They Grab Every Thing From Hiram

CHICAGO, June 21.—Senator Hiram Johnson of California on departing from Chicago for San Francisco Sunday on the Overland Limited was astonished to find the Pullman compartment reserved for him to discover another man occupying it. The stranger refused to give up the compartment until forced to do so as the result of a complaint made by Senator Johnson to the Pullman authorities. It was then discovered that the mistake was due to the fact that the name of the first occupant also was Johnson.—The Johnson of Illinois, we have it.

Race Riot Breaks Out in Chicago Black Belt When Abyssinia Boosters Burn Flags and Kill 2 Whites

CHICAGO, June 21.—Grover Cleveland Holden, negro, alleged leader of the weird "star order of Ethiopia" and the "Ethiopian missionary to Abyssinia," was positively identified today by two witnesses, as the man who burned an American flag, and then shot and killed two white men in the south side rioting last night. A number of other men were stabbed, wounded or shot before the disorder was quelled.

LONDON, June 21.—The financial conference today definitely abandoned the scheme whereby France proposed to let the British Government assume its portion as Germany paid liability to France. This decision was said, was brought about by America's refusal to permit delay to delay payment of Britain's war debt to the United States until the amount had been secured by Germany's indemnity to England. It would amount to a loan of £100 million to Britain which would delay payments of war debts if it proposed had been affirmed.

NEWFOUNDLAND IMPORTS SHIFT TO AMERICAS

JOHNS, N. F., June 19.—The steady advance of Newfoundland and the trade figures just made public here, show that the United States in 1919 were valued at \$2,493,570 and in 1920 at \$2,849,852. In the same period imports from Canada were valued at \$2,537,000 to \$1,717,734 and from the United States, from \$1,624,250 to \$1,669,250.

The climate of Newfoundland is so severe that all of its food supplies, except fish, a few farm products and a small quantity of meat, have to be imported. Practically all clothing, furniture and household goods also come from abroad. Until about 20 years ago these imports were divided about equally between Great Britain, Canada and the United States, but since the tonnage each year has been to buy less from the mother country and more from the nearer neighbors.

As the value of articles imported has doubled since the beginning of the present war, falling off in bulk on imports from Great Britain in much greater than indicated in the figures of value. Although the difficulties of transport across the Atlantic, especially during the war, have had much to do with this, the increase in the value of the activities of American and Canadian commercial travelers.

Business interests here have been delighted that freight rates to re-establish the trade with various portions of the empire which was disrupted by the war. They are expected to give attention to Newfoundland. Dealers in this city are sending buyers to the United States to find out what they are prepared to fill their requirements there to the great extent possible, if they can be assured of delivery.

Fire Causes Are Much Misstated

CHICAGO, Ill., June 19.—Contradictory statements as to the causes of fire are almost as numerous as those who make them. If one may credit the fire reports printed in newspapers and other journals, in an address made to a recent convention of a recent convention with reference to the causes of fire, the fire losses in 1917 and 1918 show that 3 per cent and 24 per cent respectively of the total losses are attributable to "sparks on roofs." Reports from the same sources for the first quarter of 1920 indicate a great increase in the total losses and business districts of our cities.

Of the \$7,000,000 fire loss for the first quarter of 1920, \$1,500,000 was of public and business buildings and only about \$2,000,000 or about 5 per cent in dwellings. The greater part of fires in engaged in buildings of fire-retardant or semi-fire-retardant construction and are being investigated. It would appear that the great majority of fires in some places appear to be caused by electrical apparatus and inadequate fire-fighting machinery.

Insufficient attention by building departments of the greater part of fire prevention and installation of fire-retardant equipment, and business buildings, lack of efficient and consistent inspection of buildings after completion, as well as efficient building regulations, are responsible for many of these preventable losses by which occur with seeming regularity.

Idaho Game Breeder's Association Membership

TO THE FARMERS OF TWIN FALLS COUNTY
To the Farmers of Twin Falls County, Greetings:

The rapidity with which the memberships in the Idaho Game Breeder's association are now being sold is well known to all of you. It is a very short time until every one of them are disposed of. In discussing these matters with Mr. A. H. Bull, general manager of the association, and who recently conducted the campaign for membership in Twin Falls, I learned that the reason why the association was not visiting the farmers with a view of selling them memberships was because of the amount of time and expense that would be involved in conducting such a campaign. Condition which we can all appreciate. Nevertheless, the farmers should be given an opportunity to join so that they and their families can better enjoy the benefits to be derived through the ownership of these memberships in this association, and as a result, I opened up negotiations with the association for the purchase of one hundred memberships at par value. I would personally guarantee that they would be sold exclusively to the farmers of Twin Falls county, and was successful in securing them. They will be on sale at my store at exactly the same price that I paid for them. Interested parties should send their applications accompanied by Ten Dollars at their earliest possible convenience for even this supply will not last long, and it is very doubtful if any more can be had.

