

Pressure Being Brought to Prevent Return of Railroads

Committees and Organizations in All Parts of Country Want Federal Control Act Extended

G. O. P. MAKING MATERIAL FOR NEXT CAMPAIGN

Promises Investigation of Attorney General's Methods in Dealing With Reds

WASHINGTON, Jan. 24.—A far-reaching congressional investigation of Attorney General A. Mitchell Palmer's attitude toward proposed "anti-radical" legislation and of the methods employed by the attorney general and the department of justice in dealing with "reds" was promised today by Republican leaders of congress in their efforts to manufacture material for the next presidential campaign.

They said the probe might be expected to include the circumstances surrounding the resignation of Francis Pickens as United States attorney for the eastern district of Pennsylvania, who wrote to President Wilson:

Would Force Government to Permit Russian Trade

WASHINGTON, Jan. 24.—Members of the House today voted to force the government to permit trade between Russia and American countries.

Argued That Return Now Would Add to Already Exorbitant Cost of Living, in That Consumer Pays Five Times Actual Cost of Freight in Purchases

FIVE YEARS MORE OF GOVERNMENT CONTROL IS URGED AS A MAXIMUM

WASHINGTON, Jan. 24.—Unless a compromise is reached within a short time it will not be possible for congress to take the steps necessary for the return of the railroads to private owners on March 1.

Strong pressure is being brought on congress in get it to amend the federal control act. Five years has been suggested for a maximum. This pressure is said to come from committees and organizations in all parts of the country, their chief argument using being that the return of the railroads at this time would add to the already high cost of living.

According to a member of the interstate commerce commission, the railroads are prepared to apply for a general increase in freight rates of at least 25 per cent. Based on 1918 freight receipts the commission stated a 25 per cent increase would mean \$875,000,000 additional which the shippers would have to pay annually.

Robert W. Woolley member of the interstate commerce commission talking on this subject said:

"The consumer catches an increase in freight rates cumulatively. He is bound to because he is at the mercy of the manufacturer, wholesaler, retailer and often the commission man as to each single material that enters into his purchase. It is not the rate of the railroads that is the issue here. It is the issue of the consumer who is at the mercy of the manufacturer, wholesaler, retailer and often the commission man as to each single material that enters into his purchase."

President Invited To South During Convalescence

WASHINGTON, Jan. 24.—No plans have been made for President Wilson to leave Washington in the near future, it was stated at the White House today.

NO RIDERS WITH APPROPRIATION

Chairman of Senate Committee Says Postoffice Bill Will Be Rushed to Passage

WASHINGTON, Jan. 24.—Legislative riders will not be permitted on the postoffice appropriation bill, according to Chairman Townsend of the committee of the senate.

"My bill to establish a federal agency in post road highways will not be included as part of the bill. This would cause a delay in the passage of the appropriations. We may consider placing a provision for one such bill on the order of business. The subcommittee of the postoffice and post roads committee has approved this project."

It is noted that the salary reclassification committee will not complete their work in time to move the matter before the senate.

Committee Will Probe Admiral Sims' Charges

WASHINGTON, Jan. 24.—Hearings on the naval medal awarded to Rear Admiral Sims for his services in the war will be concluded next week if possible.

Dr. Cyrus T. Brady Dies of Pneumonia

YONKERS, N. Y., Jan. 24.—The Rev. Cyrus Townsend Brady, one of the best known American authors, died early today at his home here.

Ice-Locked Steamship Relieved by Airplane

CHICAGO, Jan. 24.—Relief reached the ice-bound steamship, "Hesperia," locked in the ice of Lake Michigan.

Utah Sugar Price Fixed at 16 Cents

BALT LAKE, Jan. 24.—The federal fair price commission for Utah has fixed the price of sugar at 16 cents a pound in Utah.

17 Dentists Lose State Licenses

DOVER, Jan. 24.—Seventeen dentists were revocably by the state board of dentistry today.

REEL TAKES R.A.P. AT HOOVER BOOM

Missouri Senator Delivers Qualifications Address on Organization of Food Administrator As Candidate for Chief Executive

WASHINGTON, Jan. 24.—Herbert Hoover was the guest-honored of Col. Hoover and the British government in our negotiations preceding the great war, Senator Reed of Missouri charged on the floor of the senate today.

"If we surrender the government as much as will have it take up the bill at once. If they do not agree a subcommittee will be appointed."

"If we are going to pass the league of nations covenant, why not Hoover, who has served all his adult life in Great Britain?"

Pershing Is In San Francisco

SAN FRANCISCO, Jan. 24.—General John J. Pershing, chief of staff of the United States army, was in San Francisco today.

Capper Says Profiteers, Not Reds, Chief Menace

WASHINGTON, Jan. 24.—Profiteers are the chief menace and troublemakers in the United States, Senator Arthur Capper declared in the senate this afternoon.

Boost Interest on Commercial Paper

WASHINGTON, Jan. 24.—The department of justice has proposed to stamp out hoarding of government securities.

Boost Interest on Commercial Paper

WASHINGTON, Jan. 24.—The department of justice has proposed to stamp out hoarding of government securities.

Boost Interest on Commercial Paper

WASHINGTON, Jan. 24.—The department of justice has proposed to stamp out hoarding of government securities.

ALLIES NOT TO DEMAND KAISER FOR SOME TIME

Premiers Will Have to Talk It All Over Again Since Holland Turns Them Down

LONDON, Jan. 24.—"Considerable time is expected to elapse before the allies will say further more to secure the ex-king from Holland for trial. The firm stand taken by Holland in refusing to extradite the former German emperor caused no surprise here for all of the indications had been that the Dutch government would reject the request upon the ground that it violated the right of asylum for political refugees."

The opinion was current in official circles today that Premier Lloyd George said he talked the most moves towards securing the former Kaiser as he has taken the lead in all of the allied activities which led to the removal of the emperor from power.

"I understand Hoover has ten million dollars at disposal for the relief of the unemployed."

As the situation exists today the ex-king is effectively paroled. He is now wanted in his native land. He cannot flee from Holland to any other country for fear of capture and he does not enter any allied territory.

FALL PROBES GO TO EL PASO

Will Hear Evidence There Regarding Firing Across Border—From Juárez

San Antonio, Tex. Jan. 24

United States Senators will investigate the situation here, which will leave here for El Paso, where public hearings will open Thursday.

45 Influx of Cases Reported

SAULT STEARNS, Mich., Jan. 24.—Cases of influenza have increased to 45 in this city.

