## Two Strings Are Tied to Peace Treaty

WASHINGTON, Nov. 8.—Hammered from every side, Republican Leader Lodge today stepped his second peace treaty reservation through the senate by the decisive vote of 50 to 35. Today's test was on the withdrawal reservation, and despite repeated attempts by Democrats, Republicans, mild reservationists and "bitter enders" to alter it, the Lodge bill held ground until the final roll call.

## R. C. CAMPAIGN PROGRESSING

Local Officials Want Number of  
Cars Monday Morning To Go  
Into Country.

The Red Cross campaign is coming better in the city, officials of the Red Cross state. "The country has never been lagging so far behind as it has been in very rapidly. There are a few country districts in which it is feared no one is working. In case the captain of a district did not call for her supplies they were mailed her. The Red Cross does not know how much work the people in some of the rural districts are doing. A great many of the country leaders have not turned in their reports and it is not known whether or not anybody is working there."

"The Red Cross desires 10 or 15 cars on Monday morning to go into the country. These cars should be on hand at the Perrine hotel at ten o'clock Monday morning so that they can be directed where to go."

"The city is doing quite well now," said Mrs. Lafer, branch chairman, of the Red Cross. "We have no way of getting to the rural districts to ascertain what the leaders are doing and we must have at least 15 cars on Monday morning. The cars will be sent to go more than three miles from town."

"About two-thirds of the city block committees have reported to headquarters. When anyone does report results have in each case been excellent, especially among the rural districts. The rural districts have not been asked to join."

"All day Saturday a number of high school girls arranged to go to the country to collect a large amount. Yesterday was a busy day at Red Cross headquarters—the first real busy day that they have had," the officials say.

## BOATMEN'S NAME TERMS

Allow 'Ar' Given Until November  
15 to Officers, When Ger-  
many Will Get Them.

LONDON, Nov. 8.—The allies have been given until November 15 to report to the League of Nations peace terms, according to the Labor Herald.

The Labor Herald explained, whereas reservations are merely conditions attached to the resolution by which the treaty is ratified.

WASHINGTON, Nov. 8.—The House today passed a bill to provide for the completion of these war-time projects.

## M'KAIG LIBEL SUIT—AIRS OLD PARTISAN FIGHT

Frank Gooding's Free Charge of  
Pro-Germanism Basis for  
\$50,000 Damage Case.

BOISE, Nov. 8.—The \$50,000 libel suit brought by Hay McKaig, chief secretary of the Nonpartisan league, against Frank Gooding, publisher of the Idaho Statesman, was set for trial today.

The case is the outcome of the political campaign of 1918 for which McKaig was the Republican candidate. Gooding caused to be printed over his signature, in the Statesman, as well as in dozens of other papers throughout the northwest, the charge that Hay McKaig was a sympathizer of the Anti War Views and human friend of the late Wilhelm II.

McKaig was in the federal prison at Leavenworth for dilatory. Gooding also published charges McKaig with being a traitor to his country, with harboring with anarchists and bolsheviks.

McKaig was the Republican candidate for United States Senate in the last campaign. Gooding sought the withdrawal of the injunction from the northern circuit court but the farmers did not believe that he would ring true to them and turned him down flatly.

At least five or six of the pending reservations will be disposed of without a vote.

Democrats were warned by Lodge that if they voted against reservations agreed upon, the treaty will be null and void.

The senate, now in committee of the whole, is trying to draft the reservations. They are voting on one at a time.

Some say the treaty cannot be killed until the senate is in a session to ratify it.

## FROM THE PRESS BOX JUG

SHU afflicted with the wheezing habit, Ad. Gustavo, Argentine champion, comes up panting after a match in Valparaiso, long enough to inform us that he is asking for a trade with our own TITL E. W.

Ad pulled off Jimmy Meehan, the Idaho middleweight, in rather a close battle at Valparaiso, according to newspaper accounts of the match. Meehan was dumped twice in thirty-six minutes. Gustavo, as a writer in The Times, sporting editor, states that he has fully recovered from an injury to his leg and has just returned to the stupa from Canada. His two matches since coming back have been victories. Meehan and H. Knappe of Valparaiso, being the victors.

