SAYS TIME CAN BE EXTENDED

City Attorney Advises Council to Retrace Steps and Not Burden Corner Lot

In an opinion delivered to the city council last evening, City Attorney John E. Davison advised that the time for hearing protests against the block instead of placing the street paving can be extended without affecting the validity of the improvement bonds. Gravel is being used for the block instead of placing the concrete to pursue would be to retrace its steps to the point of re-assessing the districts formed and re-registering the block, incidentally, his former opinion that under the state law, while the contractor is engaged in the block instead of placing property from street improvements, it must spread the assessment over adjoining property to the block.

MANY MINERS GO BACK TO WORK—SAY GOVERNMENT FIELD AGENTS

WASHINGTON, Nov. 4.—Many striking coal miners are returning to work, according to reports to the department of justice today from agents in the field. The reports stated that wherever protection is being afforded, miners are making ready to take up their work again. The government is still in "a receptive mood," it was stated at the White House today, but the same condition, that the strike must be called off before negotiations are undertaken, prevails.

FARM BUREAU DENIES STORY OF CEDAR DAM

Attempts to Make Out That Men Only Wanted Transportation to Twin Falls

Attempting a refutation of the story told by workmen forced to work at Twin Falls from Cedar Creek last week when they claimed to have found working conditions there much improved after they had been shipped from Salt Lake, the county farm bureau issued a statement today declaring that many of the men had never come to Cedar Creek, but had stopped off at Twin Falls or Hebl.

Both Builders Go Far Over Estimate and Council Takes Time to Consider

Both of the two bids on street paving contract opened by the city council last evening were above the engineer's estimate of \$67,340 and were taken under advisement until this evening when the council holds an adjourned session. Although the bids being complicated by provisions of specifications, were not tabulated last night, they were approximately as follows: Warren Construction Company, Portland, Oregon, \$75,627.90; C. H. Hall, Twin Falls, \$74,000. The lowest of the two was more than \$65,000 above the estimate.

STEAMSHIP IS IN DISTRESS

Sends Wireless Distress Calls for Help. Answered by Government Ships Sent Out

BOSTON, Nov. 4.—"We need help immediately, power is getting low, sea running high and we are drifting to sea." The foregoing message was received by the government in the steamship headquarters of the steamship Whitehall. The steamer gave her position as 37° Cape Charles. It is thought the engine room had broken down. Government ships have been ordered out to help. The last position received was latitude 35° 55' north and longitude 75° 10' west. The vessel is a freighter and thought to have about 35 men in her crew. She registers 1710 tons and is bound from Boston to New York.

WORKERS USE OF COMMON SENSE

COBDOCHTOWN, O., Nov. 4.—"The practical, reasonable and common sense way to settle the strike would be for the government to take over whatever moral and legal power it may possess in compelling the coal operators and representatives of the mine workers to meet for a conference for the purpose of negotiating an agreement," said William Green, secretary treasurer of the United Mine Workers of America, in a statement, "in my opinion," Mr. Green continued, "this plan would succeed where the intervention of the public would fail. It ought to be followed."

INDIAN ORGANIZATION WILL INVESTIGATE DIFFERENCES BETWEEN MINERS AND OPERATORS

INDIANAPOLIS, Nov. 4.—Despite the professed optimism of Washington officials circles over the coal strike situation, Indiana officials are making plans to cope with a prolonged tie-up of the mines of the country. Lightless nights are in prospect in Indiana districts. The public service commission will meet this afternoon to consider the steps providing for discontinuance of street lighting on Armistice night, curtailment of electric current for shop windows and electric signs, and use of electricity from non-essential industries. Curtailment of use of artificial gas except where it is essential is another step outlined for saving coal.

D'ANNUNZIO SAW HIS DESTINY IN CHILDISH VISION

NEW YORK, Nov. 4. As a boy of twelve Gabriele D'Annunzio, the Italian poet who is winning the name of his country, France and himself large in history, had a vision; he saw himself as a great man, a leader, renowned beyond his fond's hopes.

