ALL BRANCHES OF LABOR BACK TO NATION-WIDE RAILWAY STRIKE

Threatens to Paralyze Industry When Triple Alliance Throws Its Strength into Fight—Lloyd George Calls It Anarchist Conspiracy and Government Purposes Fight to Finish.

LONDON, Sept. 27.—The main demands of the British railway workers are: Eight hour day; war wage advances to be converted into permanent wages; equal representation of unions on railway management boards and an annual vacation of two weeks on pay.

The government proposal for a standard wage as a basis for further negotiations was rejected.

LONDON, Sept. 27.—England today has a general railway strike in which 500,000 workers, which began at midnight, threaten to paralyze industry throughout the nation.

Prime Minister Lloyd George terms it "an anarchist conspiracy" in stating the position of the government in this regard.

The whole "triple alliance"—coal miners, transport workers and railway men—may be involved immediately.

Already the strike movement is spreading to the coal mines.

England, but especially London, faces a food crisis.

The food situation at Billingsgate has taken the lead among the food workers.

Never in my long and varied experience do I recall a strike entered into so lightly, with less justification and with much disregard for the public interest.

The premier declared that the government begged the men to postpone their strike until after the election.

"This gives the impression that it is the deliberate and matured intention on the part of some individuals to cause a country-wide strike."

"The government has reason to believe that the strike has been engineered for some time by a small coterie of individuals who are working for the purpose of causing a general strike."

"The government intends to meet the blow with all the resources of the state. The government will see to it that the nation without disruption of class or race, the privations which this strike will inevitably entail will be kept to a minimum."

Mr. Lloyd George, minister of transport, said that the government would see to it that the nation would be kept to a minimum of disruption.

The government has suspended the operation of the army and soldier's leave of absence, but it was stated this morning that there is no present intention of operating trains with soldiers.

King George, who has been spending a vacation at Balmoral castle, in Scotland, has been hurriedly for London.

The railway strike went into effect on scheduled time at midnight.

The strike will be communicated to the chamber of deputies today.

MME. PATTI PASSES AWAY

LONDON, Sept. 27.—Miss Adeline Patti, world famous opera singer, died today of heart failure at Gray's Inn.

FREIGHT TRAINS TO MILLETS STREET FROM VIADEUCT

SPRINGFIELD, Ill., Sept. 27.—Six huge freight cars tumbled over the Chicago and Alton viaduct here at Capitol avenue and Third street, half block from the State House.

HORN ADMITS HE BLEW UP BRIDGE

As Officer of German Army and in Behalf of Fatherland He Caused Explosion

JERSEY CITY, N. J., Sept. 27.—Werner Horn today admitted in federal court here that he blew up the railroad bridge over the Passaic river in St. Clair river, in New Brunswick, Canada, February 2, 1918.

He said he was brought here by a batch of Germans being sent back to Germany. He was arraigned in federal court at Newark, N. J.

"I have no means of knowing whether the explosion was caused by a violation of the laws of Ohio, but I respectfully urge upon you to see that the citizens of this commonwealth and the state government of West Virginia."

TO INVESTIGATE SUGAR SHORTAGE

Resolution in Senate Comprehends Curbing of Gamblers in Commodity

WASHINGTON, Sept. 27.—An investigation of the sugar shortage in the United States is asked in a resolution introduced in the senate this afternoon by Senator New of Indiana.

The resolution directs the committee of the senate to make a report as to the reasons for sugar shortage, to fix responsibility for the shortage and to recommend any legislation to prevent speculation in sugar, and to determine whether the United States sugar administration board should be continued.

Shipbuilders Talk Sympathetic Strike

CLEVELAND, Sept. 27.—With the steel strike in full swing in the Cleveland district, local organizers were busy today in other districts in the west.

Lorain, Canton, Cambridge and other points of the western shore of Lake Erie with the purpose of organizing local organizations or to effect walkouts at plants not yet affected.

A probable sympathetic strike of 1500 shipbuilders at Lorain was reported today by the local organizers.

THREE ORGANIZERS ARRESTED

DUTLER, Pa., Sept. 27.—Joseph W. Cannon and Max Ironsides, organizers for the steel workers union, and N. J. Day, organizer and director of the strike against the Standard Steel Car company, here are under arrest in the Butler county jail today.

