Three Cornered Fight Now On In Germany As Indicated

NEWBERRY WEEPS ARE TURNED ON COPIOUSLY

Faucet of Tears Running Freely in Barrel Defense

LAWYERS GOOD SOB SISTERS

Jury Turns Back to Cry Unseen—Or Maybe to Giggie

GRAND RAPIDS, March 9.—The Newberry trial almost doubled away today on a sea of distraught men's tears.

Nearly every inebriated grand in the court room evaded a plashing rivulet of sympathy for Senator Newberry and his 84 co-defendants charged with vote frauds and conspiracy. As their attorneys blew a hearty and fervent trundle into their voices and begged the jurors to send them home to their wives and children with their virtue unharmed.

Alleged adventures of the clinking Newberry barrel in rolling about the state of Michigan in 1916 were forgotten completely in the throbbing bursts of oratory and pocket handkerchief dabbing from the defense attorneys.

Half an hour after the trial opened, all of the court room and half the jurors were sniffling over the poignant remarks of Attorney E. Nichols. By the time Attorney Ernest C. Smith, himself a defendant in the case, presented a homely, down on the farm appeal for "my brother, Joshua Boy," the trial had been turned into a sob convention, with nearly all members of the jury facing toward the walls to hide their grief.

The defense attorneys warned the jury that the issue was not one of money or money expended, but of conspiracy; that no evidence had been introduced to show that Senator Newberry spent \$50,000 for the campaign, but that the Blair report of expenditures was complete and correct and that the Newberry campaign activities generally were "the only activities of public spirited men in any political campaign."

Attorney Marjitt W. Littleton, chief defense counsel, was to make the final closing address later.

Bargons States Charges Against Bainbridge Colby

WASHINGTON, March 10.—Henry Parsons, New York lawyer and political leader, was a witness before the senate foreign relations committee today when it considered consideration of the appointment of Bainbridge Colby as secretary of state.

Parsons, republican national committee chairman from New York, has opposed to appear before the committee, in connection with objections raised by New York City in Colby's confirmation.

Parsons' testimony was given behind closed doors.

It was stated by members of the committee that objections to Colby raised by Parsons' testimony was "serious."

The committee adjourned without taking any action.

Council Takes Up Milk Question

The milk inspection ordinance was one of the main questions discussed last evening at the regular meeting of the city council. The council discussed the ordinance proposed by the local health department, relative to requiring all milk to be pasteurized. The ordinance would require that all milk sold in this city be pasteurized. The ordinance was passed by a vote of 10-2.

Who Says Retailer Don't Boost Price

KANSAS CITY, March 10.—Popular price boost that sold for \$25 in 1913 is still falling at \$25. In view of this prospective 45 per cent price boost over present prevailing prices, come today from the Kansas Annual session of the Retail Merchants Association.

Winter Harvest Is On

Income Tax Payments Swamp Collectors

NEW YORK, March 10.—Weary, hardworked government clerks began today to dig themselves out of the avalanche of money which descended upon them during the last day of making income tax returns and initial payments here.

Millions of dollars and scribbled notes and news boys combined to make the night a weary one for the collectors. Some of the nation's biggest financiers paid theirs in person—including Percy Rockefeller, Thomas W. Lamont, Charles H. Sabin and others.

John McCormack, the tenor, paired with \$25,000—thus leaving "It's a penalty for singing so much," said McCormack, with a sigh. Gail Carrel paid "about" \$75,000. Miss Tetrasulni paid over \$4000 for the first quarter.

The smallest check received was for one cent, the largest for \$9,000,000. Checks for more than \$1,000,000 from corporations were common. A messenger boy paid \$6500 and a telephone girl \$7500.

French Favor Steps to Protect Rhine Border

PARIS, March 10.—French newspapers in commenting upon the German situation today express fears that "no confidence can be placed in either of the rival governments in Germany." They urge that France immediately obtain other guarantees to safeguard her position on the Rhine.

"Duly of allied action, was more necessary," said Le Matin. It adds: "What is to be thought of the action of Great Britain, who is apparently willing to enter into negotiations with the German party most likely to come into power?"

Andrew Tardieu, former French high commissioner to the United States, writing in Le Petit Parisien, throws responsibility for the German situation upon the vacillations of the peace conference and the supreme council.

"Allied hesitation caused the beaten (German) generals to take their courage into their hands and show a disposition to fight again," said M. Tardieu. "The first duty of the allies is to obtain the execution of the military clauses of the peace treaty. Actions as well as words are necessary."

PARIS, March 10.—The council of ambassadors has been summoned to meet tonight to consider the German situation. Premier Millerand will preside. The cabinet had a special meeting at noon, but no decision was announced.

