It was shown that Assemblyman Thomas, Orr and Wadman voted against a resolution of the state senate for a bill for fully training for school children.

It was reported today that the "Lawyer" defying the socialist assemblymen have been summoned to Albany to testify in court.

The report from the experiment station shows that since September of 1919, there has been a total of 416 inches of snow fall at Moran.

The following table shows in figures the acre feet of water contained in the Jackson Lake reservoir on January 10 for the past four years.

Table with 2 columns: Year, Acre Feet. 1917: 335,220; 1918: 424,080; 1919: 257,000; 1920: 270,000.

The small amount of water in the reservoir at this time is, in a measure, due to the fact that the reservoir has never been entirely emptied until last season.

MONDAY MORNING BRIGHT AND EARLY STARTS

OUR ANNUAL WHITE SALE

This year, particularly, will this annual white sale prove its worth in reducing the high cost of living. We have striven to make this sale one of greater magnitude and larger bargains than any that have gone before. In fact, we know that with the offerings we have listed below, and the dependable quality that we have maintained, that this White Sale surpasses anything that has been attempted in Twin Falls. Conscientious and thrifty housewives will lay in their

season's supply of linens, underwear, certain materials and wash fabrics now that the chance we have given them is here. Prices in many cases are lower today than those quoted by the manufacturer, and they are steadily advancing, and we can safely predict that there will be many months pass before these prices will prevail again. So we urge all good housewives to replenish their needs at this Sale.

Annual White Sale of Corsets

The sale of corsets is one of the big features of this sale and each number has been carefully selected as to the value offered. The numbers on sale include our famous J. D. Justice and Roberts Corsets, in either back or front lace. Expert corsettes to assist you in the proper corset will be found in this department. Note the substantial savings offered in these numbers:

Hilchock Says Agreement of Farley Must Be Reached As First Move

WASHINGTON, Jan. 29.—No move will be made by Senator Hilchock to call the peace treaty up on the floor of the senate as long as there is any chance of an agreement between Republican and Democratic senators being reached on the Lodge Reservations, Senator Hilchock said today.

Senator Hilchock's explanation of his position today considered it questionable if the peace treaty would be taken up by the senate in two or three weeks hence.

German Transports Sale Not Complete

WASHINGTON, Jan. 30.—While the sale of twenty-six German liners for which bids were opened yesterday by the shipping board has not been consummated, Chairman Payne today stated, that the protest of Secretary of War Baker against the sale of the vessels would not reach the controversy stage. Secretary Baker had asked that some of the vessels be held as a transport reserve.

Daniels Before Probers Tuesday

WASHINGTON, Jan. 30.—Secretary Daniels will not appear before the senate investigating committee probing the disputed Lodge reservation Tuesday next, it was announced today.

—Hisness of Senator—Franklin D. Roosevelt, Florida, was given as the reason for the postponement. Daniels was to have appeared today.

FARM MORTGAGE BROKERS ARE ATTEMPTING TO EXTERMINATE THE FEDERAL FARM LOAN ACT

WASHINGTON, Jan. 30.—Farm mortgage brokers and other opponents of the Federal Farm Loan act struck two blows at the fundamentals of the law this week through the United States Supreme Court and through legislative channels in Congress.

Opposition to the federal farm loan law this week through the United States Supreme Court and through legislative channels in Congress.

Several days' fight in the Justice Department before the court Justice Charles Evans Hughes and former Attorney General George W.ickersham argued the case in the Supreme Court on the grounds that the federal farm loan act is unconstitutional.

The purpose of the federal farm loan act is to provide a system of agricultural credit in the United States.

Banking system of administering the federal loan act was necessary, said that \$150,000,000 in loans had been applied for by farmers for use this spring and that the legality and helpfulness of these loans was nullified by existing litigation.

Thomas Wheeler, president of the Federal Farm Loan Act, said that the Federal Farm Loan Act is a beneficial agency when he appeared before the Senate committee.

