

NEW JERSEY LAUNCHES FIGHT AGAINST PROHIBITION

MIDDLE WEST BURIED WITH SNOW DRIFTS AND ICICLES

Storm Turns East From Rockies on Heels of Balmy Blizzard

WINTRY BLASTS BRING SHOCKS

Many Towns Cut Off and Traffic Paralyzed by Blizzard

CHICAGO, March 4.—A March blizzard reported as the worst experienced in ninety years is sweeping eastward from the Rocky mountains, and will prevail throughout the middle west by night fall, according to reports received here today.

Already train service has been disrupted at Minneapolis and points west and northwest of here, according to telegraph reports. In a number of places trains are reported being stranded in huge drifts. Telegraph and telephone service has been seriously interfered with and in some places completely cut off. Several towns in the direct path of the storm have almost been completely isolated. The storms came on the heels of a balmy spell throughout the middle west which was taken for a sign that winter was over. It isn't.

DENVER, March 4.—Reports today from the Rio Grande district in southwestern Colorado state that slow progress was being made in removing the heavy drifts and snow slides that have blocked traffic in the vicinity of Durango and Silverton during the past week. Rising temperatures today aided in clearing the roads in opening up passages on the railroads and highways and it is believed little property damage will result from the blockade. However, some reported loss but considerable loss of livestock from exposure is reported.

WANT SALMON PACKERS PROSECUTED

WASHINGTON, March 3.—Criminal prosecution of salmon packers for selling out the government fish was being sought when canned and for alleged poisoning when the salmon was returned to the packers by the government and reconditioned by them for civilian trade, was recommended today by the department of justice to the house committee investigating the procedure in the war department.

MAKING PLANS FOR INITIAL MEETING

Railway Strike Depends On Mutiny Meeting Today By M. W. and Shop Men

Representatives of 400,000 Employees Will Decide Whether or Not to Override the Promises of Chiefs to Wilson

CHICAGO, March 4.—The conference of 600 delegates of the Brotherhood of Maintenance of Way and Shop Laborers, which purposed to hold the general body officers and possibly call a strike Monday morning this afternoon, on the receipt of a telegram from Washington where the union heads and railroad representatives are in conference on wages. The source and contents of the telegram were not made public, but it was asserted that the message contained information which may result in ending all strike peril. The conference will meet again Monday.

CHICAGO, March 4.—On the outcome of a meeting held here today rests a decision whether 400,000 railroad workers of the country will go on strike and seriously interfere with the operation of every railroad system in the country.

Lodge Attacks Shantung Section Of Peace Treaty

WASHINGTON, March 4.—Surrender of the Chinese province of Shantung to Japan was denounced as an infamy and a crime by Senator Lodge in the senate this afternoon when debate on the peace treaty was resumed. The sixth Lodge reservation, that withdrawing the assent of the United States to the turning over of Shantung to Japan by the Versailles peace conference, was again under consideration.

Arraign All Socialists As "Perpetual Traitors,"

ALBANY, N. Y., March 4.—Socialists of the United States were today arraigned as "perpetual traitors" and informed that their party, not only those of the party, but also the New York state assembly by them and today suspended was on trial for disloyalty, by Martin Conboy, demanding for the state of the socialist inquiry.

Dead Hand Guides Train Into Crash Causing 4 Deaths

ELIZABETH, N. J., March 4.—A needless hand, officials today believe, caused the "Red Bank" crash of the Central Railroad of New Jersey, except, past a danger signal and into a local train near here last night. The accident, which killed four and injured 15, was caused, it was thought, by a hand that had been left in place prior to the crash. An investigation to determine this is now under way.

SOON NAME SURVEY COMMISSION

EMPLOYERS UNITING WITH UNIONS IN POCATELLO FOR GOOD OF CITY

Form Club to Exchange Views of Capital and Labor on Matters Affecting Both

POCATELLO, March 4.—At a meeting of the representatives of the Employers Association and of the unions of the city, a temporary organization was effected, to be known as the "Bigger, Better, Baster Pocatellico Club." Mayor W. W. Whitaker, acting as temporary chairman, presided.

OPENING OF LANDS, SOLDIER PREFERENCE, ADVOCATED FOR SUPPORT OF SMITH MEASURE

WASHINGTON, March 4.—Opening of public lands of the nation to soldiers with preferential rights was advocated today before the house war and marine committee, having soldier aid legislation in charge.

DOUGLASS CASE IS CONTINUED

PARIS, March 4.—The Matin demands that France adopt a definite attitude towards both Russia and Germany as once otherwise, says the newspaper, the French will be commercially outstripped by England and the United States.

Nitti Confident Adriatic Issue Will Be Solved

LONDON, March 4.—"I am positive that the Adriatic difficulty and the Italian and Jugoslav issues will be solved in the future," declared Premier Lloyd George in an interview granted to the Manchester Guardian today.

CONSIDER PROBE OF PALMER

ATTACKS CONSTITUTIONALITY OF AMENDMENT AND VOLSTEAD ACT BEFORE U. S. SUPREME COURT

Claims Congress Has No Power to Regulate Morals and Conduct, or Destroy Rights of the States—New York Also Active.

WASHINGTON, March 4.—The state of New Jersey filed today in the United States supreme court a bill of complaint asking that the prohibition amendment and the Volstead enforcement act be declared null and void. Joseph A. Lanigan, assistant attorney general of New Jersey, filed the bill of complaint which was drawn by Attorney General McCran by the authority of Governor Edwards, elected on a "wet" platform last November.

Drys Win Test Vote Over Liquor Issue In Congress

WASHINGTON, March 4.—A test vote today on the prohibition enforcement law. The drys won the test vote by a margin of 219 to 195. The vote came over the 219 to 195 margin.

URGES FRANCE AWFUL, AWFUL HUSTLE TRADE WITH GERMANY LET'S DECLARE WAR ON SWISS

Otherwise Will Be Outstripped by Allies, Declares Paris News-paper, Matin

PARIS, March 4.—The Matin demands that France adopt a definite attitude towards both Russia and Germany as once otherwise, says the newspaper, the French will be commercially outstripped by England and the United States.

Headquarters Established at Parish Hall—Look Forward to Work

Arrangements are being rapidly completed for the formal opening of the parish hall. The hall will be open every night, and will be the headquarters of the local post of the American Legion, are working hard for the success of the hall meeting. Egan and Mrs. John Nathan, the post officers, are working hard for the success of the hall meeting.

**FEEDERS' DAY
EXCURSION IS
NOW ARRANGED**

Stockmen and Bankers Will See Results of Experiments in Canyon County

CALDWELL, March 4.—A "feeders' day" excursion to be held March 17, has been arranged in cooperation with the Canyon county farm bureau and the Caldwell Commercial club. It will offer Idaho stockmen and bankers a first-hand opportunity to study the results of winter experimental feeding of steers and yearlings at the Caldwell substation, and to investigate the opportunities for winter feeding offered by Canyon county farms.

Stockmen, bankers and all other interested people are invited to the university, county and town from all sections of the state, and are expected especially from those sections in which feeding conditions and available feeds are similar to those in the Boise valley.

Guests will assemble in Caldwell on the morning of March 17, in time to start at 9 o'clock on an automobile excursion, under auspices of the farm bureau and the commercial club, to visit several steer feeding farms in the Boise valley. Arriving at Nauma at noon, they will stop for lunch and informal speechmaking, at which G. E. Ross, president of the state farm bureau, will be the toastmaster.

The party will reach the Caldwell substation of the university experiment station at 2 o'clock there to study eight lots of steers that have been fed through the winter, on different rations, under direction of J. S. Nordby of the experiment station staff. The visit to the steer pens will be followed by brief talks on feeding and steer feeding, after which the party will return to Caldwell for a stockmen's program in the evening. Dean E. J. Hedging of the agricultural college of the state university will preside.

Prominent cattle men and sheep men of the state already have signified their intention of participating in the excursion by attending the feeding experiment. Short-horn sales will be held at Caldwell by the Boise Valley Short-horn Growers' association, March 18 and 19, and a Short-horn banquet will be held on the evening of March 18. The entire series of events was planned to show it is announced, so as to provide a program of special attractions for stockmen.

In the winter's experiment at the substation farm, 26 steers were fed on different rations in eight lots of 12 steers each, in an effort to ascertain the feeding values, with relation to expense, of different combinations of hay, silage and grain. This experiment is only the first of a series of larger experiments which the university announces it will undertake next year and in years following. Plans already have been prepared for the feeding of sheep, and a sheep experiment will be added to the steer experiment next winter.

Of the 26 steers, one lot was fed on long alfalfa hay, while the other lots received other foods, as follows: cut alfalfa hay; long alfalfa hay and silage; cut alfalfa hay and silage; long alfalfa hay and silage; long alfalfa hay; silage and five pounds of barley; cut alfalfa hay, silage and five pounds of barley; cut alfalfa hay and eight pounds of barley; cut alfalfa hay and eight pounds of barley.

Winter yearlings were fed with the waste from the feed lots, as another phase of the experiment.

Rogerson Items

ROGERSON, March 4.—Mr. and Mrs. Lincoln Curtis of Hull arrived on Friday for a short visit with the Johnsons-Helsley family. They left Saturday, accompanied by Mrs. Helsley for House Creek, to be with the Joe Cougle family during their convalescence from influenza.

Mr. Gilbert Hull of Hollister spent Friday in Rogerson in the interest of business matters.

Mrs. Ella Kimbrough left on Friday's train for a several days visit with relatives in Twin Falls.

A. E. Caldwell, Mr. Wallace of Amsterdam were among the outside visitors that spent Friday in Rogerson, transacting business.

Mr. Gamble and family arrived from American Falls on Friday to spend a short time in Rogerson, where Mr. Gamble is doing duty as relief operator at the depot, during Mr. Dean's illness.

Mr. Ed. Pastor was an Amsterdam business visitor that spent Friday in Rogerson.

