PERSHING GOES BACK TO VISIT OLD HOME TOWN

Greeted by Old Neighbors and Friends and Brass Band in Home of His Boyhood.

TURKEY DINNER IS ON PROGRAM

And in the Mince Pie Was Something Besides Mince Meat—Just Like Mother Used to Make—Public Rally in Opera House.

LACLEDE, Mo., Dec. 22.—It was not General John Joseph Pershing, commander of the American expeditionary force, who came back to Lincoln today. It was little Johnny Pershing who came back to his home town. He came to the town of his birth, to the scene of his childhood, to the home where he learned his first prayer at the knee of his loving mother. He came back to his schoolmates, back to his chums, back to his neighbors.

WAR SMELLERS FIND NOTHING

Sub-Committee on Ordinance After Seven Month's Investigation Makes Report.

WASHINGTON, Dec. 22.—Despite seven months of investigation by the sub-committee, the Republican majority of the house of representatives has failed to bring in any final report on the ordinance which was introduced by the "smellers" in congress there has been much newspaper denunciations from both Republican and Democratic sources, as an attempt was recently made to debate for four hours a report from the sub-committee on ordinance, which did not even make a recommendation to the house.

The contention of the Democrats was that the war expenditure "smelling" committee had been appointed to make a definite report, and that four hours' discussion without action was without precedent and a waste of the nation's time. The Republican representative, Edward W. Pugh, Democrat, the report set forth that the sub-committee had learned from the war department that 458 claims had been adjusted, 2,185 are pending and 2,707 other claims are under consideration.

"Out of that immense number of claims the committee selects eight," said Mr. Pugh.

Impeach Witness for State in New Trial

LOS ANGELES, Dec. 22.—Harry S. New, Jr., alleged son of United States Senator New of Indiana, who is on trial here for the murder of his stepfather, Fred New, scored startlingly today when trying to impeach the state's star witness, Mrs. E. L. Benson, who introduced by the state.

District Attorney Thomas Lee Woolwine took deprecatingly step to block admission of the powerful testimony, breaking down the most important phase of his carefully laid case.

Mrs. Dana Condon, friend of New's family, testified that on the night Mrs. Benson died she was called to the purpose of seeking relief for his sweetheart's condition, the accused was at Mrs. Condon's home for dinner and the remainder of the evening.

Leopoldo Davis, New's chief counsel, introduced letters said to have been written by Mrs. Condon that evening, mentioning in them that New and his sister, Edna Cline, were guests at her home.

Conferees Meet on Railroad Question

WASHINGTON, Dec. 23.—Legislation for the return of the railroads to the private owners passed into law today. The conference on the Cummins bill met for an attempt to wipe out the difficulties between the Cummins bill, which passed the senate, and the bill which passed the house. Senator Cummins of Iowa, chairman of the senate conference, agreed that the task would be a long and tedious one and he held out no hopes for an early settlement.

Sims Declines Distinguished Service Medal Awarded Him

Sees Happy Relations From Prince's Visit

LONDON, Dec. 22.—Special mention of the visit of the Prince of Wales to the United States, "which occupies the happiest Anglo-American relations in the future," was made by King George today in a message proroguing parliament.

"I regret that there is no improvement in the unhappy conditions in Russia," said the king. "There is an immediate prospect there of the establishment of a constitutional government which alone would be conducive to permanent prosperity." Parliament was prorogued until February 10.

SAYS AWARDS ARE SUBJECT OF RIDICULE

Manner of Determining Who is Entitled to Decoration Does Not Suit Admiral.

ASSERTS OUTSIDE INFLUENCES WORK

Condition, he Declares, Will Result in Serious Discontent and Sense of Injustice Among Those Not Favored.

WASHINGTON, Dec. 22.—Secretary of the Navy Daniels today stated that he has received a letter from Admiral Sims, naval commander in chief of the American naval forces in European waters during the war, in which he asserted his right to reject the distinguished service medal.

Admiral Sims refused to accept the medal on grounds that the awards were not made according to the manner in which he believed they should have been made and in justice to the men who served under his command.

Admiral Sims in his letter asserted that he felt "impelled to invite attention to a special class of awards which are the subject of such condemnation and ridicule that the future of the service must necessarily be endangered."

The letter continued: "This must necessarily result in serious discontent and a sense of injustice. The commanding officer of a vessel which is sunk by a submarine should not receive the same award as the commanding officer of a vessel which is sunk by a submarine."

Some of the recommendations for awards which Admiral Sims made were derogatory. Of the six hundred medals he declared were awarded to men who were decorated by "outside influences."

