# Steel Strike Brings Complete Tie-Up

## MOVE FOR NEW NATIONAL LABOR PARTY IS LAUNCHED BY UNITED MINE WORKERS—CONFERENCE OF VARIOUS ORGANIZATIONS ASKED

CLEVELAND, Sept. 22.—The United Mine Workers of America today took the initiative on the formation of a new national labor party. A resolution was adopted directing the international officers to call a conference of organized labor, representatives of the Non-partisan league and the co-operative movement to form the party some time prior to the next meeting of the American Federation of Labor. Resolutions endorsing the principle of self-termination of all peoples; withdrawal of troops from Russia; urging that Russian people be left to work out their own salvation and condemning the Cummins railroad bill were adopted.

## SEATTLE STRIKE OF SHOPMEN ON BASIS OF H. C. L.

No General Wage Raise Until Government Has Show to Reduce Living Cost—Better Conditions.

WASHINGTON, Sept. 22.—The strike of railroad shopmen, which has been hanging in the balance for several weeks, has practically settled. It was learned this afternoon. An agreement has been signed between the railroad administration and the shopmen, which provided that the question of the wage demands of the men be disposed of as outlined in the president's letter to Director General Hiram, directing that there should be no more increases in wages, except to clear up existing inequalities until the government is given an opportunity to bring the cost of living down to a level applicable to present wage. The agreement gives the government "ample" time to work out a reduction in prices. It was stated. The shopmen's claims for more favorable working conditions were also covered by the agreement, which provided for the formulation of a new set of working rules, eliminating the complaint of the shopmen.

## Rumor Changes in British Cabinet

LONDON, Sept. 22.—Reports of a compromise reconstruction of the cabinet are premature although two changes may be made, said the Parliamentary Lobbyist correspondent of the Daily Express today. Winston Churchill may be replaced as war secretary by Lord Curzon, a brother or Lord Northcliffe, and Viscount Milner may be succeeded as colonial secretary by Colonel Churchill, according to the correspondent.

## GROWN AND PLANTS TOWN IN NORTHERN GARDEN

PITTSBURGH, Sept. 22.—There is an unusual "garden" in one of the backyards of Pittsburgh, Mrs. Thomas Hall opined that the experts were wrong when they declared that peanuts and cotton could not be grown in this northern climate. The plants are both. Now she has several good-sized cotton plants in full bloom and has several fine raised rows of the peanuts.

## STARTS FIRE WITH \$2,000 B. B.

McKEESPORT, Pa., Sept. 22.—Mrs. Alexander Sandor, of this place, started a fire with \$2,000 in bills, Mrs. Sandor mistook the roll of money for waste paper. None of the money could be saved when she learned of her error.

## WILLS HER DOG \$500

WORCESTER, Mass., Sept. 22.—The recognition of "Marmite," the pet poodle of Mrs. Mary Lawler of Westbury, will be \$500.

## PLANTS SHUT DOWN AS WORKERS WALK OUT QUIETLY—HARD BLOW TO INDUSTRY

More Than 250,000 Union Men Out at Opening of the Strike and the Number is Swelled Rapidly During Day—Mine Workers May Act—Union Officials Seek to Stop Steel Operators on Stand.

### WALK FOR THE MAN WHO WORKS TO HELP WITH KING'S IN HIS HYPER-TENSION TO CROWN HEAD

MILWAUKEE, Sept. 22.—I stand for the man who works to help with King's hyper-tension to crown head. Mayor Daniel Hoan, socialist, today in replying to the request of A. V. Vancor, of the Chamber of Commerce, who urged that King Albert and Queen Elizabeth of Belgium be formally invited to visit Milwaukee during their coming tour of the United States.

### Germany Anxious For Memal District

LONDON, Sept. 22.—Germany has sent a note to the peace conference asking for a decision as to the future of the Memal district, formerly a part of the German province of East Prussia, which was detached by the peace treaty, according to a news agency dispatch from Berlin today.

### WALKING "SUB-REASSEMBLY" NATION FOR SIXTY DAYS

COLUMBUS, O., Sept. 22.—"What is this, a sub-reassembly?" This question Sheriff Sinek when W. D. Hopkins, proprietor of a converted saloon, presented himself to serve 60 days for violating the liquor laws. It is his "roll" Hopkins carried 10,750 in Liberty Bonds and \$1275 in cash.

### ON COMMISSION

WASHINGTON, Sept. 22.—The president sent to the senate this afternoon the nomination of Hiram Johnson of Colorado to be a member of the federal trade commission.

## HOKE SMITH TO TELL VIEWS ON PEACE TREATY

Southern Democrat Reservationist Will Present Objections This Week.

WASHINGTON, Sept. 22.—Observations to the German treaty which will require the approval of Great Britain, France, Italy and Japan, will be offered in this week by Senator Hoke Smith, Democrat of Georgia, one of the oldest and most influential members of the senate. Senator Smith was not prepared to make the reservations he has drawn up public at this time, he said, nor did he discuss his opinion to ratification of the treaty without reservations. He will express his views on the form which he believes the bill will take as accepted by the senate when he submits his reservations.

## Red Cross Nurses Reported Marooned

ST. LOUIS, Sept. 22.—Red Cross nurses are marooned in a pentagon three miles east of Corpus Christi, Tex., according to a telegram received today by Alfred Patterson, manager of the Southwestern Division of the American Red Cross.

## SPRINGFIELD STAYS YOUNG

SPRINGFIELD, Pa., Sept. 22.—John Edgerton, 80, of this town, is celebrating his 80th birthday.

### WALK FOR THE MAN WHO WORKS TO HELP WITH KING'S IN HIS HYPER-TENSION TO CROWN HEAD

MILWAUKEE, Sept. 22.—I stand for the man who works to help with King's hyper-tension to crown head. Mayor Daniel Hoan, socialist, today in replying to the request of A. V. Vancor, of the Chamber of Commerce, who urged that King Albert and Queen Elizabeth of Belgium be formally invited to visit Milwaukee during their coming tour of the United States.

# THE DAILY TIMES PAGE OF SPORTS

## World's Series Will Open in Cincinnati October 1st

### WHITE SOX ARE SHY ONE GAME

Closely Pressed by Flying Indians Chicago Has Yet to Lay Hands on the One Victory Needed to Cinch the Pennant.