W. C. Deas of Amsterdam transacted business in Rogerson on Friday.

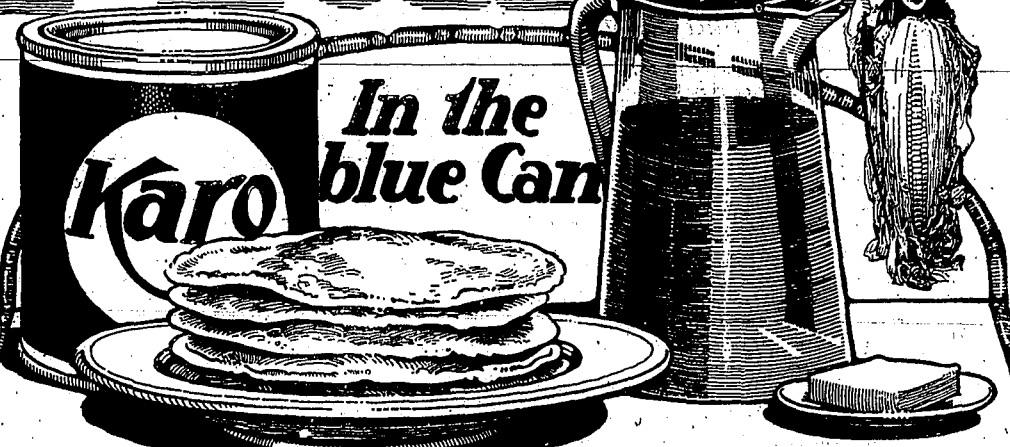

John Conners and Henry Peterson spent Saturday and Sunday in Twin Falls on a combined business and pleasure trip.

Charles Harary was in from the Archie Stuart coach on Friday, and reports the "lantern" as being exceptionally good.

A. J. Smith was an Amsterdam business visitor that spent Friday in Rogerson.

W. C. Harris spent Saturday in Twin Falls on a combined business and pleasure trip. Mr. Harris is again 200 to 50 about, after being on the sick list for several days.

Ed Pastor of Amsterdam transacted business in Rogerson on Friday. Isaac Willis spent Saturday in

In the blue Can

Don't worry about the high price of jams, jellies and preserves. Serve Karo, the Great American Sweet. Buy it by the dozen cans. An important message. Read it!

AMONG the twenty odd million American Homes there is probably not a single one where Karo is not served in some manner—for breakfast, for dinner or for supper.

During these days of high prices, Karo has become another word for economy. Thousands of thoughtful housewives have learned that *Blue Label Karo* is not only a delicious spread for pancakes, but answers every purpose where a sweet is needed.

Instead of paying the present high prices for jams, jellies and preserves—serve *Blue Label Karo* on sliced bread, toast, pancakes or waffles.

Do as the wise cooks are now doing: Use Karo to stew dried fruit, prunes; use it for candied sweet potatoes, brown bread, muffins, coffee cake and puddings.

Karo Home-made Candy is the best for children. It is wholesome, easy to make, costs much less than store candy.

Mothers give children *Blue Label Karo* and sliced bread because it satisfies Nature's craving for sweets and takes the place of candy.

IMPORTANT

There never was such a demand for *Blue Label Karo* as today. Housewives everywhere are buying it by the dozen cans. Ask your grocer the price per dozen. For economy's sake buy it this way.

CORN PRODUCTS REFINING COMPANY

Twin Falls in the interest of business affairs.

Clovis Bess was a Rogerson business visitor at the county seat on Tuesday.

Mr. and Mrs. W. M. Hines spent Saturday in Twin Falls on a combined business and pleasure trip. While there they were dinner guests of Mr. and Mrs. J. S. Russell.

Jerome Hibeloy spent Saturday in Twin Falls in the interest of business.

Wang Whitford is among the Rogerson business visitors that is spending a short time in Twin Falls.

Entertainers Club—Mrs. Chas. Perry was hostess to the Blue Lakes Hotel club Friday afternoon. After a business session the time was spent

with fancy work and conversation with delicious refreshments at the club on the afternoon.

Guests present were: Mrs. J. C. Long, Mrs. Campbell, Mrs. Chas. Darrow, Mrs. Gwynne, Mrs. J. P. Henry, Mrs. E. A. Burden, Mrs. V. B. Place, Mrs. Frank Brown, Mrs. Frank Miller, Mrs. Bruce Statts, Mrs. Kinnear and Mrs. Rutledgeford.

PROPOSED SALE OF SHIPS

WASHINGTON, March 4.—The sale of government owned ships by the shipping board "as promptly as may be consistent with good business principles" was proposed in a joint resolution introduced this afternoon by Senator Edge, republican, of New

Senator Edge was one of the members of the committee on commerce who voted against a favorable report on the former Jones' bill to prohibit the sale of former German ships "except as hereafter be provided by law."

TURKS AND REDS WILL NOT ALLY

LONDON, March 4.—"An alliance between the Russian bolsheviks and the Turks is most improbable," the Constantinople correspondent of the Daily Express telegraphed today. His message continued:

"Prominent Turks are demanding that the Shokif Iftan denounce bolshevism as being contrary to Islam. The correspondent said that care-

ful inquiry among British refugees from southern Russia, establishing that the recent Soviet advance toward the Black Sea, the Caspian Sea and the Sea of Azov "was not accompanied by more than the usual amount of abjecting and pillage." The British fugitives declare that the Russian volunteer army is worse than the Soviet army.

RESERVE BOARD CHIEF RESHUN

WASHINGTON, March 4.—Albert Strauss of New York, vice governor of the Federal reserve board, tendered his resignation to President Wilson today.

His term was to have expired in October, 1925.

REPORT BARGE SUNK

MOBILE, Ala., March 4.—The tanker Calvert of the Gulf Refining company arriving here reports that the barge Matus, which she was towing, sank in the Gulf of Mexico off Mobile bar yesterday and drowned two men.—The Calvert is from York Harbor. The barge Matus is also reported bottom up off Mobile bar. Passes also are entertained for the Dutch tug Aka.

BOONIN CALIFORNIA CLIMATE

NEW YORK, March 4.—California's climate is the best in the world, according to Don Enrique Sagar, Paed-

man consular attaché at London, who stopped here today enroute to the west. "I came to America for my health and intend to spend several months in California. British climate and continental climate cannot compare with California's wonderful weather," he said.

LOWDEN PETITION FILED

INDIANAPOLIS, Ind., March 4.—Petition to place the name of Governor Frank O. Lowden of Illinois on the Republican ballot as a candidate for the nomination for president in the Indiana primary was filed with the secretary of state today.

WASHINGTONIANS AS PRODUCERS OF FOOD

Striking Example of What May Be Accomplished.

Three Hundred Families in District Supplied Tables With Fresh Vegetables During Summer and Stored Some for Winter.

Prepared by the United States Department of Agriculture.
One of the most striking examples of what may be accomplished in food production is that of the Potomac Park home gardens, located in the District of Columbia almost within the shadow of the Washington monument.

May is the month when a large part of the winter crop in the Southern States may be harvested. Special interest attaches to the growing under of the green manure crop and the saving of this seed, the first because of the high price of fertilizer and the second because of the high price of seed. Whatever use is to be made of the crop, preparation should be made well in advance of the harvest season, and special thought should be given to the seed which is to follow the crimson clover.

Crimson clover, like any green manure crop, should be plowed under about two weeks before the following crop is planted. If planting is made on the freshly turned manure, the soil and weeds, the results are likely to be worse than if no green manure had been used. The green material must be given a chance to rot before it is partially decomposed, and the soil bacteria must have an opportunity to remove some of the nitrogenous material that is left in the soil.

Save Supply of Seed.
There is every reason this year why farmers who are to grow crimson clover next year should save at least enough seed for their own use.

Mr. and Mrs. C. H. Markle of Filer came to this city Wednesday for a short time. While here Mr. Markle transacted business matters and Mrs. Markle shopped. They returned home in the afternoon.

Twin Falls Chamber of Commerce

The Twin Falls Chamber of Commerce believed that, although the hope of every opportunity to make a work of the government census photographs was thought, there were a number of people missed and at a meeting of the board of directors yesterday it was decided to secure a copy-book request for 1930, the extra careful census enumeration at any reasonable cost. More definite action along this line is expected to be taken later.

WILL GET PICTURE IN SHOP

It was decided by the board of directors of the Twin Falls Chamber of Commerce yesterday that the picture donated by C. D. Thomas, Jr. be placed in the booth in the photo studio building in the city. The picture, which is said to be a hand some one, was donated some time ago but until recently it was thought to place it in the photo studio building in the city.

Hardest Hitters Always Best Fighters

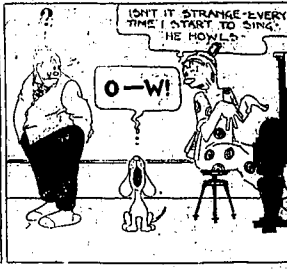

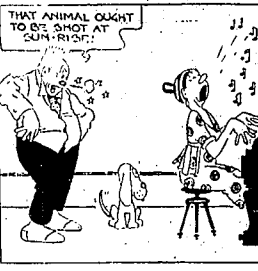

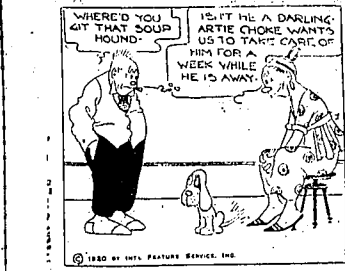

When you tell a friend about a great fighter who has just won, he invariably asks "Can he hit?" That's why we all want to know, for we fear that if the lad can't knock 'em out, he can't grab a crown.

According to the fighters who met him, Joe Chopynski was a dangerous hitter, that ever cracked the ring. Jim Corbett took a lot of speed out of Joe by knocking him out a few times, but he was not over twenty years of age, but later on Joe showed what a wonderful fighter he was by taking on all of the big fellows on after that and landing them the time of their lives.

