sunday following the wrestling match.

The contests have been held in the lounge of the mess hall. Chaplain Currier has been taking on different men from the Third battalion of the Sixth marine corps night. Reports to the chaplain's office of the Second division say that Chaplain Currier has been winning about 75 per cent of the matches.

The collapse of the Brooklyn pitching staff is one of the spots of the season, for the Dodgers were supposed to have pitching along all else.

BURLY WINS FIRST BATTLE WITH REXBURG

Eleven Inning Contest is Awful Example of What the Hit and Run May Bring On

Special to The Times
BURLY, Aug. 29.—The Burley club took the first of the inter-sectional series with the Rexburg yesterday, after a full, eleven inning contest, in which pitchers found the going extremely rough. The score was 11 to 0.

Frankly took the mound for the hit and run in great shape until he was in the eighth. The batter was up and James took on the burden. Stone, the crack slugger, came up after a full, eleven inning contest, in which pitchers found the going extremely rough. The score was 11 to 0.

Following the two games in Burley the club will move to Rexburg for two more games on September 2nd and 4th. If the inter-sectional series is not decided by that time, a final game will be played at Idaho Falls.

Yesterday's series: R. H. E.
Rexburg 10 15 2
Burley 0 11 0

TAGGING ALL THE BASES

Schump pitched his best game in two years when he let the Pirates tag all the bases in the last game of the season.
Hoag had the number of the Giants and the Phillies had Winters' measure of for tagging which they gave him with a grand slam in the first inning of the game.

The hitting of Witt and Walker featured the victory of the Mackmen at Boston in the first game. Pomack pitched the Athletics into the hole in the second. Jim Johnson allowed Boston to face.

Mays won a fitting duel from Walt Johnson in the last game of the season. The Athletics' pitcher and doubleheader, and Merridge outpitched Harper and Zachary in the second game. The hitting of Phipps, Perkins, Lewis and Jones gave the Sox a very timely.

After Pfeffer had batted over the Braves in the first game with four hits, John's error and the hitting of Gowdy, Hamilton and Maranville gave the Braves the win of the double bill.

FAMOUS INDIAN RACER DEAD

NOTES OF THE DIAMOND

Jack Smith is playing great ball these days.
Alexander has added to the Cubs' chances by getting fair shape.
Conic Mack stands out to be the best discouraged with the Athletics.

Yonny Venz of the Detroit Tigers continues to chip all kinds of pitching.
Bill Arz, recently released as an extra in the Texas league, caught on in the Azers.
The Brooklyn club left Rubo Marcano in Cleveland to take treatment for his cracked leg.
What became of the talk about the Red Sox getting in the world's series next October?
Harry Davis is still getting as fast as ever for Conic Mack and looking a good job of it.
Otis Knabe will probably start on a scuffling tour soon. The Cubs have their eyes on several youngsters in the minors.
Fletcher Carl Williams, just out of the army, has rejoined the Waterbury club, they being Jack Ryan a staff of five umpires.
Scoring from a pop fly and a technicality indicates that Ty Cobb is showing up the old drummer playing in 113 days.

FROM THE PRESS BOX JUG

The effect of good pitching on the pitcher's support has been quite well demonstrated in the case of the Twin Falls baseball club. The view had been expressed that if the club could receive fair field pitching, it would go far toward pulling out of the slump it has been in for many weeks. This view was based on observation of the team's work during the entire season and notion of the fact that its slump dated approximately from the week of its pitching staff.

At Ball last Sunday, Frankburg gave Twin Falls the last sample of pitching it had received for practical all summer. The psychology hidden away in the situation was not long in coming to the surface. A steady, confident fielding game was the response from the local infield whose had been subjected in previous games by the nervous strain attached to constant dodging of bullet drives. It is still necessary for the team to pull out of its hitting slump but this should not be long in following a fielding reform.

Three good hitters but in the line-up last Sunday will be back on the team at its next appearance next Monday when they play on the local grounds. Neumann, Bell and Latimer should change the look of things. An effort is being made to land Frankburg for the game, but the deal has not been closed.

Our little divorcee yesterday on the Ripper-Budley game next Sunday appeared to stir up mixed feelings. As a result the Press Box dingler may become busy before he can accept the nomination for mayor of Burley—all depending upon whether the Ripper crowd or the Burley crowd reaches this city first. We aim to wiveze.

FIXING A "MARK OF PROFIT"

Speaking of the discovery by a senate committee that virtually all the business concerns paying excess profits have been passing those taxes down to the consumer, a Washington squib says: "In the opinion of the investigating committee, it may become necessary for congress to set a certain mark of profit, and then levy a 100 per cent excess profits tax beyond that point to curb the effort to escape paying the tax by raising prices."

THOSE METING AGAIN

There was once a law, a very good law, it was one, that specifically stated that any child of a multi-millionaire must certainly furnish the seeds for war...

By the way, how do meters happen to be valued at \$22? What company furnishes the particular meters at this low price?

The Indians have been purchased in the city of Twin Falls at the rate of a little over 25 cents.

The Indian law is a peculiar fashion of naming people according to their characteristics.

In view of the fact that numerous questions have been asked in print, both in signed and unsigned articles, with courteous requests for answers from the city administration, requests are called for late late falling replies.

