Hoover May Report on Commercial Production
LONDON, Sept. 19.—It is reported in London that Hoover will shortly submit to the inter-Allied economic council a plan for the internationalization of the world's commerce.

President Quotes Their Utterances to Show Their Hope

TALKS TONIGHT IN LOS ANGELES
Is Well Pleased With Developments of Western Trip
LOS ANGELES, Sept. 20.—President Wilson and his party, reached Los Angeles this morning with the announcement that still amazed and delighted with his experience in San Diego last night.

GAGE DECLARES M'KINLEY WOULD FAVOR LEAGUE

Shows Analogy Between Martyred President's Patriotic Philosophy and Wilson's
CINCINNATI, Sept. 20.—"I feel convinced that Gage would have favored McKinley's policy as far as the League of Nations is concerned," said President Wilson today.

MINERS REFUSE POSTPONEMENT OF CONFERENCE

Tell Operators Wage Question Must Be Taken Up According to Schedule
CLEVELAND, Sept. 20.—Coal operators of the central competitive district which includes the bituminous coal fields of western Pennsylvania, Ohio, Indiana, and Illinois, today rejected the offer of a postponement of their conference.

Divorces Increase in England Since War

LONDON, Sept. 19.—Divorces have increased 100 per cent since the war and the number of cases on the divorce court has reached a record. There are 1,800 cases to be tried during the present term in London alone.

Bolsheviks Bring Down Two British Airplanes

LONDON, Sept. 19.—Two British bombing planes which participated in the raid on Krynitzka Wednesday night were brought down and two were shot to pieces according to a Russian dispatch received here this afternoon.

Attorney General Gives Platform Upon Which Americans Can and Should Unite

FISCRIPT, Sept. 19.—A challenge to Bolshevism and a plea for a six-month industrial truce were voiced by Attorney General A. Mitchell Palmer in an address at the afternoon of the twenty-eighth reunion Pennsylvania Volunteers.

Germany Agrees to Demand of Allies

BRUSSELS, Sept. 20.—Germany has agreed to the demands of the allies regarding the amount of reparations to be paid for the war.

Carpenters Win \$1 Hour Minimum Wage

CITICAGO, Sept. 20.—Building contractors and timber unions today secured a victory for the first time in a strike against the city of Chicago.

UNIONS BACK UP BOSTON POLICE

Organizations Contribute Funds to Support Patrols—General Strike Threatens
BOSTON, Sept. 20.—A second meeting of the committee of seventeen of the Boston Central Labor Union to discuss the question of a general strike and an unexpected vote for a special meeting of the street car men's union to vote on the proposition of a sympathetic walkout were held today.

Embazzled \$5000 to Bet on Baseball

CHICAGO, Sept. 20.—Herbert Brown, twenty-one year old, was arrested today for having embezzled \$5,000 from the bank's funds, all of which he lost in betting on the Chicago Cubs during the recent baseball slump.

Not Enough Ships to Get Out of Russia

LONDON, Sept. 19.—Evacuation of northern Russia is proceeding although there is insufficient ships to carry the refugees. A new agency has been organized today to handle the refugees.

Bank Robbers Kill Man Who Shows Fight

GRAND RAPIDS, Mich., Sept. 19.—Robbers early today robbed the Grand Rapids Savings Bank. A customer who refused to be killed was shot.

Postpone Execution Upon Revelations

PARIS, Sept. 19.—Important revelations made by three laborers, who were sentenced to the guillotine for the murder of a French soldier, have caused the government to postpone the execution.

WILSON LABORS TO AVERT STEEL WORKERS STRIKE

Fiume Solution Will Be Right, Says Nitti
WASHINGTON, Sept. 20.—Samuel Gompers, president of the American Federation of Labor, has informed Attorney General Palmer today that President Wilson, acting through embassies, was still exerting every effort to prevent the steel strike.

SHIP FOUNDERS, 450 LOSE LIVES

Off Key West—No Trace of Passengers and Crew
KEY WEST, Fla., Sept. 20.—A wrecking crew in Italy at the scene of a disaster reported by the Spanish ship Vallparaiso, investigating the report.

GERMAN LABOR REACHES CRISIS

Financiers May Lose Jobs if Labor Does Not Return to Pre-war Piece Work
PARIS, Sept. 19.—The American press declares that the situation in Germany is reaching a critical point.

