WILL SUBMIT MINERS WAGE CONTROVERSY TO CONFEREES

President Will Place Two Reports Before Operators, Miners

RECOMMENDS THE MAJORITY SIDE

Minority Report Favors 31 Per Cent Increase Instead of 25

WASHINGTON, March 19.—President Wilson will submit the coal miners wage controversy to a conference of miners and operators. It was announced at the White House today.

The majority and minority reports of the president's coal commission will be submitted to a joint conference which meets in a short time to draw a new wage contract, it was stated.

The announcement was made after the attorney general and Director General Hines conferred with Secretary Tamm.

Attorney General Palmer announced that the president would submit the two reports to the top point conference with a statement which would recommend that the majority report be followed, but stated it to be the duty of the miners to make any adjustments to agree to adjust the difference in the reports.

The majority report calls for a wage increase of approximately 25 per cent while the minority report is understood to recommend an increase of 31 per cent.

Although Attorney General Palmer made announcement of the president's plan to settle the coal controversy through a conference, Tamm's statement indicated the White House would still officially announce that the president intended to take no action had been taken. It was evident that the attorney general's statement was dispositive to some officials.

"FAIR PRICE" COMMISSION CALLED OFF

Government Naturally Refuses to Back Any Effort That Hurts Profiteers

CHICAGO, March 19.—The sky will be lit up on the prices of food dealers in Illinois will be permitted to charge after April 1 according to the present outlook. For stamping the government for indifference, Mr. A. C. Sprague II and Mrs. Joseph T. Sprague, heads of the state price administration, have resigned, it was announced today. This virtually means the collapse of the commission. Major Sprague declared that the backing given the commission to wage the fight against high prices was wholly insufficient and would not permit of success.

Prof. Porter Accepts Fine Arts Chair at Harvard

CAMBRIDGE, Mass., March 18.—Kingsley Porter, leading authority on medieval architecture and assistant professor of the history of art at Yale, has agreed to accept an appointment as professor of fine arts at Harvard, it was announced today. Porter is the French government's developer of the plans for reconstruction and preservation of the monuments of France which were damaged during the war.

(Special Dispatch From the Moscow Star-Mirror)

MOSCOW, Idaho, March 16.—Twin Falls and Moscow high schools will take the floor this evening in the finals of the State Basketball Tournament to settle the court title of Idaho. The teams after the victory will have Moscow's advantage of playing at home being offset by the reputation gained by the southern five during the preliminary and semi-finals, especially in their defeat of the creek Wallace team last night.

Although Moscow has the prestige of having won three state tournaments in the first three years of the tournament, it has disputed the proceedings, although winning the southern championship last season. There is, accordingly, much interest in the southern team's invasion of northern territory and this has been heightened by the fact that the Idaho Nalgizer's men have made a name for themselves in the tournament, displaying the worlds of class and a steadiness that augurs well for tonight's chances. Coeur d'Alene was defeated handily in the afternoon round, but it was expected that Twin Falls would run against a slug last night in the preliminary round. The Twin Falls crew merely took another rest in their hotels and buckled into the Wallace delegation with a slashing attack that carried off honors, though by an extremely narrow margin.

Moscow also came through the preliminary and semi-final rounds with flying colors, escaping the rigorous effort required of Twin Falls in disposing of Wallace. Aberdeen was put away by the champions in the afternoon and last night they trounced Driggs by a comfortable margin.

Tonight's championship tilt will be staged on the University of Idaho floor. Defender and challenger each has its following. Although the home crowd advantage goes with Moscow as in past years, Twin Falls seems to be without its rivals. There are twenty-two Twin Falls students at the state university and they have all been leading and can hardly be described as feeble.

Neither team has any advantage of familiarity with the floor, since the Moscow high school team has not been permitted to use this season. The tournament is conducted by the state university and all precautions have been taken to insure fair conditions of competition.

In the elimination round yesterday afternoon, Wallace defeated Caldwell, easily, 27 to 15. Twin Falls and Coeur d'Alene then took the floor and the southerners revealed a clear edge, taking the contest in the first round. Driggs and Boise were the next pair to meet and a bitter struggle resulted. The contest was nearly tied at the capital city crowd out by a score of 26 to 24. It was a sad disappointment for the Boise school which lost to Aberdeen with only 22 to 18 victory from Aberdeen without extending herself.

Last night Twin Falls paired with the tough Wallace five but the well balanced machine of the southerners came through the preliminary round in their raising finish. Twin Falls held a two-point lead and qualified for the finals. Wallace took an easy 22 to 16 victory from Aberdeen while the latter team made its supreme effort in the afternoon against Boise and apparently had little chance of the championship. The result was never in doubt, Moscow winning by six points.