How much is the reputation of a town worth? Some of the official members of Twin Falls mention \$10 in compensation for the fire man's city.

NEW COURSES AND IMPROVED OLD ONES SHOW PROGRESS OF INSTRUCTION IN HIGH SCHOOL

Broadening its curriculum and enlarging various activities already included among the courses, Twin Falls high school is preparing this year for a bigger and better place in the life of its community. A review of the courses, new and old, and some of the improvements and changes planned are most interesting.

Military Drill
A cadet corps will be organized similar to that of last year. However, the government is going to provide a great deal of equipment. In fact, the government will provide everything except uniforms.

This work will be open to boys who are physically fit and at least fourteen years of age. The government requires that when a student enters the course he must complete two years of it in order to secure graduation. One hundred boys must enroll for the work which is being given government aid. F. J. Hoelke will continue as military instructor.

Credit for Military Service
The Twin Falls high school achieved a splendid record when twenty-two of her boys enlisted in the military service of the country. A great many of these boys dropped their school work to serve their country. Two plans are proposed to help these boys in securing credits for their high school. The first plan involves giving credit for military service. Such credits will apply on graduation. The second plan involves permitting these boys to carry five subjects throughout the remainder of their high school work. If any soldier boy is interested in returning to high school and completing his course, he should confer with the principal of the high school.

Spainish are coming to have important places in our high school. Probably the organization of a Spanish club might be a factor in the life of the high school. There ought to be a good debating club organized. With a great deal of emphasis given to music, it is thought that we should have a student body with more than one club.

Student Senate
It is the aim of the present administration of the high school to manage the practice of student government to a great extent as far as possible. This can probably be done most satisfactorily through the establishment of a council designed to represent the student body.

A body designated the high school student senate will be constituted comprising the eight regular class officers and the work school officials together with four additional members—three elected from and by the junior class.

administration course will emphasize training for the management and conduction of business.

Opportunity will be given to students to study Third Year French, Vocational Arithmetic, Grammar and Geography, Physiology, Astronomy, Boys' Chorus, a complete series of courses in Agriculture and additional subjects in the commercial curriculum which are dealt with more fully in another place. The course in Economics will be conducted so that it will be proper to require it of all students intending to graduate from the Agricultural and Commercial departments. A new course will also be organized in art. Miss Virginia Anderson, a graduate of the University of Montana, will have charge of this new course.

Exchanging Text Books
Everything is being done to keep down the cost of text books. For the last three or four years, there has been a gradual increase in the cost of school books. This rise in cost has increased the burden upon the parents and pupils. The principal of our building will do everything possible to permit pupils to exchange text books. The first meeting of school, Mr. Mitchell will announce for the high school pupils in the auditorium the plan whereby high school text books may be exchanged.

IRELAND'S HOPE IN A TREATY SENATOR NUGENT SAYS LEAGUE OFFERS ONLY CHANCE FOR SOLUTION OF IRISH QUESTION.

Speech in U. S. Senate Declares that Every Friend of Ireland should be a Supporter of the Peace Treaty.

Washington, D. C., Aug. 25. Senator Nugent, of Idaho, in a speech delivered in the Senate, advocated the length of nations as an effective stimulant for the solution of the Irish question.

The senator argued that under the terms of the second paragraph of Article XI of the League of Nations it is the friendly right of each member of the league to bring to the attention of the assembly of the small nations... international relations which threaten to disturb international peace.

The English viewpoint is that Ireland contains a population of but four millions. It is not a member of the League of Nations... the League of Nations comes into being this fear will be removed.

The senator reviewed the general feeling of the league, declaring that for the first time in the history of the world the great nations have serious doubts as to whether they should support the league.

 LITTLE TOWN**

New Times Correspondent Reports
 Town and Institutions—Adds
 Personal Items >

Eden is on the map. It's one of the busiest towns in southern Idaho. A fine new garage and a brick club house are in construction and a number of modern ones are being built and our little town can boast of three up-to-date general stores, two elevators, blacksmith shop, hardware, two good saloons, two sporting yards. A dentist, one doctor, a drug store, "fix it" shop, butcher shop, bank and a newspaper. And our Eden Eagle is one of the best papers in this part of the state. Contracts are being let for a new hardware, a picture show and a number of other business houses. And we're going to have a real fair on September 16, 16, and 17. The new hotel will be in readiness to take care of the crowds, so come and visit our town and help to make our first Jerome county fair a success.

Any Coal Today?

KING and Kemmerer "V" coals have the reputation of making permanent friends and users. Among those who want the best coal obtainable there are hundreds whose search ended when they tried either of these two good coals.

It is easy to understand why their enthusiasm increase the longer they use them—because they are clean—free from soot and clinkers—have very little soot and burn to a clean white ash.

—Because they are free from stone. They are the most economical coals to buy—

A nickel a rock for every rock you find in either King or Kemmerer coal when they are unloaded into your bin.

**For Coal That's Fine
 Phone Eight-O-Nine**

Order your coal now for the winter. It is always a safe plan to have a few tons of coal stored away in case of a shortage.

With the labor unrest throughout the country, a strike at the mines or on the railroads would result in a shortage of coal.

There has been less coal stored this year than any time for three years. So you can see what the result would be if we have a hard winter, and labor troubles. —Play safe, order now.