They were arrested last night while attempting to hold a meeting of strikers on the property of the Limestone company. When the police intervened they broke up the meeting.

They will be given a hearing before Justice Wilson today.

DEMOCRATIC COMMITTEE IS IN SESSION

Meets in Atlantic City to Discuss Rules and Presidential Timetable for 1920

ATLANTIC CITY, N. J., Sept. 26.—Two radical changes of administration will be considered by the executive committee of the Democratic national committee which began a two day session here today behind closed doors.

1. To abolish the two-thirds majority rule and make selection by the national committee in the same manner as the Republican.

2. To distribute the headquarters of the national committee according to a geographical basis.

There is considerable sentiment among the Democrats in favor of former Secretary of the Treasury William G. McAdoo as the next Democratic presidential nominee.

Rumors of Invasion Trouble Governor

COLUMBUS, O., Sept. 26.—Five thousand men from Steubenville and other Ohio towns are by airplane to come into Hancock county, West Virginia, for the purpose of compelling workers to quit their places of employment.

"Any such effort will be regarded as an attempt to violate the laws of West Virginia," Governor Corwell informed Governor Cox today.

"I have no means of knowing whether the explosion was caused by a violation of the laws of Ohio, but I respectfully urge upon you to see that the citizens of this commonwealth and the state government of West Virginia."

Italians Flatly Deny Wilson Used Threats

ROME, Sept. 27.—The Italian government today issued an official statement denying the report published in an American newspaper from Paris that President Wilson had threatened Italy in his note regarding the League of Nations.

Both the state department and the navy department were still without confirmation today of the reported landing of Italian troops in the city of Fiume.

More Pennsylvania Plants Are Working

NEW CASTLE, Pa., Sept. 27.—The mill work in the New Castle district ended at 8:30 o'clock this morning, when the workers returned to work.

Thirty-one of the sixty hot mills in the American Sheet and Tube Co. plant were operating today, an increase of twelve over yesterday.

The Carnegie mills, which have been operating 50 per cent, will continue operations tonight and tomorrow night at the request of authorities.

Villistas Die in Hundred Groups

DALLAS, Tex., Sept. 26.—Martin Lopez, leader of the Mexican revolution, died September 13 from wounds received when Americans crossed the border at Juarez, according to an official statement.

He is reported here that federal troops and Villistas have clashed in Durango and that 100 Villistas were killed.

FANATIC DEPOSES NICHOLAI LENINE

LONDON, Sept. 27.—Nicholai Lenin, bolshevik premier and dictator in Russia, has been overthrown and imprisoned and his post accorded by Ustrialov, a fanatic, according to an Exchange Telegraph dispatch from Stockholm today.

DROPS HEAD IN COURT

READING, Pa., Sept. 27.—While seated at the defendant's table in the main room of the courthouse listening to his wife testify against him in a non-support case Edward Grimes, of this city, fell to the floor unconscious and died a few minutes later.

SMITH HAS NEW RESERVATIONS

Georgia Senator Has Completed Set of Guarantees of Sovereignty to Offer in Senate

WASHINGTON, Sept. 27.—A new set of reservations to the treaty of peace with Germany will be offered to the senate on Monday by Senator Philip C. Smith, Democrat of Georgia.

President Wilson's stated against reservations has not convinced Smith that the treaty should be ratified without them, he said.

"I have no means of knowing whether the explosion was caused by a violation of the laws of Ohio, but I respectfully urge upon you to see that the citizens of this commonwealth and the state government of West Virginia."

REVOLUTIONS NEAR IN ITALY

Government Apparently Is Losing Control Over Army and Navy—Situation Acute

WASHINGTON, Sept. 27.—The Italian situation is acute according to an address reaching official circles here today. The government apparently is losing control over the army and navy.

Both the state department and the navy department were still without confirmation today of the reported landing of Italian troops in the city of Fiume.

WILL OPERATE MONDAY

YOUNGSTOWN, Sept. 27.—The Ohio works of the Carnegie Steel company will operate Monday morning, according to an announcement made by the company here today.

When the special train reached Foch, Pa., at 8:50 a. m. today, the president was still waiting in his plane room.

