PRESIDENT SIGNS THE RAILROAD BILL

HOOVER IS AID OF... PRESIDENT SIGNS THE RAILROAD BILL

Esch-Cummins Measure Made Law Over Protests of Both Farmers And Railway Unions... Wilson Letter to Labor Discusses Bill

WASHINGTON, Feb. 28.—President Wilson late today took final action towards the ending of two years of government control of the railroads when he signed the Esch-Cummins bill providing for return of the roads Sunday at midnight and setting up machinery for their regulation.

In signing the measure the president rejected the request of railroad men that he sign it because of its clauses dealing with labor. To the men the president addressed a letter declaring he "could not share their apprehensions" over the labor provisions and urging them to proceed with their demands for better wages and working conditions in accordance with the new law.

The creation of the new board will be in effect on April 1 of this year, but the bill says that railroad men had suggested such a board in two weeks ago.

"I believe that such a step will go far toward clarifying and maturing the subject (wages) for final disposition," Wilson wrote in the letter.

While it is true that the provisions of the bill are expected to follow under the direction of the Interstate Commerce Commission, which is given greater powers by the new law, the guarantee of 1.25 cent per ton must ask for increased rates, within 90 days.

A vast amount of litigation over the new law is expected to follow. The railroad labor unions have announced their intention of challenging the arbitrary sections of the bill.

The measure will be a landmark in the history of the nation, for it will be the first time that the public representatives of the labor board can be expelled.

C. C. Calls Fans to Baseball Meeting

The Chamber of Commerce here will have a concrete plan outlined which will contemplate and assure a summer and a winter team or else something else.

AMERICANISM ISSUE CAUSES DEEP FEELING

Tombstone Seething While the Bisbee Deportation Cases Are Waiting Trial

TOMBSTONE, Ariz., Feb. 28.—Tombstone has resumed the quiet of a mountain village today, but back of the placid exterior, the people of Americanism which underlies the Bisbee deportation trial was seething.

The trial is in its fifth week, but a jury to try the case has not yet been chosen. Twenty-four men are in the jury box.

Observers believe evidence faking may begin by the middle of next week. No pretensions as to the time the evidence will commence have been made.

Because the defense will attack the Americanism of the thousand men deported from Bisbee, the development of the past 24 hours have carried great significance.

Since the trial started, County Prosecutor Robert A. French has been forced to withdraw because of nervous sickness and A. A. Worley has taken his place.

Two Cardinals of... (Small text at the bottom of the column)

GOVERNMENT EFFICIENCY WITH ROADS SAID SHOWN

Hines Report Claims Federal Control Proved Best

RATES AND TAXES WERE KEPT DOWN

Roads Now in Best Possible Shape for Their Owners

WASHINGTON, Feb. 28.—Government operation of the railroads has proved more efficient than private operation, the Hines report is charged tonight in a special report to President Wilson.

Efficiency has been saved the public, the government and the roads themselves, as a result of twenty-six months of public operation despite billions expended on the improvements by congress.

Furthermore, he emphasized, the roads now are in the best possible shape for their owners.

"The whole cost-in-rate-and-interest shown, has been less than it would have been if the private operations had continued to manage the roads during the war period."

"The preliminary figures indicate that the transportation industry has been functioning in a factory manner under favorable conditions."

"The Hines report covered government operation for the fourteen months under his direction, but reviewing the entire period of government control, Hines said:

Cobb Talks Like a Non-Partisan

DEB MOINES in Feb. 25, Irvin S. Cobb, noted humorist, in an address before the Chamber of Commerce here, declared that he had his ideal presidential candidate as follows:

FAIL TO SHOW GRIMM CHARGED HALL OF I. W. W.

Centralia Defense Must Prove He Took Part Before Other Evidence Is Allowed

CHAS. HARRIS, CENTRALIA, Mo., Feb. 28.—The defense in the Centralia murder trial had thus far failed to make a showing that Warren D. Grimm took part in the alleged attack on the I. W. W. hall, according to the opinion of Judge John M. Wilson expressed just before adjournment came at the close of the fifth week of the trial today.

Judge Wilson reaffirmed his previous ruling that before evidence relating to any threats said to have been made against the I. W. W. organization can be introduced, Grimm's connection with the alleged "raid" must be established.

"According to my understanding of the facts before me, the defense has taken regarding any meetings at which plans were made to raid the hall," Judge Wilson ruled, "it might be shown that Warren D. Grimm (Warren Grimm) committed an overt act."

"If it is contended that there was a conspiracy to murder, it is shown that Grimm was a party to the conspiracy."

"The only reference to a part taken in the alleged attack by Warren D. Grimm is made in the testimony of O'Donnell, Centralia high school teacher, who said he had seen one soldier who 'grabbed himself as if shot' in front of the hall on Feb. 15, 1919."

"The only reference to a part taken in the alleged attack by Warren D. Grimm is made in the testimony of O'Donnell, Centralia high school teacher, who said he had seen one soldier who 'grabbed himself as if shot' in front of the hall on Feb. 15, 1919."

WILSON IS IN WAY OF THE PEACE PACT AGAIN

Democrat Senators Are Notified He Still Opposes Lodge

NEW ATTITUDE IS THUS EXPLAINED

Reservation to Article Ten Will Not Be Accepted

WASHINGTON, Feb. 28.—Democratic senators here have again been notified that President Wilson will not accept a reservation to Article 10, as he would refuse to do so, the Lodge reservation on Article 10, they said tonight.

This is the reason, it is developed, that the movement of the Democrats toward acceptance of the Lodge program was halted when it was nine or ten voted short of a number necessary to ratify.

The notification was conveyed to certain Democrats this week, they said. So far as the Democrats were not in written form, Senator Hitchcock, the Democratic leader, said he had not received any late communication from the president on the subject.

According to one Democratic senator he was informed that the president's message said Democrats would be wasting time in voting for ratification with the Lodge reservation on Article 10, as he would refuse to deposit such a ratification. The president's warning was taken into consideration by certain Democratic senators in arranging "plans" with the public senators on future treaty votes.

One Democrat, in arranging a shortage of nine to twelve votes of the opposition, Democratic leaders apparently are working to get the treaty ratified without much more delay. It is believed that the Democrats will stand against the Lodge reservation on Article 10, while the Republicans will support it. This would mean a shortage of nine to twelve votes of the opposition. Democratic leaders apparently are working to get the treaty ratified without much more delay.

It is believed that the Democrats will stand against the Lodge reservation on Article 10, while the Republicans will support it. This would mean a shortage of nine to twelve votes of the opposition.

Says Present Rate Will Lead to Foodstuff Shortage Here

FACTORIES NOW HURT FARMING

High Wages Attract Farmers and Cut Production

CHICAGO, Feb. 28.—Herbert Hoover tonight warned that if the United States continues to develop its export of agricultural commodities at the present rate, it will be faced within five years with the necessity of importing foodstuffs.

Hoover explained that American industries are drawing workers from the farms because the average farmer has less money and added that if the basis of relative returns continues to grow, the farmer will be driven to get agricultural products from abroad.

