REVOLUTIONISTS CAPTURE MEXICO CITY

AMERICAN WAR BARRIERS ORDERED READY TO FLEE MANY MEXICAN ISSUES THAT ARISE

Body of 1200 Sea Soldiers on Way to Key West for Duty

By A. O. BRADFOED

(Special Press Staff Correspondent)
WASHINGTON, May 8.—The war barriers have been ordered to Key West, Fla., ready for action in Mexico City should revolutionary developments there require it. Secretary Daniels made this announcement late today, after the receipt of a message from General Carranza, C. C., to Manila, where the force of 1200 men will be ordered to Key West in the event that American troops were in peril.

When Daniels made his announcement the government by naval treaty was trying to get in touch with the United States embassy in Mexico City from which no word has come since Thursday night. The land wires have been cut by the rebels and therefore the government had no confirmation or denial of the report that revolutionaries had captured the capital and that Carranza was a fugitive.

Shortly before Daniels announced the order for dispatch of marines, the navy department was advised that five divisions of the six United States destroyers at Key West, or possibly duty off the east coast of Mexico, should be at their destination this morning.

The marines will augment the divisions of destroyers at Key West, making a formidable force in any crisis in Mexico jeopardizing the property of American citizens.

BILLIARDIST SUTTON CLEVER AT NURSING FOR EARLY SPRING

Possesses Figure More Popularly Known as Alderman.

Close Play Is His Specialty and His Stroke Is Essentially "Pool" — Hits Ball Clean and Smooth and Effectively.

George B. Sutton does not look like a billiard player. He looks more like a retired banker in possession. With a figure popularly known as Alderman, a mass of gray hair and a big, dignified mustache, he is a striking personality.

If you were sitting in a billiard room looking for a game and Mr. Sutton should appear and ask you to play, you would be glad to take him on; and if he suggested, what he would expect that you play 100 points for \$100, you wouldn't take his money; you wouldn't take advantage of a pleasant gentleman who had come in to pass the time, or you playing billiards. You wouldn't take his money, Mr. B. is a snail.

Sutton is known as the man king. Of course, he does other things well, too, but close play is his specialty. He is essentially a "pool" stroke. He has a very good pool player before he took up billiards. Once upon a time Sutton

Gerber, California.
This is a splendid territory for oranges and lemons. I came from the famous Rollands berry, where I was engaged in orange growing. I have been there three years. I have twenty acres in pines, figs, peaches, oranges and olives. I have done very well with all of them. Last year I made an excellent record with olives. A border on my place consisting of 44 trees brought me \$37, which is at the rate of \$1340 an acre. I have a strong preference for the pumping system of irrigation. There is no better farming opportunity in California than we have right here in this valley.

"PALMERITIS"

ATTORNEY General Palmer—poor fellow. So many newspapers are speaking of the conduct of his minions of the law as "Palmeritis" that the Deseret Evening News comes to his relief, or attempts to, by saying that assistant secretary of labor, Mr. Louis F. Post, is under congressional investigation for activities opposing those of the department of justice and that possibly Mr. Palmer's strenuous pursuit of "reds" is "a case of applying prevention instead of administering a healed cure."

The Deseret News is always fair in its editorial discussions and it admits that of the many newspapers attacking Mr. Palmer's conduct some of them have "considerable character for conservatism and ability."

In a journal believes, as the Salt Lake writer professes to, that "there is still an element at large in the nation that has nothing but hate for its institutions, and that business itself exclusively with plans to tear down and destroy," then of course that journal should advocate drastic procedure to rid the country of such would-be wreckers of our governmental machinery. Sincerely believing in the rest.

Wherein has Mr. Palmer's official course headed off a single attempt "to tear down and destroy" the institutions which our forefathers founded? Possibly many of the hundreds who were deported should have been punished in some manner—possibly so—but what mind, schooled in the simplest elements of psychology, would have concluded that they must be shunted off to foreign lands? Could there be devised a more rapid method of increasing converts to the thought whose extirpation is thus attempted?

What of the hundreds of citizens of Detroit who were crowded into the Postoffice building there to spend a whole night, and then freed because there was not a scintilla of evidence for their arrest in the first place? Those innocent citizens were not allowed to communicate with any member of their own families during their false imprisonment.

If there is as much unanimity as the Salt Lake paper points out in calling it "Palmeritis," there must be some reason. It seems relevant to ask why did Mr. Palmer start the whole scheme of high sugar prices by allowing the Louisiana producers to raise their prices to a higher point than it had ever been? Why did not Mr. Palmer take the advice of other officers of the administration and secure the Cuban sugar crop for the citizens of this country?

Why has not the administration, if you please, done something to stop profiteering, besides prosecuting a few little retailers who were in no case proved to have made as large a profit as either the manufacturer, jobber or wholesaler?

If Mr. Palmer would give the powers of his office to solving such problems as these instead of pursuing a course not calculated to bring him into a position of ungraciousness with the men who really donate the campaign funds of both parties, then might there be less newspapers of "considerable character for conservatism and dignity" criticizing his conduct in such biting and insinuating phrases.

LABOR TO KEEP ITS OWN MONEY

ABOUT a year ago the labor unions of Seattle started a bank, the deposits soon increased to more than \$100,000, and have been so steadily increasing ever since that organized labor is preparing to start other banks in that state.

Officers of the Washington State Federation of Labor are taking steps looking to the establishment of many such banks. They have learned that it is not difficult to get competent, careful men to handle the funds of their banks.

