Hiram Johnson Reports C. O. P.

COX AND ROOSEVELT TO CARRY DEMOCRATIC STANDARD DURING CAMPAIGN; CONVENTION ENDED

GERMANS MUST GIVE PROMISE TO OBEY PAUL

California in Statement Compares Platforms of Republicans and Democrats

Sees Only One Choice

America Must Be Allowed to Live Her Own Life in Her Own Way, He Declares

SAN FRANCISCO, July 7. (UP)—Declaring that the overwhelming question in the campaign is whether he will enter the mainstream of European and Asiatic politics in diplomacy or whether America will be her own life in her own way, with independence unfettered, Senator Hiram Johnson today announced he would support the republican party.

Comparing Platforms In his statement, which does not mention Mr. C. Harding by name, he compares the republican and democratic platforms, pointing out that the republican "stands firmly against the restriction of immigration and the restriction of foreign trade."

Only One Choice The candidate stands for "a republican platform which leaves those who believe in safeguarding, protecting and preserving our Americanism, but one choice, and that is to support the republican party."

League Covenant Unsatisfactory

Regarding the covenant planks of the respective platforms, Johnson said he said: "Both the republican and democratic platforms have failed to include in the usual political program, but nevertheless these platforms in direct opposition to each other sharply define and clearly present the question of the November election. The republicans were asked to insert in their platform the covenant plank of the League of Nations, and the league to accept peace, declaring for the permanent prohibition of the league of nations."

ARMISTICE TERMS AS PROPOSED BY VILLA MAY BE SCORED BY MEXICO

EL PASO, Texas, July 7. (UP)—The proposal for an armistice between those who complain from the Mexican government is impracticable, he reported today to have been made by Francisco Villa, rebel chieftain. El Paso, an El Paso architect and politician, said that the armistice terms proposed by Villa, met the hand of the mountain fastnesses of the government.

CHARGE IS MADE THAT MONEY WAS USED TO BAR REED AT S. F.

THE WOOD CAMPAIGN CHICAGO, July 7. (UP)—A history of the financing of the Wood campaign for the presidency was given today by Senator Reed at a hearing committee here today by William Leahy. Leahy said he was the "depository" for \$400,000 collected for the Wood campaign. He sent \$225,000 to the Chicago headquarters of the governor, he said, \$130,000 to eastern headquarters, and \$45,000 to the New York headquarters. Leahy is now a clerk for the balance, \$50,000, to Colonel W. C. Procter, Wood's manager.

PRINT PAPER SHORTAGE MEANS IMAGE EDITION

Owing to the present situation in the shortage of print paper, and the fact that a carload has not been on the road for several days but has not arrived here, The Tribune will be forced to issue a 4-page edition for a few evenings. The paper shortage has thrown a handicap upon the publishers, and everywhere a curtailment in the number of pages has been forced upon the publishers. Some time ago the Tribune was fortunate in securing a carload of paper, and advised from the factory are to the effect that it has been shipped, but it has not arrived in Twin Falls. The Tribune will be absolutely necessary.

is not only our duty to make the right known but to make prevalent.—EDMUND BURKE

WILSON'S LIQUOR PLANK

The prohibition issue is clearly drawn in the opposing planks tendered the democratic convention by Mr. Bryan and Postmaster General Burleson. "We pledge the party," declares Bryan plunk, "to the effective enforcement of the Volstead law, in every and in good faith, without any increase in the alcoholic content of permitted beverages and without any weakening of any of its provisions."

The Burleson or administration plank—for it is a fair inference a member of the president's cabinet would not propose a plank this important issue that lacked the president's approval—is enough to satisfy the expectations of the "personal liberty" men that are lined up against Mr. Bryan. Of the prohibition plank it says:

"The democratic party pledges its utmost endeavors to prevent this new grant of federal power from being exercised in such manner as to become oppressive or to deprive the people of that individual liberty which it was the purpose of the union of states to guarantee and preserve through all time."
The Volstead act, voted by a republican president, and passed over his veto by a republican congress, is an extreme exercise of the powers granted by the 18th amendment and it should not be amended in any way.

THE COST OF THE WAR

It was indeed an expensive war," said Homer S. Cummings, in his keynote address at San Francisco. It was indeed. Its direct cost to the United States was nearly as much as to France—\$22,000,000,000 for the United States and \$28,000,000,000 for France, according to the official calculation of our war department. But France was in the war four years and three months, and fighting every minute of that time, while the United States was technically in the war one year and seven months, but on the firing line a few months.