Foch Postpones Visit Till Treaty Ratified

PARIS, Sept. 27.—Marshall Foch has decided to postpone his visit to the United States until after the peace treaty is ratified.

HUNN MIGHT WITHDRAW OR FOOD WILL STOP

PARIS, Sept. 27.—A note has been drawn up by the supreme council of the League of Nations which was reported today by the press.

The note will be sent to the German government at once.

BANK ROBBERY OF \$16,000

JOHNSTOWN, Pa., Sept. 27.—The First National bank of Johnstown was robbed early today of \$16,000 in Federal bonds and other securities.

BENEFICIAL EFFECTS OF REST ARE NOTICEABLE IN CONDITION

Admiral Grayson Insists Complete Rest for Some Time Is Necessary to Restore President—Mrs. Wilson in Constant Attendance Upon Chief Executive Hurrying to Washington.

INDIANAPOLIS, Sept. 27.—The president's condition is about the same. He has had a fairly restful night.

That was the manner in which Admiral Grayson summed up the condition of President Wilson just before the presidential special reached this city. The president still was in bed and his physician hoped that he would remain there for most of the journey back to Washington.

ON BOARD PRESIDENT WILSON'S SPECIAL TRAIN ENROUTE TO WASHINGTON, Sept. 27.—Secluded in his private car, the big fisherman has given every possible attention to President Wilson today as he enroute to the White House.

Admiral Grayson, who has been engaged in one of the other cars of the train, said that his condition is sufficiently grave to cause both Mr. Wilson, his doctor, and Admiral Grayson to be concerned.

Admiral Grayson, who has been engaged in one of the other cars of the train, said that his condition is sufficiently grave to cause both Mr. Wilson, his doctor, and Admiral Grayson to be concerned.

The present illness of President Wilson is greatly increasing to his illness in Paris last June. There he was struck with an attack of influenza which was complicated by a hemorrhage of his digestive functions.

"The president has attempted to get up for the last several days of the case. He languished his moment sturdy and vigorous physician far beyond his normal capacity."

"I have no means of knowing whether the explosion was caused by a violation of the laws of Ohio, but I respectfully urge upon you to see that the citizens of this commonwealth and the state government of West Virginia."

When the Leaves Begin to Fall It's Time to Get Ready for Winter

Because so many of us are apt to overlook provision for the common comforts of life until actual necessity compels attention, we issue this reminder.

It is now high time that the heating apparatus of the home be carefully inspected to see if any repairs are necessary. When the first chilly weather demands a heater fire it will not be soon enough to find that the grate needs fixing or the smoke pipe must be renewed. Heavy demands then on the plumber and heater men are sure to cause delay and inconvenience, if not discomfort and illness.

Following, if the bills have not been settled with winter's coal, now is the opportune time, before the rush begins. Not only by the way of effecting a saving this fall, but for the range it incites fuel, and for the heater and furnace when used with the lump, it bands the fire so that the lumps last much longer than when completely exposed to the flames. Place your order now, and it will be delivered direct from the ear, saving you \$1.00 per ton. It will bear repeating that the City Coal Company refused to join the coal combine when invited to do so, resulting in the lowering of the price of coal at this yard.

As was expected, your stand in this matter has brought upon us the wrath of the coal combine and interests, and a bitter fight is now being waged on this company. It is a case of might against right, and we know that right will triumph. Should any member of the coal combine tell you we are selling a cheaper coal, or not giving full weight, or give any other person to justify them in charging a higher price—act the facts before you pass judgment.

You can have your coal weighed over the city scales at our expense, and you are always welcome to look over our invoices from the coal companies with whom we deal, make comparisons with others, you will find we pay as much for lump and egg coal as the mines as anyone else, and you will also find that we pay \$1.00 more per ton at the mine for Konomer, not that any other coal would sell in the city. Our business is conducted open and above board. We have nothing to hide or keep under cover. We will consider it a great privilege to give you a free sample of our King or Konomer coals and have you try them in competition with any other. You to be the judge and jury in deciding which is the best.