### TIGER-CRIMSON PLAY TIE GAME

Harvard Comes From Behind After Being Ridden to Death by Tigers—Score 10 to 10.

**PALMER STADIUM, PHOENIX, N. J., Nov. 8.**—Edward L. Casey, Harvard's star, the first, elusive halfback star of numerous victories and a team of himself, saved the "Crimson" eleven from defeat this afternoon. He scored a touchdown that placed the Tiger off the Crimson back and saved the day with a 10 to 10 tie.

The Harvard stands, huddled to the ears in excitement, recognized their safety to the season's critical stroke of fate when the fourth period opened, with Princeton leading 7 to 5. Apparently the death blow to their last hope came when Frank Murray kicked a field goal, making the Tiger pile to ten points. Then entered Casey.

He ran a forward pass for forty yards. Then he rounded the end for seven yards and the Crimson side of the stadium rose to their feet. Again Casey hit the line and waded through for five yards. Then he dashed behind the goal line and opened his arms into a burst like shape into which dropped a forward pass from Pettion. He danced around, sidestepped, dodged and evaded the Tiger jockers and placed the ball directly back of the posts. Harvard's record was spared his first defeat.

Gustaf pulled off one match in Twin Falls and one or two others, in the country last summer and stopped himself at a first rate man. He lost to Charlie of the terrible Swede at the Lavering, but it was rather a funny defeat, as Gustaf had carried the battle to Charlie all the way but it was when Charlie stopped him over his shoulder in such fashion that Ad landed on the back of his neck.

While Gustaf is a middle-weight and Charlie Lewis ranks as a light-heavy, such a match ought to be a fair one. Lewis has had one chance to show his face what he can do. He employed most workmanlike methods in dispatching Jack Gustaf as he did the other evening and while that fact exactly the same as beating Ad, Gustaf, Lewis acted like a regular performer. Gustaf has a soft and varied attack that has spelled ruin to many a better fighter than himself. He is the best, the one-eyed type, with a well-oiled pair of legs and heavy shoulders. Ad expresses himself as anxious to get a meeting with Lewis, whose reputation as a tough one has traveled up that way. Since Lewis is equally anxious to get a chance at Ad or anybody of his class, like the fight promoter, might have held or arranged in arranging a bout.

**NO PLACE TO GO TODAY.**

The flicker of the oil stove used not today, be the only companion for the lonely. There need be no lonely young man or woman in town today. The demand for a place to go has been supplied in response to complaints that it has not existed heretofore.

The pastor of the Methodist church invites young folks to meet him and each other at the church this afternoon. He is not going to preach a sermon or deliver any homilies on the deficiencies of the present-day civilization. There will be no set program. Folks are just invited to come there and make out their own good time.

And to make it all the more informal, somebody, the preacher doesn't say who is going to serve, loafers and sandwiches.

Whether there is a big crowd for some place to go will hardly be proved by the excitement manifested by this church in its first meeting, but the experience may furnish a guide for future work.

It might be well for those who are without acquaintances in the city, young men or girls, young women or old women, to attend the open houses from 3:45 to 5:30, just to see what is going to happen, to make suggestions for future work along community lines, and to become acquainted with others.

The Times wishes to congratulate the young woman who started the movement for this city's betterment no less than the Methodist church which seized the opportunity to fulfill what it declared to be a community need.

**GOOD FENCES**

It seems necessary to inaugurate every good movement these days with a slogan and a "drive." This method attracts and holds the attention of everybody and establishes a feeling of co-operation which helps the project to progress.

One of the recent drives in a southern state is called the "have-a-fence campaign." Its purpose is to get farmers to put up neat, good looking and serviceable fences in place of the dilapidated, inefficient ones now standing on only too many farms, or the total absence of fences where they would be of great benefit.

A good fence improves the looks of a place. It also simplifies caring for livestock, preventing overfeeding and saving forage crops.

Naturally enough other improvements follow close on the better fence. With a nicely repaired old fence or an attractive new one around the farm house itself, the farmer subconsciously notices that his front porch is dropping a little and needs some improvements. The good work spreads to the whole house, which soon receives that long neglected coat of paint, and is re-shingled and "fixed up" generally.

