STEEL STRIKE MOVES STAGNANTLY

So-Called Crucial Days Have Come and Gone Without Decisive Events to Make Victory Certain for Either Side

STRIKE WILL WIN ITSELF IS OPERATORS' POINT OF VIEW

Steel Officials Confident They Can Continue to Eat Indefinitely, While Workers Can't Starvation Will Win

STEEL STRIKE SUMMARY—NINTH DAY

The ninth day of the national steel strike showed little change in the situation generally except for a continued operation of the Pittsburgh and Western Pennsylvania district. These conditions are rapidly approaching normal in the principal plants, with more men returning to work. The confidence of Wall Street in the strike's successiveness was apparent today when Certificate Trust rose to a new high level, and other steel stocks were steady with slight gains.

The extension of the strike to the Bethlehem plants apparently has had little effect on the situation generally. The plants continue operation, although some departments have shut down. At Newberry, in Cleveland, Youngstown, Chicago and Wheeling, the situation is unchanged with plants for the most part idle. At Waukegan, Ill., strikers have clashed with deputies and state authorities are ready to dispatch state troops to the scene if necessary.

PITTSBURGH, Sept. 30.—The national steel strike in Pittsburgh and western Pennsylvania, the industrial heart of the country, has not shown any signs of stagnation or shall the progress in which neither side can see a quick decision.

The "honey man" of the steel operators is government intervention looking for a compromise. It is Washington does not "put in" a new steel man put it, all the steel interests here to do is to lay back and watch the strike win itself. Financial resources are being poured into the companies, will provide victory in the long run. Steel officials can continue to eat indefinitely on their present stockpiles of iron and steel, but they are admittedly fairly well "beefed" for this strike.

The strike element, particularly the one today, would welcome federal intervention, with its almost certain compromise. They believe there could be no compromise, certainly which would not "put in" a new steel man put it, all the steel interests here to do is to lay back and watch the strike win itself.

This, in some measure, accounts for the comparative tranquility of the situation to date. Strikers tend to constantly urging their followers to peaceful procedure; they emphatically do not want at this time anything approaching a "hot" strike, as it prejudices their cause and turns congressional and popular sympathy away from them.

Out of the mass of conflicting claims there stands forth today the facts that the strikers are making no physical progress and the companies are not making any. All the mills continue to operate, the smoke continuing to belch out of the huge chimneys, and the products of the blast furnaces continue to go in and out of the mills.

The present working forces of the factories are being constantly augmented by desertions from the strike, but in constant articles which before will amount to some sizeable proportions.

All the plants of the United States Steel corporation and its subsidiaries are shut down, except for the district and the Bethlehem plant in eastern Pennsylvania continue to operate today. Inscrubert they are fairly well shut up.

Italian Situation Easy to Solution

PARIS, Sept. 29. The Home Libre, Premier Clemenceau's newspaper, stated today that the latest telegram from President Wilson shows that it would be easy to reach an accord on Rome, acceptable to the cabinet of the Italian government would be finally reached.

HOT TIME IN MONTGOMERY

Races Clash, Five Dead, Others Ordered Out of Town and Told Not to Come Back

MONTGOMERY, Ala., Sept. 29.—The police officer and four negroes, one eleven-year-old white boy, were killed and two negroes, including a preacher of a large church, were injured in the neighborhood of the city and several men returned to the present state of an outbreak between the races which began by the lynching of two negroes at a street meeting last afternoon and two others early Tuesday morning.

OPEN WAY OUT OF DEADLOCK

Mine Workers Present Proposition to Operators to Start Negotiations on Wage Scale

PITTSBURGH, Sept. 30.—President J. L. Lewis of the United Mine Workers put a definite proposition up for action at the conference of workers and operators which today opened the way out of the deadlock caused by the operators' tentative refusal of the demands made by the union. Mr. Lewis put before the conference a motion that the Washington conference agreement now in effect of October 1, 1919, be accepted.

COSSACKS FLOG YANK SOLDIER

If Report is Confirmed America Will Demand Expulsion From Russian Government

WASHINGTON, Sept. 30.—The capture and subsequent release by Cossacks of two American soldiers—an officer and an enlisted man—in the vicinity of Vladivostok has been reported to the war department by Major General William G. Graves, in charge of the American forces in Siberia. Secretary Baker said today.

PEOPLE DEMAND ACTION ON TREATY OF PEACE

WASHINGTON, Sept. 30.—The American people are demanding action on the peace treaty and the country wants to know "where it is." On the question of its ratification, Senator Walter D. Edge, Republican, New Jersey, declared in the senate today.

TROOPS HOLD OMAHA QUIET

Machins Gun Command Street Interactions—Balloons Hung Over City to Watch

OMAHA, Sept. 29.—Major General George S. Patton and the United States Army have held the city of Omaha quiet today. The city is held under a curfew and the streets are patrolled by troops.

BORAH SEES REVOLUTION

Deep-Seated Discontent in Industrial and Social Life Must Be Cured

WASHINGTON, Sept. 29.—Senator William Borah, Republican, Idaho, today declared that the nation is in a state of deep-seated discontent and that a revolution is inevitable unless the government takes action to cure the social and industrial ills.

BLUSTERING HAS NO FOUNDATION

Sherman's Charge That Troops Are Ordered Into Dalmatia by British Blows Up

PITTSBURGH, Sept. 30.—Denial that the British are ordering troops into Dalmatia, a charge made by Senator Sherman, today was blown up by the American delegation.

GROCERY AND MEAT SHOPS WILL CLOSE THURSDAY AFTERNOON

Grocery and meat markets of Twin Falls will be closed Thursday afternoon. The city authorities have ordered the closure of these shops to maintain order during the strike.

PRESIDENT MAY LIFT BOOZE BAN

Reports Not Verified That Action Is Contemplated—Army 80,000 Per Cent Demobilized

WASHINGTON, Sept. 29.—Insistent reports that President Wilson soon will lift the war prohibition on liquor are being denied by the War Department.

