It is not only our duty to make the right known but to make it prevalent.—EDMUND BURKE

FACTS ABOUT SUGAR

There are three words constitute the name of a weekly journal, published from 82 Fall street, New York City and edited by E. W. Mayo.

Only a brief perusal of the pages of any issue of this is necessary to convince people of even semi-mature judgment that "Facts" is entirely a misnomer as part of the publication's title.

It will be difficult, indeed, to persuade the public that Mr. Mooney is correct in saying that "if injustice were done in fixing the price of Louisiana sugar at 17 and 18 cents, the sugar planters rather than the public were the ones who suffered."

Mr. Mooney says that he "knew at the time that the crop would not be more than 50 percent of that of the preceding year."

How much had materials and labor increased greatly in cost? over the prior year? How much had labor increased since 1918? How much had steel iron vats increased? How much charcoal, etc., etc?

The country has long known that when the Louisiana producers were allowed to charge 17 cents for sugar, large quantities of Cuban raw sugar were carried to that state and sold at 17 cents.

Since the 17 and 18 cents price allowed a larger profit to those who produced on a lower cost basis, Mr. Mooney was asked by chairman Husted why was not a percentage of profit on cost of production allowed instead of a blanket permit for high prices being spread?

It is a long desultory and very plain story. The conclusions of the farce at regulation in this matter all run to one end,—that the government's instrumentalities failed to function in the interest of the people.

LABOR VOTE IN CITIES

An interesting event in the way of municipal elections where labor seeks to win is the recent election in St. Paul, Minnesota.

It is said to be the first time that labor ever tried to capture the city government. Labor put up a full ticket and elected one-half the councilmen.

This, of course, labor did without the help of farmers, except what aid they may have received from a dozen or so retired farmers living in that city.

Those who believe that there are economic laws to prevent the farmers and other laborers from acting to a common political end will do well to ponder the St. Paul election.

And the liberal vote will be so large this year that labor will be sure to get a very large part of it. Some publicists light socialism, others who are not socialists go into conferences with them in order to keep their plans toned down to the practical, and a practical which will not produce costly shocks if and when it does come.

The good book says: "Compromise with thine enemy while he is in the way;" and here he people met half way round the globe from here who would do well to revolve with candor and good will that Biblical admonition.

Public Forum

Hansen, Idaho, May 12. Editor Twin Falls Times:

Congratulations on your able editorial and editorial in connection with political prisoners. I once had the pleasure of listening to Kate Hillard O'Brien deliver a lecture on your labor subject a couple of years ago. The number of four small children. A year later I heard the same speaker deliver a farewell address in prison for the first time for his labor to express her convictions about her own.

No other nation—not even Germany—gave such savage sentences to their political prisoners as this. Germany sentenced Liebknecht in four years, although he denounced the government repeatedly in numerous terms. We sent Debs to jail for 10 years in man past 69 years old for a speech which was not even a violation of law. While his mind was not in the best of health if they were mistaken can be sentenced to 10 year terms for violating others opinions in harmony with what many people consider the true spirit of democracy. The United States can scarcely be called the house of liberty.

Yours sincerely, Wm. G. Lightbourne.

FARM BUREAU BUYS PUREBREDS

(Registration News)

Practical and fine Jersey bulls were brought to the North Side, were secured last week by the Farm Bureau of its county at the Jersey sale at Payette. Two individuals were purchased. Acquiesce of Fair Acres, a two year old who had an official record of 243 pounds of butter fat in a year, and Peoria's Guy of Fair Acres, an eight month old calf of the last named bull, whose dam has an official record equal to a little over 100 pounds in one year.

The Farm Bureau has taken the stand that the cheapest way to secure better dairy cattle, is to breed those and several other communities expect to secure bulls. Most of the banks of the county have indicated this plan will assist in any reasonable way.

OPIMUM REACHES CHINA VIA UNITED STATES

By special correspondent of The Christian Science Monitor

PERKIO, China. The decision of the Treasury Department to prohibit the exportation of opium, crack and their derivatives after February 16 was most favorably commented on in the Chinese press. The Chinese expressed that in addition to this action the American Government would ban opium further and prohibit the shipment of these drugs from other countries through the United States. It is known that raw opium is smuggled from European countries in bond through the United States; and it is believed here that if the government can find a way to amend the treaties with European countries so that such drugs will not have the privilege of being bonded it would result in cutting off a large part of the supply which now flows into China from all western countries.