NEW YORK, Sept. 22.—The White Sox are still one game removed from the American league pennant today. Unable to catch the championship during their eastern trip, the Sox have returned to their own ballpark grounds to play five more games. They will meet the Brooklyn Dodgers game series starting Wednesday and end up the season in three games against Detroit.

The fast-going Cleveland Indians have four games remaining in the Monday they are scheduled to head Detroit for two games after which they will meet St. Louis at their end in a two game series.

### BURLEY TAKES OPENING GAME FROM RUPERT

Title Series Begins Yesterday With Davis Besting Stroud By Score of 2 to 1

(Special to The Times)—BURLEY, Sept. 22.—Burley won a hard fought double from Rupert in the first game of the new season yesterday. The Sox won 2 to 1. Burley pitched all the ball, put out 120 batters. Dick Davis bested pitcher Ralph Stroud of the east league in a fascinating exhibition, allowing five hits, six runs and four errors in a 2 to 1 victory.

Burley scored in the initial frame on launched hits and put three more markers in the fourth. Heby took the bases enabling them to turn that into an advantage and to close off the game. White the entire team played excellent ball, the fielding of Burley was particularly brilliant. Burley's star was Hal Stroud, who was richly contributed five outlays out of four trips to the plate. Burley's tally came in the eighth.

Both teams are now playing up for the second game of the series which will be played at Burley Wednesday. Stroud will be the Burley pitching selection for this game. He was ill in the last two games, being hit by Rupert and that led to some struggle to show his best form.

In the event that a third game is necessary, the clubs are considering an offer from Manager Hart of Twin Falls for the use of the Twin Falls grounds. This will be played either Friday or Sunday and would draw an immense crowd from the three cities if played here.

### AMERICAN LEAGUE

Team	Standing	Won	Last	Loss
Chicago	1	87	16	64

**SLIM SALLEE IS MORAN'S ACE**  
Former New York Pitcher is Having One of His Years of His Career

SLIM SALLEE is having one of the best years of his career in baseball. Which is one of the main reasons why Pat Moran's Cincinnati Reds are...

"Slim" Sallee.

breaking to shatter the pennant dream of the Giants.

Sallee is about thirty-four years of age now. He dropped to retire from baseball last spring in order to play New York again. The only reason he stayed in the game when sold by the Giants to Cincinnati.

Slime is the only major league pitcher of his age who has pitched in New York. He played for the Giants and the Yankees. He pitched for the Yankees in 1912.

### REDS HAVE THE FIRST TWO ON HOME GROUNDS

Lucky Pat Moran Wins Five of Nine—Next Three Games Will Be Played in Chicago

CINCINNATI, Sept. 22.—Pat Moran pitched a rock drive to his first victory for the Cincinnati Reds today. Cincinnati will open the fight for the world baseball championship at home. Two of the series decided the game were tight.

The opening two games will be played at home. The team then will come to Chicago for three games. The next two will be played in Cincinnati at present, the eighth in Chicago and the ninth will be played at home.

The opening game will be played at home on Wednesday. The second game will be played at home on Thursday. The third game will be played at home on Friday.

Pat Moran pitched the first game of the series. He pitched a complete game, allowing five hits, six runs and four errors in a 2 to 1 victory.

### VERY FEW YOUNGSTERS TO BE FOUND ON MANAGER ROBINSON'S TEAM OF DODGERS

Manager Robinson and Some of His Veteran Players.

The passing of Larry Cheney brings to mind the fact that there are few youngsters on the Brooklyn team, writes a critic of Brooklyn baseball affairs. The regular outfielders are all veterans and in the infield Ed Roney and Ivey Olson are old-timers. Lew Malach, Chuck Ward, Tom Fitzsimmons, Pete Kilham and the Schmitts are comparatively young in the game, but have had their share of experience and hard knocks. Every pitcher has been through the mill, likewise every catcher. Not one of the youngsters who have been tough last spring to prove his fitness for big league playing. Major overcast, in the club roster, Frank Brant, Joe Nucky and Eugene Sheridan never got a chance to play in the big show. Manager Robinson must begin to do some thinking about youngsters to take the places of the veterans. They will not last forever. Some, indeed, are near the ragged edge right now of stepping out.

Every thing that exceeds is unique  
**IMPERIALES**  
MOUTHPIECE  
CIGARETTES  
excel in those qualities the smoker most desires—fragrantly blended tobacco, equal and selected—a mouthpiece that cools the smoke—a main paper wrapper absolutely pure—in a word they are distinct.

Manufacturers

### TAGGING ALL THE BASES

A home run by Pratt proved the winner today for the Yankees and enabled them to oust the Tigers from third place.

In a game that commenced but 65 minutes in the playing, Brooklyn beat St. Louis.

Alexander shut out the Braves with six hits.

The Cleveland Indians refuse to be contented out, they went into the ninth inning trailing the Senators and staged a rally that netted five runs.

### EX-GIANT IN DEAD

ALGARY, N. Y., Sept. 22.—James H. "Cy" Young, once famous as a ball player, will be buried here today. Young died at his home in New York Saturday after an illness of many months. He was a member of the Giants in 1905 and in 1906. While with Cincinnati he led the National league in hitting.

### It Took Twenty Years to Build This Tire

It is a development—a development of nearly twenty years of study and test by the greatest tire user in the world.

Barney Oldfield had to have tires he could trust—tires that would stand the terrific strain and grind of the race track and transportation at all.

So he developed Oldfield Tires, improved them year by year till they showed themselves fully worthy of the trust he placed in them.

We join him in recommending them to you as the "Most Trustworthy Tires Ever Made." Let us prove it to you.

### ATHLETE NEVER STOLE BASE

Hub Perdue Tells Story of Life's Tragedy—An Ambition of Fifteen Years Standing

Hub Perdue, the famous Gallatin cuss, his eyes long dimmed and his voice hoarse, recently confided to a reporter the story of a life's tragedy, of an ambition that never stood under yet and apparently never to be fulfilled.

"I've been chasing baseball for 15 years and I've never stolen a base,"

Hub Perdue, a portly looking man of the 50s, said.

"Surely, Hub," cried a bystander, "in all these years you have at times been on first and in some cases on second two out, or have gotten to first with the enemy ahead by a duck of some kind, or you have been on first and hit for a home run."

"Never, never," answered the old-timer. "I've determined to steal a base, though, if I have to steal in baseball ten years or more or break a leg with a leg kick. The only way I could ever find for me to steal was by taking a lightning rod and go out at night, but the power wouldn't count that kind."