The university has not neglected the big flow of traffic between Twin Falls and Moscow. Trophies will be awarded by the university to the winners of the 1920 state sports meet, among the teams entered.

NEWBERRY FRAUD JURY STILL DELIBERATING UPON VERDICT

GRAND JURORS, Mich., March 19.—The Newberry trial jury, which was called to court at 10 p. m. Thursday, had not reached a verdict at noon today.

It is believed that no matters have been taken up that day, but that the jurors are waiting through the "rain" amount of evidence in their hands. It is their intention to conduct an exhaustive survey of the case, it may be several days before a decision is reached.

On being informed that a verdict has been reached Judge Sessions will notify the attorneys and give them an hour's time to get the defendants into the court room.

ALLIES MUST ACCEPT PACT RESERVATION

Senate Makes This a Condition of Ratification by Change in Treaty

WASHINGTON, March 19.—Acceptance of the League reservations by the nations allied in the world war, was made a condition of ratification of the treaty by the senate this afternoon.

An amendment offered by Senator Lodge, the republican leader, to the so-called clause of "precarious" of the resolution of ratification which the nations involved may give silent assent to a reservation was adopted without a roll call.

The senate agreed to eliminate from the "precarious" provision that the reservation must be approved by an exchange of notes by at least three of the four big powers of the United States as well as with which the League stipulation was substituted.

DEPORTATION DELAYED BY DIFFERENCES

Department of Labor Cancels Warrants Issued by Department of Justice

WASHINGTON, March 9.—Further action against alleged alien anarchists is being delayed by the action of the department of labor in cancelling a large number of the deportation warrants under which alien anarchists have been arrested and held in the custody of the department of justice since today.

More than 100 deportation warrants have been cancelled. It was stated that the cancellations were made by Assistant Secretary of Labor Post, who is in charge of the department during the illness of Secretary Wilson.

At the office of Assistant Secretary of Labor Post today it was denied that there had been wholesale cancellations of deportation warrants. It was declared that only warrants had been cancelled "in Boston on the advice of the department of justice which that a few cancellations had been made of persons arrested in Paterson, N. J., upon advice from the same source."

Individual cancellations after examination of the evidence by the assistant secretary of labor. The cancellations were made of irregularities, said Assistant Secretary of Labor Post, "the department of justice may be trusted to find them."

HOUSTON WILL DEMAND TAXES BE ADJUSTED FOR BUSINESS

Says Prosperity of the Country Depends on Prompt Decision

DOUBTFUL IF THIS IS DONE

Congressmen Differ Over Ability to Handle This Session

WASHINGTON, March 19.—Revelation of taxes during the present session of congress is doubtful. Although Secretary of the Treasury, Houston has declared tax reduction is an immediate necessity of congress. It was reported today that wide differences of opinion exist on this question. Congressmen differ over the ability to handle this session.

"To make changes, alterations and corrections in the old law, and to enact the new law suggested would require many months, and the present session of congress would have to be extended indefinitely."

Other democratic members of the new means committee, however, say that the law can be changed, and leaves adjustment accordingly.

"About all that is to be done to meet the suggestion of Secretary Houston is to amend the law in order to place straight 20 per cent excise tax on the cash surplus from business to offset the recent decline in the United States supreme court that when such surplus is turned over to the treasury, it will be known as 'income.'"

Secretary Houston announced this morning that he will continue in press for immediate reduction of taxes.

"Business has a right to know its liabilities to the government," the secretary said, "and he declared that the statements that a revision of taxes would work to the disadvantage of small taxpayers were without foundation."

Among some members of the committee there is opposition to any attempt to arrange new taxes to fill the revenue losses caused by the supreme court decision. "We did not pass legislation to make up the losses," he said, "and it is not the business of congress to make up the losses of the government."

Representative Longworth, republican of Ohio, "It is a question whether we should take action to offset the loss due to a supreme court decision. Taxation of undistributed profits of corporations and an excise tax on stock dividends will be the question before us."

MINNESOTA AND WISCONSIN HAVE LARGER INCREASES FOR STATE PURPOSES

BISMARCK, N. D., March 18.—Official reports of state tax levies for Minnesota and Wisconsin, now available, show increases considerably greater than that of North Dakota.

While North Dakota has given the soldier a bonus of \$25 a month, as compared with \$10 by Minnesota and \$10 by Wisconsin, Minnesota has increased in taxes over 1918 of only 137 per cent, as compared with 150 for Minnesota and 176 for Wisconsin.