Sees Revolution Against Covenant

ST. PAUL, Sept. 19.—Senator Hiram Johnson of California, addressing a joint session of the Minnesota legislature today said the law makers were in a fight against the league of nations.

Another Homer by Mighty Boston Pitcher Beats Chicago

JOHNSTON, Sept. 20.—Cabe Ruth kept the White Sox from catching the pennant in the first game of the double header here today and added another to his world's record for home runs when he hit the ball high over the left field scoreboard in the ninth inning.

RUTH STANDS BETWEEN SOX AND PENNANT

At the Edgar Thomson plant in Braddock more than 1,000 workmen were sworn in as dupes today, while as many more became followers of the United States Steel company plant at Union City.

SAILORS REVOLT UPON ORDERS TO CAPTURE FIUME

ADMIRAL THREATENS TO ARREST ADMIRAL IF HE ATTEMPTS TO INFLUENCE MUTINEERS
GENOVA, Sept. 20.—Ten Italian sailors revolted today upon arriving at Genoa with orders to enter the town, have revolted, according to dispatches received today.

NO ONE DESIRES TO BE LENIENT WITH BOLSHIEVISM

PARIS, Sept. 19.—Alarmed lest the Bolshevists get a large slice of Russia, the Allies are anxious to get on their feet. The Bolshevists are making the Polish forces to erase their influence against the Russian Bolsheviks.

GERMAN LABOR REACHES CRISIS

PARIS, Sept. 19.—The American press declares that the situation in Germany is reaching a critical point.

Sees Revolution Against Covenant

ST. PAUL, Sept. 19.—Senator Hiram Johnson of California, addressing a joint session of the Minnesota legislature today said the law makers were in a fight against the league of nations.

Another Homer by Mighty Boston Pitcher Beats Chicago

JOHNSTON, Sept. 20.—Cabe Ruth kept the White Sox from catching the pennant in the first game of the double header here today and added another to his world's record for home runs when he hit the ball high over the left field scoreboard in the ninth inning.

BASEBALL MAY GET NEW BOSS

Garry Herrmann Reported Ready to Resign as Chairman of National Commission

NEW YORK, Sept. 29.—With Garry Herrmann reported on the verge of resigning from the national commission, the appointment of a successor to the chairmanship of baseball's ruling body held the public interest in baseball circles today.

National league club owners, retaining their mind of late, have in favor of the appointment of a new chairman, are ready to accept Herrmann's resignation, but do not wish to discuss the identity of a possible successor.

The names of several prominent men are mentioned here. They are Judge K. M. Landis of Chicago and George Whitton Peper, Philadelphia attorney, with a nod for Alexander H. Rouse, president of the American baseball in the suits brought by the Baltimore Federal league club.

RUPERT WINS PENNANT FOR SECOND HALF

Defeats Fall, 7 to 6, in Sensational Battle at Burley—Coast Leaguer on the Mound

(Special to The Times)
BURLEY, Sept. 29.—Rupert won the right to meet Burley for the South Idaho league championship when they met for the first time at the second half of the season here yesterday, beating the Fall club in a sensational battle, 7 to 6.

Battles in the later innings by Rupert's pitcher, the early loss of the lead and the ninth inning drama of the winning punch, leading a 5 to 3 to Fall, helped to come back at the final score, but did not prevent the Fall club's victory.

Center Ralph Beard of the Fall club came to bat with one out and the ball was pitched to him by the Fall pitcher, George Taylor, who was the surprise for the fans. The Fall pitcher, however, slipped right out after his say pitched five runs up in the ninth inning.

TAGGING ALL THE BASES

One more victory will put the White Sox over.

Chicago's pitchers complied with their tagging by Gault and Schaeffer, who pitched the first game at St. Paul.

George McGreevy led the Tigers, down with three hits, and the Yankees moved nearer to third place.

Twenty Auto Drivers Go in Match Today

NEW YORK, Sept. 29.—Twenty of the best automobile racing drivers in the world will meet at the Sheepshead Bay speedway this afternoon in the 10-mile derby and a special 10-mile match race.

GLOOM HANGS OVER U. OF I.

Plastino and Carnahan, Two Veterans and Burly Linemen Wanted to Re-Enter University.