Events are soon to prove whether the boy dream the childish mind conceived was true, but Antonio D'Annunzio, only brother of Gabriele, the man who is holding Dalmatian most important part in history of the powers of the whole world, believe they are. Antonio is living in Brooklyn and teacher model. Unless his brother's character has changed since his childhood, only brother of Gabriele will become Italian territory and Gabriele of Apennines will be the greatest man in Italy.

As a little boy only twelve years old Gabriele thought he was a "big man," named the brother. "He always said he would one day become a great man. He had a vision in which he was pictured as a person of power and influence over men. Gabriele was always as he is now, determined and resolute in his convictions. Once he made up his mind to do a thing it was always accomplished. And he was quick, even as a child, in reaching determination. One time Gabriele went down to Naples to say goodbye to a friend who was leaving for Egypt. The friend, just as the steamer was to leave, said: "Come along, Gabriele and I will go with you." Gabriele looked up quickly and answered, "Yes! He had no clothing he was breaking plans and arrangements, but it suited his whim and he went."

"When he determined to do any thing there was nothing in the world that could stop him. He would carry his idea through every trial to the bitter end. The spirit he now shows today is the same other than the one which he had in childhood. Even then he was a patriot and he knew that he should show traits which later made his life a universal example. Of course, he did not exactly show his love for sometimes, but he was a tremendous prof. He got money fast and he threw it away.

"He was full of Italian and Gabriele will not be touched. What will come then I do not know. I am sure Gabriele will be unajured, but I am afraid for his health. We were very close to each other when we were young. Here in my desk are letters from him, beautiful, passionate letters, and here are telegrams.

"The night I awoke in the dark to find a telegram from Gabriele with only these words: 'I love to see you.' When my mother was lying sick until death in Pescara in 1911 I called to him for me. Then he called back: 'I have kissed the Madonna for you, Mother. Be courageous. As I write to you I encourage you.'

Mr. D'Annunzio explained that he and his brother parted when they left for school. Gabriele went to a school in Foggia, near Florence, while his brother went to the Santa Cecilia Conservatory in Rome to study music. After that the two brothers did not have much personal contact except through the family living in Pescara.

MINERS WILLING TO NEGOTIATE

Will Arbitrate Wages on Selling Price of Coal or on Cost of Living Class

WASHINGTON, Nov. 4.—Despite a lack of successful turn in the coal market, the long delay in the fourth day since the coalition, it is believed that a settlement of the trouble will be long delayed. Under the official terms of things, the coal miners are at work all day long, but the coal groups are known to be working to meet a reconciliation between the coal miners and the operators before the latter has time to offer to the miners of a coal famine. Samuel Gompers, the labor leader, is making his influence to obtain a peace settlement along moderate lines.

Edward Walker, national representative of United Mine workers in Washington, said one of the few leaders whose temper is not held by the Indianapolis arbitration, stated that the miners are willing to negotiate with the operators on either one of two bases: first, on the basis of present selling price of coal, otherwise on the basis of the operators to pay 40 per cent of the cost of the present cost of living. That ultimately the settlement between the operators and miners will be made at least in part, on the cost of living basis, may be accepted as a far-going conclusion.

Whether the federal government acts as a conciliator, or the miners' four hundred thousand men out of the coal directly with the operators, as many if not all of the miners' leaders prefer, is not clear. In view of this fact statistics published by the Bureau of Labor, just issued, because of the excessive tonnage of coal produced since the beginning of the year, which would be set forth in such a manner.

Train Service Cut Not Due to Coal Shortage

NEW YORK, Nov. 3.—A. T. Hardin, regional director of railroads for this district, denied today that the coal strike was responsible for the curtailment of train service announced by several railroads entering New York.

"It is only a change from summer to winter schedules," said Mr. Hardin. "What may develop within the next few days is problematical, but I believe there is sufficient coal on hand to maintain normal railway schedules for a few days longer."

HANDLING STRIKERS AT LONG RANGE BUNK, HE RAISES 'EM MEXICO, Mo., Nov. 4.—All this talk about strikers having to be handled at long range is ludicrous, according to Bertie Oliver, a Mexico electrician, who is raising blue blazes with the intention of making "monkeys" out of them.