He knocked Tom Sharkey through the ropes out into the fourth row of seats in their fight in San Francisco.

He hit Jim Jeffries, in the month in the same city and Jeff's lip was wedged in between his teeth. Billy Deering had to take a "knee" from Joe's right hand before he was stopped.

Chopynski knocked Jack Johnson dead in two rounds in Galveston, Tex.

POLICE SCANDAL STIRS NEW YORK

NEW YORK, March 4.—A police scandal that promises to assume the proportions of the famous Becker case was disclosed here today following the indictment by a grand jury of Detective John Guntion on charges of bribery and extortion. An investigation of the entire police department is under way, and it is alleged that at least ten other plain clothes men, bondsmen and an attorney are involved in a form of widespread grafting from women in the streets. It was announced from the district attorney's office that the investigation will begin in the next few days. It is the worst scandal that has touched the police department in years.

Guntion is charged specifically with having accepted bribes from a woman of the street for promised protection and also with having extorted money from the same woman by threatening her with arrest unless she "paid up."

The woman, Rebecca Malady, told James E. Smith, assistant district attorney, that she had been forced to operate in the open Broadway "white way" district and with other girls in the district for her protection.

Smith, who is in charge of the case, decided the proceeds with Guntion.

The Malady girl said she had known Guntion three years, and had given him about \$5,000 and many presents.

If you don't want what you have or haven't what you want, use a little Times want ad.

As, years ago, and then went to jail when the sheriff arrested both men. Johnson told the writer later that the sheriff looked like an angel when he stopped him and that ever before was so glad that a fight was over," he said.

Chopynski was a near clone but he never landed.

Arcelia Herrera, the Mexican lightweight, was another fierce fighter who never held a title. He met Moe Chopynski in France and at the close of the fourth round hit Terry so hard that the latter initiated a man walking up hill as he returned to his corner. It didn't take long.

When Herrera, fought that Nelson he knocked the latter down so hard that he landed right on top of his head. He weathered the storm though and lost the Mexican.

Wells to Help

Bombardier Wells, who wore out the seats on eighteen fighting trunks sitting down in rings, his clothing, being, according to a letter from a fan in New York.

Wells, like Sydney Carton, in "The Tale of Two Cities," might say: "It is a far, far better thing that I do than I have ever done; it is a far, far better rest that I go to than I have ever known."

An Old Song

If the ocean was whiskey And I was a duck I'd dive to the bottom And I never would come up.

Hub Armstrong on Jim Corbett

"Don't let anyone ever tell you that Mr. Jim Corbett couldn't hit," said Hub Armstrong, the other fighter, "I used to train Mr. Corbett and most of the money I got I spent for headgear powder. We didn't look like he was knocking your head off, but it almost killed me. Look at the record—that will show you how he could hit. He knocked out John L. Sullivan away. He stopped that Charley Mitchell and the colossal Kid McCoy. I say that's the absolute advertisement for a punch."

Corn Pain Stopped Quick

Get It! Loosens Them So They Lift Off in a Jiffy

The corn pains cease as soon as a few drops of "Vaseline" reach the corn. It goes out of the burning business forever.

For a day or so the corn remains, getting looser and looser and without a wringer from it. Then, it gets so loose that you just lift it right off, without even feeling it, and cast it away.

"That's how easily and simply 'Vaseline' relieves the corn nuisance.

"Get it," the unfeeling, green-tinted, mucky-bark corn remover, costs but a trifle at any drug store. MFD by L. Lawrence & Co., Chicago.

CLAIM AT MEXICO OF PACKERS

WASHINGTON, March 3.—Cattle and sheep raisers in Mexico and cattle were "at the mercy of the big packers because they were large growers from financial institutions controlled and influenced by the packers, E. C. Lassiter of Texas, representing cattle raisers, today told the house agriculture committee.

Offer Kelly Job Coaching U. of I.

MONROE, March 4.—Thomas Kelley of St. Vermeil, Ill., has been offered the position of University of Idaho football coach for the 1920 season, according to announcement made this morning from the office of President Ernest H. Lindley following Kelley's recommendation by the athletic advisory committee, composed of students, faculty and graduates.

Coch Kelley was the coach of the University of Missouri eleven which won the national valley conference championship the past season. Missour's success was due to a great extent to Kelley's unbreakable defense line. While Kelley has not accepted the offer it is practically certain that he will accept according to members of the athletic advisory committee.

ASPIRIN IS SAFE WHEN GENUINE

Take Tablets Without Fear, If They Are Marked With the "Bayer Cross"

If you want the true, world-famous Aspirin, as prescribed by physicians for over eighteen years, you must ask for "Bayer Tablets of Aspirin."

The "Bayer Cross" is stamped on each tablet and appears on each package for your protection against imitations.

In each package of "Bayer Tablets of Aspirin" are sold and proper directions for cold, headache, neuralgia, toothache, earache, rheumatism, lumbago, neuritis, and for pain in general.

Handy tin boxes containing 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monacatein, Germany, Seltzylacein.

MARY PICKFORD GETS DIVORCE

Midton, Nev., March 3.—Mary Pickford, the moving picture actress, granted a divorce here Monday night. It became known today. She was separated from Owen Moore on the grounds of desertion.

The famous actress has been here since February 16 last and had established residences here prior to that time. She was accompanied in court by her mother.

STUDENT SUICIDES

BOULDER, Colo., March 3.—Despondency over ill health is believed by police today to have been the cause of the suicide of Louis Parnsworth, University of Colorado student. Parnsworth, whose home was in Cullison, Kans., after playing the piano for an hour went to his room in a lodging house and hanged himself to a bedpost with a trunk strap.

As Inducement

Don't Expect to be Cured of Fiery Skin Diseases

By Old-Times, Out of Date Methods of Treatment.

Usually those who continue to suffer from stubborn ailments are those who refuse absolutely to heed the teachings of medical science. New discoveries are being constantly made, and those who do not take advantage of the wonderful accomplishments of men of science will continue under the handicap of disease.

Your eczema, tetter, lola, pimples, acne, itchy skin eruptions, itching, burning, fiery irritation that cause so much discomfort by their irritating itching, come from a tiny disease germ in your blood, which multiplies by the millions. These germs find some weak spots where they can break through the skin and set up their attack, and if you have ever had any form of these skin disorders, you know what real torture it is.

The reason these disorders appear so stubborn and hard to get rid of is because they are not given the proper sort of treatment. In other words, the irritation and itching becomes so intense that the patient thinks only of relieving this discomfort, instead of directing his efforts toward getting rid of the cause of it all. Hence the constant use of lotions, salves, soaps and ointments can make no

SOUTH IDAHO BASKETBALL TOURNAMENT HERE THIS WEEK

Twin Falls, Gooding, Rupert, and Burley Leading Contestants for Championship in Tilts Scheduled Friday and Saturday

The fourth annual basketball tournament of the south central section of Idaho will be held in the gymnasium of the Twin Falls high school Friday and Saturday of this week.

The regular leading teams are Hite, Gooding, Burley, Rupert, and Burley. The teams are Hite, Gooding, Burley, Rupert, and Burley. The teams are Hite, Gooding, Burley, Rupert, and Burley.

The tournament is under the direction of a board of control newly elected from the principals and superintendents of the local schools in this section and is not under direct management of the local high school this year. This board will function in the control of the athletes of the local schools throughout the tournament.

The preliminary game will be played Friday afternoon and night, the semi-finals Saturday morning and night. A cup will be awarded the winners of the turkey and a second cup to the runner-up. The winning team will not only win the championship of this section of the state but will also win the honor of representing this section in the state tournament to be held at the state university at Moscow.

INSPECTION SERVICE GROWS

INSPECTION SERVICE GROWS
 Certified Inspectors by Inspectors State
 Commission of Interstate
 Shipments.

The inspection service for shipments of fruits and vegetables, started in 1917 by the bureau of markets, United States department of agriculture, has been extended to cover 150 foreign ports.

NEW YORK, March 4.—John H. Hansen, arrested here last night on an old charge of impeding the morals of a minor, was admitted to a representative of the International News Service, that he is "J. Salter."

Hansen, who gave \$500 ball to effect his release of the United States Consul Agent Jenkins in Mexico last year, which averted a crisis between Mexico and the United States.

Hansen was out on bail after the charge was "being used as a club" to cover the "little racket" for \$10,000 damages brought against him by the parents of the minor.

Hansen was first arrested in December, 1918, on charges of the Miss Wootter, wife of a New York broker, the accused Hansen of molesting her twelve year old daughter.

Hansen was out on bail after the jury had disagreed when he went to Mexico. The civil suit was filed later. Hansen was held for trial on the old charge under \$2,500 in court today. He pleaded not guilty.

Drop Due in Price of Pork and Beef

CHICAGO, March 4.—A drop to the contrary in the price of pork, and a steady in the price of beef also, is seen in a statement issued by the Chicago Live Stock Packers today. The statement says that heavy receipts of pork last fall apparently have put a stop to any further demand from Europe for some time to come.

WILL THE WEALTHY RADICAL

CHICAGO, March 4.—William Henry Lloyd, millionaire radical, and other members of the communist and communist labor parties indicted with him on charges of conspiring to overthrow the government next fiscal year, it was decided in the criminal court today. Judge George Hibel refused to quash the indictment after in motion to do so was presented by William S. Forest, chief counsel for the radicals.

- Kingford's Gloss Starch, 2 for 25c

Give Me a Friendly, Natural Hand-shake

an friendly natural tobacco. Keep you put on airs an' sauced-up tobacco for the fellow that likes nut sundæes better than home made pie—

So says a friend of ours named Velvet Joe. And he just about hits the nail on the head.

Velvet is made for men who think there's no smoke like real tobacco. If you are that sort of man, listen:

Velvet was born in old Kentucky, where more than one good thing comes from. It was raised as carefully as any other Kentucky thoroughbred. But the real secret of Velver's friendly qualities is its slow natural ageing in wooden hogsheads. Ageing in the wood never hurt anything—and least of all, tobacco.

