MURDER MYSTERY IS SURROUNDING DEATH OF W. C. BRYAN, SHOT BY CHICAGO BROKER

Drinking Bouts end in Tragedy That Is Unexplained

WOMAN IN CASE BEING SOUGHT

Wives of Two Men Tell Queer Stories—Police Briefed for Clue to Untangle the Web

CHICAGO, April 12.—Pickled men of the Chicago police force were engaged today in an attempt to solve the most sensational murder mystery that has occurred here in many weeks—the shooting to death of William C. Bryan, a promoter associated in business with the Elkhorn Valley Insurance Trust company.

The killing occurred in the company's office in the First National bank building, following what apparently was a drinking bout in which Bryan and Griffin had engaged. The latter, speaking after being discovered in a rooming house in the vicinity of the office, admitted that he had shot Bryan and then fled to Trenton, N. J., to escape the law.

Conflicting stories told by the wives of the two men make the mystery all the more baffling.

Bryan came here from Indianapolis six months ago to become associated with Griffin in business. Thereafter he was much in the company of Griffin and according to the latter's wife told a number of drinking bouts with him in the company office after the close of the day's work.

A week ago Griffin returned home after a prolonged drinking escapade with Bryan and "some one else," Griffin said. When asked if the third person was a woman, she answered "maybe so."

Set Up Clocks in Britain

LONDON, April 12.—Britishers got their clocks forward one hour today for the first time, as it is proposed to make "Summer Time" permanent in Great Britain. Some citizens started their clocks and some there were the usual number who forgot it altogether and will be late for the first time.

Interchurch World Move Plans County Conference In Twin Falls April 16th

State Director Randall Appeals to All Protestant Church Members to Attend Meeting at Methodist Church Next Friday

(Special to The Times.)
BOISE, April 12.—State Director Richard E. Randall of the United Synagogue, today sends a special appeal to the co-operating Protestant churches of Twin Falls to attend a county conference to be held Friday, April 16, at the Methodist church.

The hope of the world as at this moment is the Christian church. Ampley threatens all nations. It is staggering under the burden of materialism laid upon humanity by the physiologists. War is in man's mind and government is warring. Man kind must turn to the teachings of Jesus Christ or to the inevitable destination of the race is back to the jungle.

Sonora Troops Defeat Carranza Army in First Secessionist Battle

AGUA PRIETA, Mex., April 12.—Sonora's war of secession from the Mexican republic began late Monday with a battle in which there were 200 casualties, according to figures received today by General J. M. Pina, commander of the first division of Sonora troops.

The battle occurred at Pasa Hilita in the Chihuahua state line, beginning when the units of the Carranza troops entered Sonora through the pass.

The start of the battle occurred when a detachment of the Carranza troops started to enter the pass from the Chihuahua side. They were met by a force of Villa soldiers and the fighting soon became general.

In the heat of the fighting a detachment of Sonora troops, coming from the rear, made the Villa forces for their retreat and attacked them. Twenty-two Villistas and Sonora soldiers were slain before the war was discontinued.

The Carranza side, beginning when the units of the Carranza troops entered Sonora through the pass was started.

MY DIRT TALK WALK OUT! ST. LOUIS, APR 12—One! One! One!

The telephone guests of three hundred my dirt talkers will be heard in the St. Louis stock exchange today. Because of the railroad strike the avenue this afternoon the total loss exceeds receipts of the day.

EAST STILL PARALYZED BUT BELIEVES PEAK OF STRIKE HAS PASSED BY

Men Returning to Work in Many Sections and Stamped May Come—Shoppers Joy

NEW YORK, April 13.—Joseph P. Kamp, president of the United Brotherhood of Carpenters and Joiners of America, today announced that the strike has been reached and passed.

There was little noticeable improvement in the situation early today, however. The strike was still in effect and the Jersey Central, which carries a great part of the Jersey commerce, was still more or less tied up and running trains when crews could be found to man them.

Citizens held many meetings in many Jersey communities, but night and pledge themselves to fight, either as an individual or perform other tasks on terms to and from their homes.

Thousands of commuters have definitely abandoned going to work and from their homes for the duration of the strike.