However, Oliver puts emphasis on one precaution. That is, "don't frighten 'em."

Oliver's pet is "no-snow" several months old and are growing rapidly. He declares a cat hasn't a "look in" compared with a "stank" when it comes to catching mice.

WHITE ARMY IN FORCED RETREAT

Bolsheviks Have Advanced So Far That Yudenitch's Army is in Precarious Position

LONDON, Nov. 4.—The advancing bolshevik army southwest of Petrograd has captured Gatchina and Luga and the position of General Yudenitch's "white" army has become precarious, according to advices from Helsinki today.

One unconfirmed report said that General Yudenitch's army was nearly surrounded.

A News Agency correspondent at the Finnish capital reported that General Yudenitch's forces were retreating, falling back to a line six miles west of the positions held Thursday.

EX-CROWN PRINCE IS WRITING BOOK

WIERINGEN, Nov. 4.—Wieringen is less remote and isolated than it appears to be on the map. The ex-Crown Prince lives at Osterding in a small seven room house. With three German ex-officers in attendance, and here the best of everything, in the shape of food, wine and cigars, finds its way from Amsterdam.

Little Willie, who is now a voracious reader of French and English novels, is writing a book (presumably his memoirs), and passes much of his time indoors, smoking innumerable cigarettes and painting the portraits of local female friends and acquaintances.

LAVERING THEATRE

NOV. 7-8

I take pleasure in announcing to the theatregoers of Twin Falls that the Laving Theatre will offer Friday and Saturday nights, November 7th and 8th New York's newest dramatic triumph "JOHN FERGUSON" which enjoys the record of having made the longest run ever accorded a dramatic production in that metropolis. It comes to us recommended by other cities as the treat of the theatre year. It is a play with a thrill, a throb and a laugh and that touch of artistry in its theme and presentation which places it indelibly in the memory of the discriminating playgoers.

I personally recommend "John Ferguson" as the important dramatic event of the Twin Falls theatre season.

JUNIOR CLUB WINNERS ARE ANNOUNCED

Specialist Arrived Yesterday to Pass Judgment on Work of County Leaders

William Kerr, swing specialist of Idaho University came in yesterday and helped the farm boys to select the winners in Junior club work. The victorious ones will not see a new trip to Potomac and will be guests of the state delegates. They will attend the Technical Institute in that city for a week after the Christmas or summer vacation.

With the awarding of the prizes the Junior club work terminates for this year. Next year it will be carried on as usual and the officials say there will be unbounded enthusiasm. The work has been very successful this year but when starting time comes next year it is predicted that the interest will surpass that of former years.

A great deal of good has come about through the club work during the summer and fall. The boys and girls have learned how to work to win and they have taken to the task throughout the summer without faltering. Through interest inaged at times, perhaps, the children kept up the work faithfully and many have reaped rewards. The trip to the Gate city will be the best of their life in their young lives for a hundred mile trip and a week's stay at a Technical Institute is a prize worth striving for.

The county judges were Miss J. Cushman, Jamstown, N. Y.; Mary Graybill, Filer; Mrs. E. H. McAfee, Mars; D. D. Bilgore, Mountain; Mrs. C. E. Melan, Twin Falls; Mrs. A. S. Bryant, Twin Falls; Mrs. J. C. Furrerfeld, Twin Falls; and Laura Lynn, Poplar Grove.

The Sister of Maria captured the county swapestake in bean growing. The prize was not the only one taken at Mars for that district captured more winning prizes than any other community.

Mountain, under the leadership of D. D. Bilgore, captured a large number of events and is looking forward to the continuance of the work next year.

John Jullian, whose picture appeared in a recent issue of The Times fulfilled the expectations of those who were in charge of the Junior club work by winning first prize in bean culture. John is 14 years old and raised a huge crop of beans for which he received a large amount.

The winners follow:

Beans
 John Halliday of Mars, first; E. H. McCaie.

Helen Macdonald of Mountain View, second; J. A. Griffith, third.

Earl Short of Mountain View, third.

