# ALASKANS ARE MAKING GOOD

They Show Marvellous Inclination Toward Good Citizenship and Patriotism.

What the Alaska natives are doing and are willing to do is proof positive of their fitness to live on the Sitka and Sitka is improved on all who come in contact with the natives, and their numerous activities along lines of advanced citizenship and patriotism.

By way of a minor illustration that shows which way the wind blows with them: The natives in Juneau, through the aid of the Sitka, are raising dogs, that there might be more food for human consumption. They are raising dogs in the Sitka, and they are raising dogs in the Sitka, and they are raising dogs in the Sitka.

# OUR CAPTURED FLAGS ABROAD

Emblems Taken During the War of 1912 Are Gaily Preserved in London.

A recent walk through Chelsea brought me to several places of interest. One of these was the home of a British official, built in the reign of King Charles II. The great hall of which the official is the present possessor, contains a number of flags captured during the 1812-1815 war are suspended.

The colors have been hung by the side with Napoleonic eagles and other war trophies, and if it were not for the fact that the British are unable to discern their story, among them are flags of the Sixty-eighth and Eighty-third regiments captured at the battle of Waterloo, the colors of the 1st and 2nd regiments of the United States Infantry, taken at Detroit; the colors of the 1st and 2nd regiments of the United States Infantry and another taken at Queenstown Heights.

# MUSSULMAN WOMEN LIKE CLUB LIFE

So Long as Men Are Not Present, Albanian Organization Thrives

TIHANA, Albania, Jan. 29.—For the first time in history Muslim women have a women's club. It is the first women's club in Albania.

When the American Red Cross arrived in Tihana it established a hospital, a dispensary for babies and for adults, a sewing room for women, an ambulance and a school. But there were only for the poorer people. The well-to-do women, shut in according to the Muslim custom, forced to wear black veils and to be covered up and being rejected by anyone except their women doctors, and the work of the Red Cross was not receiving full cooperation from the Muslim women, because of the restrictions on their lives. So it was decided to organize a women's club.

# ASK FUND TO FIGHT FLU

ALLIANCE, Jan. 29.—State health department officials are urging the legislature for a \$50,000 appropriation to fight influenza. The fund is to be used for the purchase of disinfectants and other supplies.

The fund is to be used for the purchase of disinfectants and other supplies. The fund is to be used for the purchase of disinfectants and other supplies.

# ALASKA VISITS TO GRAVE

According to a report received here, the American Young Women's Christian association is sending a party to Alaska to visit the graves of the men who died in the war.

The party will consist of a number of women. The party will consist of a number of women. The party will consist of a number of women.

# Gets It or Corns, Which?

Few Drops at Night Spells "Good-Night" for Any Corn

It's farewell to any corn that "Gets-It" lands on. If you have a "pet" corn that you want to keep, don't let "Gets-It" come near it or you'll surely lose that pet. A few drops takes all the "pet" out of any corn, makes it let go so it lifts right off without feeling it.

You've carried that misery making corn long enough, haven't you? It's time to hand it its passports. "Gets-It" will convince any corn that it's time to leave. Stops pain at once and quickly loosens the corn so that you lift it off whole. Its easy, safe, painless, quick and absolutely certain. "Gets-It" never fails to get it. "Gets-It" the only sure, guaranteed money-back corn remover. Get it at any drug store.

"Gets-It" for Corns

38 "FLU" CASES IN THIS COUNTY

Dr. C. Q. McGinnis, County Physician, Says Disease Is on Increase

Dr. C. Q. McGinnis, county physician, reported that there have been 38 cases of influenza reported in this county. He said there might be more but that 23 cases were all reported to him.

Considering the prevalence of the disease in the state and in the entire country, 38 cases is not an abnormal large number.

Dr. McGinnis said that he has not seen any cases of influenza in this county since the first of the year.

**JOHN C. MAHNKEN, Owner**  
H. B. LUE, Auctioneer. WARNER BROS., Clerk.

### PERSONAL VISIT TO MARKET

Shipper Will Be More Than Repaid in Picking Up Many Important Little Details.

(Prepared by the United States Department of Agriculture.)

A personal visit to the market which the shipper patronizes will more than repay expenses for points which you intend to hire or for the journey to dealer, and the producer should get the proper market perspective on a visit to the grocer to get into personal touch with the distributors, to select a reliable representative, to trace the difficulties under which they are receiving orders, and to appreciate the problems with which he is constantly confronted.