Will Ask Policy of U.S. Troops in German Revolution

WASHINGTON, March 10.—Chairman Kahn of the house military affairs committee announced today that he will introduce a resolution in the house today requesting the president and secretary of war Baker to state the policy of this government in connection with the use of 15,000 American troops now in the German territory. The resolution will inquire whether these troops may be used to suppress the German revolution.

Chairman Kahn stated that it was apparent there is sentiment in congress against use of American troops to suppress the revolution and he believed that it will be best to have a definite statement of the policy this government will follow.

Lowden Booster Learns Council Is Nonpartisan

Gov. Frank O. Lowden of Illinois has at least one supporter in "New Falls for the president" the nomination. It is D. H. Dean. Mr. Dean falls into the class of supporters called "active." He appeared before the city council last evening with a request that the city post a Lowden banner across one of the principal thoroughfares from curb to curb that all might see and be influenced. Gov. Lowden's "picture" and suitable campaign arguments to appear on the banner—with the name, were minor suggestion incorporated with the main request.

No request was made concerning the use of an ordinance requiring all voters to cast Lowden ballots.

The council, in considering Mr. Dean's request, learned that he is non-partisan. No action was taken prejudicial to the interests of Gov. Lowden's rivals.

Wood Carries Preferential in Minnesota

MINNEAPOLIS, Minn., March 10.—General Leonard Wood is the winner of the Republican presidential caucus held throughout Minnesota Monday. Latest returns indicate that he won in almost every section of the state, though the vote was extremely tight everywhere.

In Minneapolis 20,000 votes were cast, about one-third of the normal number. With 21 out of 156 precincts in the city vote was heard from, the vote was as follows: Wood, 6319; Johnson, 2749; Hoover, 4121, and unopposed 2655. Many votes voted.

SHELTER HELD ON BOND FOR EXTRADITION

L. S. Shelter, oil drifter charged with the theft of \$7,000 worth of drilling machinery by W. D. Meyer of Vale, Ore., lost his flight against extradition to Oregon, when Probate Judge Threlkild this morning bound him over under \$5,000 bond to await extradition papers. The court's decision followed a hearing of the evidence and arguments of attorneys that has occupied several days. Shelter was defended by James H. Bottwell.

Sheriff Leeson of Vale, Oregon, was expected here at noon today, armed with an extradition warrant from Governor Davis for the removal of Shelter to "one-ten-trial-on-Meyer's charges."

Shelter is charged with having taken the machinery from a rig owned by Meyer, eight miles from Vale. The rig had been left unguarded, Meyer states, and it is charged that Shelter removed the machinery at night, hauled it 70 miles to Orell, Idaho, and hid it in the raft river. There, where Shelter had a drilling contract with the Orel Oil company of this city, "when relations between the Orel company and Meyer on the trail is understood."

For Petty Larceny Bill Frazier, a local boy, was arrested here at noon today, armed with a charge of petty larceny. He is at present in the county jail and will come up for trial in the afternoon.

EXPLOSION ON SHIP

SAN FRANCISCO, March 10.—An explosion on the Telford State ship, a tugboat, broke out at 10:30 a.m. today. The ship was carrying a cargo of dynamite. The explosion was caused by a dynamite fuse that had been lit by accident. The ship was damaged and several crew members were injured. The ship is being towed to a safe harbor.

Compromise Between Von Capp and Ebert Failure—Spartacists Join Melee

Hundreds of Casualties Blamed to Third Faction Which Takes Advantage of Opening to Attempt to Secure Control

The struggle for supremacy in Germany has apparently resolved itself into a night three cornered fight between the revolutionary government of von Capp, the old government headed by President Friedrich Ebert and the Spartacists.

Violent fighting between troops and armed workmen was reported today from Berlin, Dresden, Essen, Hamburg, Altona, Leipzig and Frankfurt. This war appears to be inevitable in Germany.

Despite conflicting reports as to the negotiations between the revolutionary regime and the Ebert government at Stuttgart, the most definite indication is that the attempt to effect a compromise has failed, at least for the time being.

The most important phase of the situation now is the activity of the Spartacist (communists) who have taken advantage of the confusion to rally into well armed forces, meanwhile adding further pressure by widespread strikes.

Advisers indicate that at every point where there has been fighting the Spartacists were involved. The determined nature of the struggle is shown by the large numbers of killed and wounded. Official figures are not available, but press dispatches show that there were hundreds of casualties all told.

There are unconfirmed reports that local Soviet governments have been proclaimed by the armed workers at Hamburg, in northern Prussia; in the Ruhr district of western Prussia, and in south Germany.

The von Capp regime is still holding out in Berlin, but its zone of authority is said to be comparatively small. The Ebert regime has summoned the national assembly at Stuttgart tomorrow in an effort to regain its national powers.