Kansas City, Jan. 24

DOISE, Jan. 24.—W. C. Doise, former manager of the Nonpartisan League, is in Kansas City.

- 9—Good roads throughout all tributary territory to city.
- 10—Electricity railroads to Idaho.

PUBLIC OWNERSHIP LEGAL.

While the trivial efforts of some North Dakota interests, legibly known as the 42 taxpayers, to have the farmers' program declared unconstitutional hampers the sale of state bonds in eastern markets, they will be of essential value in removing legal doubts.

The federal district court sitting at Fargo, N. D., decided against the 42 and the case has been appealed to the federal supreme court. In the meantime the same case was brought before the state supreme court and that court has now decided in favor of the farmer program.

"The building, owning and operating of such state-owned industries and utilities being for a public purpose," says the state court, "and the profits from such inuring to all the people of the state and being payable as such into the state treasury for equal use and benefit of all the people of this state, it is held that such ownership and operation of the industries and utilities constitutes a public purpose, to carry out which the state may issue bonds and make provisions for paying the principal and interest by levying a tax on all property of this state not exempt from taxation under the laws of this state or of the United States. In the levying and collecting of such taxes there is no violation of either the state constitution or the constitution of the United States nor the fourteenth amendment to it."

Appeal of the case to the federal supreme court is undoubtedly prompted more by desire to delay the farmer program than by any dread of hope for success. Our different cities and states have hundreds of millions of bonds out for profit-making enterprises and the supreme court, to which appeal is made, has recently decided that Portland, Maine, could constitutionally own a public woolyard.

SCHOOL FOR NEW FAMILIES.

A suggestion for the accomplishment of more efficient infant welfare work is offered by an English health visitor and reported in a recent number of the Survey. This is the establishment of a "school for mothers" which would work particularly with mothers having their first babies. Mothers thus enrolled would be given expert instruction and advice in child care all through the most dangerous period of the child's life. A mother would not be "graduated" from this school until her first child has reached its fifth birthday. She would, of course, receive whatever additional instruction she needed or desired for any other children born during that period.

This concentration of effort upon "new families" would mean a great deal both in the saving of infant lives frequently lost through ignorance of proper care, and in its educational benefits to the present generation of young mothers.

Although it is no part of this plan to have all intelligent care of children come in a snap at five years, much real good would have been accomplished even then. For it is quite true that the child who has been safely and healthfully reared through his first five years, with all the wholesome food and habits which make for sturdy physical and mental development, is better able to resist future attacks on his health. It is also quite certain that mothers who have been studying the best methods of caring for their children for five years are not suddenly going to lose all interest in such work. They may be grateful from this particular school but with the foundation knowledge they have acquired they are going to continue to be wise and intelligent mothers.

After our leather trust had piled up leather in Belgium with the idea of selling it at famine prices to Europe, the Belgian government refused to allow leather to be re-exported. Those of us who have felt the high price of shoes here will probably agree that Belgium handled this trust better than we did at home.

Now that we are practically in a state of peace some of our unitarians who gather national reputation by urging militarism, might acquire still further fame by proving that Christ was really unfair to the rich young ruler. A defense out of the scriptures would be a great help to the profiteers' right now.

Citizens of Grand Forks, N. D., have pledged themselves to take \$1,000,000 in state bonds in consideration of the fact that a big state-owned mill and elevator is to be located there. On the first day \$100,000 worth was subscribed.

One of the saddest things in the world is a "leer farmer" job of a machine politician which falls on dent cars.

When we are thinking of antiseptic, let us not overlook the fact that many a town is a one-man town.

Follow the Leader

HELPING THE LAND BANK.

Senator Snout of Utah has a bill before the senate providing for the repeal of measures making joint stock land banks possible. These measures are part of the federal farm loan act. The claim is that these joint stock land banks are able to compete unfairly with the federal farm loan banks and are not so desirable for the farmer. They can do all the farm loan banks do, have the tax exemption privilege for their bonds, and escape restrictions imposed on the government institution.

The very fact that Senator Snout, of undoubted reactionary record, is favoring this bill should make farmers suspicious. While it is probably true that congress created the joint stock land banks with the idea that they would prevent the "socialist" farm loan bank from being successful, the remedy is not to abolish them but to give the farm loan bank greater power. These joint banks do lend money at 6 per cent on the same long-time, easy-payment plan. They are, therefore, getting money to the farmers on better terms than formerly.

They will not amount to much, however, if the federal farm loan bank has equal privileges, because it operates at cost. The limit of \$100,000 for loans in these days is ridiculous. A large part of what it has to spend in title-lending is wasted money. The farmer has great difficulty in getting money from this bank to take up new mortgage obligations. The bank should have more freedom in lending money in advertising. The bank ought to be able to sell money to buy a farm.

Any one who suggests these helps for the land banks to attack joint stock land banks is saying one word for the federal farm loan bank and 10 for the old-time farm loan mortgage brokers.

Artesian City

Mr. Howard Gibbs returned to Shoshone on Tuesday.

The Tom Hardware company recently reported the loss of \$2000 worth of their business establishment, which was blown out some time ago, during a severe wind storm.

Will Hodge returned on Tuesday from a trip to Odgen, where he has been enjoying a visit with his children.

Mr. Hobbs of the United States Ladd office was in this vicinity Tuesday.

Mr. P. J. Marshall was a caller at the C. M. Ardoin home.

Jess Tyrza was a caller at the Frank Swanson home.

Mr. Wm. Herby spent the day at the home of her mother, Mrs. Nick Swanson.

C. M. Ardoin was a visitor to Mr. Tom Hicks' home.

Frank Somen left for Salt Lake City on a business trip.

Mr. and Mrs. J. Tyrza, Mr. and Mrs. Tom Hicks returned to Murfreesboro.

R. B. Randall and Mr. Lawrence Hanner of Twin Falls were in Artesian City yesterday calling at the home of Mrs. J. Tyrza.

Mr. and Mrs. Jay Pettigrew were in Artesian City yesterday.

John Amundson of Murfreesboro was in Artesian City yesterday.

Miss Bessie Marshall was a visitor at the Hicks home.

Ray Hobbins and P. J. Marshall were callers at the World Hotel on Murfreesboro.

Mr. Little Hicks has been on the sick list for the last week.

Mr. P. J. Marshall has been on the sick list.

Mr. and Mrs. Jerry Booth of Emery were in Artesian City yesterday calling at the homes of Art and Barbara.

