SENATOR (?) NEWBERRY

While it is still too early to learn what the fruits of his crime will be, the conviction of Truman H. Newberry of Michigan for conspiring to fraudulently obtain a seat in the United States senate, will stand it is hoped, as a chastening influence on the activities of other politicians who favor financial rather than majority rule.

It is to be hoped that Newberry will receive the maximum sentence that can be administered. It is such as he that has brought the curse of unrest upon the country—though the particular phase of pernicious activity at which he was caught is but one of the general scheme which has produced intolerable living conditions and the resultant threat of bolshevism. Compared to the profit-taking class of which Newberry is so fine a sample, the bomb-throwing I. W. W. is 200 per cent American.

Once more The Times desires to say that there are those in Idaho who have been, not better than Newberry, merely more fortunate. Let them choose carefully their steps along the path to the senate, and elsewhere.

INDUSTRIAL ART

The development of industrial art is one of the fields in which America thus far has made but slight advance.

In order to stimulate interest in this neglected branch of American education, an Industrial Arts Council has been formed, composed of representatives of business organizations especially influenced by the arts, such as the American Institute of Graphic Arts, The Millinery Chamber of Commerce, and the Toy Makers' Association.

America already has her place as an industrial nation. She is the pastmaster of quantity production. But in her busy life as a producer she has given too little thought to beauty as she went about. Hence, in many lines she cannot compete in the markets of the world with those older nations where artistic development has kept pace with industry.

But in America there are all the possibilities for the development of every type of industrial art as well as fine art. The young man or woman with an eye to the future can no better than to prepare for work in this industrial field. Advertising, fashion design, interior decoration, architecture, the designing of fabrics and an endless list of other openings await the skillful one who is prepared to add grace and beauty to utility. Moreover, the lines of beauty are usually the lines of strength, and the beautifying process is an improving process.

In nothing more than in the development of a national industrial art does America stand on the threshold of opportunity.

THE PILGRIMS' ANNIVERSARY

This year will see a remarkable celebration of the bicentennial of the landing of the Pilgrims. The celebration will include all peoples and classes in the United States, and the other English-speaking countries will take part as well. Great Britain, Canada and Australia will observe the anniversary in some appropriate manner, and the various celebrations will all be part of one big scheme. The plans are in charge of a committee of governors and other high civil and military authorities, and this committee will work in conjunction with committees in the other countries.

Patriotic and civic societies of all kinds might well line up and do their part in making this a stirring success.

The beginnings of America were of strange significance in these days of a world struggle toward freedom. The future of America is of grave importance, as a beacon light showing backward nations the way in the great principles of representative government. It is fortunate that this anniversary falls at this time, so that America and the world may be reminded what the Pilgrims sought and fought for. Americans especially will have to search their heart and conscience, resolving anew to keep maintained the many things that the Pilgrim Fathers established. They are in danger from more than one source.

"Great Britain Seeks to Gain Air Mastery." She'll be abducting the planets, first thing we know, and planting the British flag on the North Star.

The review of the quarter's lessons can be profitably made in the service of Peter and John, or perhaps better, the activity and power of the risen and ascended Christ manifested in the service of Peter and John.

Lesson 1. Peter Preaches at Pentecost (Acts 2).

Peter proves that Jesus Christ arose from the dead, according to the Scriptures, and that he is now seated at the right hand of the Father.

Lesson 2. Peter and John Heal a Lame Man (Acts 3).

This remarkable miracle wrought in the name of Jesus Christ proves that though Jesus had crucified him, he was now alive and continued his work through the disciples.

Lesson 3. Peter and John Witnessing of the Risen Christ Before the Sanhedrin (Acts 4).

It is interesting to know that Peter and John, who had been with Jesus, that in his life and work were being reproduced in and through them.

PHILLIPS OF "SPOOK" OIL WELL LAGGING

WASHINGTON, Pa., March 20.—The "spook" oil well, which has been producing oil for several months, is being abandoned and the expenses are rapidly mounting.

Why the "spooks" directed the little band of believers to seek in this oil well, is a mystery. The well is about 200 feet deep and the operation has been suspended because of the cost of the well.

While the "spook" theory of finding oil is based by the "hard" oil drillers, they cannot resist the impulse to take a quick look around whenever a pulley creeps or some unusual sound is heard. The job of following "spooks" directions is not at all a pleasant one for them, but they are willing to admit it is quite uncanny.

They have held the balance of power in both parties. So far as the republican party is concerned, the death of this war has died in vain.

Times—The wreck of the treaty is too complete that the country may well despair of any salvage. But to us who are in the front line of the struggle for liberty and peace cannot be saved would be indeed a counsel of despair unworthy of the acceptance of a nation in such a time of great international crisis.

The failure of the senate to ratify the treaty does not change the status of this country with regard to the Turkish settlement. It was pointed out that the senate's action is a matter of war with Turkey and will aid efforts to put the treaty and league of nations into effect.