In Finney they hissed the American flag. America might retaliate by a boycott on spaghetti.

Vismont Grey is bringing his own tea to America. Don't crowd boys. It's really tea. The vismont doesn't drink anything else.

**CITY DEFICITS.**

Federal statistics show that most American cities have been living beyond their income. Of the 227 cities of more than 30,000 population, only 80 had a surplus at the end of the last fiscal year. There were 147 ending with a deficit, which averaged \$3.48 per capita. Thus most of the urban population of the United States is "in the hole" in the matter of municipal expenses.

There is no reason, however, for being alarmed about it. If a family or business firm has a deficit, it is likely to be a serious matter, because that family or firm is presumably making all the money it can, and if it is paying out more than it takes in, there may be great difficulty in fixing up the hole. A municipal deficit, on the other hand, is mostly a matter of book-keeping.

Estimates are made of probable expenses during the coming year, and then tax-payers are obliged to contribute whatever amount is judged necessary. In recent years it has been very hard to estimate correctly. Municipal expenses have risen so rapidly that they kept eating up the money provided, so that it failed to last out the year.

A city's resources, while not bottomless, are more nearly so than those of its citizens. Generally speaking, the city can collect what ever it wants. The remedy for these deficits, then, is simply to raise the tax rate sufficiently to cover the new scale of city expenses. That is an unpleasant prospect, but it has to be done, temporarily at least.

Tax payers will grumble, of course. Grumbling is the inalienable right of the taxpayer. It should be remembered, however, that most citizens have more money to pay taxes with than they need to have, even after paying all their other abnormal expenses. And when it comes right down to brass tacks, the average citizen pays little enough for all the benefits he gets from that great cooperative association known as a city.

**SUPERNAI. POLTRY.**

"Super" is a somewhat overworked adjective, in these latter years. There have been super-men and super-women and super-dogs and super-cats and the rural variety and folks back in plain, common things with relief.

The idea of the superhen, however, is decidedly attractive. Alton E. Briggs, President of the National Poultry, Egg and Hatchery Association, predicts this remarkable bird. He says she will be an egg as a turkey, and will lay eggs two or three times the present size. He expects the hen to be produced in the near future. She is being tried today.

The man who breeds the golden hen and the man who writes the golden poem are in the same class. They are experts, and the world bows to them.

And as to having boilers with diminished? Thanksgiving decorations, and eggs so big that four will make an outlet and five a lady Baltimore make all welcome, three welcome and four...

There is a political party in Germany waiting for the elevation of the former crown prince to the German throne. To the ordinary observer he would hardly seem to be worth half a crown.

**VENUE LISTED CREW DEMANDED INSPECTION**

JACKSONVILLE, Fla., Nov. 5.—At the demand of the crew of the steamer Alborn, which landed here at the wharf of today, the vessel was surveyed at the order of the United States commissioner and a portion of her deck load was ordered removed.

The crew protested that the vessel listed badly and demanded an official inspection before she cleared port.

**SMALLPOX IS IN MILD FORM**

LACRIBE, Tex., Nov. 5.—This place is free from the ravages of a recent case of a mild epidemic of smallpox. The schools have not been quarantined and the ban probably will be lifted within a few days.

**MEXICAN BANDITS HAVE KIDNAPED A UNITED STATES CONSUL AND HELD HIM FOR \$150,000 RANSOM.**

They'll soon have a regular ransom schedule worked out for all kinds of American officials.

Everybody works but workmen; they sit around all day, smoking beside the fire, striving for higher pay. Mother will talk in Washington, so will Sister Ann, if these strikes are not settled pretty soon.

The one redeeming feature of recent industrial crises has been that they showed the president still capable of transacting public business in emergency.

The Good Book says the way of the transgressor is hard. From which it may be concluded that there are quite a few transgressors in the U. S. A.

New York announces that "delivery of beer in kegs" ended today. Will they deliver it hereafter in oil cans, or ginger ale bottles, or beer?

The New York man who tried to give away a dollar because he couldn't fly anything with it, might have bought four Thrift Stamps.