Ebert Haughty but Von Capp Has Whip Hand

STUTTGART, March 10.—The constitutional government refuses to negotiate with the heads of the revolutionary regime at Berlin," said an official announcement today. It follows in full:

"The heads of the Berlin regime are trying to make the people believe that they are negotiating. The constitutionalists refuse to negotiate with von Capp."

"Negotiations can only occasion distrust and confusion and prolong the disorders. The only solution is for von Capp, who has proclaimed himself chancellor, to resign unconditionally."

The Ebert government announces that it is safeguarding the lines of communication.

Colleagues of President Ebert expressed belief that the Berlin regime would quickly collapse from its own weakness.

Preparations have been made for the meeting of the national assembly here tomorrow.

Country Torn by Fighting—Many Deaths Reported

BERLIN, March 10.—Street fighting broke out in Berlin during the night. Nine persons were killed in clashes between the revolutionary soldiers and the police. The number of wounded is not known.

The fighting started when troops supporting the von Capp revolution and movement began dispersing crowds of strikers.

The general strike continues in full force.

Feld Marshal von Hindenburg has written a letter to Imperial Chancellor von Capp advising him to withdraw his troops from the city and abide by the new German constitution. He has sent another letter to President Ebert at Stuttgart, informing him of the communication to von Capp and advising Ebert to reach an immediate compromise with von Capp on the calling of a general election.

The heads of the new government said they were continuing their negotiations with the labor leaders, and hoped to end the general strike soon.

Chancellor von Capp explained his delay in announcing the appointment of a new cabinet by saying that negotiations with President Ebert were continuing and that the new ministry would not be proclaimed until these negotiations had ended.

Aeroplane from Stuttgart or Dresden had been shot down, according to a proclamation signed by Ebert and Noke appealing to the people not to support the revolutionary regime.

THE HAGUE, March 10.—Fifty persons have been killed and 100 wounded in the fighting between the Spartacists and the Ebert government, according to a report from the latter city this afternoon.

LONDON, March 10.—The Central news correspondent at Paris telegraphs that the German government has received dispatches confirming the report that an agreement has been reached between the rival German governments.

LONDON, March 10.—A telegram from Berlin to the British government, dated March 10, reports that the first 'peace feeling' between the rival governments, arrived in Berlin from Stuttgart 'fully empowered to negotiate an agreement.'

LONDON, March 10.—Many persons were killed in Berlin when 1600 persons from the city dropped their rifles and marched to the Berlin railway station.

LONDON, March 10.—The British government has received a telegram from Berlin, dated March 10, reporting that the Spartacist government has agreed to a ceasefire with the Ebert government, according to a report from the latter city this afternoon.

NAVY BILL RECEIVES HEAVY CUT FROM 1920

Appropriation for the Next Year Reduced \$200,000,000

DANIELS REQUEST TREATED ROUGH

Granted Hardly More Than Half of What He Said Was Necessary

WASHINGTON, March 10.—Carrying an appropriation of \$124,500,000, the navy appropriation bill for the fiscal year 1921 will be reported to the house tomorrow from the house naval affairs committee. This appropriation is over \$200,000,000 less than for the year 1920, and \$100,000,000 less than estimated by the navy department as necessary in 1921.

Provision for a permanent navy personnel bill of 1920 is made by the bill, but pay appropriation is made for an average of 120,000 personnel.

Bonus Committee Takes Up Method of Tax for Funds

WASHINGTON, March 10.—When the bonus committee takes up the question of taxation to raise the money, plans of the Department of Finance to adjust the present tax code with its excess profits tax will be gone over. It will be impossible to adjust the system of taxes to pay the bonus without taking into account the proposed readjustment of taxes for current and future years.

The committee will hear the proposals of the American Legion, if they present a plan by which the modernization of the tax system can be accomplished.

Propose Bill to Loan to Government

WASHINGTON, March 10.—An order has been issued by the Federal Reserve Board, directing the Federal Reserve banks to issue \$100,000,000 of new currency to the government.

The order is a result of the government's request for a loan of \$100,000,000 to the Federal Reserve Bank of New York.

TUBERCULOSIS ERADICATION TO BE PUSHED HARD BY STATE

Dr. A. K. Kuttler has arrived in Twin Falls from Boise to continue the tuberculosis eradication work begun in this section by Dr. Faloon. Dr. Kuttler has been directed by the direction of the State Bureau of Animal Industry at Boise, and says that his instructions are to make any work left unfinished by Dr. V. A. Faloon when he resigned his position with the government to accept the position of city health inspector. It is understood that Dr. Kuttler will continue his work largely in the neighborhood here, in towns where the services of a deputy state veterinarian can not be secured as can be in Twin Falls. He will also test all cattle being used for dairy and breeding purposes, providing no owners desire that their cattle be tested, and will make application. Dr. Kuttler will make his headquarters with Dr. H. R. Greene, room 20-J who is at all a deputy state veterinarian and is living as much of his time as his practices will permit in the work of eradicating tuberculosis in the vicinity of Twin Falls.