It was pointed out that the latest figures issued from the War Department show that 80 per cent of the army has been demobilized.

SUGAR BOWL AGING GOES INTO HIDING

Available Supply and Not Production of Sugar in U.S. May Be Reduced

WASHINGTON, Sept. 29.—The sugar bowl of the United States is aging and its production may be reduced in the future, according to reports from the War Department.

REPORT PLANTS IN BAD SHAPE

Union Headquarters Declare Steel Mills Are Mainly Down, but Operators Bluffing

PITTSBURGH, Sept. 30.—At a conference today it was stated that the steel plants are in a bad shape and that the operators are bluffing.

HERE GOES LABOR'S MAGNA CHARTA

Washington, Sept. 30.—The Senate today passed a bill that would strip the labor union of its rights under the Clayton Act.

TROOPS ON DUTY IN RAIL STRIKE

Threat Made 1,050,000 Transport Workers and Miners Will Be Called Out in Sympathy With Striking Railroaders

BRITAIN FACES WORST CRISIS IN INDUSTRIAL HISTORY OF NATION

Government Insists Situation is Improved Over Yesterday—May Call Demobilized Army Aviators to Carry Mail and Food

LONDON, Sept. 29.—The British government today insisted that the industrial situation in this country is improved over yesterday, but it may call on demobilized army aviators to carry mail and food.

The Federation of British Manufacturers and Trades Unions today declared that the industrial situation is improved over yesterday, but it may call on demobilized army aviators to carry mail and food.

BRUSH CITY, N. Y., Sept. 30.—Middleweight Champion Mike O'Dowd was shaded in an eight-round no-decision bout here by Angelo Ratner of New York.

300,000 Maxwells Precede This Post-War Car

FOR five years the talent of great engineers was devoted to the Maxwell chassis, and as that is now a work of rare mechanical excellence through magnificent Post-War improvements, the Maxwell has been improved wonderfully in appearance.

But you did not know, unless you sat behind the wheel, how easy it drives, what a comfortable casting effect there is in the front axle, how snugly it clings to the road with its heavy rear axle, how decisive and sure is the emergency brake, now located on the transmission shaft!

Perhaps you have seen this Post-War Maxwell and, like so many others, have stopped short in your hurry and given it a good looking over. Its simple beauty, its delightful grace, its clean cut, sincere appearance, its daring simplicity, you noted, and your respect for Maxwell became more definite.

Camel Cigarettes

They Win You On Quality!

Your enjoyment of Camels will be very great because their refreshing flavor and fragrance and mellowness is so conspicuously different. You never tasted such a cigarette! Bite is eliminated and there is a cheerful absence of any unpleasant cigarette after-taste or any unpleasant cigarette odor!

Camels are made of an expert blend of choice Turkish and choice Dominican tobaccos and are smooth and mild, but have that desirable full-body and certainly head out satisfaction in generous measure. You will prefer this Camel blend to either kind of tobacco smoked straight!

Give Camels the stickest tryout, then compare them with any cigarette in the world at any price for quality, flavor, satisfaction. No matter how liberally you smoke Camels they will not tire your taste!

SAYS WIFE'S TROUBLE COST HIM OVER \$300

"I spent more than three hundred dollars during the past year for treatment and medicine for my wife, but she didn't get any relief until she commenced taking 'Tangle' and Dr. H. Sather, who lives at Hubbard, Oregon, told me in the Owl Drug store in Portland a few days ago.

"Up to the time my wife began taking 'Tangle,' continued Mr. Sather, "she had been unable to do her housework for about two years. She had been suffering from indigestion and stomach trouble all the time, and although she was under treatment and had taken many different kinds of medicine, the trouble just seemed to get worse all the time. Finally, she came to Portland last spring and underwent a thorough examination and went under special treatment but it didn't do her any good at all. Every time she ate anything she would suffer something awful, with gas and cramping right afterward. Some times she would be so nauseated that she could hardly retain what she ate. She was very nervous, and never slept well, and would get up in the morning feeling tired and

run out. She seemed to lose all her energy and strength, and finally got so weak and ran down that she was about ready to give up all hope of ever getting any better.

"We had been reading about 'Tangle' and the good it was doing other people, so she decided to give it a trial. Well, she 'Tangle' her simply put her on her feet in little or no time, and now she is just as well and hearty as she ever was in her life. She can take heavy meals every day, and enjoys them, too, and the best part of it is, she never suffers afterwards. She has actually gained fifteen pounds in weight, and does her housework without the least trouble. We are glad to give this statement, and we never had an opportunity to meet 'Tangle' for it certainly has done great things for my wife."

'Tangle' is now sold in Twin Falls by City Pharmacy, in Rogers by Thompson Drug Co., in Blaine by Starbuck Drug Co., in Elmer by A. B. Wood, in Bull by C. D. Buring Drug Co., and in Kimberly by W. A. L. Shouse—Ad.

Emma Goldman Says Prisoners Starved

JEROME CITY, Mo., Sept. 29.—Emma Goldman, who has just finished serving twenty months in the Missouri penitentiary for obstructing the draft law, was ordered discharged this morning by federal commissioner H. C. Gleason, following which she made the startling charge that women prisoners in the penitentiary are being starved, that one prisoner died from starvation last November, and that the tank system is slavery.

Miss Goldman, who described herself to Councilman Colberg as a "detached writer and nurse," was taken to the federal building by Deputy Sheriff G. A. Smith, accompanied by her niece, Miss Stella Bingham, of New York City. They rode to the building, a distance of six blocks from the prison, in a taxicab.