### ELIMINATE ALL SCRUB SIREs

Suggested That Genus of All Animals Be Taken to Alf Campaign for Better Stock.

(Prepared by the United States Department of Agriculture.)

That officials in every stock-raising county in the country should take a personal visit to the grocer in their respective territories, so that the elimination of scrub sires may be carried on systematically, is a suggestion which has been made recently on behalf of various live stock interests as a result of the agitation for better sires by the United States department of agriculture.

### STOP TUBERCULOSIS IN HOGS

Prevention Lies in Pasteurization of Milk Feed to Animals and Cooking Various Feeds.

(Prepared by the United States Department of Agriculture.)

Prevention of tuberculosis in hogs lies in the pasteurization of milk "to hogs," especially that from creameries, and in allowing hogs to feed behind adult cattle only when the cattle have had the tuberculin test, also in thoroughly cooking all garbage, offal, or carcasses before they are fed to hogs.

### LABORER, BUILT-UP ORGAN

That man who works for a living brings big wages provides a grand piano or even two pianos is evidence that a love of music is one of the first pleasures indulged in when a man begins to have more money than he wants for necessities.

I could tell you of a workman in a Millard town, who, being of a musical and mechanical bent, has built himself a small organ in his living room. The instrument possesses a reel stop and several pedal notes, and is an inexpressive piece of ingenuity.

As the family grows larger and the room about 12 feet square, it can be imagined what inconvenience the family is willing to undergo in order to hold its love of music. The organ fills about one-third of their only living room—London Chronicle.

### MAPLES FOR WIND-RIDGE

Canadians Begin Planting of What Is to Be Memorial Forest on Battlefield.

An aversive dispatch says 200 young maples have been planted on the river of the battlefield. The planting is the beginning of the proposed Canadian memorial forest—the maple is Canada's emblematic tree—and will be the only living trees in the war zone today.

The landscape has been changed and how the reconstructed one will differ from that before the war is not clear. The thought of the planter, Belgium, Flanders is related by Van Goyen, Huyssens, Huisman and others, instinctively the mental picture of the "Maple of the Middlelands," with spinning, thin-shanked, whip-topped, and scented branches. The maple of the river will be a different aspect maple would give the scene, or oak, or elm or other wide-spreading varieties. The Belgians like the ornamental maple have chosen his favorite trees on some other basis than expansive foliage—the color, the pollen, the steeple, the poplar of Lombardy, yet the inspiration for Gothic cathedrals came from the solemn grace of the archaic trunk and limbs and for foliage, and wherever two elms meet there is the suggestion right at hand. Fifty years must elapse before the war-torn regions are again venerable with trees, and by that time a new school of art painting has probably come, paid to paint full rounded trees like the American, Innes; or, reversing the order, the month of the year, the fruit opening through his trees to reveal the scene beyond, this future school may feature the impenetrable forest of the "Maple of the Middlelands" with the European background on either side.

### BANANAS MAKE BERLIN GLAD

After Five Years' Absence, This Native of the Tropics Is Real Symbol of Peace.

As I was passing down the Friedrichstrasse says a correspondent of the London Times, seeing Fritz Herlin, my eye was caught by a crowd of people which suddenly collected in front of the apartment house. It was only with difficulty that one could get near enough to see what it was that attracted so much attention. I heard exclamations of "wow!" in admiration, and on looking a little more closely saw a bunch of bananas which were being sold by a man in a window and which was a novelty to the Berliners, who for nearly five years have seen not a trace of the fruit, one so plentiful and cheap in the capital.

The smiling faces and little jokes and the merry chatter of the banana was recognized as a symbol of peace, and that the delight felt at its presence was due to the absence of the "other" blockade—a thing of the past.

### WOMAN RADICAL ON TRIAL AT OAKLAND

OAKLAND, Jan. 28.—Miss Anita Whitney, prominent California club woman and radical, appeared today on the second session of her trial on a charge of criminal syndicalism. Section of a jury occupied the time of Miss Whitney's appearance today. Defense attorneys today stated flatly that they will endeavor to make of the trial a test of the right of an American citizen to hold not only any

### GLASS HOUSE FOR EUROPE

## 125 MILLION FOR EUROPE

Food Relief Fund Needed to Keep Western Europe From Being Overthrown

WASHINGTON, Jan. 28.—"Hearing a scene of starvation and disease that threatens the stability of all governments in western Europe, Secretary of the Treasury Glass today announced that the ways and means committee had appropriated of \$125,000,000 for food relief for these countries.