MR. JOHNSON SUPPORTS G. O. P.

With proper reservations. In his keynote address at San Francisco, Mr. Johnson said that he stood the republican party against the president's executive order, but that he did not see any objection to the president's executive order, but that he did not see any objection to the president's executive order.

CHARGE IS MADE THAT MONEY USED TO BAR REED AT S. F.

Spent the money touring six Missouri congressional districts for Lewis. He had been asserting that more money was spent on other campaigns than on the Lewis primary effort. Money Used Against Reed. Senator Johnson, a member of the investigation committee, said he might have something to say later on the report of the committee with his allegations that money was expended to bar Reed from the democratic primary election. The presence of a number of Missouri democrats gave rise to the report. The charge, it is reported, was made by a member of Reed's campaign committee who had been given their expenses to San Francisco.

Continued from page 1
The two parties acted in similar fashion in one respect, but from different motives and for different purposes. Both rejected the plea for adoption of the league with reservations. The republican party was against the league as such and because so many reservations were attached to it. The democratic party was against the league as such and because so many reservations were attached to it.

WILL TWIN FALLS FALL DOWN ON LANDING CAVALRY TROOP

The following telegram was received Sunday at Twin Falls and is being attended to at once by the proposed cavalry troop for Twin Falls. It will have to be abandoned:
Idaho, Idaho, July 3, 1920.

Minimum strength of national guard cavalry troop, three officers. When will you have enough signed to be numbered?
I am a 35-year-old man. Only 35-year-old men allowed one year's enlistment, otherwise three years' enlistment.

PATCH.
Adjutant General, S. G. L. 1.
Now, you know Mr. of Twin Falls who is the younger? Are you going to let this cavalry organization and all it means to you in a military way get away from you?
Don't you know that if in case of a war you were called you had better get with an organization well recognized by the United States army and commanded by your own officers, than to be dragged out by the heels and put into a horse where you don't want to be?

And that he behind this organization body and soul and that if it were not for the fact that he is not in active service, he would be your commander?
Don't you know that the girls will love the uniform and the cavalry man of the United States army is the finest looking soldier in the world?
Where are the horses where you don't have any one can get on a horse and stick there but it takes a cavalry man to take care of the horse and that even the horse knows this.

Below is published the list of names of those who have signed their determination to join Twin Falls Cavalry Troop.
We got the troop.
We have not yet been given a camp site.

PLEA IS MADE FOR SUFFRAGE

Governor Cox Sends Telegram to Louisiana Legislation for Favorable Action

DAYTON, Ohio, July 7.—Governor Cox appealed to the democratic legislature of Louisiana to ratify the woman suffrage amendment. In a telegram to the chairman of the Louisiana democratic caucus committee Cox declared that the state legislature "was it as a duty to the democratic party to ratify the amendment."

Geography Plays Its Part in Cox Success
COLUMBUS, O., July 7.—Selection of Columbus as the democratic national standard bearer was a matter of geography in the opinion of Harry M. Daugherty, who succeeded by a slender margin in the campaign of Senator Harding, Cox's rival for presidential honor.

GERMANS MUST GIVE PROMISE TO OBEY PACT

(Continued from Page 1)
rebunch made a dramatic appeal for peace.

Minister of Finance Simons asked for time in which to obtain approval for demobilized troops.
"I'm an old man," said Feinberg, "in asking delay. I have a reputation to maintain. I have promised the electorate to enforce the treaty and I don't do my job to fulfill these promises." Feinberg's speech was interrupted by a member of the audience who said: "You don't do my job to fulfill these promises. You're a politician."

Dr. Feinberg, opening the German argument, declared the Reichwehr had been reduced to less than 100,000 men. He declared that the economic situation for non-fulfillment of the treaty terms was disastrous. He declared that Germany did not realize the gun that existed between the treaty and the Reichwehr. He declared that the Reichwehr was a threat to the peace of Europe.

The Most Welcome Tire That Ever Came to Market

Men Who Appreciate Superlative Values Prefer The Brunswick
In every great tire factory, the chief question is: "How much can we give for the money?" And the product depends on the policy adopted.

Every man who has become acquainted with Brunswick Tires knows that Brunswick standards are again evident. This famous concern—noted as a leader in every line it entered since 1845—has once more proved that its policy is right.