Cabinet Discusses Coal and Railroads

WASHINGTON, Dec. 22.—President Wilson's cabinet today discussed the coal and railroad situation and the return of the railroads.

Secretary of State Lansing said the cabinet had gone over the entire coal situation and the reports were "very good."

He stated that there are no further letters from the Mexican government as to the two American sailors, captured at Mazatlan and that the cabinet was not taking any action.

TELLS NEW TALE CAUSE OF DEATH

Mother of "Hope Chest" Murder Victim Says Undertaker Performed Illegal Operation

LAWTON, Mich., Dec. 22.—Mrs. Sarah J. Taber, mother of Maud Taylor, victim of the "hope chest" murder, is reported today to have convinced the authorities that Joseph Virgo, an undertaker, who is said to have married Jim Taber shortly before her death, performed an illegal operation that resulted in the death of her daughter.

Virgo, Mrs. Taber is said to have declared, prepared the body so that it would not decompose, placed it in the trunk and concealed it in the basement of the Taber home, where it was found three years later. Virgo is now under arrest, charged jointly with Mr. Taber and her son Walter, with murder.

At the coroner's inquest several days ago Mrs. Taber testified that her daughter died of a vessel which had placed the body in the trunk. The mother declared that her daughter died of a vessel which had placed the body in the trunk.

The coroner's jury returned a verdict that Maud Taber came to her death as a result of an illegal operation performed by unknown persons.

JAMES R. MANN WON'T BEHAVE

Republican Leader in House is Too Independent to Suit Stand Patners

WASHINGTON, Dec. 22.—The farthest light in the ranks of the Republicans in the national house of representatives came to the fore today when James R. Mann, Republican leader in the house, broke out again in a mild form, with every indication that it will soon become a violent combat. The occasion was a "shop matter" as Senator Henry Cabot Lodge would say. Just that "shop matter" will suit the Republicans.

It is not the Republican majority in the house that is the trouble. It is the fact that the Republicans are not united. The first opportunity they had of this kind since 1911, since the Democratic caucus in 1911 and the Republican caucus in 1912, was when Mr. Mann was elected to the house.

Mr. Mann has a reputation for being too independent to suit the stand patners. He has a reputation for being too independent to suit the stand patners.

South Ireland is Not Impressed

1901K, Ireland, Dec. 22.—A party of British leaders today showed that no one in the south of Ireland is particularly struck by the premier's cutting of the new home rule proposals. The introduction of such a bill for the south would "drive mad" Ireland, they said, but that is not the point.

The Nationalist, or at least many of them, do not consider the partition of Ireland a desirable thing. The south of Ireland are also opposed to the scheme, according to the moderate opinions of Lord Stanbury, secretary of state for Ireland. The Sinn Fein extremists declared nothing short of a republic will satisfy them and they believe that the bill proposed by Mr. Lloyd George will not be very effective.

KANSAS MINERS RENEW STRIKE

Jailing of Howat for Contempt Starts Trouble Again in Sunflower State

KANSAS CITY, Mo., Dec. 22.—Three thousand Kansas coal miners it is reported today have renewed their strike. The strike is being led by James Howat, who was jailed for contempt of court.

PITTSBURGH, Kan., Dec. 22.—Thomas Cunningham, district auditor of the United Mine Workers, who was jailed for contempt of court, is reported today to have renewed his strike.

Cunningham is also quoted as saying that a mine workers' official at Emporia has just informed him that the miners of the Western Coal Mining company had voted at a miners' meeting at Emporia last night to strike until Howat is released.

Farmers File Suit to Have Canal Election Set Aside and Directors Restrained

Charge that 75,000 Votes Were Illegally Voted by Brown, Barker, Kennedy and Lincoln and Point Out Discrepancy

Charging that more than 75,000 votes were illegally voted by four of the candidates recently elected directors of the Twin Falls Canal Company in the form of proxies, exclusive of votes illegally cast personally by other voters, besides pointing out a discrepancy of more than 3,000 votes between the total votes counted and the tally kept by the tellers, suit was filed today in district court by T. K. Hucksman, attorney for a committee of farmers representing the farmers of the Filer district who seek to have the election set aside and four of the directors restrained from acting as directors of the company. Claude Brown, J. H. Barker, E. A. Kennedy and I. G. Lincoln are the four directors named in the complaint.

The suit, which is the result of a mass meeting of farmers recently held at Filer to protest the election, is brought by Frank DeKort, H. Murphy, Peter Erickson, L. G. Hill and George R. Evans. It is alleged that many voters were not notified of the election or that they were prevented from voting by the directors. The suit is brought by Frank DeKort, H. Murphy, Peter Erickson, L. G. Hill and George R. Evans.