"This is a reduction of \$25,000,000 from the original estimate," said the secretary. "It is based on estimates made by Herbert Hoover, who says that a smaller sum, such as \$20,000,000, as suggested, would be harmful and a menace instead of helpful. It would not be sufficient to relieve the general starvation and would therefore have not only no effect but encourage them in acts to overthrow all government. One purpose of this relief is to allay resentment."

"It is in the purpose, why demand securities? Why not give the money outright," demanded Representative Garner of Texas.

"That would not be good policy," said Secretary Glass. "I might say that if a comprehensive plan of relief is worked out by us, Great Britain, France, Canada and Argentina, we would not be willing to help. Argentina will give \$2,000,000, Canada possibly \$10,000,000, England the necessary balance. But that of help does not constitute a drain on the treasury. The grain corporation has the money."

## Do You

Use Good Paper When You Write?

We Can Print Anything and Do It Right

### Old Gregory has Driving Power

Sixty-five years old; but still keen and active, a power in business and among friends. What is at the back of his "drive"?

It's health—lungs sound, blood pressure normal. And back of health are regular habits—pungent elimination. You, it's largely this habit of regular, bowel evacuation that keeps "old man Gregory" young. The points of constipation cause more destructive changes of the body than any other cause. Keep your system free of these poisons by habitual, daily movement.

If you have difficulty in cultivating this habit, remember that by an entirely new principle Nujol will keep the poisonous waste moving out of the body. Every other form of treatment either irritates or forces the system. Nujol works on the waste matter instead of on the system.

Nujol prevents constipation by keeping the food waste soft, thus helping nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world.

It is absolutely harmless and pleasant to take—try it. Nujol is sold by all druggists in sealed bottles only, bearing Nujol trade-mark. Write Nujol Laboratories, Standard Oil Co. (New York), 20 Broadway, New York, for booklet "Thirty Feet of Danger."

A New Method of Treating an Old Complaint

### Money to Loan

On Improved Loans, reasonable interest, as follows: For residence, 4% to 5%. For business, 5% to 6%. For other, 6% to 7%.

Address: C. E. Hall, Twin Falls, Idaho.

### Five Brothers Form Fast Basketball Aggregation

"Dad"—Manager and Quarter  
Eps Shown Class on Massachusetts Courts.

MILFORD, Mass., Jan. 29.—A professional basketball team consisting of five brothers with "Dad" as the manager, is a combination of which this town boasts.

The Grayson's five, as the team is known, has played several successful games. The five brothers are all well known in local athletic circles.

First there is "Dad" Grayson, manager of the team. Although not a basketball player, "Dad" is very active in the managing of the team. He is at every game and has charge of the basket and of the players.

Then comes George M. Grayson, the oldest of the brothers, who plays "right guard." He is a first-floor player and "hard knock" type.

Next is "Bud" Grayson, a second lieutenant of infantry, stationed at Camp Devens, and played on the 1918 football team, and is called "the football player."

Next comes Knery Grayson, known as "Eps," who plays at center on the team. He is a good man on the bench, covers the whole floor, a clever dribbler, and a dangerous man under the basket. He attended the Massachusetts Agricultural College, where he played on the varsity football and basketball teams. In his senior year he was elected captain of both teams.

He is now assistant coach of the Massachusetts Agricultural College.

Next Grayson, known as "Gene," plays left forward and is probably the fastest of the brothers on the floor. He is now a senior at the Massachusetts Agricultural College.

Then comes "Demp," who plays left guard with the Graysons, being used as a running guard. He is a good scorer, especially in the closing minutes of the game. He is now a freshman at the M. A. C. He played on the freshman football team this year and is now playing on the first year basketball team.

The Grayson, known as "Herb," the youngest brother on the team, is a new sophomore at the Milford High School. He played at tackle on the high school football team this fall and intends to play baseball in the spring. He is now a freshman at the M. A. C. Basketball team this winter. He plays right forward on the Grayson outfit. Although lacking experience in a teaming player and a good shot.

When it comes to lead and collecting money of any kind we will be glad to give you assistance.

## ROAD DRAGGING MATTER BEFORE LOCAL CHAMBER

### Barren Considers Investigation of Progress Being Made in This District

The question has been brought to the Roads and Bridge bureau of the Chamber of Commerce so as to what road improvement and road dragging is in progress in the Twin Falls highway district.