Keep your eyes on the prize as being offered by Twin Falls and estate.

### Eden News

The Twin Falls North Side First Segregation fair closed at a late hour Wednesday evening after a three days' successful fair. Tuesday was the biggest day. Much of the money was spent in making entries and getting acquainted while Wednesday was somewhat rainy. The big fair Tuesday evening presented that evening from being the most successful of the evening entertainment. A special train ran from Jerome Tuesday which brought about ten of Jerome's friendly citizens together with their auxiliary band. A very showy hand wagon was constructed for the band and drawn by six black horses. They covered the band in the fair grounds. The Hazelton band furnished music for the entire three days. The carnival merry-go-round furnished amusement and rides for the little ones and night. The exhibits in all departments were most satisfactory and most excellent showing. The aids devoted to farm products included every kind of fruit, vegetable and grain grown on the farm and very good. The artistic arrangements made a beautiful exhibit.

The new work, flower bed, tiling, quilting, rug, crocheted and art quilts were wonderful to behold.

The health department was also greatly interesting. A number of public, pillows, washcloths, photographs and chairs having been made.

### MILLIONS Suffer from Acid Stomach

Millions of people suffer every year from indigestion, acidity, flatulence, heartburn, gas, and other ailments of the stomach. These ailments are caused by the acid secretions of the stomach which are not properly neutralized. The result is a condition known as acid stomach, which is characterized by a burning pain in the upper part of the abdomen, especially after meals. This condition is often accompanied by a feeling of fullness, bloating, and a tendency to belch. It is a common ailment and one that can be easily treated with the proper medicine.

Above in SC-131, winner of the race of sub-chasers from Bermuda to New York, and below Capt. Charles Courtney of the destroyer 154, which met the York, taken congratulating Capt. Alfred F. Loops on his victory. The contestants were all returning from duty in European waters.

### UNCLE SAM SAVES SAVAGES

The savage lives within his Indians. Do you? But he lives only for today. Do you live only for today? The savage doesn't look ahead and he doesn't get ahead. Are you in the same class or are you looking ahead and getting ahead? The savage is better off today than he was yesterday. Are you? The savage will be no better off next year than he was last year. Will you? War Savings and Thrift Stamps will put you in the lock ahead and the rest ahead class. Start Buy, U. S. S. regularly. War Savings Stamps and Thrift Stamps will make the difference between you and the rest of the world tomorrow than you were today—before last year than you were last year. Start Buy, U. S. S. regularly. War Savings Stamps are food when you eat; a pleasure trip when you travel; a safe investment on a home; the bestowing of a college education; a start in life; a start in business.

### DATE FROM SOLOMON'S TIME

Theory of Archeologists Concerning Ruins in Thebes—Babylon Said to Be Working Havoc. Despite the contention who nowadays think the remarkable ruins of Thebes, where many perhaps once have been the miles of King Solomon, the latest revelation in that part of Africa reports that the Indians are dealing with the ancient masonry after a very different fashion. The ruins after entering the process of the atmosphere and the absence of moisture have preserved the walls of buildings whose original use will probably never be known. It may be reasonably argued, however, that some of them were built by the Phoenicians, who were the first to enter the valley of the Nile. It is likely enough that the new mysteries of the ruins of Thebes are the possession of the Phoenicians. In the old the walls were estimated, the civilization used their way and the ruins were forgotten until Portuguese traders found it in the sixteenth century. An effort to work the ruins was made in 1822, but the ruins were again forgotten till found by Livingstone. Now it is chiefly interesting to archeologists, who are responsible for the wall. But the Indians apparently are too lively for the local police.

### FACING THE FACTS

The national debt of the United States at the end of the fiscal year 1919-1920 was \$1,940,000,000, or \$104.40 per capita. This is a record for the United States on the basis of 18,000,000 population. The national debt of the United States on June 30, 1918, was \$2,521,151,270. This simply means that every person in the United States faces a national debt of \$140.22, or \$231.16. It is important that this amount so rapidly changed by this amount increased debt are to be borne in any also normal. They can come in any one way—the absorption of this debt by the savings of the people.

### FAMOUS LAKE OF MENTEITH

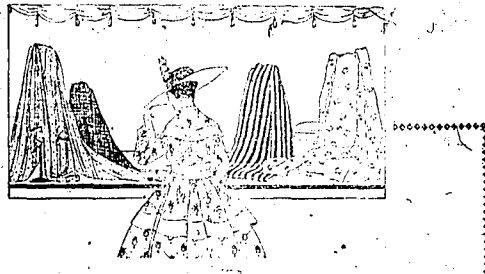

Historic Spot in Scotland Which is Inseparably Connected With Unfortunate Queen Mary. The Lake of Menteith is one of Scotland's most beautiful bits of scenery. Bordered by forest-clad mountains and shadowy slopes, with pine-covered hills rising beyond and trees bending over its curving shores, it is a picture to compare with any of the finest scenery in Scotland. Out in the blue water shaded islands stand. About one of these is the home—the interest of the lake. A boat hired in the village part of the lake, the lake reaches the lake quickly. Here one forgets the beauty of the surroundings as the guide tells the story of the visit of Mary, Queen of Scots, to the lake.

### CONSERVATIONS

Hay is a part of the diet of almost the entire population of Switzerland. Street railways in England have been experimenting with a compound milk, the worst part of which can be removed without interfering with the health of the animal. A Montana man has invented a chicken coop equipped with apparatus that drops a spot of coloring material on the floor to show when the bird has laid an egg. Following extensive study of the subject, a Scotch scientist has decided that 25 feet high, 70 feet in diameter and 25 feet thick, containing three miles was moved a distance of three miles recently at Portland Ore. First it was raised 15 feet and loaded on rollers. Then it was moved four blocks through the city streets and lowered 20 feet to a dock, where it was moved upon a pair of rollers. The logs were towed three miles to a shipbuilding plant, where the tank was installed and raised 22 feet more across newly laid ground for a distance of 2,000 feet, crossing a railroad track and placed on its new foundation. It took 71 days to complete the work.

### LEPER COLONY LENDS FREELY

Honolulu—The "Penitentiary Island Leper Colony" has been bought by the War Savings Stamps to the amount of \$2 per capita. There were thirty-two purchasers among the lepers. This amount is the same as much as the per capita quota for the United States, which is \$20. The purchase was made by the War Savings and Thrift Stamps for \$24,000. The amount is \$2,000,000—being a quota by \$20,000,000.