LABOR TO USE TACTICS THAT WON FOR DRYS

Going Out to Elect Men Who Stand for Principle Rather than for Political Partisanship.

ELECT FRIENDS IS SLOGAN

Democrats and Republicans All Will Work Support—Cummins and Esch Arch Enemies.

WASHINGTON, Dec. 22.—Organized labor will adopt the successful political tactics of the "dry" to put over its program and elect candidates for congress friendly to its interests in the 1920 campaign.

Like the prohibitionists, the American labor union is planning the most aggressive political campaign in its history, will work with all the political parties.

It will make a "labor ticket" of candidates for labor union members in the Democratic party, the union leaders will concentrate their efforts to elect the Republican opponent.

SEEKS NO CHANCE TO COMPROMISE

Born's Says Treaty Negotiations as Far Off as Ever—publicans Hope for Success.

WASHINGTON, Dec. 22.—The league of nations is stumbling block to the peace treaty, Senator Borah today declared in a statement made at the annual conference of the Republican National Committee in New York.

"This is a matter I must take up with the president," said Senator Borah regarding the proposal that Howland be allowed his liberty under bond pending the contempt hearing, "as it is a matter of public concern."

Howland faced Judge Anderson in federal court this morning to answer contempt charges in connection with his strike of Kansas miners. Howland was granted bail. His attorney said he would not return to court until after the contempt hearing.

Pershing is Not A Candidate

CHICAGO, Dec. 22.—General Pershing is not and will not be a candidate for the office of president of the United States.

This flat declaration by Brigadier General Charles G. Dawes, regarded as General Pershing's closest and most confidential friend, was made today by politicians as having "exploded the Pershing for President" theory.

General Pershing has told me many times he would not be a candidate for the office of president of the United States.

# PERSHING IS IN ST. LOUIS

### He is On Tour of Inspection—Wishes Papers to Forget Boom for President

ST. LOUIS, Dec. 22.—General John J. Pershing, commander of the American Expeditionary Force, arrived in St. Louis this morning on the first visit to his native state, since his return from France. He is to be the city's guest for 12 hours before his departure for his birthplace, La Crosse, LaSalle county, Mo.

A hall of inspection to Jefferson barracks was the feature of today's program.

A gathering of several thousand people greeted the general upon his arrival at union station from Chicago at 8 o'clock. A reception committee headed General Pershing's private car, but the general's ten year old son, Warren Pershing, ran ahead of the committee into the front of the car and was the first to greet him.

After greeting the reception committee General Pershing said: "I am happy to be back in my native state, where I first saw the light of day—I'd better not say how many years ago." (It was 59 years ago last September.)

The general thanked Mayor Kist for the splendid reception tendered him and immediately entered a train bound for Lincoln, Nebraska, sister city of the general, with the committee.

When the Pershing boom for president was mentioned he said: "I wish the papers would forget

that, if anybody starts a boom while I'm here, I'll institute suit against him. I am here on a tour of inspection."

General Pershing will address service men at 4 p. m. at the city hall. He will then lay the cornerstone of Pershing school at University City. The program will wind up at 7:30 tonight when the general will address a mass meeting at the Coliseum.

# Los Angeles Man Spent Lots of Money, He Says

### W. O'Grann, a well known employee of the Oil Well Supply Co., and his wife, who reside at 511 East Fifth St., Los Angeles, are both enthusiastic in their praise of Twin Falls, and the following statements a few days ago:

"Twin Falls beats anything I have ever seen to build up a run-down man and put him back on his feet again," said Mr. O'Grann. "For the past two years I have been going around with little life or strength about me, and I was so weak when I got through with my work in the evenings I was almost exhausted. I had little or no appetite and what I ate did me more harm than good, and it seemed that I had a cold all the time and could never find anything that would drive it out of my system. I couldn't sleep at night and when I got up every morning I would start to coughing and for half an hour or more I would nearly cough my head off."

"I put on all kinds of medicine for pneumonia but nothing ever did me a particle of good until I began taking 'Tangle' and I want to tell you 'Tangle' built me up so fast that I'm 'hooked' on it. It was indispensable for me. I eat three big, hearty meals every day, sleep peacefully and am gaining in weight and strength right along. I am not troubled any more with colds and the cough that used to bother me every morning, has left me entirely. I am 'beginning' sound like a great fellow and get up feeling fine and I have so much more strength and life about me than I just want to keep on the go all the time."