City Coal Company's Fair Prices

	Yard Price Ton Lots	Price From Car
Lump	\$9.75	\$9.50
Egg	9.35	9.00
Nut	8.35	8.00

A further reduction of 50c per ton will be given on coal in 5 ton lots.

COLLEGE MAN STUDIES JOB AS LABORER

Works in Shipyard All Summer
to Get Intimate Knowledge of
Labor's Point of View

WORCESTER, Mass., Sept. 25.—The barrier created between the worker and the employer by "subordinate losses" is one of the underlying causes of industrial unrest in this country, according to Professor J. D. Porter, dean of Clark college, who concealing his identity worked all summer as a common laborer in a Massachusetts shipyard to get labor's own viewpoint.

Professor Porter believes that a closer and more cordial relationship between the employer and their workmen would bring about harmony, co-operation and greater production.

"Capital and labor do not yet understand each other," declared the student-worker today. "If there were some men who could know all of the things on both sides and keep faith with both sides a good deal could be done towards bringing about the desired understanding."

Other conditions found by the dean while in overalls were:

1.—No men got any thanks for doing extra work and consequently it was deemed fitting for them to do just as little as be could.

2.—Subordinates failed to carry out the policy of the management in dealing with workmen. One man said: "You have either got to be mean to the men or tell the boss to go to—"

3.—Tried to get a job as helper but was told only laborers were accepted. Found plenty of positions open for helpers and that he was doing that work having been hired as a laborer so that he might be paid a smaller wage. This sort of dealing, he said, leads to ill-will and distrust.

4.—Found working man's curiosity regarding the workings of his department rarely satisfied. This led to create in him a lack of interest in his work and sort of antagonism toward the company.

Impress upon the worker's importance to the industry, and his value to the plant is doubled, said Dean Porter. It was the policy of the shipyard to do this, he said, but it was not thoroughly carried out because many of the subordinates were lazy. The yard spent \$20,000 a year in publishing a weekly newspaper dealing with the work of each department and this, Professor Porter said, was eagerly read by every workman.

Ada Wins Highest Award on Exhibit

BOISE, Sept. 26.—The most important, premiums awarded at the state fair are the five grand prizes for the best county collective exhibits of farm products shown in the big exposition building.

The first grand prize, \$400, was won by Ada county; second grand prize, \$300, won by Twin Falls county; third, \$200, won by Kootenai county; fourth, \$100, won by Payette county; fifth, \$75, won by Gooding county.

Never before have the counties of this state made a finer or more artistic display of farm products than at the state fair this week.

CINCINNATI MAY SOON HAVE MALE MILLINERS

CINCINNATI, Ohio, Sept. 27.—Men of Cincinnati and environs are to be given a chance to retaliate for the feminine invasion of their fields of endeavor. A millinery class has been started by Mrs. Marie H. Perry and men are invited to join the classes.

Schilling Tea is actually cheaper than common tea. Yes, it does cost more per pound, but a pound makes so many more cups. And it is delicious! invigorating! it adds greatly to the enjoyment of your meal.

CHAPTER XXIII—Steve is captured again and taken to a village. He meets Elsie again, but she is now married to another man. Steve is forced to leave her again.

CHAPTER XXIV—Steve is captured again and taken to a village. He meets Elsie again, but she is now married to another man. Steve is forced to leave her again.

CHAPTER XXV—Steve is captured again and taken to a village. He meets Elsie again, but she is now married to another man. Steve is forced to leave her again.

CHAPTER XXVI—Steve is captured again and taken to a village. He meets Elsie again, but she is now married to another man. Steve is forced to leave her again.

CHAPTER XXVII—Steve is captured again and taken to a village. He meets Elsie again, but she is now married to another man. Steve is forced to leave her again.

CHAPTER XXVIII—Steve is captured again and taken to a village. He meets Elsie again, but she is now married to another man. Steve is forced to leave her again.

CHAPTER XXIX—Steve is captured again and taken to a village. He meets Elsie again, but she is now married to another man. Steve is forced to leave her again.

grove we found three men prowling in the deep grass; they were those that had brought us from Yellow Bank, and who had a revolver in each hand. Two of them were at the side and the others followed, limping and hobbling.