Hoover stated that the farmer's production facilities for farm products, both by rail and water, are being improved, but the farmer's margin of profit between the farmer and the consumer is being narrowed by the industrial manufacturer's increasing production of the various goods.

Hoover stated that the farmer's production facilities for farm products, both by rail and water, are being improved, but the farmer's margin of profit between the farmer and the consumer is being narrowed by the industrial manufacturer's increasing production of the various goods.

# OSLER THEORY IS SHATTERED IN OHIO

CINCINNATI, O., Feb. 28.—The famous Osler theory regarding the no boundary of usefulness is being shattered daily in Ohio. The various county poorhouses and in other public institutions, for several months have been inundated with "young ideas," and are stepping forth into the world.

The industrial world and the old man have awakened to the truth that they can and should begeth. The result is the well being of both; one very large Ohio employer said today, "It is a new idea and it is working good."

For several years, one old fellow lay at the city infirmary, near here, a chap who is nearing his seventieth year, was elated from the world, resting away, and spending his hours in gloomy contemplation and memories. Along came the new idea.

"It is a new idea and it is working good," exclaimed the old man to Superintendent Proctor, "I was a good shoemaker in my day. I'm still a good shoemaker."

The old fellow cheerily said "Good-bye," and is now earning \$30 a week, and in the evenings may be seen at the city infirmary, near here, a chap who is nearing his seventieth year, was elated from the world, resting away, and spending his hours in gloomy contemplation and memories. Along came the new idea.

Against this wide variance of buying and selling prices, whose whole sales charge there must be included increased shipping rates. While the Government price on ground charged consumers was 47-50 cents, several cities paid more than half a dollar a pound.

According to the Bureau of Labor Statistics, the price of coffee in the following leading cities were: Boston, 57; Cleveland, 50.61; Pittsburgh, 50; Detroit, 49; Chicago, 48.75; Denver, 48; Los Angeles, 45; Milwaukee, 45; New York, 45.1; Philadelphia, 45; San Francisco, 44.7; Seattle, 48.2 and Washington, D. C., 44.7.

DETROIT, Feb. 25—James E. Devos, Detroit cement manufacturer, has filed a friendly suit for \$250,000 damages against Mrs. Tetrazzini, grand opera singer, on alleged breaking of a contract by her manager, Jules Didier, who had arranged with Mr. Devos for the appearance of Mrs. Tetrazzini at Detroit February 25. The singer appeared before an audience here last night under the auspices of another company.

The Times job printing department is thoroughly equipped to do first class work at reasonable prices.

## PROF. DAVID TODD

Prof. David Todd, director of Astrophysical Observatory, was taken observations of a solar eclipse May 29 from a naval airplane.

## 150 Per Cent Profit on Coffee Reports Show

WASHINGTON, Feb. 28.—(United Press)—A profit of one hundred and fifty percent on coffee is being divided between wholesalers and retailers in this country, according to reports on imports and prices by the Department of Commerce and Labor.

According to Department of Commerce figures, the United States during 1919 imported 1,315,522 bags of coffee, for which was paid \$229,400,798, or an average of 19-20 cents a pound. Figures gathered by the Bureau of Labor Statistics show that during the same period this coffee was imported, retailers charged an average of 47-48 cents a pound to consumers.

Very little coffee is produced within the United States and practically all sold is imported.

Compared with the price of coffee sold at retail in 1918, consumers today are paying exactly seventeen cents more a pound.

Against this wide variance of buying and selling prices, whose whole sales charge there must be included increased shipping rates. While the Government price on ground charged consumers was 47-50 cents, several cities paid more than half a dollar a pound.

According to the Bureau of Labor Statistics, the price of coffee in the following leading cities were: Boston, 57; Cleveland, 50.61; Pittsburgh, 50; Detroit, 49; Chicago, 48.75; Denver, 48; Los Angeles, 45; Milwaukee, 45; New York, 45.1; Philadelphia, 45; San Francisco, 44.7; Seattle, 48.2 and Washington, D. C., 44.7.

The singer appeared before an audience here last night under the auspices of another company.

The Times job printing department is thoroughly equipped to do first class work at reasonable prices.

## ENGLAND REGAINS LEAD AS WORLD'S SHIP BUILDER

LONDON, Feb. 28.—England has regained the lead as the world's ship builder.

During the last quarter of 1919, shipyards in the British Isles produced 1,449,119 tons of tonnage under construction in the United States has built 2,564,515 tons made up of 417 vessels. In addition there were 113 vessels of 212,480 tons being built in the British dominions, thus making John Bull's total 3,244,227 tons.

Thus, figured in tonnage, Great Britain has increased production of merchant ships by 50 per cent over a year ago, having one million more tons under construction than then.

The rest of the world has 1,449,119 tons under construction, Italian leading with 228,238 tons.

The Daily Chronicle hits the nail on the head when it says: "Of our shipping and our building of ships have already been the backbone of our trade, there has never been a time when they were so absolutely essential to our prosperity."

For there is still a big world shortage of ships, and the profits from freights are now more than ever an immense addition to our national income, and an asset without which we could not hope to balance our imports and exports.

For some time it has looked as if America, whose output, except in oil, to equal and surpassed ours, would within a decade come to possess the largest mercantile marine of the world.

Great Britain is once again able to show a larger gross tonnage than America.

The Chronicle now declares it is "neck and neck" race between England and America for world's leadership in shipping.

Profits made by British ship owners during 1919 totalled \$1,600,000,000 according to Sir Leo C. Money, statistician. This does not include profits due to great appreciation in the capital value of ships. He holds that also the government controls may also today the inflated ship owners' profits is one of the reasons for the high prices in England.

DETROIT, Feb. 25—James E. Devos, Detroit cement manufacturer, has filed a friendly suit for \$250,000 damages against Mrs. Tetrazzini, grand opera singer, on alleged breaking of a contract by her manager, Jules Didier, who had arranged with Mr. Devos for the appearance of Mrs. Tetrazzini at Detroit February 25. The singer appeared before an audience here last night under the auspices of another company.

The Times job printing department is thoroughly equipped to do first class work at reasonable prices.

## AQUATIC SPORT CAME BACK TO ITS OWN DURING 1919, FOLLOWING THE BIG WAR

Rowing figures in rowing world during year 1919

Rowing enthusiasts plan to make the year 1920 a notable one in the annals of the aquatic sport. Last year rowing was restored to the popularity it enjoyed before the war, despite the fact that the intercollegiate regatta was not held on the Hudson last June. Many other rowing events were carried out on successful scales.

One of the most notable victories of the year is the victory won by that of Alfred Yates of Australia over Ernest Hurry on the Thames, England, October 27. Hurry had held the sculling title since 1912, when he had defeated Richard Armit, Britain. In writing the London Star from Hurry, who "by a margin of six lengths and helped to make the race notably consistent in regard to sports in general."

The victory was considered by the majority as the best of the year's events. In 1919, The Atlantic defeated both Penn and Strouse in the American Regatta on May 31. Penn later won the title over the water from the United States, and the title was turned to the "Tiger" on the Hudson.