C. M. Ardoin was a visitor to Dick Creek.

Mr. Ardoin was an Artesian City visitor calling at the P. J. Marshall home.

Mr. and Mrs. A. B. Swanson of Shoshone were visitors at the Hicks home.

Fred Peterson suffered a severe accident on Wednesday morning, while kindling a fire in the range, when the coal containing kerosene oil, exploded, blowing the burning coal up and over the entire kitchen, for a while, threatening the destruction of the house. Mr. Peterson, first attempted to put out the fire, but on discovering that his clothes, from the waist down, were ablaze, called for help, and Ess Hudson and Henry Peterson came to the rescue, putting out the flames, with heating that was near at hand. Mr. Alexander of Twin Falls was called in to look the patient to a Twin Falls hospital, as some of the burns were considered serious, although his condition is not considered alarming.

John Mackay returned to his home in Hokenon on Wednesday, after spending some time at the hospital.

Will Forest of House Creek is a guest of the Jerome Hotel family.

Miss Berwick of Odgen, spent a short time here Wednesday, on her return from Twin Falls.

Fire broke out in the Jim Boyd house Wednesday, when the boy was endeavoring to light the gas stove. The fire was quickly extinguished and the harm done was minimal.

Mr. and Mrs. Walter Parsons of Orell, Nevada, spent a short time here, on their return from Odgen, where they spent several days.

Uncle Eben

"When a man has his own worst enemy at his elbow, he will work no harder because he ain't got energy enough to put out an enemy that will be hard to lick."

Imaginary Ills

Sorrow there is not so hard to bear as the thought of sorrow coming, for the worst work we do is to torture us more than men in steel with bloody purposes—Aldrich.

Universal Desire.

All men desire to be immortal—Theobald Parker.

CONTRACT BETWEEN UNITED STATES OF AMERICA AND TWIN FALLS CANAL COMPANY

(Continued From Page 2)

Should the said American Falls Reservoir be constructed of insufficient capacity to store and control the full water supply available for storage at said American Falls site, the United States reserves the right at some future date at its own cost and expense, or with funds advanced by other parties who may desire to participate in such enlargement, to increase the said reservoir and/or dispose of the additional capacity and additional water supply made available by such enlargement, and in that event the Contractor will have no right or interest in the additional capacity of the said reservoir, and such enlargement provided that should the additional capacity made available by any such enlargement of the contractor shall be in excess of the original reservoir capacity in the original reservoir, then the Contractor shall be given credit or rebate as will reduce the cost of the said reservoir to the reservoir to the average cost per acre-foot of the entire reservoir, including such enlargement.

The Contractor agrees that when water available for exchange purposes is stored in the said American Falls Reservoir, the United States may deliver to the Contractor for the entire term of this contract, in lieu of water which the Contractor is entitled to receive from Jackson Lake Reservoir, an equal amount of water from the said American Falls Reservoir, so that the Jackson Lake water will be available for use on lands owned American Falls.

The Contractor agrees that within five (5) years after the date of this agreement, it will cease to divert from Snake River at any time during the non-irrigation season, more than six hundred (600) acre-feet of water, and as soon thereafter as the construction of sufficient capacity of the said reservoir shall make the same reasonably practicable, will attempt to further reduce or eliminate the diversion, but in no event shall its canal during the non-irrigation season.

This contract shall lapse to the benefit of and be binding on the contractor and assigns of the parties hereto.

The Contractor agrees to distribute the amount of storage capacity provided for in this contract in full compliance with the provisions of Section 2 of the Act of Congress of Feb. 21, 1911 (36 Stat. 1, 257), known as the "Water Act."

The Contractor agrees to pay to the United States each year beginning the year when water is first diverted from Snake River hereunder, its proportionate share (in the proportion that its share of the reservoir capacity is of the total capacity of the reservoir) of the cost of operating and maintaining said American Falls Reservoir, including the cost of operating and maintaining said American Falls Reservoir, and of the cost of operating and maintaining said American Falls Reservoir, and of the cost of operating and maintaining said American Falls Reservoir, and of the cost of operating and maintaining said American Falls Reservoir.

available by such enlargement, and in that event the Contractor will have no right or interest in the additional capacity of the said reservoir, and such enlargement provided that should the additional capacity made available by any such enlargement of the contractor shall be in excess of the original reservoir capacity in the original reservoir, then the Contractor shall be given credit or rebate as will reduce the cost of the said reservoir to the reservoir to the average cost per acre-foot of the entire reservoir, including such enlargement.

The Contractor agrees that when water available for exchange purposes is stored in the said American Falls Reservoir, the United States may deliver to the Contractor for the entire term of this contract, in lieu of water which the Contractor is entitled to receive from Jackson Lake Reservoir, an equal amount of water from the said American Falls Reservoir, so that the Jackson Lake water will be available for use on lands owned American Falls.

The Contractor agrees that within five (5) years after the date of this agreement, it will cease to divert from Snake River at any time during the non-irrigation season, more than six hundred (600) acre-feet of water, and as soon thereafter as the construction of sufficient capacity of the said reservoir shall make the same reasonably practicable, will attempt to further reduce or eliminate the diversion, but in no event shall its canal during the non-irrigation season.

This contract shall lapse to the benefit of and be binding on the contractor and assigns of the parties hereto.

The Contractor agrees to distribute the amount of storage capacity provided for in this contract in full compliance with the provisions of Section 2 of the Act of Congress of Feb. 21, 1911 (36 Stat. 1, 257), known as the "Water Act."

The Contractor agrees to pay to the United States each year beginning the year when water is first diverted from Snake River hereunder, its proportionate share (in the proportion that its share of the reservoir capacity is of the total capacity of the reservoir) of the cost of operating and maintaining said American Falls Reservoir, including the cost of operating and maintaining said American Falls Reservoir, and of the cost of operating and maintaining said American Falls Reservoir, and of the cost of operating and maintaining said American Falls Reservoir.

The Contractor agrees to pay to the United States each year beginning the year when water is first diverted from Snake River hereunder, its proportionate share (in the proportion that its share of the reservoir capacity is of the total capacity of the reservoir) of the cost of operating and maintaining said American Falls Reservoir, including the cost of operating and maintaining said American Falls Reservoir, and of the cost of operating and maintaining said American Falls Reservoir, and of the cost of operating and maintaining said American Falls Reservoir.