Some of the main arguments they give for the establishment of labor-union banks are: They will cause money to be invested in the most productive industries and prevent its use in speculation; will check the evils of loaning money to the banks who loan it to capitalists who either pay it to laborers in wages or use it to oppose paying labor what it deems a just wage; will enable labor to have money ready at hand when they need it for such emergencies as lock-outs and shut-downs.

Such banks operated as co-operative loaning institutions should be as successful in this country as they have been for upwards of twenty years in Germany, Rumania and other European countries, where bank failures among the "people's banks," as they are called in Germany, are practically unknown.

There are no doubt many ways in which such banks would be a great lifting force to labor in this country. By exercising care in starting and conducting their banks they can be of tremendous co-operative banks by wage earners and others should not be a stabilizing force to the country in general. Moreover, the business training, moral stability and sense of independence which would come to all persons engaging in such an enterprise would be in itself a national asset.

"Knox would repeal war resolutions."—News headline. What, so soon after the war? O, we remember, Senator Knox has just become a candidate.

By declaring a temporary armistice Villa shows that the biggest reward can not buy him, but he can buy the hatchet.

News report says "Louden favored by dry forces." Maybe he heard of the Shoshone raid on one of his Pullman cars.

It is possible that Senator Borah is wishing: "O, for our Lodge in some vast wilderness."

"Bomb plots show signs of passing."—News headline. Mr. Palmer must be off his job.

FISHERMAN BOY LANDS 8-POUND TROUT ALONE

Fishing in Walla Walla Bay of Fifteen Catches Huge Rainbow Trout

WALLA WALLA, Wash., May 8.—Raymond G. Gattis, 15 years old, is the proudest daddy of Isaac Wallin in this vicinity. This afternoon while fishing in Mill creek within the city limits he landed a rainbow trout weighing 8 pounds 6 1/2 ounces. For a time it was difficult to tell which was fish and which was tail, for the youth leaped into the tank, gave battle, and when he landed the prize, which is 22 inches long, he had a half ounce in addition. Gene now leads the field for the annual trout prize.

EMINENTLY JUST

Under title, "Special Notice," the following was printed in the editorial column of the Deseret Evening News of May 6th. It is reproduced in accordance with the terms of the contract (largest of its announced policy)—Editor:

During the progress of the recent war in Europe the Church of Jesus Christ of Latter-day Saints gave to the aid of this nation in its efforts with the allies to free the world from the domination of unscrupulous despotism. The "Mormon" people demonstrated their devotion to country and the cause of freedom by sending their brave sons to the front and by contributing liberally to the calls for funds to meet the financial requirements of the gigantic struggle.

The church, through its splendid organization was a mighty force in the fray, gathering the means in demand and sending their soldiers over the sea it proved to the world that loyalty to the government and devotion to the welfare of humanity formed part of the "Mormon" creed and entered into the religious life of its followers. At this wonderful retention of popular leaders. Thank God, the world will be over and the need for an organized help rendered unmodified. There are still loud cries for more money, for more money in large sums to swell the numerous "drives" that are in vogue.

Seattle Beaten at Base Ball

Vancouver, B. C., May 8.—Vancouver and Seattle were both kicking their heels around this afternoon but Seattle apparently got the better of the fight. The home team won by a score of 15 to 10. The Seattle second 9 stars in the first three innings. Vancouver scored up in the fifth when Frank Wilson got his second hit and ran off the week this time with two men on. Vancouver by winning today remains the only undefeated club in the Pacific International, having won the four games against Millard's Hoops.

TRY TO PROVE SECRETARY POST FAVORED REDS

Quizzed Six Hours, He Denies Charge; Says Government Unfair in Trials

WASHINGTON, May 8.—Assistant Secretary of Labor Post cancelled the deportation warrants on an alien whose name was involved in the bombing of Attorney General Palmer's house, Representative Johnson, Washington, chairman of the house immigration committee, charged before the house rules committee today.

Post, when asked about his correspondence with Emma Goldman, defended her veracily but declared he disagreed with her views.

Thousand Persons Fleece of \$200,000

KANSAS CITY, Mo., May 8.—Ten men were indicted here tonight for fleecing more than a thousand persons in Missouri, Kansas, Nebraska, Iowa and Michigan for an amount estimated at \$200,000.

It is said the victims were induced to deposit sums of from \$100 to \$200 for which they were to receive government claims in reclamation projects in Colorado.

HOOVER'S RUN SATURNALIA OF EXTRAVAGANCE

Prominent Los Angeles Citizen Says His Workers Swarmed After Pay

WASHINGTON, May 8.—Herbert Hoover's campaign in Los Angeles county during the presidential primary election was "the worst saturnalia of political extravagance ever experienced or emulated in Southern California," Mayor Linsner, manager of Herbert Johnson in the county, charged in a telegram made public at the senator's office here today.

It may interest you to know, the Los Angeles register in Alton, Mo., explains that neither your Mr. Lucey nor anyone else connected with your political organization has accepted about campaign expenses since my challenge was published.

GOOD NEWS TO OUR BET FARMERS

A. A. Merrill, agricultural superintendent of the Idaho Co-operative Beet Sugar Company of Piler, received today that another carload of beet has left Denver by express. This beet is imported and guaranteed to be first class seed.

20 years ago a pair of twin brothers took out a 20-pay life policy at age 25, each paying annual premium of \$50.00. One died in the first policy year and his widow received the \$10,000. The other lived the full twenty years, paying his annual payment 20 times, making the total paid in \$10,000. He receives his policy paid in full for life for the full amount, \$10,000.
