O. to return the longshoremen's strike having collapsed, it was reported today that officials of private shipping companies would ask Governor Smith for state troops of Secretary of War Baker for regulars to protect the strikers who wish to return to work.

According to representatives of the United States shipping board, about 4,000 or 5,000 strikers are willing to return to work but are being held by the insurgent factor in the union which is holding out for a bigger wage advance than has been recommended by the national adjustment committee.

Football Teams All Ready to Eat Rivals Up—See Their Smoke Before Battles Begin

PITTSBURGH, Oct. 21.—It was Pittsburgh vs. Georgia Tech this afternoon and a tense evening combat between two mighty eleven was in prospect. The rivalry between the two colleges came into being only a year ago, but it is a rivalry that almost equals in intensity that between Yale and Harvard. The Panthers went down the Yellow Jackets to infamous defeat last year, just as a time when the non-seniors were ready to claim the griffin championship of the universe. The battle will continue and Tech came here today resolved to engage in a "win or die" struggle. The defeat suffered by Pitt last week at the hands of Syracuse had no depressing effect upon Glen Warner's shoulders. It seemed only to make them all the more ferocious, as far as this afternoon's game was concerned. Smashing under the Syracuse heading, the Panthers were determined today to get their revenge by crushing the "golden tornado" eleven.

BUHL FOOTBALL TEAM WINS HOT GAME FROM T. F.

13 to 6 Score Shows Bitterness of Struggle Before Crowd on Buhl Field Yesterday

Buhl and Twin Falls were hitting each other with everything but the literature yesterday when they met in one of the toughest football games of the year. Buhl won by a score of 13 to 6 but the well known eagle victory stack around until nearly the end of the game before showing a fainter to perch upon. The old bird seemed troubled with insomnia and wouldn't go to rest until quite late. By virtue of a wonderful interference on off tackle backs, Buhl won the game in the first quarter. Masses of close to the line and not bothering to take much of a start, the off tackle backs would sweep the entire half of a line out of the way. The runner strutting along behind them found a hole big enough to drive a truck through and was seldom molested within ten or fifteen yards. Slowly and methodically this quartet plodded down the field, pushing around the Twin Falls goal twice in the first period. One goal was kicked and the other missed. Arguably, the fullback, proportioned like a barrel of flour, was a terror on interference, and even worse when he pecked the pile of lumber like a top sided saw.

WANTS DEPORTATION LAWS

WASHINGTON, Oct. 21.—Speedy action for the passage of legislation authorizing the deportation of 300 undesirable alien aliens was asked by Attorney General Palmer in a letter sent to Senator Colt of Rhode Island, chairman of the senate immigration committee, this afternoon. Deportation of those aliens would have a "salutary effect" on agitators throughout the country and certain aliens who are on parole, the attorney general stated.

ROBERTS NOMINATION CONFIRMED

WASHINGTON, Oct. 24.—The senate today confirmed the nomination of Rear Admiral Robert D. Knorr to be chief of the bureau of naval operations of the navy department with the rank of admiral for the term of four years.

Reasonable Dealings

PARIS, Oct. 24.—Pierre Lenoir, convicted of having treasonably dealt with the Germans during the war, was executed today.

Lenoir, who has been ill, was shot as he sat in a chair on the execution ground. He was carried to the scene of his death in an ambulance protesting his innocence all the way. Lenoir was to have been shot a fortnight ago, but gained a respite on the ground that he could give the government important evidence that might be of use in the trial of Joseph Callens, former premier. Since then he has been in the hospital and it was reported on occasions that his condition was so serious he has been kept alive only through the use of drugs.

Bulgarian Peace Will Come in Three Weeks

PARIS, Oct. 24.—With the submission of Bulgaria's observations on the peace terms to the peace conference today, it is expected that the Bulgarian treaty would be signed and out of the way within three weeks.

The supreme council probably will take only about a week or ten days to consider the Bulgarian answer.

Soon after the Bulgarian treaty is disposed of the conference is expected to delegate to a committee the unfinished business to a co-ordinating committee composed of ambassadors.

It seems to be a foregone conclusion that the conference will adjourn before the situation in Hungary can be cleared up sufficiently to allow the delegates to deal directly with the Hungarian cabinet. As a result of this circumstance, the ambassadors' committee probably will fall heir to this problem along with the Turkish question.

PIONEER DIES AT HOISE

HOISE, Oct. 24.—A pioneer of the state, Phelps Everett, is dead. He was a member of the Idaho legislature in 1858. He was aged 85.

Fight High Costs by Probing Cost Prices

LONDON, Oct. 24.—Here's one way England is meeting the H. C. E. problem: There are 140 local watchdog committees, with power to stop profiteering. Public protest over exorbitant prices created the idea. The local committees have authority to probe for cost facts back to the various wholesalers, while national committees have authority to ascertain cost prices of profiteering.

An actual sale does not have to be made to bring the profiteering act into force. If a merchant should offer the local committee which the customer regards as unreasonable, all the customer has to do is to report the incident to the local profiteering committee, which then takes up the matter. Such protests must be made within four days. However, there is to be no disturbance of profiteering in house rents, which are not subject to hotel expenses, or charges for coal in lodgings, one of the favorite English methods of "milking" foreigners.

BILL INCREASES PAY OF POSTOFFICE EMPLOYEES

WASHINGTON, Oct. 24.—Postal employees receiving less than \$2,000 a year will receive graduated wage increases of from \$10 to \$25 a year under the terms of a bill passed by the house this afternoon.