First Post-War Race. The Yale-Howard tackle, the first post-war race, was resumed with all of the former color and brilliancy. The Yale crew was the victor in a splendid fashion, although the Crimson was the favorite.

One of the largest events of the year attended the National Regatta which took place at Worcester. It was estimated that more than 25,000 were present.

# Gem Lands

I have good news for you if you are looking for some of the very best lands in Idaho—a long growing season, free from frosts, and it is not uncommon for the farmers to produce 7, 8 and even 10 tons of alfalfa hay to the acre. On account of the deposits of nitrate in this soil, it will produce the largest crops of anything you wish to grow. The finest watermelons and cantaloupes grown in the state are raised here. Early potatoes you can put on the market nearly one month earlier than you could in many other sections. There is no limit to the depth of this soil, and is free from rock and lays fine in most every case. This is the finest beet land in the state, and the Sugar Company is contracting for beets on this tract, and whether you want to raise beets or not, there is one thing sure—wherever a sugar factory has gone in, it has in most cases doubled the price of farm lands, and it will do it on the Gem Tract. Compare the prices of lands here before the sugar factory came and now. Now, then, if you want to get the benefit of a rapid advance in the most productive lands in Idaho, you will have to get in before all the improvements that are sure to come in the near future.

Do not let anyone throw you off the track, but come and see the map and get direct information.

The altitude on the Gem tract is 2260 feet.

We expect to go by auto with land buyers in a few days, and will furnish free transportation to land buyers.

Below are a few of the good buys we have.

40 acres, cleared, but no improvements otherwise, free water this year. A very small payment down and very easy terms on balance. Priced \$75 per acre.

40 acres, all in alfalfa, fenced; has small house and is a nice 40. Price \$150 per acre. Good terms.

40 acres—a beautiful 40—improved, near school and loading station. Another bargain at \$150 per acre.

40 acres—one of the prettiest you ever saw; quite well improved; has deep well and gas engine to pump good water. I can rent this land for \$40 per acre this year. Price \$225 per acre. Very good terms. Free water this year.

80 acres, most all in hay, two sets of buildings, and is a fine piece of land all ready to begin to take the cream. Price \$145 per acre.

80 acres. There will be a townsite on this 80, and now has school and store adjoining; land 30 minutes from Caldwell by auto; 1-2 miles from electric line; a beautiful piece of land; all has been in hay; has plastered and painted house; stable, deep well and windmill. This is a real bargain at \$150 per acre, and a \$3000 cash payment will handle.

160 acres, all in hay, producing immense crops. Price \$125 per acre.

All of the above lands are on the Gem Tract. Let us tell you the real facts about these lands and then go with us and see them for yourself.

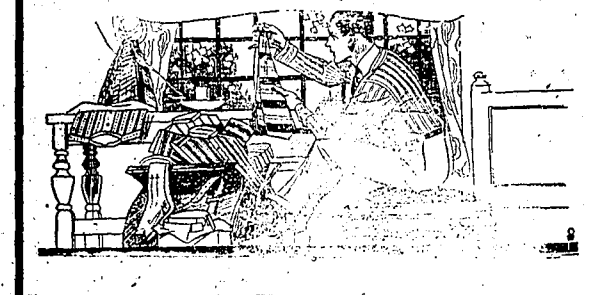

Here is One Listing We Have of 80 Acres on the Deer Flat.

80 acres, fine, smooth land, no rock or coulees; right on electric line; fair house, deep well, etc.—One of the good bargains at \$260.

Remember what I have told you—when sugar factory is built, railroads and electric lines and bridges are in, the Gem lands are going to double.

## TEACHING THE TEACHERS A LESSON

Because of dissatisfaction with the salary demands of the teachers, a town in Switzerland has decided upon a lockout. A very fair example of hitting one's nose to spite one's face, it would seem at this distance.

With the whole world realizing that the teachers are underpaid and must be given some reasonable increase in salaries, this town finds it better to close its schools than to meet the situation. It is something new in cutting the Gordian knot, but the result in the long run is quite likely to prove a more embarrassing question for the town officials than that relating to salaries.

Perhaps a few weeks without schools will convince the citizens that there are some advantages to be derived from paying what a thing is worth. Falls in the Swiss will shortly come to a realization that the spectacle of a whole town full of children waiting their time and getting into mischief to boot, is not to be tolerated, even at the saving of a few dollars in taxes. Or, if they are so blind as not to see this fully, it is quite probable that the next time the town figures in the World's news it will be to announce that it has locked out the freemug and proposes to let the town burn down. And the loss would not be irreparable if the conflagration should remove the whole neighborhood from the map.

There are other places to cut a halt in the higher prices than on the teachers' salaries. We submit to the demands of professors with more or less grace. Why, then, balk at a boost for the teachers, so that they, too, may be able to face the professors? Nobody is foolish enough to charge them with profiteering. Why, then, not give them what is admittedly their right?

## THRIFT SIONS

It appears that we have been entirely wrong about this extravagant spending. Costly clothing is not a sign of reckless expenditure, but a sign of thrift. A Chicago manufacturer explains:

"The young woman who wants the so-called extravagant items of dress, such as silk underwear, silk hose and fur coats, starts to save to get them.

"She gets the saving habit, and after her wardrobe is complete she keeps on saving and the money goes into the savings bank. The most extravagantly dressed girls in our factory have the most money in the bank."

This may be added to the long list of cost-of-living comments labeled "interesting if true." Is it really true that among wage-earners of any given class, or even salary-earners or coupon-clippers, of any given class, the ones most richly and wisely dressed are the ones with most money in the bank? That lavish expenditure is indeed the best incentive to thrift?

If this is true gospel, we take it that the housewife who suddenly decides to put her household on a basis of true economy will start by going out and ordering a new set of rings and the finest pinhead she can find, or that the father of a family seeking the same end will start his thrift-plan by buying a new limousine.

Maybe there really are people who save money that way. We just don't happen to know any.

## TWO MONTHS' WINE BOYCOTT

In spite of the fact that they have been making fun of the United States for its prohibition measure, certain French newspapers are actually advocating two months' prohibition for France.

Their purpose is not to give prohibition a trial with a view to permanent adoption, nor to have a brief period of dryness in order to save money or anything else. The idea is to bring down the price of wine, which at present is very high and which wine merchants say is going higher. If the people would just take total abstinence for two months the price would drop, and nobody, not the proponents of the plan.

One wonders what would happen when the brief drought ended, everybody made a wild rush for the nearest wine shop. Wouldn't prices soar higher than ever then?

The hardest thing about this income tax is that you've got to pay it after you've spent the income.

## Provisions of Home Rule Bill Are Made Known

DUBLIN, Feb. 28.—The home rule bill provides for a double parliament and a council for Ireland as a connecting link between them. The northern counties are to have 16 members in their legislative assembly of 26 members in the parliament of the south. South Ireland is to have 20 representatives in the imperial parliament and their province (southern Ireland) is to have 2 members. The two parliaments are to grant legislation powers to the council. The south and north are each to have 20 members on the council. The measure aims essentially to the establishment of a single parliament. It is stipulated that Ireland contribute for two years to the support of the empire on the basis of 1919 and 1920, or about 16,000,000 pounds sterling annually. The south of Ireland would contribute 25 per cent of this amount and the north 42 per cent.