The Contractor agrees to pay to the United States each year beginning the year when water is first diverted from Snake River hereunder, its proportionate share (in the proportion that its share of the reservoir capacity is of the total capacity of the reservoir) of the cost of operating and maintaining said American Falls Reservoir, including the cost of operating and maintaining said American Falls Reservoir, and of the cost of operating and maintaining said American Falls Reservoir, and of the cost of operating and maintaining said American Falls Reservoir.

The Contractor agrees to pay to the United States each year beginning the year when water is first diverted from Snake River hereunder, its proportionate share (in the proportion that its share of the reservoir capacity is of the total capacity of the reservoir) of the cost of operating and maintaining said American Falls Reservoir, including the cost of operating and maintaining said American Falls Reservoir, and of the cost of operating and maintaining said American Falls Reservoir, and of the cost of operating and maintaining said American Falls Reservoir.

The Contractor agrees to pay to the United States each year beginning the year when water is first diverted from Snake River hereunder, its proportionate share (in the proportion that its share of the reservoir capacity is of the total capacity of the reservoir) of the cost of operating and maintaining said American Falls Reservoir, including the cost of operating and maintaining said American Falls Reservoir, and of the cost of operating and maintaining said American Falls Reservoir, and of the cost of operating and maintaining said American Falls Reservoir.

The Contractor agrees to pay to the United States each year beginning the year when water is first diverted from Snake River hereunder, its proportionate share (in the proportion that its share of the reservoir capacity is of the total capacity of the reservoir) of the cost of operating and maintaining said American Falls Reservoir, including the cost of operating and maintaining said American Falls Reservoir, and of the cost of operating and maintaining said American Falls Reservoir, and of the cost of operating and maintaining said American Falls Reservoir.

The Contractor agrees to pay to the United States each year beginning the year when water is first diverted from Snake River hereunder, its proportionate share (in the proportion that its share of the reservoir capacity is of the total capacity of the reservoir) of the cost of operating and maintaining said American Falls Reservoir, including the cost of operating and maintaining said American Falls Reservoir, and of the cost of operating and maintaining said American Falls Reservoir, and of the cost of operating and maintaining said American Falls Reservoir.

CANCELLATION OF DEED ASKED IN NEW SUIT

A. B. Lomberger Says He Was Told By W. H. Smith Land Was Free From Encumbrance

The case of A. B. Lomberger vs. W. H. Smith, a local real estate dealer, for cancellation of a deed to the land in the Idaho Falls district, the plaintiff alleging misrepresentation, was begun in district court this morning before Judge W. A. Barber, with Attorney S. T. Hamilton sitting for the plaintiff and James H. Wise representing Smith.

A. B. Lomberger, Mrs. Lomberger, his wife, and Kenneth Lomberger, his son, a full farmer, took the witness stand for examination and cross examination. They told Mr. Smith's alleged visit to their home near Oakley and the signing of a contract for Carey act land and also the signing of a deed and deed.

Mr. Lomberger said Smith had told him nothing relative to whether or not there were any payments due on the land and that no anyone evaded the question of future payment. After the time the plaintiff learned, he said, that the land would produce nothing and that there were several payments yet to be made.

JUDGMENT GIVEN

A. L. Houghton, local attorney, was given a judgment of \$1500.42 yesterday afternoon in the case of Houghton vs. the B. & O. Railway Co. The plaintiff alleged that failure of defendant to deliver cars for the transportation of sheep at the Lionberg farm resulted in a loss, as sheep depreciated in value. Attorney B. A. Walters represented the plaintiff while J. A. Wise acted for the defense.

SILVER DOLLARS TO ORIENT

Experts Decided Upon by Government to Stabilize American Exchange

Washington, Silver dollars are to be authorized by the government to be used in the Orient and countries elsewhere having the silver monetary standard to stabilize American exchange. An agreement has been concluded between the treasury and federal reserve board whereby silver dollars will be released for export to countries that have a balance of trade against the United States and where the dollar is below parity.

WILL VIEW ALL BEAUTIES

French Claim Right to Feast Eyes on Charmers From All Lands

Paris,—"Men have the indelible right to feast their eyes on the fairest beauties of all nations."

Such was the reply of the fashionable Epantant club to the press against the display of high priced beauties at the Marigny theater, when French women rose in indignation and said:

"They're three enough beautiful women in France!"

"What object is there in beauty?" he is declared to be a beauty hunter, "acquired beauty is to be seen on behalf of the club. From the earliest times a man has been admitted that it is his duty to find his mate within his own country's borders. The boulevardiers of Paris and all the cosmopolitan cities of the world will welcome the beauties of all nations."

From Salt Lake—L. Rasmussen has returned from a visit to Salt Lake City.

Entertainers—Miss Agnes Hart will entertain a number of her friends this afternoon at her home.

Leave for Chicago—Walter Durrie and Frank Magle have gone to Chicago on a short business trip.

Ill at Idaho—Mrs. Everett Sweetley, now of Boise but formerly of Twin Falls, is very ill at her home there.

Leaving—Miss Genevieve Haight has gone to Logan, Utah, where she will enter the Utah Agricultural college.

To Oregon—Dr. and Mrs. T. O. Boyd have gone to Enterprise, Oregon, to take the serious illness of a relative.

Copies Received—Copies of the state code have been received here according to an announcement made by the public library.

Dinner—H. M. Gilliam, of Baker, Oregon, will entertain this evening at 7 o'clock at the Rogerson hotel in honor of Mr. and Mrs. L. F. Roberts.

Merrill—George W. Parker and Nellie C. Meyer were married last night at the home of Mrs. J. C. Duvall, both are from Twin Falls.

D. O. DeLub—The D. O. club gave a dance in Cotton Hall last evening. The members of the Hurley basketball team were guests of the club.

Retrains—Jack White, who has been in Twin Falls for the past few days visiting at the home of Mr. and Mrs. John Maxwell, has returned to his home at Wallace.

Entertainers—Mrs. C. O. Markle has hosted the members of the Presbyterian Ladies Aid Thursday afternoon at her home. About three-hundred members of the afternoon which was spent in banqueting table cloth.

Conduct Demonstrations—From Moore, poultry husbandman who is now conducting demonstrations, gave two demonstrations yesterday, one at Roger Grove and the other at the Rice house.

Will Live in Salt Lake—Mr. and Mrs. Carl E. Palfrey, formerly of this city but residents of Oklahoma for some time, will reside at Salt Lake according to reports received by Dr. and Mrs. Dwight, parents of Mrs. Palfrey, who was formerly Miss Gladys Dwight.