A perfect tire is simply a matter of knowledge and standards and skill. No secrets nor patents prevent making an ideal tire.
But standards come first. For in tire making there is vast room for skimping, for subtle economies, for hidden shortcomings. Makers without the highest standards don't build high-grade tires.

# LACE GUARDS AT ROCK CREEK BY-PASS TRAIL

## Women Without Escorts Will Be Protected—Special Speed Cops Arranged

Guards will be stationed by the Rock Creek bridge, north of town, to protect the women who are to traverse the unimproved trail in a pilgrimage now required over the pass trail which leads down the canyon and crosses the creek on a bridge. This was decided at a meeting of the city council last evening, the object being to provide protection from intruders who might molest traveling women.

Traffic across the bridge has now been suspended, and the by-pass trail will be unimproved and protected until the new bridge is completed and open for traffic.

Another phase of special police work is being effected by the council, which is to provide a special speed cops who will keep eye on those who attempt to burn on the highway. These special cops will act as observers, and will be allowed to pull a car over to see if the driver is away from the glare of fly dirt. It can't be done now without a court order.

# Order Sidewalk Estimates

City Engineer Berg was instructed last evening to prepare a report on the cost of preparing a sidewalk for the city water department.

Recipients of a new paving permit, including Brothers, Grant, and others, were granted permission to all on a service line at the creek front of their establishment, located Avenue South. About \$2,000 is estimated on the city treasury would be the expense for the sidewalk.

# City Physician

A matter of appointing a city physician was discussed at a meeting of the city council last evening. The individual to be appointed is Dr. J. W. Larson, who is attached to the medical college of the University of Idaho. The council will select some physician, and only licensed, but still not a direct physician, is considered.

# Alley Sprinkling

Alley sprinkling was another item discussed. Whether the alleys were regularly sprinkled or merely the avenues were not in the council's opinion. It appeared to be a matter of opinion that alleys were included in the regular sprinkling plan.

# Assault Charge Heard in Court

A. Sieberkrub was brought into court for a jury trial this morning, charged with assault upon Mrs. E. E. Larson, wife of J. W. Larson. Sieberkrub was defended by W. E. Larson, while State Attorney Stephens conducted the prosecution. Members of the jury were J. O. O. Ball, H. C. Smith, E. E. Larson, D. H. O. Miller and J. E. Larson.

Reveries on the stand this morning, told of Sieberkrub's visit to Larson and his request to examine her eyes, and other ailments. After telling her children to leave the house, Sieberkrub attempted to force Larson to go to the local rooming house for another examination. Sieberkrub was later called to the stand, but the trial had not been concluded at 1:30 this afternoon.

# Prohibition Issue Depends on America

"Five thousand feet up in an airplane for three hundred miles coming to Twin Falls, and a couple of hours' current made it a fact that I was there. I had to get up the stairs and down some stairs and then back as I was not willing to try a second, but I did not mind it. W. E. Johnson, president of the National Prohibition Association, spoke at the Twin Falls country club yesterday morning. The Rev. A. H. Grant acted as moderator, and Mr. Johnson, who is a member of the Prohibition League, was the main attraction.

Mr. Johnson was "lashed with" the most important matter connected with prohibition in America today and that is not only prohibition, "to see how many feet into public office who are not subject to prohibition, especially if they are not subject to making or enforcing law. As America grows more and more in this hour."

Though only six inches in diameter a tank invented in England for the use of compressed cold gas for motor vehicles had no without a pressure of 3,000 pounds to the square inch.

# TIRES

## Win Again

Without a tire change and breaking all previous records, Tommy Milton, driving a Deussenberg car, on Oldfield Tires, won the 225 mile race at Tacoma July Fifth, averaging 95 miles an hour.

Ralph Mulford finished second, Eddie Hearn third, and Art Klein fourth, all on Oldfield Tires. Hearn established another record when he drove the entire distance without a stop.

Indianapolis, Uniontown and now Tacoma!

And Oldfield Tires victorious over all rivals, EVERY TIME!

Such results are beyond the sphere of mere luck. Publicly, competitively, conclusively they prove to you that Oldfield Tires are the most trustworthy tires built.

For Speedways are the victor's most cruel testing ground of tires. In each of these races, the world gave his Oldfields more destructive wear than you would impose on your tires in years of normal use.

Truly Barney Oldfield, veteran "Master Driver," has built a tire that will STAND UP.

Because these tires stand up, they win races.

They will win for you too, and for the same reason.

Equip your cars with winners—speed-tested Oldfield Tires!