J. A. Griffith, leader.

Corn

Poultry
 Earl Short, first; Mrs. Amos B. Martyn, leader.

William Hirsch, second, with Ruth Harvey, local leader.

Mildred Hirsch, third, with Ruth Harvey local leader.

Potatoes
 M. D. Davis, first, Mrs. E. A. Dryden, leader.

Bernard Martyn, second, Mrs. Aloys Martyn, leader.

Kenneth Compton, third, no leader, county at large.

Sugar Beets
 Donald Nelson, first; Mrs. C. E. Adams, leader.

No other prizes awarded.

Sheep
 Winfred Oliver, first; Laura Lynn leader.

Arthur Slatter, second; Mrs. E. A. Bryant, leader.

Joe Sawyer third.

Pigs
 Contance Hill first; Margaret Chastain second; and Teresa Dalton third.

Second Year Boys
 Fred H. Bowers, first; Harry Bowers, second; and Harry Bowers, third.

NEW SERIAL TO START FRIDAY IN THE TIMES

"Diamond Cut Diamond," Humorous Detective Story, Will Please Readers

This readers will be pleased at the announcement of a new serial story which will be started Friday, November 7th and will appear daily thereafter. "Diamond Cut Diamond," however, is the name of the greatest serial added as one of the greatest serials in the history of the Times. It contains something out of the ordinary, numerous detective tale, it contains a mystery that defies solution and is the kind of a story that catches the readers that they cannot afford to miss a line.

The adventures of a beautiful young French girl, Claire de Barmond, daughter of a diamond thief, and her romance with Billy Rivers, an American newspaper man, furnish the theme for an intensely interesting narrative of intrigue, danger and suspense. An American woman novel and a great detective story also figure in the story which is gripping interest throughout.

As stated the first installment of "Diamond Cut Diamond" will appear in The Times next Friday.

Plans Are Made to Celebrate Armistice Day

An enthusiastic meeting was held last evening in the Elks temple by the American Legion at which plans for the celebration of Armistice Day, November 11, were discussed.

Fred Halv was chosen chairman of the committee which is to make the plans for the event and other members of the committee are J. P. Merriam, Tom Harrington, E. L. Eppler, H. H. Thornburg and John G. Green. This committee was appointed last evening.

Immediately following the termination of the post meeting this committee met and it was decided that an elaborate program should be arranged for this day. One of the most impressive days in the history of Twin Falls will be the goal of this committee which plans to extend a welcome to all members of other county posts to be present.

A well-known member of the American Legion from some point in the state will speak during the day while concert and barbeque will feature the program. It is announced that a dance will be given in the evening. The committee will endeavor to work out a most detailed program later when the final dress order.

Tom Harrington, post vice commander, was chosen post commander for Armistice day. Arthur A. Barrington who has resigned as lieutenant in Los Angeles to enter a vocational school, Herbert Lauterbach was made vice commander to succeed Harrington.

A vote of thanks was given the Elks for the use of the lodge room. The judges mentioned that it favored the Morgan hill. A committee has been appointed to look into this hill and last night's action upon which will be in accord with the committee's wishes.

Missing Letter Page Contained Error, Will Run It Again Today

Owing to an error made in the arrangement of missing letters yesterday, the special page of advertisements used in the missing letter section of The Daily Times is republished today for the benefit of contestants who wish to try their skill and win a piece of popular sheet music.

The words "Twin Falls" will be formed by letters omitted from various advertisements on the page. For each of the first forty correct answers filed with the "Guide Editor" of The Times a piece of sheet music will be awarded.

Times "Lost" column immediately.

A Great Serial Story!

Diamond Cut Diamond

By JANE BUNKER

A Mystery That Defies Solution

Excitement! Complication after complication!
Suspense! A mysterious crime!
A secret kept to the very end!

A charming girl accused—innocent and distracted; a guant newspaper man who knows what to do; a detective; a girl pursued with seven blood-red diamonds; a Pittsburgh millionaire; complications of an international sort—yes, it's a real mystery story that can only be unraveled by reading it. No dipping into it or looking back at the end will enable the reader to solve the mystery. And Claire has a love story that's good enough to make a separate book, so thoroughly has the author mastered the art of story telling.