WHAT DOES THE POTATO THINK IT IS?

(Kansas City Star)

The potato at 20 cents a pound seems to have broken into a class where it may have to be proceeded against. We don't know just what the process of indictment might be, but maybe the federal trade commission or Attorney General Palmer would know. But what if it was a new statute which must be passed now. It's been in a merger, or something, and no one has been able to get it out of there. The potato or other days, while respectable and highly esteemed in its place, never saw evidence of anything. It was, in fact, governing and gave the impression of having made a bath of its life. Baked with the jacket on it had a boarding house air that was a good deal of a handicap to it. Baked it rose somewhat in the scale and was deemed worthy to associate with eggplant and cream gravy. Prior to the French revolution it had some pretensions to politeness in the claim. But never until now, we believe, had the potato boldly asserted its claim to be classed as a tuberosus fruit.

LOOKS BETTER FOR COPPER

An early improvement in the copper industry may be expected as a result of an important selling movement which has recently begun. The plan is to sell the red metal to French manufacturers on credit and several million pounds have already been disposed of by the Copper Export Association with other important sales pending.

In this connection it will be of local interest to learn that the country is selling the red metal faster than it is being produced. Sales for last month were approximately 100 million pounds, as compared to February and March, approximately 75 million pounds. At this rate of an average sale of 20 million pounds per month in excess of production, the surplus stocks will soon be exhausted.

Notre is hereby given that the annual stockholders' meeting of the Times Printing and Publishing Co., Inc., will be held at the office of the company, June 7, at ten o'clock a. m.

FIRE TAKES TWO OF PRINCETON'S BEST BUILDINGS

Chapel and Dickson Hall Are Consumed; Valued at \$200,000

PRINCETON, N. J., May 15.—Major General Augustus W. Dickson Hall, noted buildings on the campus of Princeton university were destroyed by fire early today. The damage done was estimated at \$200,000. Sparks driven by a high wind set fire also to the roof of McCosh hall, the largest recreation hall in the country, valued at \$1,000,000, but the structure was saved after a hard fight.

Notre is hereby given that the annual stockholders' meeting of the Times Printing and Publishing Co., Inc., will be held at the office of the company, June 7, at ten o'clock a. m.

RESIDENT TO APPOINT NEW DIRECTOR RAILROADS

WASHINGTON, May 14.—President Wilson will today appoint his successor to Walker D. Hines, director general of the railroad administration.

It is understood that the president has tendered the position to John Barton Payne, secretary of the Interior, in addition to his other duties. The work remaining to the railroad administration is that of liquidation and Secretary Payne, who was formerly solicitor of the railroad administration, is familiar with the work.

DOPE ABOUT PITCHER ELLER

"Shine-Dale" Artie's a Native of Muncie, Ind., and began playing in 1912.

Honore A. Eller, the "shiner-bull" pitcher, was born at Muncie, Ind., July 8, 1894. He began playing baseball with the Champlain, Ind. club in 1913. The next spring he went to Hamlet, Ind., to play for them. He played two years, in 1916 and 1917.

Hon. Eller.

He went to Chicago White Sox in 1917, but was returned to Muncie late in April. He joined the army on the Mexican border, was reinstated in baseball in September, and drafted by Cincinnati. Last May he pitched a no-hit game against the Cardinals.

SMALLER DIAMOND FOR BOYS

Joint Rules Committee Make Provision for New Measurements and Lighter Ball.

Boys under sixteen years were formerly regulated by the joint rules committee of the major as a future source of supply for the professional ranks by provision for a smaller diamond and a lighter ball for the younger players.

Criticism has been made in the past that youngsters often strained their arms in attempts to throw the official ball the same distance as players who had attained their full muscular strength.

The diamond for boys will be 32 feet between bases instead of 90 feet. The pitching mound will be 50 feet from the plate instead of 60 feet 6 inches. The ball will weigh four and one-half ounces instead of five and one-quarter.

Copies of the regulations will be sent to majors and playground directors of American cities with a request the new measurements be adopted.

NAVY ENTERS OLYMPICS

Plans to enter athletes of the navy and marine corps in practically all of the Olympic games to be held at Antwerp next summer.

Announcement was made by the Navy Department. Events for which teams will be entered include swimming, rowing, boating, wrestling, track events and shooting.