### POORLY PAID, MAIL CARRIERS

Dogs That Bring News From Home to the Lonely Men in Alaska, Get Little for Work. There is a good deal of talk over the money pay received by mail carriers, but the most poorly paid of Uncle Sam's mail carriers receive far less than the families postman, yet after his complaints. They get a pound and a half of dog food for a full day's work.

### SENATOR KENDRICK

Senator Kendrick of Wyoming introduced a bill in congress the other day providing for government control of the packing industry. Neighbors Are, Too. "I am anxious when I sleep." "An anxious when I sleep." "So are we!" the neighbors cry. My Run for Vice President. "I understand he is to be lost to the west." "Eh—yes; he married a prominent success leader and is always mentioned as her husband." Question of Personal Privilege. "Do you think profane language should be permitted on the stage?" "Certainly," answered the craft old stage manager; "but only during recessals."

### Hollister News

Boy Williams went to Twin Falls today and had his tonsils removed. H. J. Phillips was very successful in keeping a bear. He has been around in the water barrel. The S. L. Leeco farm was sold this week. The Leeco family does not expect to move very soon though. U. W. James has returned from town. He likes Idaho best in any. W. H. Craven is visiting with his father in Texas. Hollister is without lights Tuesday evening owing to the electric storm. The rats that fell was very welcome. Lights or no lights. Hollister is still having peach days. Another truck load arrived here on Friday and one Saturday, selling at \$1.50 a bushel. The Samuel Perrin family moved to Kimberly Thursday. The Hollister hardware store is wearing a new coat of paint.

- 2—Mutual light, heat and power in city and county.
- 3—Efficiency in public schools.
- 4—Encourage manufacturing.
- 5—Railroad to connect with Southern Pacific to the south.
- 6—Concrete water supply by pumping waste water back into irrigation canals whenever possible during shortage.
- 7—Swimming pool in summer and skating rink in winter.
- 8—Improved street lighting system.
- 9—Good roads throughout all tributary territory to city.
- 10—Electricity railroads to Idaho.

### THE MIDDLEMAN SPEAKS

A representative of a big food buyers' association and relates to lay the blame for the cost of living about equally on two classes—the producers and the consumers. The former, he argues, ought to be producing more, and the latter ought to be consuming less, or at least, ought to be spending less for what they consume, by buying the lower-priced commodities.

"There is much truth in what he says. But to have such a man, precluded by middlemen is a little more than the harassed consumer can bear.

It may seem good tactics for middlemen to carry the way into the enemy's camp. They have long been the objects of a wider-spread condemnation, some of which may have been undeserved. They naturally feel like defending themselves. But if they have any real sympathy for their hard-pressed fellow-countrymen, let them furnish a little light on their own operations. Criticism of the producer and consumer may come more convincingly from their sources.

The public is already pretty much aroused along the lines suggested. It is unanimously agreed that more goods ought to be produced, and that people should spend more carefully. But there is, between production and consumption, a great weighty realm of business activity which has never yet been roughly explored.

Let us have light on this middle ground. Let the producers and jobbers' and commission men tell what they are making on food, clothing, shoes, etc., and what they do to deserve the profit. After that, they may be entitled to lecture the public on industry and extravagance.

### HISTORY DOES REPEAT ITSELF

It is a generally accepted truth that history repeats itself, but nobody seems to be frankly honest enough to acknowledge just what the near-acton means.

Revolutions have inevitably followed where material possessions have been concentrated in a few hands. The concentration simply left very little or nothing for the great unwashed majority. So quiet and restless settled upon the unwashed, the poor, the dependent. Strifes were inaugurated in ancient Rome, as they are in modern America.

Their revolution, and chain, and the dark ages.

The one big obstacle to revolution in ancient times was the army, the military force, and that is the obstacle today. Roy, then, shall the organizations of policemen and their affiliation with the American Federation of Labor, be viewed? As a simple desire on the part of the men of the force to better their condition, or has it a deeper significance? May it not be regarded as the opening wedge, which shall divide the protective forces which serve to maintain the peace and the system by which great fortunes have been piled up, leaving correspondingly less for the men and women who dug the wealth out of the earth?

And is it a very far step, from organized police forces affiliated with the American Federation of Labor to army units similarly affiliated? And if revolutionary forces are the result of successful treason and mutiny, are the troops of planes not being solidly built for a new crop of horses to adorn the pages of history?

### COST OF FOOD PRODUCTION

"The cost of food," an expert points out, "affects all industries—labor, material—and then the finished product, in any operation in which labor is involved. Food, the product of farms, is the basis of all wealth; for meat must eat first in order to work."

He therefore points out that, in any effort to get at the fundamental reasons for high prices, it is necessary to get at the cost of producing food.

Few farmers, and in fact few economic students, having any definite notion of what food costs the producer. Few farmers keep books; and those who do may be using faulty systems. This expert, therefore, suggests that the matter be given scientific study.

"Let a detailed study be made of all accounts that enter into cost on the farm," he says, "with the same process of reasoning applied as in any other industry."

A successful manufacturer knows what it costs him to produce his goods, and what part of the cost is due to labor, what to raw materials, what to taxes, interest, etc. Bookkeeping systems have been worked out which can be adapted readily to almost any business except farming. Something has been done along that line, too, but nothing very satisfactory.

Surely it is possible to work out a plain, simple scheme, based on accurate study and analysis, which any intelligent farmer could follow for his own use, and which could be applied either by the farmer himself for his own benefit or by public authorities or statisticians interested in fighting out his expenses and profits. There would be a solid, scientific foundation, then, for finding the weak spots and making farms pay, and for seeing that both the producer and the consumer of food get a square deal.

In the bright lexicon of Webster, Standard, Century, et al., there is no such word as "profitless." But just give the lexicographers time.

### Editorial Squibs

If you go to 50 cents and 100 cents, you will be getting their salespeople to give you.

But it's just as well to count on going to London the shorter way this winter than at first.

Next to a man suspected of murder nobody has to do more explaining than an oil field in a earthquake.

Even the fact that legs in some places are getting fat on horses doesn't help the rally down.

The former crown prince of Germany comes out to print and denies that he is an idiot, "as has been popularly supposed," which strikes us as an idiotic thing to do.