Twelve Jurors Are Holding Seats in Case of Newberry

GRAND RAPIDS, Jan. 28.—Twelve jurors, all tentatively accepted by the court, filed the box at noon today in the trial of Senator Truman Newberry and the political scandal.

When the panel had been called an adjournment was granted for the council to confer regarding the exercise of prerogative, retaining the jury, the government and the defense.

Two of the jurors were challenged one by the defense and the other by the government. The government's challenge was sustained.

THE SEDIATION LAW: The widespread reaction against the Sterling-Henderson sedition bill pending in congress is wholesome and refreshing sign that the American people are getting down to sober, calm thinking on the subject of radicalism.

Lincoln declared: "This country, with its institutions, belongs to the people who inhabit it. Whenever they shall grow weary of the existing government, they can exercise their constitutional right of amending it, or their revolutionary right to dismember or overthrow it."

BUSINESS MEN FOR PUBLIC SERVICE: George W. Perkins is certainly right in his insistence that present-day government needs a wholesome infusion of American business ability.

Business men did this very thing during the war, and it was their business ability just as much as the army's fighting ability that won the war so quickly and completely.

Newspapers have almost stopped printing statements to the effect that food prices are going up. Not because they've stopped printing up, of course; merely because there is no longer any news in

NEW CITIES

It is said by the census bureau that the present census will probably show the existence of 700 new cities in the United States. It should be explained, perhaps, that according to census classification a "city" is a municipality of 10,000 or more population.

For practical purposes, we might say that, at the rate indicated, the United States has been producing new cities for ten years at the rate of 70 a year. While those 700 have passed the mark, others have been forming it. Very likely the next census, in 1930, will show 1000 new cities, and that would mean a production of 100 a year.

The agitation against German music continues. Perhaps it is all right, but in France they look at such things differently. The French regard any kind of art works produced by the enemy as "spoils of war," to be taken and used without compensation.

Freedom makes strange bed-fellows. The New York World has raised a fund to defend the Socialist members who were fired from the New York legislature.

POPULAR ASTRONOMY

Astronomy is somewhat akin to chemistry in that it should begin at home. Our sun is one of about a million similar bodies which constitute one cluster of stars; therefore, before attempting a discussion of the whole material universe, it would seem to be advisable for us to make the acquaintance of him and his family.

This family consists of seven sons and one daughter, besides an unknown number of grandchildren, which are distributed over the tract of space something like 6,000,000,000 miles in diameter, and it is the purpose of this paper to pay a somewhat extended visit to them in their celestial home.

It is a tyrannical autocrat in his household and rules his numerous progeny with an iron-bound system of attractions and repulsions, by which he calls to each "hither and thither." But it would seem that he has the right to be thus dictatorial, since he supplies all the various delectables, thus of the cosmic forces, such as light, heat, motion, chemical action and even the crowning phenomenon of life itself without which they would die.

Continuing our return Journey of 30,000,000 miles, we shall come back to our own little ball of rock, mud and water with a diameter of merely 8,000 miles and we may well take it rest and consider some of its characteristics. But the type probably are also slightly weary and it will be well to remember that "betwixt" or "in-between" of the enthusiastic scribble, the waste basket, and defer the balance of our Journey into the realms of space until a future time.

DON LYMAN For Real Estate Bargains. Farm Lands Are Always Good. We Have Some Splendid Bargains.

40 ACRES just listed, nearly all in hay, and lays fine; has small house; among the most productive land in Idaho, producing big tonnage of hay per acre. Price \$150 per acre. Two thousand cash will handle this.

80 ACRES, same kind of land, and nearly all in hay, fairly well improved; the finest early or late potato land in Idaho. There are no rocks or cobbles. Now, if you want good land and something that will surely make a rapid rise in value, here is your opportunity. Price \$150 per acre, good terms.