"A half mile up the valley we came to a lonely trail, running straight across from bank to bank, and disappearing into the timber beyond. We stopped and looked back for the first time. There on the side of the slope, under the shade of the big tree, stood the cabin. Only for the week of the fight it spoke an message of the tragedy within. The man's eyes glared at me, the smoke from his chimney seemed a beckoning welcome.

"I stepped forward, but he held up his eyes and made an understanding. What I whispered need not be told, and they were made to understand. It was upon the trail to Ottawa.

"I was not suffering," she cried, "but can I do it in this Indian's body?"

"I meant, the effort of making an enemy," she said, "is a dirty thing, and I did not wish to do it. I had no strength to the utmost, but, oh, the immediate relief! With the coming of a full breath I returned to my senses, a revival of life. Another body plunged up to the floor, but this was more easily done. Then I managed to lift myself, but with the first attempt I was not upon my shoulders.

"I was not prepared to help you. Do not think me unkind. You are a brave woman, but this is a hard world in your side. It looks ugly, but it does not sting and bleed no longer. Are you not dead?"

"I had no strength to the utmost, but, oh, the immediate relief! With the coming of a full breath I returned to my senses, a revival of life. Another body plunged up to the floor, but this was more easily done. Then I managed to lift myself, but with the first attempt I was not upon my shoulders.

"I was not prepared to help you. Do not think me unkind. You are a brave woman, but this is a hard world in your side. It looks ugly, but it does not sting and bleed no longer. Are you not dead?"

"I had no strength to the utmost, but, oh, the immediate relief! With the coming of a full breath I returned to my senses, a revival of life. Another body plunged up to the floor, but this was more easily done. Then I managed to lift myself, but with the first attempt I was not upon my shoulders.

Make a Name For Yourself

The young man who can not save money is doomed to go through life unknown and unsuccessful.

The man who does save shows that he is boss of himself, and ready to assume other responsibilities that may come to him.

Saving means more than having just so much money; it means building character, winning the respect of others and being able to grasp opportunity when it comes. It means making a name for yourself.

Start now. We'll tell you how. Ask us about it.

THE TWIN FALLS BANK & TRUST CO.

Member of Federal Reserve System
TWIN FALLS, IDAHO.

REPUBLIC TIRES

It has been our experience that everyone recognizes the Staggard Studs of the Republic tread.

But we have noticed in selling Republic Tires that even Republic users themselves do not always realize how very slowly and evenly the tread wears.

We have seen hundreds of Republic Tires that had covered thousands of miles which showed no signs of the cuts and chips and abrasions usually inflicted by every-day service.

We welcome the opportunity to explain how the Prodim Process toughens the tread and assures the longer life of Republic Tires.

Republic Tires are made by The Republic Rubber Corp., Twin Falls, Idaho.

Lind Automobile Co., "Finest and Best Equipped Garage in the West" Twin Falls, Idaho. Phone 229

ANY WELDING TODAY?

If you need any welding done, see us about it. Nothing but the best of materials are used, and only experienced workmen can work on your job if you bring it here.

Welding is not a side line with us, but a major part of our work. We have a full line of welding equipment and materials.

BENEFICIAL EFFECTS OF REST

(Continued from page one)

Californians from Europe and telegrams from all America unite in praising the president that the country is looking and praying for his speedy recovery.

It is not expected that any matters will crop up in the immediate future. The president's visit of the king and queen of Belgium will be arranged so that their every want will be looked after and they will be pleased, they will meet the president and Mrs. Wilson. The great conference between capital and labor on what the president has to say at this assembly, it is expected that this will be read to the president when it concludes, or, at least, that the president will be accompanied by whoever is selected by the president to act as chairman in his bed. All other pending matters can be arranged for within a few days to the president if it is stated.

The expected visit of the Prince of Wales to Washington, the possible case there of the League, and the international labor conference are three or four weeks off and there is no news of the president touching them in any way.

Lake Workers May Go Out on Strike
(CLEVELAND, Sept. 26.—Members of the executive committee of the Lake Fisherman and Sailors' union are expected here today or tomorrow for a conference to discuss plans for a general strike on the lakes which will be discussed.

The strike vote has already been taken and the union announced this afternoon. While the strike of the sailors' union is in sympathy with the steel workers' strike, the union has no intention to demand either shift and increased wages, Martin said.