Oh, Man!

A man will eat his own shames that flourish north the sun. Surely obedient to the fact that that he himself is one.

In Days to Come.

"Are you sure you are not a few years ago?" inquired the third passenger.

"It is safer," echoed the manager.

"Why, we sell combination tickets," said the third passenger.

Right Practice.

"It is a shame the way that beauty doctor is selling those pretty girls gold bricks."

"He is doing a perfectly legitimate business; isn't he gratifying pleasure?"

Approaches.

She—I tell you, the time is coming when you will no more detrate to women.

"Good heavens! Are the stenographers about to strike?"

WENT HOME HUNGRY.

"They're certainly patriotic," "What makes you think so?" "I had dinner at their house the other night."

Oh, Man!

A man will eat his own shames that flourish north the sun. Surely obedient to the fact that that he himself is one.

In Days to Come.

"Are you sure you are not a few years ago?" inquired the third passenger.

"It is safer," echoed the manager.

"Why, we sell combination tickets," said the third passenger.

Right Practice.

"It is a shame the way that beauty doctor is selling those pretty girls gold bricks."

"He is doing a perfectly legitimate business; isn't he gratifying pleasure?"

Approaches.

She—I tell you, the time is coming when you will no more detrate to women.

"Good heavens! Are the stenographers about to strike?"

## MAIL SERVICE BY AIR IS SUCCESS

### Postoffice Department Says It Has Speeded Delivery All Over the Country.

## EXTENSION BEING PLANNED

### New Routes Will Link Up St. Louis and Omaha to Speed Up Delivery.

Washington, D. C.—Records for transportation of mail on the coast-to-coast routes from New York city were being established daily by the airplane and service which now is well along toward its third month of existence. The service, according to Otto Branson, second assistant postmaster general, who is in charge, has speeded mail delivery all over the country.

Letters mailed in New York city or arriving there from New Orleans last year right at the end of the month by airplane so far as possible, insuring their delivery in Washington by noon. Those for distribution were sent on the first mail delivery in the afternoon and those intended for other parts of the country were sent on the first mail delivery in the morning.

The same is true of the New York-Chicago airplane route. The time from New York to Chicago is now down to between one and one hour. There is a corresponding increase in the volume of mail and western office lettered for New York.

There are two airplane mail routes in the country, one between Washington and New York city and the other between New York city and Chicago by way of Cleveland.

Air Service to Be Extended.

Flights are made in both directions over these routes every day, with such success that the postoffice department is about to institute other routes which will link up Omaha, Neb., and St. Louis, Mo. These latter routes are to be used almost immediately to carry the volume of mail and to assist in quick deliveries to and from the West.

Airplane mail service started on May 15, 1918, largely as an experiment, with a route between New York and Washington. It now trips a day between Chicago and New York.

The first flight from Washington was a quarter of eight o'clock, with Capt. Wilson and other officials. Several postmen and mail letters left before the service started. Since that time the service has continued without interruption.

Postage for airplane mail at the time was fixed at three cents on each piece. The postoffice department figuring that speedy delivery made that price fair, in addition to being carried by airplane the letter was to be specially delivered which ordinarily costs two cents in addition to letter postage.

Mailmen will receive continuing pay for a time until the new rates were set. Many persons at first thought the airplane mail for the novelty, and the letters carried were insignificant, apparently. At any rate, after a few months, the rate of airplane stamps declined, as did the mail.

Reduction in Rate.

Then the postoffice department decided to bid the postmen when possible their military dress clothes. This was continued until July 18, when the rate for airplane postage was reduced from three cents to two cents. It is probable now that this rate will be maintained, for while the service does not pay for itself the added facilities in deliveries are regarded by the postoffice department as worth the price.

When the service was started the postoffice department considered that the war department, which supplied the airplanes and the airmen. This arrangement had been suggested by the chief staff officer of the army, who saw in the project an additional means of training aviators for the war.

Army participation continued until last November, when it was agreed for the sake of efficiency that the entire project should be taken over by the postoffice department.

For this reason the service now is entirely in the hands of the postoffice department and the airmen are of civilian status. However, the pilots have engaged in the war have come largely from the army, being officers discharged from the service at the end of the war.

The airplane used in the military service is the Curtiss machine, but the postoffice department is preparing and, if Congress provides the funds, will soon use exclusively built aircraft.

These new airplanes are designed primarily for carrying mail, although occasionally used for the transport of a crew. In this regard they will be different from the army type machine, in which ability to maneuver is an important element of success. Mail airplanes will be designed to carry a heavy load with safety.

Musketeer Destroy Mill Dam.

Watertown, N. Y.—Musketeer's destruction of a dam erected in 1912, by the State of New York, and the Chapman mill built at Adams to close the dam had withstood the ravages of time, but succumbed to the attacks of the rats.

Such Is Fame.

"Did you not see the hours where the great poet lived?"

"No, but I have."

"And the landlord, old-bee has no reminiscences of the great poet?"

"None whatever. The fact that the great poet moved away owing his rent."

### WONDERFUL SCIENCE

The snake is the longest-waisted animal in natural history.

# FINNEY BUYS THE BRADLEY HARNESS SHOP

### Oldest Business Man of City Retires—New Corporation Will Be Formed

A deal has just been closed whereby C. G. Finney has purchased the business and good will of A. Bradley of this city. The inventory was finished Saturday evening and the business turned over this morning.

The retirement of Mr. Bradley was caused by continued ill health compelling him to seek a better health. Bradley enjoys the distinction of having been in business longer than any other business man in Twin Falls. This fall marks his sixtieth year, fifteen of which were spent in his present location.

Mr. Finney contemplates forming a corporation under the firm name of The Finney Harness Company. Mr. C. W. Wright, John Weiskamp and others will join the other stockholders associated. Mr. Finney, who is at present manager of The Times, will assume the management of the new concern also.

Mr. Weiskamp, who is well known as an expert harness maker. He will have charge of the harness department and will continue to make the high class harness which built up Mr. Bradley's business.

Mr. Holt is an expert automobile trimmer and tent and awning man. His years of experience and his wide acquaintance in this trade will justify the intention of specializing in these two departments.

A three year lease of the present location has been taken and additional stock will be added and needed improvements be made immediately.