Grand Jury Probing Liquor Violations

NEW YORK, Oct. 24.—Some of the most famous figures in the night life along New York's "great white way" are being searched by federal agents. They are wanted as witnesses before the federal grand jury in the probe that is being made of the violation of the prohibition law by scores of saloons and cafes.

Charles P. McCarver, the agent of the department of justice, who was directed to search for federal agents for the month, is reported to have confessed to his knowledge of conditions and the part he played in protecting prominent cafe owners.

Carver, known to his friends as "Plinky," is said to have admitted telling cafe owners to go ahead and violate the prohibition law as he didn't want to see them lose money while others were making it by selling something stronger than 27 1/2 percent. He declared, however, that he had never taken a dishonest dollar in his life.

Investigations Not All Completed Yet

WASHINGTON, Oct. 24.—Personal inspection and investigation of the various army camps and cantonments to be made by the special house committee investigating expenditures in the war department, through a committee headed by Representative McKendall of Illinois, it was announced today.

The sub-committee plans to start tomorrow and will first visit Camp Sherman, at Chillicothe, Ohio.

From this camp the investigators will make a swing around the camps in the middle west and in the south. It is not anticipated by the committee that it will extend its inspections to the camps of the far west and Pacific.

The purpose of making the investigation is to go fully into the question of the desirability of location of camps or cantonments and to report on the future needs of the camps in any military policy that may be adopted for this country.

Obregón says he wishes to go before the people in 1924 as a civilian candidate for president and that he will not allow himself to be known as a military candidate.

Lloyd George Cabinet Is in Predicament

LONDON, Oct. 24.—While the Lloyd George cabinet has been put in a serious predicament by the rejection of the government's amendment to the ten bill by the mass of commons by a vote of 185 to 112, opinion was divided today as to whether it would force the resignation of the cabinet.

Parliament was not in session today. A. Honor Law, the government leader, secured an adjournment until the morning to allow the cabinet to deliberate on their next move.

The Chronicle took the attitude that if the ministry does resign, Premier Lloyd George will be entrusted with the task of forming a new cabinet. This power would be delegated to him by King George.

Your Last Chance to Make Millions in Oil Leases is Here

The subscriptions for oil leases near where J. A. Noggle is drilling for oil, have been coming in so fast that we will soon have to withdraw our lease propositions from the market. We have been flooded for leases and at the rate that they have been coming in we will soon have everything taken up around where oil is being drilled.

Do Not Delay but Sign This Application Today and Join the Ranks of the Independently Rich

- Remember the conditions of this leasing are:—
- That your lease will be within one mile of the well that J. A. Noggle is now drilling.
 - That you get your money back should you not get the lease before November 20th, 1919.
 - That the lease carries with it an abstract showing the title to be good in the grantor.

For those of you who may not know about Mr. J. O. Noggle this information is given: Mr. Noggle has had years of active experience in oil fields and knows good oil land better than most farmers know good stock. He was sent by this syndicate to California and Wyoming to pass on propositions and each time turned them down because he thought they were no good. His judgment saved these men many thousands of dollars and proved his honesty. Today they are drilling in a field in Oklahoma that eventually will be the richest oil field in the world. So you see that by buying one of these leases you are bound to jump right into the millionaire class and can retire.

Read What This Experienced Oil Man Says on Buying Leases.

MONEY MADE EASY IN OIL FIELDS

Says a Drug Store Clerk, if a Person Has Some Money, a Little Nerve and a Chance to Buy a Lease Near a Well Actually Drilling

"Only one way of investing in the development of oil, that will insure a chance," says the Oklahoma Investor, in an interview with Oscar Howard, a man who has stepped from a poor clerk in a drug store to a multimillionaire, asking him how he did it. He said:

"I did not take me long to find out that Oklahoma had the oil, but how could I get a part of it was the problem I wished to solve. I had a very limited amount of money, not a fair job. I knew if I bought some land that was drilled to have oil under it, I could not drill a well as it took several thousand dollars to drill. In fact many thousands to buy even the casing after the well had been drilled, so I decided that my life was passing on and I must act or lose. Feeling that if I did not attempt to better my condition it would not be bettered, so I decided to buy 40 acres of oil lease near to where some responsible fellows were going to drill, so I purchased 40 acres at \$200 per acre. The lease was a five-year lease. The well was drilled to the depth of 2300 feet and oil was found. My lease was worth \$4000 per acre. I

took the lease amount of chance possible in farming, and the men who win in Oklahoma do the same on oil, so buy leases."

"Why is it that many people in Oklahoma have lost money by playing the oil game," was asked.

"Well, tell me this, why has Oklahoma passed a blue sky law," was the answer.

"Because so many companies were operating that had no capital, I suppose," was the answer.

"Yes, you guessed about right, and if the company did not have the money what became of the stock holder? He just had the pleasure of believing that he had something for a short time that's all, and if the investor had owned a lease he yet would have had something, because the well will be completed by some other people. Oil investments are the best if you win, and the best chance to win is by buying oil leases, in an oil country, and Oklahoma is sure an oil country."

"What do you mean by 'reasonably close'?"

"I mean within two miles."

"Then the main thing is to know that the concern that you are near will drill."

"Yes, that is it, exactly. You will notice in Oklahoma, shoe shiners, barbers and bankers like make millions when they play the game constantly, by buying leases. Oklahoma is so much of an oil state as Ohio is a farming state and farming is not a serious gamble in Ohio, is it?"

The reason is that the farmer in Ohio

sold half of it and retained the other part. When I bought some more leases where wells were being drilled, and it was just long until I was very independent."

Do Not Delay a Minute But Sign One of the Propositions Today and Mail to the Twin Falls National Bank

PROPOSITION NUMBER ONE