Yours very respectfully,
FISHER DRUG CO.

0,000 Hands to Be Used for Cutting of Acreage Down in Kansas

owing to the very wet weather of the spring.
The cutting is expected to be in full blast June 25, and the State and Federal employment offices scattered throughout the State are gradually spreading northward over the state, and in the northern part the first of July will see the work actually begun.
Nebraska grain will be ripe early in July, and by the time the latter part of the month is reached the hundreds and thousands of "harvest hands" will be working in the Dakotas.
Known to be finishing its harvest, where something like 2,511,000 acres were planted to wheat. Hundreds of hands will journey through the wheat belt, from Oklahoma to Canada, "making" the harvest.
Wages in Kansas this year will be larger than usual. At a recent meeting of wheat growers of this section, held at Hubbard, a minimum price of \$2.14 a bushel was fixed for wheat.

The standard wage scale for Kansas will be 70 cents an hour for a ten-hour day. Board and lodging free are also included.
No schedule for cooks, muckers or threshing engineers was announced.
In Stafford County, Rowers, farmers agreed not to pay more than \$7 a day and to pay a \$500 fine if they paid more.
In some places last year scales of as high as \$12 and \$14 were paid, and it is expected the scale may reach that this year.
700 PER CENT RISE IN PAPER COSTS KILLS 1200 NEWSPAPERS
The "Philadelphia Trenchant" has raised its price to 3 cents a copy, defining this increase by pointing out that the cost of paper has increased 700% since the beginning of the war, with the result that more than 1,200 newspapers had to stop publication within the last year.

CONSUL-GENERAL CALLS U.S. JUGOSLAVS TO HIM IMMEDIATELY
Upon the invitation of Mr. Vlado Savich, Consul-General of the Kingdom of the Serbs, Croats and Slovenes, the New York Consulate to discuss ways and means of organizing the economic resources of the Jugoslavs in America for the purpose of benefiting Jugoslav undertakings abroad, as well as here. As a result, a committee was appointed, which has arranged a preliminary meeting of the Jugoslavs of New York, to be held early in June at the Consulate. Should it be deemed of sufficient importance that the plan is desirable and feasible, a temporary organizing committee will be chosen to cooperate with the consulate in calling 20 national organizations of Jugoslavs in the United States to a conference at which this committee will be organized on a nation-wide basis.

SILVER HIGHER SHOWN BY LATE QUOTATIONS
Quotations for Domestic Stocks of White Metal Makes Spectacular Rise
LONDON, June 21.—Silver advanced nearly 5 cents an ounce today. In the first part of the session it was held in local speculative demand. Supplies were not large and the one of the market at the close was somewhat uncertain.
NEW YORK, June 21.—As a result of the arrangement made by the treasury department to purchase silver from domestic producers under the terms of the Pittman act on the basis of \$1 an ounce, there has been a sharp decline in the price of silver. This decline changed their form of quotation to differentiate between United States and foreign metal. Domestic was quoted at 92 1/2 cents, the foreign at 90 cents, the latter being based on the London equivalent.

Why Does Twin Falls Grow
Intensive irrigation farming and allied industries combined with its pleasant, healthful surroundings, give Twin Falls a staple impetus for growth.
The facts about farm production sound ludicrous to the person unfamiliar with this big, fruitful country. Southside Twin Falls 1919 crops \$13,245,903.
Since Twin Falls tract is the largest and one of the oldest irrigated bodies of land in the state, it is a practical demonstration of ideal irrigation practices in Southern Idaho.
SOIL—The soil of the Twin Falls country is of a volcanic ash, of good depth and exceptional fertility laid over porous volcanic rock.
These Snake river plains have in general a slope of 20 to 40 feet per mile, hence reduce the problem of drainage to an insignificant matter.