In many of the districts, the roads are not yet ready for dragging, but already the highway commission has announced that dragging has been commenced in the territories west of South Park Avenue; northwest of Twin Falls; southeast of Twin Falls; and about north and southwest of the city, and about the Addison Avenue road.

Also special crews are at work on the Moon Lakes road and some special improvements are being made on the state highway.

At all these about forty well appointed and operated by the highway commission throughout the district to attend to the motor of dragging, roads and within the best week, probably a great number of these improvements began their improvement. It is said.

HISPA JIGGS: KIN I GO HOME TO DINNER—WELL I GO HOME HAVE CHICKEN.

WHAT AGAIN?

YES SAR—AN WHILE I IS HERE I MIGHT AS WELL AS ASK YOU TO BRING UP THE QUESTION FOR TOMORROW.

SAY DON'T YOU THINK I MIGHT AS WELL AS BRING UP THE QUESTION FOR TOMORROW?

WELL I ODD GIVE YOU A LITTLE BIT OF MY MUTTON FOR TOMORROW.

DON'T YOU THINK I MIGHT AS WELL AS BRING UP THE QUESTION FOR TOMORROW?

HISPA: BUT HOW IS I CAN RIDE A COW OR A SHEEP UNDER THIS COAT?

## Some Airplane Gas Is Pink

There is a difference between automobile gasoline and airplane gasoline. For aircraft the gas must be lighter and more volatile, that is, evaporate more readily, than ordinary gas. This causes it to work better at great altitudes. There are three grades of gasoline for our airplanes, one for training planes, a better grade of gasoline for bombing planes and the very best grade for the fighting planes. "Fighter" gas is the most volatile and is called pink. This is to distinguish it from other grades so that inexperienced men working at the station would not use this valuable gasoline for other purposes. This pink gas is as pure as it can be produced, refined and doubly refined and strained or filtered until there are no impurities left in it—American Boy.

Holding Down a Profession.

A young fellow living in one of Indiana's small towns was graduated from the high school and looked about for some career, yet lucrative profession. He finally decided to study medicine, and settled down in the office of the town's most popular doctor for a summer's reading. As he read he watched this busy man's hours of work.

One day in the late summer the doctor came in out of a freezing rain, tired out, and a trifling cross. Glancing at the immaculate young fellow, whose heels were now resting on the office floor, he asked brusquely:

"Still think you want to be a doctor?"

"Yes," came the languid answer.

"But I've decided to practice only on dry feet, and not go out at night."—Indianapolis News.

## DEBS SPEECH BROUGHT INTO CASE OF FIVE

Socialist Assembly Hearing Is Sprinkled With Much Pepper

ALHANY, N. Y., Jan. 29.—[By special] Eugene V. Debs, in a speech before a socialist assembly held here, brought into the case of five men and a woman, a socialist, a revolutionary and a Bolshevik. If you please," was read into the records of the Judiciary committee of the U. S. senate assembly held in the hearing against the five untraced socialist assemblymen. This was laying the foundation for the charges that the socialist assemblymen were in favor of running Debs for president on the socialist ticket.

Attorney Stanchfield read extracts from the official publication of the socialist republicans of the United States, published for trial and publishing critical newspaper reporters and publishers. He read into the records that the socialist assemblymen were in favor of running Debs for president on the socialist ticket.

"You read it, I don't object," Stanchfield read at length the plans of the socialist republicans of the United States for the nationalization of land and of banks. The reading of the working class and the disarming of the bourgeoisie, and for declaring peace with Germany.

"You read that all people without all property were to be armed and all property with property were to have their arms taken away from them," Stanchfield read into the records that the socialist assemblymen were in favor of running Debs for president on the socialist ticket.

"If socialism is a good government and the people anywhere want it, they should run it. But the question here is," said Stanchfield, "whether or not these five assemblymen are trying to impose this government upon the people."

"Yes, but we want to hear what the government is like," said one committee man. "All right, read that," said Stanchfield. But after a moment or two Martin again interrupted.

"Put all the books in evidence. I have a copy of the Communist Party, bringing down his gavel. "Colonel Theodore Roosevelt said this," said Stanchfield, "I have nothing to say about the matter. I am planning to try to stop the socialist investigation at Albany."

"I have nothing to say about the matter," said Stanchfield, "I have nothing to say about the matter."

Judge Sutherland and Seymour Strause called the reading of the words when Judge Sutherland shouted to Stanchfield: "I ask that this smoke screen be dropped."