The official figures of state taxation for the years 1918 and 1919 are as follows:

JUVENILE DIAMONDS CUT DOWN

ST. LOUIS, March 18.—America's thousands of "future greats" in baseball will be enabled to play the game long after they are out of their teens and physical development next summer as a result of the efforts of John W. Sheridan, a local sporting writer.

Herbert's efforts to standardize a smaller diamond and a lighter ball for late under 17 years of age after several years of careful study of the needs of amateur players, received recognition at the seven-day meeting of the major leagues in Chicago, and as a result the joint rates committee took prompt and favorable action.

Heretofore smaller diamonds are to be laid out for boys and a lighter ball will be used under the same conditions.

PROSPECTS BRIGHT FOR BASEBALL AT THE TWIN FALLS HIGH SCHOOL

Much Promising Material in Evidence for 1920—"Speed" Newman Probable First String Twirler.

The prospects for a good baseball team are bright for this spring at the local high school. A number of last year's men will carry on the diamond while a wealth of promising new material will be schooled and instructed in the rudiments of the national game.

Enthusiasm is running high, but the coach, George E. Drayman, is not over-enthusiastic for a team that is so young and so inexperienced that anything else and he means to make a determined fight for the championship of the team state.

For the past two years Twin Falls has played Boise in baseball and the locals won the majority of the contests. Last year Twin Falls won two bull games and lost two. The previous year the locals were on the long end and threw to Boise's ome.

The surrounding towns and villages were only play for the locals; they finished them all in one week. Plenty and blasted their championship aspirations early in the season. There will be a season of the formative and the coach believes it can be worked into good shape and that the boys will form a well rounded squad. The boys will have a lot of fence busting ability gone; Pig has graduated and several other players of the pill have stopped school but just the same Twin Falls has always been noted for coming into fine bats and under the able guidance of Mr. Drayman, they should be able to circle the bases a few times.

No one has a position on the team fixed as yet. It is possible that they will get away from left although Newman, erstwhile moulton and basketball star, is universally accorded the position of moulton. He is a pitcher with speed and good curves and has a knowledge of the game acquired by several years of play. Newman will be counted on for some batting but will undoubtedly be relied upon to carry most of the team's games during the spring and summertime.

Wall Krengle, hoop and pignaker, careerer extraordinaire, may take a regular turn at slipping the onion part the stickmen in his specialty. He will be needed at shortstop. Krengle has had some experience on the mound and "Jackie" Ysken had quite a few.

FOSTER BUYS SHIPMAN PLACE

Five Acre Near Twin Falls Is Bought by Local Capitalist for \$100,000

W. E. Foster, of Hildesboro, Illinois, one of the wealthy farmers of that state, purchased this week the Shipman Brothers' ranch, widely known as the Al Paso ranch, consisting of 200 acres for a "home." The ranch is situated in the northwestern part of the county, near the town of Twin Falls.

The purchase included a modern ranch home, complete water system, horse, harness and corrals. Mr. Foster will occupy the ranch for an indefinite time.

For several years he has been living on Shipman Avenue North, having bought one of the four houses built at that street.

The place has been bought with the aid of a local bank, the Twin Falls Savings and Loan Co., which is being organized in Twin Falls.

Rotarians to Hold Bowling by Wire

The fourth annual International Rotary Club Bowling Championship will be decided on Monday night, April 19, when representative teams from five all over the United States and Canada will compete for the handsome championship trophy donated by the Whitteley Rotary club.

There being no entry fee, the only expense will be for the actual bowling and for telegrams in sending the scores to headquarters. Great interest has always been manifested in this annual event during the past and present indications assure a record breaking entry.

The Winnipeg Rotary club, champions of last year's event, will also be out and for telegrams in sending the scores to headquarters. Great interest has always been manifested in this annual event during the past and present indications assure a record breaking entry.

Really Absorbing Display of Spring Suits, Gowns and Frocks for Ladies and Misses

There are so many points of attraction in this Spring showing that we hardly know which to emphasize with most prominence. The models are very distinctive in the elaborate conceptions, as well as the more severe tailored designs. The cloths are the very newest and most fashionable weaves and the colors are very rich tones with artistic trimming treatments.

And then there is another very vital attraction—a price reduction very unusual when associated with such elegant qualities.

We cater to young women and women who stay young.

FASHION SHOW
 Twin Falls, Only Ready to Go

IS PRAISED

Inasmuch as the income tax law is forcing farmers to put their farming on a business basis and to keep a record of investments, expenses and sales, it may prove to have been a blessing in disguise, according to C. C. Taylor, newly-appointed farm management demonstrator of the University of Idaho extension division.