Building Permits—Building permits were issued yesterday as follows: to Max Pink for the erection of a \$10,000 brick building on 7th and Main streets, also \$10,000 for the erection of a \$700 structure, also \$1254 on Jackson street in connection with the erection of a \$5000 on Fifth Street North on lot 11, block 29.

Entertainers—Mrs. W. F. Pike entertained last evening at a shower in honor of Miss Agnes Hart, who is to be married this month. Large and costly flowers were used in the decorations. Refreshments were served to the following guests: Misses Harkins, Trease, McGowan, Hagan, Crockett, Eloise Ostrom, Marjory Putnam, Alma Bennett, Agnes Hart, and the Mesdames Ostrom, North, McCarty, Cowan, Hart and Jones.

Birthday Dinner—Miss Ann Whelan entertained a number of her friends at a birthday dinner Thursday evening at her home. A kepiro formed the table centerpiece and ribbon streamers were used for decoration. Large and costly flowers were used in the decorations. Refreshments were served to the following guests: Misses Harkins, Trease, McGowan, Hagan, Crockett, Eloise Ostrom, Marjory Putnam, Alma Bennett, Agnes Hart, and the Mesdames Ostrom, North, McCarty, Cowan, Hart and Jones.

Planning for Class Emblems

The Senators are making plans to purchase pins and ribbons with their money to be used in the election. Members of the class expect to receive them about a month. Each year the classes have the class pin, rings and money. The class pin is the most expensive but many prefer them over at the highest price.

Miss Helen Scott of Rupert made a special visit to Twin Falls yesterday.

Miss Mamie Hays of Burley came to Twin Falls yesterday afternoon for a few days.

C. C. FAVORS BT. JOHN SKINNER PLACE FOR PARK

Council to Take Up Purchase of Land On Boulevard For Park and Aviation Field

A visit was made to the St. John Skinner park site yesterday by the Council on Recreation and Conservation, which became more favorably impressed with the place than before. The land is admirably located for a playground, park and aviation field and is close to large city areas which will be easy to connect with when the park is built.

It is expected to have a swimming pool, skating pond and the other usual features found in a park, and there will be a playground for the children who are expected to frequent the spot on hot afternoons. The Council on Recreation states that the spot is an admirable location for a park and that a beautiful one will be made.

The matter of purchasing the Skinner place, which will cost approximately \$12,000, will be taken up Monday evening at council meeting and there seems little doubt that it will be bought.

WOODLOTS SAVE COAL

Many farms are well equipped for supplying the fuel which is needed to run a household. One way of doing this is by planting woodlots. A large percentage of these farms contain timber which has exceeded fifty years of age. This timber, if properly managed, would yield an abundance of firewood and yet leave the woodlot in better condition than before the cutting was made. The removal of dead, decaying or otherwise defective timber, if done properly, would not only give a source of fuel, but would leave the remaining timber in better condition for increased growth.

PLOW AND CULTIVATE TO KILL JUNE BUGS

Beetles Are Parents of White Grub, Harmful to Corn.

It Takes Three Years for One of insects to Develop From Egg Which is Laid in the Soil, and Sometimes in Cornfields.

By CHARLES C. WENTZELER

Have you ever seen the so-called June bug buzzing around an electric light or seen them swarm on the leaves of your corn plants?

They are a big, dark-brown beetle and at night when they bump against the window panes or fly humming about the ceiling make you crazy and hunt for the brown.

These blundering, awkward beetles, of which the chickens and turkeys are so fond, are the parents of the corn pest known as the "white grub" which feeds on the roots of the plants and destroys them.

Millions of them are destroyed in spring by hungry birds and sprays, but the eggs which they lay around the roots of a crop, they are so sensitive to light that a flame will destroy them.

It takes three years for one of these beetles to develop from the egg. The beetle—deposit their eggs in meadows and sometimes in cornfields. The tiny grubs which emerge from the eggs crawl into the soil, feed, white grubs grow to the size of a pea and are known as white grubs.

When matured they are fully one and one-half inches long.

Justly for Mr. Beetle, the grub spends its life in the soil. It never comes out of the reach of enemies. If the white grubs, however, are completely destroyed in the soil, we have the June bug—will be each spring.

All corn is not to suffer from them. In fact, the best of the best in depositing his eggs in meadows, corn that is planted in heavy turned soil is more apt to escape them.

The best way to destroy them is to plow and cultivate so that their natural food supply is destroyed. If you started to destroy them by plowing the field, some farmers let the chickens follow the plow and destroy hundreds of them in this way.

SPECIAL MEETINGS

A series of special meetings will be held in the evening at the First Methodist church. The first will be on Thursday, February 26, 7 o'clock. The second on Friday, February 27, 7 o'clock. The third on Saturday, February 28, 7 o'clock.

Special meetings will be held in the evening at the First Methodist church. The first will be on Thursday, February 26, 7 o'clock. The second on Friday, February 27, 7 o'clock. The third on Saturday, February 28, 7 o'clock.

PERSONAL MENTION

W. K. Grof of Shoshone was in town Thursday.

L. K. Walter of Buhl was in town yesterday.

D. C. Sherer of Filer, made a call at the county seat yesterday.

Walter Arlington of Rupert came down today for a short time.

Miss Peri Waldeck of Buhl was a Twin Falls visitor yesterday.

Heretofore of Astoria was in town yesterday for a few hours.

J. T. Douglas of Harrison was in town yesterday for a few hours.

Mrs. George Patrick of Buhl made a short call at the county seat yesterday.

E. J. Van Court came up for a short time yesterday from his home at Buhl.

E. L. Bryant of Buhl came to the county seat Thursday for a few hours.

Mrs. George Paterson of Filer made a call on Twin Falls Friday, returning to the afternoon.

SUNDAY DOINGS IN CHURCHES

What's On In The Several Local Places Of Worship On The Lord's Day

"Two Views of the Transfiguration" will be the sermon theme tomorrow at the Presbyterian church. Rev. Carroll L. Owen will occupy the pulpit in the absence of H. A. Harrington. The pastor has prepared an interesting talk on this subject.

In the evening an illustrated lecture on "Syrils" will take place at the Episcopal church. The lecture will be conducted by the choir while in the evening there will be choral and trio numbers. Mesdames Buxton, Dwight and Smith will sing.

An unusually fine program has been prepared for the Sunday services at the Christian church. "Twin Falls' High Class Evening" will be the subject of the service. W. A. Moore's address will be read by several musical features. Mrs. C. J. McCarty will sing and there will be music by the entire choir and a solo chorus.