Dr. Kuttler has just recently been discharged from the veterinary service of the army, and has also spent nearly three years at the U. S. Bureau of Animal Industry as a veterinary inspector. There will be his charges attached to Dr. Kuttler's services.

Seward, Famous Alaskan Town, Growing Fast

SEWARD, Alaska, March 16.—Seward is booming. The town once famous for its habit of returning to the sea, is now growing into a city of considerable importance in the Northland. Trade is springing up with marvelous vigor. Two trains a week now run between Anchorage and Seward, making the difficult 125 miles in several hours. The secret of its start is said to be in the thousands of tons of Alaska coal that now passes through Seward to the coast. This coal has recently been tested by the United States geologist, and reports that the Seward coal is fine for steamship purposes.

First Verdict in Alaska Fish Trap Pirates Case

JUNEAU, Alaska, March 16.—The first verdict in a series of cases being conducted here by the United States Court in the prosecution of an organized band of fish trap pirates was rendered recently when Ernest Blago was convicted of robbing, kidnapping and assault with intent to kill. The fish pirates operated in Alaska extensively last summer and in many instances are said to have shot at watchmen with rifles. The Department of Justice has spent large amounts in an effort to apprehend the members of the fish pirates gang.

Girl Driven to Death by Sister's 'Spirit'

ROME, March 16.—Lisa Chirignelli, a spiritualist medium, eighteen years of age, shot herself at Milan. She left a letter stating that she had killed herself to end the continued persecution to which she was subjected by the spirit of her dead sister, who haunted her by day and night, and even inflicted physical torture on her.

An examination of the girl's dead body revealed vivid marks such as those produced by pinching or scratching.

ALASKAN STOP PLAN TO SETTLE ENTANGLED

SEATTLE, March 16.—Just as friends of Jens S. Nielsen, Alaska miner, were busy with arrangements to assist his estate and send the mother-in-Denmark money that has lain on deposit in a Seattle bank for two years proceedings were halted by receipt of word from Nielsen himself that he is not dead and that he is on his way to Seattle.

In 1917 Nielsen was said to arrive here on a certain steamship but did not show up. His friends were unable to find any trace of him and concluded he was dead. Steps were taken to dispose of \$2500 which he had on deposit in a bank here.

In a letter which he mailed the administration proceedings Nielsen explained that he had been taken ill on the steamship and had been rushed to a hospital at Rochester, Minn. When he recovered he went back to Alaska without notifying his friends.

THRILLING RESCUE

BOSTON, March 16.—Rescued under thrilling conditions 66 miles southeast of Cape Fear, Captain and Mrs. William A. Lee and three other crew of the *Chilren S. Young*, New York for Havana, were brought today by the fruit steamer *Portliner*. The crew had been affected by a howling gale when the *Young*, sinking rapidly, was listed at 45 degrees with her decks

DEALERS SELLING SMOKED MEAT MUST BUY LICENSE BUT THOSE VENDING CANNED MEAT EXEMPT

Large Number of Minor Matters Considered by Twin Falls Aldermanic Board at Regular Session Last Night

A local session appeared last evening at the regular meeting of the city council which considered a number of minor matters. The city council acting whether or not dealers handling only canned and bottled meats will have to pay a license fee. It was advised that under the terms of the present inspection ordinance those selling canned meats only would have to buy a license and that those who dispensed with that and who dealt in smoked meats would not be licensed. Those selling smoked meats would be exempt.

About Found
S. D. Perrine protested against the way in which the city pound was being operated, stating that arrangements had been made at the head of it and that he would like to see a new man placed in charge. Several members of the council said they did not know the city had a pound and most of them did not know where it was. Mr. Perrine said that he had received a check for \$100 from a man claiming it was his horse that had been brought there. A halter from the horse was missing when he was found and he was badly excited. He said there were other similar cases. The council then voted that the chief of police should be the chief of the pound and that if it were deemed necessary a change would be made.

Protests Stopped Full Express
City blockades came before the council protesting against the owners of property in one of the additions paying the full amount of taxes and springing up with marvelous vigor. Two trains a week now run between Anchorage and Seward, making the difficult 125 miles in several hours. The secret of its start is said to be in the thousands of tons of Alaska coal that now passes through Seward to the coast. This coal has recently been tested by the United States geologist, and reports that the Seward coal is fine for steamship purposes.