# Local News

**S. G. Hall, piano tuner, phone 51, Rogerson Hotel.**

**Eastern Star**—Regular meeting of the O. E. S. will be held tomorrow evening at 8 o'clock in Masonic hall.

**Leave for School**—Miss Betty Hartford and Miss Lucille Kelly left afternoon for Los Angeles to enter college for the coming term.

**M. S. and S. Club**—The M. S. and S. club will hold a meeting Wednesday, September 24, at the home of Mrs. G. E. Burke, 443 Second avenue.

# LABOR STILL SHOOTING AT LIVING COST

### Women Delegates Attend Session Invite School Teachers to Join Labor Federation and Secure Wage Relief

Ways and means for organized labor to defeat the high cost of living conditions and secure an advance in the Central Labor Union's regular meeting yesterday afternoon.

The economic question was discussed by several of the more prominent delegates which resulted in a committee being appointed to devise ways and means of combating the high prices of the necessities of life, and it is expected that a report on their findings will be forthcoming at the next meeting.

Delegates declared that although there was considerable newspaper talk of the prosecution of professors in the east, the headlined reduction in the price of food and clothing as far as it affected this community was small and probably never would be felt therefore it was up to organized labor to find ways to bring relief to the burden was becoming intolerable. The working man of today was hardly able to keep his head above water and if conditions got any worse he is bound to go under, therefore relief must come from some source.

Lady delegates for the delegates to the Central Labor Union during the coming fall and winter were discussed and it is thought this matter will be taken up and into full and complete fall meeting of the delegates in the near future.

The building committee reported they had called for a meeting of all local unions to be held in the Labor hall Sunday evening, October 5, at 7 o'clock, at which time would be held on the labor temple building.

Lady delegates were present for the first time since the central body was formed and consisting of Mrs. M. J. Moore's address on Labor Day which she brought out the fact that the school teachers who are the backbone of this community are American citizens were receiving less salary than the men who work for the living in which they are engaged. This brought out the fact that school teachers in Denver, Seattle and other cities get relief from the high cost of living by the American Federation of Labor and the same chance is held out to the teachers of Idaho.

Another important fact brought out was that in some cities in Idaho there were few school text books, while at Twin Falls the patrons were unwilling to purchase new text books. This matter no doubt will be investigated by some energetic delegate and brought before the next meeting for further discussion.

# Rogerson Items

Mr. and Mrs. J. W. Rogerson returned home on Tuesday after spending a week at Glacier with relatives, making the trip overland.

A heavy rain did electric storm took place here on Tuesday and a large log on Monday by D. V. Vanderhook was killed by lightning on his ranch west of Rogerson.

Mr. Louis Harrell and her two boys, Norman and Andrew, returned Wednesday afternoon and on Tuesday in Twin Falls.

Four more members of the Frank Taylor family have been afflicted with the disease having afflicted all six members of the family in turn. They have all just recently recovered and are now well and comfortable, broke out in the family, sparing none. They have been fortunate enough to secure the services of a nurse from Twin Falls who has been with them all through the illness.

Mr. and Mrs. John Langford left on Thursday for Boise to visit for a few days at the Mrs. Alice Steinhilber home, before departing for their old home in Illinois.

Mr. and Mrs. Howard Idaho returned from their recent visit at dinner on Wednesday evening.

Bert Averill of Boise is spending a short time here looking after business affairs.

Ed Tegstra returned home on Friday after visiting for a short time at the home of his brother, John Terry, of Grandview. Mr. Tegstra recently purchased the ranch owned by Mrs. Norma Johnson of Twin Falls.

Miss Langford left on Thursday for a few days visit in Twin Falls.

Mr. and Mrs. James Russell and baby Ruth made a brief visit to Rogerson Thursday evening.

John Powell was a dinner guest at Mr. and Mrs. H. M. Huges on Thursday evening.

The Hens, Johnson family and the Caves also were all with tonight.

Mrs. Oscar Palmat returned home on Friday after spending a few days in Twin Falls having dental work done.

Harold Kelso of Amsterdam was a local business visitor on Friday.

Howard Gibbs spent Thursday and Friday at Jarbridge.

Little baby Goodenough has been on the sick list for the past week, and now improving.

Mr. Howard Gibbs returned the business visitor on Saturday afternoon. The next morning he is to be held at the home of Mrs. Oscar Palmat.

Mrs. Walter Parsons of 4700 N. Nevada, who has been visiting with her sister, Mrs. George Hudson, left on Friday for Twin Falls.

Mr. and Mrs. J. W. Rogerson are on the sick list for the past few days.

The clean shaven recently killed by the Utah Construction Co. is still in the last just west of Rogerson on the road.

# COURT DECIDES 'SEEPAGE RIGHT STAYS WITH CO.'

### Decision Affecting Important Issue Handed Down by Federal Judge

Much interest centered locally on the decision handed down by Judge Curtis in federal court at Boise, Friday in which the temporary injunction of the Twin Falls Cattle Company against Bannock National Bank was made permanent, restraining the defendant from use of seepage water from the canal system.

The court decided that rights in seepage and percolating waters are owned by the original owner so long as it can be used, this doctrine is a matter that has long been at issue. The suit of the Cattle Company was an injunction that it had the right to the seepage water on which Bannock National Bank was using the court available to the claim to the water.

Judge J. H. Redford represented the bank, and the Cattle Company was represented by Attorney Hamilton and Haskin.

## The Checking Account

Every man's time is reckoned in dollars and cents. The stress is becoming more and more on the value of time.

The Twin Falls National Bank, a member of the Federal Reserve System, has a safe and sound method of checking your account. It is the only bank in the community.

# EDWARDS MAY BE CHIEF OF COMMISSION

Former Princeton Football Man Mentioned to Succeed Gentry Hermans

NEW YORK, Sept. 22—William T. "Big Bill" Edwards, international revenue collector for the New York district and once Princeton football star, may be offered the chiefmanship of the National Baseball Commission to succeed Gentry Hermans, according to a reliable circulation here today.

Colonel Harold Hopper of the Yankees, has just returned from Chicago. He would either carry on or deny that Edwards had been suggested by the joint major league committee. He said, however, the committee has an "excellent man in mind."

# TODAY'S MARKETS

# MUSIC AND CHATTER OF TALKING MACHINE AT SHIRT A MYSTERY

**BOSTON, Sept. 22**—Wanted—An inventor, to create a machine, talking-machine from talking to itself during the night time.