In relating her experience with the medicine, Mrs. O'Grann said: "I just don't think of anything that would be good to say about 'Tangle' for it has made me a well and happy woman. Indigestion troubled me so bad that I'd start care whether I ever got a letter of mail, or if I ever got anything or not, for I knew if I did, I would have terrible pains for hours afterwards. It was bothered more than

the mornings than at any other time, and I just couldn't get it out of my mind. I had done her so much good that she advised me to take it, and when I had finished four bottles I stopped taking it for I was afraid I couldn't get gain in weight so much as I wanted to be rid of the indigestion and those terrible pains in my stomach, and they had already been entirely overcome, so 'Tangle' had done its work and I didn't want to take any more. Everything tastes good to me now and I don't have a trouble of any kind. I can certainly join my husband in praising 'Tangle' for it was not the thing built up as needed."

'Tangle' is now sold in Twin Falls by City Pharmacy, in Hagerman by Thompson Drug Co., in Martaugh by Marraugh Drug Co., in Piler by A. B. Wood, in Hild by C. D. Horing Drug Co., and in Kimberly by W. A. L. Stowers—Adv.

## MANY ROAD PROJECTS HAVE BEEN APPROVED

—From July 1, 1919, the Eastern States department of agriculture approved 1,241 road projects, involving the improvement of 22,129 miles, at an estimated cost of approximately \$181,143,644. Of this sum approximately \$78,592,167 represents federal funds. Since the passage of the federal aid road act, 1,927 projects have been approved. These call for the construction of 18,609 miles of road, at an estimated cost of \$255,267,547, of which about \$95,498,140 will be borne by the federal government.

# COUNCIL WILL WIDEN SECOND AVENUE N. AND E.

### Widening and paving of Second Avenue North and East one block each by an intentional ordinance passed last evening by the city council. Ten feet will be added to the present forty foot width of the thoroughfare, the estimated cost being \$12,750. January 5th is set as the date for receiving notices.

Appointment of City Sanitary Inspector Alex Murray as deputy county inspector was suggested in a communication from the department of public welfare which discussed his attendance of sanitary affairs outside of the city limits.

Dispensation of milk, whether sold or given away, must be in conformity to the sanitary regulations of the city. It was brought out in a discussion of the milk ordinance.

An increase of \$2.50 a month, making a total of \$15 per month, was asked as remuneration by the city hall janitor. The matter was laid over.

An amendment to the dog license ordinance, seeking to provide a kennel license as a "blanket" for all dogs so maintained, was asked by Dr. H. R. Groom, local veterinarian, who stated his intention of securing a kennel. This matter was likewise laid over.

Recent experiments show that the color of milk is chiefly due to the presence of carotene, a coloring matter found abundantly in green plants, especially in grass. The yellow pigment of our bodies also consists of carotene, which is probably derived chiefly from our food.

## CHARACTER OF TWIN FALLS FOLKS

The morning Barnacle in what is intended to be a scathing rebuke to The Times unconsciously brands the farmers of the Twin Falls tract and most of the people of the city as persons of low character and hardly to be trusted. The Barnacle acknowledges the superior circulation of The Times over both of its contemporaries, and adds these potent words:

"It is not a question of volume, but of CHARACTER of circulation."

And the Barnacle had the audacity to print CHARACTER in capitals.

How do you like it, farmer's and honest folks of Twin Falls?

You who lack CHARACTER, you thugs, cutthroats, bolsheviks, nonpartisans, readers of The Times—all—your dollars are all right if you bring them to the honest merchants of the city, but your CHARACTER is low and reprehensible, so like a rattlesnake, that you are not to be trusted.

It is to laugh!

## NATIONAL FUTILITY

A nation as a whole is generally a blundering, incompetent. The United States is no exception. Doubtless it functions better, on the whole than most other nations, but still it leaves much to be desired. It ought to function better than the rest because of the individual superiority of the average American to the average European in matters of personal efficiency. The nation as a whole does not begin to do its work as well as its representative citizens do their private work.

Take the present industrial situation. Here is this country, with more coal than there is in all the rest of the world together, and its people freezing and its industries closing for lack of fuel. Never mind details—the big fact is, we can't dig or distribute our coal.

Here is plenty of iron, plenty of copper, plenty of wood, plenty of nearly every kind of raw material, and also plenty of labor to turn it into human use, and yet there is a "scarcity" of nearly all commodities of life.

We have some people overworked (though not many just at present), it must be admitted, and others in forced idleness. We have some people making too much money and others not getting what they deserve, and trouble continually developing from the unfair division. Everich the economic machinery is creaking and groaning and creaking.

It is the same in politics or government. Imagine the beard of directors of any private corporation fumbling and dawdling around the way our state and national legislatures generally do, and have been doing more than ever of late!

What can be done about it? We don't know. But isn't it strange that people so efficient individually, and in small groups should come so dismally short of their ideals when they try to act in large masses?