Ordinance Passed
Council passed an ordinance presented by Albert Bennett and drawn up by O. S. L. attorneys providing for the building of a track across some land belonging to the Blue Lake bottling works, of which Mr. Bennett is part owner, so that a warehouse could be constructed and an outlet of manufactured products found. The only delay in the passage of the ordinance, which was to have been presented some time ago, was occasioned by the question of paving the street on which the track was to run. This was settled, however, amicably to both parties.

Fire Truck
The matter of purchasing a city fire truck, presented by Glenn Jenkins, was laid over until the next meeting because the committee had a great amount of important business to transact.

Firemen Want Raise
A member of the Twin Falls fire department came before the council presenting a petition signed by all the firemen, which except the chief, asking for a 45 per cent raise. Mr. Worroll, the city clerk, said he presented last night so the matter was laid over until the next meeting. He also stated that some new building being bought for the department.

Collecting Funds
T. F. Warner announced that he had collected \$104 from the Eighth Avenue property owners to pay for building the conduit on that street. He also stated that he was working hard to collect money from overseas but was having considerable trouble. Some, who did not have the money, he expected, however, that the necessary amount will be raised in a comparatively short time.

Final First of Week
City Engineer E. V. Berg announced that the sewer and conduit now under construction would be completed Sunday or Monday depending on the weather. Good weather would speed operations.

To Lay Pipe
Council decided to lay a water pipe from a short unburned water of the sewer along the street and run it through the south part of town, climbing the ditch that flows down Second Avenue East and South which has always been troublesome to residents of the district through which it flows.

Put Up Street Signs
City Engineer E. V. Berg exhibited some street signs which he would put up in a short time. They were bought several years ago but he had recently a use for them was not found.

Will Use Lumber
The city engineer will use the lumber in the Shoshone street bridge for some bridge work. This permission was granted by the council. The lumber, Mr. Berg said, cost about \$50 a thousand when the

County Records Show Land Left to 'Jesus Christ'

MEXICO, Mo., March 16.—According to Hamilton County records, one hundred and sixty acres of land near here were bequeathed to Jesus Christ about twenty years ago. The deed was made by John Wright and wife, because they believed it their duty to return to the Lord the material goods with which He had blessed them. The lawful heirs continue to live on the land, holding it in trust.

CHAPS IN COURT TO SHOW JUDGE THE GAME

AUBURN, Neb., March 16.—The court of Justice Davis was the scene of a crap game here the other day. It came about when Walter Gillespie was arraigned on a charge of "pulling the dillies."

STOCK DEVALUED BY FEAR

PITTSBURGH, March 16.—The stock delayed the funeral here of Frank Altes. Just as the casket was about to start for the cemetery the bereaved widow was hurried from a funeral carriage into the Altes home, where a lady girl was born.

Permitting Granted

Permitting was granted to the Warren Construction company of Portland, Oregon, city paving contractors. To build the new to the Historic Construction company.

To Honor City

The city decided to request of the American Legion to devote a party with flags at the time of the state Legion convention here April 25.

Bills Read

The usual body of bills were read and approved. The city clerk's meeting was one of more than ordinary length. The two weeks Committee C. S. McMartin and C. H. Chappel have been out of town and a social session was held each time. There was a large amount of business to be attended to last evening as every member of the body was present. Mr. Chappel having returned from a business trip and Mr. McMartin from Oregon, where he was called by the serious illness of a relative.

OIL LAND ROYALTIES FIXED

WASHINGTON, March 16.—Royalties fixed by the government on oil leases on public lands under the oil and mineral land leasing bill will be collectible in oil rather than cash, according to regulations issued this afternoon by Secretary of the Interior Payne for the administration of the new leasing bill.

Oil Leasing

This step is taken to insure the government of an oil supply for its needs. An oil lease for 10 years will be provided, scaling for royalties to be paid annually downward from a 33 1/3 per cent payment in oil on wells with a production of 200 barrels a day.

Confiscate Jenkins Property

ROCHESTER, N.Y., March 16.—William Jenkins, American scholar, has been ordered to vacate his property confiscated by the United States government. The government, in the opinion of the governor of Florida, is ordered to return the property. It was learned through press dispatches today, has asked that state court proceedings against Jenkins be discontinued and that federal action be taken to return the property.

Electrical Engineers Gather in Pittsburgh

PITTSBURGH, March 16.—Practical electrical engineers from all over the United States gathered here today to discuss important subjects relating to large use of electric power, particularly as applied to the operation of steam turbines. The operation of generation and distribution of large blocks of electric power will be thoroughly discussed.

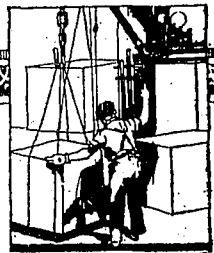

STOCK DEVALUED BY FEAR

PITTSBURGH, March 16.—The stock delayed the funeral here of Frank Altes. Just as the casket was about to start for the cemetery the bereaved widow was hurried from a funeral carriage into the Altes home, where a lady girl was born.