COPS NOT BUSY, CITIZENS USE THEM FOR ODD JOBS

STEVENSVILLE, Okla., Sept. 29.—With arrests showing a reduction from 400 to 50 in a month because of prohibition, the question of what to do with the police force is the burning question here. Citizens deploring the situation have taught the late cops for different odd jobs. Book records at the police station show that there were eleven calls from women who wanted their automobiles cranked, one from a business man who wished three tires killed, three from women who wanted dead rats buried, one call to exterminate a swarm of bugs about an iced, and four calls from women shoppers who mislaid their purses.

HALF OF ONLY HALF A CALLER, ACCORDING TO STORY TOLD IN PARIS

PARIS, Sept. 29.—They are telling a story about Arthur Halfour, the British foreign secretary, which shows that he is only half a caller.

As a change from the labor of the conference, and from the persistent pursuit of tennis, Halfour mingled with the Victory parade crowd. While walking along the boulevards he was audaciously surrounded by three lusty young women, who suggested he should pay for some beer. Rather taken aback, he agreed, and the feet set down outside a cafe. The situation called for four glasses, paid for them and immediately drank his own. Then, to the complete discomfiture of the three females, he hurriedly arose, bowed his hat and walked away without a word.

MILITANT UNCLE SAM'S SERVICE, MERKS A JOE

NEW YORK, Sept. 29.—The Re-employment Bureau for soldiers, sailors and Marines is hunting for a job that would suit a lieutenant colonel with 25 years of army service behind him.

The lieutenant colonel, whose name is withheld on publication, as are those of all applicants, personally requested the service to help him. He accepted a commission in the army immediately after graduating from Columbia University, with the degree of medical doctor.

In these days it was not necessary for a physician to have a license to practice medicine and law that the officer wishes to return to civil life, will not be able to follow his profession because of the new law.

FRENCH FEAR FOOD SHORTAGE

High Price Craze in Paris While Peasants Are Hoarding

PARIS, Sept. 29.—French food experts are forecasting a forthcoming grave crisis for next winter. It is not a question of actual famine but a grave shortage of food throughout France.

There is no doubt that the general work output and decrease in production are having an effect on food. French peasants, who unless they can sell their produce at exceedingly high prices, refuse to part with their grain, preferring to lay up a stock for the winter.

There seems to be an absolute craze to raise prices for no reason at all. A month ago a friend of mine purchased a hat for twenty-five dollars. Yesterday he wished to purchase another, but he could not get the same style as he was asked to pay thirty-five dollars. The latter acknowledged that he had not purchased any more, but his friend had insisted the shop and could give no reason why the price should be increased. He must raise it, he said.

It is a vicious circle, but the time is coming, and coming soon, when the people will raise matters into their own hands. This is not Bolshevism, but merely manipulation by the middle classes to protect themselves.

The People's League in Montargis is achieving excellent results and is being copied elsewhere. It organized a group of members of the League yesterday on a pilgrimage through some Montargis streets, and recommended their methods to Landowners.

It is direct action in the real meaning of the phrase. When they see landlords multiplying too high a price they publicly suggest to the landlord that he is making a mistake. Sometimes out of the necessity take the hat and alters his price.

When the shopkeeper seems inclined to defy the league, the members get busy to throw his produce into the gutter. This invariably has the desired effect.

Have I getting food ever so much cheaper since the formation of a combination of merchants, city officials and representatives of labor unions in numerous instances food has decreased 50 per cent in price.

JOE RESERVES THUNDER

WASHINGTON, Sept. 29.—Senator Hoke Smith, Democrat, Georgia, gave notice today that he would embody a set of resolutions he had prepared in a speech in the senate on Wednesday in opposition to ratification of the peace treaty without reservations. He was to have submitted the resolutions today.

A Study in Economy for the Economical Buyer

The Buyer who makes every Dollar buy a Dollar's worth

The paramount question with the UNITED STORES is how to keep the prices down—not how much can be had for an article. Every possible effort has been put forth to save money for our customers. We have made our purchases months in advance on lower markets—we have scoured every available market in this country in the effort to buy Right, for Right Buying means Right Selling. Our efforts have not been in vain. A visit to the United Stores will prove our statement. Every department in this store shows the results. We know we can save you Money—we want only the opportunity to convince you.

A Silver Dollar Spent at the United Stores will Buy 25 Per Cent More Than an I. O. U. Dollar at a Credit Store. Try it and Be Convinced.

LADIES' COATS

A more representative line of Ladies' Coats is not to be found in the city than is shown in our Women's Wear Department—Coats of Style, Quality and exceptional Value, and the true features of the best for the least possible money.

When One Frock Serves for Two

The present styles of afternoon frocks play into the hands of those women who have learned to make one frock serve for both afternoon and evening. They managed very well in this sense matter during the war, when evening dress was scarce, and after Paris has sent the craze so that the simple frock becomes easy. There is a vogue for frocks now, very well tailored sleeves, on French coats, that is reflected here in short sleeves made of the thinnest fabric, that merely veil the arms. It doesn't take much matter on the part of a clever designer to place an afternoon frock of this kind in the class of evening gown. The addition of the right accessory, the removal of a girdle, the arrangement of the collar, and the back is turned.

An alluring frock for afternoon has been presented by a designer with a simple dress and a showy at the right of the picture above. The made of the finest colored silk and comes in a reversible design.

- THE TIMES PLATFORM FOR A GREATER TWIN FALLS CITY AND COUNTY. 1—Democracy of home. 2—National high, best and power in city and county.

HANDPATTERS HOWLING THEIR HEADS OFF

The outbreak of Senator Poinchex in which he characterized the president of the United States as the leader of the "reds" and as the "world's worst menace" indicates a state of mind which is easily understood.

There is something wrong. It needs a cure. But the cure is not suggested by these highland patriots, whose holy grail is made up of Rent, Interest and Profit—R. I. P., and the rest of the seven deadly sins.

Meantime the R. I. P. system continues its exploitation of the people, and those who utter protest are called bad names, even as the president is assailed.