70 ACRES. This is one of the beauties, all in alfalfa and lays perfect; first water out of ditch; has very good improvements, and we consider any man will have a snap who gets this fine home at \$16,000. Terms.

100 ACRES. This is a very fine 100, and is nearly all in a fine stand of alfalfa hay; would make any man rich that would go into the potato game as potatoes can be put on the market a month earlier than they can in the Twin Falls district. 4 crops of hay can be cut and a big yield is always produced. There is plenty well improved. You would like to see some of these bargains to appreciate them. Do not let any knocker put you off the track, but use your head and face for yourself.

When I first came to the Twin Falls tract and I could buy in lots of 50 acres, I would hear some of the wise fellows that are always ready to give the other fellow free advice. "This land is too high and you will see it will have to come down." Well, the fellow that has been wanting is the fellow that did not make any money. Come in and let us talk it over. I have many good bargains.

CITY PROPERTY

I have a fine new modern bungalow, furnace heat, hardwood floors all through the house, basement is cemented; has garage. I can sell this home for \$5,500, and will throw in the furniture if place is sold soon. This would include a new range, rugs, bedsteads, chairs; in fact, everything but dishes. Will sell without furniture at much less if furniture not wanted. Price with furniture \$5,500. Terms.

A VERY GOOD 5 ROOM MODERN HOUSE, excepting heat, close in, at \$4,500.

We also have a few good houses in East Lawn and Elm Park.

A NICE LITTLE 3 ROOM HOUSE that can be bought on a small payment. Price \$1,500.

5 ROOM HOUSE. This is a very good plastered house and would rent for \$30 per month. We can sell you this place for \$1,750. Half cash.

I want things on my good bargains you may have for sale. Our office is at 133 1/2 So. The Red Wings on the yellow opposite Booth's Merc.

We will see to it that you get a bargain if you take our advice. Remember the place.

STRATTON'S French Dry CLEANERS
312 1/2 Second St. for the TWIN FALLS

We have held out against increasing costs as long as we could, but

We Are Forced to Increase Our Prices

Cleaning and pressing prices in Twin Falls today are substantially what they were before the war. Because of this, Twin Falls cleaners and tailors are facing conditions which make imperative a revision of prices on Ladies' and Gentlemen's garments.

Living conditions are abnormal. Wages have increased 50 to 100 per cent in this line of work, and further increases may be expected; rents have jumped 30 to 50 per cent; gasoline and coal are higher; soaps and chemicals cost 300 to 400 per cent more; suit hangers, boxes, supplies and repair materials have increased 50 to 150 per cent. Clothing costs have advanced 50 per cent and more, and yet the risks assumed on higher priced garments are the same as they were two years ago and more. With everything costing more, and no relief in sight, Twin Falls cleaners and tailors have borne the increasing expense until they find it impossible to meet the future without a readjustment.

Because of these conditions, the cleaners and tailors listed below announce a

Has a Mother the Right to Decide How Many Children She Shall Have?

The war has made us realize that we cannot afford to ignore anything that claims to improve the health of our children and this is why Pictorial Review, in line with its progressive editorial policy, presents to the thinking women of America the opportunity for considering the much misunderstood subject of birth control.

The remarkable story of what the women of Holland have done under the leadership of Dr. Aletta Jacobs is graphically told by Eleanor Kinneil McDonald in "Pictorial Review." Read this amazing article in

LEGION POST TAKES STAND FOR DEMPSEY

Wisconsin Service Men Say Other Posts Have Been Unjust to the Champion

MILWAUKEE, Jan. 29.—A telegram was sent to Jack Dempsey by Gordon Tarkenton, Wisconsin Legion member of the Grand Legion, notifying him that the post had passed resolutions commending him on charges of being a slugger. The resolutions also commended him on his magnificent record and honorary commander of the post and given life membership in it.