Sometimes we do see a nation really organized, functioning as one big organism with a brain directing it. Germany was like that, under Kaiserism. We do not want to pay the price for it that Germany paid. This nation itself was like that during the war—was functioned as an organic whole, all working together for a common, conspicuous purpose, every class playing its part as an organ in the big complex organism. But we do not want to pay the war-price right now.

That a grocer can become a guru.  
That if you want knowledge you must toil for it.  
That economy is the art of making the most of life.  
That no man can be happy in this world without tolerance.  
That we have a right to say what we think even if we are thinking that which it is right to say. Many thoughts are too warped by selfishness and unkindness to stand that test.

That one point of weakness in much of our reasoning is that we try to grasp too much of life at one time. We think of it as a whole instead of taking the days one by one. Life is a mosaic, and each tile there must be cut and set with skill.

That an iron, however great its genius or high his position, is still important to the world; its work will go on without him. This truth may be painful to personal vanity, but it is comforting to every generous soul that there are more for others than for self.

### The Mysteries of Prayer

By REV. HOWARD W. POPE  
Mossy Hill Institute,  
Chicago

ONE-life men attended to the voices of prayer.—Dallas News

One of the greatest mysteries of prayer is its ability to produce a veridical of things. What this idiosyncrasy of prayer is or how prayer leads to veridical, the conventional theory of prayer being that prayer should be a strong desire that another person should be saved, and prayer answered for it. The Holy Spirit produces in the heart of the one prayed for a feeling equally strong that he should be saved.

Converts may one might his will, for conversion means the surrender of one's will, but that God in answer to the prayer for conversion the sinner into such a self-convinced that he will gladly accept death in order to get out.

Some years ago in Ohio, four women who had unavowed husbands agreed to meet one week in order to help another woman. After a few weeks one of them was saved and joined with the four women in praying for the other three. A little later it occurred that she had surrendered and joined the circle, and later still a fifth. Not did these women confer themselves to pray for, but by their daily life and example and testimony did all they could to help another find her way. Finally on a certain day the four wives and three husbands agreed to meet to pray for the conversion of the fifth woman. She returned from the meeting, she found her husband, glad to see her. He said he had been praying for her, and what you have been doing, and I am glad to tell you that you would pray for me no longer, for I have received Christ as my Saviour.

Not only does prayer bring conviction of sin, remove difficulties, and soften prejudices, but often it is the way for us to meet the very person whom we desire to help. I heard of a minister who had often been repeatedly requested to interview and lead to Christ a lady who was entirely unknown to him. She did not attend the church, and he had no excuse for calling upon her. He began to pray that God would open the way for him to meet her. One day Spangly at the club of the service a lady came up and introduced herself to him and it proved to be the very lady he had been anxious to meet. She had come to his church for the first time, and entirely without the solicitation of any one.

When George Miller was in this country a friend of mine, taking a little book from his pocket, he said: "When I was converted I was a wild boy in college. My conversion broke friendship between my roommate and myself, for he would have nothing to do with such a fanatic. He said, 'I've got to leave this man, and I've got to leave this man, and I've got to leave this man.' I prayed five years with no apparent result. Ten years went by with no change. I continued for five years, but I was not converted. I was an unbeliever. I did not yet give him up, but prayed twenty-two years, each day mentioning his name at the throne of grace, and then came a letter saying: 'I have found the Saviour.' Then, said Mr. Miller, of course, I had to leave him. In this same book I have names of others that I have prayed for, five, ten, and fifteen years, and each one of them, which there is a cross, showing that the requests have been granted."

Here is a man who made a business of prayer, and who kept his accounts with the Lord in a business-like way. When he was called to the attention of God's attention, he first found a promise on which to base his prayer, always making sure if possible that it was successful. He then made a record of our prayers and watch for the answer, we should not waste our money, and we should obtain more results.

It is said that in battle it takes a hundred pounds of lead to kill a man, because it takes a hundred different ounces of it is wasted in wild firing that aims at nothing and hits no one. On the other hand, the sharpshooter writes no ammunition, but picks his man, and makes every bullet tell. So, if we would pray for every object, more carefully selected, and then make a record of our prayers and watch for the answer, we should not waste our money, and we should obtain more results.

Cannot Claim All. What will come to my life, if here I love; but the secret of my friend is not mine.—Sir P. Sidney.

### Public Forum

SO THE PEOPLE MAY KNOW

The City Coal company opened up business some time ago and put the price of coal down to a fair level. We were soon called out to the coal dealers' meeting. We did not. Then one dealer told us unless we raised our price the coal dealers of Twin Falls would shut out our coal from the mines. I said, "Why?" "Because we want to make more money than you are."