In the face of unpopularity, which prevails to the point where the president is considered to be self-sufficient, "reformers" with "special privileges" and "small business" frames of mind come along with the suggestion that the manipulative control should be divided and the different parts forced to compete.

Organized farmers and organized labor and organized housewives are driving forward, and if their work does not bring a solution of twentieth century evils, at least it offers the merit of a chance.

PAY AND PUBLIC SERVICE

The other day a member of the Scottish bar, with an income from his practice of \$30,000 a year, gave up his profession and took his place as a member of the British parliament, with a cabinet post at a salary of \$20,000 a year.

It is ever more highly esteemed in England for the sagacity, the insight, the business acumen and the wealth of the lawyer, providing him with the means and the leisure.

This remuneration of private gain for public service is in direct contrast with what has been going on in the United States for some time, where our public men have been leaving all departments of industry and political service to resume private business, because they need more money.

Not all men are fitted for public service; they may lack foresight or efficiency or force, sometimes all three. But when a man is fitted for leadership it is a great pity that he should be withheld from it because the extravagant standards of living in his country make him an able salary impossible.

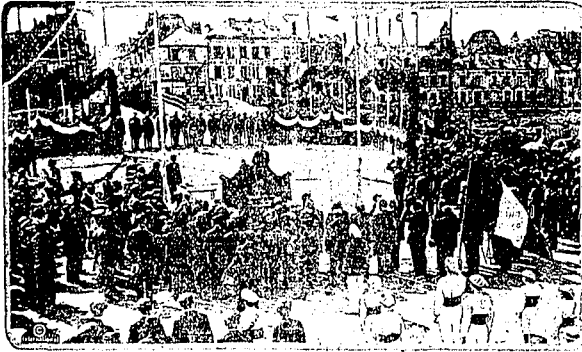

This country, like every other, especially needs good leaders now, and there should be found some happy medium between extravagance and stinginess, both in standards of living and salaries, which will attract good men to the public service and enable them to stay there.

Lauterback, in describing the second batch of the Marine, explains that the German troops, even when driven back by the American, "felt themselves superior." It is possible that even a German feels "superior" when he's licked!

A New York food firm is now storing its food in silos, so that it can be dropped into the wagons more easily. Will the price of wheat go down? Oh, no! It will rise with the silos.

The cost of food will certainly go down if this steel strike lasts long—for the simple reason that people will not have money enough to buy it.

CHATEAU THIERRY HONORS OUR FALLEN HEROES

A general view of the surroundings in Chateau Thierry at the laying of the corner stone of the monument to be erected in the dead lines of the Third Division, A. E. F. Major General Howe, commander of the Third, is shown addressing the assemblage.

Kimberly Items

Mrs. R. H. Holman was a Twin Falls shopper on Thursday. T. W. McLean, of Murtach, was here on business Saturday, and he is by no means satisfied with his new work at Murtach, and the country.

Mr. and Mrs. W. A. L. Stone and Mrs. A. H. Richards were attending business and shopping Thursday afternoon.

In order to introduce the new teachers at our schools to the people of Kimberly and to have some business-like display, the Epworth League gave a basket ball Wednesday evening at the Methodist church. The young ladies dressed in their "party" clothes, crammed their parlors to overflowing, and at once introduced in the house of attraction.

Miss Rachel McLean, who has been visiting with her friends in Idaho, is returning here this evening. The Thomas E. Richards family, who for some time were residents of Kimberly and Twin Falls, have moved to Cambridge, Alberta, Canada.

Dr. J. N. Davis, Dr. W. M. Fisher and Fletcher Bolden had the first part of the week for the Sawtooth mountains to hunt for bear. They are expected home in a few days.

Gordon A. ... had a business trip to Twin Falls Saturday afternoon. Martin ... returned home from Portland, where he has been on business.

Mr. and Mrs. Jerry Slagle spent the week-end at Twin Falls, Saturday. A. A. ... was in Kimberly Friday evening.

Mr. ... and his family were here at the ... home at ...

Those who originate styles for the future are destined to come in for many thanks. To a certain extent, a young person who wears the latest styles is envied for her good taste and for her good looks.

Every one would admit the school boy's costume is not too successful. It is a pity that when the school boy's costume is worn, it is worn in a way that makes it a failure.

Every one would admit the school boy's costume is not too successful. It is a pity that when the school boy's costume is worn, it is worn in a way that makes it a failure.

WOULD INVESTIGATE LANDING OF AMERICANS ON DALMATIAN COAST

Senator New Introduces Resolution in Senate Calling for Inquiry into Reports That British Admiralty Ordered Marines to Occupy Italian Territory—Treaty Is Discussed.

WASHINGTON, Sept. 29.—An investigation of the landing of American naval forces on the Dalmatian coast was asked by a resolution introduced in the senate this afternoon by Senator New of Indiana.

Original Styles in Flapper Coats

Those who originate styles for the future are destined to come in for many thanks. To a certain extent, a young person who wears the latest styles is envied for her good taste and for her good looks.

"When did we go to war with Italy?" asked Senator Lodge. "It was an Italian king who got our forces westward against our wishes."

Jerome News

Born Friday, September 26, to Mr. and Mrs. W. C. Smith, a six and a half pound daughter. She has been christened by Rev. J. B. Underhill, A. B. Underhill, who has been visiting with his mother in Ohio, returned Thursday.

Maybe you don't quite know what is your personal taste in tea.

Here's a good way to find out: Try one flavor after another of the Schilling Tea, and get your money back from your grocer on each, until you have found the flavor you like.

We pay the grocer. So don't worry about that.

There are four flavors of Schilling Tea—Japan, China, India, Colonial, English breakfast. All one quality. In packages of 100 and 200 tea balls.

A Schilling & Co., San Francisco.

In honor of their first wedding anniversary, Ed Churehman left Wednesday for an eastern state school, where he will last of two years course.

Mr. Don-Heur will leave next week for Detroit, Mich., where he will make his future home.