In the evening the "On the Night" service will take place at the Episcopal church. The service will be conducted by Rev. W. A. Moore and will include a reading from Senator Warren O. Harrington of that State. Miss Edith Creel will render a solo and a duet by Mrs. C. J. McCarty will be a feature.

There will, in addition, be music by the male chorus. Rev. W. E. Moore will speak on "An Ideal Twin Falls Home."

At the Methodist church, in the morning, the pastor, Rev. Alexander C. Bennett will speak on the "Sermon Theme, 'The Speaking God.'" "Welfare, a Question of All Ages" will be the subject of the minister's evening address. J. E. Bryn will sing and there will be organical music. Harace and Epworth League meetings will take place at the usual hours.

A musical service will be observed at the Episcopal church. A number of the highest grade musical selections will be given by the large choir. Mrs. C. Trucker and Harry W. Barratt will sing a duet. "Come, O Lord Me."

"Truth" will be the subject at the morning service at the Methodist church. Rev. W. A. Moore will speak on the "Sermon Theme, 'The Speaking God.'" "Welfare, a Question of All Ages" will be the subject of the minister's evening address. J. E. Bryn will sing and there will be organical music. Harace and Epworth League meetings will take place at the usual hours.

EXCURSION IS PLANNED BURLEY MEET

Chamber of Commerce Is Making Arrangements To Run Special Train To Conference

Arrangements are being made by the Twin Falls Chamber of Commerce to run an excursion to Burley next Thursday for those wishing to attend the big reclamation conference which begins on that day. Committees have been appointed by the reclamation bureau to make a canvass of the city, but an attempt to secure 125 people who will guarantee to make the trip, is fairly certain of having as its result a large number of Twin Falls people interested in the opening of the Bureau tract and other reclamation projects. Governor D. W. Davis and Frank H. Gooding will be at Burley to speak on reclamation topics and there will be other well known speakers.

It is said that there is a lot of public sentiment in favor of the opening of accomplishing its purpose to prevent opening of the Bureau tract has had a solidifying effect on public opinion and that the various committees in this district are planning to publish the Bureau project with a view toward having it opened to settlement.

FRANCE PAGES TO YEAR TASK

Lorraine Plans May Quicken Restoration of Steel Industry of the Country.

Washington, Feb. 22.—France's steel and iron industry, virtually cut in half by the war, is faced by what engineers estimate to be an eight to ten year task of reconstruction. Tons of the problem were reported to the Senate today by Senator Lorraine, who is visiting the industrial regions of France by special arrangement from Paris.

Senator Lorraine, however, said the country's steel and iron production may be quickened by the industrial nations and that it is not necessary to reconstruct the steel industry of the country throughout the world. He pointed out that the steel industry of the country is the backbone of the nation and that it is necessary to reconstruct the steel industry of the country throughout the world.

Senator Lorraine, however, said the country's steel and iron production may be quickened by the industrial nations and that it is not necessary to reconstruct the steel industry of the country throughout the world.

NOTES of SPORTRIDOM

Philadelphia will stage Grand Circuit races at Belmont next year.

Boston's new ice rink does not include space for day-to-day curling.

The Phillies asked waltzer on Catherine "Big" Clarke and the Whites have claimed him.

Memphis of the Southern Association wants a manager. John Evers and Lee Fohl have been mentioned for the job.

C. P. Larkin, Jr., 23, tackle on last Fall's Swarthmore college football eleven, has been elected captain for next year.

William von Bernuth, former football player and secretary of Yale university, has been appointed wrestling coach at Purdue.

Students of the Ohio State university are eager to stage a football game between the university eleven next year and Princeton.

Thirteen states have passed a law making physical education compulsory and twelve others have the subject under consideration.

The University of Illinois football eleven has been named to play the Harvard eleven in the Stadium at Boston, October 23, 1920.

Wily "Duke" Ruth isn't going to be a movable picture star comes out. He wanted \$100,000 advance before acting and the movie people wavered.

Tom Logan, Athletics' shortstop, declares he will not play with Clyde Black's club next season. Says he can't get along with the team leader.

Jimmy White, the clever English fly-ball boxer, never received instruction, being seemingly a natural exponent of the many art of self-defense.

Leo Gilbel of the New York Athletic club, national 500-yard swimming champion, will represent Rutgers in Inter-collegiate tournaments this winter.

Fred Woodcock, the western trainer who developed Captain Mack, 2405, has moved from Salem, Ore., to Omaha, Neb., where he will conduct a public stable.

Akron, O., which recently obtained a franchise in the International League, is setting ambitious. It has made an offer to Hans Wagner to become manager.

"Bull" Hodgers, star fullback of the West Virginia eleven, is being sought by several major league clubs, but thus far has declined to turn to professional baseball.

"Jack Manning, who has been an assistant in developing Harvard University crews for 17 years, has resigned and will take charge of the Norton H. C. rowing candidates.

KICKS 46 GOALS IN ROW

What is believed to be a new football record was made in game between Georgetown college and Centre college when Weaver, center of the Centre team, kicked seven straight goals after touchdowns, setting a record for consecutive goal kicks up to date.

IS AGAIN WITH PITTSBURGH

Glenn Warner, Who Has Had Much Success With Smoky City Eleven, is Re-signed.

Glenn Warner, familiarly known to gridiron followers as "Tom," and considered by many the greatest football mentor in the country, has signed a four-year contract to coach the University of Pittsburgh football team.

Warner has coached Pittsburgh for the last six years with wonderful success.

Mrs. Emma Adrell of Eden was a Twin Falls visitor yesterday.

Daily and Sunday Times, \$7.50.

AMERICAN GOLFERS MAY INVADE ENGLAND

It is possible that some of the leading young golfers of this country will be seen on courses across the sea in the near future, among them Dave Heron and Bobby Jones. A leading English paper says of the proposed American invasion:

"Youngsters to Compete.

"The extreme youth of the players who fought out the final match of the American amateur championship has not escaped notice in the press. The winner has just come of age, the runner-up is no more than seventeen. It is highly probable that in the future three or four of these youngsters will compete for championship over here and we must be prepared to bid higher golfers, such as Charles Evans and Francis Osburn, who are still in the fullness of youth and vigor, joining with them in the endeavor to take trophies and the honors across the Atlantic. Experience may suffice to keep them at bay for a time, but youth is bound to tell in the long run, even at the old man's game.