And so we say, Velvet is good tobacco, nothing more or less. It runs second to none.

The picture of the pipe on the tin needn't keep you from rolling a jim-dandy cigarette with Velvet.

NEW JERSEY LAUNCHES FIGHT AGAINST PROHIBITION

MIDDLE WEST BURIED WITH SNOW DRIFTS AND ICICLES

Storm Turns East From Rockies on Heels of Balmey Spell

WINTRY BLASTS BRING SHOCKS

Many Towns Out Off and Traffic Paralyzed by Blizzard

CHICAGO, March 4.—A worst blizzard reported in the middle west in many years is sweeping eastward from the Rocky mountains, and will prevail throughout the middle west by night fall, according to reports received here today.

Already train service has been disrupted at Minneapolis and points west and north of here, according to telegraph reports. In a number of places trains are reported to be stuck in huge drifts. Telegraph and telephone service has been seriously interfered with and in some places entirely cut off. Several towns in the direct path of the storm have almost been completely isolated. The storm came on the heels of a balmy spell throughout the middle west which was taken for a sign that winter was over. It isn't.

DENVER, March 4.—Reports today from the San Juan district in south western Colorado stated that slow progress was being made in removing the huge drifts and snow slides that have blocked traffic in the vicinity of Durango and Silverton during the past week. Rising temperatures today aided scores of workers in opening up passages on the railroads and highways and it is believed little property will be lost from the blockade. No lives have been reported lost but considerable loss of livestock from exposure is reported.

WANT SALMON PACKERS PROSECUTED

WASHINGTON, March 3.—Criminal prosecution of salmon packers will be urged by the government fish which was applied when canned and for alleged profiteering when the salmon was returned to the packers by the war department and reconditioned by them for civilian trade, was recommended by the department of justice by the house committee investigating expenditures in the war department.

MAJORS PLANS FOR INITIAL A. MEETING

Headquarters Established at Parish Hall. Look Forward to Work.

Arrangements are being rapidly completed for the formal opening of the Salvation Army work in Twin Falls, which will take place on Saturday night.

Railway Strike Depends On Mutiny Meeting Today By M. W. and Shop Men

Representatives of 400,000 Employees Will Decide Whether or Not to Override the Promises of Chiefs to Wilson

CHICAGO, March 4.—The conference of 600 delegates of the Brotherhood of Maintenance of Way and Shop Laborers, which purposed to both the grand body officers and possibly call a strike, will convene this afternoon on the receipt of a telegram from Washington where the union heads and railroad representatives are in conference on wages. The source and contents of the telegram were not made public, but it was ascertained that the message contained information which may result in ending all strike peril. "The conference will meet again Monday."

CHICAGO, March 4.—On the outcome of a meeting held here today rests a decision whether 400,000 railroad workers of the country will go on strike and seriously interfere with the operation of every railroad system in the country.

Defying their grand lodge officers, 600 representatives of the United Brotherhood of Maintenance of Way Men and Railroad Shop Laborers met to consider whether they would override their chiefs in forcing their demands on the railroad companies of a promise made by the union chiefs to President Wilson that a strike would occur.

"The men are growing weary of never-kept promises," said W. M. McCormick, of the Cotton Belt railway. "I am holding my men in check with difficulty. Most maintenance of way men get less than \$2 a day, making them the least paid of railway employees."

Among the officials attending the conference are B. W. Fredenburg, Illinois Central Railroad, of Indianapolis; C. W. Dickinson, Houston & Texas Central, Hempstead, Tex.; T. J. Capen, International Chairman, International Great Northern, Denver, Ariz.; T. L. H. Olson, Texas & Pacific, Dallas, Tex.; and J. A. Marquette of Texas.

WASHINGTON, March 4.—The international presidents of organizations in the metal trades department of the American Federation of Labor, representing 400,000 union ship workers, have asked for a conference with President Wilson to learn the government's future attitude on wage agreements in ship yards, it was learned today.

Lodge Attacks Shantung Section Of Peace Treaty

WASHINGTON, March 4.—Surrender of the Chinese province of Shantung to Japan was denounced as an "infamy and a crime" by Senator Hiram Woodruff of Missouri today, when debate on the peace treaty was resumed.

The sixth Lodge reservation, that withholding the assent of the United States to the turning over of Shantung to Japan by the Versailles peace conference, was again under consideration.

"I am unwilling the United States should assent to and ratify the reservation," Senator Woodruff declared, Missouri, said.

"By our action we should let the whole world know that we demand Shantung be turned back to China and that we refuse to be guilty of any

Dead Hand Guides Train Into Crash Causing 4 Deaths

PHILADELPHIA, March 4.—A blizzard which hit the city today drove a train into the Philadelphia river, crash Central Railroad of New Jersey engine, past a danger signal and into a local train, near here last night, causing four deaths. The engineer, William S. Bell, found dead in his crushed cab, was thought to have been killed by a falling boiler in the crash. An investigation to determine this is now under way.

SON YAWB GOVERNMENT COMMISSION LONDON, March 4.—The British government today announced that it had received a report from the commission

EMPLOYERS UNWITING WITH UNIONS IN POCATELLO FOR GOOD OF CITY

Form Club to Exchange Views of Capital and Labor on Matters Affecting Both

POCATELLO, March 4.—At a meeting of the representatives of the Employers Association and of the unions of the city, a temporary organization was decided to be known as the "Bligger, Better, Bigger Pocatello Club." Mayor W. T. Wagner is acting as temporary chairman.

Two secretaries were appointed. E. E. Lawin to represent the employers and M. Johnson the unions.

The temporary organization will be referred to the separate unions for approval or rejection and will become a permanent body if ratified by the unions. The purpose of it will be to afford an organization in which capital and labor can exchange views on all questions in which both are interested.

Another meeting has been called for March 10, at which time the results of the unions' actions will be made known.

OPENING OF LANDS, SOLDIER PREFERENCE, ADVOCATED FOR SUPPORT OF SMITH MEASURE

WASHINGTON, March 4.—Opening of public lands of the nation to soldiers with preferential entry rights was advocated today before the house ways and means committee, having soldier aid legislation in charge.

J. W. Ross of Berkeley, California, reclamation engineer, appeared before the committee on behalf of the sixth (Idaho) land bill which provides preferential rights for soldiers in retaining waste lands for development. The bill provides for a \$250,000,000 bond issue to be sold in ten years for the reclaiming of land.

DOUGLASS CASE IS CONTINUED

Embezcalment Suit Heard in Probate Court Today—Gooding Files Suit for Possession

The case of the state vs. H. L. Douglass, former manager of the Citizens Electric company, for alleged embezcalment of \$2500 of the company's funds, which was begun yesterday in probate court before Judge O. P. Duvall, was continued today by Attorney H. C. Mills in acting for the defendant with prosecuting Attorney F. J. Stephan representing the state. H. D. Kenney, the complainant, withdrew his case, took the stand this morning.

F. R. Gooding filed suit in district court this morning against Joseph Edwards seeking to recover \$600 for a Chevrolet car. Attorney H. C. Mills represents the plaintiff.

Nitti Confident Adriatic 'Instab' Will Be Solved

LONDON, March 4.—"I am positive that we shall find a way out of the Adriatic difficulty and that Italian King Jugoslav will be loyal friend to the future peace," Premier Nitti said in an interview printed in the Manchester Guardian today.

CONSIDER PROBE OF PALMER

WASHINGTON, March 4.—A special inquiry into the action of Attorney General Palmer in the case of the "Lafayette" was suggested today by the committee on the subject.

ATTACKS CONSTITUTIONALITY OF AMENDMENT AND VOLSTEAD ACT BEFORE U. S. SUPREME COURT

Claims Congress Has No Power to Regulate Morals and Conduct, or Destroy Rights of the States—New York Also Active.

WASHINGTON, March 4.—The state of New Jersey filed today in the United States supreme court a bill of complaint asking that the prohibition amendment and the Volstead enforcement act be declared null and void. Joseph A. Lanigan, assistant attorney general of New Jersey, filed the bill of complaint which was drawn by Attorney General McCran by the authority of Governor Edwards, elected on a "wet" platform last November. One of the objects of the suit is to prevent United States Attorney General Palmer and Internal Revenue Commissioner Roper from enforcing the Volstead act in New Jersey. Attorney General McCran will appear in supreme court Monday to proceed with the suit.

New Jersey charges that the eighteenth amendment is null and void for these reasons:

Drys Win Test Vote Over Liquor Issue In Congress

WASHINGTON, March 4.—A test vote in the house today on the wet-dry issue resulted in a decisive victory for the drys, 224 to 86.

The vote came over the "vicious" objection of the drys, who evidently wanted to escape a record vote on a New Jersey to secure the retention of prohibition bill back to the committee with instructions to strike out.

The resolution also provides for the repeal on June 30 next of the Volstead enforcement law. It was possible to get a veto only after considerable opposition. The measure was passed to Speaker Gillett to declare the proceedings out of order, but the speaker refused to do so. The representative of New York moved for a vote and it was taken.

URGES FRANCE AWFUL, AWFUL HUSTLE TRADE WITH GERMANY LET'S DECLARE WAR ON SWISS

Otherwise Will Be Outstripped by Ailes, declares Paris News-papers, Matin.

PARIS, March 4.—The Matin demands that France adopt a definite attitude towards Russia and Germany at once otherwise, says the newspaper, the French will be commercially outstripped by England and the United States. The Matin advised France to participate in economic reconstruction of Germany and Russia, but only on the condition that guarantees are given that France will be paid the reparations due her.

The Italian press continues to accuse the French of not supporting the Greek claims in the Adriatic, while the Greeks are angry because the French favored the retention of the Dardanelles. The French position is the French satisfaction for the Germans of the "peace terms" and the British of the "peace terms" and the French satisfaction for the Germans of the "peace terms" and the British of the "peace terms."