Walter Henry took his entire crop of grain Thursday evening by having caught from a spark from the engine. The loss was probably near \$2500, an insurance.

Miss William Bolton and daughter, of Twin Falls, were guests during the week of the L. C. Thomson home.

Miss Tamman, of the San Francisco, has been here in the interest of a first estate which is located about a mile west of town.

BETTER ENGLISH WEEK OBSERVED AT INSTITUTE

EACH MUST USE ITS OWN WATER

Federal Court Decides Damman May Use What Waste Water the Canal Company Can't—Each Side Required to Pay Own Costs.

Restraining each litigant from using water rights of the other, an order was entered, and ordering each to pay his own costs, Judge Dietrich of the federal court at Boise signed a decree yesterday in the case of the Twin Falls Canal company vs. Edwin Damman.

The canal company had brought suit against Damman to prevent him from using waste irrigation water from the canal system that ran down a cut-off from which Damman diverted water. Damman's defense was that he merely used that water which was in surplus above what the canal company could recover and use again. The court's decision restrains Damman from use of whatever waste water the canal company can utilize and restrains the canal company from interfering with Damman's use of what water it is unable to use itself.

Damman's attorneys, Hamilton and Hackman, retiring from Boise today, claimed the decision as a victory, pointing to the payment of costs. In addition to the wording of the decree itself, as proof that their client's contention had been upheld. The plaintiff's cost amounted to several hundred dollars for the suit, while that of the defendant was about a sixth of the plaintiff's.

To quote from the decree, the court in its findings held among other things that the water which comes into said tributary is water coming entirely from that which the plaintiff corporation diverts from Snake river at Miller, Idaho, and carries through the said irrigation system; that the

plaintiff corporation has possession of no such of said water as it can use to supply rights of the existing or future stockholders upon lands within its operation and that it has not possession, but must be deemed to have abandoned, such water as it cannot so utilize; that the only right which the defendant can acquire or could acquire by virtue of its new acquisition, is to utilize water flowing in said tributary which would otherwise waste into Snake river and that at any time when the plaintiff corporation can and does use the water on the land within its acquisition to supply lands as above stated, its right is superior to that of the defendant.

In further ORDERED, ADJUDICATED and DECREED that the defendants, their agents, servants, employees, and persons acting in their capacity, do and do not, and they are not, and they hereby are, perpetually enjoined and restrained from diverting or using any water from said tributary to "cut-off 1-2" which said plaintiff corporation is carrying through said channel for use for beneficial purposes as above stated upon said land within its acquisition; and that the plaintiff and its agents are enjoined from diverting the water from said channel when they have no use for it except to use the purpose of supplying defendants of the defendant.

It is further ORDERED, ADJUDICATED and DECREED that each party pay its own costs.

Done in open court this 26th day of September, 1919.

(Signed) FRANK S. DITTRICH, District Judge.

WEATHER FOR COUNTY FAIR IS DOUBTFUL

Showers and Cloudy Skies However, Fall to Damper Intent in Opening of Event

Brief showers this morning and alternating clearing and chilling showers left the weather uncertain some what in doubt for the opening day of the fair, but enthusiastic fairgoers dampen all the prospects. Loads of fairgoers from Twin Falls are observed where were on their way a Fair Hills morning and, unless rain set in in earnest, the afternoon promised to see a good crowd in attendance.

While this morning's showers may have made the track heavier than desirable here, nevertheless keen interest in the racing program. The novelty of an airplane flying over the city and surrounding country yesterday, weathered fair literature in its wake, served to lighten the already enthusiastic interest taken in the flying sport. Plans as to whether to take the fair program. Many a school citizen has secretly resolved to take a whirl at the aerial thrill's if the opportunity offers.

Sidewalk Bids Do Not Prove Numerous

Only one bid was before the city council last evening when it approached the business of awarding a contract for a sidewalk improvement district. This lone entry was scratched by the council who will try it again next Tuesday night. The council will open bids on the contract for covering the Eleventh avenue lateral providing property owners have indicated their share of the expense by their status.

Finance Health Department
A request from City Health Officer Murray H. Berg to act as the request for the department was granted.

Sell Meter to O. R. L.
A purchaser was found for one of the city meters, having been advertised by the Oregon Short Line.

No Authority
E. F. Walton was informed that the council had no authority to act on his request for a derrick and debris to be ordered removed from the federal property on which the postoffice is located.

Storage Permit
Contractor Ernest White was granted permission to use 10 feet of the street on Second street and 15 feet on Sixth street for the storage of building material during construction of the new high school addition.

Confession
Confessioner Frederick showed a disposition to child Street superintendent E. V. Berg for the unpermitted condition of the street and complained that not all of the street department employees were worth their hire. Berg was instructed to report on a course of action at the next meeting.

PERSONAL MENTION

W. J. Dean of Regester transacted business here today.

George C. Duran of Portland is in this city for a short stay.

H. M. Butler of Oyster is attending to local business affairs today.

H. E. Vogel arrived today from Pocatello, Idaho.

E. H. Hobbs of Castleford spent yesterday in Twin Falls.

BARBERS UNION IS ORGANIZED

All-but Two Shops Represented in Membership—Charter to Be Sent in Tonight, Last Chance for Being Charter Member.

Organization of a barbers union in Twin Falls was effected with fifteen charter members at a meeting held last evening in the hall of the B. M. & P. L. E. The membership as constituted last night, represents every shop in the city with the exception of the O. K. and Habscock's. Official designation of the new union will be Journeyman Barbers' International Union.

Further increase of membership is expected tonight when is the last opportunity barbers will have to join as charter members with the attendant advantages of that status. "The barbers' charter goes, in strength," said George S. McGraw, secretary of the Idaho State Federation of Labor, who has been organizing the barbers and other craft in this city and vicinity in the past few days. "I believe today is the last chance the barbers have of getting in on the big haul as charter members. While all barbers in these shops are not signed up it gives the largest majority where they can work out their own problems, and I believe these shops will be out of the 'great haul' business."