The refractory conversation box in the property of Captain Michael Boyle of Engine Company No. 36, who lives in River street in Dorchester, was the subject of the weird performances of the magic talking machine, were much discussed in this neighborhood.

During the night the doctory fire captain heard the machine playing a waltz melody "like sweet bells jangled out of tune, and tinkling erratically to itself, as if it were intoxicated. He arose and shut it off. No record was in evidence. He had no money and had to be taken to the strange tune began again. Captain Boyle arose again and once more after an "Avant you" succeeded in reducing the machine to silence.

The thing happened a third time with no human agency in evidence and the captain gave it up. The uncanny music continued until almost morning.

Captain Boyle is inclined to think the phenomenon was due to some action of the electrical storm on the delicate apparatus of the microphone.

Hot Cholera—Two cases of hot cholera at American Falls have just been reported to Dr. W. A. Sullivan who has examined the case in connection to Dr. Henderson who has charge of the Idaho Falls station. This case was reported at American Falls within the last week. However, there is no danger of a general outbreak as every precaution is being taken to keep the water under control. At the present time there is no case on the Twin Falls tract.

# Drop Move to Open Fair to Service Men

**Fair Board Refuses to Take Farmers' Money—Will Make All Days Free to Men**

Explanation

To the people of Twin Falls county: This is to notify those of you who subscribed to the fund for giving the money to be used in a handsome talking-machine from talking to itself during the night time.

## From Sweet Highland Pastures 5000 feet above the Sea Comes this Milk of Uniform Purity

**SEGO MILK**

**RICH** mountain-pasture grass—admittedly the finest anywhere—where healthy cows combine with crystal pure drinking water—produces milk that is unexcelled in flavor and high nutritive value.

This milk—further purified by an evaporation which, at the same time, makes it twice as rich—becomes Sego Milk.

The complete safeguarding of Sego Milk begins at the mountain dairies, where the strictest sanitation in housing, feeding, grooming and milking the cows is practiced. Sterilized, slightly cooled, comes being the milk quickly to a factory which is always immaculate. And a skilled chemist tests every run of Sego Milk to see that it is up to Sego standard.

Sego Milk means every household is always sweet, always fresh, always rich and dependable milk for all your needs and occasions. Use it in place of cream—it's just as good, it's far less expensive. Use it in all your cooking—it's always the same and it always makes your best recipe taste better.

**Cream's Only Rival Made in Idaho**

# If a Person Asks for a Price on Coal Nowadays a Conversation Something Like This Takes Place

Customer: "How much is lump coal?" Dealer: "\$10.25 at yard, \$11.25 delivered." Customer: "Why, I can get it at the City Coal company for \$9.75 at the yard for \$10.25 delivered." Dealer: "Yes, that may be so, but it's a cheaper coal."

It's no lie and to prove it we give the wholesale price on all lump coal sold in this city.

Name of Coal	Price at Mine	Freight Rate
King	\$3.65	\$4.40
Kammerer	3.85	4.20
Hiawatha	3.65	4.40
Aberdeen	3.65	4.40
Castle Gate	3.65	4.40
Spring Canyon	3.65	4.40
Hi Heat	3.65	4.40
Cameron	3.65	4.40
Clear Creek	3.65	4.40
Black Hawk	3.65	4.40
Standard	3.65	4.40

Note that there is a war tax of ten cents a ton on the above.

We quote the price and freight rate on lump only as space will not permit us giving Egg and Nut. They both cost less and the freight rate is less, but all brands are the same price laid down here.

The next time a dealer tells you the City Coal company sells a cheaper coal just bear in mind that he is doing so to enable him to get away with the high price.

Because we refuse to join the combination we are the target for all sorts of criticisms.

Our creed is to live, and to live. We believe in free competition in business, and assert our right to sell our product at a price that will be fair to the consumer.

We again declare that we will not join any combination to maintain prices, no matter what obstacles should arise.

We specialize in King and Kammerer, Number Five, coal because we believe there is no better coal mind. We guarantee them to please and satisfy you in every respect, or we will refund the full price paid and stand the drayage expense of returning the coal to our yard after a three-day trial.

## City Coal Company's Fair Prices

	Yard Price Ton Lots	Price From Car
Lump	\$9.75	\$9.50
Egg	9.35	9.00
Nut	8.35	8.00

A further reduction of 50c per ton will be given on coal in 5 ton lots.

## CITY COAL COMPANY

## Paint Now--- Paint Right

How sun and rain and wind can raise havoc with poor paint or varnish on exposed surfaces.

So does constant wear on the surfaces of floors, railroads.

But the right paints and varnishes do without these ravages. If properly applied, paints that will protect the surface in fact under all conditions.

A master painter knows good paint and varnish and how to apply them. It is a business in itself, like everything else. May we estimate on your work?

## STEEL STRIKE BRINGS TIE-UP

(Continued from Page 1)

Both sides that the tie-up was entered in with comparative quiet and no display. Literally thousands of deputes, both deputy sheriffs and state constables, many of them mounted and all of them armed, are scattered about the plants, to insure the pedestrians on the main and preventing anything that might appear of consequence about the plants or adjacent streets.

They are under strict orders and have sole authority to arrest anything which starts. The situation as it affects the independent steel companies in the "Pittsburgh" district is generally the same as that of the United States Steel corporation and that which strikes and mainly affects a few of the independent plants have closed down, preventing any trouble. Due to the independent contractor like the corporation, have opened up shop and continue with their work.

Parades were held in a number of the "Pittsburgh" district, generally mostly by striking workmen. At Homestead the American workmen were out and paraded into the plant to work.

W. Z. Foster, secretary of the war era national committee, announced today that extraordinary meeting of the American Federation of Labor's national committee for organizing the steel workers will meet at 10 o'clock Wednesday morning. John Fitzpatrick, who is chairman of the committee, is now in charge.

PUEBLO, Colo., Sept. 22. J. E. Wolf, born, president of the Colorado Fuel and Iron Co., announced at a meeting this morning that the Minnesota steel plant here would be closed at once. Not enough of the company's fuel can be secured to operate the plant, he said.

CLEVELAND, Sept. 22. The Daily Iron Trade, leading trade paper of the steel industry, this afternoon pronounced the steel strike a "virtual failure."

NEW YORK, Sept. 22. Officials of the United States Steel corporation this morning made a complete report on the strike today. Judge E. H. Gary, chairman of the board of directors, declared that management had been "working long enough to improve" but had nothing to say, but cautioned to meet them again in the afternoon.