## Monroe Doctrine Protects Small Nations—Bryan

MIAMI, Fla., Feb. 28.—William Jennings Bryan, in an interview here to night, defined the Monroe Doctrine as "simply for the protection of the southern republics of the western hemisphere, a protection for which our government seeks nothing in return."

"It is wrong to say that we should establish a monarchial institution in the Americas which would be a menace to our republic, and that we should withdraw our protection from a hundred years ago, is no longer to be considered," Bryan said.

"The Monroe Doctrine may, therefore, be regarded as an antebellum policy when viewed from the standpoint of the United States. Yet it is a number of great nations to the Latin American republics, which might find it hard to resist the aggressions of powerful European nations."

## Giants Want Reds to Give Kopf and Roush for Young

NEW YORK, Feb. 28.—Boss Tweed, star outfielder of the New York Giants, will be offered to the Cleveland Red Sox in exchange for Eddie Bush, champion hitter of the National league, and Larry Kopf, third stop of the world's champions.

President Honohan of the New York club and Manager McGraw have called Secretary O'Brien from Havana late this afternoon to make this counter proposal to the Reds' offer of Roush for Young.

Roush, batting champion of the league in 1917, with an average of .341, and the king hitter of 1919, with .321; once won a Giant uniform.

## COMMISSION FOR MINORS NOW FORMED

Tearney Will Act With National Commission in Settling League Disputes

CHICAGO, Feb. 28.—A "national commission" for minor leagues was formed here today with the announcement that Al Tearney, Chicago, had been elected to serve with the chairman of the national commission in settling all minor league difficulties.

Tearney, president of the Three-I and Western leagues, was chosen by a committee of eight minor league officials who met with the "big fellows" here two weeks ago to secure a "working agreement" between the minor and major leagues. Ed Ewing of the Coast league and J. P. Farrell, secretary of the National Association of Baseball Leagues, were also candidates, but with the final vote received today Tearney's election was almost unanimous.

Tearney and the president of the national committee will decide all disputes arising between majors and minors. However, if these two cannot reach an agreement in any controversy a third party outside of baseball will be called in as an arbitrator.

This is the first time in the history of professional baseball that the minor league representatives in any baseball court, to settle the national committee decided all disputes. The arrangement was finally agreed upon at the party in Chicago. It was suggested by Gerry Herragan of Cincinnati to have a board of five men to decide all baseball disputes, but Tearney's plan of a two-man board prevailed.

## CUBS LEAVE FOR PASADENA

CHICAGO, Feb. 28.—Chicago's first portion of baseball for 1918 was handed out here tonight. The Cubs had won for their California training trip. Twenty-three players and followers were in the party, occupying a substantial car leaving here at 7:20 p. m. Not all those traveling had signed contracts, but Manager Fred Mitchell claimed he would have no difficulty in obtaining signatures. A number of rookies were in the party, one of Mitchell's hopes for the season being that more pep will be displayed by his team.

At Kansas City the team will pick up the veterans Grover Alexander, Jim Vaughn, George Taylor, Charlie Hendrix and Bill Killefer. The battery-men spent two weeks in training at Hot Springs, Ark.

The team will arrive in Pasadena Tuesday afternoon. It gets into action in a game March 3. The return will follow a southern route where a number of practice games have been scheduled.

## Pomona Girl's Mushroom Victim

POMONA, Cal., Feb. 28.—Miss Thelma Brown, a freshman of Pomona college, died this morning at a local hospital as a result of a mushroom supper Tuesday night. Three other college girls partook of the supper and two of them are hovering between life and death. The third is recovering.

It is believed that the mushrooms were prepared as the girls had kept them in their rooms for two days before disposing them for the meal.

Daily and Sunday Times, Feb. 28.

## School Girls Try to Relieve Drought

KENOSHA, Wis., Feb. 28.—A report that they were detected making wine from raisins resulted in the expulsion of four girls studying and teaching from Kenosha High, a fashionable young women's finishing school, here. The Rev. Alfred Griffin, rector of the school would not deny that this was the reason for the girls' departure, though he did deny rumors that something else and "crash-burns" were also involved.

The Times job printing department is thoroughly equipped to do first-class work—at reasonable prices.

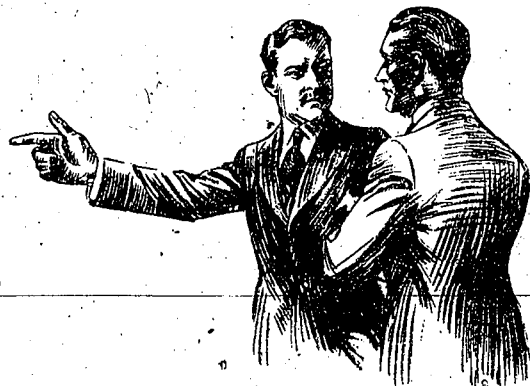

## Population of Three Cities Is Announced

WASHINGTON, Feb. 28.—Preliminary population figures were announced today by the census bureau as follows:

Lubbock, Ky., 1920 population, 24,755; 1910 population, 22,760; 1900 population, 14,250; 6,516 increase; 25.8 per cent increase.

Lima, Ohio, 1920 population, 41,306; 1910 population, 30,508; 1900 population, 21,722; 10,784 increase; 35.4 per cent increase.

The Times job printing department is thoroughly equipped to do first-class work—at reasonable prices.

## Here's a Straight Tip

On March 1st we will go on a strictly cash business. This will enable us to give you 20 per cent more for your money than if we extended credit. We can give you better work, turn it out in shorter time and give better satisfaction to you. By eliminating the credit business we cut out bad accounts, the expense of a bookkeeper, and cut out much time and worry, which we can apply to better results on your work.

## YOUR GARMENTS INSURED WHILE IN OUR CARE.

We carry a sufficient amount of insurance to cover all wraps and garments left in our plant. In case of fire you lose nothing, for we have your interests at heart and have protected you. This is quite an item to consider when you send your clothes to the cleaner. By sending your work here you know you are protected against this risk.

## LATEST METHODS USED.

We use mulling but the latest and approved methods in dry cleaning. This process, which is used in all the large eastern plants, saves the clothes and gives a perfect finish.

## ALL WORK DONE IN OUR PLANT.

We are equipped to do all kinds of dry-cleaning, dyeing, tinting and dyeing right here in our own establishment. You do not need to wait for days to get your garments back, for we do not need to send a thing to Salt Lake City, Portland or Seattle to have it done. Every method known to increase efficiency and high-class workmanship is used by us.

## ONLY EXPERIENCED HELP EMPLOYED.

Each person employed by us is an expert in his line. The dyer has had years of experience as one of the foremost dyers in this country. The cleaners have worked years in their trade. In fact, no one but those with from 20 to 30 years of experience in their respective lines and know the business from A to Z.