"No doubt the world would consequently be a more varied even if American golfers were to win our amateur championship here after years for a decade or two, but we should not be disappointed by the incident in its progress toward the sun."

FROM THE PRESS BOX JUG

A winning baseball club has been too often and well proven as an advertising asset to require any introduction or recommendation in that light. The fact is so well known that anyone attempting to dispute it stands risk of an examination by his fellows for peculiar gleams about the eyes. For advertising purposes, a champion ball club is, indeed, about as good as a page display in the Twin Falls Times or the Saturday Evening Post. In other words, you can't beat it.

All the way from Cincinnati to South Idaho, this was demonstrated as recently as last summer. The Reds saw their deeds recorded in tall wood type across the top of every journal, family and otherwise, bounded on one side by Cincinnati and extending east, and on the other, until the other boundary is also at Cincy. Their hats were heard around the world, you might say.

In smaller degree the same thing happened in southern Idaho. The Burley club gave its town state prominence and publicity in a wide-away, and coming municipality, willing to give its settlers attention on their money. The Burley business men realized that trade comes to a town that gives action on the money spent there, and the know that baseball was the most popular form of action that could be mustered. How well satisfied they were with the result is shown in the following letter from W. R. Ashdown, Burley business man, who managed the baseball club their last season:

Burley, Idaho, Jan. 19th, 1920

Mr. Roy Weaver
Twin Falls, Idaho

Dear Sir:

In reply to yours of the 18th, in regard to baseball, I am pleased to inform you that we are looking forward to a good season.

We had a very successful season last year from all standpoints. The advertising we received from the work of our boys and the clean baseball they played made it the best money we ever spent in advertising.

We also had the best exhibition of the national sport that has been played in the state for some time.

Our boys try was a success from all angles and the people here have learned that, from all angles, baseball is the best advertising medium that can be handled for the money and still get enjoyment out of it.

We are expecting to run a team this year on \$4,000.00 which will raise by donation and will not have any trouble getting the money, the way things look now.

We trust you will be with us in the effort to keep the game going as you have been in the past, and that you will be able to get a consistent team in the field this year.

With best wishes for a good season for the best sport on earth, I remain

Yours for better baseball,
W. R. ASHDOWN.

Naturally Burley, but Rupert also, get results from their baseball last summer, as you can see from this year. What is even more important to the business men of Twin Falls, being closer to home and in the same trade field, is the action of the local business men, who

are preparing to get into the game strong this year. Bull will have the most rapid baseball part in this part of the state; that much being accomplished last season. On top of that, speaking both figuratively and literally, Bull will have one of the best teams in the state, judging from the financial steps being taken there. And any one who guesses that the Bull business men don't expect to reap something of a harvest from their investment might be wise to consider another guess. By placing a strong trade attraction in their town they rightly look for trade to come that way. And where is it coming from? That is easy. It is coming from those places which have no attraction to offer.

BURLEY HOOP TEAM TAKES BLUE AND WHITE INTO CAMP TO TUNE OF 25-19

Canine Is Star For Visitors—Carter For Locals—Visitors Lead Practically The Entire Game.

The Burley high school basketball team, led by the best of the half and minutes to end with the score in their favor, 25-19.

While the crowd waited for the resumption of the battle and the band played several enlivening marches, the members of both teams, with their coaches, were holding "kaki practice" upstairs.

In the second half, the Burley boys appeared to be weary of the fray and were retaining a bit when they suddenly awakened to find the Magic City team a few points in the lead. This lead soon diminished and the game became a give and take affair with first one club leading and then the other. At length the Burley boys found their basket eyes and forged a few points ahead. From this time on Twin Falls was bringing up the rear.

The locals were greatly affected by the loss of Bob Putzler, whose guarding has been a feature of the games played both here and on the road. He is fit at his home and will not be able to play for some time.

Here it will suffer from a bad knee but it is expected that he will get back in the lineup before many days.

The lineup follows: Burley, H. Canine and Garland Johnson; Twin Falls, Cliff Lessen and Herbert Pollard, guards; Twin Falls, Newman and Krengle forwards; Carter, center and Bailey and Taylor, guards.

Well, sometimes. Marriage makes one out of two; but generally this comes through the squinting of the husband.—New York World.

TENNIS LEAGUE IS PROPOSED

Plans Promulgated for Formation of Clubs Representing Various Eastern Colleges.

Plans for the formation of an association of lawn tennis clubs representing Yale, Harvard, Princeton and Cornell universities and the University of Pennsylvania, and to be known as the Intercollegiate Tennis League, have been promulgated by C. S. Gantland, captain of the Blue tennis team, and K. N. Hawks '21, also of Yale university.

SWIMMING BOOMING AT PENN

Prospects for Championship Team Have Not Been Bright Since 1915—Dyer is Needed.

George Kistler of the Red and Blue swimming team anticipates a successful season. Prospects for a championship swimming team have not been brighter since 1915, but the University will need a first-class young diver. In the intramural sports Kistler has been able to look over some promising swimmers whom he hopes to work on for the varsity team.

POSTPONEMENT OF BIG RACE

Contest Between Scottish and French Champions Delayed on Account of Sickness.

The proposed tennis world's championship foot race which was to have brought together George McCreck, the Scottish champion, and Jean Vermeire, the French champion, at Edinburgh Scotland, recently has been postponed. McCreck has had to undergo an operation for appendicitis.

Plague's Awful Death Roll.

In six months in the seventeenth century 250,000 persons died in Naples of a plague.

MUST PRESERVE FARM HOME BY CO-OPERATION

Educator Tells Farmers at Conference Why Standard of Living is Higher

MOSCOW, Jan. 21.—Remember that the good farmer has a large scale of social service. The conscientious farmer leaves his land to his sons and to society, just as productive as it was when he found it. Farming must be made a good business if the interests of society are to be served. These are among the subjects discussed here by Dr. Liberty H. Bailey, educator, publicist and authority on things agricultural in an address delivered before a large gathering of farmers and housekeepers in attendance at sessions being held by the University of Idaho.

On his subject "Farming as a Mode of Life," Dr. Bailey explained in detail those changes of the past 20 years which have raised the farmer's standard of living, increased his pride in his occupation and vastly augmented his respect. Scientific knowledge, intelligent credit and expansion of markets, plus the fact that the population has overtaken production were the elements which he stressed particularly.

Emphasizing certain unique features of farm life, he declared that farming is essentially the only occupation in which genuine apprenticeship must be served and want to insist that the farmer should be trained and equipped with land and means of production.