"Any farm account should provide for an inventory, of real estate, livestock, machinery, tools, and supplies on hand at the beginning of the year and at the end of the year," says Mr. Taylor. "One of his first services to the farmers of the state working through the county farm bureau and in co-operation with the county agents, will be to assist them in establishing such accounts."

Then he will help them interpret the figures they have kept, so they will know why it is that they are not making as much money as they are making—or why they are making so much.

"Farmers will undoubtedly have to submit income statements, and explain the loss," says Mr. Taylor, "and even though no income report were required by law it would be advisable from the farmer's individual standpoint to have such a set of figures for his own use."

"The farm account should provide for an inventory, but also for a list of all cash farm expenses and all cash sales from the farm, in thorough form, that if they occur throughout the year, they should provide for a summary of the year's figures, showing the farm income and an analysis of the strong points or the weaknesses of the business."

"To supply the need for an adequate farm account book, the extension division and the Idaho County Farm Bureau has on hand an inexpensive book which will be distributed at cost."

Blue Triangle Club Holds Fine Meeting

The Blue Triangle club met Wednesday evening in the dome of the high school.

The plan for the evening was in the nature of a literary mixer, along the line of vocations for girls. As many girls in the high school have not decided as to what vocation they shall follow, the speakers each talked on the work that she had chosen and led to clear many points concerning their work that were new or unknown to the girls. The following interesting program was given:

Play selection—Mrs. Fern Osborn—"The Profession of Nursing"

Miss Nesbitt—"The Profession of Osteopathy"

Orchestra—Orchestra Nurray and Gira Campbell.

Possibilities in Military—Miss Niley Viallo, solo.

Accompanied by Helen Lind—"Teaching as a Vocation" Miss Murray Flasco solo.

Possibilities in Music—Mrs. Vesta Bailey Reading—"Huggler's Dinner Party"

Organ—Greta Williams.

A short business meeting followed the program and the evening was closed by the girls singing several songs of the club composed by members of the Blue Triangle Club.

H. E. Bellard of Nampa is a Twin Falls visitor for a few days.

W. E. Cardoll of Three Creek came in yesterday to spend several days of business. He will also visit with friends before making the return trip.

Mrs. William Halsey of Rogerson was listed among the Twin Falls visitors yesterday afternoon. She stopped and visited with her family in the afternoon before returning.

LANDING WITH CASUALTIES

LOS ANGELES, March 18.—Suffering from serious head laceration and exposure, 23 officers and men, survivors of the accident to the United States submarine H-1, in which four men lost their lives, were landed at San Pedro harbor early today by the motor boat Casatonia.

With the arrival of the survivors it became known that the accident to the submarine was much more serious than at first appeared and that all on board had suffered.

After going aground off Point Delicado, Lower California, the submarine turned over several times. A fire broke out in the survivors' sleeping room of the boat in which one of the officers happened to be standing.

The batteries were broken and the acid scattered in all directions. Lieutenant Commander J. H. Webb and three of the crew were killed.

The acid scalded almost every man on the boat although some were not seriously injured.

In order to escape from the submarine the men had to crawl under a 1600 gallon tank of acid, which was in danger of bursting at any moment. Fortunately they got out without an explosion.

The Masatan was called by wireless. When it again reached the scene the men who had deserted the submarine were taken aboard.

They were on the rocks of the shore, most of them practically naked, the acid having destroyed their clothing.

The bodies of the four victims of the disaster.

Says Excise Tax Constitutional

WASHINGTON, March 18.—Johnson's excise tax on stock dividends will be constitutional, Wayne Johnston, solicitor of the treasury's department today told the house ways and means committee while considering new means of taxation to meet the losses caused by the supreme court decision that stock dividends are not taxable as income.

Johnson said the excise taxes would have to cover the same period of time as that affected by the court decision.

Infected Teeth a Menace to Health

VERY many people have infected teeth without knowing it. The tooth roots are often diseased and still there may be no pain or any outward sign of trouble.

Doctors say that hundreds of cases of inflammatory rheumatism, chronic stomach troubles, Bright's disease, nervous diseases, epilepsy and even insanity are caused by infected teeth. Some go so far as to declare they are the greatest danger to health today.

If your health is not as good as it should be, the cause may be infection at the tooth roots, where poisonous pus forms and is taken up by the blood and carried all through the system.

Have your teeth thoroughly examined by Registered Dentists using the E. R. Parker System. Their offices are fully equipped with X-Ray machines for making careful examinations, and their experience fits them to give advice that is well worth having. Your health depends so much upon your teeth that delays are dangerous and costly. Consultation and advice free.