Automobile trains are being utilized to get to their places of business. Adding to the general gloom today was miserable weather. It rained and snowed in many sections.

Meetings of strikers was in progress in several New Jersey centers today. One was addressed by Timothy J. Ryan, president of the Brotherhood of Railroad Firemen and Enginemen. Sheas and other brotherhood leaders were hoisted and they urged the men to return to work.

REBUKE EXPECTED—WAGE ISSUE, PLUMB PLAN AND POLITICIANS PROBLEMS

Wharton Believes Labor Board Will Have Quiet Effect on Industry—General Training Opposed—Also General Wood

KANSAS CITY, April 13.—The outstanding portions of the Plumb plan of the Federal government of the American Federation of Labor in session here, may be outlined as follows:

Requests for wage increases to be submitted to all railroads on April 23. Requests to be reported back in general executive officers' and labor than May 20.

Requests include standing off with one and a half for all overtime including Sundays.

Endorsement of the Plumb plan for government ownership and "democratic operation" of all railroads in the country.

Participation of all construction men to present all members of congress elected for Committee-Head railroad bill, described by convention leaders as "the most vicious piece of class legislation ever written on the statute books."

Rebuke for all members of the unions and brotherhoods making the "democratic" arrangement with the "Chicago" strike.

The meeting has already informally placed itself on record as opposed to universal military training, and to the candidacy of Leonard Wood for the presidency.

IRELAND IS GRIPPED BY GENERAL STRIKE AS PROTEST AGAINST ABUSE OF PRISONERS

Treatment of Mount Joy Political Captives Cause of Move

INDUSTRIES AND MAILS HALTED

DUBLIN, April 13.—A general strike went into effect here today as a protest against the treatment of Irish prisoners in the Mount Joy penitentiary.

Not a wheel has been turning since midnight and the factories were unable to resume operations until the strike was called off.

Even the government departments were affected as the strike spread to the clerks. The mails were held up as train service was paralyzed.

A number of ships were unable to leave their piers.

A feature of the movement was a "strike" of school students.

Sir Nevill Maclean, now commander in chief of British troops in Ireland, arrived here today.

Today Appoints Labor Board to Handle Disputes

Pickford Divorce Annulment Fight Starts Thursday

WASHINGTON, April 13.—President Wilson today named the railroad industry board created by the Cummins-Esch bill to settle disputes between railroad employers and employees.

The board is composed of nine members, three representing labor, three representing the railroad management, three representing the public as follows:

Public group—W. H. Hanger, Director of Columbia; Henry Hunt, ex-mayor of Cincinnati; H. M. Barton of Tennessee.

Employers' group—Albert Phillips, Ohio; A. O. Wharton; J. J. Forester, Management expert—Horace Baker, J. J. Elliot.

The appointment of this board, it was officially stated will be the only government "inter-meddling" with the railroad industry.

Pickford Divorce Annulment Fight Starts Thursday

CARSON, Nev., April 12.—Filing of the next title of the first in a series of suits for annulment of the divorce decree of Mary Pickford from her husband, Harry Elmer Pickford, was given today by Attorney General Leonard B. Powell.

"We hope to have the suit in power for filing Thursday at midnight," said Mr. Powell.

The divorce decree was to be attacked by Mrs. Pickford and her attorneys today to make public correspondence passing between Gavin McNab, counsel for Mrs. Pickford, and himself bearing on the case.

"I received from McNab a sentimental message which, as a result of the suit, I am now obliged to make public," said Powell.

SAN FRANCISCO, April 13.—Gavin McNab, who won the legal force being marshaled by Mary Pickford to defeat the proposal of Harry Elmer Pickford, to annul their divorce decree from Owen Quinn, today continued his policy of silence.

He declined to make any statement on the declaration of Attorney General Leonard B. Powell in Carson City that permission had been requested by McNab to annul the facts from the law in the case and to present them prior to the filing of the threatened action.

Government Is Expected to Show Hand in Strike Today

WASHINGTON, April 13.—The strike is expected to show its hand in the morning of a widespread strike, Attorney General Palmer stated today that the government will probably be announced to today after the strike has been called off.