FIGURES PROVE USAGE INDIAN AIR WEALTHY
(PAVIAHISHA, Okla., Sept. 27.—The Oklahoma Indians here are wealthy. There is no doubt of that, and here are the figures to prove it.

On the whole, the Indian payrolls are 2,250 persons, who are entitled to royalties. During 1918 they drew \$4,500,000 per capita, or a grand total of \$10,000,000. In the first six months of 1919 they have drawn \$2,500 per capita royalty, or \$5,000,000.

GAILLARD OF WATER WILLY INTOXICATED, SAYS BRYAN
(MEMPHIS, Miss., Sept. 27.—"I remember, O'Connell," was the comment of William Jennings Bryan when a visit here was shown a building where some of the famous water-willey brand rum used to be manufactured. Mr. Bryan came here to make a temporary address.

"After January 15, 1920, a man will have to drink twenty-five gallons of water to obtain the necessary alcohol to cause intoxication," Mr. Bryan said.

Great Britain is the largest of the war-time debtors of the United States, owing about \$4,000,000,000. Most of the remainder is divided between France and Italy.

Patriotic the largest local cash buying organization in this part of the state, when you have hay, grain, potatoes, beans or onions to sell. We are ready to buy for you.

Italian Regulars May Replace D'Annunzio
(PARIS, Sept. 26.—The Italian government may replace Captain Gabriele D'Annunzio's forces in Fiume with regular troops, according to a dispatch received here today.

The proposal to send troops to Fiume to replace the soldiers led by D'Annunzio was made at the Italian council to former minister Giovanni Giolitti, who was reported to say that his solution might be accepted by the Italian government.

FORMER AMBASSADOR DIES
(LONDON, Sept. 27.—Lord Branksford, of Thom, British ambassador in Mexico, died at his home in London today. He was 81 years of age.

And She Clung to Me, Her Voice Breaking.
"You," and she clung to me, her voice breaking. "I dared not move for hours, and then, when I did try, found I could not; that I was held fast only for a knife in the hands of a dead woman, which I managed to secure, and she was dead. I was not alone, the unspeakable horror creeping in the darkness among those bodies. I knew where the treasure must be; there were three men, but they were still. I had to have light; I had to know if you were dead."

"I was not alone, the unspeakable horror creeping in the darkness among those bodies. I knew where the treasure must be; there were three men, but they were still. I had to have light; I had to know if you were dead."

Big Opening of Irrigated Land

In the Very Heart of the Best Section of

IDAHO

18,750 Acres of Irrigated Land Reclaimed Under the Second Owsley Project

Located in Jefferson County, Idaho, the Famous Upper Snake River Valley, Near Roberts and Hamer, Idaho, on the Main Line of the Oregon Short Line Railroad

OPENING TO BE HELD AT ROBERTS, IDAHO, OCTOBER 9, 1919

Second Owsley Project—Location

The Second Owsley Project is located near Crystal Lake, (formerly called Mud Lake), Jefferson County, State of Idaho, and is accessible either from Hamer or Roberts, Idaho. The pumping plant is located about thirteen miles west of Hamer and about twenty miles northwest of Roberts. Roberts and Hamer are located on the main line of the Oregon Short Line Railroad, about half way between Salt Lake City, Utah, and Butte, Montana.

Approved by State

The land under the Second Owsley Project was segregated under the Carey Act and a contract entered into by the State of Idaho with the company to reclaim the land for the State and Government. Profiting by fifteen years of Carey Act development in the State of Idaho, the State has maintained a rigid supervision over the Owsley Project at all times and all construction work has been under the direct supervision of the State Engineer.

On October 17, 1917, Frank P. King, State Engineer for the State of Idaho, in a report to the State Land Board, stated: "I think it is safe to assume there is easily 50,000 acres of land of this character, and I believe there is water enough for two or three times the amount it is proposed to irrigate."

In a report made December 3, 1918, by State Engineer Fred A. Walker, he stated: "In conclusion, I am convinced that there must be in the neighborhood of 100,000 acre feet annual inflow to Mud Lake. This would give an ample supply for at least 50,000 acres of land."