FARM CROPS
The principal farm products raised are: Alfalfa, grain, potatoes, beans, clover and alfalfa seed, livestock, sugar beets and fruit.
1919 Crops Produced on South Side Twin Falls Irrigation Tract
WHEAT—64 bushels per acre, 17 acres; 51 bushels per acre, 75 acres; John Maxwell, Twin Falls. Seventy bushels per acre, 5 acres; Charles Emerson, Twin Falls. Fifty-one bushels per acre, 35 acres; C. D. Irwin, Kimberly. Sixty bushels per acre, 9 acres; W. T. Combs, Twin Falls.
POTATOES—350 sacks per acre, 2 acres; M. Hammons. Two hundred seventy sacks per acre, 10 acres; W. N. Parrish. Three hundred sacks per acre, 5 acres; S. S. Humphrey. (All above sacks weigh approximately 110 lbs. each.)
CLOVER SEED—Albino, 10 bushels per acre, 50 acres; A. H. 659, A. B. Willson, Twin Falls; 15 1/2 bushels per acre, 18 acres; Sam Elliott, Kimberly; \$6100 from 24 acres, Harry Wilson, Kimberly. RED CLOVER—\$2820, 10 bushels per acre, 10 acres; P. H. Weller, Kimberly.
COMMERCIAL APPLE ORCHARDS are numerous. Mike Strouk, Twin Falls, \$300 per acre, at \$40 in fruit, 40 acres; J. H. Harbin, Twin Falls, \$1000 per acre, 3 acres; at Kimberly; \$2863 from 5 acres of apples, M. Hammons, Twin Falls.

Some Standing Crop Records 1915-19
ALEXAPPA—5.7 tons per acre, 175 acres; 10 bushels seed per acre, 20 acres; W. F. Alworth, Curry. ALFALFA SEED—21 1/2 bushels per acre; E. B. Fletcher, Twin Falls.
BEANS—\$207.37 per acre, 25 acres; Ormsby and Brown; \$181.95 per acre, 11 acres; J. M. Maxwell, Twin Falls.
WHEAT—81 bushels per acre; C. E. Eldridge; 80 bushels per acre, T. A. Gibson, Hansen; 90 bushels per acre, R. Peterson, Kimberly. 93 bushels per acre, W. A. Bickford, Filer.
OATS—119.40 bushels per acre, C. B. Eldred, Twin Falls. BARLEY—122.50 bushels per acre, H. J. Kast, Hausen.
SUGAR BEETS—27 tons per acre, 10 acres, F. C. Dume, Twin Falls. One \$1,000,000 sugar factory handling 6000 acres of beets in 1919; another to be built this year has 2700 acres.
LIVESTOCK—Thousands of sheep and cattle winter on Twin Falls tract each year. Alfalfa hay is plentiful and dairying is carried on with large profits in this country of abundant feeds and pastures. Twin Falls county pure blood livestock sales in 1919 netted prices as high in average as any in the Northwest. Shortlorn, Jersey, horse and swine sales are held regularly each year. Twin Falls banks finance several boys and girls pure-blood livestock clubs in this county.

With the news that the price of silver had advanced upon the London market nearly 5 cents; that foreign silver had advanced to 99 cents an ounce and domestic to 92 1/2 cents as a result of an arrangement whereby the treasury department can purchase the American production of silver, the confidence of local mining men, which has been freely expressed over since the metal dropped as suddenly as it had risen, was justified.
The psychological effect of this arrangement is the following: the mining industry in spite of the confidence which was so freely expressed by authorities on metal conditions, will mean that the mines are operating under the present many handicaps in the hope of searching out new ore bodies.
Inasmuch as under the Pittman act approximately 27,000,000 ounces of silver were melted down, which under the provisions of the law will be purchased from domestic producers by the government at \$1 per ounce, and with domestic production but slightly in excess of 500,000 ounces during 1919, it can be readily seen that the production that silver should remain at or above \$1 per ounce for several years to come is not unreasonable. In addition to the large volume demanded for the metal, the use of silver in commerce and the arts is no small consideration. These excessive domestic needs for the white metal, which the foreign demand which is bound to arise as soon as the stocks France and Germany have managed to accumulate, and rather by sacrificing Italian life interests for the immediate, and as soon as financial conditions in the Orient become normal again, are bound to keep silver in a dominant position for years to come.

5,000 AMERICANS SAIL TO CZECHOSLOVAK TOURNAMENT
Over 5,000 Americans of Czechoslovak origin sailed last night on the "Mauretania" and other large ships, to attend the athletic tournament of the Sokols, which take place during the last three weeks of June, in Prague, the ancient capital of Bohemia and the principal city of the new and independent republic of the Czechoslovak Republic. The expedition is the first of its kind in eight years. The tournament, which is to celebrate Czechoslovak newly acquired freedom, will include a gorgeous pageant and cathartics in which some 16,000 "Sokols" or gymnasts will take part simultaneously.
The Sokol Athletic Society was organized in 1862, in Bohemia, and introduced into this country by Bohemian immigrants with the result that there are now 128 branches in 18 states of the Union. Ninety-two per cent of the members are American citizens. The name "Sokol" means "falcon," a bird which is strong and free in spirit. It was adopted as the emblem of the organization, every member of which wears a falcon feather in the cap of his uniform.
The Sokol Society was originally founded for physical training. The program was extended to include civic duties as political education, public health, and every subject that can benefit the nation, and consequently it has proven a most effective force in the unification, not only of the Czechs, but of the Slavs in general.