MOSCOW, Sept. 29.—Dark gloom hangs heavy over the University of Idaho's football camp. Folk Plastino and Marvin Carnahan of Pullman, Washington, two burly and veteran linemen who had been counted on to see as tackles, may not return to college.

Both Carnahan and Plastino entered the service before completing their college course and until recently it had been thought that they would register at Idaho this fall. Hope is held out that one or the other may appear within the coming two weeks, but Coach Brannaman has received no positive assurance from either man.

Eight Will Compete for Championship

JERSEY CITY, N. J., Sept. 29.—Eight star athletes from various parts of the country will compete today here for the national all-round championship under A. A. H. auspices.

The entrants include H. Thomson, Los Angeles; Lauri Karim, Detroit; Pat O'Connor, Dan Shew, Jack Fritts, H. F. Hulbeck and Bernard Lictman, New York; Arthur Roberts, Boston. Jole Jay will compete in a special 1,000 yard race.

The Times job printing department is thoroughly equipped to do just class work—at reasonable prices.

Portland	45	91	.332

Ledy Swartz was picked for slugging by Paul, his choice being occasioned by the improvidence of local cravens in the Rupert team. For four runs he swept home in the fifth, Marshall hit him for a home run with one man on base, but Paul still kept a 5 to 3 lead and, with one participant was knocked out of the blow. In the next inning Ledy's doing arrived on the scene. With two runs over and his bases loaded, Platte went to hit. Platte's first pitch hit the plate and went wild, in the stands, one run crossing. After that the slug speed ball slung for the side with no more scoring. During the rest of the game he allowed Rupert for two hits and with 5 to 3 perfect support, would have saved the game.

One defensive break came in the last inning. An error turned what should have been a double play into a two-run homer. Platte then chose this moment for Platte to slip a single error around, scoring both runs. Coming to bat in the hot half of the ninth with a two run lead against the team, Platte tried two separate and almost failed, Platte, first up, missed. The second batter dropped what looked like a Texas league single just out of second and Platte pounced on it. A second run was being run out of the drive and a sharp return to first base snuffed both Paul men and speeded rain in capital let. But the Fall pitcher, Platte, quit. Harrison slipped and slide occurred before the last man was squelched.

One feature of the game was the surprising number of short flies that fell between the infield and outfield. These tantalizing blows were rarely of interest to fans by the time the afternoon sun strikes squarely in the fielders' eyes at the bat's part. Most of them were the work of the Rupert batter and they played prominent part in setting the bat.

The game was free from fanfare and the crowd seemed to be of a quiet nature. The presence of a number of special officers on the field may have had something to do with the quietude. At one time the fans were giving the tireless arguments and depicting wondering that started the Rupert-Burley game.

Would Enlist Soldiers to Take Police Jobs

PROFRAN, Sept. 19.—Lamenting of a victorious campaign by recruits in new police force to be composed entirely of veterans of the world war, showing against an appeal to the courts by attorneys for the strikers, announcement of a meeting tonight by the "Committee of 17" of the Boston General Labor Union to discuss plans for a general strike and trial of 25,000 members of the Metropolitan police, police on charges of insubordination, in failing to take the place of striking Boston officers over the strike developments today, the strength of the Boston police strike.

Newspapers all carry the story in day carried advertisements inviting war veterans to take an examination for the Boston police force.

Paste This Date in Your Hat!

Sept. 30, Oct. 1, 2, 3

On Tuesday, September 30, the Fourth Annual Twin Falls County Fair will swing wide the gates for a four-day program which will not only be bigger and better than any previous Fair but will embrace a number of new features well worth traveling miles to witness.

<h3>Horse Racing</h3> <p>On a par with any offered at any track in the West. Special features guaranteed to provide recreation and entertainment to one and all. Band concert during the entire program on each and every day of Fair.</p>	<h3>Exhibits</h3> <p>More sheds and buildings and more space for the care of exhibits than ever before. Competent judges and the finest array of the products of this section ever gathered together in the history of the County.</p>
--	--

Carnival Attractions Embrace Many New Features. Fun and Amusement for All

All the usual County Fair features will be found on the grounds as well as many others distinctly new. Merry-go-Round, Ferris Wheel and Whip, Side Shows of all kinds and free attractions which must be seen, to be appreciated.

Airplane Flights Daily

And those who desire to do so may indulge in an aerial trip over the Twin Falls Country.