Yellow Mustard For Rheumatism

A good hot mustard plaster or poultice is pretty sure to overcome most rheumatic aches, pains, neuralgias, and even sciatic and gout but it's most useful in sciatica and generally biliousness. It is absolutely necessary if you have permanent neuralgia. Rubbing yellow mustard oil on the affected parts with other pain relievers is just as hot as the mustard. It is also effective when rubbed on the chest, throat and back.

It soothes rheumatic pain and swellings. It is effective in specially effective for hemorrhoids, headache, neuralgia, pleurisy, bronchitis, sore throat, chest colds and all aches and pains because heat causes pain to be relieved.

DON'T SUFFER WITH NEURALGIA
Use Soothing Mustardine
When those sharp pains go shooting through your head, then your spine, or any other part of your body, you know you have neuralgia. It is a common ailment that can be cured by the use of Mustardine. It is a natural remedy made with oil of mustard, better than any other remedy for neuralgia.

Shoshone Basket Squad Here—T.F. Team Plays Buhi

The Shoshone hoop team will face the second Twin Falls basketball aggregation this evening in the high school gymnasium. Owing to the fact that the Twin Falls first team easily defeated the Shoshone stars at the city recently, it was thought best to use the local second team against them and send the first squad to Buhi to play the Shoshone stars at the city in the second contest of the season between the schools. The girls team will also make the trip to Buhi and endeavor to take the Buhi girls into camp. The Twin Falls girls team have never lost a contest since the high school was built. For the past few years they have won and played away from home and tonight's contest will mark the first road trip for some time.

Local Legion Five Beats Jeromie Team

The Twin Falls American Legion basketball team defeated the Jeromie Legion quiet Wednesday evening at Jeromie by the score of 31-11. While the score was one-sided, the game was hard fought. The northiders were game and favored by the work of a Jeromie referee, succeeded in preventing the contest from developing into a walk away. Bennett and McLean were the Twin Falls stars. Bennett's work at center was excellent and he was the only player who continued causing trouble for the opposition. The locals went to Jeromie carrying the idea that they would meet an excellent team but it was very evident that the north side aggregation was no match for the local legions.

BUREAU READY TO DISTRIBUTE ACCOUNT BOOKS

Farm Bureau Will Aid Farmers of Trest by Furnishing Them With Record Books

Never before has the value of an accurate set of farm accounts been so apparent as at the present time. Three reasons may be given for the above statement. The annual income tax returns require an accurate statement of data which can not be supplied readily without a set of records.

The cost of production of farm accounts on our high priced land must be kept as low as possible and the only method of obtaining the total cost of production per year is by a set of accurate records. Before the year's profit can be ascertained, all production costs must be totaled; man labor, horse labor, depreciation, interest on investment and a stone is in the mortar which the average farmer does not reckon with.

The third reason for record keeping is simply this—farming is a business. Just as the bank department stores is a business. Has any one ever heard of either being run without a set of books?

The conditions on his own farm in a way which will give him the greatest net returns for his labor and his capital.

One does not need a full set of double entry accounts to tell how much profit was made from a ten acre best field, nor is it needed to ascertain the cost of labor on a farm. A few simple, easily interpreted records, generally mean more to the farmer who is not used to bookkeeping, than does a complete set of accounts carried out in true commercial form.

To help the farmer with this problem the local Farm Bureau has on hand a supply of farm account books published by the Extension Division, at Boise. This book is being sold for 25c per copy and is of value to any farmer who will keep his records complete throughout the year, thereby getting a record of receipts and expenses for the twelve month period.

When the time for field inspection comes, the county agent in charge of seed will then make the inspection and suggest plans for regrading, if necessary, and give such other information as may be required to assist in securing certified seed.

There is every reason to believe that there will always be a heavy demand for pure seed. It says a statement from Mr. Sheehan's office. "Not every section of this country can produce the small seeds, so must rely upon the international country for their supply. The soil and climate conditions make Idaho supreme in the production of bright-colored, high-quality seed.