In his final report, State Engineer Warren G. Stevenson, said: "This is the first project ever built in the State of Idaho that was completed ahead of time, and the character of the work and the project in general is the best piece of construction that has ever been done on any Carey Act Project within the State."

Approved by the Government

At the time that the land was temporarily segregated by the Federal Government an exhaustive study of the Owsley Project was made by the Federal Carey Act Inspector, both with reference to the physical features affecting the development, and with reference to the water supply. In an able, exhaustive and practical study of the water supply, covering a period of approximately five years, made by George W. Archibald, Federal Carey Act Inspector, with reference to the Second Owsley Project, he stated in his report to the Commissioners of the General Land Office in May, 1917: "There appears no question as to the fact that at least one hundred thousand acre feet annual inflow to Mud Lake adds the assembled bodies of water during the year ending with the Spring of 1917. In respect to its source, a field investigation of the locality generally leaves little doubt as to the source being Twin Beach, aside from the relative small amount furnished by Camas Creek. To sum up the situation, it therefore is found that at the present time, at least one hundred thousand acre feet are entering Mud Lake annually, with the apparent probability that 150,000 acre feet or more will eventually be available. As only 28,078.81 gross acres would actually be involved in the Owsley Project after Segregation List 71 is added, there appears an ample supply of water available at the present time, with the apparent probability of an increased supply from year to year. In view of the entire feasibility of the project and the ability of the construction company to carry the development to completion, it is respectfully recommended that Segregation List 71 be duly approved."

After the examination was made, the Federal Carey Act Inspector recommended that a permanent segregation be made and the company be permitted to construct the irrigation works, under the supervision of the State Engineer, necessary to reclaim the land.

Snake River Valley District

The crops raised in this district consist principally of wheat, oats, barley, peas, potatoes, alfalfa and sugar beets.

The average yield per acre being from 40 to 60 bushels of wheat; 75 to 100 bushels of oats; 60 to 80 bushels of barley; 400 to 600 bushels of potatoes; 1 to 2 tons of alfalfa; and from 10 to 20 tons of sugar beets. Remember, these are average yields. We have positive evidence of much larger yields in exceptional cases.

Idaho Falls, the metropolis of this district, is the largest originating point of food products in the world, also the largest shipping point on the Oregon Short Line Railroad. The value of land in this district in a high state of cultivation runs from one hundred fifty to five hundred dollars per acre. The average price here runs from two to three hundred dollars per acre.

Character of Lands

The land is level with a gentle slope back toward the lake of approximately two feet to the mile. It is covered with a heavy growth of sage brush, as flow from alfalfa and is of volcanic ash and silt formation, and part of the land has an accumulation of sand upon its surface, and all the land is underlain with an impervious clay subsoil, which runs to the remarkable depth of from eighty to one hundred feet. This land is similar in character to the Twin Falls Country, except that it is more level and can be put in a high state of cultivation with less expense.

Anyone familiar with the water supply in the Intermountain country must know that there will be but few more opportunities to purchase good irrigated land at around these prices.

Water Supply

The source of the water supply is from Crystal Lake. The company holding a water permit for 187.5 second feet of water, which is sufficient under the duty of water filed by the State Engineer, to water 18,750 acres. This permit being the second water right on the lake, the sufficiency of which has been approved by both the State and Government Engineers.

The past season has proven that this is one of the best, if not the best, water rights in the State of Idaho. Many good districts were short of water, but our water supply was greater than any previous year.

The company agrees to deliver to each acre of land two acre feet during the irrigation season, which is more water than can be successfully used.

Irrigation System

The irrigation system consists of an intake of about one mile in length in which the water flows by the pumping plant by gravity. In the pump-house the company has installed three six-inch flat iron Works Centrifugal Pumps, which are propelled by three 250 H. P. General Electric Motors. The pumps have a capacity of over 90,000 gallons per minute.

At the pumping plant the water is lifted to a maximum height of eighteen feet and from this point it runs through thirty miles of main and laterals by gravity. The system is built so that the water is delivered to within one-half mile of each legal subdivision of one hundred sixty acres and directly on a majority of the land.

Proof of completion of works was made on August 30, 1919.