The attorney general is hoping to see the railroad industry in a position to be able to handle the situation on the strike.

**French Labor Would

By HENRY WOOD

The Dempsey-Carpenter fight goes over four rounds, the heavyweight crowd for the first time in years, will leave America.

All traditional American sports news to remain here, but the fact cannot be denied, neither can it be disputed, that in Carpenter the ring has the fastest heavyweight of its very own; it has a most scientific biter with a terrific punch in either hand, and it has a bristly boy who has been fighting since he was fourteen years of age, a grizzled veteran of the gloves at 26, who successfully has held the championship of the world in both hands as fast as he can move. But he is like a torpedo—no weight, no stamina, no endurance, no stamina, no stamina, no stamina, no stamina.

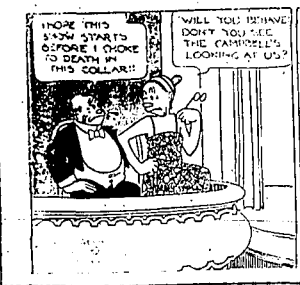

But the federation is "dead neutral" the government having anything to do with the actual operation of the properties. It is insisted that government operation has proved a costly and inefficient method in France as in other countries.

The full plan for the nationalization of the French railways which the federation is arranging to publicize shortly are inspired largely by the attitude which the French labor movement has already taken on the matter of national control.

While not going to the extreme limit of the Russian soviet, the French labor has limited the extent of nationalization like all of the natural resources and protective facilities of France be run for the benefit of "the collectivity" and the interest of the nation, and representatives of the producers, the consumers, the workmen and every body else.

In the case of the railways the federation insisted that after the matter taken over all the existing private lines be run by a central authority that the central authority for their operation be entrusted to a representative body that will have nothing whatever to do with the State.

Picking the winners is quite a game for the "big book" has it that both major leagues will be white hot. But I can't see the fact that this is the "big" writer submits the following:

AMERICAN LEAGUE:
1-Cleveland.
2-New York.
3-Boston.
4-St. Louis.

NATIONAL LEAGUE:
1-New York.
2-Cincinnati.
3-Chicago.
4-Brooklyn.

French Labor Would Nationalize Railways

By HENRY WOOD. (United Press Staff Correspondent.) PARIS, April 10.—(By Mail)—At the same moment that the United States turned back to its private owners...

Government ownership of the railroads is essential in order to bring the railroads under a single control and in order to eliminate all profit of speculation.

While not going to the extreme limit of the Russian soviet, the French laboring men insist that the railroads be all of the national resources and productive facilities of France be run for the benefit of the "collectivity" and not for the private interest.

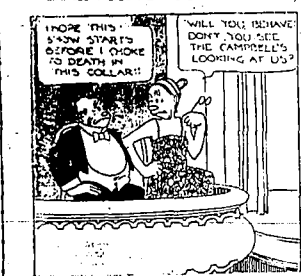

This autonomous organization would have a central committee composed of representatives of every interested branch of the "collectivity" in whose sole interest the railroads would be run.

All questions of salary, working hours and conditions would be regulated between the central committee and the various labor organizations.

The federation sums up its idea of nationalization as follows: the exclusion of private interests and speculative exploitation; possession of the railroads by the state and their operation by an autonomous organization.

Think Reds Not as Good as Last Year and Looks to McGraw's Young Blood to Put Giants Over—Cleveland Well Balanced

By JACK VEILOCK. N. Y. Sports Editor. NEW YORK, April 12.—Where will the pennants fly next fall? With the baseball season scheduled to open tomorrow this question held the attention of fans today—and many a guess was registered.

Picking the winners is quite a game for the "dope book" has it that both major leagues will be white hot.

A ninth game it appeared that Ohio might come out on top.

Psychic Tests for Bank Clerks

CHICAGO, April 12—Honesty tests of bank employees to prevent thefts were advocated by police and court officials here today as a result of a recent outbreak of bank robberies by employees.

The court, suggested by Municipal Judge Jarecki, would "show up" employees with criminal intentions before thefts could be committed.