EVENING PROGRAM

A program of fireworks built around the events of the great war which is spoken of by press and public as one of the most startling and unusual amusement features ever offered in America.

Come and Bring Family and Friends You Can't Afford to Miss It

International MOTOR TRUCKS

A Rear Axle That Delivers Mileage at Low Cost

AFTER most thorough tests of every kind of final drive, the International Motor Truck is equipped with an inferior gear drive rear axle, made complete in the International Motor Truck factory.

Our axle is a smooth running unit, with a sliding cold steel drop frame for carrying the load and a roller for transmitting power. Our live axle is in front of the weight-carrying frame, requiring a shorter propeller shaft, and lightening the load in the wheel bearing.

This form of axle assembly transmits a very heavy percentage of load power, requires no maintenance, being thereby reducing the operating weight on the truck, and saves the weight and axle from traditional strains. It is therefore economical from every point of view, needing less wear, lasting longer, and using up less power and fuel than any other form of drive we could use.

You will want to see the arrangement of the bearings, the brakes and the various devices that simplify repair work and adjustment. All these things, and many others, we shall be glad to show you if you will come in at your convenience and see us.

Outbreak in Egypt German Report

LONDON, Sept. 19.—A German wireless dispatch received here this afternoon reported an outbreak in Egypt and "a revolt of the Egyptian population, without distinction of class."
At the Egyptian department of the foreign office it was stated that, so far as is known here, Egypt is quiet.

General Sir H. H. Attenby who was sent to Egypt to take command of the troops during the nationalist outbreaks last spring, now is in London.

WOMEN'S BILL TO GIVE VOTE TO SPANISH WOMEN
LONDON, Sept. 19.—The "votes for women" movement has finally reached Spain. A dispatch to the Daily Express today stated that the Spanish ministry will submit a bill to parliament providing for the extension of the franchise to women.

New Cars of the Enclosed Type

In the show rooms of the Johnson Auto Co. one might see some of the latest and "prettiest styles" of cars ever shown in this city. They are the touring limousine and coupé style made by the Hudson people, and are up to their usual high standard in every respect. People passing the show rooms are often led to remark that they are the finest cars they have seen for some time. And well might they do so, for they are finished as fine as the skins of the coach builders art will permit. Their equipment and attention to perfection will appeal particularly to the women folk for every convenience has been installed in their make-up until nothing is lacking. Mr. Johnson said he was lucky to get these cars as they are so popular—that many dealers have to be content without. It is safe to say that they will not be on Mr. Johnson's hands long, for cars of this type are becoming to be used more every day. Those interested in seeing something of unusual beauty should pass by Johnson's show windows, and view the auto before they are sold.

Try to drive at the center of the road as you can.

The brake mechanism seldom gets the lubrication it deserves.

Do not neglect to inspect valve clearance at least once a month.

One thing every automobile owner should learn is how to stop a skid.

Mud and sand are the two road conditions most dreaded by motorists.

Do not neglect the differential just because you filled it with grease once upon a time.

Driving over rough roads at the slowest possible speed is not always the best plan.

Some motors require grease in the timing gears. Others are lubricated by means of oil from the crank case.

If the car is not equipped with an "electric trouble lamp," it is well to provide among the accessories a pocket flash lamp.

LUBRICATION IS VERY IMPORTANT

Hard to Induce Mechanic and Drivers to Keep Chassis Oiled as Per Schedule.

MAKE REGULAR INSPECTION

General Hours May Be Required to Give Neglected Truck Proper Attention and Cover All of Most Vital Portions.

A good way to add years to the service life of a motor truck and to reduce the expense is to make sure that it never lacks lubrication. There are between fifty and a hundred points on a motor truck which require individual lubrication attention. Unfortunately it is not possible to arrange the chassis so that all of these are to be lubricated at the same time since the parts represented by this array nearly all work at different speeds and under wide variations of load. Every manufacturer continuously supplies purchasers with charts showing just where, with what and how to attend to each lubrication job. Yet it seems impossible for most organizations to get their mechanics and drivers to keep the chassis oiled as the schedule.

Days for Inspection.