Some time the farmers may all go on strike. Then everybody will recognize, all at once, the wisdom and folly of strikes, and proceed to figure out some way to prevent them.

**ATHLETIC UNION TO PLAN OLYMPICS**

NEW YORK, Nov. 5.—Preparations for America's participation in the Olympic games next year in London are being made at the annual meeting of the Amateur Athletic Union which is to be held Monday, Nov. 14, at the Waldorf Hotel.

The union will be represented by a committee of prominent athletes to be named by the Amateur Athletic Union. It will be the duty of the committee to select the athletes to be sent to London, to be before the delegates for their approval.

The championship committee will have a big task in selecting a squad without championship meetings for next year. There have been more requests for the events than there are athletes available, and the committee, in particular, the demands has been heavy. There are four more applications for every event on the list.

MINNEAPOLIS, Nov. 5.—Illinois hired dog Gopher boys of Mining in the 1st conference tournament and did it in the final quarter of a heartbreaking game. The death certificate read: Illinois 10, Minnesota 7.

**WOMAN WHO HAS BEEN UNHEALTHY**

When the body is complete in all its various parts it is a marvellous organism. Throbbing vitality gives up the healthy body and gives one courage and ambition. It thrills one into the possibility of life. To such a person, inactivity is quite impossible. Such a man grows, he improves, he ascends, he becomes a dominating force in the world.

Can pulsating, vibrating vitality of this kind be obtained. Can one who lacks organic vigor obtain these valuable forces? If you have failed up to the present time to become a complete man or a vigorous woman you can receive the reward you want and desire.

## VITALITY

### What Is It?

"Vitality—What is it? Whether it is the essence of life, what life is. Again Webster says that life is vitality or energy, and energy is defined as force. Your vitality really is force. But force is your ability to do which really is life. Each organ of the body is depending on this force for vitality to make it perform its function. You cannot be strong unless all the organs in your body are receiving a normal amount of this force. Suppose just one organ in the body is not receiving its force. As a result the organ is not performing its function properly. What is the result? The organ becomes weak and the body is given an added work to do. This added work soon causes them to get weak and worn out. Soon these organs fail to perform the amount of work required of them and the three tubes work on to one or more of the strong organs. This is the way the body becomes run down. The whole system of organs and muscles are consequently involved. To correct this condition is to correct the primary cause.

Suppose for example the force given to the stomach is less than normal. The stomach could do only a small per cent of its part of digestion. Gas may form in the stomach and cause pressure upon the chest cavity. Heart disorder soon becomes indicative and the patient thinks he has some pathological condition of that organ. But this may not be the trouble, as the action of the heart is only an indicative condition. The pressure of the gas will also affect the breathing. The lungs will be crowded and the breathing will show the superior costal type. This short and rapid breathing soon causes one to fear that grave lung trouble is near. The lungs will not receive enough oxygen to purify the blood and the carbon dioxide gas accumulates and you become cyanotic. The tight feeling in the chest and sense of suffocation is then present.

Having explained the action of such a case upon the chest cavity and the organs contained therein, let us look to the abdominal cavity and the organs of digestion. If the food is not thoroughly mixed with the gastric juice in the stomach, the lack of this part of the digestion will throw more work upon the small intestine. Soon these organs are showing signs of overwork, and being overworked they show signs of slowing up in their function. The lactical fluids of the small intestine do not receive enough digested food to supply the blood with building material. The body appears to be wasting away, weakness and loss of weight, profuse perspiration, constipation or costiveness may appear.

The kidneys may be affected in like manner. The stomach receives only a small per cent of its nerve force and is faulty in performing its part of digestion, causing more work for the intestines. This abnormal function will soon put more work upon the kidneys. The kidneys soon become weak and some form of kidney trouble appears as a result of ab-

### Idaho Apples Well Thought Of In Eastern States

Idaho apples are the cream of them all, according to an advertisement in the Philadelphia North American, a copy of which has just reached Twin Falls.