SPORT LOVERS MUST HELP OLYMPIC FUND

President Kirby of Committee Appeals for Money.
At Least \$150,000 Must Be Raised by Popular Subscription to Pay Expenses of Athletes Expected to Compete at Antwerp.

If the United States is to send a team to the Olympic games at Antwerp next summer, the citizens will have to be borne by the sport lovers of the nation. This was made clear yesterday by Gustav T. Kirby, president of the Olympic committee of the United States, when he issued an appeal for a fund of at least \$150,000.

From 150 to 200 athletes will make up the Yankee team and, according to the estimate of N. W. Stubbs, secretary of the A. A. U., it will cost \$1,000 per man.

"To compete for fun may be fun," Kirby said, "but to compete for money is not only fun but accomplished, and when the winning is bringing honor to one's country the accomplishment becomes a triumph."

"For America to succeed she must have, as always, men and money; athletes the number of 150 or more, and money to the amount of \$150,000 or more, all a voluntary contribution. The number of 150 or more, and money to the amount of \$150,000 or more, all a voluntary contribution. BASEBALL NOTES

Oddy Murphy, Dartmouth pitcher, is looking for a big league job.

The Phillies are to the market to make trades. They need a whole new ball club.

Denny Kauff led the Giants in driving in runs, even if he slumped a bit in his hitting.

Lee Mapp was a failure in the American league, but he seems able to hold his own in the National.

Horace Milka, brother of the veteran Washington outfielder, will be in the Western league again this year.

Third baseman Fred Crawford, veteran of the Pittsburgh Pirates, has been known to be done with professional ball.

McGraw has signed a right-handed pitcher in the name of James O. Garret. The youngster hails from Tulsa, Okla.

Old lead buttons have been awarded the members of the 1931 Cincinnati world's championship baseball team.

Herb Hall, member of the Kansas City Blues' hurling staff since 1917, has announced his retirement from the game.

Joe Geddon had a good season with the Browns last year, and expects to have a better one in the coming campaign.

Baseball promises to have a big boom in the South this year. The leagues there all see signs of prosperity.

Manuel Cuelo of the Reds will be purchased by Sacramento of the Coast league and will be used as a third baseman.

Seattle is still waiting for the minor league ball clubs to come through with players promised the Puget Sound club manager.

Fritz Nisler, back in Baltimore, where he started toward the big league franchise to finish his baseball career there.

Baseball boys in Wichita, Kan., will see the first exhibition game of the spring as early as March 20, when the Cards visit the city on the plains.

Deputy pitchers are clamoring that the Tigers need added pitching strength if they are to garner the American league championship this year.

Infielder Fred Bralson, who played with Milwaukee a part of last season, is a free agent. Bralson has not been sold by the latter club to Columbus.

If Pat Moran takes Joe Schultz from the St. Louis Cardinals it will be the fourth National league club the blonde infielder-outfielder has played with.

George Gray, a southpaw who has made a fine record with independent teams in northern Illinois, has been signed for a tryout with the Little Rock Southern league club.

TAD'S TID-BITS

Prize Fighters Handed Eastward.
NEW YORK, March 20.—Leo Meyer, who is in the know out West, writes to tell us to be on the lookout for two Florida birds who will be here next month. Hays
"I see that Spider Hurry has had his first start. Fine! Well, here's a tip: If coach Benjamin can make good, wait until Jimmy Duffy hits his feet-rooted East. He's a sensation. He boxed Ezzard Kid last night, and Kelly touched him but twice—once when they shook hands at the start and again when they tilted at the finish."
"Tommy Stuppon, of Oakland, will take both Duffy and Hitting Oregon next in March. I expect great things of them. Ortega went East last year, but home sickness got him. He just came to Detroit. I think and put up a barn with either Charfield. Watch him this time."
"Jack Kearns and Tom Jones are promoting bouts at Times. They had a twenty-round go there the other day. Kearns is managing Eddie McAuliffe, a graduate of the 'Cincinnati Club.' Mahoney is the son of Jimmy Mahoney, the old-time featherweight, who was a star in his day. The kid is still green, but is a great boxer and has a swell right hand. He'll be everything in the Olympic club worth following in a awful pasting last week."
"Remember Jimmy Carroll, the little featherweight? I think he fought Tommy Houck and others in New York last year. He's a heavy and both ways—he weighs 170 pounds and is not a big barometer. He's absolutely a star."
"If there are any good lightweight or middleweight back year who can step a bit, they can grab of some back out here, but is a great boxer and well represented and well liked."