The only way this can be done with certainty is to set aside certain days for the inspection of each vehicle by a mechanic whose sole duty is to seek out the lubrication members and apply the lubricant most to its taste. Armed with a lubrication diagram, perhaps, though this would only be necessary at the start, a large squirt can of oil, another of kerosene to clean out dirty lubricants and a full set of buckets and pails of "dope" or transmission lubricant and a full set of caps of grease, on the appointed night he will go entirely over the place. He should pick out a certain place to start—the steering track is a logical place—and proceed about the truck, cleaning away the caked mud and dirt and looking at each point keenly. Parts which are found to be in need of lubricant should have the needed material applied at once and a note made of the need. In his inspection he will test the quality of oil in the engine base, gearbox, differential, etc., as well as merely the quantity present, since it is necessary to clean out old oil periodically. When a change of oil is needed he will flush out the base with kerosene and fill it to the proper level with new, clean oil.

UNITED STORES--Twin Falls, Ida.

(Look for the Yellow Front--Opposite the Perrine Hotel)

Our own experience with Republics has conclusively proven that immunity to road wear does make Republics last longer.

Our observation in hundreds of cases is that they reveal no sign of the chipping and cracking you expect in a tire that has seen considerable service.

This is due, of course to the Proform Process, which so toughens the tread that—like steel—it wears down slowly and evenly.

That is why we do strongly urge all motorists to equip with Republic Tires.

Republic Tires and Black-Lin Road and Gray Inner Tubes are made by The Republic Rubber Corp., Youngstown, Ohio.

REPUBLIC TIRES

Look at the Essex

Do as 10,000 Owners Are Doing. Compare Its Qualities With Large Costly Machines, the Only Type by Which Essex Performance Can Be Compared.

From this Viewpoint

We ask you to ride in the Essex that you may know how it matches the performance of costlier, larger cars. Until you have experienced its performance you will not know that it is an unusual car.

Its size and cost naturally leads you to regard it as you do other cars of similar size.

But 10,000 owners and other hundreds of thousands of motorists know that except for its price, its size and the economy of its operating costs, the Essex bears no relation to even cars of the better quality, light weight medium priced class.

Choose the Essex for Performance

Any Essex owner will tell you the most inspiring things about acceleration and speed.

We have many customers who tell us they prefer driving the Essex to any car they have ever known.

Its ease of operation, the power which eliminates much gear shifting, the speed that puts the Essex in the lead of any car they wish to pass, are qualities that account for much you hear among motorists.

Endurance too, is Now Evident

Remember the Essex has seen hard service. Its performance range is so large, owners use their cars on trips

heretofore undertaken only by larger cars. The Essex has shown it has no narrow limitations. It is safe to use for any trip you would undertake with any automobile.

It meets every service and Essex owners tell their friends how little attention they are required to give their cars.

Let Those Qualities Decide You

regard the Essex in the service you expect from it, as you would any car regardless of size or cost.

If the Essex were as large as the cars whose performance it matches, the price would have to be as high.

But because it has no useless length or useless weight, easily car quality in every detail, is possible with proportionate saving in cost.

Let us show you the Essex in the way that reveals its true qualities.

There is a five-passenger touring model, a sedan for five and the roadster.

Each is as beautifully and completely done as any car you could want. Think how people endorse the Essex. The sole reason for their enthusiasm is Essex quality.

Add your personal experience to what everyone is saying for the Essex.

It may take several hours to give the proper attention to one badly neglected truck, but if once done properly and conscientiously followed up by individual subsequent inspections, an energetic mechanic should be able to act as guide for three or four vehicles a night. Naturally if the fleet is small, this will not be necessary. Once in two weeks is often enough for each vehicle, the driver being held strictly responsible for all daily lubrication, such as the fan grease cups, the clutch oil or grease cup, the spring bolts, steering joints, steering knuckles and radius rods.

Check on Driver.

The report of the lubrication inspector serves as a check on the driver and should serve as an excellent index to the conscientiousness of the driver. Conversely, the driver should be given every opportunity to report any complaints regarding lubrication of the other parts which may be necessary to insure diligence on the part of the inspector.