DRIVE FOR R. C. MEMBERSHIP IS WELL UNDER WAY

Everyone Will Be Asked to Join This Organization As Soon As Possible

The Red Cross membership drive is again in full swing. The committee has this morning put a damper on the campaign to this morning captains of the various blocks were putting every effort into securing new members.

Miss Beatrice Osterander said the work would be pushed hard from now on, but that weather may again hinder progress. A large number of high-school girls swarmed the city streets yesterday securing a great many new members. Everyone new was asked to join and of course few refused.

The block captains will endeavor to see everyone in their block that you may could not go around yesterday on account of the inclement weather. The teachers of the schools can only be asked to join as soon as possible, but other people will be asked when seen.

Twin Falls has a large quota to raise but those who have charge of the work believe the allotment will be raised if everyone does his duty. The worthy aims of the Red Cross are small. The Red Cross needs much money for peace time purposes and urges everyone to join as soon as possible.

MARON PEOPLE CHOSE OFFICERS

Permanent Officers Elected at Interesting Meeting Held Last Evening

Under the auspices of the local county farm bureau a meeting was held at Maron last evening for the purpose of electing a permanent president and secretary of the district. The ones going from Twin Falls were Mr. Bohrer, county agent, Miss Edna Laitzke, home demonstrator, Miss H. J. Cashman of Jaucauton, New York, and A. O. Howell.

An excellent meeting took place, approximately 75 people being present. Great interest was shown in the work of the farm bureau and it is believed that excellent results will come about through the co-operation of the rural people with the farm bureau. The bureau plans to notify the leader of each district of existing their duties. It is of interest to the farmers so that they can get the benefit of the visits of all experts from the state university who are coming to the city regularly.

J. T. Walker was elected permanent president and Mr. Bohrer, secretary. Mr. Walker had been elected president pro tem at the preliminary meeting last week and was retained in the office.

Potatoes, poultry and clover improvement work was taken up.

"I'll follow up on my farm work, and the matter of erecting bird larches in the Maron school was discussed and it was decided to serve three meals a week to the students. Many other phases of the work were discussed and when the meeting terminated the ladies of the community served punch and refreshments. All voted the affair a high success from every standpoint.

Entertainment was furnished by the Miss Maitlands from Twin Falls. A meeting will be held tonight at Maron to view the same pictures for which the one at Maron was held. A preliminary meeting was held there some time ago.

PRICE OF GAS CUT 13 CENTS

The price of gasoline reduced from 12 to 10 cents

The price of gasoline reduced from 12 to 10 cents today. The price was not made generally over the entire country by the various oil trusts, but was made to those users who had a direct interest in a permit to investigate one of the two or three devices selected out of thousands put under severe government tests in order to reduce the quantity of gas used during the war.

The device as all other successful tests by the government have shown, to reduce the public throughout the country, and at this time and after through barrelization for ourselves, we can save this saving of 13 cents per gallon on gasoline is made by the difference of 17.6 milles per gallon with a standard make vacuum carburetor and 28.4 milles per gallon with a new device with a direct feed called the U & J carburetor.

All we ask is the opportunity for a demonstration of the U & J carburetor and if the same does not prove in itself a saving of 40 per cent on your gas bill or an increase of 40 per cent more mileage we do not want you to spend any more time than it takes to change over to the U & J carburetor will prove by its actions that you can make this saving and that you will then be a consumer and user. The U & J carburetor is not high priced and today is made for the following cars, Ford, Buick, Chrysler, Overland and Maxwell, but can be fitted out for other makes of cars. Our guarantee with this carburetor is your money back if the U & J does not do what we claim it will do. So why not call at Johnson & Hovvra, Twin Falls for a demonstration on your own car. It means a saving of 40 per cent to yourself. So call at once. Your car bill is too high. Call and get a demonstration.

WORKERS IN PITS LEAVING INDUSTRY

GET PINT OF BEER DAILY

LONDON, Oct. 4.—John Richardson, ninety-four, veteran of the Indian Mutiny and for twenty-five years, inmate of Bordenway workhouse, will get a pint of beer daily for the rest of his life. Recently he lost his Mutiny medal and when the War Office supplied him with a replica the proclamation was made an event at the workhouse.