Justice-honor-service

The Foundation of a Great Business

Built on a foundation of justice, honor and service, The Paraffine Companies, Inc., has grown steadily and consistently until today it is one of the dominating industries of the Far West.

It is preeminently a Pacific Coast institution. Organized in 1884, with the high-minded ideals characteristic of the early Pioneers, the Company has endeavored to live up to a policy of fairness to everyone and a square deal always. Just as frank honesty and tireless energy developed the vast regions of the West, so did they also help build up The Paraffine Companies, Inc.

A Square Deal After Fire of 1906

After the San Francisco Fire of 1906 the Oakland Ready Roofing plant of The Paraffine Companies, Inc., was one of the few factories capable of delivering building material immediately. Its entire output, however, could take care of only a small part of the tremendous demand. But Pabco Products were sold at the same price which had prevailed before the disaster. No favoritism was shown, and the orders of the individual whose need was small but urgent were filled as readily and as promptly as were the large orders from big companies. Quotas were apportioned equally among those who needed building material and these quotas were strictly adhered to.

A Fair Price to All

This is but one example of the policy which has been consistently followed. The jobber knows that he pays the same price for Pabco Products that the other jobbers pay, quantity being

the same. The dealer knows that The Paraffine Companies, Inc., will treat him with the same fairness with regard to price and promptness of delivery that they treat every other dealer. The customer who buys Malthoid or Ru-ber-oid knows that he gets the highest quality ready roofing and always at a fair price.

Service to Everybody

Together with this policy of dependability The Paraffine Companies, Inc., has endeavored to provide real service to every purchaser of Pabco Products. Salesmen are selected with the greatest care and are educated in the high ideals of the Company. They understand thoroughly the manufacture and application of roofing and are always ready to render whatever service they can to the jobber, to the dealer and to the small purchaser.

If you ever have need of advice on the matter of roofing, if you ever wish to know the best method of applying Malthoid, Ru-ber-oid or other Pabco Products, feel free to call upon us.

ST. DENIS GIRLS THRILL GOOD CROWD

Southern California Dancers Well Received Here Last Night at Laving

The nice beautiful St. Denis dancers who appeared last evening at the Laving here, had a most successful exhibition of their art. The light rhythmic dancing was exceedingly pretty and there was a great variety of steps introduced. That the crowd enjoyed the performance was proved by the frequent and voluminous applause.

There is no more thorough efficient dancing school in America than that of St. Denis in southern California. The dancing mistress has trained the girls in the various degrees of steps in such a thorough manner that they all work together with such ease and eloquence that there is little to be desired in the way of dancing. The girls are so well considered here that they are being sought after by many of the local boys.

The work of this illustrious dramatic troupe was a Pauline Lavender, pianist, who also was very successful in her own right. She played a grand variety of music and her playing was highly appreciated. The piano was played by Miss Lavender, who is a talented pianist. The piano was played by Miss Lavender, who is a talented pianist.

The scenic and lighting effects were very remarkable; in fact equal to any seen here in years. The whole performance was one of the most credit to the directors.

T. F. ATHLETIC ASSOCIATION INCORPORATED

Plan to Stage Boxing and Wrestling Matches in the Future— Will Be Conducted Squarely

The Twin Falls Athletic Association has filed articles of incorporation, naming as incorporators Harry McKinlay, Alvin Fisher and Tom McKinlay. Several boxing and wrestling matches will be staged between well known western celebrities.

For some time this city has felt the need of an athletic association but until recently the way was not made clear to establish one. Well defined rules will govern the matches staged and all rowdism will be barred, according to those who are promoting the enterprise.

Later on, the association may stage other sports but for some time boxing and wrestling will be featured. About between two-foot boxers, it is already scheduled for some time in April, the exact date not having been set.

ALL READY TO FILM PICTURES

Camera Man and Leading Lady Are Here Preparatory to Shooting Two Reel Comedies

Some test pictures were taken here yesterday afternoon by the camera man of the K. K. Film company of Ogden, Utah, which will produce two reel comedies here in the near future.

His star who will have the feminine lead in the first picture has arrived here from Los Angeles and plans are practically complete for taking the first picture, "The Humble Bee," the clown who has appeared with his trick team throughout the country, will be starred in the first picture. He is said to be one of the most clever comedy clowns ever seen in this country.

One of the best camera men of the west is here and preparing to take the pictures. He is enthusiastic over the prospects in this region and intends to make good use of the wonderful scenery in this section.

Into the first picture will be injected a wealth of punch and action, says the director, who is in a continuous round of action and laughter.

If the first picture made by the company here is successful more will be filmed and distributed through New York agency, with which heads of the company have been negotiating for some time. The distribution agency is offering a large amount for all pictures filmed after the first four have proven successful.