Idaho is justly famed in the east for her luscious apples and dealers say they bring extremely high prices. An ad in the above named paper urges all those who expect to buy apples to choose the ones from Idaho, Oregon or Washington. The apples from these states are of superior quality, taste the advertisement in substance and everyone should select the "rich, red Jonathans" from these states.

There is no question, eastern dealers say, that western apples are unequalled in flavor, beauty and lusciousness.

ONE DANCE A MONTH AT OKLAHOMA

NOHMAN, Okla., Nov. 8.—Fraternal societies and societies at the University of Oklahoma may have one dance a month—if the faculty doesn't decide to stop that, one. But out-of-town guests are not to be invited.

There's too much touching of the "hook you love to touch" and too much attention about the shimmy to suit President Stanton D. Brooks, he said in effect when he pronounced of the one dance schedule. Three new dance halls died when the sentence was executed.

PROHIBITION CAUSES TEA SHORTAGE

SYDNEY, Nov. 8.—There is a shortage of tea in Sydney.

Very little is coming into the country, and that at a price far above what Australians have paid in the past. The total price of tea has advanced 24 a pound during the past few days.

Entertainment, Lewis Hariman, Eunice Long, Constance White and James Wood; refreshments, Ellen Leeke, Maxwell Baker, Maxine Blings and Marjan Farrar; Decorations Mac Goodrich, Loyce Lee, Elmor Finch and Carl Edwards.

# The Best Amusement Ever in the Valley Coming to Twin Falls

**IN ANNOUNCING GUY BATES POST** as the best amusement attraction ever seen in the Great Middle-west I am only voicing the opinion of the critics of Portland, Seattle, Los Angeles and San Francisco and every other city in which this well known star has presented "THE MASQUERADER" not in past seasons, BUT RIGHT NOW—

**THE SAME EXCELLENCE COMPANY—THE ONE THAT HAS PRESENTED THIS ATTRACTION SINCE IT BEGAN—**The same wonderful scenic equipment—with its double revolving stages—its three mechanical crews—its triple electrical equipment and inimitable resources that requires three mammoth cars to transport, will be seen in **TWIN FALLS ONE NIGHT—WEDNESDAY, NOVEMBER 19th—**

**WHEN NEGOTIATIONS BEGAN** for this wonderful organization, the writer made a personal investigation. Because of the extremely high terms demanded, in order that I might be fully and thoroughly familiar with the merits and massiveness of this presentation. I was more than convinced for the trouble, by securing what I honestly believe to be the most finished and impressive theatrical entertainment ever seen, **THE MOST COMPLETE THAT HAS EVER MADE A TRANSCONTINENTAL TOUR—**

**THE STAGE OF THE LAVERING THEATRE IS LARGER THAN MOST STAGES THROUGHOUT THE WEST,** and yet by actual measurement there is but four inches to spare in accommodating this massive production, and only that is made available by removing every vestige of house scenery and equipment, **AND BUILDING A FALSE PROSCENIUM** in fact the Manager for Mr. Post made a special trip to this city and personally measured the stage to make certain of its adequate dimensions.

**IT IS WITH PARDONABLE PERSONAL PRIDE** that I can and do assure the amusement lovers of the valley of the unusualness of this production—Mail orders will be received and reserved in order of reception now. The usual and customary box office sale will open six days in advance of the engagement.

PRICES—the same as in Every City and will range from \$1.00 to \$2.50—And I desire to state while there is no chance for **THE LAVERING Theatre** to make a profit from this exceptional engagement, I feel certain amusement lovers will amply reward by their continued and appreciated patronage.

Respectfully,  
**E. C. LAVERING**

**PRINCE OF WALES MAY TOUR THROUGH INDIA**

BOMBAY, Nov. 8.—It is understood here to be definitely settled that on the conclusion of the Prince of Wales' American tour a preliminary program will be arranged for him to spend nearly five months in this country when the weather is at its best. He will probably arrive in November and leave in the March following.

Even in a tour of this duration it will be impossible for him to visit all the places which are worthy of a visit and are anxious to welcome the Prince. It is fairly certain that the tour will follow much the same general route as the occasion of King George's visit as the Prince of Wales in 1905, and India is looking forward to seeing the British monarch in welcome the future Princess of Wales.