When S. H. Butcher, master of ceremonies, asked the aged veteran what he wished most for the remainder of his days, he replied:

"Well, I should like a drop of beer continually."

He'll get it.

HAN SLEPT TWENTY-SEVEN DAYS

NEW YORK, Nov. 3.—Mrs. Ivan Mizy of the Bronx was still asleep today, the twenty-seventh day since she was stricken with "sleeping sickness." Physicians are completely baffled.

BRITISH PUT BAR ON PROFITEERING

LONDON, Nov. 4.—Food profiteering is being stamped out in England.

The £31, which has been voted for several years, is growing more and more determined. Where there are legal lacks or obstacles Parliament straightaway gives a prod, and those quickly issues forth necessary legislation. The chief aim of the food ministry has been to eliminate the food speculator. Unless a person has been recognized dealer in foodstuffs he is not allowed to do business. When the armistice was signed certain powers of the food ministry were transferred to the war ministry, while while Parliament is putting through a drastic anti-profiteering measure.

Maximum price setting by the ministry of food on staple foodstuffs, with graduated allowances to certain portions of the trade—the importer, wholesaler and retailer—has been the chief means of preventing ever higher prices than those which the ministry. Quantity buying by the government, which acted as importer of certain necessities also has tended to keep prices somewhat lower here than in other European countries.

The food ministry will continue at least another year, while in some official quarters it is believed that the industry cannot be wound up inside three years if consumers are to be protected properly. The ministry may eventually announce a department for supervising weights and measures, enforcing food-health laws and promoting similar activities.

WILSON EXPECTED TO DECLINE 'PRESIDENCY OF NATION LEAGUE'

LONDON, Nov. 3.—President Wilson is expected to decline the presidency of the league of nations, giving the place to Paul Hymann, the Belgian foreign minister, said a dispatch from Geneva today, quoting the Tribune, De Geneva.

D'ZNY--WRECKED HIS AUTOMOBILE

"Two years ago my stomach (D'ZNY) got so bad that I was almost constantly filled with gas. This made me very dizzy at times. Last fall I was almost overcome by one of these dizzy spells while driving my car, and ran it into a telephone pole, badly wrecking the car. A friend recommended Mrs. Wonderful Remedy for my trouble. Since taking the first dose I have steadily improved, and feel better now than ever in my life." It is a simple harmless preparation that removes the carterinal mucus from the intestinal tract and allows the inflammation which causes practically all stomach, liver, and intestinal ailments, including appendicitis. One dose will convince you money refunded.

KEEP MOUTH SHUT, WORK HARD, ADVICE OF CHARLEY SCHWAB

CHICAGO, Nov. 4.—"In the time to keep your mouth shut and work hard."

Charles H. Schwab, head of the Bethlehem Steel company, announced the industrial situation in the above sentences on his arrival here today on route to the Pacific coast.

"I wouldn't discuss industrial conditions with anyone," he said. "I don't know what's different. I'm a staunch advocate of a dry America but I'm angry at the manner in which the richman has been permitted to stick up and the poor left with his tongue hanging out. I think a law would have applied universally to what our liquor might have been fringed."

The Truth and the Facts About the Fashions and Worth of Men's Fall Top Coats Are Now Being Set Forth

They are to be seen in the new garments just arrived in our Clothing Store.

They are new and fine and beautiful.

The convenient fashions this season lean to double-breasted coats, but in such variety that every man can find something to his taste.

There are forward-fitting coats with high lines, flaring skirts and pockets of various styles.

There are fitted coats with wide collars and pronounced military effect.

There are trim, smart, narrow-collared coats of great beauty of line.

And all finely silk trimmed.

Fall's are various and colorful—single autumn leaf shades are browns and greys. For those who like them there are 'green' overalls, very British in effect, and there are some knitted fabrics.

A mighty distinctive bit of top-coats from some of the best makers in America. Prices \$30.00 to \$55.00.