The controversy arose over Minister of Finance of the Republic of Ireland, James L. Conboy, who is a member of the family of the late John Bull. The judge demanded \$1000 damages from the Swiss legation. Being a representative of a foreign government, Borer was immune from arrest and offered to pay \$500 to dispose of the annoyance.

"It will be very silly," says a representative of the Berlin legation, "to sue the Swiss legation for damages for the loss of a portrait of the late John Bull. The Swiss legation is not responsible for the loss of the portrait."

Arraign All Socialists. As "Perpetual Traitors,"

ALBANY, N. Y., March 4.—Socialists of the United States were today arraigned as "perpetual traitors" and informed that their party, not alone the five men elected to the New York state assembly by them and today suspended on trial for disloyalty by Martin Conboy, summing up for the state in the socialist inquiry.

Members of the assembly judiciary committee selected yesterday climbed aboard the most bitter and acrimonious indictment of the socialist party as a group of men "in but not of the United States," intending to resist the national honor.

"These five men," declared Conboy "will suffer for the official recognition, platform and declaration of the socialist party of America as declared in statements from the party's accepted leaders and for their participation in the party's disloyal and treasonable conduct."

He declared the socialist party a "disloyal party composed of perpetual traitors" and charged "socialists in the United States that formed a Third Internationale and had cast their lot with the Moscow Internationale."

Census Figures Are Announced

WASHINGTON, March 4.—Preliminary population figures were announced today by the census bureau as follows:

Illinois, 1920 population 3,929,210; 1910 population 3,678,789; increase 250,421; 6.8 per cent increase; 1900 population 2,238,600.
Florida, 1920 population 763,110; 1910 population 693,000; increase 70,110; 10.1 per cent increase; 1910 population 561,300.
Montana, 1920 population 32,261; 1910 population 20,640; increase 11,621; 56.3 per cent increase; 1910 population 10,000.
Cedar Rapids, Ia., 1920 population 44,548; 1910 population 32,811; increase 11,737; 35.8 per cent increase; 1910 population 21,074.
San Francisco, 1920 population 575,110; 1910 population 425,100; increase 150,010; 35.3 per cent increase; 1910 population 325,100.

FEEDERS' DAY EXCURSION IS NOW ARRANGED

Stockmen and Bankers Will See
Results of Experiments
In Canyon County

CALDWELL, March 4.—A "feeders' day" excursion to be held March 17, has been arranged in cooperation with the Canyon county farm bureau and the Caldwell Commercial club. It will offer like stockmen and bankers a first-hand opportunity to study the results of winter's experimental feeding of steers and yearlings at the Caldwell station, and to investigate the opportunities for winter-feeding offered by Canyon county farms.

Stockmen, bankers and all other interested people are invited by the university, county and town from all sections of the state, and are expected especially from those sections in which feeding conditions and available feeds are similar to those in the Boise valley.

Guests will assemble in Caldwell on the morning of March 17, in time to start at 9 o'clock on an automobile excursion, under auspices of the farm bureau and the commercial club, to visit several steer feeding farms in the Boise valley. Arriving at Nampa at noon, they will stop for lunch and informal speaking, at which C. B. Ross, president of the state farm bureau, will be the toastmaster.

The party will reach the Caldwell station of the university experiment station at 2 o'clock where to study slight lots of steers that have been fed through the winter, on different rations, under direction of J. E. Morby of the experiment station staff. The visit to the steer pens will be followed by brief talks on farming and steer feeding, after which the party will return to Caldwell for a stockmen's program in the evening. Dean E. J. Dilling of the agricultural college of the state university will preside.

Prominent cattle men and sheep men of the state already have signified their intention of participating in the excursion and studying the feeding experiment. Short-horn sales will be held at Caldwell by the Boise Valley Short-horn Growers' association, March 18 and 19, and a Short-horn banquet will be held on the evening of March 18. The entire series of events was planned together, it is assumed, so as to constitute a program of special attractiveness for stockmen.

The winter's experiment at the experiment farm, 26 steers were fed on different rations in eight lots of 12 steers each, in an effort to ascertain the feeding values, with relation to expense, of different combinations of hay, silage and grain. This experiment is only the first of a series of larger experiments which the university announces it will undertake next year and in years following. Tests already have been prepared for the feeding of sheep, and a sheep experiment will be added to the steer experiment next winter.

Of the 26 steers, one lot was fed on long alfalfa hay, while the other lots received other foods, as follows: cut alfalfa hay; long alfalfa hay and silage; cut alfalfa hay and silage; long alfalfa hay and silage; long alfalfa hay; silage and feed; cut alfalfa hay, silage and five pounds of barley; long alfalfa hay and eight pounds of barley; cut alfalfa hay and eight pounds of barley.

What yearlings were fed with the waste from the feed lots as another phase of the experiment.

Rogerson Items

ROGERSON, March 4.—Mr. and Mrs. Lincoln Curtis of their arrival on Friday for a short visit with the Jerome Healey family. They left on Saturday, accompanied by Mrs. Healey for House Creek, to be with the Joe Cardie family during their convalescence from influenza.

Mr. Gilbert Hall of Hollister spent Friday in Rogerson in the interest of business matters.

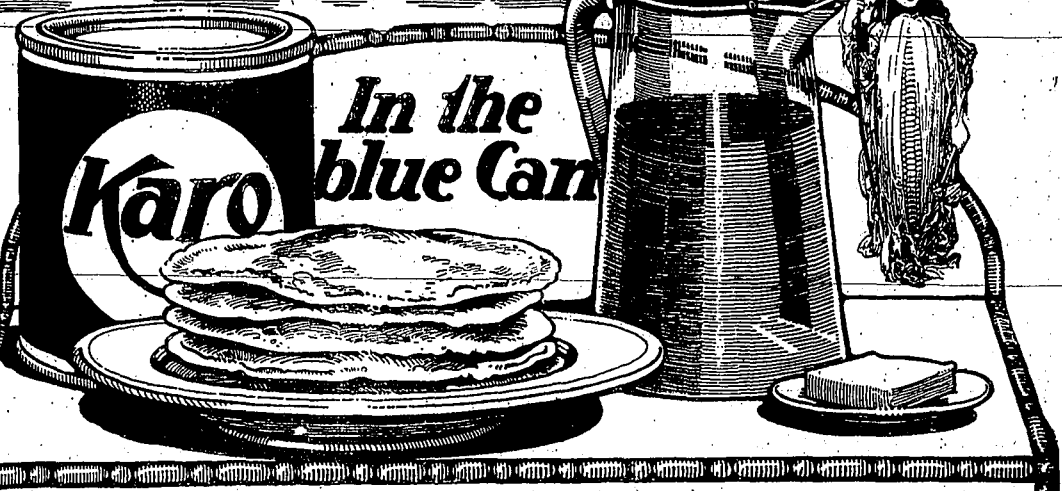

Mrs. Ella Kimbrough left on Friday's train for a several day visit with relatives in Twin Falls.

A. E. Caldwell, Mr. Wallace of Amsterdam were business visitors to Rogerson who spent Friday in Rogerson transacting business.

Mr. Gamble and family arrived from Amsterdam Falls on Friday to spend a short time in Rogerson, where Mr. Gamble is doing duty as relief operator at the depot, during Mr. Dean's illness.

Mr. Ed. Pastoor was an Amsterdam business visitor that spent Friday in Rogerson.

Luelle V. Dean of Amsterdam transacted business in Rogerson on Friday. John Johnson and family spent Saturday and Sunday in Twin Falls on a combined business and pleasure trip.

In the
blue Can

Don't worry about the high price of jams, jellies and preserves. Serve Karo, the Great American Sweet. Buy it by the dozen cans. An important message. Read it!

AMONG the twenty odd million American Homes there is probably not a single one where Karo is not served in some manner—for breakfast, for dinner or for supper.

During these days of high prices, Karo has become another word for economy. Thousands of thoughtful housewives have learned that Blue Label Karo is not only a delicious spread for pancakes, but answers every purpose where a sweet is needed.

Instead of paying the present high prices for jams, jellies and preserves—serve Blue Label Karo on sliced bread, toast, pancakes or waffles.

Do as the wise cooks are now doing: Use Karo to stew dried fruit, prunes; use it for candied sweet potatoes, brown bread, muffins, coffee cake and puddings.

Karo Home-made Candy is the best for children. It is wholesome, easy to make, costs much less than store candy.

Mothers give children Blue Label Karo and sliced bread because it satisfies Nature's craving for sweets and takes the place of candy.

IMPORTANT

There never was such a demand for Blue Label Karo as today. Housewives everywhere are buying it by the dozen cans. Ask your grocer the price per dozen. For economy's sake buy it this way.

Jerome Healey spent Saturday in Twin Falls in the interest of business.
Wang Whitfield is among the Rogerson business visitors that in spending a short time in Twin Falls.
Entertainment Club—Mrs. Chas. Perry was hostess to the Blue Lakes Boulevard club Friday afternoon. After a business session the time was spent

with fancy work and conversation with delicious refreshments at the close of the afternoon.
Guests present were: Mrs. Jero Hines, Mrs. Campbell, Mrs. Chas. Hargus, Mrs. Carstays, Mrs. J. E. Hony, Mrs. E. A. Borles, Mrs. V. H. Place, Mrs. Frank Brown, Mrs. Frank Miller, Mrs. Bruce Statte, Mrs. Kinneer and Mrs. Hetherford.
PROPOSES SALE OF SHIPS.
WASHINGTON, March 4.—The sale of government owned ships by the shipping board has promptly so many a short time in Twin Falls.
Entertainment Club—Mrs. Chas. Perry was hostess to the Blue Lakes Boulevard club Friday afternoon. After a business session the time was spent

Senator Edge was one of the members of the committee on commerce who voted against a favorable report on Senator Jones' bill to prohibit the sale of former German ships "except at a breeder's lot, provided by law."
TURNS AND REINS WILL NOT ALLY
LONDON, March 4.—"An alliance between the Russian bolsheviks and the Turks is most improbable." The Constantinople correspondent of the Daily Express telegraphed today. His message continued: "Frontier Turks are denouncing the Sheik ul Islam denouncing bolshevism as being copitry to Islam."
The correspondent said that care-

ful inquiry among British refugees from southern Russia, establishing that the recent soviet advance near the Black Sea, the Caspian Sea and the Bos of Arax "was not accompanied by more than the usual amount of shooting and pillage." The British fugitives declare that the Russian volunteer army is worse than the soviet army.
RESERVE BOARD CHIEF RESIGNS.
WASHINGTON, March 4.—Albert Strauss of New York, vice governor of the federal reserve board, tendered his resignation to President Wilson today.
His term was to have expired in October, 1923.