The tour will involve travelling something like ten thousand miles, covering all the most important centers—from Bombay to Mandalay and Peshawar to Madras, and including possibly a trip to Ceylon.

**HOUGE AND POWDER ARE PROHIBITED AT GIRLS' SCHOOL.**

BROOKLYN, N. Y., Nov. 8.—Houge and powder, openwork wafles and short dresses have been prohibited at the Parker Collegiate Institute. An announcement issued by Miss Maud Nelson, principal of the Institute, stated that "fringe and powder were not artistic, neither are exaggerated styles. We have been compelled to tell some of the pupils to leave their hair alone, but not sufficient." It was stated also that after a few days of gauging the amount of natural color in a girl's cheeks it has been found quite simple to spot artificial hues.

**AMERICAN GUARD TAKEN REFUGES TO KOLCHAK**

LONDON, Nov. 8.—An armoured train carrying 500 rifles to Admiral Kolchak's anti-bolshevik army in eastern Russia, was held up by a Siberian force under General Semenov, who documented 15,000 of the rifles, but the American guard refused to give them up, said a dispatch from Omsk today. The Siberian force then forced the American rifles by force, but a Japanese detachment intervened and the train proceeded.

**ANOTHER ROOSEVELT BABY BORN**

NEW YORK, Nov. 8.—A daughter was born here today to Mrs. Kermit Roosevelt, being the second grandchild within a week to be added to the family of the widow of the former president.

The child will be named Belle after Mrs. Kermit Roosevelt's mother, Mrs. Jos. Willard, wife of the American ambassador to Spain, Captain and Mrs. Roosevelt have two other children, Kermit Jr., four years old, and Joseph Willard, two years old.

**EARTHQUAKE SHAKES VALLEY OF UPON TIBET RIVER**

ROMA, Nov. 8.—Scores of persons were feared to have perished in the 150 buildings damaged and the population of two towns, driven into the country by severe earthquake shocks which rocked the upper Tibet river valley last night, according to dispatches from Acre today.

The towns of San Raphael and San Bartolomea were worst damaged severely. People were camping in the streets, dispatches said.

**RED CROSS IN BIG WAY TODAY**

NEW YORK, Nov. 8.—With three more days to go in the Red Cross' third rail call, working forces all over the United States today concentrated their energies on making dispatches for the second Sunday the drive, the biggest day.

The campaign will close Tuesday, November 11, Armistice day. Before that day campaigns are hoped to have raised their goal of 1,000,000 new members of the Red Cross. At the same time the organization is conducting a campaign for \$100,000 to carry out its program in Europe.

**THE PRIZE FISH YARN**

NEW BLOOMFIELD, Pa., Nov. 8.—Frank Orvin, who lives near here, is the author of the prize fish story of the season. He has secured a minnow buffalo creek watching his line he said, when there was a commotion in the water. A three-pound bass jumped out of the creek and he hooked on the bank. His theory is that the bass was pursuing a minnow. A minnow was found in the bass's stomach when the fisherman cut it open.

**BY BIG MONEY SUBSCRIPTION**

NEW YORK, Nov. 8.—Encouragement to the striking steel workers was offered at a mass meeting in Madison Square Garden tonight when more than 100,000 people crowded and more than \$600,000 pledged to aid them. Organizer Wm. Foster, chairman John Mitchell and other strike leaders spoke and declared that the steel mills are still idle and would remain closed until the strike was won.

**SOLDIERS STICK TO DI'ANNUNZIO**

ROME, Nov. 8.—A dispatch from Fiume declares the soldiers under Gabriele D'Annunzio refuse to accept discharges although their term of enlistment had expired. The soldiers did they preferred to remain with D'Annunzio until the Italian fleet of Fiume to Italy as he wished.

**CONTEMPT PROCEEDINGS**—An affidavit has been filed in district court by Herbert Frame, one of the defendants in the case of E. J. Malone vs. Tom Urie, et al, as part of proceedings for punishing a contempt of court. The affidavit sets forth that in violation of a court restraining order, the plaintiff is maintaining a fence that obstructs entry and passage upon certain property by the affiant and his family.