A vote of thanks was extended to the B. M. & P. L. E. for use of the hall last evening, this being the only salaried building transacted at the meeting.

Following are the names of charter members and their places of residence: Fred Parke, Idaho; John Jenks, Tamano; M. P. Sears, Perrine; A. S. Mori, Tamano; A. O. McElwain, Perrine; M. W. Strawn, Idaho; J. M. Sullivan, St. George; Jim White, Pocatello; Louis Munson, Rex; Theron U. Boston, Rex; Allen L. Meyer, P. G. Higgins, Pocatello; Lee Summers, Pocatello; Fred W. Will, Edgar, Pocatello.

E. W. Schuler of Gooding is among the visitors in Twin Falls.

SPECIAL PRICES AND SPECIAL TERMS

are offered on these articles for a limited time only and do not want to lose a chance.

When the Leaves Begin to Fall It's Time to Get Ready for Winter

Because so many of us are apt to overlook provision for the common comforts of life until actual necessity compels attention, we issue this reminder.

It is now high time that the heating apparatus of the home be carefully inspected and any repairs as necessary. When the first chilly weather demands a heater fire it will not be soon enough to find that the grate needs fixing or the smoke-pipe needs to be renewed. Heavy demands then on the plumber and heater man are sure to cause delay and inconvenience, if not discomfort and illness.

Likewise, if the bins have not been stacked with winter's coal, now is the opportune time, before the rush begins. Not coal, by the way effects quite a saving this fall. For the range it is best fire, and for the heater, and furnace when used with the lamp, it burns the fire so that the lamps last much longer than when completely exposed to the flame. Place your order now, and it will be delivered direct from the coal yard, for \$1.00 per ton. We will honor long repeating that the City Coal Company refused to join the coal combine when invited to do so, resulting in the lowering of the price of coal at this yard.

As was expected, our stand in this matter has brought upon us the wrath of the combined coal interests, and a bitter fight is now being made on this company. It is a case of might against right, and we know that right will triumph. Should any member of the coal combine tell you we are selling a cheaper coal, or not giving full weight, or give any other reason to justify them in charging a higher price—ask the facts before you pass judgment.

You can have your coal weighed over the city scales at our expense, and you are always welcome to look over our facilities from the coal company with whom we deal, make comparisons with others, you will find we pay as much for lump and egg coal as the mines as any one else, and you will also find that we pay 20c more per ton at the mine for Kemmerer, not say than any other coal sold in the city. Our business is conducted open and above board. We have nothing to hide or keep others away. We will consider it a great privilege to give you a free sample of our King or Kemmerer coals and have you try them in competition with any other. You to be the judge and jury in deciding which is the best.

City Coal Company's Fair Prices

Yard Price Price From

Announcement

J. E. FINNEY & COMPANY

Have Bought Out the Business of A. L. Bradley have taken a three-year lease on the building on Shoshone street where Mr. Bradley has been located for the past thirteen years, they will continue to manufacture the best HARNESS, AUTO TOPS and AWNINGS that is possible for skill, experience and equipment to produce. The personnel of the firm consists of J. E. Finney, John Wetenkamp and Robert Hart.

Mr. Wetenkamp has already taken charge of the harness department which is an assurance that the best harness made in Twin Falls will be found on our hooks. Mr. Wetenkamp learned the harness maker's trade and worked for years for the large concern of Harper Bros. of Lincoln, Neb. That was in the days when to learn a trade meant to know it thoroughly. Later he became employed and for 10 years was head cutter for Marks & Co., of Omaha. Seeking a change of climate for his health, he became head cutter for A. A. Van Voorhees of Sacramento, Cal. He then went to Salt Lake City and took charge of the harness department of the Salt Lake Saddlery Co., where he remained until coming to Twin Falls and entered the employ of Mr. Bradley ten years ago last July.

Robert Hart spent his boyhood days in Wisconsin where he learned the trade of trimmer and harness maker as well. After working for a number of years as a journeyman in a number of the large shops and factories of the East, he was employed two years in Salt Lake City, from which place he came to Twin Falls June 7th, 1915. Since then he has been in the employ of Mr. Foss as harness maker and automobile top trimmer. Mr. Hart is an expert workman, no better in the West and, just like such fellows, insists that our customers shall have the best. No wrinkles in his work. He smooths them all out.

Fred Miller, who has been with Mr. Bradley for several years and who has been largely responsible for the big tent and awning business built up by Mr. Bradley in so short a time, will remain with us and continue to turn out expert canvas work, such as awnings, tarpaulins and tents. It's fun to see him turn out apple picking bags.

It will be our policy to manufacture the best harness, turn out best auto trimming and upholstery, do the best canvas work at the best possible price based on the cost of production. Take no chances.

HORSES WEAR GUARDS
AGAINST NOSE FLIES

Insects Prevented From Laying
Eggs on Animals' Lips.

Prepared by the United States Department of Agriculture.
The horses are wearing nose
guards these days in the Northwest.
It isn't that somebody has developed
a new guard, neither is it that
horsemen are given to the
habit of standing and mousing their
horses. It is to prevent the
biting of horses. This fly is confined to the
north central and north Rocky Mountain
states. Its egg-laying habits differ
from those of the other bit flies,
making it more difficult to control.
The common bit fly lays its eggs
mostly on the forehead of horses. The
second species, which is more common
on the throat and lower jaw.
Effective control results from placing
over these nostrils every seven days
with a rag dampened in a 2 per cent
carbolic acid mixture. But the more
they bite the eyes where they cannot be
got at by this method—on the short
hairs of the face just at the juncture
of the eye.

QUESTION OF WEANING PIGS

Little Porks Should Remain With
Mother for at Least Ten Weeks,
Say Experts.