CLEVELAND, Sept. 22. The question of aid from the United Mine Workers of America to the striking steel workers will be before the hands of the international officers. The convention today voted to follow this policy. President Lewis announced today that probably the only mines to be affected would be those of the Johnstown, Pa., district which are operated on a non-union basis. The Atlantic and other steel companies.

CHICAGO, Sept. 22. Without the slightest air of disorder or per cent of the upwards of 100,000 steel workers in the Chicago district comprising Chicago, South Chicago, East Chicago, Indiana Harbor, Gary and numerous other smaller steel towns in the Calumet region went on strike today.

According to union leaders, the strike has "paralyzed" the steel industry of this section.

MHI owners, however, refused to admit the industry is paralyzed and expressed the hope that before nightfall many of the great steel plants would be operating "probably" not all but operating in a way that will save the mills.

Union leaders and strike committees declare that fully 25 per cent of the steel employed in the "Pittsburgh" district, the second largest section of the country, are out.

"This is not a fight for more money," declared one of the "Pittsburgh" strikers, "it is a fight for principle and we will win without any disturbance."

This statement is borne out by the fact that up until last night not a single case of violence had been reported either by the union men or the officials of the plants hit by the strike. Guards on duty are generally all of the strikers. Union pickets are "working in complete harmony" according to all reports.

At Chicago, headquarters of the allied iron and steel workers' union of this zone is issued the following statement shortly before noon:

"We are at work tonight. The strike of steel workers in the Chicago district will be one hundred per cent in effect. Every plant in the district will be closed down and will be ineffective from a point of operation. The only ones who returned to work this morning were men who had been back on the job for some time. Jobs of old men, old fellows over 65 years who the union had granted permission to work."

Both mills in the district are not affected by the strike as the men are working under agreement which cannot be broken under thirty days' notice. The mill which was not as pointed out, have no grievance and notified their employers Saturday of their intention of remaining at work through the strike.

YOUNGSTOWN, Sept. 22. Pickets were on duty at every steel plant in the Youngstown area this morning as the nation-wide steel strike went into effect. The picketing at each Youngstown plant was orderly and as the

## WILSON ON WAY BACK FROM HIS COAST SUCCESS

(Continued from Page One)

Wilson on the Norris amendment that would substitute the name of China for Japan wherever that nation is mentioned as a beneficiary in the handling provisions of the treaty.

While the president was continuing his trip abroad speaking on the "Jesus" balloons, he was also watching the developments in the threatening industrial situation.

It is no secret that the president believes that in the steel industry and other lines of work where trade both sides had advantage of him. He has been building up the "Jesus" balloons, and the fact that he has started for it is impending both sides had advantage of him.

He has been building up the "Jesus" balloons, and the fact that he has started for it is impending both sides had advantage of him. He has been building up the "Jesus" balloons, and the fact that he has started for it is impending both sides had advantage of him.

PITTSBURGH, Sept. 22. The first flurry of excitement in the steel strike here came this morning when 1200 independent iron first shift plants in the Pittsburgh district closed down. Practically all the mills are closed in the district and 12,000 men are idle.

Approximately 2000 are out at the independent plant of the National Tube company, 2000 out at the Bessemer, Whiting and Martin Ferry plants and 2000 out at the Youngstown plant. At the Carnegie plant of Bellair, O., and 200 at the Lake Erie iron works here.

The other six mills in this district are already closed having been struck for a week.

HEIN LAYS EGG 1 1/2 INCHES LONG SPRINGFIELD, Ill., Sept. 22. Mayor Helen Harter has laid an egg 1 1/2 inches long and 1/2 inch wide, eight inches in circumference and weighed one pound, less than half a pound. When the egg was broken it was found to contain an ordinary sized egg inside.

Did you rent it yet? We mean that spare part that those young people have been looking through our "egg" catalog for. Was your room mentioned there?

If you haven't seen it you no longer need it through a want ad.

## MOVIES ETHICAL VALUE DISPUTED AT WELLESLEY

(Continued from Page One)

WELLESLEY, Mass., Sept. 22. Wellesley will not have the movies. Their ethical value is disputed by the trustees of the town who will not make specific reply about the movies.

The boys of the town have to get rid of their superhuman energies that easily could be satisfied by watching the movies and are now proving that they are not so superhuman after all. Many of the ethical objections to the movies have now led to a movement to raise the netting patches.

GOAT CALLS OUT FIRE DEPT. PITTSBURGH, Pa., Sept. 22. Billy Goat gave the firemen a welcome this morning. Goat wandered off his own preserves and became lost in one of the fashionable sections where there were no fire hydrants or other aids available. He had just had to get a meal, so he began fussing on the installation of a wire that ran down an iron beam to the fire call box.

MERCHANTS IN HOT PRICE WAR CONSUMERS BENEFIT GITTYSBURG, Pa., Sept. 20. One of the merriest wars in price reduction was waged here between two merchants with lemons as the commodity. A store conducted by Leo H. Miller had been selling goods cheaper than the other stores in town. The climax arrived when the Miller store announced that they would sell lemons at 17 cents a dozen, while the

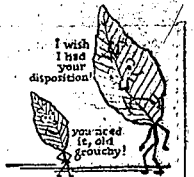

## THE YOUNG LEAF OF THE TEA PLANT IS RICH IN FLAVOR

The older leaves are weak in flavor but strong in tannin—that puckery taste. For Schilling Tea, they pick only the young leaves; for common tea they pick the full-grown leaves. Now you know why Schilling Tea costs less per cup than common tea. And, oh, what a difference in the taste!

There are four types of Schilling Tea—Japan, Ceylon, India, Oolong, English Breakfast. All are of the highest quality, but especially our Oolong. It grows everywhere.

Other stores were charging between 16 and 25 cents a dozen. Almost immediately all the other stores in town announced that they were selling lemons at 15 cents a dozen. The signs announcing the price of lemons were changed as fast as they could be made with a few cents reduction each time, until the price was brought to 5 cents a dozen. All of the stores did a booming business. Later cantaloupes and watermelons were brought into the sale and some watermelons sold for as low as 10 cents.

Farm and city towns, quick sellers. Arthur L. Swain. The average florist would usually return a lost article if he knew the owner was. That's why you should advertise that lost article in The Times "Lost" column immediately.