## NO APPRENTICE OR CHEAP HELP EMPLOYED.

We employ no cheap or apprentice help who know little or nothing about the game. No one is here to learn the trade, for they have all had years of actual experience and practice before coming here. From the employer down each man is an expert and thoroughly understands his work. This enables this plant to turn out only the very highest grade work.

## ACTUAL WORK—NO NEWSPAPER PROMISES IS WHAT YOU GET IF WORK IS SENT HERE.

When you send your work to us, we give you the very best of work and you get actual worth for your money instead of newspaper promises. No newspaper talk can bring your garments back to you in the clean, address, spotless manner in which ours is done. All small jobs, but from 20 to 30 years of experience in their respective lines and know the business from A to Z.

## OUR DYE DEPARTMENT IS PREPARED TO TURN OUT WORK ON SHORT NOTICE.

We are thoroughly equipped with modern methods and machinery to turn out dye work of the very best kind in from 1 to 3 days. It is not necessary for you to send all your work to Salt Lake City, for if colors from 2 to 4 and 10 weeks to get anything back from there, and the work is no better than what we do.

## A GUARANTEE THAT MEANS A GUARANTEE.

We guarantee each piece of work done by us, and you are the judge. We are here to make a job right and should you be dissatisfied with any work we do for you, we will make it good.

## H. HEARTFIELD

CLEANING, HATTING, DYEING and TAILORING.

SHRINERS AT BURLEY HAVE FINE DOINGS

El Korah Temple Initiates 128—Six Specials With Four Bands Four In

BURLEY, Feb. 19.—This day comes only once in four years and that is the way Burley people and the Shriners feel about the events which were supposed to be confined to yesterday, but which, wound up some time during the morning. Only once in four years, that's the kind of a thing it was. That's the Shriners' convalescence. Some 600 Shriners were in town yesterday. They came from widely scattered sections of Southern Idaho and from Salt Lake City. They came in motor cars and they came in special trains. A six-coach special came from Boise, the first coach from that city, a special from Idaho Falls, a coachload from Salt Lake and scattering delegations from other points, including a large representation from Twin Falls.

Everybody knew the Shriners were in town. They didn't need their four bands to prove it. During the morning there were street dancing and concerts by the Burley, Boise, Pocatello and Salt Lake bands. In the afternoon there was a great parade with the animals impounded by three Shriners, carefully barred in cases. There was a today war and other features. The Salt Lake and Boise Shriners in uniforms gave prizes that formed a very interesting part of the proceedings.

Last evening El Korah Temple conducted special convalescence work, initiating a class of 128 into the Mystic Shrine. Merry-making was in order and perhaps out of order, but anyway the Shriners had a fine time and didn't quit until they welcomed in the "once every four years" date.

LOYD GEORGE IS NOT COMING TO TWIN FALLS

But his nephew is. Arthur Evans will be here next Tuesday. Although a member of the most powerful family in Europe he became an American citizen. He will tell you why.

Daily and Sunday Times, \$7.50.

Local News

Farm and city loans, quick action, Arthur L. Swain.

To California—Mrs. W. G. Hood and children have gone to Los Angeles, Cal., for a pleasure trip of several weeks' duration.

Recovering—Billy Rowley, who was badly injured recently when a horse tramped on him, is making a rapid recovery at a local hospital.

Reverling—Mrs. Roy H. King, who has been a patient at a local hospital for the past few days, has recovered sufficiently to be removed to her home.

Leaves For California—Dr. P. E. Mackey left last evening for California, where he will join his wife. They will take a short pleasure trip throughout the state before returning to Twin Falls.

Damage Estimated at \$3,000.—The estimated damage done by the fire at the home of Jack Johnson has been estimated at \$3,000. Most of the furniture was saved, but the house was a practical wreck.

Returns From Buying Trip—Fred W. Kobs, manager of the local White store, has returned from a buying trip to Chicago, Omaha and other western points. Mr. Kobs reports that goods sold in Twin Falls stores is heavier than that of eastern houses of merchandise.

Meeting.—A meeting of the Salmer River Settlers' association took place Tuesday afternoon. Many matters of importance were discussed and ways for increasing the membership of the organization were suggested. An effort will be made to secure more members during the coming year.

From Kansas City—Henry B. Spangler, a graduate of the Twin Falls high school and now professor of Latin at the Sweeney auto school at Kansas City Mo., is in Twin Falls visiting at the home of his parents. Mr. Spangler showed such remarkable talent along automobile lines that he was tendered the professorship soon time ago.

Visiting Parents—Wayne Costello, who has been attending the Sweeney auto school of Kansas City Mo., has returned to Twin Falls for a visit with his parents. Wayne's work along mechanical lines while attending the institution was excellent and he made rapid progress throughout the year. He is a graduate of the local high school.

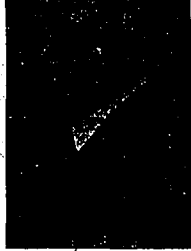

Sleeping Sickness—Claims Physician

NEW YORK, Feb. 18.—Dr. Moses Heller of the Lincoln hospital, died today of sleeping sickness, a mystery to his professional duties. Dr. Zoller's illness was attributed mainly to nervousness in attending two patients afflicted with sleeping sickness, and scores of other ailments with influenza. There were approximately 200 influenza patients at the hospital and the medical staff had been reduced by illness from 14 to four members.

PENNINGTON TO SACS PORTLAND, Ore., Feb. 28.—Pittner George Pennington of the Portland Beavers will probably be transferred to the Sacramento team of the Pacific coast league. Bill Rodgers made the McGredies a tempting offer for the suspended hurler.

GREAT WELSH LECTURER COMIN.

Nephew of David Lloyd-George to Be Here: Good in Lyceum.

Arthur Walyon Evans, nephew of David Lloyd-George, son of the great Welsh revivalist, will be here soon on the Lyceum course and his lecture will be one of the longest remembered events of the season. He is undoubtedly one of the most brilliant men who have come upon the American platform in the last decade. He contrasts in telling comparisons the weakness and strength of America from a Welshman's viewpoint. Often he hits hard but he hits a constructive blow. In the opinion of press and public this great Welsh orator is contributing the sanest, criticism and the most fervent rebuke to our country that has been heard in many years.

Daily and Sunday Times, \$7.50.

Your Suit

It will give you longer service if you keep it in good repair and in good appearance.