(Prepared by the United States Department of Agriculture.)
At the conference of certain extension
workers of United States
Department of Agriculture, held recently
at Washington, the question of
weaning pigs was discussed.
The question brought
out the fact that in some parts of the
country farmers followed the practice
of weaning their pigs at least six
weeks of age. The conclusion
reached was that for best results
pigs should be allowed to nurse
for at least ten weeks where it
is possible to do so. It was decided
that it would be better to allow
pigs to nurse themselves, a
good weaning age properly fed should
be a good flow of milk up to the
time the pigs are at least ten weeks
old. Without attention the mother's
milk is the best feed possible to
obtain for young pigs. Some
pig growers should take advantage of
this natural feed to the greatest
extent possible.

LIVE STOCK
NOTES

Pigs must suckle sows that yield
plenty of rich milk.
The filling these collars, is the
cause of serious neck and shoulder
ills.
Pigs, as well as sows, need or should
have the range of some good forage
crop.
Light hogs should have their shoes
trimmed and their feet dressed every
two weeks.
Many farmers do not realize the
value of milk when keeping thirty
pigs at work in the feed
house.
The better ferket will be permanent
from American
within the next few years.

Don't Bake Beans.

Such are quick beans and cook until
tender, but not so soft that they will
fall apart. If desired, one-fourth
pound of salt pork may be cooked
with them. When tender, add one
half teaspoon of mustard, one table-
spoon of sugar or two tablespoons of
potatoes, and one tablespoon of
oil. Put in a covered dish for one and
one-half hours, heating and serving
for the last 15 minutes.

Instead of Meat Loaf.

Big Opening of Irrigated Land

In the Very Heart of the Best Section of

IDAHO

18,750 Acres of Irrigated Land Reclaimed Under the Second Owsley Project

Located in Jefferson County, Idaho, the Famous Upper Snake River Valley, Near-Roberts and Hamer, Idaho, on the Main Line of the Oregon Short Line Railroad

OPENING TO BE HELD AT ROBERTS, IDAHO, OCTOBER 9, 1919

Second Owsley Project—Location

The Second Owsley Project is located near Crystal Lake (formerly called Mud Lake), Jefferson County, State of Idaho, and is accessible either from Hamer or Roberts, Idaho. The pumping plant is located about thirteen miles west of Hamer and about twenty miles northwest of Roberts. Roberts and Hamer are located on the main line of the Oregon Short Line Railroad, about half way between Salt Lake City, Utah, and Butte, Montana.

Approved by State

The land under the Second Owsley Project was so located under the Carey Act and a contract entered into by the State of Idaho with the company to reclaim the land for the State and Government. Profiting by fifteen years of Carey Act developments in the State of Idaho, the State has maintained a rigid supervision over the Owsley Project at all times and all construction work has been under the direct supervision of the State Engineer.

On October 17, 1917, Frank P. King, State Engineer for the State of Idaho, in a report to the State Land Board, stated: "I think it is safe to assume there is easily 50,000 acres of land of this character, and I believe there is water enough for two or three times the amount it is proposed to irrigate."

In a report made December 3, 1918, by State Engineer Fred A. White, he states: "In conclusion, I am convinced that there must be in the neighborhood of 60,000 acre feet annual inflow to Mud Lake. This would give an ample supply for at least 50,000 acres of land."

In his final report, State Engineer Warren T. Swenson, said: "This is the first project ever built in the State of Idaho that was completed ahead of time, and the character of the work and the project in general is the best piece of construction that has ever been done on any Carey Act Project within the State."

Approved by the Government

At the time that the land was temporarily segregated by the Federal Government an exhaustive study of the Owsley Project was made by the Federal Carey Act Inspector, both with reference to the physical features affecting the development, and with reference to the water supply.

In an able, exhaustive and practical study of the water supply covering a period of approximately five years, made by George B. Archibald, Federal Carey Act Inspector, with reference to the Second Owsley Project, he stated in his report to the Commissioners of the General Land Office in May, 1917: "There appears no question as to the fact that at least one hundred thousand acre feet entered Mud Lake and the associated bodies of water during the year ending with the Spring of 1917. Irrespective of the source, a field investigation of the locality generally leaves little doubt as to the source being Jiggin Bench, aside from the relative small amount furnished by Camas Creek. * * * To sum up the situation, it therefore is found that at the present time, at least one hundred thousand acre feet are entering Mud Lake annually, with the apparent probability that 120,000 acre feet or more will eventually be available. * * * As only 29,078.4 gross acres would actually be involved in the Owsley Project, after Segregation List 71 is added, there appears an ample supply of water available at the present time, with the apparent probability of an increased supply from year to year. * * * In view of the entire feasibility of the project and the ability of the construction company to carry the development to completion, it is respectfully recommended that Segregation List 71 be duly approved by the State."

After the examination was made, the Federal Carey Act Inspector recommended that a permanent segregation be made and the company be permitted to construct the irrigation works, under the supervision of the State Engineer, necessary to reclaim the land.

Snake River Valley District

The crops raised in this district consist principally of wheat, oats, barley, peas, potatoes, alfalfa and sugar beets.

The average yield per acre being from 30 to 40 bushels of wheat; 25 to 40 bushels of oats; 50 to 80 bushels of barley; 400 to 600 bushels of potatoes; 1 to 7 tons of alfalfa; and from 10 to 20 tons of sugar beets. Remember, these are average yields. We have positive evidence of much larger yields in exceptional cases.

Idaho Falls, the metropolis of this district, is the largest originating point of food products in the world; also the largest shipping point on the Oregon Short Line Railroad.

The value of land in this district in a high state of cultivation runs from one hundred fifty to five hundred dollars per acre. The average price being from two to the three hundred dollars per acre.