In a small fleet the chief mechanic himself may feel he intruded with this work, otherwise a special man may be detailed. The nature of the work would preclude any elaborate repairs, so that a mechanic with the names of the different oiling points on all the chassis only be prepared to make space for check marks by the inspector. A simple code, such as C for change, O for lack of oil, D for dirt and R for repair, may be adopted. A simple check serving to show that the part was found in good condition. Naturally, when a man goes over a chassis so minutely as to examine each lubrication point he covers all of the vital portions which are liable to become out of order, so that this inspection is also invaluable in detecting slight derangements which are easily repaired in the interim stage, but which might be neglected if a routine run until they become so serious as to necessitate a major repair.

INFLATE TIRES ON HOT DAYS

Terrific Driving Necessary to Generate Enough Heat to Raise Air Pressure in Tires.

Motorists should again be warned against the notion that the heat of a summer day raises the air inside a tire to such an extent that the tires do not need to be blown up to the same point as in winter. Experiments show that it takes terrific driving at a racing speed for a considerable period to generate enough heat to raise the air pressure in a tire for six points. The expansion in a car driven at an ordinary rate on a hot summer day is so slight that no allowance should be made for it when the tire is pumped up.

Motorists would do well in hot weather to test the air pressure in their tires every few days to see that the leakage of air has not reduced the pressure to the point where the tire will suffer harm.

Old Volumes Given to University of Idaho

MORROW'S LIBRARY, the largest and heaviest of its kind in the Northwest, is a gift of the University of Idaho.

It is a collection of old volumes, many of which have been considered sufficient in their own right to make the text difficult for a modern reader. "In my opinion this gift has unusual value from the point of view of the ambitious collection of old volumes," said Miss M. Belle Sweet, university librarian, "and it is more than interesting as an early example of good printing."

WHEN YOU BREAK A SPRING

Come in, we can fix it for you in short order. We have just installed a furnace and other equipment for making and repairing auto springs.

COME AND SEE THIS NEW OUTFIT

We'll gladly show you how automobile springs are made. It will be well worth your while to drop in at anytime.

ROMANCE OF BORDER ENDS

International Marriage Falls to Weather Test of the Cool Idaho Climate—Couirs called to Settle Difficulties.

An international romance that developed from Twin Falls to the border is on the rocks in local courts, with the filing of complaints and counter complaints by Mike Ali, a Mexican, and an attorney, her to the northern climate. That was in September 6th. Whether or not her order ruled under the more frigid stars of Idaho weather man is only to be guessed at. But day before yesterday she left Mike's company, consulted a Mexican interpreter and interpreter and attorney. Although no divorce complaint has been filed, it is understood that "one is probable."

Shortly Ali discovered that he lost his wife. Then he was discovered, on he says, that he lost more than a wife. A complaint has been lodged with the sheriff's office that when the wife sailed for Mexico and also accompanied her away, left his house they took sundry trunks and suitcases and left her in the care of the street car and \$25 from his brother, D. Ali. As a result of the complaint, a John Doe warrant was issued this morning for a Mexican barber, wanted in connection with the case. The trial will be held Monday afternoon before Justice Malloy.

LAKE SAILORS VOTE TO STRIKE

DETROIT, Sept. 19.—Officials of the Lakes Sailing Yacht Club announced this afternoon that the sailors at this port had voted unanimously in favor of a strike on or before Friday in sympathy with the strike of the steel workers called for September 22. Two hundred and thirty-nine ballots were cast.

Your opportunity lies in Orlando, California. Buy now—plant apricots, prunes, olives, figs or grow alfalfa. Excellent for drying or raising hay as you can grow your own feed in abundance. Land values are increasing by leaps and bounds. You can buy now at special figure. It only costs you a postal card to find out. Write Orlando Farms Co., Orlando, Glan County, Calif.

IDAHO HOLDS DEPOSITS OF QUICKSILVER

Local Mining Men Leave for Yellow Basin to Inspect Property. Declared Rich

John Dyer and William Peterson, veteran mining men of this city, will leave today for Yellow Basin with a representative of the Fern Quicksilver Mining company, to inspect what are said to be rich deposits in that section. The company has a number of stockholders in this city and in Idaho. Fred O. Savie, representative of the Fern company, who was in Twin Falls yesterday, in discussing the mine stated that Idaho has one of the world's largest deposits of quicksilver in the Yellow Basin. Arrangements are being made for installing on the Fern property a large capacity plant in 1920. While a number of local people are interesting themselves in the Yellow Basin mine, Mr. Savie is advocating a close personal inspection of the properties as the best safeguard for investment. It is for this reason that Mr. Dyer and Mr. Peterson are making the trip there.

