DANIELS CONTENDS ADMIRAL SIMS PRO-BRISH
LABOR FEDERATION WILL BLACKLIST POLITICIANS

ORGANIZE FOR WORK TO SWING ELECTION
Compers and Aides Plan to Defeat Enemies in Congress
CUMMINS AMONG ONES ATTACKED
Repressive Attitude of Congress Said to Be Cause of Move

WASHINGTON, Feb. 7.—Smashing attacks on each member of congress "who has shown himself a reactionary" in opposing labor demands will be made in the house districts this year under the personal direction of Samuel Compers and a group of campaign advisers in Washington, according to a final plan laid today by members of the executive committee of the American Federation of Labor and other labor leaders of the country.

Asserting that the "dominant thought of the present congress has been to repress labor," Compers and his aides decided upon the most aggressive campaign measure for the year. The "black list," headed, it was stated, by Senator Cummins of Iowa and Congressman Blanton of Texas, will be brought into action. At the same time a far-reaching amalgamation between trade unions and farmers is being planned to be attempted, and "cutting with the public at the primaries to defeat the congressmen on the "black list."

Compers spent the day in preparing a general draft of the campaign program decided upon in the conference of political leaders here this week. The labor party, headed by Earl Browder in Chicago, will not be mentioned by Compers by name, but he will make unmistakable reference to it in a sweeping charge that many of the ranks of organized labor are at work to nullify its policy to elect "its friends and to confine its issues."

He will charge that the object of those forces is to split the labor vote, and will call upon the trade unions affiliated with the American Federation of Labor to hold steadfastly to the federation principle of non-partisan action.

Prélude to Peace Negotiations Favored by Premier Who Mourns in London

PARIS, Feb. 7.—When the British, French and Italian premiers met in London to take up the Russian situation it is expected that they will demand a general election in Russia for the selection of a constituent assembly as a prelude to possible peace negotiations between the allies and the soviet government.

PRESS AGENT TO A KING

Appointment, Press Agent for H. M. King (George V.) last American publicity man has reached the pinnacle of fame. He has been hired by the king of England. And for what? To sell the king idea to the people of England. Truly remarkable times in royal circles the world over. George has installed a press agent at Buckingham Palace, first incumbent of the office is no gentleman-in-waiting, no assistant equerry, nor the fifth keeper of the royal walking stick—a former New York newspaper man. His job is to handle the king business right in Morris England itself, publicity over with the subjects of his new boss.

In a hurried sight both a business. Then he ain't round a throne. It's no work in trying to sell a king in these democratic days.

OUR PRINTING OR HAMMERMILL BOND Will Sell Your Goods

Carrying a Ton a Mile for less than a Cent

Freight rates have played a very small part in the rising cost of living. Other causes—the waste of war, under-production, credit inflation—have added dollars to the cost of the necessities of life, while freight charges have added only cents. The average charge for hauling a ton of freight a mile is less than a cent. A suit of clothing that sold for \$30 before the war was carried 2,265 miles by rail from Chicago to Los Angeles for 16 1/2 cents. Now the freight charge is 22 cents and the suit sells for \$50. The cost of the suit has increased 20 dollars. The freight on it has increased only 31 cents. Other transportation charges enter into the cost of the finished article—carrying the wool to the mills and the cloth to the tailor—but these other charges amount to but a few cents more. The \$10 pair of shoes that used to sell for \$5 goes from the New England factory to the Florida dealer for a freight charge of 5 1/2 cents—only one cent more than the pre-war rate. Beef pays only two-thirds of a cent a pound freight from Chicago to New York. American freight rates are the lowest in the world.

FRENCH CHAMP BLUSHING AT SUGGESTION

Physical Culture Editor Urges Him to Wed for Benefit of His Country

PARIS, Feb. 7.—Georges Champion, heavyweight champion of Europe, has been caught in the French impulse for "more and better babies."

Edmond Des Bonnot, editor of "Physical Culture," has addressed an open letter to the pugilist urging him to hasten his marriage.

"If, in the future, you become the champion of the world we shall applaud you cheerfully, but we shall applaud you with even better reason on the day when we see you married off the father of healthy infants," said M. Des Bonnot. "France has lost for plenty of sturdy infants at this time."

Scores of prominent barbers are to be observing with embarrassment and fear that M. Des Bonnot would issue similar open letters addressed to them. The editor is making up his mind in every direction for the French people to imitate in the campaign for the repopulation of the country.

LOCALS WIN FROM OAKLEY

Wrestlers No Match for Blue and White and Lost by the Score of 56 to 23

The Blue and White basketball team took the big lead from Oakley to camp, last evening in the high box gymnasium to the tune of 66 to 23.

The victors were completely satisfied from start to finish, and fought in the latter stages of the match made a game effort to win 100 points was debatable.