REPORT BARGE SUNK
MOBILE, Ala., March 4.—The tanker Calvert of the Gulf Refining company arriving here reports that the barge Manago, which she was towing, sank in the gulf of Mexico off Mobile bay yesterday and drowned two men. The Calvert is from Port Arthur. The barge Maracy is also reported bottom up off Mobile bay. Plans when are entertained for the Dutch tug Aink.
BOONTS CALIFORNIA CLIMATE
NEW YORK, March 4.—California's climate is the best in the world, according to Don Enrique Diaz, Pan-

man consular attaché at London, who stopped here today enroute to the west. "It came to America for my health and intend to spend several months in California. British climate and continental climate cannot compare with California's wonderful weather," he said.
LOWDEN PETITION FILED
INDIANAPOLIS, Ind., March 4.—Petition to place the name of Governor Frank O. Lowden of Illinois on the republican ballot as a candidate for the national president in the Indiana preferential primary was filed with the secretary of state today.

SYRUP OF FIGS
CHILD'S LAXATIVE

Look at tongue! Remove poisons from stomach, liver and bowels

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or heat for the little stomach, liver and bowels. Call down for the delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California,"

LONG TERM CREDIT SEEN AS AID TO FOREIGN TRADE
BOSTON, March 4.—"France is recovering from the ravages of war with amazing rapidity and is more eager than ever to resume normal business relations with America," declared C. D. Snow, who has just returned from Paris where he has been commercial attaché for the United States Bureau of foreign and domestic commerce, since July, 1918. Snow gives some practical information to exporters on the French outlook and he suggests a way of "getting around the exchange problem."

"Undoubtedly the French franc has slowed down business with France," said Snow, "since the more francs are required to buy an American dollar, the more prohibitive it is for the French to place orders."

"Our manufacturers can obviate this obstacle by giving long term credits; that would be to defer payment with interest, for a few years hence. This would not be a great gamble on their part, since the manufacturer would require payment in dollars."

Daily and Sunday Times, \$7.00.

CHILDREN TO BE TAUGHT FRENCH

METZ, March 4.—When the Germans were finally forced to return Alsace and Lorraine to France they left behind them one of the characteristic marks of the Teutonic system of imposing their own culture on conquered lands. Although practically every grown person in the restored provinces is bilingual, speaking French and German, besides the local dialect the children speak only the harsh, natural tongue of the respective provinces. French teachers and, in fact, the entire administration of Alsace-Lorraine are now endeavoring to inculcate French civilization into their young pupils.

Alphonse Daudet's story, "The Last Class," is a classic in French literature. It is the pathetic tale of a French teacher in an elementary school of Alsace in the latter days of the struggle. On the very day of the evacuation of Alsace, following the signing of the treaty of Frankfurt in 1871, the teacher was taking leave of the school. He had just finished the history of France, the cause of the war and the tragic conclusion. Citing the lesson by which the teacher had been taught the words "Vive la France" as the German entered to take possession.

When M. Millerand, now premier, took charge of the administration of Alsace-Lorraine one of his first tasks was to organize a system of education which, while borrowing nothing from the oppressive methods in vogue under the rule of the Germans, would bring back into the fold of French civilization the new generation of the province at Metz. The minister of the Department of the Moselle, who is taking a prominent part in the work, explained the organization as follows: "The only assistance we have found in compulsory pupils daily in groups all students who have left French schools since 1914. Evening courses in French language, history and literature for these students have been started. These boys and girls are discovering a new France, a France vastly different from that pictured for them by the German teachers, who depicted all their energy to demonstrating that France was decadent and that the only action on the globe worth anything was German."

"We are gathering together all available French books to stock the schools and public libraries with the best in French literature, which the Germans, of course, took pains to exclude. We intend also to make use of the 'movies' to counteract the effect of these five years during which French was 'verboten.'"

The Times job printing department is the regular recipient of the first class work—at reasonable prices.

CLOTHES TO WEAR

Apparel Which is Becoming to Some; Not to Others.

Do Not Follow Fashion Too Closely in Dark Lengths, Advises Fashion Writer.

Don't wear a skirt with drooping of long fringe that swags the heavy inn grass skirt, advises a fashion writer in the Buffalo Express. Now there are a few women who have it, and who have it foolishly insisting almost to a passion for a fringe. They are convinced that it is the things that make them look slender. Well, it may sometimes, but remember that the long fringe about the hips and thighs has way of making as you walk. It necessitates what you may regard as a very tiresome and awkward gait. What is probably nothing more nor less than a waddle.

Don't follow the fashion too closely in dark length. Short skirts were never meant for you—that is, very short skirts. On the other hand, if you are a large woman—all as well as heavily built—the skirt that is very long will make you look larger than you are. The best thing for you to do is to stick to a skirt that is about enough to look smart and slim, but not so short as to display the too ample utility of your legs.

The double-breasted coat or suit gives the appearance of greater width to the chest and bust than the single-breasted model. For this reason it is better to select the latter sort. Large or arching buttocks, on the other hand, are certainly not contributory to the appearance of slenderness.

Don't imagine that black satin is always your best selection. Most high and your entire outfit seems to be tinted forward on a very small part of the ball of your foot, then the effect is truly painful.

ATTRACTIVE-HAT FOR SPRING

This model, an American fashion, is a fine Italian Milan soft, flexible, well-constructed, in dark shades for spring wear.

ANGORA CLOTH IS POPULAR

Favorite Combination Method is to Make Skirt of Silk and Trim With Bands.

When wool or knitted silk fabric is combined with angora, a favorite method is to make the skirt from fabric and trim it with wool or angora. The entire coat, or skirt to be of the wool fabric. White is the best color for this. (Take first place, darker colors are not ignored. One striking costume recently worn by a woman in a dark shade of angora in Indian or autumn colors worn in broad stripes.)

Angora cloth is not only warm, but it is also very light and soft. It is a favorite material for sport apparel. Last season it appeared in the separate articles previously mentioned. It is a favorite material for winter wear, and is on the go in the winter. This year it has entered the list of ready-to-wear with a vengeance.

The sport frock that consists of a single bodice and skirt, is the season's favorite. It is being worn in all sorts of attractive silk and wool fabrics for wear at the smallest winter resort.

FARMER-LABOR Mass Meeting

TWIN FALLS, IDAHO

W. P. WHITAKER
UNION MAYOR OF POCAHELLO

Will Address the Farmer-Labor Mass Meeting at the **Lavering Theatre** March 7. at 1:30 p. m.

Bring your wives and daughters and have them join the Woman's International Label League.

Railroad men are always welcome at the Twin Falls Labor-Farmers Mass Meetings. Everybody come.

The Woman's International Union Label League

BY THE COMMITTEE

FARMS ARE STILL SELLING IN ALBERTA

Last week nine quarter sections of Canadian-Pacific Railway lands were bought by six Twin Falls farmers.

There's a reason. These men are keen experienced farmers who know value of irrigated land. They knew that irrigated land that will raise 4 tons of alfalfa hay, 15 bushels alfalfa seed, about the same of alfalfa and red clover, ten to twenty bushels of flax, 50 bushels hard wheat, oats, potatoes and sugar beets. In fact, an abundance of almost anything is worth more than \$200 per acre. And yet this choice irrigated land is being sold for \$50 per acre—\$5 down, second payment due in 4 years—20 years to pay—interest 2 percent for 2 years—then 6 on balance—the company will also loan \$2000 for improvements on the same rate of pay.

LET HIM THAT IS WITHOUT SIN

(By REV. W. A. MOORE)

Appropos to the much talked of incident of fourteen Twin Falls young people spending Saturday night in an otherwise unoccupied home I am moved to "take my pen in hand." Somewhere in a most wonderful Book, old and oft neglected, that Great Lover of all humanity said something about sin and the first stone. Acceusers had brought before Him a woman whom THEY SAID had committed a very great sin. It is to be supposed they knew the facts for surely they would not accuse a woman of such thing without being absolutely certain. However, that Lover of humanity, "knew what was in man" and, with unerring aim, sent a shot into that crowd of accusers that compelled them to think of their own indiscretions and sins. He said, quietly, "Let him that is without sin cast the first stone." Strange, but true, when the Lover of all looked up from His writing in the sand, every accuser had slunk away. It is possible that each one was hastening to make two laws of the second kind of his life together no one would ever see what was written, concerning one certain day of his earlier life. I would not unjustly accuse my fellow townsmen but I cannot but question if not to materiality, affect the Twin Falls census report if the complete record of the recording angel were to be made public. Do all the people who are saying harsh things this week really want the entire record opened up? It were well to remember, "Let him that is without sin cast the first stone." Of course our young people were indiscreet. Some may have been worse. God knows—and they. Of this I am sure, those of the fourteen who have come to me for counsel are not hard-hearted criminals but young people who are traveling, for the first time, the difficult road to maturity; young people who, given a good example by those who have already passed over the road well, one of these days, be good citizens in our great community. Twin Falls is shocked and pained at the indiscretion but we have not lost confidence in our young people. They are our hope and for the most part our joy. They are doing quite as well as some of the rest of us did some years ago. "Let him that is without sin cast the first stone."