Following afternoon the company searched the surrounding countryside for locations for taking the pictures and picked out a nice early ranch near Ligaver, which was a spot for camping most of the scenes. It is expected that some will be filmed at Shoshone Falls. The only thing that has hampered operations is the lack of sunshine. Until mid Feb on the job nothing can be done, according to the camera man.

TO ESTABLISH NEW GUN CLUB

Twin Falls Sportsmen Plan Extension of Clay Pigeons

The boys who shot at the Hen in the late war will now make an effort to paper and/or so-called "clay" clay-pigeons. A gun club is to be established on Snake river in the near future, the club being about 2 1/2 miles north of the west end of Main Avenue East.

This is said to be an excellent place for a gun club, situated as it is, from the travel places so that there will be little danger of anyone being hit by the shells of the gun.

The boys in the neighborhood have not yet been worked out but the club seems assured, looked as it is, by a large amount of public opinion.

Herman Stricker Is Laid to Rest

SUPPLIES, Va., March 16.—"Gallop"

Best, ex-major league catcher, who will manage the local team in the Virginia League this year, says that the strongest play he ever saw happened while he was catching for Washington in a game at St. Louis.

"St. Louis had us beat three to two and there were two out in the ninth," said St. Louis. "Washington runners were on third and second and two strikes on Alvin Altier, the Washington first baseman.

The next strike came over, and Sheridan called it a strike. The ball whizzed right through Jack Spence's mitt and bounded up against the grandstand and then shot off at an angle, while the chubby Spencer parried it. Both of the Washington runners on the bases started to run.

"But all the time Altier refused to leave the plate. He was in a hot argument with Sheridan and insisted that the ball wasn't over the plate and was two feet wide. In the meantime Spencer got the ball. There was no chance to get either of the runners at the plate, but he fired to first and retired Altier. It was the first strike of the game, and Altier's failure to

run out on the two runs and let the team for Washington. And they talked about Merkle!"

Such a Little Thing!

TEA is such a little thing that we never stop to think how intimate a part it plays in our daily lives and what a wholesome influence fine tea exerts upon our restless moments.

Would you like to get more enjoyment out of your tea? And if that greater pleasure can actually be enjoyed for less money than you are now paying for tea, would you like to know about it? Isn't this worth a little thought?

When people think about tea, they forget that tea-leaves contain tannin as well as tea-flavor. Tannin, you know, is an acid found in all kinds of leaves and is used to tan leather. Tannin may be all right for leather, but not for the delicate tissues of the stomach. It injures digestion and is hard on the nerves. Besides, it isn't tea—that harsh puckery taste isn't it?

People don't want tannin of course. They want tea-flavor which gives enjoyment, gentle stimulation, rest and cheer. That is the charm and value of tea—and the only thing worth buying.

Common tea, which comes from the older leaves of the tea-plant, has only a small amount of tea-flavor—and coarse flavor at that. The main strength of common tea is tannin.

Finetea, which comes from the young tender leaves of the tea-plant, is rich in sap and fine tea-flavor. It has only a very small proportion of tannin, and even that is avoided by proper making at home.

Now the tea in the cup can't be any better than the tea on the bushes. A coarse leaf makes poor tea; and all the money you pay to bring it over here doesn't make it a bit better.

So you see that after all, getting full tea-enjoyment is more a matter of knowledge and good judgment than it is a matter of money.

Schilling Tea is the fine economical practical tea of this country. It is rich in tea-flavor and costs only 1/2 of a cent per cup. It is the cheapest drink next to water. Isn't it pleasant to know that the comfortable social pleasure of enjoying fine tea is open to everyone?

WORLD UNION OF TAILORS PLANNED

NEW YORK, March 16.—The needle is mightier than the pen.

A tailor "League of Nations" for the elimination of European "sweatshops" and prostitution of child labor laws throughout the world, is now being formed according to President Benjamin Schlesinger of the International Ladies' Garment Workers' union.

He was just returned from a three months' tour of European cities where he conferred with garment union leaders and with the aid of a world-wide international "tip league" will be formally organized at a conference at Copague, Vermont, in June, to which tailors and garment makers of every civilized country will be invited.

President Schlesinger said that last year last month he had planned for this world union.

"The effort to do this is directed toward the most fundamental difficulties of local unions in the nations which were devastated by the world war."

Modern machinery and large ventilated factories are practically unknown in the garment industry abroad, he said.

"I found better 'sweat shops' in Paris, Berlin, Vienna and Warsaw," Mr. League will tell the men to be invited.

"The most oppressive garments coming from Paris are made by children and old women, either in a tiny room of a home or in a 'garret' or cellar factory."