NOTICE Party who took Red Youth wheel from the front of Idaho Theatre Tuesday is known and to avoid further trouble return to place from which taken.

The Times Does Job Printing Right

The Devil's Own

A Romance of the Black Hawk War

Author of "Cottonwood," "Sheep of the Prairie," "When Wilderness was King," etc.
Randall Parrish
Illustrated by Irwin Hayes

SYNOPSIS.

CHAPTER I.—The first chapter tells of the life of the young man, John Black Hawk, who is a member of the Black Hawk band of the Sioux. He is a brave and noble character, and his life is a story of adventure and romance. The chapter ends with the young man's first love, a young girl named Mary.

CHAPTER II.—The second chapter tells of the young man's life as a warrior. He is a brave and noble character, and his life is a story of adventure and romance. The chapter ends with the young man's first love, a young girl named Mary.

CHAPTER III.—The third chapter tells of the young man's life as a warrior. He is a brave and noble character, and his life is a story of adventure and romance. The chapter ends with the young man's first love, a young girl named Mary.

CHAPTER IV.—The fourth chapter tells of the young man's life as a warrior. He is a brave and noble character, and his life is a story of adventure and romance. The chapter ends with the young man's first love, a young girl named Mary.

CHAPTER V.—The fifth chapter tells of the young man's life as a warrior. He is a brave and noble character, and his life is a story of adventure and romance. The chapter ends with the young man's first love, a young girl named Mary.

CHAPTER VI.—The sixth chapter tells of the young man's life as a warrior. He is a brave and noble character, and his life is a story of adventure and romance. The chapter ends with the young man's first love, a young girl named Mary.

Twelve Year Old Boy Lends 100 Dollars

Earns Money After School and Invests It With Uncle Sam

San Francisco—While we are "glibly" pro and con these days about America's contribution to the war and victory, like a fresh spring breeze comes a letter from a twelve-year-old Sacramento boy exemplifying the war's contribution to America. It was addressed to the Director of the War Loan Organization of the Twelfth Federal Reserve District, and reads: "Dear Sir: I have bought one set of War Savings Stamps and am trying to get \$100 worth before the year is out. "I am twelve years old and have earned every dollar of it working for my neighbors, cutting lawns, irrigating, and doing other odd jobs. The director here said for me to write to you and you would send me a hand stamped letter if I have earned one of our War Savings Stamps during my vacation. I have earned six already and expect to get at least two more before school starts. I am a secret of one, I remain,

"Very truly yours,
WILLIAM BADGER,
"2919 F STREET,
"SACRAMENTO, CALIF."

Artesian City

F. J. Marshall was a Hurley visitor. J. J. of Twin Falls was an Artesian City visitor. Mrs. Helen Marshall visited at Jackson during the week. Mrs. Bonnie Marshall was a Twin Falls visitor. J. E. Stearns of Mirafloza was an Artesian City visitor.

Frank Sisson and family motored to Hurley to attend the fair. Jerry Bonard headed a lead of horses from Hurley to Kimberly. Mrs. Jim Porter of Twin Falls is visiting her father, M. B. Gwin. H. B. Hicks was a visitor to Artesian City visitor.

H. W. Stevens and family, who have been visiting at their daughter Mrs. Lottie Hicks, left for Kimberly during the week. They will go to their home in Mountain View, Wyoming. Mr. and Mrs. Sam Strong and family of Kimberly were called to Artesian at the home of their son, Lattie Hicks.

Artesian City had the honor of being the champion backgammon club at the Casino court fair. The house was owned by Frank Sisson. He was sold to the Foundation trust. The horse's name was Duke. In the future he will be known as "War Haul." It is seven years old and had thrown every man who had ridden him since the day of his birth. He is now owned by Mr. Sisson.

Mr. J. J. Marshall has been to the school. He was first met by Mr. Frank Sisson on his way to Hulley. Michie Marshall has been ill for the past few days. Mrs. J. J. Marshall was the wife of J. J. Marshall. Mrs. J. J. Marshall was the wife of J. J. Marshall.

Mr. J. J. Marshall was the wife of J. J. Marshall. Mrs. J. J. Marshall was the wife of J. J. Marshall. Mrs. J. J. Marshall was the wife of J. J. Marshall.