A thoughtful feminine is sufficient to find fault with young people but it requires a full mind, and well trained brain to suggest and carry out a plan to meet the situation. This article is intended only to remind ourselves that those who are "without sin are not the first stone," and not to offer a solution to our problems. AND THERE ARE PROBLEMS.
However, I venture one suggestion: Suppose 100 young couples were at the dance Saturday night. Suppose a duty luncheon had been arranged in 10 Twin Falls homes (guests at home) and a cordial invitation extended to the young people to come to those homes at 11 o'clock—to eat, chat and to be at their own home at 12. If 20 Twin Falls homes were awake to the possibility just now there would be fewer Saturday night episodes. This is not to encourage the dance. As conducted today it is a bad thing. We must find something better. Since the influence of the dancing hours is to pull down morals, why not use one hour to save from the wreckage as much as possible rather than to sit idly by and watch the while wrecked go over the precipice and then talk all week about HOW FAR THEY FELL? Remember it was Jesus our great Savior who said, "Let him that is without sin cast the first stone."

WORTH READING

In this column today appears an expression from Rev. W. A. Moore, which may find an echo in the thoughts of every believer in fair play. To us it represents the essence of Christian charity as well as a breadth of vision and of heart.

It is well to remember that there is a line where justice ends and persecution begins. In giving official punishment and publicity to the occurrence in question it would seem that public duty had been fulfilled and the public fully protected. Whatever else there is to say about the matter should certainly be regulated by the sort of consistency described by Rev. Moore. And who is there to say it?

AMBASSADOR BOWEN BUILDING
WASHINGTON, March 4.—The buildings occupied by the American consular general at Zurich, Switzerland, was partly destroyed last night by an anarchist bombing. The United States department was advised today.
No one was injured by the explosion.
The dispatch stated that the explosion was attributed to anarchistic activities.

SEVERAL HURT IN EXPLOSION
CLEVELAND, March 4.—Several persons were injured by the explosion of gasoline in a warehouse near the Owen Tires and Hubber plant at 1001 Erie street this morning. Workmen believed to be buried in the ruins of the warehouse but confirmation of the belief was delayed by flames which destroyed the explosion.

WASHINGTONIANS AS PRODUCERS OF FOOD

Striking Example of What May Be Accomplished.
Three Hundred Families in District Supplied Twice With Fresh Vegetables During Winter, and Stored Some for Winter.
(Prepared by the United States Department of Agriculture.)
One of the most striking examples of what may be accomplished in food production is that of the Washington Park home gardens, located in the district of Columbia almost within the shadow of the Washington monument. During the year just closed there were 300 gardens, supported by the United States department of agriculture, each 30 feet by 100 feet in size, and containing in all approximately 35 acres. According to reports recently received from the gardeners, the total annual production of these gardens gave an average return of \$85 a garden, or over \$25,500 for the 300 gardens. This means that not less than 250 families living in the district of Columbia not only have supplied their public with fresh vegetables throughout the winter, but stored a considerable supply of food for winter use. In addition,

CRIMSON CLOVER CROP IMPORTANT

Special Interest Attaches to Plowing Under Green Manure and Saving of Seed.
PREPARE WELL IN ADVANCE
Material Must Be Given Chance to Ripen Before It is Planted.
(Prepared by the United States Department of Agriculture.)
May is the month when a large part of the crimson clover crop is harvested. Special interest attaches to the plowing under of the green manure because of the high price of fertilizer and the second season of the high price of seed. Washover man is in the hands of the crop, preparation should be made well in advance of the harvest season, and special attention should be given to the seed which is to follow the crimson clover.
Crimson clover, like any green manure crop, should be plowed under at least two weeks before the following crop is planted. If plowing is made on the freely tilled mass of leaves and stems, the results are likely to be worse than if the green manure had been plowed under in the first week of May. Care in the crop must commonly be used after crimson clover, as it need not be planted until the first of June.

Some of the best of the Washington Park home gardens on Public Park Lands in National Capital.

approximately 1,200 people enjoyed outdoor exercise and beautiful recreation. This is but one instance where the city home garden has resulted both in the production of large quantities of food and in providing the people with outdoor life exercise. The need for large gardens will be just as great in 1919 as it was in 1918. It is the duty of the city to perfect organizations and secure land on which to plant gardens next year.

STOCK NEEDS GOOD HOUSING

There Are Two Extremes Farmers Should Avoid—Cheap and Overcrowded.
Farmers should use a great deal of care in housing their animals at this time of the year," says Dr. K. W. Stenator of the agricultural extension department of Iowa state college.
There are two extremes in housing that many farmers travel. One extreme is to crowd and tight stocks of barns which have poor ventilation and are too warm at night. When the animals are turned out in the morning they are in great danger that they will take pneumonia.
The other extreme is poorly built buildings, and that this with specifications high above the ground. The cold winds blow into and through such barns at night and cause pneumonia. Many farmers mistake pneumonia for influenza or cholera.

GIVE SHEEP GOOD ATTENTION

Penicillin Should Be Used and Dry as Moist or Fermenting Manure Will Cause Trouble.
Keep the sheep pen level and dry—moist or fermenting manure is the cause of many troubles. After the pens are cleaned, distill with plaster and spread down a thin coat of dry cow manure. Just enough plaster should be spread to keep the sheep dry and comfortable. Have a wide door hung on rollers—opening out into the yard. A narrow set door opens—and may cause the injury of one or more eyes of lamb.
Insulate pen regularly feeding to be at hand and the flock must be attended that the stronger will not get more than their share of feed. It is and for them as for the weaker. The latter have at least a good appetite, the former often surfeited and fall off in condition accordingly.

SILOS INCREASING RAPIDLY

Becoming Necessary on Every Farm in Pennsylvania—Largest Cost in Production.
Statistical information recently collected by the bureau of statistics, Pennsylvania department of agriculture, shows that approximately 29 percent of 4,627 farmers in that state are now using silos. The number one year ago was estimated at 25,000.

HELPS APPEARANCE OF FARM

Paint Does Not Make Beauty, but Is Good Index to Efficiency of the Owner.
A coat of paint does not "make" farm buildings, no more than the clothes make the man, but does add to the appearance of the farm. The efficiency of the owner.

SENATE ADOPTS REPORT ON VOTE

WASHINGTON, March 3.—By a vote of 77 to 33 the senate today adopted the conference report on the second deficiency bill from which was allocated an appropriation of \$5,000,000 for repairs to vessels stationed at the country's navy yards.

THOUSANDS OF WILD ANIMALS DESTROYED

At Least \$5,000,000 Saved to Farmers and Stockmen.
Marked Decrease in Number of Coyotes Followed by Corresponding Decrease in Loss of Sheep, Cattle, Pigs and Poultry.
(Prepared by the United States Department of Agriculture.)
Taking the estimates of farmers and stockmen themselves, there has been saved to them during the past year not less than \$5,000,000 from the hunting of predatory wild animals by the United States department of agriculture. In cooperation with the states. The work is done by the bureau of biological survey and such agencies as are designated by the various states. During the past fiscal year about 22,000 wild animals were killed under the direction of the biological survey by a force of between 400 and 500 skilled hunters. Individuals as well as regular hunters were killed by poisoning, though no actual count was made of animals thus destroyed.
Extensive poisoning operations were conducted in the great sheep-grazing section of arid Colorado, New Mexico, New Mexico, Utah, and Wyoming. This was followed by a marked decrease in the number of coyotes, particularly with a corresponding decrease in the losses of sheep, cattle,

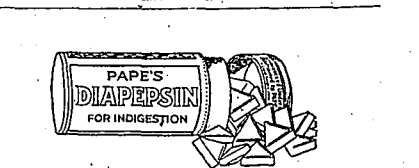

They have been quite sick the past week but is much improved at this writing.
Mrs. Malloy and son of Twin Falls were Saturday night and Sunday visitors at the J. P. Malloy home.
Mr. and Mrs. J. L. Edwards and Mrs. H. G. Munyon and son, Fred and Ethel Baker were upper guests at the Earl Munson home Saturday night.
Mrs. J. A. Francis was a Sunday afternoon visitor of Mrs. Wm. McCann, Angus Lucille Murray, Helen and Anna Klus, Carl Baker, Fred D. Kilgus, Cleo Klus, Edwin Johnson and Harry Roberson spent Sunday evening at McCann's.
Mrs. L. H. Poppe motored to Twin Falls Thursday for a short shopping tour and a visit with friends.
Mr. and Mrs. A. A. Trimm were in Twin Falls Thursday afternoon on a business trip.
Mrs. Albert Hansen spent Thursday afternoon here.
Mrs. Grace McClintock was shopping in Twin Falls Wednesday also she visited friends there.
Mr. and Mrs. J. A. Francis, a brother, Mrs. J. L. McCann and son, arrived in Twin Falls Friday. They have been here since they left from Mrs. Francis' parents. They came to Idaho from Fort Worth, Texas, where they have lived for the past 2 years.

Big Horse and Mule Sale

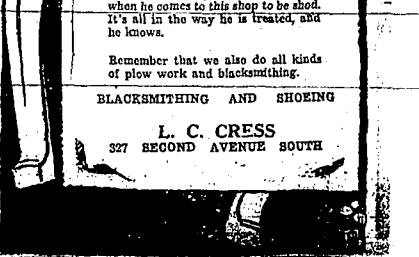

At McMaster's Barn, Twin Falls Saturday, March 6 COMMENCING AT 1 P. M.

We all realize that there are more horses on the Twin Falls tract than can be "used here, and some of those horses have to be shipped. I have been cast and arranged to have several buyers here on the above date. We will have one carload of our good mules as ever sold on the tract. These mules I bought last fall in the east, also a lot of good horses. We are asking the public to bring in your good surplus horses and get them sold. We would like at this sale 100 horses.
Terms of this sale, cash.