Do not forget," he said, "that everything the farmer adds to his home enhances the value of his farm. The farm home, unquestionably one of the highest in society, must be preserved as a co-operative enterprise in democracy."

WARNING

Flu epidemics have been reported in various parts of the state. To prevent an epidemic here in our city we must observe the following rules:

- Do not cough and spit in public places and if you must cough use your handkerchiefs.
- Stay at home with colds. Do not hesitate to have a physician treat all severe colds.
- Do not fall to report all cases of severe illness coming to your notice and have same diagnosed by a physician.
- All colds are not flu.
- Do not needlessly expose yourself attending pneumonia and other contagious diseases among your friends.
- Keep dry, keep clean, keep warm and do not get perturbed.
- Stay out of placarded houses.
- We have no epidemic of flu, but we want to prevent it.

USEFUL FOLDING WYCK-CASE

Handy Article 'Gotta Together' Book and is Secured With Ribbon Strings.

A handy little work-case is shown here. It is designed to contain pens, needles, buttons, etc. It folds together like a book, and is secured when closed with ribbon strings, and is mounted in a place in the dressing-table drawer. It is carried on in dark brown with lines with pink silk, and bound with brown leather. The sides are stiffened with pieces of card stock in between the silk and the binding. In the lining there is a left-hand side, there is a little pocket, into

Useful Work-Case.

which a small pair of scissors can be slipped and upon either side of this pocket there are loops of narrow elastic for holding buttons, large needles, etc.

The lower half of the right-hand side of the case forms a large pocket that is useful for holding various little articles, such as a card of buttons, dancing wool, thimble, and possibly part of a reel of cotton wound upon a card.

In the center four leaves of gannet cut with radiating at the edges, are down, or the needles.

Some pretty little design such as suggested in the right-hand sketch, can be worked upon the front of the case with the words: "Scissors and Needles," beside it.

If you don't want what you have or haven't what you want, see a Little Times want ad.

PAPER TROUBLE DECLARED ACUTE

Difficulties of Manufacturers and Newspapers May Be Taken Up Internationally

WINNEPEG, Man., Jan. 24.—A serious situation, which may be taken up internationally, was evident here today in the troubles between Manitoba and Saskatchewan newspapers and the Port Franco paper mills, all American owned concern.

Three Winnipeg newspapers have refused to resume publication within a four days' supply of newspaper, following a week's suspending during which all the newspapers in the two provinces had been forced to suspend. "It is believed" that another suspension is inevitable next week.

The trouble arose out of refusal of the paper mills to resume publication with the papers. The four days' supply granted by the title was given only after stipulation that all back accounts be paid and the money be delivered paid for in cash. Only one paper was able to meet the terms but it left its supply with two others.

There was great roasting on the part of the public at the resumption. "It is now 12 days, when the Canadian flag was hauled down from Fort Franco (Manitoba) and the main flag of Canada & company of International Falls (Minnesota) ran up in its stead," said one paper to the other. "It remains to be seen what the Canadian government will do about it."

NOTED ARMY CHAPLAIN IS BIERED AT LEAVESWORTH

LEAVESWORTH, Kan., Jan. 23.—The body of Major Henry Swift, noted chaplain of the United States regular army, today reaches here. He died of his wounds in the national cemetery here. Major Swift died at Fort Leavenworth in 1913. He was a member of the Grand Army of the Republic and was buried at Fort Leavenworth, of which Major Swift was a charter member, ending the funeral.

Major Swift, who saw active service in the Philippines and in China, was retired when the United States entered the war against Germany. He was 62 years of age.

ILLINOIS JUSTICE DIES

CHICAGO, Jan. 23.—Simon Shupe, former chief justice of the Illinois supreme court, died at his home here today, aged 82. He was a friend of Abraham Lincoln. He was born in Akron, Ohio, in 1837.

The Times job printing department is thoroughly equipped to do first class work at reasonable prices.

WHOLESAOME GOOD THINGS.

Preservatives for various foods have not been the usual thing during the month of sugar shortage. The following are household necessities which may be stored and kept in a cool place for weeks and, by adding a little of moisture or heating over water, will be ready for use:

1. Sugar.—The recipe as appeared before an early foundation, but makes very satisfactory frosting. Use four cups of sugar, one cupful of water and one half-cupful of glucose. Boil until the syrup makes a soft ball when dropped in water. Set away to cool, when the cook wishes to hear the finger, stir until creamy. Put into a jar or bowl, seal with wax and use as needed. Take out what is needed for icing, melt it over hot water, add coloring, coloring or chocolate, and spread on the cake.

Another "Frothing"—the confectioner's sugar and milk or cream. To two cupfuls of sugar add half-cupful of cream, adding a few drops more until soft enough to hold it. Try it on a small cake until of the right consistency. Use what is needed and cover the rest, setting it in a cool place where it will not dry out. It will keep for three weeks or longer to use for Bachelors' Suppers—Hub together four tablespoonfuls of butter and ten tablespoonfuls of sugar. Drizzle ten tablespoonfuls of sugar and five into the flour and the other five into two well-beaten eggs; flavor with vanilla and add to the flour mixture. Make into small water-logged balls, place on a buttered baking sheet and bake in a hot oven. Dip in fondant and sprinkle with nuts.

Sunshine Cake.—Take the whites of eight eggs and the yolks of six, one cupful of flour, one teaspoonful of cream of tartar, salt and vanilla. Beat the yolks until thick, add vanilla; beat the whites until frothy, then add the cream of tartar; finish beating, until stiff; add the sugar, a little at a time, then add the flour and mix in a flour. Bake forty-five minutes in a moderate oven.

Two DIE WHEN HOTEL BURNS

Several Guests and Two Firmmen Injured When Dallas, Tex., Hostelery Catches Fire

DALLAS, Tex., Jan. 24.—Two men, Joseph A. Chapman and J. T. Cowan, are known to have been killed and several persons injured when fire primarily destroyed the Main hotel here early today.

The bodies of Chapman and Cowan were found on the second floor of the building. Both had been overcome by smoke when they attempted to escape from the building. Ten firmmen were also injured, one seriously, when an window frame, on which they were standing fell from a second floor window. Pat Gallagher, firmman, suffered a fractured leg and internal injuries. His condition is said to be serious.

The blaze, which was discovered shortly after 1 o'clock, is believed to have started in the kitchen of the hotel, where they were standing fell from a second floor window. Pat Gallagher, firmman, suffered a fractured leg and internal injuries. His condition is said to be serious.