I said: "We are satisfied with our price." "Yes, but we will put you out of business if you don't raise to our price."

This was the talk of two dealers. When the other dealers asked us for the names we will give them to the public.

This is the kind of work that causes people to act in cooperative manner. One year and many other kinds of businesses too numerous to mention. There is a class of people today, called the "public," who are called traitors, bolsheviks and many other hard names, but you can buy Karo sugar syrup at 4c that will cost you 25c in Twin Falls; one pound horse sugar per dollar. Shoshone Mier flour at 70c per hundred less than Twin Falls; and all other things in proportion. This is the kind of work that keeps the public in the dark this same class that would kill the City Coal Co. for getting the public coal was money, would also kill the Twin Falls Times for telling the truth.

The idea originated with an organized bunch of public contentions. You are dissatisfied if you do anything to save your livelihood from being robbed. You must not tell the public you have cheaper goods. We need more truth and light to show up the unfair class who have their hands in our pockets up to their eyes for twelve months in the year.

The Chronicle came out some five days ago and laid Tom Deaton owner of the City Coal Co. This is a misstatement made on purpose. All the editors of the Chronicle had to do was to call 309 and he could have told the truth, but perhaps he does not always deal in that kind of stuff. Everybody should demand the truth and the fellow who won't tell it should be noted. The truth and the light is all that is going to stand long. The fair business men of Twin Falls are advertising in The Times; the only reason the others have boycotted The Times is because they tell the truth, and they don't want the public to have the truth.

Will see you tomorrow again.

## TIDINGS NECESSARY IN STRIKE OF RAILWAY MEN

INTERNATIONAL FALLS, Minn., Dec. 22.—Reports of attempt to deal trains, and threats against men who have refused striking railway employes resulted in the sending of state troops into northern Minnesota, and it is believed today prevented the strike from spreading to other parts of the state.

## LONDON PUT IN HOLLING

NEW YORK, Dec. 22.—The political pot was set abling furiously around the Hotel Baltimore today when Governor Frank G. Lowden, Illinois, formerly one for the Republican nomination for president in 1920, held a number of conferences with G. O. P. leaders and wish others.

### "My Little Boy" is Said to be a Picture of Heart Interest

Greotchen Lechter, who appears in support of Ella Hill, star of "My Little Boy," the Broadway coming to the Gen. theater Wednesday and Thursday will put an end to "mother-in-law" jokes in the eyes of those who behold this beautiful and engaging lady upon the screen. Miss Lechter plays a mother-in-law that would make a 100-year-old ashamed of himself—and a vulgar content might be advanced in wishing interest. If those who see the newest Broadway were left to select a bride for the leading man in the "mother" and the "mother-in-law," Miss Lechter is a figure in life-size, having played many and various roles in support of several stars in the favorite series. Her striking type of attractiveness beauty fills the eye and her native artifice adds lustre to her work and catches the admirers who have long been established since the Broadway series in "My Little Boy." The mother-in-law, Elsie Jane Wilson, one of the few women devoting their ability to photoplay production, directed the feature and has turned out an offering of uncommon excellence.

## MOTHER IS CHARGED WITH KILLING THREE CHILDREN

COUCH, DARNEN, Ida., Dec. 22.—Mrs. Lucy M. Mathews, now in the charge of Sheriff Quarles facing a charge of murdering her three little children and unmercifully attacking her mother-in-law, Mary Mathews, 75 years of age, stated that her reason for doing so was that her mother-in-law was exercising hypnotic influence over her children. Her husband was not at home at the time of the tragedy.

## BAISER WILL BE GIVEN TRIAL SEPARATE FROM REST GUILTY

LONDON, Dec. 22.—The mother will be tried separately from the other German officials accused of war guilt. It was learned today when a series of Franco-British conferences on the subject were opened here. Lines of procedure are being mapped out. It is understood that a blanket indictment will be composed, aimed at those whose extradition is sought.

## A. F. OF L. MEETS IN MONTREAL

MONTREAL, Que., Dec. 22.—The 1920 convention of the American Federation of Labor will be held in Montreal starting June 1, and lasting two weeks, according to a telegram received by local labor leaders from Frank Morrison, secretary of the American Federation of Labor. About 700 delegates will attend, Morrison said.

