COAL STRIKES OFF

Mine Workers Bow to Mandate And Court Approves Recall Order

RAIL STRIKE NOW PENDING

Director Hines Meets Brother-hood Chiefs to Discuss Their Demands

WASHINGTON, Nov. 11.—With the dawn of peace in the coal situation, the government today was facing another labor crisis.

Director General Hines of the railroad administration was today meeting with the chiefs of the four big railroad brotherhoods prepared to answer their demands for increased wages. No talking has come from the railroad administration as to just how far the government will go in meeting these demands, but the brotherhood chiefs have been very positive in their demands.

Railroad workers are in a mood that forbodes trouble if they are not given satisfaction in their demands. This is indicated by the return of a strike vote which has been taken by some of the railroad unions affiliated with the American Federation of Labor. A return which has been counted in has had a 99 per cent vote in favor of a strike if necessary.

"The railroad administration is hopeful that an adjustment may be made which will forestall any labor troubles on the railroads and that the roads may be returned to their owners free of any such difficulties."

VICTOR BERGER SEAT VACATED

Deposed Socialist Goes Back to Wisconsin to Work for His Re-election in Campaign

WASHINGTON, Nov. 11.—Declared ineligible to sit in congress by the house of representatives because he gave aid and comfort to the enemy during the war, Victor L. Berger of Milwaukee today announced that he would immediately start campaign for reelection to fill the seat which had been vacated by the refusal of the house to seat him.

"I leave Washington to work for my reelection," Berger said. "I expect to get the biggest majority any man ever received."

LABOR PAGE TO APPEAR IN THE TIMES TOMORROW

Central Labor Union Will Discuss Local and National Industrial Situation

The Times will publish tomorrow a "labor" page, edited by the Central Labor Union's publicity committee and devoted to a discussion of the industrial situation, both local and national. The Twin Falls controversy between organized labor and a group of employers, general news of local labor affairs, the national coal strike and other industrial topics will be dealt with. In publishing occasionally these expressions from labor's official mouthpiece, the Times feels that it is doing a real community service. The working man is growing to be more and more of an important figure in affairs, no matter in what light he may be regarded. Thus his views and attitudes must be of paramount interest to all at this critical period of national reconstruction.

LEGION DAY IS CELEBRATED IN SPITE OF COLD

Service Men Parade—Barbecue Held—Dances This Afternoon and Night

In spite of the raw weather, some two hundred legionnaires turned out this morning to witness the American Legion parade and the program at the courthouse, later returning to the barbecue opposite the city park. There were nearly fifty service men in the parade, parading in uniform and part wearing "civies." They formed at the post office and marched to the legion hall. The column was headed by the band, under the leadership of Jack Thorpe. On the courthouse lawn they were drawn up in lines while the band played the Star Spangled Banner. After another band selection, "The Lone of No Man's Land" was played in honor of the Red Cross. Chairman H. C. Hale introduced D. Harold Heath, member of Twin Falls Post American Legion, who gave a brief address on the part of the American Legion and outlined a few of the things it intended to accomplish. At the conclusion of his remarks the legion adjourned and the parade departed for the vacant lots where the barbecue was to be held.

INDIANAPOLIS, Nov. 11.—The coal strike has been called off. With the approval by Judge A. B. Anderson in the United States district court of the text of the recall order submitted by the United Mine Workers, the tie-up of mines which began November 1, was officially ended. After declaring that the cancellation of the strike summons is made in good faith, Henry Warrum, chief counsel for the miners officials, read a statement to Dan W. Simms, special district attorney—calling upon the operators and government to get together with the miners to formulate a new wage scale.

PAYS TRIBUTE TO HERO ARMY

Secretary of War Baker Tells What Has Been Accomplished in Year Since Armistice

WASHINGTON, Nov. 11.—The great fighting machine which a year ago today had amazed its associates and its enemies by conquering the entire campaign of the Argonne immediately after striking the swift blow in the St. Mihiel zone and immediately before posing itself for another and even mightier advance farther to the southeast, has been contrived again to a hundred furlongs of its former stride.

Of the four million men or more which last November constituted the strength of our army, scarcely a quarter of one million remains. The record of transporting two million soldiers to Europe in the last year of hostilities has been duplicated by requiring more than that number in the year since hostilities ceased.

WILL NEGOTIATE NEW WAGE SCALE

Coal Miners and Operators Will Be Called Together by Secretary of Labor Wilson

WASHINGTON, Nov. 11.—Secretary of Labor Wilson will immediately call the coal miners and operators together to negotiate a new wage scale.

Following the meeting of the cabinet today, Attorney General Palmer will have submitted in connection with the coal strike, it follows:

"My information is that the miners have submitted in order, cancelling and withdrawing the strike order. The strike order having been withdrawn, therefore, the secretary of labor will today invite the operators and miners to meet immediately in conference to negotiate an adjustment of their controversy."

RAILROADS HAVE PLENTY OF COAL

Administration Will Order Released 50,000,000 Tons When Miners Go to Work

WASHINGTON, Nov. 11.—Upwards of 50,000,000 tons of bituminous coal will be released by the railroad administration as soon as it is definitely known when the miners will return to work on the railroads. This coal is on cars and it is urged that cars be released so that they may be sent back to the mines.

It is learned that there is hardly a railroad in the country that does not have at least thirty days' supply of coal on hand. The United States and upper lakes region and the northwestern states have virtually a full supply for the winter.

They are not dead; life's flag is never furled; They passed from world to world; Their bodies sleep, but in some nobler land. Their spirits march under a new command. New joys await them thro' a new command. In hours beyond, 'twas in spiritual air.

With high heroic heart; They did their valiant part; They gave the graco and glory of their youth To lie in heaps uncounted. The production of these bright stikes To lie with dust and silence on their eyes.

Yet they have wages that we know not of—Wages of honor and immortal love. Flow back our praise to the stars again In the eternal memory of men—To, we warm your peace in the threatening soul That drives the blind world onward to her goal.

She has seen him since his attempted escape, the sheriff refusing to permit an interview.

Lewis, acting president of the mine workers' organization, to retire from his predicament with good grace, is apparent.

NOTED FRENCH 'FAT LADY' ANKS COURT TO SHARE HER BLOUSES

PARIS, Nov. 11.—Although "Mme. Centiklis," the fat lady of the French "Boques" gallery, refused to tell the police where she is living, they discovered her address. Armed with a search warrant, the police searched her abode and from the papers discovered that madame is still carrying on her system of avindling by pretending to arrange rich marriages.

She has also been writing a novel with a passionate love interest. Perhaps she has been inspired by a young Italian officer who, according to the hotel keeper, has been visiting madame daily. When examined by the magistrate madame said: "Please do not read my manuscript aloud in my presence. It might make me blush."

Since she was thirty years old—she is now over fifty—Mme. Centiklis has rarely been out of jail for more than a few months at a time, but her last sentence caused her to lose a lot of weight. Each time she is sentenced the judge adds a period of banishment, but madame always turns up again.

It's common tea is worth its price. Schilling Tea is worth \$2 a pound.

Why? It makes more cups to the pound and the cups are better—richer, truer tea-flavor, more invigorating—and no tannin to speak of, unless you boil it.

You cannot get tea-strength from common tea without using an outrageous amount. The strength you get by using a moderate amount is tannin-strength—rank and coarse and bad for the insides.

Schilling Tea is the fine practical economical tea of this country.

There are four flavors of Schilling Tea—Japan, Orion, India, English Breakfast. All one quality, in painless moisture-proof packages, at grocery everywhere.