Operation and Maintenance

The operation of this plant will be turned over to the settlers, free and clear of all encumbrances, the same to be operated by an operating company with 18,750 shares, each share to be apportioned to one acre of land and entitling the owner to one vote in the management and operation of the company.

Owing to our well constructed ditches and laterals and the low power charge of \$16.00 per horsepower per season, the maintenance of this system should never be in excess of one dollar per acre and for a number of years should not be in excess of fifty cents per acre.

However, in many instances, Carey Act settlers have landed upon bad land and have had to wait several years for delivery of water, and in some instances, owing to the company's inability to complete their works, never received water. Our company can deliver water to every acre of its land NOW.

Wonderful Opportunities

The future of this district is assured, as the company has already built what is known as the First Owsley Project. This has been sold to settlers, has been approved and accepted by the State of Idaho and the management turned over to the settlers. A small part of the land has been farmed during the year 1919 and practically all of it will be farmed in 1920.

As an illustration of what can be done, Oscar W. Linger fenced 35 acres on the First Owsley Project and raised 400 bushels of wheat and 100 tons of alfalfa on 35 acres in the year 1918-1922 tons of the alfalfa being raised on 10 acres, the same having been planted in 1917, this being the first year's crop.

In 1919 the yield of 35 acres will amount to more than 200 tons of alfalfa, and Mr. Linger has sold this for \$20 per ton in stock, making a gross yield of more than \$400.00 per acre.

The price of this land and water is fixed by the State of Idaho at \$75.50 per acre, and the company cannot sell it for more. It is easily worth from \$100.00 to \$150.00 per acre, and, on the terms that it is being sold, the yearly payments are not any more than a fair rental value of the land.

The land if put in shape for cultivation and irrigation, will pay for itself, at the present price of crops, in one year. Proof of this is made by what Mr. Linger has done, all of which can be verified by visiting his place.

Recreation

Crystal, or Mud, Lake is famous for duck hunting. In the fall season there is every variety of duck known to this country, also many wild geese. The lake is also noted for its fine trout fishing.

The desert, near by abounds with sagehens, and in the foothills and mountains directly on the west you can find every variety of grouse; and higher up there is plenty of deer, sheep, goats and bear. The writer has left the project one day and returned the next with his limit of big game.

The project is located in the center of this sportsman's paradise.

Terms

The land will be sold to qualified Carey Act entrymen for 50 cents per acre; one-half payable at the time of filing and one-half payable on or before May 1, 1923; and the water will be sold and made an appurtenance to the land at the price of \$55 per acre, one-fourth payable in cash at the date of filing and the balance payable in nine equal annual installments, with interest at the rate of six per cent per annum.

Remember that it only takes about one hundred entrymen to buy all this land if they take one hundred sixty acres each. You can't take less than forty nor more than one hundred sixty acres. The company has had more than five hundred inquiries on this land.

If you are in the market for good irrigated land located in one of the best farming districts in the Intermountain country, at less than its value, don't fail to investigate and register early, as you may draw the 100 that a town will be built on or one of the quarters adjacent thereto.

Opening and Drawing

The opening of the land will be held at Roberts, Idaho, on October 9, 1919. Arrangements will be made to meet anyone on or before October 9th at Roberts, Idaho, to show them the land by automobile. Either notify the company or go to Roberts, Idaho, and inquire for J. L. Bussey, who is in charge of showing the land.

A representative of the State of Idaho will be in charge of the drawing, which will be held at Roberts, Idaho, at 4 p. m. on October 9, 1919.

Those desiring land had better register early as the company has received a great number of inquiries and we do not believe there will be enough land for all those who register. You may register at any time with the company in Salt Lake City, Utah, or with Ross B. Mattins at the Elmore Hotel, Idaho Falls, Idaho, or with W. A. Davis, cashier of the Bank of Roberts, Roberts, Idaho, or with H. G. Price at the Eccles Hotel, Rexburg, Idaho.

A representative of the State of Idaho will be in charge of the drawing.

Remember, This Is a Completed Project, Ready for Operation. You Can See Just What You Are Buying. We Ask That You Give It a Thorough Examination. Write for Descriptive Literature, or Take a Trip and See It, as It Is Impossible to Describe This Land. It has to Be Seen To Be Appreciated