COOPERATIVE BUYING BY PRINCE JUGOSLAVS
Jugoslav restaurateurs, of whom there are several thousand in San Francisco and other large cities of the Pacific coast, met last month in the Serbian Club, San Francisco, and drew up a plan for the cooperative buying of supplies. The project is being widely commented upon by the Jugoslav press and it is predicted that the joint endeavor, which is intended to advance the interests of merchants in other directions as well, will be a strong organization.
Fishing is another occupation which is engaged in largely by Jugoslavs on the Pacific coast, there being some 20,000 in the industry. Three steamers have just gone from Seattle to San Pedro, where they will join other units of the Jugoslav "fleet" for summer maneuvers in the waters of Southern California.

WITCH-AMERICAN DEMAND FOR CHRISTIAN NEWSPAPER
In response to a demand from the thirty Dutch farmers of the Middle West, for an up-to-date daily along Christian lines, "The American Christian Daily" will shortly begin publication. Two editions, Chicago and national, will be issued daily. In the English language. The Rev. J. M. Stossman, president of the Christian Daily Corporation, is now in Europe arranging for special correspondence in all countries. The Rev. J. M. Stossman will be a member of the Associated Press.
William Jennings Bryan is to send forth an appeal to the Christians of America to subscribe to the paper.
The Dutch immigrant group in this country is of a strictly religious character and has contributed many leaders to the field of foreign missions. Notable examples are Dr. Genet, the leader of the Salvation Army in Japan; the Rev. Verbeek, one of America's leading missionaries to that country; and the Rev. Dr. Zwerner, America's foremost missionary in the Mohabnathul world.

FARMERS ENDORSE ITALIAN PLANS FOR AMERICA
Recognizing that the American public is most nearly reached through the radio, the Italian farmers have decided to borrow Italy to America by means of plays depicting Italian life and customs. To this end The Escorial Dramatic Company, Inc., has been established at 129 North State street, Chicago, and will form a stock company which will tour the United States to present to American audiences Italian plays translated into English. The project is endorsed by Governor Judge H. Harnes of Chicago, Daniel M. Lippert, of the Chicago Opera Company, and other prominent Italians in the United States. It also has been met with approval in Italy, as it is felt that Americans would regard with more understanding and sympathy the Italians who came to their shores, were they familiar with the traditions and surroundings of the immigrants' mother country.

JEWISH CONVENTION FOR VALENTINE DEVELOPMENT
The American Jewish Congress held its second convention in Philadelphia, June 20 and 31, to consider such problems as Jewish social relations and political rights in Eastern Europe, and the establishment of a Jewish homeland in Palestine. In 16, 000 delegates from all over the world were present. The convention announced that it will continue till these matters are disposed of permanently. Mr. H. H. Harnes declared that "All of our plans and activities have not only been conceived and executed in the highest spirit of patriotism to American institutions, but the various parts in the program have been the form of the most impressive demonstrations of American loyalty ever held by the citizens of this country of the Jewish faith and race."

CZECHOSLOVAKS HERE APPROVE WITHDRAWAL FROM SIBERIA
At a recent meeting in Chicago of the National Council which represents 45 national Czechoslovak organizations with a membership in the United States amounting to 1,500,000, the delegates warmly applauded the proclamation of the Foreign Minister of Czechoslovakia to the effect that Czechoslovak troops would soon be withdrawn from Russia. Mr. Joseph Maranda, who was sent by the Council to investigate conditions among Czechoslovak soldiers, who the Trans-Siberian railroad in Russia and Siberia, reported that the men in the Siberian Legion were eager to taking part in the national troubles in Russia, being entirely friendly with the Russian people.
The Council has arranged to welcome members of the Siberian Legion as they pass through the United States en route to Czechoslovakia.

AMERICAN OR-GERMAN DECENT STUDY CIVICS
One hundred and thirty societies of Americans of German descent in Illinois and the neighboring states organized at a conference, held recently in Chicago an association for the study of civics in the members of the various societies forming the association will be given an opportunity of improving their knowledge of the history, constitution and laws of the United States and of training themselves to acquire political experience in order to be able to co-operate in the solution of social and national problems.