FARMS ARE STILL SELLING IN ALBERTA Last week nine quarter sections of Canadian Pacific Railway lands were bought by six Twin Falls farmers. There's a reason. These men are keen, experienced farmers who know the value of irrigated land. They know that irrigated land that will raise 5 times as much alfalfa hay, 10 times as much wheat, about the same of alfalfa and red clover, ten to twenty bushels of flax, 50 bushels of hard wheat, oats, potatoes, and sugar beets, in fact, an abundance of almost anything, is worth more than \$200 per acre. And yet this choice irrigated land is being sold for \$50 per acre—\$5 down, second payment due in 4 years, 20 years to pay—interest 2 per cent for 2 years—then 6 on balance—the company will also loan \$200 for improvements on the same rate of pay. Drop in and talk it over with BROWN BROS. SHEEP CO. EXCLUSIVE AGENTS

Thoughts and Things The business of living, when boiled down to its clearest essence and all the froth skimmed off, is just a matter of thinking. Each of us is continually thinking ideas of our own and swapping them for the ideas of others. If there is a famine of outside ideas we shrivel up ourselves. Children with "nobody to play with" are unhappy and unmanageable. From thinking with our heads to doing with our hands is but a little step, and then our thoughts become things. It is because men of America are so unfettered in their thinking and doing that this country is such a fine place to live in—it is also because these thoughts are freely radiated and spread broadcast, in the distribution of manufactured things and in the distribution of the facts about them (advertising), that this country is such a fine place to live in. The originator of an idea is not much better off than before he originated it till he gets some one else to absorb it and enjoy it and benefit by it. The man or woman surrounded by better things but who pays not the slightest attention to them is not much better off than the one with "nobody to play with." The advertisements in the papers are thoughts—telling you about the ideas of other men and women have thought out your happiness. Read the ads. Listen to the voices from hundreds of thousands of looms, shops, foundries, stables, factories, where millions of minds are busy, pleasant thoughts into words for your comfort.

Times Printing and Publishing

C. J. STEVENS GENERAL CONTRACTOR AND BUILDER PROPERTY FOR SALE A STATEMENT I wish to take this opportunity of announcing my withdrawal from the Employers' Association of Twin Falls and to give my reasons for so doing. I am in favor of Americanism, but cutting wages is not Americanism. It was represented to me and to the public that the Employers' Association did not intend to cut wages, yet a wage scale has been placed on every craft and two crafts have received cuts. This not only injures labor, but by reducing the purchasing power of labor also injures the merchant, and cannot avoid a depressing effect upon the general prosperity of the city. Whatever other reasons I may have for severing my connection with the Employers' Association need not, I feel, be set forth here. The wage question was sufficient to influence me in my decision and, I believe, justifies the step. C. J. STEVENS

GOSSIP AMONG SPORTS

Earle Nesic, Cincinnati outsider, is a holdout.
Also members of the Pennsylvania football team have left school.
Dr. John Lavan is now a regular practicing physician in St. Louis.
The Amateur Athletic union has 438 clubs and 11,568 registered athletes.
The Texas league has ruled against all freak pitching except the "split ball."
Harvard plays its first baseball game April 10 with Bowdoin at Cambridge.

The plan to form an All-Georgia league appears to have been abandoned.
Looks as if the Casper-Carpenter bout would be fought on this side of the pond.
"Rabbit" Maraville is coaching a Springfield, Mass., industrial basketball team.
Money does not seem to be any object to the owners of the New York Americans.

Harvard has invited University of California baseball team to come East in the spring.
Six of the Western conference football stars have named "kicker" for 1934 captain.
Connie Mack intends to make a big effort to die up a winner in Philadelphia this year.

Branch Rickey has been chosen manager and vice president of the St. Louis Cardinals.
The Cincinnati club is trying to secure the services of Casey Stengel from Philadelphia.
A bill has been introduced in the Massachusetts legislature to curb gambling on boxing matches.
Bob Fitzsimmons has a son who bears all the earmarks of being a great fighter like his father.

Albina Iubenshina, Russian chess champion, has completed arrangements to come to this country.
Boston Athletic association has asked to have the Eastern Olympic trials at the Harvard stadium.
Head Secretary Hiram Mason of the Cardinals has been promoted. He is one of the new directors of the club.
It is said that Indianapolis will receive four players from the Reds as part payment for shortstop Sam Crane.

Maybe little things are going to the Yankees because they have to go. You can't make a home run if you have no corn.
Jim Corbett is one of those who influences to the opinion that Carpenter stands a good chance of defeating Dempsey.
A story from Milwaukee has it that the club here is about to release pitcher Carl Howard to the Chicago White Sox.

The wildest pitcher in the American league last season was Howard Hinnman of the Detroit Tigers, who gave 107 bases on balls.
Now that it has been settled where "Babe" Ruth will play this coming season everybody is ready for the opening of the baseball season any time now.
The Philadelphia Athletics transferred pitcher Archie Drexler to Louisville, setting in exchange infielder Billinger and pitcher Mack, and a cash bonus.

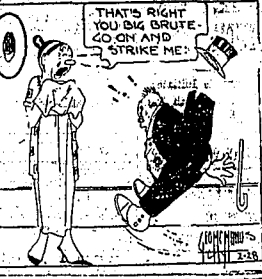

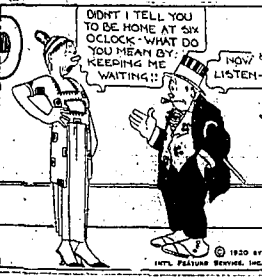

The New York High school games committee of the Public Schools Athletic league has requested the restoration of paid coaches of athletic teams.
President Walsh of the South Atlantic league announces the signing of four umpires for next season. They are Buckman, Shuster, Manning and Brown.

The men who control college athletics are expected to take "gray matters" awarded college athletes who after leaving college become professional.
Tom Cannon, a young catcher, who has been making good with independent teams, has been signed for a trial with the Birmingham Three-I league club.

According to precedent in such cases, now that "Babe" Ruth, the home-run king, has been sold for \$125,000, he may be expected to establish a record or record this season.

Grow Your Hair FREE HAIR

BRINGING UP FATHER

ATHLETICS, ONCE REGARDED AS BEST CLUB ON DIAMOND, TODAY LOOKED UPON AS JOKE

Some of Connie Mack's Former Star Ball Players.

From a team of champions to the poorest aggregation of players in the American league is the fate that has fallen the Philadelphia Athletics. The Athletic team of six or eight years ago was looked upon as the finest baseball machine ever put together. Connie Mack, the leader of this wonderful team of players, was hailed as a baseball wizard of the highest degree and his tactics were sung on every field. The names of the players who made up this winning combination were upon every boy's lips. Eddie Collins, Frank Home, Danny Murphy, Eddie Plank, Jack Cooney, Harry Davis, Jack Barry and Chief Bender were some of the men who were on the roster of the club, and these were popular baseball idols. Whenever the Athletics played they drew immense crowds and their batting, fielding and all-around work was marvelled at by all.
What a change a few years have brought! Today the Athletics are but a wreck of old club. All of their stars have gone to other fields or have dropped out of the game entirely. From the proud possessor of a team of champions to the leader of a bunch of youngsters is the place of his former stock, but he has had hard work in getting the necessary money. While it is true that there are many good youngsters floating around in the minors, Connie does not have great success in bringing them to light. Other managers are troubled in the same way. The number of young players who have come out of the minors the past few years and have blossomed into stars is comparatively small. Still Connie does not seem to get discouraged very easily. He is going ahead and making plans to build up a winner for 1934. He has dug up some of his stars of championship days Danny Murphy, who still acts as coach for the Athletics, Harry Davis, another veteran, will act as captain next year.
Glad to Get Murphy Back. "It was glad to get Murphy back," says Connie. "Because he will be a big help to me. He not only knows baseball, but has a pleasing personality, and his open-hearted manner is sure to capture the rookies from the start."
"The Athletics will have such a large number of players on the Southern training trip that they need a lot of leadership. The signing of Dan will help distribute the burden. Dan can look after the outfielders, leaving Harry Davis free with the infielders. I can work with the pitchers and catchers."
"I am going to try to do big things next season, and the signing of Murphy is one of the advantages. We must develop players quickly, and Dan will be a help toward that end. We have announced the longest and longest campaign, including 150 in the history of the club, and we hope to get good results on the tour. Dan fits into the program nicely."