A Good Place to Buy. A Good Place to Sell.
E. J. Haven and J. W. Haven
Managers and Auctioneers

ANIMAL FOOD IS ESSENTIAL

Farmers Make Mistake in Neglecting Any of Elements in Ration Stimulating Eggs.
Many poultry flocks which receive an abundance of fine quality grain do not lay many eggs in the winter due to a lack of animal food like sour milk, buttermilk or beef scraps. Many experiments by practical farmers prove the value of both beef scraps and sour milk in the hen's ration. At the present price of grain and eggs the farmer who handles poultry can not afford any of the elements in the ration which enable the hen to pay for her feed.
EXCELLENT FEED FOR SHEEP
Ewes Thrive on Three to Five Pounds of Silage Daily, With Alfalfa as Roughage.
An ideal winter feed for breeding ewes is three to five pounds per day of corn silage to each ewe, and what alfalfa hay they will eat up clean. The silage should be made from well-matured, well-cured corn.
The Times job printing department is thoroughly equipped to do first class work—on reasonable prices.

INSANITY IN N. Y. PRISON IS 'J. SALTER'

Old Immoral Charge Revived in Case of Man Whose Money Averted a War

NEW YORK, March 4.—John H. Hansen, arrested here last night on an old charge of insanity, the more so of a lunatic, today admitted to a representative of the International News Service, that he is J. Salter Hansen, 37, who gave \$500,000 to the release of the United States Consul, Agent Jenkins in Mexico last year, which averted a crisis between Mexico and the United States.

Hansen declared he had put up the \$500,000 from purely personal motives and denied that the Mexican government had influenced him. "I never saw Jenkins in my life," he added, "and I have no diplomatic connections with any government. I was asked to pay the bail when I saw war hearing between Mexico and the United States. My patriotism compelled me to prevent a conflict."

He also declared that Jenkins had been "justly arrested." He then added that his act of furnishing bail had brought about his arrest here last night. He blamed Standard Oil Company officials, saying "my arrest on this old charge, that was previously dropped, and the Jenkins trial, was caused by the Standard Oil Company, with great interests in Mexico in its back of it."

Hansen was being used as a club to compel him to settle a civil suit for \$25,000 damages brought against him by the parents of his youngest son. Hansen was first arrested in December, 1918, on complaint of Mrs. Mary Warner, wife of a New York banker, who accused Hansen of murdering her twelve year old daughter in a motion picture theater.

Hansen was out on bail after the jury disagreed with the verdict in Mexico. The civil suit was filed later. Hansen was held for trial on the old charge under \$2,500 in court today. He pleaded not guilty.

Drop Due in Price of Pork and Beef

CHICAGO, March 4.—A drop in the consumer in the price of pork, and possibly in the price of beef also, is seen in a statement issued by the Institute of Meat Packers today. The statement says that "heavy shipments of pork last fall apparently have put a cap on any further demand from Europe for some time to come." This is believed, the keeping at home of the pork supply will cause a price decline through operations of the law of supply and demand.

BURST AGAINST I. W. W. DEFENSE

MONTICELLO, Wash., March 3.—Evidence so far offered by the defense on the Lindbergh murder case shows that Warren G. Harding, an aggressor in attacking the I. W. W. hall on Arlington Day or that he was a co-conspirator in a raid on the hall was deemed insufficient by Superior Judge Wilson today to allow the offering of testimony relating to plans made for an attack on the hall.

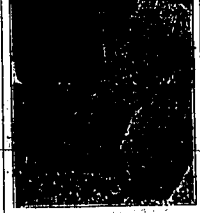

Judge Wilson ruled at the conclusion of arguments from counsel which took up the entire morning session.

INSPECTION SERVICE GROWS

Certificates issued by Inspectors State Condition of Interstate Shipments.

The inspection service for shipments of fruits and vegetables, started in 1917 by the bureau of markets, United States department of agriculture, has been extended to cover 120 designated states and territories.

Federal inspector inspecting Carload of Dandy Groff Potatoes.

markets. The certificates issued by inspectors upon request state the condition of interstate shipments as they appear at market centers and are used as a basis for settling claims that may arise between shipper and consignee.

WHITE LEGHORN BEST LAYER

Average Total Production of Eggs During Life is About 500—Profitable Four Years—The White Leghorns is the most important egg-producing breed at the present time. The average life of a White Leghorn is about six years. The average total production of eggs is about 500 and the maximum possible about 1,000, but they are seldom profitable to keep after the fourth year.

REMOVE RAM DURING WINTER

Should Not Be Permitted to Run With Cows Because He Gets "Bossy" and Eats Too Much—The ram can be allowed to stay with the ewes until winter and then he should be taken away from them. If he stays with the ewes during the winter he will eat too much, get "bossy" and hunt them around, often causing abortions.

SOVIET ARMY SWEEPS AHEAD

LONDON, March 4.—The soviet army in southern Russia has crossed the Rostov-Georgievsk railway, cutting in two the remnants of General Denikin's anti-bolshevik army and opening the way for attacks on Persia and the new states of Georgia and Azerbaijan, in Transcaucasia, according to reports from Moscow today.

The soviet described the latest victory over the Denikin forces as a "knockout blow." The remainder of Denikin's troops are being forced towards the Caucasus mountains and the soviet claims that his army will inevitably control the Caspian sea.

WILL THEY WEALTHY RADICAL

CHICAGO, March 4.—William Dross, Lloyd, millionaire radical, and other members of the communist and communist labor parties indicted with him on charges of conspiring to overthrow the government met for trial today. It was decided in the criminal court today. Judge Charles Hebel refused to quash the indictments after a motion to do so was presented by William S. Forest, chief counsel for the radicals.

Daily and Sunday Times, \$7.50.

WHITE SLAVE CRABBE AGAINST M. O. BROWN

SALT LAKE, March 3.—Melvin P. Brown, otherwise known as "Knock Out" Brown of Oakland, Cal., and Lillian Hall, formerly of San Francisco and later of Reno, Nev., are being held here for violation of the Mann "white slave" act. Brown is said by department of justice agents to have furnished the money to transport Miss Hall from West Berkeley, Cal., to Salt Lake for immoral purposes.

Both are said to have forged a number of checks in several coast cities.

LEGLESS MAN IN BLACKMAILER

SALT LAKE, March 3.—Robert E. Marlowe, 26 years old, a legless man, was arrested here yesterday evening on a charge of blackmail. He is being threatening letters to persons in Preston and other Idaho towns demanding they send sums ranging from \$50 to \$500 and threatening punishment if the requests were not complied with.

CALLS FOR BARRICAD CONDITION

MADISON, Wis., March 4.—Commissioner of Banking Marshall Collins today issued a call for conditions in state banks at the close of business February 27.

FIVE-KILLED IN COLLISION

ARDMORE, Okla., March 3.—Five persons, all residents of Lone Grove and Wilton, Okla., are dead here today as a result of the motor car in which they were returning from a dance being struck by a freight train. A sixth member of the car's passenger is believed to be fatally injured. The bodies of the killed were terribly mangled and identification in most cases was established principally by means of jewelry.

EDWARDS ON ILLINOIS BALLOT

SPRINGFIELD, Ill., March 4.—Governor Edwards, the "wet" New Jersey ticket executive, filed his name for democratic presidential nomination in Illinois today. Containing 1,950 Chicago names it was filed in the secretary of state office by two constitutional delegates from Chicago for the New Jersey governor.

Fun-Der-Turk Problem

LONDON, March 3.—The vast masses of the Turkish settlement were taken up by the supreme council, this afternoon. Walter Bruce Lockhart, first lord of the admiralty, and Lord Bessy, commander of the British grand fleet, were called in for consultation.

PROSECUTOR CALLS WAR CRIMINALS

BERLIN, March 4.—The state attorney who will conduct the prosecution of war criminals in the new supreme court at Leipzig today issued a call for all of the banded names in the allied list to report their headquarters to the Leipzig court immediately.

BIG BUILDING PROGRAMS

WASHINGTON, March 4.—Building operations upon an unprecedented scale, despite top notch quotations for raw materials, is forecast for the early spring months, the treasury announced today. Questionnaires returned to reserve bankers agree that high costs will not stop big building activity to meet the nation wide housing shortage.

DOG OWN GRAYE

LA CROSSE, Wis., March 3.—John Olson, 60 years old grave digger failed to return home today after going to dig a grave in the cemetery. Relatives found his body in the grave. He died of heart trouble.

Give Me a Friendly, Natural Hand-shake

an a friendly natural tobacco. Keep yo' put-on airs an' "sauced-up" tobaccos for the fellow that likes nut sundaes better than home made pie—

So says a friend of ours, named Velvet Joe. And he just about hits the nail on the head.

Velvet is made for men who think there's no smoke like real tobacco. If you are that sort of man, listen:

Velvet was born in old Kentucky, where more than one good thing comes from. It was raised as carefully as any other Kentucky thoroughbred. But the real secret of Velvet's friendly qualities is its slow natural ageing in wooden hogsheads. Ageing in the wood never hurt anything—and least of all, tobacco.

And so we say, Velvet is good tobacco—nothing more or less. It runs second to none.

The picture of the pipe on the tin needn't keep you from rolling a jim-dandy cigarette with Velvet.

SKAGGS' SYSTEM

In reviewing our business records for the past several months the one outstanding feature in the Skaggs' System is our effort to keep prices low.

Provisions, and groceries (see new table) are from an economic necessity very high, yet with our SKAGGS, SMALL MARGIN, CASH AND CARRY SYSTEM we have been able to maintain lower retail costs than those prevailing in other sections. We feel, and are told daily by our patrons that we have saved consumers of this community hundreds of dollars from what they would have been required to pay the old-fashioned, extravagant, non-compulsive credit stores—whose standards of merchandising DEMAND larger profits.

We are conscious of the very liberal patronage we have enjoyed—and appreciate it in the form of still cheaper prices. Based on our experience with an intelligent buying public—in anticipation of a still greater volume.

We will provide at contained full capacity, the operating cost is cheaper. THE SAME IS TRUE OF A RETAIL STORE.

Save Our Prices for a Guide

Milk
Lower prices on milk are now in effect. Tall Skag milk 2 cans for 25c

Vegetables
Standard Corn, per can 15c