Infeld Problem Is McGraw's Big Worry

BY JACK VIGOR.
(International News Sporting Editor) NEW YORK, March 20.—Just what the makeup of the New York Giants will be when the 1926 National League race rolls south under way is somewhat of a puzzle.
Manager John McGraw, who spent most of the winter in Cuba, reported at a meeting of the club last night that the New York Giants will be in the 1926 National League race rolls south under way is somewhat of a puzzle.

Gridiron Rules May Be Changed

NEW YORK, March 20.—The first annual meeting of the football rules committee to be held in several years will convene here tonight. During the year there were no formal meetings of the committee, various interpretations of the rules being informal considered at conferences, or through correspondence.
A number of suggestions in reference to radical changes in the playing rules will be discussed tonight, however, and although a forecast of a majority vote for changes of a radical nature cannot be made, it is believed they will be seriously considered. Some of the changes suggested are:
A rule to have the goal kick following a touchdown made from a scrimmage formation.
Setting the goal posts closer together to make the kicking of field goals by the number of plays instead of by time.
Numbering the players.
Resigning the length of the game by the number of plays instead of by time.

Jimmy Wilde to Defend His Title

THE BOSTON, Ohio, March 20.—Jimmy Wilde, heavyweight boxing champion of the world, will defend his title here tonight in a ten-round bout against Frankie Mason, claimant of the American flyweight title, before the members of the Toledo A. C.
Wilde and Mason were matched after a long chase by Al Thatcher, matchmaker of the local club, who guaranteed Wilde \$10,000 for his share of the purse.
Wilde's showing in recent bouts, since his first catastrophic meeting with Jack Sharkey at Milwaukee, when the New York boxer won on points, indicates that the little Britisher is now thoroughly accustomed and will be his best tonight. But Wilde and his rival has been in training here for the last ten days, and interest in the bout indicates that they will fight before a packed house.

Mail Order Men Prefer to Bell at Long Distance Than Deal With People in Their Own Cities.

(Copyright)

One of the stock excuses of the man who orders goods from a mail order house is that there are many things that he wants that the local merchants do not carry in stock, and that he is necessary for him to send away from town to get them.

This explanation may be all right up to the theory that a poor excuse is better than none, but it fails to pass muster when it is subjected to a little scrutiny.

Ask the man who offers this as an excuse for his dealings with the mail order man why he does not go to the local merchant and ask him to order the articles desired if they are not to be found in the merchant's stock. The merchant will very gladly do this, and the merchant and customer will both profit.

The merchant can sell you whatever you desire at as low a price as the mail order house can make you goods the same quality and he can make a small profit.

The customer will profit from the transaction, because he will be dealing with a merchant who is a member of the goods that he sells, and who is really accessible in case the articles purchased do not prove to be all that the customer had expected.

Give Home Merchant Preference. Why not try this plan the next time you need something which you cannot find in any of your home stores?

The merchant in the average sized town cannot carry in stock everything that all of the people in his town may want at all times. It would require a capital many times larger than the store has to keep the best of everything the ordinarily does carry in stock at all times many things for which there is no general demand in his town.

He is always ready and willing, however, to make every effort to meet the demands of the community. Why

not, then, give him the preference over the far-distant mail order man if you must have something which is not to be found in the local stores? He will do the business in a satisfactory manner, give you as quick if not quicker service and more satisfactory treatment, and the chance is great that he will give you better values for the money. Finally, whatever profit it is to be made in the transaction will stay at home and do its bit toward making the merchant and his town and, incidentally, yourself, more progressive.

No business can be transacted as satisfactorily at long range as it can when the two parties to the transaction meet face to face. The only exception to this rule is in the case of the mail order man himself, who can transact his business with greater success at himself at long distance than he could if he had to meet his customers face to face. That is the reason that he does business by mail instead of selling to the people in his own city. If the goods which the mail order man advertises in his advertising columns were the bargains that he represents them to be, he would not have to go outside of the confines of his own city to sell all the goods he could possibly obtain. But the average mail order house not only does not make an effort to sell goods in his own city but will not sell to anyone residing within the city limits. The mail order man does not want to meet his customers face to face. He can do business better so far as he is concerned if the customer is some hundreds of miles away from his office.

Does Business in Open. The man who sells goods over the counter, on the other hand, does business in the open. He cannot hide behind a corporate name or talk to a displeased customer from behind the locked doors of a private office. He knows that he must face the man whose name he is a party to any transaction that won't stand the light of day. He knows that he must satisfy every customer with whom he may be dealing or he will lose not only that customer but probably others who will soon know the facts if he does not do the square thing by any one of his patrons.

There is no reason in the world for any person to send his money to a mail order house because he cannot find the article he wants in his local store. The local merchant is a business man for the very purpose of getting what you want. He has the letters which will enable him to tell you what you want and to get it as quickly as you could get it from a mail order house. It is only fair to him to give him the chance to make such profit as any dealer would make off the transaction and it is only fair to yourself to keep that profit at home rather than to send it away to some distant city from which it will never return.