According to Jarecki's suggestion every employe in a Chicago bank should undergo a psychopathic examination which detects the mental attitude of persons. He would also make it a rule that all applicants for bank jobs take the examination.

"If employees take a much interest and had as much faith in the city's psychopathic laboratory as the judges," he said, "before employing new bank clerks should have the prospective employe's mind tested and their mental stability and to find out if they have any criminal tendencies."

According to the police, there would be no such thing as bank robberies, Jarecki said. "Before employing new bank clerks should have the prospective employe's mind tested and their mental stability and to find out if they have any criminal tendencies."

Chicago bankers are preparing to investigate the matter.

Miss Trueblood Hostess to Friends Thursday

BRITON CALLS 'JAPS HUNS OF EAST'

Declares Mikado's Men Were Arrogant and Brutal in Treatment of Russians

LONDON, April 12.—The British did not get along with the Japs in the Far East, who considered as pertaining the late Admiral Kolchak, but rather that the Bolsheviks themselves, according to a British War minister, have been the cause of the trouble.

"The Japanese," says Colonel Ward, "looked with suspicion upon the efforts of the other allies, especially British and American, and sought to exclude them from their councils."

"No orders were ever given to the allied commanders the Japanese have complete charge of the attack (H. G.) until late for them to take part or offer suggestions."

Colonel Ward states that when the British and American troops were treating Chinese Russians like a tribe of conquered Hottentots, an officer at the Japanese headquarters expressed his astonishment that the British had ever treated him like that.

"I told him," says Colonel Ward, "that the first Japanese who insulted an English officer and even asked to do so by the allies."

"He received the most categorical promises of white-hot support and early relief, and he was allowed to proceed to take up the dangerous duty of head of the Onak government."

"Had those writings and promises been magnanimously given to an institutional assembly would he be sitting at Moscow, hammering out the details of a financial constitution for a Russian republic, and not a monetary system similar to our own."

As to the Japs' treatment of the Russians, Colonel Ward says: "The British with the most acute courtesy, the English officers' courages were invaded by their private soldiers, who treat a military man as a commoner."

RECOVERED MERCHANT GETS HIS THIRTEEN ORDER

LONDON, Ill., April 12.—John Latz, Jr., is a restaurateur and hotelier here. Latz had been trading in the stock market for some time from a St. Louis jobbing house. The third market was really through Latz, who was arrested in Chicago when Latz got his 15 down bonds from an order calling for 1002 down.

After three or four of such attempts, Latz was arrested in Chicago and sent down and passed his role to the jailer. "Customers here expecting to see him in the next few days," says Latz, "will be disappointed."

AGED CARRIER CAN'T QUIT HIS JOB

Boston Postman Can't Afford to Leave Job He Had Held Fifty-nine Years

BOSTON, April 12.—Although his eyesight is falling fast and despite the fact that he has been working for the United States Post Office for fifty-nine years, James Bartholomew, seventy-seven years of age, continues to work, because he cannot afford to quit.

He is the oldest letter carrier in the United States, in point of service, and is one of the men who will be mentioned in the Sterling-Blacklock bill, now before the United States Senate, which provides for old-age pensions for civil service employees of the Government.

"I have been working fifty-nine years," said Mr. Bartholomew, "but I can't do any more."

Mr. Bartholomew's eyesight is falling so rapidly that he cannot read the names and addresses on letters, so he has been given the special job of carrying mail to the homes of old-age pensioners for civil service employees of the Government.

"I have been working fifty-nine years," said Mr. Bartholomew, "but I can't do any more."

INDIA SLOWLY TURNING TO AVIATION

Development of Commercial Flying Only Just Beginning in the Far East

BOMBAY, India, April 16.—It has often been said that in the land of the ox we must not expect the speed of the aeroplane.

Changes come gradually in India. Perhaps it is not surprising that India has not yet seen the commercial development of aviation.

The Indian mail is sluggish of all things, and it is not surprising that the development of aviation in India is only just beginning.

A great deal of money will have to be sunk in India before commercial aviation begins to pay. Although from the aviation point of view, India is a backward country, it has a large population and a large number of cities.

There is another reason why India should not develop aeraft. The country is so large and so backward that the amount of money that can be raised is very small.