# PARENTS TO BE HOSTS TO BAND AND TEACHERS

### Arrangements Being Made to Give Big Party in Auditorium After New Year's

The parents of the pupils of the Lincoln school will give a New Year's entertainment and reception to the Twin Falls teachers and the high school band in the high school auditorium some time after January 5, the exact date not having been set. A short time ago the teachers entertained the parents and the parents are now planning to give a return party. The committee named for the affair are composed of the following: Buckman, Becke, Borg, Showell, Evans, Horn, Dahl, Bartlett, Nye, Dougherty, Wilson, Van Gilder, Park and John; women: Madeline Morgan, Grimes, Ware, Tabor, Anderson, Ostrom, McTobert, Patz, Hackman, Cory, Parrish, Beebe and Thompson, chairman.

# PORK SHIP IS LATEST OUT AT INDEPENDENT

### They Make Bonts 'N' Everything Out of Piggish Nowadays in Village Meat Shop

Without doubt the most unethically decorated window in town is that of the Independent Meat Market, in which multi-colored things made of meat are to be seen. High up in the window are hung a number of pieces of meat that have been artistically colored to resemble various things. At night these are illuminated with a number of red and blue lights which produce a brilliant effect. Just below these suspended parts of a hog's anatomy, is a ship made entirely of sausage. The ship's rigging and parts of the ocean liner or battleship. There seemed to be no pun on it so it is probably an ocean going kind of ship. The word "Independent" is imprinted on some of the hams in the window. Christmas trees 'n' beautiful green are tastefully worked out. The hams and stockings are made of bologna and the cargo is made up of miniature hams and bacon tucked promiscuously in the boat. The decorations, coloring them and placing them in heart shape fashion. Of course, during the Christmas season there was no need of utilizing tape to keep the exhibit looking in best, but as the weather became warmer it was necessary to cool it. The exhibit has the air of a pig farm or melting into a greasy lake in the window, for the sun has been on the job pretty steadily lately.

### One of Country's Leading Veterinary Surgeons Locates in City of Buhl

One of the leading veterinary surgeons of the United States is available in the Twin Falls territory at the establishment of Dr. C. A. McKillip at Buhl. Dr. McKillip comes from Chicago where he has long been associated with one of the leading veterinary institutions of America. A graduate of McKillip's Veterinary College, he was later associated for fourteen years with the college and with the McKillip veterinary hospital in general practice, acknowledged to have the largest veterinary practice in the world. Dr. McKillip opened temporary office yesterday in the Boring Drug Company store at Buhl and will occupy that location until a permanent establishment is secured.

# Miniature Train In Store Window Draws Nose Prints

The nose prints on the windows of the Diamond Hardware where the electric train is exhibited, are getting more and more numerous each day as Christmas draws near. Each youngster wants one of the miniature trains. That is evident from the number of watchfulness that is manifested upon the faces of the boys who stand around peering with open mouths at the annually running locomotive, drawing its passenger cars through tunnels, over bridges and beside deep gullies. Judging from the number of noses that are sticking out from the miniature Overland Limited or Canadian Pacific train, it would seem that the minds of the children were not the proper emergency when the train made a profound impression.

# REPORT OF COMMITTEE APPROVED

### American Legion Sanctions Report of Committee Relative to Machinists' Union

The American Legion last evening unanimously approved the report of the special committee appointed some time ago to cooperate with the Machinists Union, which makes up 90 per cent American, and to settle labor disputes. The report follows: Your committee which was directed to cooperate in a program of agreement submitted by Victory Lodge No. 1207, I. A. O. M., held two extended sessions. Mr. Anderson and Mr. Nelson of Victory Lodge No. 1207 were present at both meetings, and your committee is indebted to them for considerable information which will make it possible to arrive at the following conclusions and recommendations. Your committee feels that it is not within the proper province of American Legion activities to attempt to pass upon the merits or otherwise of any wage or working agreement as between employer and employee, nor to act in any degree as arbitrator or intermediary in placing such proposed agreement before either employer or employee. It is therefore recommended that the post take no action in that behalf.

Dealing directly with a question of labor is the most important matter, however, your committee has had considerable evidence placed before it of an earnest, intelligent and patriotic post should and will lend its full and intelligent cooperation in that behalf and be the first to commend the complete fruition of such patriotic efforts.

# "My Little Boy" Coming To Gen Theatre Tomorrow

When the boy and girl grew up they married—sweethearts alike childhood, their dreams were realized. A little son came to bless them and bring their home through happy years. The boy's grand uncle was an old grinch—nothing less than a modern replica of Old Scrooge. He adopted the little boy and named him old Scrooge, with old old appeals to visit the happy home. But he finally did agree, on Christmas, to spend the holidays with them. He appeared as a result, but the old grinch's visit has been turned to gripping entertainment advantage by Broadway playwright in Edin. The play, "My Little Boy," is presented at the Gen theater on Wednesday and Thursday with an all-star cast, including the hit, Emory Johnson, Little Joe Rae and Gretchen Lederer.