Talking on the international position of the garment industry, Mr. League will be compelled to recognize the Soviet government of Russia in defiance of the allies if he wished to avoid a complete disaffiliation from Germany facing a total collapse unless he is permitted to trade with Russia on a complete basis.

"I am sure that the same situation on a lesser scale."

FIRE ENGINE GIRL KNOWS JOB CAN SELL APPARATUS AND FIX IT

SHATTUCK, Wash., March 16.—Tolly, think you over—and let 'em think it over.

"Then, again, she says, "If I didn't have absolute confidence that the machine I was selling was the best on the market I wouldn't be able to sell it."

She appeared here before the Board of Public Works, the City Purchasing Agent and the Fire Chief and delivered an address of thirty-five minutes. In that time she took over the combination pumping and hose outfit from a fireman, took it apart and reassembled it, and then took it apart and reassembled it again.

"I am a fire engine girl," she said, "and I know my job. I know how to sell and how to fix it."

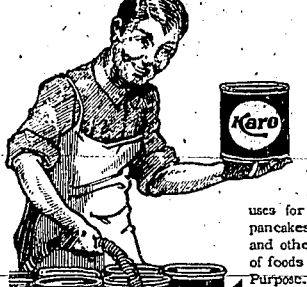

She is the daughter of a fireman, and she has been in the business since she was a child.

"I have been in the business since I was a child, and I know my job. I know how to sell and how to fix it."

Politics Ain't What They Uster Be, Says Uncle Dave

MACON, Mo., March 16.—"Politics ain't what they used to be," said Uncle Dave, a prominent citizen of this city, who has just returned from a trip to Washington.

He said that the political situation in this country is very different from what it was in the past.

"I remember when politics was a game, and when men were elected for their merits, and not for their money."

General Pershing Is a 'Lovely Dancer'

AVON, Mich., March 16.—General John J. Pershing is a "lovely dancer," said Miss Florence Savage, who danced with the general at the National House reception at Camp Devens.

She said that she had danced with the general several times, and that she found him to be a very nice and charming man.

"I enjoyed dancing with the general very much, and I think he is a very lovely dancer."

Widower Entitled to Aid by Mothers' Pension Law

DENVER, March 16.—It isn't apparent that the new mothers' pension law in Colorado is intended to help widowers, but it is.

The law provides that a woman who is the mother of a child who is blind or deaf, or who is otherwise physically or mentally defective, is entitled to a pension.

If the father of the child is dead, the mother is entitled to a pension, and if the father is living but unable to support the child, the mother is also entitled to a pension.

Asks Police Aid in 18 Year Search for Daughter

DENVER, March 16.—Presenting a search that he has carried on for eighteen years, Leo Howard, of Chicago, has appealed to local police to help him in his search for his daughter, who he believes is in this city.

Howard says his former wife, who has since remarried, disappeared from the home of her husband in 1902, when the daughter, Georgia May Howard, was only a year old.

Howard's search has been a long and fruitless one, and he has traveled all over the world in his search for his daughter.

Author Sues Pullman Car Company for Lost Manuscript

BOISE, Ida., March 16.—The Federal Court here is confronted with one of the most peculiar cases in its history.

Earl Wayland Bowman, of this city, is suing the Pullman Car Company for \$100,000, claiming that the defendant is responsible for the loss of his manuscript of a novel entitled "Whatab-wab-wab."

Bowman says he was returning from the Coast this winter, having been in contact with his publishers. His claim is that he had the manuscript in a traveling bag and that he temporarily placed it in the hands of a porter to safeguard it while he left the car. When he returned, he found his bag and manuscript could not be found.

SAYS NAVY'S PLANS WERE IMPOSSIBLE

Sims Charges Department Went Ahead Without Knowledge or Experience

WASHINGTON, March 16.—In seeking a royal road to victory during the war, Admiral Sims today told a navy investigating committee the navy department constantly put forward plans which were impracticable and impossible.

He said that he had been in the navy department for many years, and that he had seen many plans which were impracticable and impossible.

Profiteering Has Reached Beyond Grave, Say Students

DENVER, March 16.—"Profiteering has reached beyond the grave, according to students at Denver University," said a group of students here today.

The students said that they had seen many signs of profiteering in the city, and that they believed that the profiteers were not only making money from the war, but were also making money from the dead.

How Soldier Disposed Attacks

"For two years my stomach attacks were very bad, my doctor had to inject morphine on several occasions when I was stricken with these attacks, but I got no relief. I got relief when I used Dr. Williams' Wonderful Remedy. I have been entirely well and am serving in the artillery, having been pronounced fit to perform heavy duty by government physicians." It is a simple, harmless, permanent, that removes the intestinal cause from the intestinal tract and allows the indigestion which causes practically all stomach, liver and intestinal ailments, including the appendicitis. One dose will cure or greatly relieve.