NOTES OF SPORIDOM

Denver has organized a club to indoor baseball league.
Left Fielder Pat Hunch has signed again with Cincinnati.
University of Pittsburgh will be represented by a varsity only this year.
Gullonson, a French runner, set a new record for eight miles at Paris.
New York Athletic club boasts 625 members, its largest in history.
Alvin Robinson, Boston club champion, will shortly visit this country.
The New York State Amateur league has applied for admission into the Amateur Athletic union.
Pit-ber Karl Adams has been given his unconditional release by the Toledo American association club.
Syracuse football players will not have the usual year, the season ending with the College football.
Victoria, B. C. Columbia, will hold the North Pacific Association of Amateur Golfers regular next summer.
The Princeton basketball team will play twenty-three games, concluding March 20 with Union at Schenectady.
Royal English Hockey regatta will be run over the Thames hills and 500 yards course June 30, July 1, 2 and 3.
Harlem Heights Athletic league of New York city, has set aside a fund of \$1000 for the promotion of sports.

LAST AMERICAN IN ENGLAND

Tommy Burns.

Heavyweight Tommy Burns Fought for International Title With Gunner Moir in 1917.
Tommy Burns was the last American heavyweight champion to engage in an international fight for the title. Burns went to England in 1907 and knocked out Gunner Moir, the British champion, in 10 rounds, and the following year he knocked out Bill Lounnie in six rounds.

MURPHY WINS LOS ANGELES AUTO-RACING

Duesenberg Rolls Across Line After Non-Stop Run of 250 Miles.
LOS ANGELES Cal., Feb. 25.—Jimmy Murphy driving a Duesenberg, won the 250-mile automobile race staged here this afternoon as the opening event of the Los Angeles speedway. His time was 2:25:17, an average speed of 103.6 miles an hour. Murphy did not stop throughout the race and finished three laps ahead of the field.

Ira Vail, driving a Philbin, finished second, and was so nearly exhausted he dropped out of the race after driving up to the pits. Thomas, in a Frontenac, was third; Saries, Frontenac, fourth; Donnell, Hudson, fifth, and Hearn, Chevrolet, sixth.
Only one minor accident, marred the day's event. Art Klein, driving a Peugeot, turned turtle, smashing a rear wheel, but escaped unhurt.

RICH HURDLE RACE OPENED

Event to Be Known as "The Two Thousand Hurdle Race," to Be inaugurated in England.
Manchester, England, has opened the richest hurdle race ever, offered in Great Britain. It is to be known as "The Two Thousand Hurdle Race" with \$10,000 added and entrance fees to run as low as one per cent. The race is to be run yearly in March.

OHIO STAFF GOES MAKE DRESSES TO COMBAT II. C. L.

COLUMBUS, O., Feb. 25.—Co-eds attending Ohio State University are combing old H. C. L. by making their own dresses.
A style show has just been staged at the university. Its twenty-five participants were old students. They displayed, as living models, their own handwork.
The girls given in review, wearing dresses that were made in one day and did not cost more than the price of one good square meal.
Although these dresses were made out of unbleached muslin, no two dresses looked alike due to the individual finishing touches of their owners. Some dresses were low-necked and some high. Some of the dresses differed material was used in making the collars and cuffs, while some were trimmed with embroidery. The girls announced their intention of wearing these dresses next summer.

# ENGINEER TO SEA

ATLANTA, Ga., Feb. 23.—Experiences in the submarine zone in a "death ship" on which he had stenciled because the "one woman" had stenciled him with being "yellow," were narrated by Paul H. Carter, sentenced to five years in the federal penitentiary for mailing a bomb to an army captain whom he believed had suspected him in the execution of the "one woman" plan.

The woman involved is Miss Claire McMillan, who was married to Carter and assumed her maiden name when she was granted a divorce.

The "death ship" was flown at Carter by the "one woman" when they were living in Philadelphia, where Carter was building locomotives for the Federal Government.

The locomotive builder was also a marine engineer and held a chief engineer's license to take charge of any ship.

His experiences on the sea in a ship that was a "death trap" or a "suicide ship" as he called it, were detailed in a letter which was prepared by Carter while awaiting his appearance in the Federal Court.

His confession reads:

"In the month of August the one woman said to me: 'Boy, don't you think you would be doing more for your country if you were a ship? You're getting low many are tied up on account of the shortage of engineers.'

"I had discussed the matter for several days and finally I put it up to the general foreman and his reply was: 'Stay where you are.'

"I said that I would like to, but she did not seem satisfied, finally telling me: 'Lover boy, I know you are not afraid of any one man, or two men, but I'm afraid the Hun and the U-boat have made you show 'yellow.'

"Naturally I repeated such an occasion and the result was quite a success. A repetition two of three times got me thinking whether or not I was 'yellow.'

"There was a way to find out, though, and I took it, called Bert Greenleaf, representative of the Ocean Association of Marine Engineers, of which organization I was a member, and asked him to take out a ship pending an engineer, that was about ready to sail.

"He said: 'Only the Framel Point, which carries the engine, you don't want. She is never out and is in bad shape for electricity, for only one generator works. You don't want her, for that is an engine you don't want.' I said: 'She is mine.'

"Carter's statement then set forth the log of the Framel Point during the voyage to Port Arthur, an incident that is replete with stirring incidents and maritime perils. These include mechanical troubles with the ship's engine that meant long hours of arduous labor, attacks upon the vessel by enemy warcraft, and dismaying attacks by the sea that had to be allayed by very primitive methods.

"During the voyage to Port Arthur Carter was buoyed up by the expectation that he would receive a number of one letters from the 'one woman,' but his mail bag, when he reached Port, came blank empty.

"Carter then took an uneventful trip back, with nothing more to contend with than a gale in the Florida Straits.

"On arrival at Philadelphia I caught a taxi and beat it out to the house, feeling sure to find someone or arrive and waiting. We were days overdue, and had not been reported.

"I found the house dark and a note on the table saying, 'I've gone to the show, will be back not later

# EX-SOLDIERS OFFER TO RUN FRENCH TRAINS

## Government and Unions Grimly Holding on for Decision in Critical Test

PARIS, Feb. 23.—The union of former soldiers, with more than four hundred thousand members, tonight offered its services to the government to operate trains during the railway strike.

The offer of the soldiers' union was made through the French press. It was prepared, he said, to offer men not only to run trains, but to man motor trucks and trams to prevent a total stoppage of traffic.

This organization also came to the support of the government specialists in many lines tending to the strike.