**School To Have Annual**—Mrs. Gertrude Chiles of the English department of the local high school will, with the editor in chief, take charge of this year's "Coyote" with year book put out by the Senior class of the high school. Miss Alice Johnson sponsored the publication of the "Coyote" last year but she finds it impossible because of lack of time to undertake the work this year. Everything is being done to make this year's book the best ever and an effort has been selected to co-operate with the faculty adviser.

**Dr. Van Cott, maternity specialist,** announces that his office is moved across the hall in the same building over Fisher's Drug store. Office phone 47 (not in the phone book); residence phone 289.

**MOSARCHISTS PRISON**

LISBON, Nov. 8.—Representatives by friends of political prisoners here have resulted in considerable concessions being made by the authorities, and life in the Lisbon penitentiary is now bearable and even pleasant at times.

Although a close watch is kept on the "politicians" they are allowed much liberty within the walls of the prison, and last week they organized a grand ball. There were 85 prisoners of both sexes, mostly musicologists, and all the dancers were attired in faultless evening dress. The orchestra was composed entirely of political suspects, and dancing was kept up until the small hours of the morning.

**OPERATORS EXPECT LONG STRIK**

WASHINGTON, Nov. 8.—At coal operators headquarters here it was said the operators throughout the big coal producing regions are figuring on sixty days more of idleness. They estimate it will be at least that long before the miners will consent to go back to work, even though the operators offer the court order and call off the strike. By that time the operators believe the lack of strike benefits, tied up by the injunction and the absence of leadership will force the miners back.

## Conference of Fifteen to Meet At President's Request to Form Industrial Program

WASHINGTON, Nov. 8.—The program for the "conference of fifteen" very shortly to be named by President Wilson, will be a study of the relations between capital and labor, it is already determined.

Members of the president's plan to bring about peace where only strife has been known before. There will not be made public in concrete form, but a number of problems of the conference will be to agree upon certain principles of industrial relations which can be suggested to employers and employees as a foundation for the national law-makers as a basis for legislative enactments.

"The Great Confession" is the lesson for the adult department of the Sunday school of the Methodist church, which meets at 9:45 a. m., Sunday. This department has been on the decline in comparison with the young people's department the last few Sundays. There are four classes persisting for all adults of the church and all such are invited. The reason is one that cannot help but be both interesting and profitable. Confession of Christ the foundation of real church building.  
Confessions of Jews as "Christ the Son of God" are not in evidence as in the past. The reason why will make an interesting discussion. Come and enjoy the study of this great and interesting subject.

**And YOUR WASH-DAY TROUBLES WILL FADE AWAY**

**Western Electric Washer and Wringer**  
Wash day! Why are you always glad when it comes? There's a secret here. Wash and wringer are not the same. Wash is the first step and wringer is the second. Let the Western Electric Washer and Wringer do the work for you. It will save you time and money. It will wash and wringer your clothes better than any other machine. It will save you the trouble of hand washing. It will save you the trouble of wringing. It will save you the trouble of carrying heavy loads. It will save you the trouble of getting your clothes wet. It will save you the trouble of getting your clothes dirty. It will save you the trouble of getting your clothes torn. It will save you the trouble of getting your clothes stained. It will save you the trouble of getting your clothes faded. It will save you the trouble of getting your clothes frayed. It will save you the trouble of getting your clothes pilled. It will save you the trouble of getting your clothes shrunken. It will save you the trouble of getting your clothes stretched. It will save you the trouble of getting your clothes wrinkled. It will save you the trouble of getting your clothes bunched. It will save you the trouble of getting your clothes tangled. It will save you the trouble of getting your clothes matted. It will save you the trouble of getting your clothes knotted. It will save you the trouble of getting your clothes frayed. It will save you the trouble of getting your clothes pilled. It will save you the trouble of getting your clothes shrunken. It will save you the trouble of getting your clothes stretched. It will save you the trouble of getting your clothes wrinkled. It will save you the trouble of getting your clothes bunched. It will save you the trouble of getting your clothes tangled. It will save you the trouble of getting your clothes matted. It will save you the trouble of getting your clothes knotted.