# A Greeting

Take a Christmas greeting Simple, sweet and true May your joys be many And your griefs be few.

# A Christmas Carol

"What means this glory round our feet?" The Magi mused, "none bright than ours!" They sang the Prince of Peace "Today the Prince of Peace will be born!" "What means that star," the Shepherd said, "That brightens through the rocky Glen?" And angels answering overhead, sang, "Peace on earth, good will to men!" "This eighteen hundred years and more Since those sweet oracles were dumb; We wait for Him, like them of yore; Alas, He seems so slow to come!" But it was said, in words of gold, No time or sorrow e'er shall dim, That little children might be bold "In perfect trust to come to Him!" All round about our feet shall shine A light like that the wise men saw, If we our loving wills incline "To that sweet Life which is His Law!" So shall we learn to understand The simple faith of shepherds then, And, clapping kindly hand in hand, Sing, "Peace on earth, good will to men!" But they who do their souls no wrong, But keep at ease the faith of men, Shall daily hear the angel-song, "Today the Prince of Peace is born!" —James Russell Lowell.

# WOULD GIVE IRELAND TWO PARLIAMENTS

### Separate Bodies for Ulster and Other Provinces Provided in Lloyd George's Proposal

LONDON, Dec. 22.—Two separate parliaments for Ireland, one representing the anti-home-rule faction in Ulster province and the other composed of delegates from the rest of the country, were proposed by Premier Lloyd George in outlining the new Irish bill in the house of commons this evening. The premier did not begin speaking until 6 o'clock.

Premier Lloyd George warned Ireland that any attempt at secession from Great Britain would be met with the same force and determination as the northern states fought the southern states during the American civil war.

The attempt to assassinate Lord French, lord lieutenant of Ireland, near Dublin, was characterized as a "blasphemous attack on one of the most great most foolish incidents in history."

The premier said he was glad that the Home Catholic church (which has long been involved in Irish politics) had denounced the attack last night.

Justifying further the proposal for self-government for Ireland under the system of a double parliament, the premier said that it was proposed to link the two legislatures with a council elected by the two bodies.

"To force a union of the two sections (northern and southern) of Ireland would produce division," Premier Lloyd George said. "Any arrangement severing Ireland from the rest of the United Kingdom would be fatal to the existence of both. A hostile republic in Ireland might have been able to raise the issue of the alliance in the war."

"It is proposed that the Irish legislatures be clothed with full constituent powers to create a single legislature which will discharge all of the powers not specifically reserved to the imperial parliament."

Strangers Prepared For.

"Does this dog growl?" asked the lady at the dog show. "Oh, yes, growl," was the answer. "Well, stand what a dog that doesn't growl." "But you want something that will grow when strangers enter the room." "No, my husband will attend to that."

# FAVORS CHANGE IN SOCCER

Danny Shea, Famous English Player, Would Penalize Player Who Does Not Ball Over the Line.

Several suggestions by Danny Shea, the famous Blackburn Rover soccer player of England, will prove interesting to enthusiasts in this country, where the kicking style of football is growing in popularity. Shea, an inventive changes in the laws of the game, that if adopted, might find supporters here. Shea would penalize the "kicker only" that is the player who boots the ball over the boundary line on the side of the field, by awarding a free kick instead of a throw in. He would have it that a player could not be ruled out of play (two-thirds of the playing field, or, in other words, that a player can only be given out of the third part of the field at the opposing goal, instead of half, as at present). He also recommends that a goal could be scored direct from a corner kick.

ANNOUNCEMENT OF TREASURY SUBSCRIPTIONS.

WASHINGTON, Dec. 22.—Secretary of the Treasury Glass today announced that the final amount of subscriptions to treasury certificates dated December 15, 1919, and maturing June 15, 1920, is \$278,339,000. Of this amount, \$254,550 is paid for treasury certificates of other issues.

Give Them a Chance.

Common sense tells us that the boy with the "smalling" develops into a far more competent batsman than the youth who did not go through the grammar schools. Therefore, the parents who would let their children go to face life, and at living wages, will strain every point-in fact, will gladly make the sacrifice—in order to keep their children at school, and thus give them something better than a mere fighting chance.—New York Evening Telegram.

# CLASSIFIED ADVERTISING

### WHAT LETTER COMES BETWEEN N AND O?

As the alphabet stood, centuries ago, a letter equivalent to our **N**—came after **N** and before **O**. The most noteworthy fact about **N** and **O** is that they are the first two letters of **NOW**, which is the time to put that **Ad** in **The Times** (classified columns).