Character of Lands

The land is level with a gentle slope back toward the Lake of approximately two feet to the mile. It is covered with a heavy growth of sage brush. It is free from alkali and is of volcanic ash and silt formation, and part of the land has an accumulation of sand upon its surface, and all the land is underlain with an impervious clay subsoil, which runs to the remarkable depth of from eight to one hundred feet. This land is similar in character to the Twin Falls, Country, except that it is more level and can be put in a high state of cultivation with less expense.

Anyone familiar with the water supply in the intermountain country must know that there will be but few more opportunities to purchase good irrigated land at ground-floor prices.

Water Supply

The source of the water supply is from Crystal Lake. The company holding a water permit for 187.5 second feet of water, which is sufficient, under the duty of water fixed by the State Engineer, to water 15,000 acres. The permit being the second water right on the lake, the sufficiency of which has been approved by both the State and the Federal Engineers.

The past season has proven that this is one of the best, if not the best, water rights in the State of Idaho. Many good districts were short of water, but our water supply was greater than any previous year.

The company agrees to deliver to each acre of land two acre feet during the irrigation season, which is more water than can be successfully used.

Irrigation System

The irrigation system consists of an intake of about one mile in length in which the water flows to the pumping plant by gravity. In the pump-house the company has installed three 36-inch Flat Foot Worrie Centrifugal Pumps, which are propelled by three 250 H. P. General Electric Motors. The pumps have a capacity of over 30,000 gallons per minute.

The pumping plant the water is lifted to a maximum height of eighteen feet and from this point it runs through thirty miles of main canals and laterals by gravity. The system is built so that the water is delivered by within one-half mile of each legal subdivision of one hundred sixty acres and directly on a majority of the land.

Proof of completion of works was made on August 30, 1919.

Operation and Maintenance

The operation of this plant will be turned over to the settlers, free and clear of all encumbrances, the same to be operated by an operating company with 18,750 shares, each share to be appurtenant to one acre of land and entitling the owner to one vote in the management and operation of the company.

Owing to our well constructed ditches and laterals and the low power charge of \$16.00 per horsepower per season, the maintenance of this system should never be in excess of one dollar per acre and for a number of years should not be in excess of fifty cents per acre.

Heretofore, in many instances, Carey Act settlers have located upon land and have had to wait several years for delivery of water, and in some instances, owing to the company's inability to complete their works, never received water. Our company can deliver water to every acre of its land NOW.

Wonderful Opportunities

The future of this district is assured, as the company has already built what is known as the First Owsley Project. This has been sold to settlers, has been approved and accepted by the State of Idaho and the management turned over to the settlers. A small part of the land has been farmed during the year 1919 and practically all of it will be farmed in 1920.

As an illustration of what can be done, Oscar W. Linger farmed 35 acres on the First Owsley Project and raised 400 bushels of wheat and 100 tons of alfalfa on 35 acres in the year 1918; 82 tons of the alfalfa being raised on 16 acres, the same having been planted in 1917, his being the first year's crop.

In 1919 the yield of 35 acres will amount to more than 200 tons of alfalfa, and Mr. Linger has sold this for \$200 per ton stack, making a gross yield of more than \$100.00 per acre.

The price of this land and water is fixed by the State of Idaho at \$75.00 per acre, and the company cannot sell it for more. It is easily worth from \$100.00 to \$150.00 per acre, and on the terms that it is being sold, the yearly payments are not any more than a fair rental value of the land.

The land, if put in shape for cultivation and irrigation, will pay for itself, at the present price of crops, in one year. Proof of this is made by what Mr. Linger has done, all of which can be verified by visiting his place.

Recreation

Crystal, or Mud, Lake is famous for duck hunting. In the fall season there is every variety of duck known to this country, also many wild geese. The lake is also noted for its fine trout fishing.

The desert nearby abounds with sagehens, and in the foothills and mountains directly on the west you can find every variety of grouse; and higher up there is plenty of deer, sheep, goats and fawn. The writer has left the project one day and returned the next with his limit of big-game.

The project is located in the center of this sportsman's paradise.

Terms

The land will be sold to qualified Carey Act entrymen for 60 cents per acre, one-half payable at the time of filing and one-half payable on or before May 1, 1923; and the water will be sold and made an appurtenant to the land at the price of \$75 per acre; one-tenth payable in cash at the date of filing and the balance payable in nine equal annual installments, with interest at the rate of six per cent per annum.

Remember that it only takes about one hundred entrymen to buy all this land if they take one hundred sixty acres each. You can't take less than forty nor more than one hundred sixty acres. The company has had more than five hundred inquiries on this land.

If you are in the market for good irrigated land located in one of the best farming districts in the intermountain country, at less than its value, don't fail to investigate and register early, as you may draw the 100 that a town will be built on or one of the quarters adjacent thereto.

Opening and Drawing

The opening of the land will be held at Roberts, Idaho, on October 9, 1919. Arrangements will be made to meet anyone on or before October 8th at Roberts, Idaho, to show them the land by automobile. Either notify the company or go to Roberts, Idaho, and inquire for J. L. Bussey, who is in charge of showing the land.

A representative of the State of Idaho will be in charge of the drawing, which will be held at Roberts, Idaho, at 4 p. m. on October 9, 1919.

Those desiring land had better register early, as the company has received a great number of inquiries and we do not believe there will be enough land for all those who register. You may register at any time with the company in Salt Lake City, Utah, or with Ross B. Matkins at the Elcomore Hotel, Idaho Falls, Idaho, or with W. A. Davis, cashier of the Bank of Roberts, Roberts, Idaho, or with H. H. Davis, the Western Hotel, Rexburg, Idaho.

A representative of the State of Idaho will be in charge of the drawing.

Remember, This Is a Completed Project, Ready for Operation. You Can See Just What You Are Buying. We Ask That You Give It a Thorough Examination. Write for Descriptive Literature, or Take a Trip and See It, as It Is Impossible to Describe This Land; It has to Be Seen to Be Appreciated.