The government announced it will ask the aid of members and other commercial organizations in support of its resolutions pleading their support to Premier Millerand, and in his effort to break the strike.

The government continued its efforts to break the strike. Immediate distribution of all perishable foodstuffs led on to trucks because of the strike, was ordered.

The food situation in Paris was described as critical.

Shopkeepers reported depleted stocks, with a serious shortage of cereals.

Indications tonight were that the general strike call has been only partially effective. Many trains were running on practically all lines. Public opinion was united against the walkout, and this fact, combined with the government's strong resistance, was believed to forecast early defeat for the railway men.

Many strikers, according to the newspapers, resent the "provisional" character of the strike movement and have refused to leave their posts.

Despite these assertions, however, the general food shortage was apparent on all sides.

The strike apparently had settled down to a finish fight between the government and the strikers.

Following the calling of the strike on all lines the government redoubled its efforts to keep traffic moving and to prevent the strike from taking any character of the strike movement.

Early reports indicated that the general strike call—issued in sympathy with workers on the Paris, Lyons & Marseilles line—had almost entirely failed. Traffic up to late today had reached nearly normal in the north.

The government's plan to break the strike had taken the following form: Mobilization of all railway workers today after five hours' rest. Early requisition of motor trucks, automobiles and airplanes to transport food and supplies to the cities.

Prosecution of strike leaders if laws can be found covering their activities in military service.

Military forces to operate trains and prevent violence. Stations and terminals in Paris were under guard tonight while private activities had been discontinued to transport workers to their homes in the suburbs.

There were no reports of serious disturbances.

Premier Millerand, who returned from London to take charge of the fight to break up the strike, tonight while private activities had been discontinued to transport workers to their homes in the suburbs.

Millerand, it is known, assumed the attitude that the strike is aimed directly at the sovereignty of the government, and is determined that it shall not be allowed to get out of control.

# France Aroused at Request That Give Up Shipping

PARIS, Feb. 23.—The agreement between Premier Lloyd George and President Wilson by which France was asked to give back a part of the confiscated German shipping awarded to the United States, has aroused a storm of indignation in all circles.

The situation came to a head when M. Hignon, under-secretary of state for mercantile marine, accompanied Premier Millerand to London to present France's position before the council of premier.

"I have just received a reply from the shipping lines which lay down under the agreement between President Wilson and Premier Lloyd George and Premier Millerand," said Hignon, "that France must give back before February 1, 200,000 tons of the German steel which was awarded her." Hignon said in an interview in London.

"Under the agreement signed by M. Clemenceau (minister of commerce in the Clemenceau cabinet), we are entitled under the reparations sections to 500,000 tons of new enemy shipping. We have received 200,000 tons and of this we are required to give back 200,000 tons. This is in violation of the treaty."

# Staid Seminary Stands by Crap Shooting Girls

KENNESAW, Wn., Feb. 23.—Kemper Hall exclusive women's seminary, for forty years an emblem of "righteousness and right living," tonight rejected a student strike because four students and two teachers were expelled for "crap shooting" and "unbecoming."

Dr. Alfred Griffin, rector, explained the expulsions to the assembly when rumblings of a sympathetic strike reached his ears late today. Students tonight said they were not expelled.

Rev. Griffin said the expelled teachers and pupils had numbered several hundred and "colored the floor" for money. He said he had learned that they had concocted a new home brew with a "kick" and "colored the floor" for money.

Griffin explained that he had long scented the smoking of cigarettes "because what can an educator do when mothers admit daughters have but followed their own lead."

# Congressmen May Form Union and Ask Wage Raise

WASHINGTON, Feb. 23.—An intimation that members of congress should form a labor union and demand higher pay was made today by Representative McCarthar, Oregon.

McCarthar, who has introduced a bill for a strike if the members did not vote to raise their own salaries were made by McCarthar, but he did claim that congressmen are not now receiving a decent living wage.

"Our \$7000 is not a very large allowance for the office of such importance," McCarthar said, "and it should be raised to \$10,000 to meet the high cost of living. We are not at all a poor man with a \$2500 position five years ago. We have lost a lot of capable men who could not make repairs on the present salary," he said.

# Charges Efforts to Make Dry Laws Look Ridiculous

WASHINGTON, Feb. 23.—Charges that government officials responsible for enforcement of prohibition are trying to make the dry amendment appear ludicrous by their appropriations for "frankish schemes," were made in the house today by Representative Good (Illinois), Canton (Illinois), and Byrnes (South Carolina).

A request of the customs service for \$1,000,000 to build a wall of guards around the country to prevent the smuggling of liquor was referred to and the house by unanimous vote disapproved the action of the senate in passing the bill.

The bill also contained a provision which authorized appropriations that authorized appropriations that the country dry bill not be made.

A recommendation of the coast guard for airplanes to fly along the coast looking for smugglers also was disapproved by the house.

It was also disapproved by the house when the prohibition law was amended to allow the prohibition law.

# Childish Heroism Revealed in Fire

JAMAICA, Long Island, Feb. 23.—An unusual and tragic story of childish heroism was revealed here today after fire broke out at the home of Andrew Macker killing his three children. The bodies of two of the children—a girl aged 2 and a boy aged 4—were found half-way out of the door. The elder brother was found on the floor clutching the clothing of the other two as though he had been attempting to lead them to safety when overcome. The parents were away from home at the time.

Daily and Sunday Times, \$7.50.

# FAT MAN RESIGNE OFFICE OF CHICAGO PHYSICIAN

CHICAGO, Feb. 23.—The star of the fat man show brightly now. As a result of an operation whereby Dr. Max Thorek, a Chicago surgeon, pared 100 pounds of surplus adipose tissue from the "fat window" of Paul Wiles, who weighed 300 pounds before going to the operating table, many heavyweights are preparing to be scrapped into stable form. So many have applied for the operation, after years of fruitless dieting and unproductive assurances that Dr. Thorek has become known as "The Fat Man's Samaritan."

Daily and Sunday Times, \$7.50.

# AIRMAN SETS NEW RECORDS FOR ALTITUDE

Major Schroeder Soars 36,000 Feet, Falls Five Miles, Rights Plane and Lands

DAYTON, O., Feb. 23.—Although a pilot's flight was not intended to be a record, Major R. W. Schroeder, McCook Field, holds the record for the highest altitude ever reached by a man in a plane. He reached 36,000 feet on October 4, 1919, as passenger, with Lieutenant Ryan as passenger, in a Leper, a large two machine gun plane. Today, Major Schroeder's flight reached 36,000 feet. After his engine gave out, he lost control of his plane and dropped, it is esti-

# PIANO MOVERS LOWER HEAVY WOMAN'S CASKET

NEWARK, N. J., Feb. 23.—Spirited piano movers had to be taken to hold the funeral of Mrs. Rose Merolo, forty-three years old, of No. 178 Eighth avenue, Newark. She weighed 605 pounds when she died last week.

A special coffin was constructed for her. It was six feet four inches long, twenty-six inches wide and two inches high. Six pallbearers, three piano movers and three riggers moved the body. A widow casket on the third floor was removed. The casket was lowered with block and tackle.