The Oakley fellows had either temporarily lost their slumping eye or never found it as their baskets were few and far between. The Blue and White were the victors and Taylor, Twin Falls, handles, handles and made to do with their baskets, which at times was no less than 100 points to go with about 100 baskets of the ring.

Last night game was really well fought, good, hard and fast. The Blue and White were enough points to win the game. The Twin Falls fellows had the home ground advantage and they were not to be taken by their cunning and shrewd eyes.

Krenge starred for the locals five for Oakley.

The game was won by the Blue and White, Krenge and Kneen, forward; Carter and King, center; Bailey and Taylor, guards; Wiley, Shroy and forward; Hines, forward; Thurman and Lutter, guard.

COUNTY COMMISSIONERS RETURN FROM MEETING

Bringing with them reports of a splendid meeting at which much was accomplished, County Commissioners Brecken, Moore and Parrish returned yesterday from the state meeting of county commissioners at Boise.

One of the main questions taken up at the Boise meeting was that of whether or not the commissioners carried their salaries. Most of them, of course, believed they did. Several of the commissioners stated that they were sure they had the county solution to their private business, and hence thought they should get more money than they are drawing at the present time.

Mr. Parrish was a member of the legislative committee while Mr. Brecken acted on the committee on education. The matters discussed were of a general nature; of interest to the board and with her parents in Twin Falls.

A good attendance was present at the meeting and a great deal of good interest in the work was manifested. Many things were brought out at the meeting which might be improved on but little action was taken.

I have two samples of wheat on my desk.

The first was raised at Goose Lake on land that cost me \$85 an acre, \$135 an acre for water, and 40c an acre taxes. I got 42 bushels an acre, and the yield was about 40 bushels an acre.

The other sample was grown on land at Castleford that I leased at \$200 an acre. It cost me 40c an acre for water, and \$2 an acre taxes. The yield was about the same as the other, but I got 42 bushels an acre, and the grade of wheat.

BAD WILD MAN IS CAUGHT IN COLORADO

DURANGO, Colo., Feb. 7.—The Colorado unseated a counterpart of the famous Wild Man of Harpers.

The "Wild Man of Harpers" was no more ferocious looking than the wild-eyed, straggling creature that is hanging in the county jail here, according to Sheriff Alexander, who with the aid of two deputies, captured the gorilla-like human in a cave in Animas canyon, north of this city.

Tall and gaunt, with long, unkempt hair, straight, bushy eyebrows, ragged cap; matted whiskers; his hairy body draped in skins of wild animals, with strips cut from the hide of a mountain bear encircling his feet.

The captive is believed innocent, but some believe it is a mystery. During local moments the wild stranger says that he has been reaching the summit of Mt. Harpers for years; that he first sought refuge in the canyon and caves because of hunters who were hunting for a beautiful girl. A lone hunter, a young woman and strands of golden hair, an attendant on the "wild man," had authorized the release in condition is held in a fortunate line of affairs.

Efforts to learn his name have been unsuccessful, and it is invariably recognized by the number of "rattlers" around him when questioned as to his identity.

Fantastic stories of the presence of a "wild man" in the nearby hills became current in the village of Harperswood. For several weeks it was said the "wild man" had been "slinking through the timber of the Durango National Forest, but always succeeded in evading pursuers from the village.

When the stories of the uncanny activities of the strange creature were brought to Sheriff Alexander, he immediately started for the scene with two deputies. After a few days' vigil the creature was located in a cave. The entrance was skillfully concealed with drift and pine rocks.

The officers encountered great difficulty in reaching the cave, as the entrance was at the top of an almost vertical rocky path, and they were forced to crawl to pick their way along narrow ledges.

When trapped, the man offered no resistance. So weapon of any kind was found upon him. He was in the cave, but in the long, narrow tunnel, where he had "lived" for some time, were scattered many utensils, and a quantity of bear meat.

Assistant Prosecuting Attorney John O'Hourke of Durango has had several "hiccups" in the case of the "wild man," who is confined in the honor ward of the county jail. O'Hourke says the prisoner is never violent, but frequently cracks and groans in his cell with his usual. At other times, when he appears rational, he talks of his nomadic existence—of being tired of having fought wild beasts in the mountain fastnesses, some of which he killed for food; of being shot at by hunters, who mistook him for a bear.

When his only food was raw meat and chimpanzee, of having spent weeks in mountain cabins, penned in by huge snowdrifts.

The "wild man," according to Prosecutor O'Hourke, has told a harrowing tale of suffering from exposure. He said his feet had been frozen, and when purification set in, he pulled the freezing toes from their sockets and severed the wounds, with hot red rocks to check the spread of poison. Occasionally, when he suffered excruciatingly from hunger, the wanderer licked mountain rocks to obtain a taste of salt.

Examinations to determine the man's sanity are being made by county physicians, while the District Attorney is making every effort to discover some trace of his origin.
